San Diego State University maintains and promotes a policy of nondiscrimination and nonharassment on the basis of race, religion, color, age, gender, disability, marital status, sexual orientation, and national origin. This policy stands as a statement of this University’s moral commitment to the right of all persons to equal opportunity in a nondiscriminating, harassment-free atmosphere. The Office of Diversity and Equity oversees that commitment to equal opportunity. San Diego State University places high priority on that objective and expects all members of the University to support this policy fully. Refer to the Regulations of the Graduate Division section for the California State University policy pertaining to nondiscrimination.

SUMMER SESSIONS 2000*

July 1  Graduate admissions for fall semester 2000 closed.
May 30-June 16  Term A (3 weeks).
May 30-June 23  Term B (4 weeks).
May 30-July 7  Term C (6 weeks).
May 30-August 18  Term Z (12 weeks).
June 9  Last day to apply for August 2000 graduation with an advanced degree, Graduate Division.
June 19-July 21  Term D (5 weeks).
June 19-July 28  Term E (6 weeks).
June 19-August 11  Term F (8 weeks).
July 4  Holiday–Independence Day.
July 10-August 18  Term G (6 weeks).
J une 18  Final day for submitting thesis to the Graduate Division for thesis review to ensure graduation in August 2000.
July 19-August 11  Term H (3 weeks).
August 11  Last day for submission of Incomplete and SP grade removals (excluding thesis) for summer graduation with an advanced degree.
August 11  Last day for reporting results on comprehensive examinations to the Graduate Division by department or college.
August 17  Final day for depositing approved thesis at Aztec Shops Customized Materials. (Noon deadline.)

*Refer to the Summer Sessions catalog for a list of courses offered during summer. Offerings in some departments are limited.

FALL SEMESTER 2000

May 25  Graduate admissions for fall semester 2000 closed to foreign students.
July 1  Graduate admissions for fall semester 2000 closed.
August 1  Applications for admission or readmission to San Diego State University for the spring semester 2001 accepted. Applications are accepted after August 31 only until enrollment quotas are met.
August 21  Opening date of the semester for faculty.
August 23  Last day of RegLine before classes begin.
August 28  First day of classes.
Aug. 28-Sept. 11  Late Registration.
August 31  Graduate admissions for spring semester 2001 closed to foreign students.
September 4  Holiday–Labor Day.
September 11  Last day to drop classes.
September 12  Last day to apply for refunds.
September 15  Last day to file petition for concurrent master’s degree credit for fall semester 2000.
September 18  Last day to withdraw officially from the University for fall semester 2000.
September 18  Last day to apply for December 2000 graduation for all masters and doctoral degrees, Graduate Division.
September 25  Census. (Twentieth day of instruction.)
November 1  Applications for admission or readmission to San Diego State University for the fall semester 2001 accepted. Applications are accepted after November 30 (postmarked) only until enrollment quotas are met.
November 3  Final day for submitting thesis to the Graduate Division for thesis review to ensure graduation in December 2000.
Nov. 6-Dec. 20  Theses may be submitted to the Graduate Division on an at-risk basis. However, December 2000 graduation is contingent upon completion of final processing by noon, December 19. Students missing this deadline will be required to reapply for graduation for the term in which they expect to graduate.
November 23-25  Holiday-Thanksgiving recess.  
Staff holiday (no classes).
December 1  Graduate admissions for spring semester 2001 closed.
December 8  Last day for submission of incomplete and 
SP grade removals (excluding thesis) for December 2000 graduation with an 
advanced degree.
December 8  Last day for reporting results on 
comprehensive examinations to the 
Graduate Division by department or 
college.
December 8  Last day of classes before final 
examinations.
December 9-16  Final examinations.
December 19  Final day for depositing approved thesis at Aztec Shops Customized Materials. (Noon deadline.)
December 21  Winter recess begins.
December 21-27  Holiday-Winter recess.  
Staff holiday (no classes).
December 28  Grades due from instructors.  
(Noon deadline.)
December 28  Last day to apply for a leave of absence for 
fall semester 2000.
December 28  Last day of fall semester.
Jan. 29-Feb. 9  Late Registration.
January 15  Holiday-Martin Luther King, Jr. Day.  
Staff holiday (no classes).
January 22  Opening date of semester for faculty.
January 24  Last day of RegLine before classes begin.
January 29  First day of classes.
January 2-22  Winter Session 2001.**
February 16  Last day to apply for May 2001 graduation 
for all masters or doctoral degrees, 
Graduate Division.
February 23  Census. (Twentieth day of instruction.)
March 10  Last day of classes before spring recess.
March 12-17  Spring recess.
March 19  Classes resume.
April 2  Last day for submitting approved doctoral 
dissertations to the Graduate Division for 
May commencement.
April 13  Final day for submitting thesis to the 
Graduate Division for thesis review to ensure 
graduation in May 2001.
April 16-May 31  Theses maybe submitted to the Graduate 
Division after this date on an at-risk basis. 
However, May 2001 graduation is 
contingent upon completion of final 
processing by noon, May 30. Students 
missing this deadline will be required to 
reapply for graduation for the term in which 
they expect to graduate.
May 17  Last day of classes before final 
examinations.
May 18  Study and consultation day until 4:00 p.m.
May 18  Last day for submission of Incomplete and 
SP grade removals (excluding thesis) for 
May graduation with an advanced degree.
May 18  Last day for reporting results on 
comprehensive examinations to the 
Graduate Division by department or 
college.
May 18 (after 
4:00 p.m.)  thru May 25  Final examinations.
May 25  Graduate admissions for fall semester 2001 
closed to all foreign students.
May 26-27  Commencement.
May 28  Holiday-Memorial Day.  
Staff holiday (no classes).
May 30  Final day for depositing approved thesis at Aztec Shops Customized Materials. (Noon deadline.)
May 31  Grades due from instructors. (Noon deadline.)
May 31  Last day to apply for a leave of absence for 
spring semester 2001.
May 31  Last day of spring semester.

**Refer to the Winter Session catalog for a list of courses offered during winter. 
Offerings in some departments are limited.
SUMMER SESSIONS 2001*
May 29-June 15  Term A (3 weeks).
May 29-June 22  Term B (4 weeks).

THE GRADUATE COUNCIL

The Graduate Council of San Diego State University consists of
the Dean of the Graduate Division (chairman), the Provost and Vice
President for Academic Affairs, Dean of the Library and Information
Access, the Associate and Assistant Deans of the Graduate Division,
members of the faculty from the various schools and colleges, and
two classified graduate students. For the academic 1999-00 year,
the membership of the Council was as follows:

James W. Cobble .......................... Vice President for Research and
Dean of the Graduate Division
Nancy A. Marlin (ex officio) ................ Provost and Vice President for
Academic Affairs
Connie Vinita Dowell (ex officio) .............. Dean of the Library
and Information Access

Lawrence B. Feinberg (ex officio) ....... Associate Vice President for
Research and Technology Services
Janis F. Andersen (ex officio) .......... Associate Dean for Policy and
Curriculum
Zac Hanscom, III (ex officio) ..... Associate Dean for Student Services
Arthur W. Schatz (ex officio) ....... Assistant Dean for Student Services
James R. Beatty .......................... Department of Information and
Decision Systems

David P. Ely .......................... Department of Finance
Nihad A. Hussain ............... Department of Mechanical Engineering
Alma L. Koch .......................... Graduate School of Public Health
Cheryl L. Mason ....................... School of Teacher Education
Behzad S. Samimi ............... Graduate School of Public Health
Lewis Shapiro .......................... School of Teacher Education
William D. Tong ....................... Department of Chemistry
Sam Said .......................... Associated Students

(Membership for 2000-01 will be determined prior to the
beginning of the academic year.)

UNIVERSITY RESEARCH COUNCIL

The University Research Council is the faculty policy-making
body responsible for promoting, encouraging, and publicizing the
research activities of the faculty consistent with the educational mis­
sion of the University. The Council is composed of 15 faculty repre­
senting the various colleges and is chaired by the Vice President for
Research and Dean of the Graduate Division. Much of the work of
the Council is carried out in its Standing Committees which include:

Biosafety Committee
Committee on the Protection of Human Subjects
Copyrights and Patents Committee
Faculty Grants Committee
Graduate Research Lecture Committee
Publications Committee
Research Administration Policy Committee
University Animal Subjects Committee

For the academic 1999-00 year, the membership of the Council
was as follows:

James W. Cobble .......................... Vice President for Research and
Dean of the Graduate Division
Frea E. Sladek (ex officio) ............... General Manager (Interim)
SDSU Foundation
Lawrence B. Feinberg (ex officio) ....... Associate Vice President for
Research and Technology
Janis F. Andersen (ex officio) .......... Associate Dean for Policy and
Curriculum
Zac Hanscom, III (ex officio) ..... Associate Dean for Student Services
Administration

John E. Alcaraz ......................... Graduate School of Public Health
Alida L. Allison .......................... Department of English and Comparative Literature
Kathleen L. Coleman ................ Library and Information Access
Ann De Peyster ........................ Graduate School of Public Health
Craig P. Dunn ............................. Department of Management
James Flood .............................. School of Teacher Education
Terrence G. Frey ........................ Department of Biology
Arthur Getis .............................. Department of Geography
Dana L. Grisham ........................ Graduate School of Public Health
Melbourne F. Hovell .................. Graduate School of Public Health
Ronald A. Kline ....................... Department of Mechanical Engineering
Fred W. Kolkhorst ..................... Department of Exercise and Nutritional Sciences
Prasad Padmanabhan ................ Imperial Valley Campus
Richard C. Reed ....................... School of Nursing
Stephen B.W. Roeder .................. Department of Chemistry
William W. Sherrard .................. Department of Information and Decision Systems
Brian H. Spitzberg ..................... School of Communication
Andrew Y. J. Szeto ..................... Department of Electrical and Computer Engineering
William G. Tong ....................... Department of Chemistry

(Membership for 2000-01 will be determined prior to the beginning of the academic year.)
Graduate Division

As part of Graduate and Research Affairs, the Graduate Division is the administrative unit responsible for postbaccalaureate and graduate study at San Diego State University. The division is composed of the academic units that offer graduate study in the University. The faculties of these units provide programs in over 50 fields of study leading to advanced degrees in the arts and sciences and in professional areas at both the masters and doctoral levels as well as a wide variety of programs leading to advanced certificates and basic and advanced credentials. The Graduate Council, on which sit representatives of the seven academic colleges of the University, has been delegated University-wide jurisdiction over graduate study. The council’s responsibilities are broadly defined and include the development of policies on such matters as graduate programs and curricula, graduate student affairs, and graduate student scholarship.

The Vice President for Research and Dean of the Graduate Division is the chief administrative officer of the division and serves as chair of the Graduate Council. Assisted by two associate deans and an assistant dean, the Graduate Dean has general responsibility for implementing the policies of the Graduate Council and for the development, improvement, and administration of all postbaccalaureate study. The Vice President for Research and Dean of the Graduate Division is also chair of the University Research Council and has a major role in the planning, policy development, and coordination of all research and research-related activities within the University; and in promoting and facilitating the research activities of both graduate students and faculty.

Graduate Study at San Diego State University

The year 2000 marked the fiftieth anniversary of the award of the first graduate degrees at San Diego State University. Those Master of Arts degrees were limited at first to fields such as English, history, and philosophy and directly supported the historical mission of the institution to train teachers to serve the regional community. Although the number of degree fields in the arts and sciences grew quickly in the 1950s, most continued to be designed for students planning to enter the “teaching service.” As the decade ended, however, the establishment of what was to become the California State University (CSU) prompted a notable departure from the earlier academic traditions.

In 1960, the California State Legislature organized a number of state colleges into an integrated system and, in an educational master plan for the State, defined the relationship of the new system to the University of California and to the state’s network of community colleges. Although the new system was to continue its mission of training teachers and providing a broad range of undergraduate degree opportunities, each campus was invited to develop its own institutional characteristics within that framework. At what was then San Diego State College, the faculty embraced a model that emphasized the necessarily close relationship between teaching and faculty and student research. This orientation required the broadening of the focus and purpose of advanced study, and over the following decades, scholarly research and graduate education came to be one of the distinguishing characteristics of San Diego State within the CSU. Indeed, by the time San Diego State College was designated a University in 1971, graduate study over a wide range of academic and professional disciplines had become an integral part of the institution’s central mission.

A growing and increasingly diverse student population helped to stimulate the rapid growth of graduate programs in the years after 1960. The number of advanced degree programs at the master’s level quickly grew to cover more than fifty fields of study in the arts and sciences disciplines. Professional degrees appeared in areas such as business, city planning, social work, public administration and public health. The Master of Fine Arts along with the Master of Music provided a terminal degree for students interested in pursuing careers in those fields.

Equally important was the recognition that the master’s degree in those years was becoming an entry-level requirement in many fields of employment. This not only stimulated the constant updating of traditional programs but also led to the design of new programs that sought to address specific professional and academic needs. A degree program in computational science emerged as a discrete field of study as did a program for students interested in the processes involved in the transfer of technology from the academy to the broader community. The development of concurrent degree programs was also a response to changing societal needs. The School of Social Work, for example, established a program that led to the award of degrees in both social work and law. The nursing program provided a Master of Science degree that also qualified the student for certification as a Nurse Practitioner. The increasingly global interest of students and faculty resulted in a program that combined a degree in Latin American Studies with the Master of Business Administration. A network of international exchange agreements provided both students and faculty with scholarly opportunities virtually around the world. Affiliation agreements gave graduate students access to some of the specialized educational resources of regional universities such as the University of California at San Diego.

The teacher-scholar model led inevitably perhaps to a faculty initiative to establish doctoral programs, and the first program leading to the degree Doctor of Philosophy began with Chemistry in 1965. By the 1990s ten Ph.D. programs serving several hundred students were in place. The latest additions appeared in the millennial year with the inauguration of the degree Doctor of Education in three fields of study. Some of these doctoral programs served traditional academic disciplines while others had a more professional orientation such as in public health, clinical psychology, and language and communicative disorders. And
some of these programs were relatively unique. True to its historical tradition of emphasizing study in the discipline of education, the University now offered the Ph.D. in Mathematics and Science Education and the Ed.D. in the rapidly changing field of Educational Technology.

By many measures, San Diego State University has become a competitive national doctoral research university. During the decade of the 1990s, the faculty generated about one billion dollars from non-university sources in support of student and faculty research and professional activity. The University ranks thirty-third in the nation in the number of advanced degrees awarded. The Carnegie Foundation has classified San Diego State as a Doctoral II University, a designation that describes only 16 percent of the institutions of higher education in the United States. Undoubtedly, SDSU in the future will continue to address issues of societal concern as those issues arise. No doubt, too, some programs and initiatives will disappear as circumstances and intellectual questions change. The result, however, is a dynamic curricular and intellectual world and one of enormous academic and professional opportunity.

**Authorized Graduate Degrees**

**DOCTOR OF PHILOSOPHY**

The Doctor of Philosophy degree is offered in the following fields:

- Biology
- Chemistry
- Clinical Psychology
- Ecology
- Education
- Engineering Sciences
- Applied Mechanics
- Geography
- Language and Communicative Disorders
- Mathematics and Science
- Public Health
- Policy*
- Educational Technology
- Teaching and Learning

* This program is not available for the 2000-01 academic year.

**DOCTOR OF EDUCATION**

The Doctor of Education degree is offered in the following fields:

- Educational Administration and Policy*
- Educational Technology
- Teaching and Learning

**MASTER OF SCIENCE**

The Master of Science degree is offered in the following fields:

- Accountancy
- Aerospace Engineering
- Applied Mathematics
- Astronomy
- Biology
- Business Administration
- Chemistry
- Child Development
- Civil Engineering
- Computational Science
- Computer Science
- Counseling
- Criminal Justice and Criminology
- Educational Technology
- Engineering Sciences
- Public Health
- Radiological Health Physics
- Regulatory Affairs
- Rehabilitation Counseling
- Statistics

**MASTER’S DEGREES**

- Master of Business Administration
- Master of City Planning
- Master of Fine Arts in Art
- Master of Fine Arts in Creative Writing
- Master of Engineering
- Master of Music
- Master of Public Administration
- Master of Public Health
- Master of Social Work
- Master of Fine Arts in Theatre Arts

**CONCURRENT DEGREES**

Concurrent degrees are offered in the following fields:

- Master of Business Administration and Master of Arts in Latin American Studies
- Master of Public Health and Master of Social Work
- Master of Science in Nutritional Science and Master of Science in Exercise Physiology
- Master of Social Work and Juris Doctor

**COOPERATIVE DEGREE PROGRAM**

Master of Science in Geological Sciences and Doctor of Science in Earth Sciences

**Graduate Concentrations**

A concentration is defined as an aggregate of courses within a degree major designed to give a student specialized knowledge, competence, or skill. Completion of a concentration is noted on the student’s transcript.

**Applied Mathematics (MS)**

**Concentration:**

- mathematical theory of communication systems

**Art (MA)**

**Concentrations:**

- art history
- studio arts

**Biology (MA or MS)**

**Concentrations:**

- ecology
- evolutionary biology
- molecular biology
- physiology
Business Administration (MS)  
Concentrations:
entrepreneurship
finance
financial and tax planning
human resource management
information systems
international business
management
marketing
operations management
real estate
taxation
total quality management

Civil Engineering (MS)  
Concentration:
environmental engineering

Communicative Disorders (MA)  
Concentrations:
speech-language pathology
audiology
education of the deaf
communicative sciences

Education (MA)  
Concentrations:
counseling
educational leadership
educational research
educational technology
elementary curriculum and instruction
policy studies in language and cross-cultural education
reading education
secondary curriculum and instruction
special education

Geography (MA)  
Concentrations:
natural resources and environmental policy
transportation

Nursing (MS)  
Concentrations:
advanced practice nursing of adults and the elderly
community health nursing
nursing systems administration

Psychology (MS)  
Concentrations:
applied psychology
clinical psychology (included within the Ph.D. program; not available separately)

Public Administration (MPA)  
Concentrations:
city planning
criminal justice administration
public telecommunications administration

Public Health  
Concentrations (MPH):
biochemistry
environmental health
epidemiology
health promotion
health services administration

Concentrations (MS):
environmental health science
industrial hygiene
toxicology

Statistics (MS)  
Concentration:
biostatistics

Theatre Arts (MFA)  
Concentrations:
acting
design and technical theatre
musical theatre

Credentials Offered  
Teaching Credentials
Adapted physical education
Multiple subject
Multiple subject cross-cultural language and academic development (CLAD) emphasis
Multiple subject bilingual cross-cultural language and academic development (B/CLAD) emphasis: Spanish
Single subject
Single subject cross-cultural language and academic development (CLAD) emphasis
Single subject bilingual cross-cultural language and academic development (B/CLAD) emphasis: Spanish

Specialist Credentials
Education specialist for the deaf and hard of hearing
Reading/language arts
Resource specialist certificate of competence
Special education:
Early childhood special education
Mild/moderate disabilities
Moderate/severe disabilities

Service Credentials
Administrative
Clinical-rehabilitative
Pupil personnel:
school counseling
school psychology
school social work
School nurse

Graduate Certificate Programs (nondegree)  
Certificate in applied linguistics and English as a second language (ESL)
Certificate in bilingual (Spanish) special education
Certificate in early childhood special education
Certificate in early intervention
Certificate in instructional software design
Certificate in instructional technology
Certificate in cross-cultural language and academic development (CLAD)
Certificate in developing gifted potential
Certificate in preventive medicine residency
Certificate in professional services bilingual/multicultural
Certificate in rehabilitation administration
Certificate in rehabilitation technology
Certificate in supported employment and transition specialist
Certificate in teaching the emotionally disturbed/behaviorally disordered
Certificate in workforce education and lifelong learning
Graduate Certificate Programs

The advanced certificate at the postbaccalaureate entry level provides a program of coursework leading to a specific applied goal. The general educational background of a bachelor’s degree with a major in the appropriate field(s) of study is prerequisite to such a certificate.

The advanced certificate at the postmaster’s entry level also provides a program of coursework and supplemental practical experience leading to a specific applied goal. The theoretical and methodological subject matter obtained from the master’s or doctoral degree is prerequisite to such a certificate. A certificate at this level is an endorsement of the specialized competence beyond that obtained in the student’s graduate degree program.

Graduate Study in the Summer Sessions

In San Diego State University summer sessions, a graduate student may earn credit in residence to satisfy the requirements for an advanced degree or for credentials and advanced certificates. Students planning to offer work taken in a summer session only to satisfy the requirements for an advanced degree must apply for admission to the University with classified graduate standing at the Graduate Admissions office of the Graduate Division. Not more than nine units taken in a summer session prior to admission to an advanced degree or certificate program will be acceptable subsequently on a program of study. Of those nine units, not more than six may be at the 600, 700, 800-numbered level. Students pursuing an advanced degree in summer only must attend for a minimum of three summers to complete a degree. No more than 12 units of coursework earned each summer may be included on a program of study for an advanced degree.

The regular Summer Sessions Catalog, which includes the registration form and all necessary information about the summer sessions, is available for distribution after March 15.

Graduate Study for Foreign Students

The facilities of San Diego State University for graduate study are available to qualified graduates of foreign universities on the same basis and under the same regulations as apply to graduates of colleges and universities in the United States.

Admission procedures for foreign graduate students are stated in the section on Admission of Graduate Students in this bulletin.

Veterans and Graduate Study

San Diego State University is approved to train veterans under the G.I. Bill. Veterans who are interested in graduate work should visit the campus Veterans Affairs Office located in Student Services, Room 1510 for information and counseling regarding veterans’ benefits prior to the date of registration.

Financial Support for Graduate Students

Like other national universities, San Diego State University makes available to students admitted to advanced degree curricula a variety of financial support programs designed to substantially reduce or eliminate economic barriers to the pursuit of graduate study. The most widely known of these are the state and federal aid programs available to degree-seeking students who are citizens or permanent residents of the United States. Equally important are the University programs that address the unique financial needs of individual students across a broad range of economic and academic circumstances.

The on-campus programs for advanced degree students at San Diego State University include appointments as graduate teaching associates, graduate assistants, research assistants, and student assistants as well as tuition and fee payment assistance, fellowships, scholarships, grants, and forgivable loans.

Eligibility and dollar amounts often differ by discipline and experience, and some opportunities are available only to students admitted to Ph.D. programs. Nominations for almost all of these awards originate with the chair or director of the department or school of the degree program for Master’s degree students or the coordinator of the doctoral program for students pursuing the Ph.D. degree. The Graduate Division administers most of these programs for the University. The Graduate Dean must approve most awards and appointments and determine whether the applicant is in good standing in the University. Continuing and prospective students interested in specific information about any of these on-campus programs are invited to write or visit the Graduate Division at San Diego State University, 5500 Campanile Drive, San Diego, CA 92182. The phone number is (619) 594-5213. The Graduate Division is located in Centennial Hall, Room 3320. Information is also available at www.sdsu.edu.

Financial Aid Office

Information about all state and federal aid programs as well as some of the institutional programs is available from the Financial Aid Office located in Student Services, Room 3605. The phone number is (619) 594-6323. The Financial Aid Handbook describes the available programs as well as the academic standards that a student must maintain in order to remain eligible for such aid.

