Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Four of this bulletin.

Admission to the Degree Curriculum

The Comprehensive Examination
This written examination, designed to evaluate achievement is required of all candidates for the Master of Arts degree in learning design and technology. A student is eligible to take the comprehensive examination only after advancement to candidacy.

The examination is offered during the semester in which students are enrolled in Learning Design and Technology 795. For information on examination dates, contact the coordinator of learning design and technology.

Selection of Plan A or Plan B
Students pursuing the Master of Arts degree in learning design and technology must select either Plan A (thesis) or Plan B (capstone project and comprehensive examination). Both plans require the ability to formulate and define research or evaluation problems, to assemble data pertinent to the problem, to draw conclusions, and to present the study in an acceptable written form.

Plan A (thesis) is designed for students who have a particular research problem they wish to investigate in some detail. In general, applicants will be programmed for Plan B (see below). After the student is approximately half way through the program, permission to transfer to Plan A (thesis) may be requested. Once a student has requested permission to transfer to Plan A (thesis), the area coordinator of learning design and technology will work with the student to establish a thesis plan and secure a thesis adviser.

Plan B (capstone project and comprehensive examination) provides students the opportunity (1) to undertake a client-based service-learning project that emphasizes research or evaluation and writing, (2) to participate actively in the projects of the other members of capstone project cohort, and (3) to subject their own work to critical evaluation by the other cohort members. All candidates for the Master of Arts degree in learning design and technology who elect Plan B (capstone project and comprehensive examination) must pass a comprehensive examination. A student is eligible to take the comprehensive examination only after advancement to candidacy.

Specific Requirements for the Master of Arts Degree
(Major Code: 08992) (SIMS Code: 664642)

In addition to meeting the requirements for classified standing and the basic requirements for the master’s degree as described in Part Four of this bulletin, students must take the course requirements as described below.

1. Core (12 units):
   - LDT 540 Educational Technology.........................3
   - LDT 544 Instructional Design............................................3
   - LDT 561 Advanced Multimedia Design for Learning...........................3
   - LDT 690 Research Methods for Learning Design........3

2. Electives (15 units): Courses in learning design and technology and related fields, selected with the approval of the adviser on the basis of the student’s interests and goals. A minimum of nine units must be taken in courses at the 600- and/or 700-levels.
   - LDT 795 Advanced Seminar: Capstone Project (Plan B students only)..................3
   - LDT 799A Thesis (Plan A students only)......3 (Cr/NC/RP)
Learning Design and Technology

Distance Education Certificate  (SIMS Code: 664603)

This certificate program will provide necessary skills to in-service managers, instructors, instructional designers, evaluators, local site coordinators, and other professionals working in distance education systems and programs in higher education, K-12, business, and government, including personnel in law enforcement, and the military. Students who complete the certificate program and meet all other criteria may apply to be admitted to the M.A. program in learning design and technology. For application or further information, see the program adviser in Learning Design and Technology.

Prerequisites: A bachelor’s degree from an accredited institution with a grade point average of at least 2.85 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A satisfactory score on the verbal and quantitative sections of the GRE General Test (combined score of 950). At least three years of experience in distance, open or extended education, training, HRD or a related field. Mastery in telecommuting and learning new information technology applications.

Required courses (9 units):

Instructional Design Certificate  (SIMS Code: 664602)

The purpose of this certificate is to prepare specialists who can develop or assist in the development of software to meet specific instructional, training or management needs. There are two competency areas incorporated in the certificate: instructional design and educational computing. Students must complete a minimum of 18 units with a 3.0 (B) grade point average and no less than a C in any course. For application or further information, see the director of the program in Learning Design and Technology.

Prerequisites: A bachelor’s degree from an accredited institution with a grade point average of at least 2.85 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A satisfactory score on the verbal and quantitative sections of the GRE General Test.

Required courses (6 units):

Elective courses: Twelve units at the 600- or 700-level to be selected with the approval of the program director.

Instructional Technology Certificate

Refer to General Catalog.
LDT 572. Managing the Technology-Rich Classroom (3)
One lecture and six hours of laboratory.
Prerequisite: Learning Design and Technology 540.
Use of technology to support planning, presenting, and managing instructor-led courses. Strategies for integrating audience response systems, collaborative tools, and social software into courses. (Formerly numbered Educational Technology 572.)

