

Biostatistics and Biometry

IN THE COLLEGE OF SCIENCES AND THE
COLLEGE OF HEALTH AND HUMAN SERVICES

Faculty Committee for Biostatistics and Biometry

Juanjuan Fan, Ph.D., Professor of Statistics
Richard A. Levine, Ph.D., Professor of Statistics
Kung-Jong Lui, Ph.D., Professor of Statistics
John E. Alcaraz, Ph.D., Associate Professor of Public Health
Barbara Ann Bailey, Ph.D., Associate Professor of Statistics
Jianwei Chen, Ph.D., Associate Professor of Statistics
Chii-Dean Lin, Ph.D., Associate Professor of Statistics
Xialu Liu, Ph.D., Assistant Professor of Management Information Systems
Jorge C. Román, Ph.D., Assistant Professor of Mathematics and Statistics
Mingan Yang, Ph.D., Assistant Professor of Public Health

General Information

San Diego State University provides preparation for biostatistically oriented careers by offering biostatistics related coursework, research opportunities and biostatistical consulting experience within regular degree programs in the Departments of Biology, Mathematics and Statistics, and the School of Public Health. A Master of Science degree in statistics with concentration in biostatistics may be earned in the Department of Mathematics and Statistics; and a Master of Public Health degree with concentration in biometry may be earned in the School of Public Health. Degrees in general biostatistics or biometry are not offered by the university. However, a Master of Science degree in biostatistics or biometry may be earned in Interdisciplinary Studies (see the appropriate section in this bulletin).

Specific courses in biostatistics and biometry (listed below) are offered with the cooperation of faculty from the participating departments. Biostatistics and biometry courses that specialize in applications to biology are offered in the Department of Biology; similarly, courses that specialize in applications to public health are offered in the School of Public Health. Courses that cover a variety of areas of application (including biology and public health) are offered by the Department of Mathematics and Statistics. In addition to these applied courses, the Department of Mathematics and Statistics offers some courses in statistics and biostatistics that are more mathematically oriented.

Courses Acceptable for Biostatistics and Biometry

Refer to Courses and Curricula and Regulations of the Division of Graduate Affairs sections of this bulletin for explanation of the course numbering system, unit or credit hour, prerequisites, and related information.

Biology (BIOL)

BIOL 597A	Univariate Statistical Methods in Biology	3
-----------	---	---

Public Health (P H)

(Adviser: Mingan Yang, Ph.D., 619-594-3454)

P H 602	Biostatistics	3
P H 627	Advanced Statistical Methods in Public Health	3
P H 628	Applications of Multivariate Statistics in Public Health	3

Statistics (STAT)

(Adviser: Kung-Jong Lui, Ph.D., 619-594-7239)

STAT 520	Applied Multivariate Analysis	3
STAT 550	Applied Probability	3
STAT 551A	Probability and Mathematical Statistics	3
STAT 551B	Probability and Mathematical Statistics	3
STAT 560	Sample Surveys	3
STAT 580	Statistical Computing	3
STAT 670A-670B	Advanced Mathematical Statistics	3-3
STAT 672	Nonparametric Statistics	3
STAT 676	Bayesian Statistics	3
STAT 677	Design of Experiments	3
STAT 678	Survival Analysis	3
STAT 680A-680B	Advanced Biostatistical Methods	3-3