Students interested in any of the aid programs administered by the Financial Aid Office should apply as soon after January 1 as possible by completing a Free Application for Federal Student Aid (FAFSA). Applications are reviewed and aid awarded throughout the year based on available funding. January through May is considered the optimum period to apply for aid to receive funding at the beginning of the fall semester.

Graduate Teaching Associates

Appointments as graduate teaching associates, known more familiarly as TAs, provide students the opportunity to participate directly in the teaching activities of the university. Indeed, faculty members in many programs consider such appointments an integral part of the academic curriculum for their graduate students. Under the supervision of senior faculty, TAs provide direct instruction to undergraduate students, primarily at the lower division level.

Appointments as graduate teaching associates may be obtained by qualified graduate students pursuing a master’s degree in the areas of anthropology, art, astronomy, biological sciences, business administration, chemistry, child and family development, communication, communicative disorders, economics, educational technology, engineering, English, exercise and nutritional sciences, French, geography, geological sciences, history, linguistics, mathematical sciences, microbiology, music, physics, psychology, rhetoric and writing, sociology, Spanish, television, film, and new media production, and theatre arts. In addition, all doctoral programs offer such appointments.
Qualifications for appointment include admission to San Diego State University with classified or conditionally classified graduate standing for the purpose of obtaining an advanced degree. Appointment is for a period of either one semester or the academic year. Reappointment following an appointment of one semester or one academic year is dependent upon satisfactory performance in graduate studies, as prescribed by the Graduate Division, departmental need for the continued service in the department, and upon satisfactory teaching performance.

The combined teaching assignment and coursework permitted during one semester is 15 units unless an excess of this amount is authorized by the Graduate Dean.

Information concerning an appointment as a graduate teaching associate may be obtained from the head of the department, school, or college in which the applicant wishes to obtain the advanced degree. The Graduate Division publishes a Handbook for Graduate Assistants and Graduate Teaching Associates.

Graduate Assistants

Graduate assistants participate in the teaching program of the University by undertaking such classroom activities as reading and marking examination papers, tutoring, and student advising. Alternatively, GAs may be assigned duties that directly support the research activities of the faculty.

Graduate assistants not involving teaching duties and permitting up to 20 hours of service per week for a full-time appointment are available in most of the departments and schools. Qualifications for graduate assistants include admission to San Diego State University with classified or conditionally classified graduate standing. Normally, graduate assistants must enroll in and complete each semester at least six units of coursework listed on the official program of study.

A appointment to a graduate assistantship is for a period of either one semester or the academic year. Reappointment or continuation of an appointment is dependent upon satisfactory performance in graduate studies, as prescribed by the Graduate Division, satisfactory completion of assigned duties, and upon departmental need for the continued service in the department.

Information concerning an appointment as a graduate assistant may be obtained from the head of the department, school, or college in which the applicant wishes to obtain the advanced degree. For further information consult A Handbook for Graduate Assistants and Graduate Teaching Associates available from the Graduate Division.

Student Assistants

Graduate students are eligible for employment as student assistants who perform a wide variety of tasks supporting faculty and staff across the University. Assistants are paid by the hour and are restricted to assignments not to exceed 20 hours per week. Students may apply for this employment through the department chairs or program directors. In addition, the Office of Career Services located in Student Services, Room 1200, maintains a listing of the positions available.

Research Assistants

The University offers some graduate students part-time employment as research assistants. Research assistants work directly with faculty in a laboratory or other research facility in the health, physical, and social sciences. Research assistants are employees of the SDSU Foundation, but they are generally hired through departmental faculty seeking assistance on research programs. Students may inquire about such appointments through the chair or director of the respective science department or through the Office of Personnel Services of the SDSU Foundation. Those interested in adding their names to a list of candidates for current or future part-time openings may obtain application materials from the San Diego State University Foundation, Gateway Building, 5250 Campanile Drive, San Diego, CA 92182-1945. Further information is also available on the University Web site.

Tuition Assistance Program for Out-of-State and Foreign Students

In California, all students are required to pay a registration fee based on the number of units of enrollment. In addition to this fee, nonresidents of California, including international students, pay tuition that currently amounts to $246 per unit of enrollment. For graduate students of superior scholastic achievement participating in the teaching program, however, the University may provide assistance by waiving all or part of the cost of out-of-state tuition.

To be eligible for this program, an applicant must be a permanent resident or a citizen of the United States or a nonresident who is a citizen and resident of a foreign country. Assistance is provided on a semester-by-semester basis only for students who hold appointments as teaching associates, teaching related appointments as graduate assistants, or a combination of the two that requires a workload approximating 20 hours per week.

For more information and application forms, continuing and new students should contact the chair or director of the department or school of the Master’s program to which they have been admitted. Students pursuing a Ph.D. should consult the program director. Departmental nominations should be submitted to the Graduate Division by April 1 of each year.

Fee Assistance Program

For most students pursuing the Ph.D. degree, the University has available some scholarship funds to offset in whole or in part the cost of the state-mandated registration fees. Currently, these fees approximate $600 each semester for students enrolled in six units or less and about $900 for students enrolled in more than six units. Like the tuition assistance program, awardees must be participating in the teaching program of the University. Information regarding this support is available from the directors of the doctoral programs.

Graduate Scholarships

A scholarship is a monetary award given to outstanding students in recognition of their academic excellence, leadership, achievements, and promise. They are provided by private donors, corporations, professional associations, and alumni.

Students who meet the program’s requirements and deadlines other than those established for the general University scholarship program are designated for specific majors. Eligible students will be notified through a faculty appointment or, if time permits, by the Scholarship Office through the mail.

Competition is based on outstanding academic achievement, campus and extracurricular activities, employment, and an essay. Graduate and postbaccalaureate students must have a 3.50 overall graduate GPA for work completed after the bachelor’s degree or in the absence of completed postbaccalaureate units, a 3.50...
overall undergraduate GPA or a 3.70 in the last 30 units of university work.

Applications for the SDSU scholarship program are available from the Scholarship Office and from all department secretaries. Interested students may also write or call the SDSU Scholarship Office, 5500 Campanile Drive, San Diego, CA 92182-7438, (619) 594-6180.

Applications are available each year during one application period November through early-February. The SDSU scholarship application must be filed or postmarked not later than the established early-February deadline. Students need to submit only one application for the general SDSU scholarship program. Individual results will be mailed to all applicants during June for the following academic year.

The average SDSU scholarship award is $1000.00. There is no limit to the number of scholarships for which a student may be considered.

In addition to SDSU scholarships, the Marshall, Fulbright, Rhodes, and Rotary scholarships are prestigious international scholarships given annually to students pursuing educational goals outside the United States. Eligibility standards for these scholarships are closely related to those established for the SDSU scholarship program, but application forms and deadlines are separate from the program. Students may seek advisement regarding application at the SDSU Scholarship Office during the spring semester.

**National Fellowships**

The Scholarship Office receives annual announcements of the Fulbright, Marshall, Kent, Rotary, and other national fellowship programs. Since each campus is limited in the number of applications it may endorse, students interested in fellowships of this type are encouraged to discuss their applications with the Scholarship Director and with members of the University faculty members who have themselves held these fellowships. Since test scores from the Graduate Record Examinations General Test are required, students should take this examination well in advance of the deadline date for the submission of applications. The GRE may be scheduled through the University Test Office.

**Graduate Equity Fellowship Program**

The Graduate Equity Fellowship program provides support for economically disadvantaged graduate students, especially from groups who are underrepresented within their respective disciplines. Only legal residents of California who can demonstrate significant financial need are eligible. Recipients must be classified graduate students and must enroll for a minimum of nine units of coursework each semester they hold the fellowship. fellowships range from $500 to $4,000 for an academic year depending on demonstrated need. Students may receive awards for a maximum of two academic years but they must apply each year. Interested students should complete a Graduate Division application and the Free Application for Federal Student Aid (FAFSA). The Graduate Division application must be submitted by the end of May.

**Forgivable Loan/Doctoral Incentive Program**

The California State University provides funds each year for the purpose of increasing the diversity of qualified applicants for instructional faculty positions at its various campuses. This program offers loans of up to $10,000 per year to a total of $30,000 while the student is enrolled full time in a doctoral program at an approved and accredited institution. Loans are subsequently forgiven at a rate of 20 percent for each year of full-time teaching in the CSU. Enrollment or employment in the CSU is not required of applicants for this program.

Receipt of the award and successful completion of a doctoral program does not guarantee a faculty position in the CSU. In the event that the student does not or cannot obtain such a faculty position, the loan must be repaid at an interest rate comparable to that of other graduate student loans.

Applications are available at all CSU campuses, and each campus has a Forgivable Loan Program Coordinator and a selection committee. Applications are due in February and the selections are announced in early May of each year. On the SDSU campus, interested students are invited to contact the Graduate Division for more detailed information and to obtain an application.

**Graduate Assumption Program of Loans for Education (Graduate APLE)**

This is a state-funded teacher incentive program administered by the California Student Aid Commission. It is designed to encourage graduate students to complete their advanced education and then serve as faculty at an accredited college or University in California. Under the provisions of the program, the Commission may assume up to $6,000 in student loan balances in return for the participant’s service as a full-time faculty member at a college or university in California for three consecutive years after obtaining a graduate degree.

Applicants for this loan assumption program must be citizens or permanent residents of the United States as well as residents of the State of California. Participants must be nominated by the University and are selected on the basis of academic qualifications, interviews, and faculty evaluations as well as such other criteria as the nominating campus may determine. The deadline for submission to the Commission of applications of the campus nominee is normally the end of June for the following academic year. Application forms and complete information may be obtained from the Graduate Division on the SDSU campus.
 Fees

Fees and tuition are subject to change without notice by the Trustees of The California State University.

For updated information regarding the fee structure for 2000-01 refer to the fall Class Schedule.

Fees must be paid prior to calling RegLine. Checks accepted for exact amount of fees. Overpayments of $5.00 or less are refunded only upon request. If your check for registration fees or tuition is returned by the bank for any reason, your registration may be canceled and you will be billed $40.00 (a dishonored payment charge of $20.00 and late fee of $20.00). Payment of fees for RegLine or late registration should be made by check or money order. The University reserves the right to refuse payment by personal check from those individuals who have previously had items returned un-paid by their bank. Refunds may be applied against other amounts due the University. Checks to be made payable to SDSU. Do not enclose cash. Credit cards are not accepted for payment of registration fees, non-resident tuition, except as applicable under the terms of the installment payment plan.

ADMINISTRATIVE / FINANCIAL HOLDS

All administrative and financial holds must be cleared prior to submittal of payment for registration or other University services. See “Debts Owed to the Institution” below. A acceptance of payment by the University does not constitute completion of registration or guarantee of services if any kind of administrative or financial hold exists.

Payments to clear financial holds must be made by cash, money order, or certified check. Personal checks or charge cards will NOT be accepted.

REGISTRATION FEES - GRADUATE STUDENTS:

(On basis of units carried.)

Fee payment information and instructions are in the Class Schedule available at the Campus Store.

Auditors pay same fees as students carrying courses for credit. Nonresident (foreign and out-of-state) students pay additional fees - see information below. Thesis extension and other zero unit courses are charged as one unit for fee purposes.

<table>
<thead>
<tr>
<th>Units Attempted</th>
<th>Registration Fee</th>
</tr>
</thead>
<tbody>
<tr>
<td>0 units - 6.0 units</td>
<td>$612.00</td>
</tr>
<tr>
<td>6.1 or more units</td>
<td>$927.00</td>
</tr>
</tbody>
</table>

The above fee includes a Student Activity Fee of $15.00, a Student Union Fee of $71.00, a Facilities Fee of $3.00, an Instructionally Related Activities Fee of $15.00, a Health Services Fee of $70.00, and a State University Fee of either $438.00 or $753.00, depending on unit load.

Imperial Valley Campus students pay a Student Union Fee of $24.00 and a Health Services fee of $10.00. See Imperial Valley Campus Bulletin for details.

The total fee paid per term will be determined by the number of units taken, including those in excess of fifteen.

No fees of any kind shall be required of or collected from those individuals who qualify for such exemption under the provisions of the Alan Pattee Scholarship Act.

Legal residents of California are not charged out-of-state tuition.

INSTALLMENT PLAN

An installment plan is available for students who wish to pay their registration fees (and tuition, if applicable*) in payments. There is a $33.00 charge for this service, paid at the time the initial registration payment is made. Additional information and instructions are available in the Class Schedule or may be obtained from the University Cashiers Office.

* Additional service charges apply to out-of-state and foreign tuition only. Service charge is equal to 15% of each installment payment of tuition.

TUITION FOR NONRESIDENT STUDENT

(Foreign and Out-of-State)

Tuition will be charged for all units attempted.

Per unit .......................................................... $246.00

(Tuition is payable in addition to registration fees listed above. For fee-paying purposes, zero unit and half-unit courses are counted as one unit. See Liability for Payment section for additional important information.)

Health insurance (mandatory for foreign students)

Per year, approximately ........................................ 600.00

PARKING FEES

Nonreserved parking space, per semester ............... $108.00

Car pool—see Cashiers Office.

Less than four-wheeled, self-propelled vehicle

(motorcycle, moped) ........................................... 27.00

Overnight parking surcharge, per semester .............. 60.00

(employee and students living in residence halls are exempt)

Section 42201 of Title 5, California Code of Regulations, provides for the waiver of campus parking fees for students with disabilities who have been issued a DMV placard or license plate, and who meet low income requirements. For further information regarding eligibility contact the Disabled Student Services Office (Student Services, Room 1661).

MISCELLANEOUS FEES

(Fees payable when service is rendered.)

Application for admission or readmission (nonrefundable), payable by check or money order at time application is made ................................................. $55.00

Late registration (nonrefundable) (Refer to Class Schedule for dates when this fee will be assessed.) ............. 25.00

Late course forgiveness ........................................... 20.00

Failure to meet administratively required appointment or time limit (late fee) ............................................ 20.00

Registration installment plan service charge ............. 33.00

Tuition (Foreign or Out-of-State) installment plan service charge .... Equal to 15% of each installment payment of tuition

Photo-identification card (One-time cost to both new undergraduate and graduate students at time of registration.) Valid only when accompanied by current semester fee sticker. Non-refundable. ....................... 5.00
Loss of or damage to library materials ........ Replacement cost
Check returned for any cause* ......................... 20.00
AFROTC deposit (Unexpended portion is refundable.) 75.00
Transcript of record (official or unofficial) ................... 4.00
Lost photo identification card ............................................. 10.00
Lost key fee (per key) .............................................. 10.00
Towel fee (optional) ................................................. 4.00
Lock and locker fee (optional) .................................. 1.00
Musical instrument and audio/visual equipment fee .... 20.00
Credential evaluation fee ......................................... 25.00
Credential application fee **...................................... 70.00
Document copying fee ................................................. 1.00
Diploma replacement fee ......................................... 12.00
Graduation evaluation and diploma fee ..................... 16.00
(You must pay this fee for each graduation date requested.)
DIPLOMA REPLACEMENT FEE ............................................. 12.00
Document copying fee ................................................. 1.00
Credential application fee **................................. 70.00
Credential evaluation fee ........................................... 25.00
Musical instrument and audio/visual equipment fee .... 20.00
Lock and locker fee (optional) .................................. 1.00
Towel fee (optional) ................................................. 4.00
Lost key fee (per key) ............................................. 10.00
Miscellaneous instructional course charge ................. As established and approved
* Late fee also charged when applicable.
** Established by and payable to the Commission on Teacher Credentialing.

MISCELLANEOUS INSTRUCTIONAL COURSE CHARGES
Miscellaneous instructional course charges are payable for the following courses:

Art 225, 325, 425, 525, 526, 625, 627, 700D.
Educational Technology 532, 540, 541, 544, 572, 644, 671, 775.
Nutrition 205, 301, 302L, 405.

CREDIT CARDS
The University Cashiers Office does not accept credit cards for payment of registration fees or tuition (foreign or out-of-state) except as applicable under the terms of the Installment Plan. MasterCard, VISA, and Discover Card charge cards are accepted for other payments, such as housing, parking, health services, continuing education, installment payments, and miscellaneous over-the-counter payments. Students are reminded that banks will provide cash advances against credit cards if needed to cover registration payment. Most ATM cards are also accepted for payment of miscellaneous charges. Additional information is available from the Cashier’s Office.

LIABILITY FOR PAYMENT
Whether or not an invoice is received from the University, students are liable for payment of all registration fees related to units held on or added after the close of business on the fourteenth day following the commencement of instruction. Foreign and out-of-state students are liable for tuition related to all units held, except as provided for by the refund policy.

All continuing students participating in RegLine must make registration payments by the deadline as instructed.

Nonresident (foreign and out-of-state) tuition must be paid prior to the first day of classes. With the exception of doctoral students and students enrolling for 799A or 799B only, foreign students must pay or sign an installment agreement for a minimum of 6 units at the time of registration. Foreign students wishing to pay fewer than 6 units must submit written approval to do so from the International Students Office or the Graduate Division, as applicable.

IT IS THE STUDENT’S RESPONSIBILITY TO BE AWARE OF TOTAL FEES AND TUITION DUE. Legal residents of California are not charged nonresident tuition. Additional fees that may become due as a result of units added during the semester must be paid at the Cashiers Office at the time the units are added. Note fee schedule above. LATE PAYMENTS FOR FEES AND TUITION ARE SUBJECT TO AN ADDITIONAL LATE FEE AND APPLICABLE SERVICE CHARGES.

DISHONORED CHECK
If your check is returned or not accepted by the bank for ANY REASON, you will be billed for the $20.00 dishonored payment charge and the $20.00 late fee when applicable. Non-payment of fees or tuition may result in cancellation of your registration and withholding of further services until all financial liabilities have been resolved.

The University reserves the right to refuse payment by personal check from those individuals who have previously had personal checks returned unpaid by their bank.

REFUND OF FEES
Details concerning fees which may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to be followed in seeking refunds may be obtained by consulting Section 42201 (parking fees), 41913 (nonresident tuition), 42019 (housing charges), and 41802 (all other fees) of Title 5, California Code of Regulations. In all cases it is important to act quickly in applying for a refund. Information concerning any aspect of the refund of fees may be obtained from the Cashiers Office.

Refund of Registration Fees
REFUNDS ARE NOT AUTOMATIC. WHETHER OR NOT YOU RECEIVE CLASSES THROUGH THE REGISTRATION PROCESS, YOU MUST APPLY FOR THE REFUND BY THE REFUND DEADLINE.

Refunds may be applied against other amounts due the University.

Complete Withdrawal. To be eligible for refund of registration fees, a student withdrawing completely from the University (from all classes) MUST file a refund application with the Office of Admissions and Records at the time the withdrawal is requested, not later than 14 days following the commencement of instruction (Refund Deadline). All but $5.00 will be refunded less any amount due to the University. (See Class Schedule for deadline dates. Note that the refund deadline is prior to the deadline set by Admissions and Records for official withdrawal.)

Fees Based on Unit Load. A student dropping from 6.1 units or more to 6.0 units or less, or a student who paid maximum fees but never obtained over 6.0 units, MUST file a refund application with the Cashiers Office, Student Services, Room 2620, not later than 14 days following the commencement of instruction (Refund Deadline). Application for full-time to part-time refunds may also be submitted at the Aztec Center Information Office.
Refund of Parking Fees

This schedule of refunds refers to calendar days, commencing on the date of the term when instruction begins.

Refund of Nonresident (Foreign and Out-of-State) Tuition

REFUNDS ARE NOT AUTOMATIC. WHETHER OR NOT YOU RECEIVE CLASSES THROUGH THE REGISTRATION PROCESS, YOU MUST APPLY FOR THE REFUND. You may also apply for tuition refunds at the Aztec Center Information Booth.

Tuition paid for a course scheduled to continue for an entire semester may be refunded less any amount due to the University in accordance with the following schedule, if application is received by the Cashiers Office within the following time limits:

<table>
<thead>
<tr>
<th>Time Limit</th>

Disqualified and Leave of Absence Candidates

If your registration has been canceled due to disqualification or by obtaining an approved leave of absence, registration fees will be refunded upon (1) notification from Admissions and Records that appropriate action has been taken and (2) return of your application for refund to the Cashiers Office.

Refund of Registration Fees to Title IV Financial Aid Recipients

The following refund policy applies to students receiving financial aid from these Title IV programs:
- William D. Ford Federal Direct Loan
- Federal Direct Plus Loan
- Federal Perkins Loan
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (FSEOG)

The Higher Education Amendments of 1992 (Reauthorization) require that a pro rata refund be made if a student receiving Title IV funds withdraws completely on or before the 60% point of the enrollment period and is in their first term of attendance at this university. At SDSU, pro rata refunds will apply after the Refund Deadline. Calculations will be based on the withdrawal date and the percent of time remaining in the semester, rounded down to the nearest ten percent of that period. In addition, an administrative fee, the lesser of 5% of the fees to be refunded or $100.00, will be deducted. No fees shall be refunded when the date of the student’s withdrawal is after the 60% point in the semester. As required by law and determined by the University, if Title IV funds have been disbursed to the student during the enrollment period, refunds will first be returned to the Title IV programs in the order listed above. Examples of refund calculations are available upon request at the University Cashier’s Office.

LATE REGISTRATION FEE

The Late Registration fee ($25) pertains to those students who register during Late Registration. Newly admitted students MAY be exempted from this fee. See registration materials provided by Admissions and Records for details. The registration process is not complete until all fees due are paid and you are officially enrolled in classes through the Office of Admissions and Records.

APPEALS PROCESS - UNIVERSITY CASHIERS OFFICE

An appeals process exists for students who believe that individual circumstances warrant exceptions from published policy. Students should file a “Petition for Special Consideration” obtainable at the University Cashiers Office. Petitions must be filed with the University Cashiers Office prior to the end of the twelfth week of classes.

Petitions for refunds filed beyond the appropriate refund deadline are approved only when applicants are unable to continue their enrollment for one of the following reasons: compulsory military service; administrative error; campus regulation; or physical disability or death.

SUMMER SESSION FEES

Refer to Summer Sessions Catalog for schedule of fees.
Parking fees (nonreserved spaces) .......... (per week) $6.00

EXTENSION COURSE FEES

Refer to Extended Studies Catalog for schedule of fees.

EXEMPTIONS

Students receiving vocational rehabilitation benefits (U.S. Code, Title 38, Chapter 31) or the eligible dependents of veterans with service-connected disability or death (California Education Code, Section 32320) will have eligible fees and tuition paid or waived under provisions of these respective programs. See Class Schedule for instructions regarding deadlines for submission of documents to the University Cashiers office.

OVER 60 FEE WAIVER PROGRAM

San Diego State University offers a fee waiver program for California residents 60 years of age and older. Both undergraduate and postbaccalaureate students may participate in the program. The program waives the $55 admission application fee and regular registration fees (except for a nominal $3 fee). Participants must apply for admission during the regular application filing period and be admitted under regular admission requirements. Participants register for classes on a space-available basis after regularly matriculated students have completed registration. For additional information, contact the Office of Admissions and Records.
ALAN PATTEE SCHOLARSHIPS*

Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties are not charged fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, California Education Code, Section 68121. Students qualifying for these benefits are known as Alan Pattee scholars. For further information contact the Office of Admissions and Records, which determines eligibility.