LDT 596. Topics in Learning Design and Technology (1-3)
Selected problems in educational technology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Credit for 596 and 696 applicable to a master’s degree with approval of the graduate adviser.

GRADUATE COURSES

LDT 630. Mobile Applications for Learning (3)
Two lectures and two hours of activity.
Prerequisites: Learning Design and Technology 540 and 541.

LDT 640. Psychology of Technology-Based Learning (3)
Six hours of activity.
Prerequisite: Learning Design and Technology 544.
Principles of human learning and cognition applied to design and use of technology-based learning systems. Development and research-based guidelines for designing educational products and services. (Formerly numbered Educational Technology 640.)

LDT 650. eLearning Design and Development (3)
Two lectures and three hours of laboratory.
Prerequisite: Learning Design and Technology 544. Recommended: Learning Design and Technology 572.
Theories and models of online learning at home, work, school, and university. Analysis, design, and development of e-learning courses and systems. Future societal and economic impacts of learning at a distance. (Formerly numbered Educational Technology 650.)

LDT 670. Learning Through Games and Simulations (3)
One lecture and six hours of laboratory.
Prerequisites: Learning Design and Technology 540 and 541.
Design, evaluation, and use of simulations and games for education and training. Instructional applications of role plays, board games, and multiplayer virtual worlds. Theories of motivation and interest. (Formerly numbered Educational Technology 670.)

LDT 671. Learning Environment Design (3)
One lecture and six hours of laboratory.
Prerequisites: Learning Design and Technology 544 and 561.
Design and development of individualized instruction delivered through e-learning; learning management systems; informal learning for corporate and museum education. (Formerly numbered Educational Technology 671.)

LDT 680. Evaluation Techniques for the Performance Technologist (3)
Two lectures and two hours of activity.
Prerequisites: Learning Design and Technology 540. Recommended: Learning Design and Technology 690.
Design and use of tools to collect, analyze, and communicate data about learning and performance. (Formerly numbered Educational Technology 590 and 680.)

LDT 684. Managing the Learning Design Process (3)
Six hours of workshop and activities.
Prerequisites: Learning Design and Technology 540 and 541. Recommended: Learning Design and Technology 544.
Management of instructional design and performance interventions. Development of timelines, staffing plans, communication strategies, and budgets. (Formerly numbered Educational Technology 684.)

LDT 685. Performance Technology for Organizations (3)
Six hours of workshop and activities.
Prerequisites: Learning Design and Technology 540 and 541.
Organizational and informational systems that support instructional products and services. Individual, team, and organizational analyses. Incentives, feedback, coaching, job-aids, selection, knowledge management, and other performance improvement strategies. (Formerly numbered Educational Technology 685.)

LDT 690. Research Methods for Learning Design (3)
Two lectures and three hours of activity.
Prerequisite: Admission to the master’s degree program. Planning and executing research in learning design. Analyzing, interpreting, and reporting results to stakeholders.

LDT 696. Advanced Topics in Learning Design and Technology (1-3)
Prerequisite: Graduate standing.
Intensive study in specific areas of learning design and technology. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units applicable to a master’s degree. Credit for 596 and 696 applicable to a master’s degree with approval of the graduate adviser.

LDT 700. Seminar in Learning Design and Technology (1-3)
Prerequisite: Learning Design and Technology 540.
Selected areas, topics in educational technology. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units applicable to a master’s degree. (Formerly numbered Educational Technology 700.)

LDT 775. Directed Internship in Learning Design and Technology (2-6) Cr/NC
Prerequisite: Consent of staff; to be arranged with department chair.
Supervised internship in an educational or training setting. Application to take course must be made during preceding semester. (Formerly numbered Educational Technology 775.)

LDT 795. Advanced Seminar: Capstone Project (3)
Prerequisites: Advancement to candidacy and Learning Design and Technology 690.
An intensive study culminating in a written project for a community-service-based learning client. Limited to students following Plan B for the Master of Arts degree.

LDT 798. Special Study (1-6) Cr/NC/RP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. May involve fieldwork. Maximum credit of six units applicable to a master’s degree. (Formerly numbered Educational Technology 798.)

LDT 799A. Thesis or Project (3) Cr/NC/RP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

LDT 799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of RP.
Registration required in any semester or term following assignment of RP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.