* The law regarding the Alan Pattee Scholarship has been amended to also include contractors or employees of contractors who were killed in the course of law enforcement or fire suppression duties. This change expires on January 1, 2002.

Procedure for the Establishment or Change of a Student Activity Fee

The law governing the California State University provides that fees defined as mandatory, such as a student activity association fee and a student activity center fee may be established. A student activity association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (California Education Code, Section 89300). A student activity center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (California Education Code, Section 89304). The student activity fee was established at San Diego State University by student referendum in 1955. The campus president may adjust the student activity association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose (California Education Code, Section 89300). The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus president containing the signatures of 10% of the regularly enrolled students at the University. Once bonds are issued, authority to set and adjust student activity center fees is governed by provisions of the State University Revenue Bond Act of 1947: California Education Code, Sections 90012, 90027, and 90068. Student activity fees support a variety of cultural and recreational programs, child care centers, and special student support programs.

The process to establish and adjust other mandatory fees requires consideration by the campus fee advisory committee. A student referendum also is required. The campus president may use alternate consultation mechanisms if he determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus president. The president may request the chancellor to establish the mandatory fee. Authority to adjust fees after consideration by the campus fee advisory committee and the completion of a student referendum is delegated to the president.

Debts Owed to the Institution

Should a student or former student fail to pay a debt owed to the institution, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381). For example, the institution may withhold permission to send official transcripts of grades for any person owing a debt. In addition, failure to pay debts to the University when due may result in the debt being sent to a collection agency. Should the debt be referred to a collection agency, the student will be responsible for costs incurred by the University, its Agents, Contractors and Assigns in the collection of the delinquent obligation. It may further result in notification of the delinquency to credit bureau organizations.

If a student believes that he or she does not owe all or part of an unpaid obligation, the student should contact the University Cashiers Office. The Cashiers Office, or another office on campus to which the student may be referred by the Cashiers Office, will review the pertinent information, including information the student may wish to present, and will advise the student of its conclusions with respect to the debt.

Institutional and Financial Assistance Information

The following information concerning student financial assistance may be obtained from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

1. Student financial assistance programs, including state grants, available to students who enroll at San Diego State University;
2. The methods by which student eligibility for aid is determined and by which such assistance is distributed among students who enroll at San Diego State University;
3. The means, including forms, by which application for student financial assistance is made and requirements for accurately preparing such applications;
4. The availability of federal financial aid funds for study-abroad programs;
5. The rights and responsibilities of students receiving financial assistance;
6. The terms and conditions of any employment offered as financial aid;
7. The availability of community-service Federal Work-Study jobs;
8. The terms of schedules for, and necessity of loan repayment; and
9. The standards the student must maintain to be considered to be making satisfactory academic progress for the purpose of establishing and maintaining eligibility for financial assistance and procedures to be followed to regain eligibility.

Information concerning San Diego State University policies regarding any of Title IV student assistance funds as required by regulations is available from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

The following information concerning the cost of attending San Diego State University is available from the Financial Aid Office, Student Services, Room 3605, (619) 594-6323.

1. Fees and tuition;
2. Estimated costs of books and supplies;
3. Estimates of typical student room and board costs and typical commuting costs; and
4. Any additional costs of the program in which the student is enrolled or expresses a specific interest.

Information concerning the refund policy of San Diego State University for the return of unearned tuition and fees or other refundable portions of costs is available from the University Cashiers Office, Student Services, Room 2620, (619) 594-5253.
Information concerning the academic programs of San Diego State University may be obtained from the Office of the Provost and Vice President for Academic Affairs, Administration, Room 220, (619) 594-6542, and may include:

1. The current degree programs and other educational and training programs;
2. The instructional laboratory, and other physical plant facilities which relate to the academic program;
3. The faculty and other instructional personnel; and
4. The names of associations, agencies, or governmental bodies which accredit, approve, or license the institution and its program, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the institution’s accreditation, approval, or licensing.

Information regarding special facilities and services available to students with disabilities may be obtained from Disabled Student Services, Student Services, Room 1661, (619) 594-6473.

Information concerning San Diego State University policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus may be obtained from Public Safety, Student Services, Room 1410, (619) 594-1991.

Information concerning San Diego State University annual campus security report may be obtained from Public Safety, Student Services, Room 1410, (619) 594-1991.

Information concerning the prevention of drug and alcohol abuse may be obtained from Counseling and Psychological Services, (619) 594-5220.

Information concerning student retention and graduation rates of students enrolled at San Diego State University and, if available, the number and percentage of students completing the program in which the student is enrolled or expresses interest may be obtained from Institutional Research, Student Services, Room 3630, (619) 594-6846.

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that San Diego State University dedicates to its men’s and women’s teams may be obtained from the Director of Intercollegiate Athletics, Athletics, Room 117, (619) 594-6357.

Information concerning grievance procedures for students who feel aggrieved in their relationships with the university, its policies, practices and procedures, or its faculty and staff may be obtained from the Ombudsmen, Student Services, Room 3635, (619) 594-6578.

The federal Military Selective Service Act (the “Act”) requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at www.sss.gov.

Cost of Living

San Diego State University establishes standard student budgets in coordination with The California State University system that meet federal requirements. Student budgets, updated annually to account for inflation are currently:

<table>
<thead>
<tr>
<th>Costs of Attendance for the 1999-00 Academic Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fees ........................................ $1854</td>
</tr>
<tr>
<td>Books and supplies ........................... 810</td>
</tr>
<tr>
<td>Room and board .................................. 2363</td>
</tr>
<tr>
<td>Transportation .................................. 1901</td>
</tr>
<tr>
<td>Personal ......................................... 223</td>
</tr>
<tr>
<td>Total ............................................ $12,402</td>
</tr>
</tbody>
</table>

The registration fee for a postbaccalaureate student is $1854 for the academic year. In addition to the registration fee, non-resident (foreign and out-of-state) students pay tuition (see Schedule of Fees section). All fees and costs are subject to change without notice.
Admission to Postbaccalaureate and Graduate Study

Admission to San Diego State University for postbaccalaureate and graduate study is open to those applicants judged by the University to be fully qualified. The process is competitive and the requirements listed below are only the minimum required for admission to the University. Many programs have established additional requirements. Prospective applicants should refer to the departmental listings in this bulletin. Students are also advised to contact the departmental offices as soon as graduate work is contemplated for advice as to how to proceed. Some departments stop reviewing applications earlier than others because limited space is available.

Importance of Filing Complete, Accurate, and Authentic Application Documents

San Diego State University advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must have all universities and colleges they have previously attended send authentic and official transcripts of all previous academic work attempted. Official transcripts are defined as transcripts sent directly from previous university admissions and records unit to Graduate Admissions at SDSU. Failure to file complete, accurate, and authentic application documents will result in denial of admission, and may result in cancellation of academic credit, suspension, or expulsion (Section 41301 of Title 5, California Code of Regulations). This requirement is effective from initial contact with the University and throughout the period the academic record is maintained.

Requirement and Use of Social Security Account Number

Applicants are required to include their correct social security account numbers (taxpayer identification numbers) in designated places on applications for admission pursuant to the authority contained in Section 41201 of Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code. The University uses the social security account number to identify records pertaining to the student as well as to identify the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service requires the University to file information returns that include the student’s social security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. That information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

Measles, Rubella, and Hepatitis B Immunizations Health Screening Provisions

Refer to General Information — Health Services section of this bulletin.

Application Procedures

Applicants for any type of graduate or postbaccalaureate status (advanced degree applicants, those seeking credentials or advanced certificates, and those interested in taking courses for personal or professional growth) must file a CSU Graduate Admission Application with Graduate Admissions within the appropriate filing period. Applicants who graduated from San Diego State University are also required to complete and submit an application and the $55 nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternative campuses or later changes of campus choice will be minimal. In the event that a postbaccalaureate applicant wishes to be assured of initial consideration by more than one campus, it will be necessary to submit separate applications (including fees) to each. Applications may be obtained from the Office of Admissions and Records, individual graduate program advisers or their respective departments, or the Graduate Division of any California State University campus. Applications are also available on the Web site at www.csumentor.edu/Admission App/. Doctoral degree applicants should consult the program director of the specific program for additional application instructions. Applications and all application documents should be sent to:

Graduate Admissions
Graduate Division
San Diego State University
San Diego, CA 92182-8020

Application and Admission Process

Students seeking admission with classified standing to graduate programs at San Diego State University must submit required documentation in a timely manner to ensure proper processing and evaluation by the school or department and the Graduate Division. Please consult the specific departmental listing for the admission requirements. Even though a student may meet the minimal general standards for admission to the University, each department reserves the right to recommend a denial or conditional acceptance based upon the evaluation of documentation supplied by the applicant as well as the standing of the applicant relative to others who have applied to the specific graduate program.
The recommendation of the department or school is sent to the Graduate Dean for an independent evaluation and decision to admit. Where a department’s recommendation conflicts with the judgment of the Graduate Dean, consultation will ensue between the Dean and the department, but the final decision remains with the Graduate Dean.

General Admission Requirements

All applicants for any type of graduate or postbaccalaureate study at San Diego State University must: (a) hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or have completed equivalent academic preparation as determined by the Graduate Dean; (b) have attained a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted (this calculation may not include lower division courses taken after award of a baccalaureate degree); and (c) have been in good standing at the last institution attended. Applicants who do not qualify for admission under provisions (a) and (b) may be admitted by special action if the Graduate Dean determines that there is other academic or professional evidence sufficient to warrant such action.

Members of the faculty of San Diego State University holding appointments at or above the rank of instructor or lecturer may not be admitted to degree programs at this University. Faculty may register for courses as unclassified students.

Special Action Admissions

Determination of the admissibility of students by special action shall be governed by the following guidelines when applicable. All applicants for admission by special action must submit at least two letters of recommendation from faculty at the baccalaureate degree granting institution.

1. Students holding baccalaureate degrees from accredited institutions that award credit primarily on a pass-fail basis may be admitted providing that:
   a. At least 60 semester units of letter-graded coursework with a minimal grade point average of 2.75 are included on the student transcripts. Half of these must be at the upper division level.
   b. If the student transcripts include less than 60 semester units of letter-graded coursework as described above, the applicant may be considered for admission on the basis of the following two criteria: A satisfactory score on both the verbal and quantitative sections of the GRE or GMAT with a minimum mean score of not less than the 30th percentile in each category, and determination by the appropriate faculty unit at San Diego State that any written documentation of classroom performance the student submits reflects academic achievement equivalent to at least a grade point average of 2.75. Such documentation should include written coursework evaluations by the faculty of the institution awarding the degree and may include other documentation such as baccalaureate theses, etc. A relative weakness in one of these criteria may be offset by a strong performance in the other.

2. Students holding baccalaureate degrees from accredited institutions that award credit for prior experiential learning may be admitted providing that:
   a. The student meets the 60-unit requirement as described in 1. above when general admission requirements are not met.
   b. At least 24 semester units of credit in the major field are awarded for classroom and laboratory study during a period of matriculation at the degree-granting institution.
   c. The student provides from the institution granting the credit full documentation showing how the experiential learning was evaluated and the basis on which such credit was awarded.

3. In some circumstances, students holding a baccalaureate degree from an institution with limited accreditation or students holding a degree that requires less than four years for completion may be admitted to postbaccalaureate standing provisionally for the purposes of validating the degree for equivalency. At the determination of the Graduate Dean, the degree may be validated if the student completes or has completed a general education program comparable in scope to the general education requirements of San Diego State University. Students who expect to enter an advanced degree program must have completed all the prerequisites prior to admission to the program. Students in this category may not enroll in 600- or 700-numbered courses; no units completed prior to validation of the baccalaureate degree may be included subsequently on an advanced degree program.

Examination Requirements

The University requires that applicants for admission to most advanced degree programs and advanced certificate programs present satisfactory scores on the Graduate Record Examination (GRE) General Test. In addition, some programs require that applicants also submit satisfactory scores on the appropriate GRE subject matter tests. Applicants should consult the program listings for specific information. Applicants for admission to the College of Business Administration will take the Graduate Management Admissions Test (GMAT); students applying for admission to the concentration in Health Services Administration in the Graduate School of Public Health may submit scores from either the GRE or the GMAT. For complete information on the availability of these tests, students or applicants are invited to contact the Test Office on campus.

Students who hold advanced degrees from institutions that are members of the Council of Graduate Schools are exempt from the GRE requirement. Individuals applying for admission to certain graduate programs may petition to waive the GRE General Test requirement if the applicant holds a professional doctoral degree from an institution whose professional program is accredited by an association that is recognized by the U.S. Department of Education. The waiver must be recommended by the graduate adviser and approved by the Graduate Dean. The petitioner must demonstrate that the professional degree is integrally related to the degree program to be pursued at San Diego State University. Normally, such waivers are not approved where the object is admission to an academic as opposed to a professional degree program.

TOEFL Requirement

All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in
English. Those who do not possess a bachelor’s degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Individual degree programs may prescribe a higher minimum score. Applicants taking the Computer-Based Test of English as a Foreign Language must present a score of 213 or above. Applicants must also submit a score for the Test of Written English (TWE). Individual degree programs may use the score on the TWE as an admission criterion or as an advising tool to identify students who may need further training in English.

Admission Categories

All applicants seeking admission to postbaccalaureate study at San Diego State University must apply and be accepted in one of the following categories:

**Postbaccalaureate Standing (Unclassified)**

Only a limited number of students are admitted to the University in unclassified standing. Some students wishing to enroll in coursework for personal or professional reasons may be so admitted, as may students pursuing a second baccalaureate degree, providing they meet the criteria specified under General Admission Requirements. In rare instances, students may be admitted in this category for the purpose of removing their academic deficiencies. In such cases, however, the student must gain admission to an advanced degree, certificate, or credential program within one calendar year or become subject to dismissal from the University. Students with postbaccalaureate standing (unclassified) may not enroll in 600-, 700-, 800-, and 900-numbered courses except by special permission of the instructor and the graduate adviser of the department or school in which the course is offered.

**Postbaccalaureate Standing (Classified)**

A student wishing to be admitted to a program leading to a credential only or to an advanced certificate only (not an advanced degree) must meet the criteria specified under General Admission Requirements. A student must also meet the professional, personal, scholastic, and other standards prescribed by the appropriate department and the Graduate Council. The applicant should contact the department or school involved for information concerning specific admission requirements and should submit a departmental application during the appropriate filing period. Admission with postbaccalaureate standing (classified) does not constitute admission to, or assurance of consideration for admission to, advanced degree curricula. The number of postbaccalaureate (unclassified) students admitted is limited as part of the University’s enrollment management program.

**Graduate Standing (Classified)**

A student wishing to be admitted to a program of study leading to an advanced degree must meet the criteria specified under General Admission Requirements and, in addition, must:

1. Achieve a satisfactory score on the GRE General Test or GMAT as required.
2. Have completed an undergraduate major appropriate to the field in which the student desires to earn an advanced degree.
3. Satisfy the special departmental or college requirements as stated in Part Three of the Bulletin of the Graduate Division under “Courses and Curricula.”
4. Meet the professional, personal, and scholastic standards for graduate study established by the department and the Graduate Council.

Students admitted with postbaccalaureate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600-, 700-, and 900-numbered courses. Such admission does not imply that a student will be advanced to candidacy for an advanced degree.

**Conditional Graduate Standing (Classified)**

A student wishing to be admitted to a program of study leading to an advanced degree who meets the criteria specified under General Admission Requirements but who has deficiencies in the criteria for graduate standing (classified) may be granted conditional graduate standing (classified), if the deficiencies can be met by specific additional preparation, including qualifying examinations. Not more than 15 semester units may be assigned to satisfy undergraduate deficiencies in the major and all core course conditions must be met within five semesters from the time of initial enrollment. If submission of acceptable scores on the GRE or GMAT is specified, that condition must be met before the beginning of the second semester of graduate coursework. Students admitted with conditional graduate standing (classified) are admitted to authorized advanced degree curricula and may enroll in 600- and 700-numbered courses. Once the conditions established by the department, school, or college have been met, the student should request that the program graduate adviser file a change of status form with the Graduate Division.

**Continuing Students**

Students enrolled in the University with postbaccalaureate standing may request acceptance into an advanced degree curriculum with graduate standing (classified or conditionally classified). Applications for such continuing students are available in the Graduate Division. Except in special circumstances, reports of the scores of the GRE General Test or the GMAT where appropriate must be on file at the University before continuing students may apply for graduate standing (classified).

**Second Bachelor’s Degree**

Second bachelor’s degrees are awarded by most departments. Currently Business Administration, Chicana and Chicano Studies, and Interdisciplinary Studies in three Departments do not participate in the second bachelor’s degree program. A student wishing to earn a second bachelor’s degree must apply for admission through Graduate Admissions during the filing period for undergraduate applicants unless already enrolled in the University as a postbaccalaureate student. In addition, applicants to the impacted majors: communication (emphases in advertising, public relations, telecommunications and film), criminal justice administration, health science, international business, journalism, and nursing) must apply during the undergraduate application filing period. Upon receipt of the admission application, students will be sent a separate application for a second bachelor’s degree.

A admission to a second bachelor’s degree program is based on a review of the second bachelor’s degree application and the applicant’s academic record. Applicants must be eligible for admission as a postbaccalaureate student, meet all undergraduate admission subject requirements, show strong promise of success in the new field, and have a clearly indicated change in educational objective. The number of students admitted for a second bachelor’s degree is limited as part of the University’s enrollment management program.
Classified graduate students are not eligible to apply for a second bachelor’s degree. Credit earned while a second bachelor’s candidate may not be applied toward an advanced degree at a later date. Candidates for a second bachelor’s degree are ineligible to enroll in 600-, 700-, 800-, and 900-numbered courses.

To receive a second bachelor’s degree, the student must complete a minimum of 30 postbaccalaureate units in residence with a minimum grade point average of 2.00; at least 15 units must be upper division in the new major. Up to six upper division units from the previous major may be used in the new major, provided the student completed the same number of units above minimum requirements for the first degree. The student must also fulfill all current requirements for the bachelor’s degree, including but not limited to General Education, major, upper division writing, and foreign language if required by the major. Students are subject to undergraduate policies and procedures, including rules governing deadlines, course forgiveness, and academic probation and disqualification.

The second bachelor’s degree is not granted automatically. When eligible for graduation, the student must submit an application for graduation with the Office of Admissions and Records. The Class Schedule each semester specifies the exact dates for filing.

For additional information and second bachelor’s degree applications, contact the Office of Admissions and Records.

Filing of Records

The applicant must arrange to have two sets of official transcripts from each college or university attended sent to Graduate Admissions. Transcripts requested include all extension, correspondence, summer session, or evening courses.

A transcript will be considered official and accepted to meet the regulations governing admission only if forwarded directly to San Diego State University by the institution attended. The applicant must request the school or college to send the transcript to Graduate Admissions, Graduate Division, San Diego State University, San Diego, CA 92182-8020. Transcripts received from the student, or by any method other than directly from the previous institution will not be accepted as “official transcripts.” All records or transcripts received by the University become the property of the University and will not be released nor will copies be made.

Timely filing of official transcripts is essential. Failure to furnish such records will delay or preclude consideration for admission to postbaccalaureate and graduate study at the University.

Applicants are advised to have additional copies of transcripts sent to the department or school in which they are seeking an advanced degree to facilitate early departmental consideration.

Determination of Residence for Nonresident Tuition Purposes

The Office of Admissions and Records determines the residence status of all new and returning students for nonresident tuition purposes. Responses to the Application for Admission, Residency Questionnaire, and Reclassification Request Form, and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident.

The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law, but a summary of the principal rules and their exceptions. The law governing residence determination for tuition purposes by The California State University is found in California Education Code Sections 68000-68090, 68121, 68123, 68124, and 89705-89707.5, and in Title 5 of the California Code of Regulations, Sections 41900-41912.

Legal residence may be established by an adult who is physically present in the state and who, at the same time, intends to make California his or her permanent home. Physical presence in the state combined with steps taken at least one year prior to the residence determination date to show an intent to make California the permanent home is required to establish a California residence for tuition purposes. The steps necessary to show California residency intent will vary from case to case. Included among these steps may be registering to vote and voting in elections in California; filing resident California state income tax returns; ownership of residential property or continuous occupancy or renting of an apartment on a lease basis where one’s permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator’s license; maintaining active savings and checking accounts in California banks; and maintaining permanent military address and home of record in California if one is in the military service.

The student who is in the state for educational purposes only does not gain the status of resident regardless of length of the student’s stay in California.

In general, an unmarried minor citizen or noncitizen (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of an unmarried minor cannot be changed by the minor’s own act or by the appointment of a legal guardian for the minor, so long as the minor’s parents are living.

A married person may establish his or her residence independent of spouse.

A noncitizen may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. An unmarried minor alien derives his or her residence from the parent with whom the minor maintains or last maintained his or her place of abode.

Nonresident students seeking reclassification are required by law to complete a supplemental questionnaire concerning their financial dependency status.

The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a “resident student” for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are September 20 for fall, January 25 for spring, and June 1 for summer.

There are exceptions for nonresident tuition, including:

1. Persons below the age of 19 whose parents were residents of California but who left the state while the student, who remained, was still a minor. When the minor reaches age 18, the exception continues to enable the student who has resided in the state the minimum time necessary to become a resident.
2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time. The exception continues until the student has resided in the state the minimum time necessary to become a resident.

3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult or adults, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year. The exception continues until the student who has resided in the state the minimum time necessary to become a resident.

4. Dependent children and spouse of persons in active military service stationed in California on the residence determination date. There is no time limitation on this exception unless the military person transfers out of California or retires from military service. If either of those events happen, the student’s eligibility for this exception continues until he or she resides in the state the minimum time necessary to become a resident.

5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. This exception continues until the military personnel has resided in the state the minimum time necessary to become a resident.

6. Military personnel in active service in California for more than one year immediately prior to being discharged from the military. Eligibility for this exception runs from the date the student is discharged from the military until the student has resided in state the minimum time necessary to become a resident.

7. Dependent children of a parent who has been a California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.

8. Graduates of any school located in California that is operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.

9. Certain credentialed, full-time employees of California school districts.

10. Full-time CSU employees and their children and spouses; State employees assigned to work outside the State, and their children and spouses. This exception continues until the student has resided in the State the minimum time necessary to become a California resident.

11. Children of deceased public law enforcement or fire suppression employees who were California residents and who were killed in the course of law enforcement or fire suppression duties.

12. Certain amateur student athletes in training at the United States Olympic Training Center in Chula Vista, California. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

13. Federal civil service employees and their natural or adopted dependent children if the employee has moved to California as a result of a military mission realignment action that involves the relocation of at least 100 employees. This exception continues until the student has resided in the state the minimum time necessary to become a resident.

14. State government legislative or executive fellowship program enrollees. The student ceases to be eligible for this exception when he or she is no longer enrolled in the qualifying fellowship.

Any student, following a final campus decision on his or her residence classification only, may make written appeal to:

The California State University
Office of General Counsel
400 Golden Shore
Long Beach, California 90802-4210

within 120 calendar days of notification of the final decision by the campus of the classification. The Office of General Counsel may make a decision on the issue, or it may send the matter back to the campus for further review. Students classified incorrectly as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. Resident students who become nonresidents, and nonresident students qualifying for exceptions whose basis for so qualifying changes, must immediately notify the Office of Admissions and Records. Applications for a change in classification with respect to a previous term are not accepted.

The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant residence determination date.

International (Foreign) Student Admission Requirements

San Diego State University offers opportunities for advanced study to those foreign students whose academic preparation meets the standards for admission. “Foreign students” include those who hold US visas as students, exchange visitors, or are in other non-immigrant classifications. SDSU uses separate requirements and application filing dates in the admission of foreign students. Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted either to impacted majors or to those with limited openings.

Applicants for admission whose education has been in a foreign country must file an application for admission, official certificates and detailed transcripts of record from each secondary school and collegiate institution attended. All documents, transcripts, and test scores must be received by Graduate Admissions no later than July 1 for the fall semester or December 1 for the spring semester of each year. If certificates and transcripts are not in English, they should be accompanied by certified English translations. Credentials will be evaluated in accordance with the general regulations governing admission to San Diego State University.
Admission to Postbaccalaureate and Graduate Study

Applicants whose major education has been in a language other than English must score 550 or higher (using the paper version) or 213 or higher (using the computer version) on the Test of English as a Foreign Language (TOEFL). This test is administered in most foreign countries. The University must receive official test scores before admission can be granted. Information as to the time and place at which this test is given may be obtained by writing to the Educational Testing Service (TOEFL), Princeton, New Jersey 08540, USA.

Upon arrival at San Diego State University, further tests of English may be given for the purpose of placing students in an English language program commensurate with their linguistic ability in English and to assist student advisers in planning an appropriate course of study. Depending upon their performance on the placement test and their academic background, students may be required to enroll in one or more English language courses during their first semester. This requirement must be completed as a condition for classified graduate standing. Foreign students admitted to the University will be subject to the same competency and placement examinations and standards that govern the rest of the student population.

Insurance Requirement: A condition of receiving an I-20 or IAP-66 form, all F-1 and J-1 visa applicants must agree to obtain and maintain health insurance as a condition of registration and continued enrollment. Such insurance must be in amounts as specified by the United States Information Agency (USIA) and NAIFA; Association of International Educators. The campus President or designee shall determine which insurance policies meet these criteria. Further information may be obtained from the Office of International Student Services.

American Language Institute: If English instruction is needed prior to admission to San Diego State University, students may enroll in the American Language Institute. The American Language Institute (ALI) offers preparation in the English language reading, writing, and listening skills necessary for university success. For those students enrolling in the American Language Institute, a conditional admission is available. It is for those students who require acceptance to a university in order to obtain a passport, a U.S. Visa, or government sponsorship. The program is offered to students who do not have an adequate command of English or the required TOEFL (Test of English as a Foreign Language) score to qualify for admission to the University. After transcripts of their academic work have been evaluated, students may receive an official letter of conditional admission which states that the student has met all University requirements except English language proficiency and may enter the University after appropriate TOEFL scores and training at the American Language Institute.

Housing and Scholarships: Arrangements for housing should be completed well in advance of the student’s arrival on the campus. Detailed information regarding housing may be obtained from the Housing and Residential Life Office, San Diego State University. Scholarship aid for entering students is limited; no scholarships are specifically reserved for students from another country. Further information regarding scholarships will be found in the section of this bulletin on Financial Aid. Upon arrival at San Diego State University the student should contact the Office of International Student Services.

Limitation of Enrollment

Admission to the University is limited to the number of students for whom an adequate education can be provided by the staff and facilities available. San Diego State University may come to limit graduate enrollment on the basis of field and aptitude of the applicant.

Members of the faculty of San Diego State University holding appointments at or above rank of instructor or lecturer may not be candidates for degrees on this campus. Faculty may register for courses as unclassified students.

Registration

San Diego State University students register by the touch tone telephone registration system (RegLine). On campus registration is not conducted. The Class Schedule and Student Information Handbook, issued each semester and obtainable at the Campus Store before the registration period, contains specific information on registration, the courses offered for the term, and a listing of the fees required for enrollment. Students will not be permitted to access RegLine until fees are paid. Payment of fees by itself does not constitute registration. A student is considered registered when: 1) fees have been paid, and 2) at least one course has been added prior to the first day of classes.

Late registration is allowed during the first two weeks of the semester. Students wishing to register late must pay registration fees plus a $25.00 late fee before the end of the second week of the semester. After receiving an add code from the instructor of the course the student wants to add, the student calls RegLine to officially register. Students who have not added at least one class by the beginning of the fourth week of classes are not registered and may not add courses later in the semester.

Improper Registration in Graduate Courses. Only undergraduate students who are completing their bachelor's degree and who have filed a formal request for permission to enroll for concurrent master's degree credit or for concurrent post baccalaureate credit may be authorized to enroll in 600 and higher numbered courses. Undergraduate students who have not received permission for concurrent enrollment may not enroll in 600 or higher numbered courses for any purpose without the prior permission of the Graduate Dean. Undergraduates who enroll in advanced courses without permission are subject to administrative disenrollment. The registration for graduate students who have not met the stated prerequisites for Course 799A, Thesis, at the time of registration may be canceled.

Changes in Class Schedule

Students are responsible for any change in their schedule of classes. Changes in the official study list are done using the touch-tone registration system. A change in schedule of classes includes the following: withdrawal from a class; adding a class; adding or reducing units to a class for which the student is already registered; changing sections of the same course, and changing from letter grade to credit/no credit or audit. Consult the current Class Schedule for deadline dates for change of schedule.

Concurrent Master's Degree Credit

The bachelor’s degree must be completed at the end of the semester or term in which the concurrent credit is earned. A senior who has met all of the required competencies in writing and mathematics and who is within 12 units of completing requirements for the bachelor’s degree and whose grade point
average in the last 60 semester units attempted is 3.0 or above may petition the Graduate Council to take for concurrent master's degree credit 500-numbered courses and certain 600- and 700-numbered courses approved by the department with the remaining requirements for the bachelor's degree. Petitions may be obtained from the Graduate Division and must be submitted to the Office of Admissions and Records by the end of the third week of classes of the semester or term in which the concurrent credit is earned. The student must have on file a current application for graduation with the bachelor's degree. The maximum number of units that may be earned as concurrent master's degree credit is determined by the difference between the number of units remaining for the bachelor's degree and 15.

**Concurrent Postbaccalaureate Credit**

**Applicable to the “Fifth Year” Credential Requirement only**

Concurrent postbaccalaureate credit may be earned during the final semester or summer session by seniors admitted to the College of Education who meet all of the following qualifications:

1. Have a minimum grade point average of 2.75 on the last 60 units attempted;
2. Complete coursework in excess of graduation requirements during the semester (or summer session) when graduation occurs;
3. Attempt no more than 18 units during the final undergraduate semester (or 15 units during summer session);
4. Request no more than a maximum of 12 units of 300-, 400-, or 500-numbered courses for postbaccalaureate credit;
5. Submit a petition before the end of the first week of classes (or the first week of summer term A) of the final undergraduate semester (or term) when graduation occurs;
6. Petition the Dean of the College of Education;
7. Graduate at the end of the semester (or summer session) the petition is made.

Extension courses are not acceptable for concurrent postbaccaulaureate credit. Concurrent postbaccalaureate credit will not be granted retroactively.

Petition forms are available in the Office of Admissions and Records, SS-1563.

**Second Master's Degree**

A student desiring to work for a second master's degree must petition the Graduate Council for permission to enter a curriculum leading to the second master's degree. A student may be admitted into only one advanced degree program at a time, except in those specially designed concurrent programs described in this bulletin.
Regulations of the Graduate Division

Graduate students are individually responsible for complying with the procedures, regulations, and deadlines as set forth in the General Catalog of the University and in the Bulletin of the Graduate Division. Questions concerning graduate study at San Diego State University should be referred to the Graduate Division.

All students beginning graduate study at San Diego State University after August 2000 will be required to follow the procedures and regulations stated in the 2000-01 edition of the Bulletin of the Graduate Division. A student who was admitted to a graduate degree curriculum at this university prior to that date and who has been enrolled in one or more courses during each consecutive semester since first enrolling as a graduate student, or whose attendance has not been interrupted by more than two consecutive semesters, will be held responsible for the regulations in effect at the time the official master’s degree program of study was approved.

Student Responsibility for Bulletin Information

Students are individually responsible for the information contained in this bulletin. Although the Graduate Division attempts to preserve requirements for students subject to this bulletin, information contained herein is subject to change from year to year as university rules, policies, and curricula change. Failure to keep informed of such annual changes will not exempt students from whatever consequences may result.

Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this bulletin, students and others who use this bulletin should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the Chancellor or designee of the California State University or by the President or designee of this institution. Further, it is not possible in this publication to include all of the rules, policies and other information that pertain to the student, San Diego State University, and The California State University. Additional information may be obtained from the appropriate department, school, or administrative office. Each semester, the Class Schedule and Student Information Handbook outlines changes in academic policy and procedure and current deadlines that are of importance to students.

Nothing in this bulletin shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the Chancellor of the California State University or the President of San Diego State University. The Trustees, the Chancellor, and the President are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This bulletin does not constitute a contract or the terms and conditions of a contract between the student and San Diego State University or the California State University. The relationship of the student to this institution is one governed by statute, rules, and policy adopted by the Legislature, the Trustees, the Chancellor, the President and their duly authorized representatives.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect the privacy of students concerning their records maintained by the campus. Specifically, the statute and regulations govern access to student records maintained by the campus, and the release of such records. In brief, the law provides that the campus must provide students access to records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions. The institution has adopted a set of procedures concerning implementation of the statutes and the regulations on the campus. Copies of these procedures may be obtained at the Office of the Vice President of Student Affairs.

Among the variety of information included in the procedures are: (1) the types of student records and the information contained therein; (2) the official responsible for the maintenance of each type of record; (3) the location of access lists which indicate persons requesting or receiving information from the record; (4) policies for reviewing and expunging records; (5) the access rights of students; (6) the procedures for challenging the content of student records; (7) the fee that will be charged for reproducing copies of records; and (8) the right of the student to file a complaint with the Department of Education. An office and review board have been established by the Department to investigate and adjudicate violations and complaints. The office designated for this purpose is Family Policy, U.S. Department of Education, Washington, D.C. 20202-4605.

The campus is authorized under the Act to release “directory information” concerning students. Currently, in response to a specific inquiry, the Office of Admissions and Records releases the following: name, major field of study, dates of attendance, and degrees and awards received. While federal law allows for the release of address and telephone number, place and date of birth, and information related to participation in athletics, San Diego State University has developed a practice of not routinely releasing this information. The above designated information is subject to release by the campus at any time unless the campus has received prior objection from the student specifying information that the student requests not be released. Students are given
Nondiscrimination Policies

Discrimination Prohibited

San Diego State University maintains and promotes a policy of nondiscrimination on the basis of race, religion, color, sex, age, disability, marital status, sexual orientation, and national origin. This policy incorporates the requirements of federal Executive Orders 11246 and 11375; Titles VI, VII, and IX of the Civil Rights Act of 1964; Sections 503 and 504 of the Rehabilitation Act of 1973; the Americans with Disabilities Act; as well as pertinent laws and regulations in Title 5 of the California Code of Regulations. Students may file a complaint if they have reason to believe they have been discriminated against on the basis of any of the above-prohibited reasons. Procedures for filing complaints are available in the Office of the Ombudsman, (619) 594-6578.

Prohibition of Sex Discrimination

San Diego State University is committed to providing equal opportunities to men and women students in all CSU education programs and activities including intercollegiate athletics under Title IX. Any inquiries regarding discrimination in any educational program or activity can be directed to the Director, Office of Diversity and Equity, (619) 594-6464.

Sexual Harassment is Prohibited

San Diego State University is committed to creating and maintaining a positive learning and working environment for its students and employees and will not tolerate sexual harassment. It is discrimination prohibited under the Civil Rights Act of 1964; California Education Code; and CSU Executive Order 345. Sexual harassment is defined by its behaviors and their consequences, and the gender or sexual orientation of the harasser or the harassed is irrelevant to that definition. For any inquiries, or to file a complaint, students are directed to the Director, Office of Diversity and Equity, (619) 594-2221.

Disability Discrimination Prohibited

No otherwise qualified handicapped person shall, on the basis of handicap, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any academic or other postsecondary education program receiving federal funds. A student is considered qualified who meets the academic and technical standards requisite to admission or participation in the education programs or activities of SDSU. San Diego State University is committed to providing reasonable accommodation for students with disabilities to permit them to carry out their educational responsibilities. Requests for assistance and accommodation can be directed to the Director, Disabled Student Services, (619) 594-6473, TDD (619) 594-2929.

Immigration Requirements for Licensure

On August 27, 1996, Governor Pete Wilson issued Executive Order W-135-96 which requested that the CSU and other state agencies implement "as expeditiously as reasonably practicable" the provision of The Personal Responsibility and Work Opportunity Reconciliation Act (PRAWORA) of 1996 (P.L. 104-193). The Act, also known as the Welfare Reform Act, included provisions to eliminate eligibility for federal and state public benefits for certain categories of lawful immigrants as well as benefits for all illegal immigrants.

Students who will require a professional or commercial license provided by a local, state, or federal government agency in order to engage in an occupation for which the CSU may be training them must meet the immigration requirements of the new Personal Responsibility and Work Opportunity Reconciliation Act to achieve licensure.

Numbering of Courses

Courses numbered 80-99 are nonbaccalaureate level and are not acceptable for a bachelor's degree; those numbered 100 through 299 are in the lower division (freshman and sophomore years); those numbered 300 through 499 are in the upper division (junior and senior years) and intended for undergraduates; those numbered 500 through 599 are in the upper division and are also acceptable for advanced degrees when taken by students admitted to graduate standing; those numbered 600 through 799 are graduate courses; and those numbered 800 through 899 are doctoral courses.

Courses numbered at the 900 level are reserved for graduate courses in certain professional curricula as part of advanced certificate, credential, and licensure programs and are specifically intended for students admitted to the University with post-baccalaureate classified standing. Courses numbered at the 900 level are not applicable to other graduate programs.

Courses numbered 397 offered in regular sessions are professional advancement/training or tutorial/discussion classes that may accompany other credit courses and are not acceptable towards an undergraduate or graduate degree.

Courses numbered X-01 through X-79 and X-397 are professional advancement units offered only through Extension to meet specific academic needs of community groups and are not acceptable toward an undergraduate or graduate degree.

Grading System

Grades and grade points per unit used in reporting are as follows: Grade of A (outstanding achievement; available for the highest accomplishment), 4 points; B (average; awarded for satisfactory performance), 3 points; C (minimally passing), 2 points; D (unacceptable for graduate credit; course must be repeated), 1 point; F (failing), 0 points; SP (satisfactory progress), not counted in the grade point average; W (withdrawal), not counted in the grade point average; AU (audit), no credit earned and not counted in the grade point average; Cr (credit), signing units earned, but not counted in the grade point average; NC (no credit), no credit earned and not counted in the grade point average; I (authorized incomplete), no credit earned and not counted in the grade point average until one
Plus/Minus Grading

A plus/minus grading system is utilized at San Diego State University. Plus/minus grading is not mandatory but is utilized at the discretion of the individual instructor. The grades of A+, F+ and F– are not issued. The decimal values of plus and/or minus grades are utilized in the calculation of grade point averages as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Decimal Value</th>
</tr>
</thead>
<tbody>

Satisfactory Progress Grade - “SP”

The “SP” symbol is used in connection with courses that extend beyond one academic term. It indicates that work is in progress and has been evaluated and found to be satisfactory to date, but that assignment of a precise grade must await completion of additional work. Work is to be completed within a stipulated time period not to exceed one calendar year except for graduate thesis (799A), dissertation (899). Failure to complete the assigned work within one calendar year except for courses 799A, 799, General Mathematics Studies 90A, 99A, and Rhetoric and Writing Studies 92A, 94, 97A will result in the course being computed into the grade point average as an “F” (or a “NC” if the course was taken for credit/no credit grade). Graduate courses for which the “SP” symbol is appropriate are specifically designated in the departmental listings of this bulletin.

Candidates for graduation whose record carries a grade of SP will be graduated provided they are otherwise eligible for graduation. However, the SP cannot be made up after the degree has been granted. If students do not wish to be graduated with the grade of SP on their record, they must officially cancel their application for graduation.

Withdrawal Grade - “W”

The symbol “W” indicates that the student was permitted to drop a course after the first four weeks of instruction because of a verified serious and compelling reason and had obtained the signature of the instructor and the approval of the dean or designee of the college in which the class is located. After the fourth week, the grade of “W” will appear on the student’s permanent record for courses for which an official drop has been approved.

Dropping a class after the end of the tenth day of instruction and prior to the last three weeks of instruction is permissible only for verified serious and compelling reasons. Permission to drop a class during this period is granted only with the signature of the instructor, who indicates grade status in the class, and the approval of the college dean or designee. Approvals are made in writing on prescribed forms. Students are not permitted to drop a class during the final three weeks of instruction, except in cases such as accident or serious illness where the cause of dropping the class is due to circumstances clearly beyond the student’s control and the assignment of an Incomplete is not practicable. All such requests must be accompanied by appropriate verification. Ordinarily, withdrawals in this category will involve total withdrawal from the University, except that credit, or an Incomplete, may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made.

Enrollment as an auditor is subject to permission of the instructor provided that enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students and regular class attendance is expected. Failure to meet required class attendance may result in an administrative drop of the course. To enroll as an auditor, obtain the Change to Audit Grade form from the Office of Admissions and Records. Obtain instructor approval and return the completed form on or before the fifteenth day of instruction to the Office of Admissions and Records. Once enrolled as an auditor, the student may not change to credit status unless such a change is requested prior to the end of the fifteenth day of instruction. If enrolled for credit the student may not change to audit after the end of the fifteenth day of instruction.

Credit/No Credit Courses “Cr/NC”

Students may enroll for credit/no credit only in those graduate courses specifically designated as credit/no credit only.

The symbol “Cr” is used to report the satisfactory completion of Courses 797, 798, 799A, and certain 500-600-700- and 800-numbered courses specifically designated in this bulletin and the Class Schedule. Failure to complete satisfactorily such courses will result in the assignment of “NC.” No other 600, 700-, or 800-numbered courses may be taken for credit/no credit. No 500-numbered courses graded credit/no credit, except those offered only for credit/no credit, are acceptable on a master’s degree program.

A grade of “Credit” in graduate level courses is awarded for work equivalent to all grades that earn 3.0 or more grade points (A through B). “No Credit” is awarded for work equivalent to all grades which earn less than 3.0 grade points (B– through F).

Some specified sections of graduate level topics courses may be offered for credit/no credit provided the following statement is included in the course description in the Bulletin of the Graduate Division: “Specified sections of this course may be offered for credit/no credit. Refer to the Class Schedule.”

Authorized Incomplete Grade “I”

The symbol “I” (Incomplete authorized) indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. It is the student’s responsibility to bring pertinent information to the instructor and to reach agreement on the means by which the remaining course requirements will be satisfied. The conditions for removal of the Incomplete shall be reduced to writing by the instructor and given to the student with a copy placed on file with the department chair until the Incomplete is removed or the time limit for removal has passed. A final grade is assigned when the work agreed upon has been completed and evaluated. An Incomplete shall not be assigned when the only way the student could make up the work would be to attend a major portion of the class when it is next offered. Contract forms for Incompletes are available at department offices.

An Incomplete must be made up within one calendar year immediately following the end of the term in which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Failure to complete the assigned work within one calendar year will result in an Incomplete being counted as equivalent to an “F” (or an “NC” if the course was taken Cr/NC) for grade point average computation. An Incomplete may not be removed by reenrollment in the course.
Candidates for graduation whose record carries a grade of Incomplete will be graduated provided they are otherwise eligible for graduation. However, the Incomplete cannot be made up after the degree has been granted, and it will be counted as an “F” for grade point purposes at the time of graduation. If students do not wish to be graduated with the grade of Incomplete on their record, they must officially cancel their application for graduation.

Unauthorized Withdrawal Grade “U”

The symbol “U” indicates that the student enrolled in a course, did not withdraw from the course but failed to complete course requirements. It is used when, in the opinion of the instructor, the number of completed assignments or course activities or both were insufficient to make possible a normal evaluation of academic performance. For purposes of grade point average computation this symbol is equivalent to an “F.” If the student attended a portion of a course and then, after receiving failing grades, stopped attending without officially withdrawing, a final grade of “F” not “U” should be assigned.

Assignment of Grades and Grade Appeals

1. Faculty have the right and responsibility to provide evaluation and timely assignment of appropriate grades.

2. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise.

3. If the student believes that an appropriate grade has not been assigned, the student should first seek to resolve the matter with the instructor of record. If the matter cannot be resolved informally, the student may present the case to the appropriate campus entity, have it reviewed and, where justified, receive a grade correction.

4. It is the student’s responsibility to resolve grade disputes in a timely manner, typically during the semester following the semester the questioned grade was received. If twelve or more months have elapsed since the grade was issued, or the student has graduated, no grade change will be considered.

Computation of Grade Point Average

To compute the grade point average, divide the total number of grade points earned by the total number of units attempted in courses in which letter grades are assigned. Units earned with a Cr (credit) are not included in the computation. A grade of “I” (authorized incomplete) is not counted in the grade point computation until one calendar year has expired, at which time it will count as an “F.” For details see the section of this bulletin under Basic Requirements for the Master’s Degree.

Uncompleted Theses

A student who registers for Course 799A, Thesis, but does not complete the thesis by the end of the semester or summer session in which the student registers for it, will receive an SP (satisfactory progress) grade if the thesis committee chair so recommends. This grade symbol will remain on the student’s record until the thesis is completed. A second registration in Course 799A, Thesis, is prohibited.

A student who has been assigned the grade symbol SP for the thesis is required to register for Course 799B (0 units, Cr/NC) in any semester or term in which the student expects to use the facilities and resources of the University. The student must be registered in the course when the completed thesis is granted final approval.

Withdrawals

A graduate student who has been admitted to a graduate degree curriculum but has completed no courses at this University for two consecutive semesters is considered to have withdrawn from the curriculum. The student will be required to file application for readmission to the University upon resumption of graduate study. A student who withdraws from a graduate curriculum will be required to comply with regulations and requirements in effect at the time of readmission to the Graduate Division.

Official Withdrawal

Students who wish to withdraw from the University must initiate action formally through the Office of Admissions and Records. Failure to withdraw will result in a failing grade in all courses. A student who has not paid fees and is not enrolled in at least one class (other than for audit) at the end of the fourth week of instruction (census date) is considered to have withdrawn from the University for that semester. Refunds are obtainable only for the first 11 class days after the start of classes. In order to receive a refund, the student must file an official withdrawal form and request refund at the Office of Admissions and Records within the first 11 class days of the term.

Withdrawal from the University is permitted before the end of the fifteenth day of classes. No courses or “W” designations will appear on the permanent record.

Dropping a course or courses after the tenth day of classes and prior to the last day of classes is permissible only with the signature of each instructor and the approval of the appropriate official of the college or department. Withdrawal from the University between the sixteenth day of classes and the last day of classes is permissible for classified or conditionally classified students only with the signature of each instructor and approval of the department chair or designee of the student’s major. Post-baccalaureate (unclassified) students and those in the Interdisciplinary Studies major who wish to withdraw from the University must have the signature of each instructor and approval of the Graduate Dean or designee. Ordinarily, withdrawals during the final three weeks of instruction involve total withdrawal from the University, except where sufficient work has been completed in a specific course or courses to permit an evaluation to be made. Changes made after the last day of instruction are considered retroactive. Graduate students wishing to petition for retroactive changes should contact the Graduate Division to obtain a petition for late change of program and further instructions.

To be permitted to withdraw from a course or courses or to withdraw from the University, the student must have serious and compelling reasons due to circumstances beyond the student’s control. Documentation of those reasons must be provided. Poor academic performance is not an acceptable reason for dropping a course or for withdrawal from the University. See the Class Schedule for more detailed instructions.

Withdraw Retroactively

After the last day of the semester, a graduate student who wishes to withdraw retroactively should request withdrawal from the full semester’s work. Such requests may be granted only in verified cases such as accident or serious illness where the cause for substandard performance was due to circumstances clearly beyond the student’s control. Ordinarily, requests for withdrawals from individual classes will not be accepted. Retroactive withdrawals must be approved by the Graduate Dean or designee.
Readmission

Leaves of Absence

Unofficial Withdrawal

Students withdrawing unofficially from classes or from the University will receive failing grades in all courses that they stop attending. An unofficial withdrawal is one in which a student stops attending classes without filing official withdrawal forms within the established deadlines.

Veterans unofficially withdrawing will have veteran’s allowances immediately suspended and will be subject to full repayment of allowances received after date of unofficial withdrawal.

One-Semester Stop Out

With certain exceptions, matriculated graduate students may stop out of the University one semester in a calendar year and maintain continuing student status. Continuing status includes the maintenance of bulletin requirements for graduation. Disqualified students, students absent for more than one semester without an approved leave of absence, and those who attend another institution must apply for readmission should they wish to return to San Diego State University. Students who are disqualified or are subject to disqualification are not eligible for a one semester stop-out.

Educational Leave of Absence

Students are permitted to take up to four semesters of approved leave of absence. An educational leave of absence is appropriate in those cases where students will be engaged for the majority of the leave time in an activity, other than attending an accredited college or university, that is directly related to their formal academic careers or otherwise contributes to specific academic goals. Students must apply for the particular semester they wish to be absent from school. If they wish to extend a leave for additional semesters, a separate request must be filed previous to the deadline for submitting leaves as outlined in the Academic Calendar.

Requests for a leave may be made at the Office of Admissions and Records by calling (619) 594-7800. If students wish to cancel a leave they must do so prior to the first day of classes by calling (619) 594-7800. The Class Schedule and Student Information Handbook lists specific deadlines. For students participating in the CSU visitors’ program, units completed at the visitor campus will be considered resident units; they will not, however, be calculated into the San Diego State University grade point average.

Approval for educational leaves of absence will be granted only to graduate students who have completed a minimum of one semester at San Diego State University, who are in good academic standing, and who are eligible to register. Leaves will not be granted to students on probation, who are subject to disqualification or have been disqualified, students who qualify for a change from undergraduate to graduate status, or students who have a registration hold.

For Edward

If not disqualified, an enrolled student is eligible to stay out one semester without penalty. No reappraisal is necessary and registration information will automatically be mailed to the last address on file.

A student who withdraws from the University for more than one semester must file an application for readmission before the stated closing deadline with a $55 application fee. If the student was enrolled at another institution subsequent to the last attendance at San Diego State University, an official transcript showing work completed must be sent by the transfer institution directly to Graduate Admissions before readmission can be completed. SDSU students in good academic standing will retain their original catalog status if they are absent from the University for no more than one semester.

Repeated Courses

Ordinarily, a graduate student may not repeat courses that have been taken as part of the official master’s degree program. With prior permission of the graduate adviser, however, a graduate student may repeat one course on the official program of study in which a grade of C, D, F or U has been received. When a graduate student in any category of admission repeats a course in which a C, D, F or U has been earned, both grades will remain on the student’s permanent record and both grades will be calculated in the grade point average. If a student repeats a course in which a U has been earned, the original U grade will remain on the permanent record, but only the second grade will be used in computation of the grade point average. A course in which a U has been earned may be repeated only once. Repeated courses may not be taken for credit/no credit. Students who have successfully repeated a “U” graded course should notify the Office of Admissions and Records if they wish immediate adjustment of their grade point average.

Probation and Disqualification

Scholastic Probation

A graduate student in any admission category shall be placed on academic probation if the student fails to maintain a cumulative grade point average of at least 2.75 in all units attempted subsequent to admission to the university.

Students in a graduate degree program in conditional or classified standing should consult the section of this bulletin entitled “General Requirements for Doctoral Programs” and “Basic Requirements for the Master’s Degree” for grade point average requirements for degree seeking students.

Scholastic Disqualification

A graduate student in any admission category shall be subject to disqualification from further attendance at the University if, while on academic probation, the student fails to earn sufficient grade points to warrant removal from probationary status.

Graduate students who have been admitted to an advanced degree program and whose performance therein is judged to be unsatisfactory, with respect to scholastic or professional standards established by the Graduate Council, will be subject to academic dismissal from their program and may also be academically disqualified from further attendance at the University by the Graduate Dean in consultation with the department (examples: failure to fulfill conditions for fully classified admission within the time specified; denial of advancement to candidacy for a degree; failure in presentation of a thesis or comprehensive examination).

Departments or schools of the University may also recommend that the Graduate Dean dismiss from the University any graduate student whose performance in a degree, certificate, or credential program is judged unsatisfactory with respect to the scholastic or professional standards of the program.

Petition for Readmission

A graduate student disqualified from further attendance at the University for any academic or professional reason may request reinstatement by filing a petition with the Graduate Division. A student who has not attended the University for one or more semesters after disqualification will also be required to apply for readmission during the specified filing period if the petition is approved. Petition forms are available at the Graduate Division.
Reinstated students who were disqualified for failure to meet the scholastic or professional standards in a particular program may not subsequently enroll in courses carrying graduate credit in that program without approval of the program graduate adviser and the consent of the Graduate Dean. If reinstated students enroll in such courses without prior approval, the corresponding academic credit may not be used to meet the curricular requirements of that program. Such students may also be administratively disenrolled.

**Administrative Academic Probation and Disqualification**

**Administrative Academic Probation**

The Graduate Dean may place a student on administrative academic probation for any of the following reasons:

1. Withdrawal from all or a substantial portion of a program of studies in two successive terms or in any three terms.
2. Repeated failure to progress toward the stated degree or objective or other program objective when such failure appears to be due to circumstances within the control of the student.
3. Failure to comply, after due notice, with an academic requirement or regulation which is routine for all students or a defined group of students (examples: failure to list all colleges attended on the application for admission, failure to take placement tests, failure to complete a required practicum).

**Administrative Academic Disqualification**

A student who has been placed on administrative academic probation may be disqualified from further attendance if:

1. The conditions for removal of administrative academic probation are not met within the period specified.
2. The student becomes subject to academic probation while on administrative academic probation.
3. The student becomes subject to administrative academic probation for same or similar reason for which the student has been placed on administrative academic probation previously, although not currently in such status.

**Student Discipline and Grievances**

Inappropriate conduct by students or by applicants for admission is subject to discipline on the San Diego State University campus. The Office of Judicial Procedures coordinates the discipline process and establishes standards and procedures in accordance with regulations contained in Sections 41301 through 41304 of Title 5, *California Code of Regulations*. These sections are as follows:

**41301. Expulsion, Suspension and Probation of Students.**

Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation or given a lesser sanction for one or more of the following causes which must be campus related:

(a) Cheating or plagiarism in connection with an academic program at a campus.
(b) Forgery, alteration or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus.
(c) Misrepresentation of oneself or of an organization to be an agent of the campus.
(d) Obstruction or disruption, on or off campus property, of the campus educational process, administrative process, or other campus function.
(e) Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse.
(f) Theft of, or nonaccidental damage to, campus property, or property in the possession of, or owned by, a member of the campus community.
(g) Unauthorized entry into, unauthorized use of, or misuse of campus property.
(h) On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs, or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction or analysis.
(i) Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president.
(j) Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function.
(k) Abusive behavior directed toward, or hazing of, a member of the campus community.
(l) Violation of any order of a campus President, notice of which had been given prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section.
(m) Soliciting or assisting another to do any act which would subject a student to expulsion, suspension or probation pursuant to this Section.
(n) For purposes of this Article, the following terms are defined:

(1) The term “member of the campus community” is defined as meaning California State University Trustees, academic, nonacademic and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.
(2) The term “campus property” includes:
(a) real or personal property in the possession of, or under the control of, the Board of Trustees of The California State University, and
(b) all campus feeding, retail or residence facilities whether operated by a campus or by a campus auxiliary organization.
(3) The term “deadly weapons” includes any instrument or weapon of the kind commonly known as a blackjack, slingshot, billy, sandbox, sandbag, metal knuckles; any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm; any knife having a blade longer than five inches: any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club.
(4) The term “behavior” includes conduct and expression.
41302. Disposition of Fees: Campus Emergency; Interim Suspension.

The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

41303. Conduct by Applicants for Admission.

Notwithstanding any provision in this section to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302. Admission or readmission may be qualified or denied to any person who, while a student commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.

41304. Student Disciplinary Procedures for the California State University.

The Chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for the California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302, and for qualified admission or denial of admission under Section 41303; the authority of the campus President in such matters; conduct related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record, and review; and such other related matters as may be appropriate. The Chancellor shall report to the Board actions taken under this section.

Student Grievances

If a student believes that a professor's treatment is grossly unfair or that a professor's behavior is clearly unprofessional, the student may bring the complaint to the proper University authorities and official reviewing bodies by following the Procedures for Handling Student Grievances Against Members of the Faculty, adopted by the Faculty Senate. A copy of the procedures may be obtained from the Ombudsman's Office in the Student Services building.

Plagiarism

Plagiarism is formal work publicly misrepresented as original; it is any activity wherein one person knowingly, directly, and for lucre, status, recognition, or any public gain resorts to the published or unpublished work of another in order to represent it as one's own. Work shall be deemed plagiarism: (1) when prior work of another has been demonstrated as the accessible source; (2) when substantial or material parts of the source have been literally or evasively appropriated (substance denoting quantity; matter denoting qualitative format or style); and (3) when the work lacks sufficient or unequivocal citation so as to indicate or imply that the work was neither a copy nor an imitation. This definition comprises oral, written, and crafted pieces. In short, if one purports to present an original piece but copies ideas word for word or by paraphrase, those ideas should be duly noted.

San Diego State University is a publicly assisted institution legislatively empowered to certify competence and accomplishment in general and discrete categories of knowledge. The President and faculty of this University are therefore obligated not only to society at large but to the citizenry of the State of California to guarantee honest and substantive knowledge in those to whom they assign grades and whom they recommend for degrees. Wittingly or willfully to ignore or to allow students' ascription of others' work to themselves is to condone dishonesty, to deny the purpose of formal education, and to fail the public trust.

The objective of university endeavor is to advance humanity by increasing and refining knowledge and is, therefore, ill served by students who indulge in plagiarism. Accordingly, one who is suspected or accused of disregarding, concealing, aiding, or committing plagiarism must, because of the gravity of the offense, be assured of thorough, impartial, and conclusive investigation of any accusation. Likewise, one must be liable to an appropriate penalty, even severance from the University and in some cases revocation of an advanced degree, should the demonstrated plagiarism clearly call into question one's general competence or accomplishments.
Maintenance of Integrity in Research

San Diego State University expects the highest standards of ethical behavior of all members of the academic community involved in the conduct of research, including graduate students. Although instances of misconduct in research are rare, reports of possible scientific fraud concerning faculty, staff, and graduate students employed in research contracts and grants are dealt with in accordance with the university's assurance of compliance with the United States Public Health Service scientific misconduct regulations. The administrative process for handling allegations of scientific misconduct and for protecting the rights and reputations of all persons involved is detailed in the Policy on Maintenance of Integrity in Research and published in the SDSU Policy File. Reports and/or charges of misconduct in research at SDSU should be directed to the chair of the department or dean of the college in which the alleged misconduct has occurred. Such reports may also be directed to the Associate Vice President for Research in Graduate and Research Affairs for referral to the appropriate college dean.

Transcripts of Record

Students may obtain an official transcript by filing a transcript request form at the Cashier's Office. A fee is charged for all transcripts and must be paid in advance. Seven to ten days should be allowed for the processing and mailing of the transcript. Transcripts from other schools or colleges become the property of this University and will not be released or copied.

Unofficial Transcripts

Students may obtain an unofficial SDSU transcript by paying the unofficial transcript fee at the Office of Admissions and Records. These transcripts are available on an immediate basis. These records do not bear the seal of the University and are not suitable for transfer purposes. Unofficial copies will be made of the SDSU transcript.

Final Examinations

No final examination shall be given to individual students before the time specified in the Class Schedule. Any student who finds it impossible to take a final examination on the date scheduled must make arrangements with the instructor to have an incomplete grade reported and must take the deferred final examination within the time allowed for making up incomplete grades.

Transfer, Extension, and Foreign University Credit

Subject to lower limitations for individual programs, as indicated in Part Three of this bulletin, the maximum transfer and San Diego State University extension course credit acceptable on master's degree programs is 9 units. Exceptions are the Master of Business Administration degree, which permits 12 units; Master of Public Health degree, which permits 6 units; Master of Science degree in Nursing, which permits 12 units (including a maximum of 12 units of extension credit); Master of City Planning degree, which permits 27 units (including a maximum of 9 units of extension credit); the Master of Fine Arts degree in Art and the Master of Fine Arts degree in Theatre Arts, which permits 30 units (including a maximum of 9 units of extension credit); the Master of Fine Arts in Creative Writing which permits 18 units (including a maximum of 9 units of extension credit); the Master of Social Work degree which permits 30 units (including a maximum of 9 units of extension credit); the Master of Social Work degree which permits 30 units (including a maximum of 9 units of extension credit); the Master of Science degree in Counseling which permits 30 units (including a maximum of 9 units of extension credit); and the Master of Science degree in Counseling which permits 24 units (including a maximum of 9 units of extension credit). All credit earned in other colleges and universities including foreign universities or in San Diego State University extension courses is subject to approval by the appropriate graduate adviser and the Graduate Dean. Credit earned by correspondence, by examination, or by extension at other institutions is not accepted as satisfying advanced degree requirements.

Open University and Summer Program, Winter Session, and Other Special Sessions

Open University and special session courses are available to qualified students who have completed individual course prerequisites and who meet the standards for regular enrollment in the University. These courses carry residence credit, and enrollment for students not seeking an advanced degree or certificate does not require formal admission to the University. Students enrolled in such courses, however, do not enjoy access to the full range of student services.

Open University allows students to enroll in on-campus courses offered in the regular semester on a space available basis with the approval of the course instructor and the department chair. Special session classes are offered in the summer program, the winter session, and at other times as authorized by the appropriate campus authority. Registration for courses in Open University or in any special session is through the College of Extended Studies (see Part Five of this Bulletin).

Not more than nine units combined of coursework in Open University and special sessions completed prior to admission to an advanced degree or an advanced certificate program will be acceptable on a program of study. Of those nine units, not more than six may be at the 600-, 700-, or 800-numbered level. Admission to an advanced program requires formal admission to the University and enrollment in at least one course offered in the regular semester or term for which the student was admitted, a recommendation of the graduate adviser of the particular program, and the approval of the Graduate Dean. Once so matriculated, students may take additional courses in Open University to meet degree or certificate requirements only with the prior permission of the Graduate Dean.

Study List Limits in the Graduate Division

Full time enrollment for graduate students is nine units of coursework numbered 500 through 999. Enrollment in Thesis (799A) is considered full time for master's degree candidates; enrollment in Doctoral Research (897), Doctoral Dissertation (899), or Clinical Internship (Psychology 894) is also considered full time for students admitted to a doctoral program.

Graduate students are advised that 12 units of 600-900 numbered courses or 15 units of a combination of 500-, 600-, 700-, 800-, 900-numbered courses are the recommended maximum for one semester. Graduate students who are employed full time should not attempt to earn more than 6 units per semester.

Graduate students who are employed as graduate teaching associates at San Diego State University are limited to 15 units of combined teaching assignments and coursework unless a request for excess load is approved by department chair and the Graduate Dean. Graduate teaching associates who enroll for more units than authorized will not receive credit on their official degree programs for the excess number of units completed.

Graduate students employed as graduate assistants are limited to 20 hours of work per week combined with a maximum of 8 units of coursework. Any excess load must be approved by the department chair and the Graduate Dean. Graduate assistants who enroll for more units than authorized will not receive credit on their official programs for the excess number of units completed.
General Requirements for Doctoral Degrees

Doctoral programs at San Diego State University are offered jointly with other doctoral-granting institutions in California. In developing each program, there has been a consistent effort to provide students with a unique educational experience that is not duplicated on either campus alone. The University currently offers the degree Doctor of Philosophy (Ph.D.) in ten disciplinary areas and the degree Doctor of Education (Ed.D.) in three.

The Ph.D. is offered jointly by San Diego State University and cooperating universities in biology, chemistry, clinical psychology, engineering sciences/applied mechanics, language and communicative disorders, mathematics and science education, and public health with the University of California, San Diego; in ecology with the University of California, Davis; in education with Claremont Graduate University; and in geography with the University of California, Santa Barbara. The general requirements in these programs are identical; however, each program has some specific requirements that will be found in Part Three of this bulletin under Biology, Chemistry, Communicative Disorders, Ecology, Education, Engineering, Geography, Mathematics and Science Education, Psychology, and Public Health.

The Ed.D. is offered jointly with the University of San Diego in educational administration and policy*, educational technology, and teaching and learning. The specific requirements for this program will be found in Part Three of this bulletin under Education.

* This program is not available for the 2000-01 academic year.

Admission to Graduate Study

An applicant for admission to a doctoral program must be admitted to regular graduate standing in the appropriate campus of the University of California, the Claremont Graduate University or the University of San Diego and to San Diego State University. Fees and regulations governing the doctoral programs are found in the Bulletin of the Graduate Division of San Diego State University and in the Graduate Studies Bulletins of each of the cooperating campuses. Formal admission to the two universities with appropriate graduate standing occurs when the student is formally accepted by each of the two universities. Applicants are advised to consult the appropriate program director at San Diego State University for specific details on application procedures.

Residence Requirements

After formal admission to a doctoral program, the student must spend at least one year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of the university cooperating with SDSU. At San Diego State University, the minimum of one year of full-time residence consists of registration in and completion of at least six semester units each semester of the required year's residence. Except for the Ph.D. program in education, students must be enrolled at one campus or the other each semester or quarter in order to maintain good standing.

Financial Support

Doctoral students are eligible to apply for financial aid through the Financial Aid Office at San Diego State University. The SDSU Foundation provides some scholarship funds to cover all or part of the fees and tuition required by each institution for students in many of the doctoral programs. These funds are partially derived from the Richard G. Ahrens Memorial Scholarship and Reuben C. Marks Endowment Funds. In addition, most programs offer doctoral students financial support by providing appointments as research assistants, graduate assistants, or graduate teaching associates.

Procedures

Doctoral students are expected to make steady progress toward completion of requirements for the degree. The time required depends less on units of credit or semesters of attendance than it does on the mastery of the subject matter field and completion of a satisfactory dissertation. Doctoral students must maintain a 3.0 grade point average in all coursework attempted to remain in good standing. Some programs may have additional GPA requirements.

Information on records, transcripts, fees, details of registration, petitions, and rules and regulations governing graduate students enrolled in the doctoral program is available from each of the two cooperating institutions for each degree program.

Qualifying Examinations, Advancement to Candidacy, and the Dissertation

Although the procedural details of each doctoral program vary somewhat within the different programs, the general requirements are:

1. The student is examined by a committee representing the faculty of the cooperating institutions for knowledge of the field of study. This Qualifying Examination ordinarily consists of both written and oral parts. The purpose of this examination is to satisfy the faculty of the cooperating departments that the student is adequately prepared in the discipline to warrant continuation in the program.

2. After passing the Qualifying Examination the student in a Ph.D. program applies to the graduate dean at the cooperating campus with which the student is associated for advancement to candidacy. After approval by both graduate deans, the student will be notified of advancement to candidacy by the graduate dean of the University of California campus, the Claremont Graduate University, or the University of San Diego.

3. A dissertation on a subject chosen by the candidate and approved by a committee appointed by the graduate deans of the cooperating institutions is required of every candidate. Approval of the dissertation by this committee affirms that the candidate has conducted an organized, independent investigation that has added significantly to the body of knowledge in the particular field and that has
been reported in a satisfactory manner. Upon completion of the dissertation, the candidate must pass an oral examination conducted by a joint committee in which the student is required to show the relationship of the dissertation to the general field in which the subject lies and to answer specific questions concerning the investigations. In addition to meeting the requirements of the cooperating campus for filing the dissertation, doctoral students are required to provide one bound copy of the dissertation for deposit in the San Diego State University library. Binding must meet the ALA library standard.

Students conducting dissertation research involving human subjects must submit a protocol to the departmental Human Subjects Committee (where applicable) and then to the University’s Committee on Protection of Human Subjects (CPHS). Students should allow four to six weeks for CPHS review. Certain categories of research with human subjects may qualify for exemption from full committee review. Guidelines and forms for protocols or claims of exemptions can be obtained from the CPHS Office or from the Graduate Division.

Upon written CPHS approval or certification of exemption from CPHS review, students can register for dissertation and initiate the activity with human subjects.

Students planning to conduct research involving live animals housed on campus must receive approval of the research from the Animal Welfare Coordinator. Upon written approval of the coordinator, students may begin their research and register for dissertation.

Award of Degree

The degree Doctor of Philosophy in Biology, Chemistry, Clinical Psychology, Ecology, Education, Engineering Sciences/Applied Mechanics, Geography, Language and Communicative Disorders, Mathematics and Science Education, or Public Health will be awarded jointly by the Regents or Trustees of the cooperating institution and the Trustees of The California State University in the names of San Diego State University and the appropriate cooperating university campus. The degree of Doctor of Education will be awarded jointly by the Trustees of The California State University and the Trustees of the University of San Diego. Students are encouraged to participate in the commencement ceremonies of both institutions providing they have completed all degree requirements, including the submission of copies of the approved dissertation by the deadlines of the respective institutions. The deadline dates of the cooperating institutions will vary. Students who intend to participate in the commencement ceremonies at San Diego State University should consult the academic calendar for the last date to submit an approved copy of the dissertation to the Graduate Division. San Diego State University also requires that students apply for graduation in any term they intend to graduate. Consult the academic calendar for the deadline date.
Basic Requirements for Master’s Degrees

To receive the master’s degree at San Diego State University, the candidate must complete the following general requirements of the Graduate Division and the specific requirements listed in the appropriate sections of Part Three of this bulletin.

Official Programs of Study

Official programs of study are to be submitted to the Graduate Division for approval after the student has been granted classified graduate standing. The program must be submitted prior to the time the student wishes to be considered for advancement to candidacy. The requirements governing the official program will be those specified in the bulletin in effect at the time the program is approved in the Graduate Division.

Official master’s degree programs of study, as recommended by the graduate adviser and approved by the Graduate Dean, are binding unless the student withdraws from the University. Withdrawal is defined as having taken no courses during a calendar year.

A student who withdraws from the University and is later reenrolled with classified graduate standing may, with the recommendation of the graduate adviser and the consent of the Graduate Dean, continue with the original official program of study or may be required to submit a new program that complies with the requirements of the current Bulletin of the Graduate Division in effect at the time of readmission.

When course requirements listed on an official master’s degree program deviate from those prescribed in the Bulletin of the Graduate Division, the student must submit the Graduate Dean a petition for adjustment of academic requirements.

It is the student’s responsibility to complete the specific courses listed on the official program of study. No changes will be permitted unless recommended by the graduate adviser and approved by the Graduate Dean. No course can be deleted from an official program of study after the course has been completed.

This includes a course for which a student has registered and received an “Incomplete” or “SP” grade.

Foreign Language Requirement

Departments that require students to pass a foreign language examination may direct a student to complete one of the following options or a combination thereof: a departmental examination administered either by the department or by the appropriate foreign language department; the appropriate part or parts of the MLA-Cooperative Foreign Language Test. Students may not attempt the MLA test more than twice.

Advancement to Candidacy

A student who holds classified graduate standing and who meets the scholastic, professional, and personal standards of the University may be considered for advancement to candidacy for the master’s degree provided an official program of study has been approved by the graduate adviser and the Graduate Dean. For the Master of Arts, the Master of Science, the Master of Business Administration, the Master of Music, the Master of Public Administration, and the Master of Public Health degrees, a student may be advanced to candidacy after completing at least 12 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the Master of City Planning, the Master of Science in Counseling, the Master of Science in Rehabilitation Counseling, and the Master of Social Work degrees, the student must have earned at least 24 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the degree of Master of Fine Arts in Art, or the degree of Master of Fine Arts in Theatre Arts, the student must have earned at least 30 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B); for the degree of Master of Fine Arts in Creative Writing, the student must have earned at least 30 units of coursework listed on the official program of study with a minimum grade point average of 3.25.

In addition to having classified graduate standing and a grade point average specified above, the student must (1) have maintained the required grade point averages with no grade of less than 2.0 (C) in a program course; (2) have completed all the undergraduate deficiencies and the special requirements of the department or school concerned; (3) have passed the foreign language examination if required; (4) have been recommended for advancement to candidacy by the department or school concerned; and (5) have been approved for advancement by the Graduate Dean. The Graduate Division will send the students written notification of advancement to candidacy.

A minimum of nine units of courses listed on the official program of study must be enrolled in and completed concurrently with or after advancement to candidacy for the Master of Arts, the Master of Science, the Master of Public Administration, the Master of Public Health, and the Master of Business Administration degrees. A minimum of 24 units on programs of study for the Master of City Planning, the Master of Fine Arts, the Master of Science in Rehabilitation Counseling, and the Master of Social Work degrees must be enrolled in and completed concurrently with or after advancement to candidacy. Removal of incomplete grades does not meet this requirement. A student may not enroll in 799A or take a Plan B comprehensive examination until advanced to candidacy.

Unit Requirements

Credit earned by correspondence or by examination is not acceptable on advanced degree programs. Courses applied toward one advanced degree may not be used to fulfill the requirements of another advanced degree.
Master of Arts, Master of Music, Master of Science, and Master of Public Administration Degrees

Thirty units (60-62 units for the Master of Science in Counseling degree; 36 units for the Master of Public Administration and the Master of Science degree in Psychology; 42 units for the Master of Science in Nursing) of approved 500-, 600- and 700-numbered courses earned in graduate standing, at least 21 of which must be completed in residence. At least half of the units required must be in 600- and 700-numbered courses. Not more than nine units in approved extension and transfer courses may be used to satisfy the minimum unit requirement for the degree. Courses required to remove undergraduate deficiencies are in addition to the minimum 30 units required for the degree. Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.

Master of Business Administration Degree

Forty-nine units of 500-, 600- and 700-level courses specified by the College of Business Administration. A maximum of six units of 500-level courses are acceptable. Up to nine units of coursework may be accepted for transfer credit. Not more than a total of six units in courses numbered 797 and 798 will be accepted for credit toward the degree.

Master of City Planning Degree

Forty-eight units of approved 500-, 600- and 700-numbered courses earned in graduate standing, at least 39 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 48 units for the degree. Not more than a total of nine units in courses numbered 797 and 798 will be accepted for credit toward the degree.

Master of Fine Arts in Art Degree

Sixty units of 500-, 600- and 700-numbered courses specified by the Department of Art at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. No more than a total of nine units in course 798 will be accepted for credit toward the degree.

Master of Fine Arts in Creative Writing Degree

Fifty-four units of 500-, 600- and 700-numbered courses specified by the Department of English and Comparative Literature, at least 36 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 54 units for the degree. No more than a total of six units in course 798 will be accepted for credit toward the degree.

Master of Fine Arts in Theatre Arts Degree

Sixty units of 500-, 600- and 700-numbered courses specified by the Department of Theatre, at least 30 of which must be completed in residence. Twelve additional units of field experience are required unless the student has previous equivalent experience as determined by the graduate adviser. Not more than a total of six units in courses numbered 797 and 798 will be accepted for degree credit.

Master of Science in Rehabilitation Counseling Degree

Sixty units of 600- and 700-numbered courses specified by the Rehabilitation Counselor Program, at least 30 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 60 units for the degree. Not more than a total of nine units in course 744 will be accepted; not more than a total of nine units in courses numbered 743 and 745 will be accepted.

Master of Social Work Degree

Fifty-eight units of 500-, 600- and 700-numbered courses specified by the School of Social Work at least 28 of which must be completed in residence. Courses required to remove undergraduate deficiencies are in addition to the minimum 58 units for the degree.

Grade Point Averages

Grade point averages of at least 3.0 (B) must be maintained in:
1. All courses listed on the official degree program required to complete undergraduate deficiencies.
2. All courses listed on the official degree program.
3. All courses, 300-level and above, taken at San Diego State University concurrently with or subsequent to the earliest course listed on the official degree program, including courses accepted for transfer credit.

No transfer or extension credit may be used to improve the grade point average of units completed at San Diego State University whether computed to determine the average on the official degree program or the overall average.

Grade Restrictions for Master’s Degree Programs

No course in which a final grade below "C" (2.0) was earned may be used to satisfy the requirements for an advanced degree. No 500-numbered courses graded Credit/No Credit except those offered for Credit/No Credit only are acceptable on a master’s degree program. No undergraduate courses graded Credit/No Credit may be assigned to the deficiencies listed on a master’s degree program. At least 70 percent of the units used to fulfill the minimum requirements on a master’s degree program shall be letter graded.

Units graded Credit/No Credit earned in practica, field experiences, and internships explicitly stated as specific requirements for a graduate degree will not be included in the determination of the number of non-lettergraded units allowable on the program of study.
Degree Requirements

Degree Time Limitations

In all advanced degree curricula and advanced certificate curricula offered at San Diego State University, any course completed more than seven years prior to the date on which all requirements for the degree are completed cannot be used to satisfy unit requirements of the official program of study. This includes a course for which a student has registered and received an “Incomplete” or “SP” grade. On the recommendation of the department or school concerned, the Graduate Council may extend the time for students who pass an examination covering the content of each outdated course. With the approval of the graduate adviser and the Graduate Dean, an outdated course may be repeated, a more recently completed course substituted, or additional coursework of equal unit value assigned. Specifically required courses must either be repeated or validated by examination. In some instances, the graduate adviser and the Graduate Council may authorize students in Plan A to validate outdated courses by passing a comprehensive examination in the subject field of the degree.

Students validating by examination either individual courses or an entire program will be required to specify a date certain by which all requirements for the degree will be completed. Only in exceptional circumstances will this time limit exceed one calendar year from the date of validation. A course or program may be validated by examination only once.

A course completed prior to seven years of the date that the official master’s degree program is approved cannot be listed on the program.

Satisfactory completion of a thesis, project, or comprehensive examination, is defined as follows:

(a) A thesis is the written product of a systematic study of a significant problem. It identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and the methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product evidences originality, critical and independent thinking, appropriate organization, language, and format, high level of writing competency, and thorough documentation. Normally, an oral defense of the thesis is required.

(b) A project is a significant undertaking appropriate to the fine and applied arts or to professional fields. It evidences originality and independent thinking, appropriate form, language use, and organization, and a rationale. It is described and summarized in a written abstract that includes the project’s significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.

(c) A comprehensive examination is an assessment of the student’s ability to integrate the knowledge of the area, show critical and independent thinking and demonstrate mastery of the subject matter. The results of the examination evidence independent thinking, appropriate organization, high level of writing competency, critical analysis, and accuracy of documentation. A record of the examination questions and responses shall be maintained in accordance with the records retention policy of The California State University.

Plan A, requiring a thesis or project, may be selected by a student seeking the master’s degree provided the department or school concerned approves the listing of Course 799A, Thesis, on the official program of study. Three units of “Cr” are granted for the satisfactory completion of the thesis or project following its acceptance by the student’s faculty thesis committee, the department or school concerned, and the Graduate Council.

Assigning of “Cr” grade for the thesis is the responsibility of the Graduate Division. Registration in Course 799A, Thesis, is required; however, students will not be permitted to register for this course until they have received official notification of advancement to candidacy from the Graduate Division and have an officially approved thesis or project committee form on file in the Graduate Division. The student must obtain clearance for registration in Thesis from the Graduate Division. Failure to obtain this clearance may result in cancellation of enrollment in 799A.

Two microfiche copies and one bound copy of all master’s theses or projects are accessioned by the library of San Diego State University and are subject to the regulations of the library with respect to the circulation or duplication of its cataloged materials. Students should obtain a current edition of the Master’s Thesis and Project Manual. The manual is available at Aztec Shops Campus Store.

Plan B, requiring a comprehensive written examination in lieu of a thesis, may be followed in certain graduate degree curricula as indicated in Part Three of this bulletin. Dates on which comprehensive examinations are given are determined by the department or school concerned. Results of comprehensive examinations must be reported to the Graduate Division by the department or school. Refer to the academic calendar in Part One of this bulletin for deadline dates. To be eligible to take the Plan B comprehensive examination, the student must have been advanced to candidacy.

Thesis Committee

In consultation with the graduate adviser, a student will select a chair for the thesis committee. The student, the graduate adviser, and the thesis committee chair select the other faculty members who will be asked to serve on the thesis committee. The student must obtain the signature of the thesis chair, the other committee members, and the graduate adviser on the Appointment of Thesis Committee Form and submit that form to the Graduate Division. Determination of whether the research will involve human or animal subjects must be made at this point (see next section). If human or animal subjects will be used, appropriate authorization for such use must accompany the Thesis Committee Form when it is submitted to the Graduate Division. After the committee is approved, the student may enroll in Course 799A, Thesis, through the Graduate Division. Enrollment must occur during the normal registration period each semester. Dates are listed in the academic calendar each year.

Normally, the thesis committee is composed of three full-time faculty members. At least two of the members of the thesis committee, including the chair of the committee, must hold permanent faculty appointments. Two of the committee members should be members of the department or of the interdisciplinary faculty group in which the thesis is written. The third committee member shall be from a department other than the department in which the thesis is written.

Thesis Research Involving Human Subjects or Animal Subjects

Committee authorization must be obtained in advance of conducting research involving humans or animals. Failure to observe this requirement could result in the refusal of the University to accept the completed thesis.
Students whose research include procedures to obtain information from people through the use of a survey, interview, observation or experimentation or who are planning to analyze human tissues, records, samples or other data previously collected from human subjects must obtain approval to conduct this research through the Committee on Protection of Human Subjects (CPHS). Application materials used to request a review by the CPHS can be obtained via Internet at http://www-rohan.sdsu.edu/~cphs/ or through the Division of Research Administration of Graduate and Research Affairs.

Students planning to conduct research that involves the use of live, vertebrate animals must receive approval from the University Animal Subjects Committee (UASC).

Upon receipt of written authorization from the relevant committee, CPHS or UASC, students may initiate their research and register for thesis or dissertation if all other requirements are met.

Theses in Foreign Languages

As presentations of original research to the academic community, theses are ordinarily prepared for the University in the English language. In certain cases, however, a student’s thesis in the history and literary analysis of non-English languages and literatures may be presented in the subject language. When the departmental graduate adviser and the prospective thesis committee deem this academically appropriate for the specific research topic, the appointment of the student’s thesis committee and authorization of the thesis research by the Graduate Dean shall be based on the provisions that (1) an abstract of the thesis shall be presented in English; (2) all members of the thesis committee shall be fluent in the subject language; and (3) student competency in standard written English shall be demonstrated through satisfactory completion of a departmental procedure that has been approved by the Graduate Dean.

Submission of Theses

Final submittal of a thesis requires the formal approval of the officially appointed faculty thesis committee and acceptance of the thesis by the Graduate Dean for deposit in the University Library. The Dean will only accept thesis manuscript that conform to the format and presentation requirements specified by the Graduate Council and the sponsoring department. The Council requirements are fully presented in the San Diego State University Master’s Thesis and Project Manual.

The University requires that the student be enrolled in 799A, Thesis, or 799B, Thesis Extension, in the term in which the thesis is granted final approval by the faculty committee and submitted to the Graduate Division for formal review. Unless the thesis manuscript is deemed unready for submission (see below), students will not be required to reregister for thesis in any subsequent term if the thesis is submitted to the Thesis Review Service by the end of the last working day of the semester or summer session in which the student is enrolled in 799A or 799B. Consult the academic calendar in Part One of this bulletin for specific deadline dates. A “credit” grade will not be recorded or the degree awarded, however, unless the thesis has been approved by the Thesis Review Service and arrangements made to deposit the required copies in the University Library (this can be done most conveniently through Aztec Shops Customized Materials). If this final process is not completed by the noon deadline date listed in the academic calendar, the student will be required to reapply for graduation in any subsequent term in which he or she expects to graduate.

Manuscripts deemed unready for submission, as determined by the Graduate Dean, will be rejected and returned to the student. Manuscripts will be rejected if there are gross deficiencies of format or presentation or if they are incomplete. Students who cannot meet the final deadline for submission because of such rejection will be required to reenroll in Thesis as well as to reapply for graduation.

Students are expected to make all required changes and submit the final revised manuscript within 30 days following the date of the initial review by the Thesis Review Service. Students who fail to complete the submission process within this period may be required to repeat the process in the term in which the thesis is completed.

Final Approval

The student’s official program of study, as approved by the graduate adviser and the Graduate Dean, and all required examinations must be completed in a satisfactory manner in order for the Graduate Council to recommend a student for an advanced degree.

Writing Competency

The University requires that all candidates for an advanced degree demonstrate writing competency in the English language. This requirement may be met by successful completion of the written comprehensive examination in Plan B or final approval of a thesis or project in Plan A.

In accordance with the Americans with Disabilities Act, individuals with a disability who are in need of an accommodation in order to fulfill this requirement should so notify their graduate adviser and appropriate accommodation(s) shall be made.

Application for Graduation

Graduation is not automatic on the completion of degree requirements. An application must be filed in the Graduate Division during the semester or term in which the student expects to be graduated. Refer to the academic calendar preceding Part One of this bulletin for deadline dates.

There is a $16 commencement fee and a $16 graduation evaluation and diploma fee. Students who do not graduate in the semester or term for which they have applied must reapply and pay the $16 graduation evaluation and diploma fee in the subsequent semester or term in which they expect to be graduated.

Award of Degrees

Upon the recommendation of the faculty of San Diego State University, the Board of Trustees of the California State University awards the appropriate degree to a student who has completed the prescribed course of study.

Diploma

The Graduate Division will mail the appropriate diploma to the student approximately eight to ten weeks after the date of graduation.
Courses and Curricula

This section contains the specific requirements for all graduate degrees authorized at San Diego State University by the Board of Trustees of The California State University. These specific requirements of departments or schools supplement and are in addition to the basic requirements for advanced degrees as stated in Part Two of this bulletin. All official master’s degree programs must be prepared in conformity with the specific requirements for the degree in question.

In addition, courses acceptable for credit toward an advanced degree are listed under major fields and areas of concentration. Each course is listed by department number, title, and units. Not all courses are offered every semester or every academic year. Ordinarily each listed course will be offered not less than once during a two-year period. Refer to the Class Schedule or the Summer Session Bulletin for a listing of course offerings.

San Diego State University reserves the right to withdraw any course listed in the class schedule for which the enrollment is not sufficient to warrant the organization of a class.

Postbaccalaureate (Unclassified) Enrollment

A postbaccalaureate student (unclassified) is not eligible to enroll in 600-, 700-, 800-, and 900-numbered courses except by special permission of the instructor and the graduate adviser of the school or department in which the course is offered. All credit earned by a postbaccalaureate student (unclassified) is subject to evaluation as to its acceptance for graduate credit in a master’s degree curriculum. Classified or conditionally classified students whose status is changed to postbaccalaureate (unclassified) for any reason may not enroll in any 600-, 700-, 800-, or 900-numbered course in the program in which they were previously classified without the consent of the graduate adviser of the program and the Graduate Dean. Students who enroll in such courses without consent may be administratively disenrolled or, if they complete any courses, those courses may not be used subsequently to meet any degree requirements.

Prerequisites for Graduate Courses

Graduate level (600-, 700-, 800-, and 900-numbered) courses require, as general prerequisites, graduate standing, and competence in the specified field as indicated by a substantial amount of upper division study in the field or in a closely related field. Unless otherwise specified in the course description, graduate level courses are open to classified graduate students with the permission of the instructor. Undergraduate students are not permitted to enroll in 600-, 700-, 800-, and 900-numbered courses except under special circumstances (see section “Concurrent Master’s Degree Credit”). Unauthorized enrollment of undergraduate students in 600-, 700-, 800-, and 900-numbered courses may be canceled or, if the course is completed before graduate standing is attained, only undergraduate credit will be earned for the course.

Students must complete a course prerequisite (or its equivalent) prior to registering for the course to which it is prerequisite. Students who have not completed the stated prerequisite must notify the instructor not later than the end of the second week of class in order for the instructor to determine if the student has completed the equivalent of the prerequisite.

Special Prerequisites for Registration in 798 and 799A

Registration in course 798, Special Study, must be arranged through the instructor, the major adviser, and the chair of the department concerned. Forms for this purpose are available in the departmental offices.

Only those students who have been advanced to candidacy and who have an officially appointed thesis committee are permitted to register for course 799A, Thesis. The student must obtain clearance for registration in this course from the Graduate Division. Failure to obtain this clearance may result in cancellation of enrollment.

Special Prerequisite for Registration in 899

Registration in course 899, Doctoral Dissertation, is limited to those doctoral students who have been advanced to candidacy and who have an officially appointed dissertation committee.

Thesis Extension (799B)

This course is intended solely for those graduate students who have had prior registration in Thesis 799A with an assigned grade symbol of SP. Students are required to register in 799B (0 units, Cr/NC) in any semester or term following assignment of SP in course 799A in which they expect to use the facilities and resources of the University. They must also be registered in the course when the completed thesis is submitted for thesis review.

Unit or Credit Hour

In the listing of courses that follows, figures in parentheses indicate the unit value of the course. One unit or credit hour represents 50 minutes of recitation or lecture, together with the required preparation, or three hours of laboratory work or two hours of activities, each week for a semester.
Faculty

Ronald S. Himes, Ph.D., Professor of Anthropology
Joseph W. Ball, Ph.D., Professor of Anthropology
Philip J. Greenfeld, Ph.D., Professor of Anthropology
Edward O. Henry, Ph.D., Professor of Anthropology
Larry L. Leach, Ph.D., Professor of Anthropology
Wade C. Pendleton, Ph.D., Professor of Anthropology

Associateships

Sources of financial assistance available to qualified graduate students in anthropology each academic year include two Norton Allen Scholarships, the Paul Ezell Internship in Archaeology and occasional graduate teaching associateships. Application forms and additional information may be obtained from the chair of the department.

General Information

The Department of Anthropology offers graduate study leading to the Master of Arts degree in anthropology. The Master of Arts degree in anthropology provides systematic training through two specializations: (1) general anthropology specialization, with a strong theoretical component, for students who anticipate additional work leading to the doctoral degree in anthropology, or direct placement in an academic setting; (2) an applied anthropology specialization primarily for those who plan to seek employment in the nonacademic sector. This specialization is concerned with the application of anthropological method and theory to practical problems in business, government, and other settings.

Research and special instructional facilities provided by the Department of Anthropology include laboratories for archaeology, ethnology, linguistics, physical anthropology, and world prehistory. Additional facilities available in the community include the Museum of Man, the San Diego Zoo, and various internship sites for applied research.

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in anthropology must have completed or complete at least 15 upper division units including Anthropology 301, 302, 303, and 304, or the equivalent to those required for an undergraduate major in anthropology at San Diego State University. Students receiving a bachelor’s degree in anthropology from San Diego State University must have at least a B average (3.0 grade point average) in the four 300-level core courses (Anthropology 301, 302, 303, and 304). Applicants from other undergraduate programs must have a B average in the courses equivalent to Anthropology 301, 302, 303, and 304. The student must also have an overall 3.0 (B) grade point average in all undergraduate courses or consent of the department.

Copies of transcripts and GRE General Test scores are to be sent to the Office of Admissions and Records. In addition to these documents and the University admission forms, students applying to the department are asked to submit (1) at least three letters of recommendation from persons in a position to judge academic ability; and (2) at least one typewritten example of their previous work (e.g., a term paper or an original experiment). Materials should be submitted by October 1 for admission for spring semester and March 1 for the fall semester.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students completing the General Anthropology specialization must: (1) satisfactorily complete all four core seminars (601, 602, 603, and 604) with a minimum grade point average of 3.0, and no less than a B- grade in each of the four core seminars, and (2) according to the specific recommendation of the Department of Anthropology, pass either an examination demonstrating working knowledge of an appropriate foreign language, or complete a sequence of at least one lower division and one upper division course (with a grade point average of 2.0 or better) in either:

(a) Foreign language recommended by the department, or
(b) Anthropology 580 (Anthropological Data Analysis) or one of the following sequences in statistics: Biology 215 and 597A; Sociology 201 and 406 or 407; Statistics 250 and 350A.

Those students who choose the Applied Anthropology specialization must: (1) satisfactorily complete three core seminars (601, 602, 603, or 604) selected with the approval of the graduate coordinator with a minimum grade point average of 3.0, and no less than a B- grade in each of the three core seminars; (2) satisfactorily complete Anthropology 621; and (3) satisfactorily complete a lower division course in quantitative methods (Biology 215, Psychology 270, Sociology 201, or Statistics 250) and Anthropology 580 (Anthropological Data Analysis) with no less than a B- in each course. After having been advanced to candidacy, students in either the General Anthropology or Applied Anthropology specializations must submit a thesis proposal for approval by the departmental graduate advisory committee.
Specific Requirements for the Master of Arts Degree  
(Major Code: 22021)

In addition to meeting the basic requirements for the Master of Arts degree as described in Part Two of this bulletin, students selecting the General Anthropology specialization must complete a graduate program of at least 30 units of which at least 21 units must be in 600- and 700-numbered courses in anthropology, to include:

1. Anthropology 601, 602, 603, and 604 (with a minimum grade point average of 3.0, and no less than a B- grade in each of these core seminars); only classified students may enroll in these courses;
2. Anthropology 797, Research (3) (to be taken after advancement to candidacy);

Students selecting the Applied Anthropology specialization must complete a graduate program of at least 30 units, of which at least 21 units must be in the 600- and 700-numbered courses in anthropology, or with the approval of the graduate coordinator, in related disciplines. The coursework for this specialization must include:

1. Nine units of core seminars chosen from Anthropology 601, 602, 603, or 604 with the approval of the graduate coordinator (with a minimum grade point average of 3.0, and no less than a B- grade in each of these core seminars);
2. Anthropology 580 (3) and Anthropology 621 (3) (courses to be taken prior to advancement to candidacy and prior to internship placement);
3. Anthropology 795 (6) (to be taken after advancement to candidacy);

All graduate students must take a final oral examination on the general field of the thesis which must be passed as a requirement for the degree. Only Plan A, requiring the thesis, is permitted for the Master of Arts degree in anthropology.

Courses Acceptable on Master’s Degree Program in Anthropology

**UPPER DIVISION COURSES**

500. Primates Social Behavior (3)  
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101.  
Analysis of modes of primate socialization and development of social behavior with emphasis on communication, group structure, aggression, and sex. Various methods of analysis and observation practiced utilizing primate collection at the San Diego Zoo.

501. Paleoanthropology (3)  
Prerequisite: Anthropology 101. Recommended: Anthropology 301.  
Fossil evidence for human evolution. Comparative and functional anatomy of fossil human and infrahuman primates; geochronology, paleoecology, and cultural associations; taxonomic implications.

503. Human Variation (3)  
Prerequisite: Anthropology 101.  
Morphological, physiological and genetic aspects of human variability. Significance of this diversity in the biological adaptations of human populations.

505. Human Osteology (3)  
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 101. Recommended: Anthropology 301 and/or Biology 212.  
Identification of individual bones and teeth; sex, age, and racial variation; stature reconstruction; continuous and discontinuous morphological variations; paleopathology. Training in observations, measurements, and analyses.

508. Medical Anthropology (3)  
Prerequisite: Anthropology 101 or 102.  
Evolution and ecology of disease, medical beliefs and practices in non-Western cultures, and complexities of health care delivery in pluralistic societies.

509. Culture and Biological Aging (3)  
Prerequisite: Anthropology 101 or 102.
Do different populations age at different rates? Theories of biological aging, genetics of longevity and cultural influences on biological aging. Process of aging and role of the aged in various cultures.

560. Advanced Archaeological Field Methods (3)  
One lecture and six hours of laboratory.
Prerequisite: Anthropology 312.
Advanced projects in excavation and stabilization of ruins, archaeological surveys, laboratory analysis and preparation of reports.

561. Archaeological Laboratory Methods (3)  
Two lectures and three hours of laboratory.
Prerequisite: Anthropology 560.  
Application of palynology, paleontology and relevant technologies. Individual laboratory research project required.

580. Anthropological Data Analysis (3)  
Two lectures and three hours of laboratory.
Prerequisites: Anthropology 101 or 102 and a statistics course. Recommended: Psychology 270 or Sociology 201.  
Computer oriented data analysis class utilizing anthropological data sets. Special section of the SPSS computer workshop is required.

582. Regional Anthropology (3)  
Prerequisite: Anthropology 102.
Study of societies in a major geographical region of the world such as Africa, the Arctic, East Asia, Europe, Latin America, the Middle East, North America, Oceania, or South Asia. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.

583. Topical Anthropology (3)  
Prerequisite: Anthropology 102.
Study of a major subdiscipline such as political anthropology, economic anthropology, social anthropology, psychological anthropology, cultural ecology, applied anthropology, anthropological genetics, or environmental archaeology. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units.
GRADUATE COURSES

600. Seminar (3)
An intensive study in advanced anthropology. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

601. Seminar in Physical Anthropology (3)
Prerequisite: Classified graduate standing and 12 upper division units in anthropology.
History and theory in physical anthropology stressing the significant literature on such topics as functional anatomy, human paleontology, population genetics, and primatology.

602. Seminar in Archaeology (3)
Prerequisite: Twelve upper division units in anthropology.
History and theory in archaeological data collection, analysis, and interpretation.

603. Seminar in Ethnology (3)
Prerequisite: Twelve upper division units in anthropology.
History and theory in ethnology stressing the significant literature on such topics as cross-cultural comparison, structural-functional analysis and description, personality and culture, and sociocultural change.

604. Seminar in Linguistics (3)
Prerequisite: Twelve upper division units in anthropology.
History and theory of linguistics stressing the significant literature on such topics as cultural cognition, descriptive linguistics, lexicostatistics, and transformational analysis.

621. Seminar in Topical Anthropology (3)
Prerequisite: Twelve upper division units in anthropology.
Study of a major subdiscipline such as political anthropology, economic anthropology, social anthropology, psychological anthropology, cultural ecology, applied anthropology, race and variation, or environmental archaeology. Maximum credit six units applicable to a master’s degree. May be repeated with new content. See Class Schedule for specific content.

795. Internship in Anthropology (3-9) Cr/NC
Prerequisites: Classified graduate standing and consent of instructor.
Students assigned to various government and private agencies in which anthropological theory can be applied. Supervision shared by department supervisor and on-the-job supervisor. Maximum credit nine units; three units applicable to a master’s degree.

797. Research (3) Cr/NC/SP
Prerequisite: Advancement to candidacy.
Independent investigation in the general field of the thesis.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study directed toward the preparation of a paper on a specific problem. May be repeated with variable content, with a maximum credit of three units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis, 799A, with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Gail C. Roberts-Fields, M.A., Professor of Art, Design, and Art History
Helen Z. Shirk, M.F.A., Professor of Art, Design, and Art History
Tina Marie Yapelli, M.A., Professor of Art, Design, and Art History
Jo-Anne Berelowitz, Ph.D., Associate Professor of Art, Design, and Art History
Richard A. Burkett, M.F.A., Associate Professor of Art, Design, and Art History (Graduate Coordinator, Studio Arts)
Robert A. Mansfield, M.F.A., Associate Professor of Art, Design, and Art History
Wendy L. Maruyama, M.F.A., Associate Professor of Art, Design, and Art History
Susan C. Merritt, M.A., Associate Professor of Art, Design, and Art History
Kerry Ann Nelson, M.S., Associate Professor of Art, Design, and Art History
Kotaro Nakamura, M.A., Assistant Professor of Art, Design, and Art History
Mark J. Siprut, M.F.A., Assistant Professor of Art, Design, and Art History

Associateships
Graduate teaching associate positions in art are available to a limited number of qualified students. Application blanks and additional information may be secured from the director of the school.

General Information
The School of Art, Design and Art History offers graduate study leading to the Master of Fine Arts degree in art and the Master of Arts degree in art. The objectives of the graduate program in all areas of specialization are to provide the essential education, technical training and creative experience necessary for professional activity or college-level teaching in the visual arts.

The Master of Arts degree is a 30-unit graduate program requiring one to two years to complete. The M.A. concentration in studio arts is designed to prepare students for proficient and successful practice as professional artists and is offered in the following areas: ceramics, environmental design, furniture, graphic design, interior design, jewelry/metalsmithing, painting, printmaking, sculpture and textiles. The M.A. degree with a concentration in art history is designed to prepare students for professional positions in galleries and museums and for doctoral degree programs.

The Master of Fine Arts degree requires an additional 30 units in the area of specialization and professional seminars, with the expectation that the student will achieve a higher level of excellence and distinction in the chosen area of specialization. The M.F.A. degree requires 60 units and can be completed in three years. The degree is offered in ceramics, environmental design, furniture, graphic design, jewelry/metalsmithing, painting, printmaking, sculpture and textiles.

The Art building has expansive facilities offering the student excellent studio space and equipment. In addition, the San Diego Museum of Art, the San Diego Museum of Contemporary Art, the Putnam Foundation collection in the Timken Gallery, and the Museum of Man in Balboa Park offer valuable original materials as well as specialized libraries for research. There are also numerous community college galleries and commercial galleries with a wide variety of offerings.

Master of Fine Arts Degree in Art

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In general, the student must have completed a bachelor’s degree in studio art or the equivalent from an accredited institution, including twelve units of art history, six units of which comprise a survey of the history of Western art. A grade point average of 3.25 or better in upper division art courses is required.

Students must also be able to show that they are adequately advanced to carry out projects which measure up to graduate standards. This requirement will be measured by a formal presentation of a portfolio of work to the graduate faculty in the area of emphasis.

Admission to the Master of Fine Arts degree program is limited to the Fall semester. Applications and portfolios for the annual graduate review must be submitted to the graduate coordinator by February 1.

Admission to Graduate Study

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, all students must have (1) completed a minimum of 30 units on the official program with a minimum grade point average of 3.0 (B) and (2) been reviewed by the graduate faculty of the emphasis area and received approval of an acceptable body of graduate work completed since classified standing fulfilling the requirements of the area of emphasis.

Specific Requirements for the Master of Fine Arts Degree

(Major Code: 10022)

Candidates for the M.F.A., in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program which includes a minimum of 45 units at the 600- and 700-level. Art 694, 760, 791, and 792 are required. Normally, a student will focus on one of the studio art fields (applied design, painting, environmental design, graphic design, sculpture, and printmaking). With approval of the Director and graduate coordinator a student may focus on a program of study combining two studio art fields. Six units must be included in art history, art criticism, and aesthetics courses. Nine units must be included on the program from studio electives outside the area of emphasis or electives in other departments. Art 799A, Thesis must be included on the program. In addition, there will be an oral examination of each candidate by the graduate faculty of the School of Art, Design and Art History. This examination will occur at the time of the candidate’s master’s exhibition, and will encompass an in-depth discussion of the candidate’s thesis project.

No more than 15 units of graduate work may be transferred from another institution. Requests for more than six units must be approved by a committee of representatives from the area of emphasis. Applicants holding an M.A. degree in studio art from an accredited institution may transfer up to 30 units upon review and recommendation of the faculty in the area of emphasis, and approval of the graduate coordinator of the School of Art, Design and Art History. Candidates must be prepared to spend at least two semesters (24 units) in residence as full-time students. Coursework taken as a graduate student to fulfill undergraduate deficiencies may not be used to satisfy any unit requirement for the M.F.A. degree program. A 3.0 grade point average must be maintained at all times. Continuation in the program will be determined by a review of each candidate by the graduate faculty in the emphasis area. This review will be held upon completion of 30 units in the M.F.A. program, or at any time upon request of the graduate coordinator.

Master of Arts Degree in Art

Admission to Graduate Study

Studio Arts

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In general, students must have completed an undergraduate major in art with a minimum of 24 upper division units, including two semesters of work in the general history of art, before they will be permitted to enter the graduate program. Students must also be able to show that they are adequately advanced to carry out projects which measure up to graduate standards. In studio areas this requirement will be measured by a formal presentation (the Graduate Review) to the emphasis area faculty of a portfolio of examples of the candidate’s undergraduate or postbaccalaureate work. The range should be great enough to give the committee a knowledge of the candidate’s strengths and weaknesses. A statement of the candidate’s objectives in the graduate program should accompany this presentation. If it is determined that the student is capable of doing graduate art work, he/she may be permitted to begin such work even though he/she has not completed an appropriate undergraduate major in art. Those students whose work is insufficiently advanced for classified graduate standing may enroll for courses with postbaccalaureate unclassified standing, under guidance from the school, in order to meet the standard requirements. Admission to the Master of Arts degree program in studio arts is limited to the Fall semester. Applications and portfolios for the annual graduate review must be submitted to the graduate coordinator by February 1. (Please note: Art history applicants should check the deadline dates in the next section.)

Art History

In addition to meeting the requirements for admission to the University, students wishing to be admitted to the art history graduate program with a classified graduate standing must complete the equivalent of the graduation requirements as specified in the current General Catalog (a minimum of 39 units of art history to include Art 593), with a GPA of 3.0 on a 4.0 scale in the last 60 units attempted.

Students who do not meet the requirements for admission to the graduate program in art history but meet the requirements for graduate admission to the University, may, at the discretion of the art history faculty, be accepted with postbaccalaureate unclassified standing.

Art history applications, obtainable from the graduate coordinator, are due on March 1 for the fall semester or October 1 for the spring semester and should be accompanied by transcripts of all undergraduate or postbaccalaureate work.

Adancement to Candidacy

Studio Arts

In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, all students will be required to pass a comprehensive examination covering the fields of history of art of western civilization, the principles of art appreciation, and the techniques and materials of the artist, or to have completed a year course in the history of art of Western civilization and six undergraduate units of art history.

Students with a concentration in studio arts must have: (1) completed at least 12 units listed on his/her official program with a minimum grade point of 3.0 (B); and (2) been reviewed by the tenured and tenure-track faculty of the emphasis area and received approval of an acceptable body of graduate work completed since classified standing fulfilling the requirements of the area of specialization.
Art

Art History

Classified graduate students working for the Master of Arts degree with a concentration in art history must pass a comprehensive examination in art history (Western and non-Western) no later than the second semester as classified graduate students before advancement to candidacy. Classified graduates should contact the graduate adviser to sign up for the comprehensive examination and to discuss their individual graduate programs before their third week of the first semester.

Before advancement to candidacy, classified graduate students working for the Master of Arts degree with a concentration in art history must pass a qualifying examination in art history. Classified graduate students must have completed three semesters of college level French or German or, on the advice of the art history faculty, the language necessary for thesis research. Alternatively, with the consent of the art history faculty, students may demonstrate a reading knowledge of the appropriate language by passing the Graduate School Foreign Language Examination (the French MLA examination is given by the Test Office during the beginning of each semester; contact the School of Art, Design and Art History for permission to take the examination). The language requirement must be met before the add/drop date of the student’s first semester as a classified graduate student, or the student must enroll for appropriate language courses.

Specific Requirements for the Master of Arts Degree

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, all students must complete a graduate program of a minimum of 30 units which includes at least 24 units in art from courses listed below as acceptable on master’s degree programs in art, of which at least 16 units must be in 600- and 700-numbered courses.

Studio Arts
(Major Code: 10021)

Those electing studio arts must complete a minimum of 18 units in the area of specialization. Art 694, 760, and 799A are required. Not more than a total of six units in Art 798 will be accepted. A creative project accompanied by a written report is required as fulfillment of Art 799A. In conjunction with this project, each candidate for the degree must present an exhibition of representative graduate work.

Art History
(Major Code: 10031)

Those electing art history must complete at least 18 units from the 600- and 700-numbered courses in art history to include Art 799A, selected in consultation with the art history adviser. Students may select up to 12 units of 500-level courses in art, nine units of which must be in art history and approved by the graduate adviser. The additional three units must be selected in consultation with the graduate adviser, to include Art 593 if this course is not already completed. A written thesis is required as fulfillment of Art 799A. Master’s candidates in art history will also be required to give an open lecture on their thesis subject, to be scheduled with the approval of the thesis chair.

Thesis and Projects in Art

The thesis required for the Master of Arts degree in art history is a written document; the project required for the Master of Arts degree with a concentration in studio arts and the Master of Fine Arts degree is an original body of work of creative art accompanied by a written report. All theses and written reports accepted in satisfaction of a requirement for the master’s degree are cataloged and accessioned in the library. Color slides of the project must be provided by the candidate and are retained in the slide library. One copy of art history theses must be given to the School of Art, Design and Art History.

Courses Acceptable on Master’s Degree Programs in Art

UPPER DIVISION COURSES

500. Advanced Drawing (3)
Six hours.
Prerequisites: One year of 400-level studio art coursework and consent of instructor.
Drawing emphasizing qualitative aspect of visual subject matter. Maximum credit six units.

502. Inter-Media (1-3) I, II
Two hours for each unit of credit.
Prerequisites: Art 102 and 103. Process and materials in plane and space. Maximum credit six units.

503. Life Drawing and Painting (3) I, II
Six hours.
Prerequisites: Art 204 and 403.
Approaches to contemporary concepts in painting. Maximum credit six units.

504. Advanced Painting (3) I, II
Six hours.
Prerequisite: Six units of Art 404.
Approaches to contemporary concepts in painting. Maximum credit six units.

506. Contemporary Issues for Studio Artists (3) I
Prerequisites: Upper division or graduate standing in art and consent of instructor.
Theory, practice, and philosophy of being an artist. Independent research on current art concepts and issues. Material will encompass the past five years. Field trips.

510. Intaglio Printmaking in Color (3) I, II
Six hours.
Prerequisite: Art 410.
Advanced creative intaglio printmaking in color, including zinc and copper plate; etching, drypoint, aquatint, engraving, embossing and color variations. Emphasis on fine print quality and technical development in the color process unique to this medium. Maximum credit six units.

511. Lithography Printmaking in Color (3) I, II
Six hours.
Prerequisite: Art 411.
Advanced creative lithography printmaking in color. Emphasis on fine print quality in color process and color technology unique to this medium. Maximum credit six units.
516. Advanced Sculpture (3) I, II
Six hours.
Prerequisite: Art 416.
Individual investigations into sculpture ideas, methods and materials. Individual development in sculpture. Materials may include clay, plastics, paper or wood. Maximum credit six units.

517. Advanced Figurative Sculpture (3) I, II
Six hours.
Prerequisites: Art 216 and 217.
Figurative study with emphasis on individual exploration. Maximum credit six units.

518. Advanced Metal Sculpture (3)
Six hours.
Prerequisite: Art 418.
Sculpture ideas and methods using metal fabrication and foundry processes. Individual development in sculpture. Maximum credit six units.

523. Advanced Furniture Design (3) I, II
Six hours.
Prerequisite: Six units of Art 423.
Advanced individual design, exploration of materials, process and function. Maximum credit six units.

525. Advanced Ceramics (3) I, II
Six hours.
Prerequisite: Art 425.
Study of ceramic design through creative projects of clay forms. Maximum credit six units.

526. Clay and Glaze Technology in Ceramic Design (3)
Six hours.
Prerequisite: Art 425.
Experimentation and application of research concerning the use of ceramic materials and techniques as an integral part of the design process. Maximum credit six units.

531. Advanced Jewelry and Metalwork (3) I, II
Six hours.
Prerequisite: Art 431.
Problems involving fabrication processes already studied in order to increase technical competence while exploring personal design statements; specialized techniques such as photo-etching and electroforming. Maximum credit six units.

532. Advanced Metalsmithing (3) I, II
Six hours.
Prerequisite: Art 432.
Advanced problems involving metal processes to increase technical competence while exploring personal design statements. Maximum credit six units.

534. Advanced Weaving (3) I, II
Six hours.
Prerequisite: Art 334.
Advanced individual problems in weaving. Maximum credit six units. Maximum combined credit of nine units in Art 234, 334, and 534.

535. Advanced Nonwoven Textile Construction (3) I, II
Six hours.
Prerequisite: Art 435.
Advanced study in nonloom techniques. Techniques to include: looping, braiding, plaisting, and special fabricating techniques. Experimentation with new man-made fibers and with synthetic commercial dyes. Maximum credit six units.

536. Advanced Textile Design (3) I, II
Six hours.
Prerequisite: Art 436.
Application of design for the textile surface, appropriate for both the individual designer and commercial reproduction. Maximum credit six units.

540. Advanced Photographic Imagery (3) I, II, S
Six hours.
Prerequisites: Grade of C (2.0) or better in Art 340, or Art 207 and 240.
Visual communication and expression using photographic media, including photomechanical and digital processes. Preparation for multimedia and digital prepress. Maximum credit six units with consent of instructor.

541. Advanced Graphic Design - Visual Communication Systems (3) I, II
Six hours.
Prerequisite: Grade of C (2.0) or better in Art 440 or 441.
Proof of completion of prerequisite required: Copy of transcript.
Design of visual communication systems relating to visual, verbal, and corporate identification strategies. Maximum credit six units.

542. Design Studio (3) I, II
Six hours.
Prerequisites: Portfolio review and grade of C (2.0) or better in one 400 or 500-level graphic design course.
Solutions to design problems for clients in a studio environment including business procedures and production management. Development of a professional level portfolio. Maximum credit six units with consent of instructor.

543. Advanced Drawing and Illustration for Graphic Design (3)
Six hours.
Prerequisite: Art 443.
Refinement of visual imagery and advanced illustration problems.

544. Visual Communication: Emerging Technologies (3)
Six hours.
Prerequisites: Grade of C (2.0) or better in Art 440 or 441 or 444; or Art 240 and a 500-level studio art course.
Advanced design studies in emerging electronic communications, including cyberstudios, Internet and multimedia. Exploration in collaborative, interdisciplinary, and international projects. Maximum credit six units with consent of instructor.

547. Environmental Theory (3) I, II
Prerequisite: Art 247 or 347.
Survey of alternative solutions to the problem of design of the physical environment.

550. Environmental Prototypes (3) I
Six hours.
Prerequisites: Art 247, 250, 450.
Research and development of creative architectural concepts with emphasis in space enclosure systems and cybernetics.
552. Interior Design IV (3) I, II
Six hours.
Prerequisites: Art 451, 453, and completion of portfolio
requirement. **Proof of completion of prerequisites required:** Copy of transcript.
Projects in architectural interiors involving the use and perception of enclosed spaces. Space planning systems analysis. Maximum credit six units.

553. Interior Design V (3) I, II
Six hours.
Prerequisite: Art 552. **Proof of completion of prerequisite required:** Copy of transcript.
Projects in interiors involving space planning analysis, specification writing, materials selection and furnishing design appropriate to commercial needs. Maximum credit six units.

557. Art of the Nineteenth Century (3) I, II
Prerequisites: Art 258 and 259.
Development of painting, sculpture, and architecture from the French Revolution to 1900.

558. Twentieth Century European Art to 1945 (3) I, II
Prerequisite: Art 259.
Major developments in the visual arts and art criticism from 1880 to 1945 (Post-Impressionism through Surrealism).

559. Twentieth Century European and American Art Since 1945 (3) I, II
Prerequisites: Art 258 and 259. Recommended: Art 558.
Major developments in the visual arts and art criticism since 1945.

560. History of American Art (3)
Prerequisites: Art 258 and 259.
Development of painting, sculpture, and architecture from the Native American art and Colonial Period to the present.

564. Art of China (3) II
Prerequisite: Art 263.
History of Chinese art from prehistoric times through the Ching Dynasty.

565. Art of Japan (3) II
Prerequisite: Art 263.
History of Japanese art from prehistoric times to the Meiji Restoration.

568. Art of Crete, Mycenae, Greece, and Rome (3)
Prerequisite: Art 258.
Development of painting, sculpture, architecture, and crafts from prehistoric times to the fifth century A.D.

569. Art of Sub-Saharan Africa (3)
Prerequisite: Upper division standing.
Form and content of the art of Sub-Saharan Africa viewed within its cultural context.

573A. Early Renaissance Art in Italy (3)
Prerequisites: Art 258 and 259.
Italian arts, architecture, artists, and patrons from fourteenth century Proto-Renaissance period through fifteenth century revival of classical humanism in city states of Florence, Siena, Bologna, Mantua, and Padua.

573B. Late Renaissance Art in Italy (3)
Prerequisites: Art 258 and 259.
High Renaissance in Florence and Rome, followed by disintegration of classical principles and domination of Mannerism in Central and Northern Italy and history of arts of Venice in sixteenth century.

574. Northern Renaissance Art (3)
Prerequisites: Art 258 and 259.
Architecture, sculpture, and painting north of the Alps during the Renaissance period.

575. Baroque and Rococo Art (3)
Prerequisites: Art 258 and 259.
Architecture, sculpture, and painting of the Baroque and Rococo periods.

577. History of Architecture (3)
Prerequisites: Art 258 and 259.
Architecture from primitive times to the present.

591. Gallery Exhibition Design (3) I, II
Six hours.
Prerequisite: Fifteen units of art.
Fundamental art elements and principles applied to theories and techniques of gallery exhibition design.

592. Gallery Exhibition Design (3) I, II
Six hours.
Prerequisite: Art 591.
Advanced problems in the theories and techniques of gallery exhibition design.

593. History and Methodology of Art History (3) II
Prerequisites: Upper division standing; art history major or minor.
Readings and discussions on the historiography of art and on modern methodologies for art historical research.

596. Advanced Studies in Art and Art History (1-4)
Prerequisites: Twelve units of art and art history and consent of instructor.
Advanced topics in art and art history. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum credit of three units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Drawing (3)
Six hours.
Prerequisite: Art 500.
Concepts and approaches to drawing. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

604. Painting (3)
Six hours.
Prerequisite: Art 504.
Issues and concepts relating to contemporary painting. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.
609. Printmaking (1-3)
Two hours for each unit of credit.
Advanced creative work in selected printmaking media based upon the analysis of the history and philosophies of printmaking from its inception through contemporary concepts. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

616. Sculpture (3)
Six hours.
Prerequisite: Art 516.
Aesthetic organization of selected subject matter in the media of sculpture. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

623. Advanced Furniture Design (3)
Six hours.
Prerequisite: Art 523.
Problems in the design and construction of furniture. Projects determined by the individual students in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

625. Crafts (1-3)
Two hours for each unit of credit.
Prerequisite: Six units completed in upper division courses in sculpture or ceramics or printmaking or a combination of these courses.
Advanced creative work in selected craft media. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

627. Advanced Clay and Glaze Technology in Ceramic Design (3)
Six hours.
Prerequisite: Art 425.
Experimentation with the use of ceramic material and techniques as an integral part of the design process. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

631. Seminar in Jewelry and Metalwork (3)
Prerequisite: Art 331.
Problems in the design and execution of works in precious metals. Projects will be determined by the individual student in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

634. Seminar in Textile Design (3)
Prerequisite: Art 334.
Problems in textile design and technology. Projects will be determined by the individual student in consultation with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

641. Graphic Communication (1-3)
Two hours for each unit of credit.
Prerequisite: Art 541.
Advanced individual study in graphic design. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

650. Creative Environmental Design (1-3)
Prerequisite: Six upper division units in interior design, architecture or city planning.
Creative work in interior design, architecture and civic design. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

662. Seminar in the Principles of Design in the Space Arts (3)
Prerequisite: A semester course in art appreciation.
An intensive study of the activity of creative expression and aesthetic appreciation in the area of visual experience. The aesthetic analysis of original works of art. Maximum credit six units applicable to the M.A. degree.

700. Studio Art Experience (3)
Six hours.
Independent research in specified areas, which may require the presentation of a paper with its oral defense.
Independent research in specified areas. Each letter designation may be taken for a maximum six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

A. Studio Art in Painting
B. Studio Art in Sculpture
C. Studio Art in Printmaking
D. Studio Art in Ceramics
E. Studio Art in Graphic Design
F. Studio Art in Graphic Metals
G. Studio Art in Environmental Design
H. Studio Art in Textiles
I. Studio Art in Jewelry/Metals
J. Studio Art in Furniture

716. Individual Research Problems in Sculpture (3)
Prerequisite: Art 616 (six units).
Graduate research problems including independent research in sculpture. Projects will be determined by the individual student in conference with the instructor. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

760. Seminar in Twentieth Century Art (3)
Prerequisites: Art 558 and 559.
Visual arts and art criticism since 1900.

791. Seminar in Professional Practices (3)
Reading and discussion about subjects of direct concern to the professional artist. Open only to classified graduate students in studio art. This is an art forum for the practicing artist.

792. Seminar in Professional Problems (3)
Reading and discussion pertinent to professional activities in specific media. Open only to classified graduate students.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of the staff; to be arranged with department chair and the instructor.
Individual study. Maximum credit six units applicable to the M.A. degree; nine units applicable to the M.F.A. degree in art.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for a master’s degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Gloria H. Rogers, M.L.S., M.A., Associate Librarian

General Information
The Master of Arts degree in Asian studies is an interdisciplinary degree offered by designated faculty members in the Departments of Anthropology, Art, Business Administration, Classics and Humanities, Comparative Literature, Economics, Education, English, Geography, History, Linguistics and Oriental Languages, Philosophy, Political Science, Religious Studies, and Sociology. It is administered by the Department of Asian Studies through a graduate committee consisting of the director, the graduate adviser, and representatives from the several departments.

The program is designed to offer systematic advanced training (a) for those planning to enter educational, business, government, or community service involving Asian studies; (b) for those in a specific academic discipline who have regional interest in Asian studies and wish to promote more effective understanding of the cultures, societies, peoples, and social forces at work in the Asian/Pacific world; and (c) for those who plan to pursue further graduate study in Asian studies beyond the Master of Arts degree.

Admission to Graduate Study
In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present a Bachelor of Arts degree with a major in Asian studies or its equivalent, as approved by the graduate committee of the Department of Asian Studies. A student whose preparation is deemed inadequate by the graduate committee will be required to complete specific courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, all students must demonstrate a reading knowledge, at least at the intermediate level, of a relevant foreign language approved by the graduate committee of the Department of Asian Studies. If Chinese or Japanese is required, the requirement may be fulfilled by completing 16 units of coursework in the particular language, the last four units with a grade of C (2.0) or better.

Specific Requirements for the Master of Arts Degree
(Major Code: 03011)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete a minimum of 30 units from courses acceptable on master’s degree programs, including Asian Studies 600 and 799A, with not less than 24 units in courses of Asian content, distributed as shown below.

<table>

15 units 9 units

The remaining six of the total 30 units will be elective, subject to graduate committee approval. The total program may not include more than 12 units in 500-level courses.

Only Plan A, requiring the thesis, is offered for the Master of Arts degree in Asian studies. A final oral examination on the general field of the thesis must be passed as a requirement for the degree.

All programs will be approved by the graduate committee of the Department of Asian Studies.
Asian Studies Courses Acceptable on Master's Degree Program in Asian Studies

UPPER DIVISION COURSES

Asian Studies Courses

561. History of Asian Business and Trade (3) I
Prerequisites: Upper division standing and consent of instructor.
East and Southeast Asian commerce and trade from tenth century to present. Emphasis on nineteenth and twentieth century economic development, structure of Asian commercial networks, role of overseas Chinese, and problems of international trade.

581. Women in Modern Asian History (3) II
Prerequisite: Asian Studies 458 or 459 or an upper division course in history with Asian content.
Historical and contemporary issues of politics, power, and women in Asia from mid-eighteenth century; gender roles, traditional values, social structures, levels of consciousness, effectiveness of organizations and individual contributions of historically significant women.

596. Selected Studies in Asian Cultures (3)
Topics on various aspects of Asian studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

Anthropology Course
582. Regional Anthropology (3)*

Comparative Literature Course
530. Topics in Asian Literature (3)

Economics Courses
561. International Trade (3)
592. International Monetary Theory and Policy (3)

Geography Courses
554. World Cities: Comparative Approaches to Urbanization (3)
596. Advanced Topics in Geography (1-3)*

History Courses
561. Asia and the West (3)
564A-564B. Southeast Asia (3-3)
565. Revolution and Social Change in Asia (3)
566. Chinese Civilization: The Great Traditions (3)
567. China's Century of Modernization (3)
569. Japanese Civilization (3)
570. Modern Japan (3)
596. Selected Studies in History (1-4)*

Philosophy Course
575. A Major Philosopher (3)*

Political Science Course
575. International Relations of the Pacific Rim (3)

Religious Studies Courses
580. A Major Figure (3)*
581. Major Theme (3)*
583. Major Tradition (3)*

Sociology Course
556. Topics in Comparative Societies (3)*

GRADUATE COURSES

Asian Studies Courses

600. Seminar in Interdisciplinary Methods (3)
Theory and practice of interdisciplinary studies. Bibliography, research tools and presentation of findings in Asian studies.

690. Seminar in Asian Studies (3)
Intensive study of an aspect of Asian studies. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP
Research in one of the aspects of Asian studies. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Thesis 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Anthropology Course
600. Seminar (3)*

Economics Courses
720. Seminar in Development and Planning (3)*
750. Seminar in Economic History and Institutions (3)*

Finance Course
654. Seminar in International Business Finance (3)*

Geography Courses
701. Seminar in Development of Geographic Thought (3)*
720. Seminar in Regional Geography (3)*
740. Seminar in Human Geography (3)*

History Courses
601. Seminar in Historical Methods (3)**
650. Directed Readings in Asian History (3)
655. Seminar in Asian History (3)

Information and Decision Systems Course
744. Seminar in Total Quality Management and Productivity (3)

Linguistics Course
795. Seminar in Linguistics (3)*

Management Course
723. Seminar in International Strategic Management (3)*

Marketing Course
769. Seminar in International Marketing (3)*

Philosophy Course
696. Seminar in Selected Topics (3)*

Political Science Courses
655. Seminar in General Comparative Political Systems (3)*
658. Seminar in Post-Communist Political Systems (3)*
661. Seminar in the Political Systems of the Developing Nations (3)*

765. Seminar in International Relations (3)*

All 797 (Research) and 798 (Special Study) courses in named departments, when relevant, are also applicable upon approval by the graduate committee.

* Acceptable when of relevant content.
** Required of all students who offer history as Department A.
Astronomy

John M. Hood, Ph.D., Physics
William S. Kovach, Ph.D., Astronomy
Andrew T. Young, Ph.D., Astronomy
Jeff Veal, Ph.D., Astronomy

Associateships
Graduate teaching associateships in astronomy are available to a few qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information
The Department of Astronomy offers graduate study leading to the Master of Science degree in astronomy. The degree is designed to prepare students either for further graduate work leading to the doctorate, or for a professional career in teaching or in industry.

San Diego State University operates the Mount Laguna Observatory which is located 45 road miles east of the campus at an elevation of 6100 feet. The research telescopes at the observatory include three reflectors with apertures of 40, 24 and 16 inches. The 40-inch telescope is operated jointly with the University of Illinois. Auxiliary equipment for the telescopes includes photoelectric photometers, spectrographs, and CCD camera for direct imaging. A dormitory for observers and a shop-laboratory building complete the main research facilities at the observatory. Additionally, each telescope dome has a PC for data collection and on-line reduction. A central, general-purpose, Sun Sparc station computer provides on-line data bases as well as reduction and analysis capabilities. Associated with the observatory is the Awona Harrington Visitor Center which provides facilities for educational programs and for visiting astronomers.

The Department of Astronomy operates its own image processing facility with a main computer and printer/plotte r peripherals. Many of the nearly 40 departmental PC’s, as well as the six Sun Sparc stations, are connected to the main computer, as well as to the San Diego Super Computer Center.

Campus facilities also include a Clark 12-inch refractor, 12-inch and 16-inch reflectors, solar telescope, and a Spitz AP3 planetarium for use in introductory classes and public programs. In addition to the campus library, the department maintains its own library with computer access to data bases.

A main research interest in the department is the study of the structure and evolution of stars derived from the investigation of eclipsing and interacting binary stars. These studies make use of both photometry and spectroscopy at the observatory. Stellar evolution is further studied with photometry of star clusters. Information on the late stages of stellar evolution comes from both theoretical and observational studies of planetary nebulae. Galaxies are investigated through surface photometry using direct imaging. The department also has a strong CCD instrumentation program. Graduate students are extensively involved in many of these research programs. Students also may make use of observatory facilities in support of their own research.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the university with classified graduate standing, as described in Part Two of this bulletin. In addition, the student
must have an overall grade point average of at least 2.75 in the
last 60 units of his undergraduate work and must have prepara-
tion in astronomy and related sciences substantially equivalent
to that required for the bachelor’s degree in astronomy at San
Diego State University. Applicants transferring to San Diego
State University must submit two letters of recommendation.

Advancement to Candidacy
All students must satisfy the general requirements for
advancement to candidacy as specified in Part Two of this bulle-
tin. In addition, students may be required to take a qualifying
examination during their first semester of residence.

Specific Requirements for the Master of
Science Degree
(Major Code: 19111)
In addition to meeting the requirements for classified graduate
standing and the basic requirements for the master’s degree as
described in Part Two of this bulletin, the student must also meet
the following departmental requirements in a 30-unit program:
1. Complete the 15-unit core course curriculum (Astronomy
620, 630, 640, 660, and 680).
2. Complete at least 12 additional units of graduate level or
approved 500 level courses in astronomy or related fields
as approved by departmental committee.
3. Complete Astronomy 799A (Thesis, 3 units) and pass a
final oral examination on the thesis.
4. A reading knowledge of scientific French, German, or
Russian is recommended. Facility with a scientific com-
puting language is desirable.

Courses Acceptable on Master’s Degree
Program in Astronomy

UPPER DIVISION COURSE

596. Advanced Topics in Astronomy (2 or 3) I, II
Prerequisite: Consent of instructor.
Selected topics in theoretical astronomy or astrophysics.
May be repeated with new content upon approval of instructor.
See Class Schedule for specific content. Limit of nine units of
any combination of 296, 496, 596 courses applicable to a
bachelor’s degree. Maximum credit of six units of 596 applica-
table to a bachelor’s degree. Maximum combined credit of six
units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Seminar (2 or 3)
Prerequisite: Consent of instructor.
An intensive study in advanced astronomy. May be repeated
with new content. See Class Schedule for specific content. Max-
imum credit six units applicable to a master’s degree.

610. Binary Stars (3)
Prerequisite: Astronomy 450.
Visual, spectroscopic, and eclipsing binary stars. Review of
observational techniques. Methods of orbital analysis with appli-
cations emphasizing determination of fundamental stellar prop-
erties, such as mass, radius, temperature, and luminosity.
Implications for stellar evolution.

620. Galactic Structure (3)
Prerequisite: Astronomy 450.
Survey of basic observational data for determining structure
of Milky Way Galaxy. Includes luminosity functions, stellar distri-
butions, solar motion, stellar populations, kinematics and
dynamics of general and peculiar stellar motions.

630. Stellar Atmospheres and Interiors (3)
Prerequisite: Astronomy 450.
Gas thermodynamics and equations of state. Production of
stellar continuum radiation and spectral lines. Theories of radia-
tive and convective energy transport. Interior structure and evo-
olution of stars.

640. Interstellar Medium (3)
Prerequisites: Astronomy 450 and Mathematics 342A.
Atomic radiative and collisional processes. Gas, dust, grains,
and dynamics of the interstellar medium. Emission and plane-
tary nebulae. Active galactic nuclei.

660. Galaxies and Cosmology (3)
Prerequisite: Astronomy 450.
Morphology, photometric, and spectroscopic properties,
dynamics, and evolution of normal galaxies. Current interpreta-
tions of peculiar galaxies and QSO’s. The extragalactic distance
scale. Observational cosmology.

680. Astronomical Techniques (3) I
Prerequisites: Astronomy 350 and 450.
Basic methods of data acquisition and analysis. Emphasis is
given to CCD direct imaging, spectroscopy, and photometry.
Direct experience with telescopes and instruments at Mount
Laguna Observatory, as well as with the department computing
and image processing facility.

797. Research (1-3) Cr/NC/SP
Prerequisite: Classified graduate standing.
Research in one of the fields of astronomy. Maximum credit
six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with depart-
ment chair and instructor.
Individual study. Maximum credit six units applicable to a
master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and
advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an
assigned grade symbol of SP.
Registration required in any semester or term following
assignment of SP in Course 799A in which the student expects
to use the facilities and resources of the university; also student
must be registered in the course when the completed thesis is
granted final approval.

Walter C. Oechel Ph.D., Professor of Biology
(Graduate Adviser, Ecology Ph.D. program)

Associateships and Assistantships
Graduate teaching associateships and graduate assistantships in biology are available to a limited number of qualified students. Application blanks and additional information may be secured from the graduate coordinator in biology.

General Information
The Department of Biology offers graduate study leading to the degrees of Master of Arts and Master of Science in biology and the Master of Science degree in microbiology. In addition, the Department of Biology offers a joint program leading to the Ph.D. with the University of California, San Diego, and the ecology group offers a joint program leading to the Ph.D. with the graduate group in ecology at the University of California, Davis.

A modern life science building provides facilities for graduate study in the biological sciences. Additional facilities available in the community include the San Diego Zoo hospital, the United States Department of Agriculture, Fish and Game Commission, the Hubbs-Sea World Research Institute, the San Diego Natural History Museum, and the Naval Underseas Center. San Diego State University also operates a marine laboratory on Mission Bay and has access to research sites in the Chihuahua Valley, Fortuna Mountain, and Temecula (Riverside County).

Section I.
Master's Degree Programs
The Master of Arts degree in biology, with its foreign language requirement, is considered to be essentially an academic degree that serves as a stepping stone to certain higher degree programs. The Master of Science degrees in biology and microbiology are also acceptable as preparation for more advanced degree programs. Studies for degrees in biology must be completed in one of the research programs listed below.

Admission to Graduate Study
In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before he/she will be considered for recommendation to enter the masters program.
Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement for the Master of Arts degree, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Arts Degree in Biology

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of upper division and graduate courses selected, with the approval of the graduate coordinator, from the biological sciences as listed below, or from closely related fields. At least 15 of the units selected must be in 600- and 700-numbered courses, including Biology 799A, Thesis. A maximum of six units of the required 30 units may be selected from acceptable courses offered in the College of Education. A final oral examination in the field of the thesis and its implications in the broad fields of biology is also required.

The department expects students to complete all degree requirements within seven years. The graduate coordinator, in some circumstances, may permit a student to validate a course for recency only by repeating the outdated course or an equivalent course (see section of this Bulletin on “Degree Time Limitations”).

Master’s Degree Research Programs

Ecology (Major Code: 04201): The overall program emphasizes quantitative approaches to ecological research and the framing of problems within the general context of ecological theory. Faculty and student research currently falls into the areas of limnology, marine ecology, plant community ecology and primary productivity, physiological plant ecology, marine aquaculture and fisheries ecology, animal population ecology and energetics, ecological genetics, ecosystems management, and systems ecology. Program adviser, K. Williams.

Evolutionary Biology (Major Code: 04071): This research program is broadly concerned with the biology and evolution of whole organisms. The student will have a wide variety of research areas from which to choose, including morphology, systematics, paleontology, natural history, behavior, comparative physiology, developmental biology, population genetics, coevolution, and evolutionary theory. Many groups of organisms are studied, including marine and terrestrial invertebrates, vertebrates, and plants. Program adviser, Reeder.

In addition to the emphases described above, a number of faculty have active research programs in marine biology and accept graduate students in this area.

Microbiology (Major Code: 04111): A separate graduate degree is offered in microbiology. Program adviser, Breindl.

Molecular Biology (Major Code: 04161): The program area is concerned with biology at the molecular level, with particular emphases on the correlation of structure and function of macromolecules, catalysis and control, molecular genetics, regulation of gene expression, and the molecular basis of cellular architecture, cell movement, bioenergetics and membrane function (administered through Molecular Biology Institute). Program adviser, Sabbadini.

Physiology (Major Code: 04101): The major subareas of interest represented by the faculty in the physiology program area include comparative cellular physiology (especially osmoregulation, endocrinology and sensory physiology), photobiology, radiation biology, nerve and muscle physiology, and plant ecophysiology. Program adviser, Harris.
Microbiology

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Science Degree in Microbiology

(Major Code: 04111)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of upper division and graduate courses selected, with the approval of the graduate adviser, from the biological sciences and closely related fields. All students entering the Master of Science program in microbiology will be required to take an advanced course in molecular biology. Students who achieve a sufficiently high score on the molecular biology entrance examination given to all incoming microbiology M.S. students may be excused from this requirement.

Not less than 18 units must be selected from courses in the area of microbiology. Among the 600- and 700-numbered courses selected, the student’s program must include Biology 739A, Thesis, and at least four units of seminar. A maximum of six units of the required 30 units may be selected from acceptable courses offered in other related areas, including the College of Education and the Graduate School of Public Health.

A final oral examination on the field of the thesis and its implication in the broad fields of microbiology is required.

Program

Undergraduate Preparation for Admission

Applicants for admission to the doctoral program offered jointly by UCSD and SDSU must present evidence of adequate preparation and capacity for advanced work in biology. There are no inflexible requirements for entrance to graduate study in this program, but a strong background in biology, mathematics, chemistry, and physics is recommended. The applicant must have a bachelor’s degree or the equivalent from an accredited institution of higher learning with training comparable to that provided by the University of California’s and San Diego State University’s undergraduate programs. A admission to the program requires acceptance by each institution on recommendation of the participating departments at UCSD and SDSU. It is understood that acceptance of a student into the joint program by each of the departments will be conditioned by their respective standards for graduate admissions and also by available facilities.

Application

Students seeking admission to the joint doctoral program in biology should write directly to the doctoral program adviser, Department of Biology, requesting application materials. A complete application requires that the following information be provided:

1. The appropriate application form.
2. Three letters of recommendation (send directly to the doctoral program adviser, SDSU).
3. Transcripts of academic work already completed.
4. Results of the Graduate Record Examination scores (including advanced biology, biochemistry, chemistry or physics test score).
5. Statement of purpose.

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence at each of the two campuses. The definition of residence must be in accord with the regulations of the University of California, San Diego, and San Diego State University.

Advising Committee

Upon admission to the program the joint doctoral graduate adviser will establish an advising committee for the student. This committee will consist of three faculty members. In consultation with the student, the committee will develop the student’s course of study and will establish the student’s joint qualifying committee.

Course Requirements

There is no specific number of courses required for the doctoral program in biology, except a one-year graduate course including genetics, cellular and molecular biology. Prior to taking the qualifying examination, every student is expected to have a firm understanding of modern biological principles. Usually students will be expected to complete a set of at least four laboratory rotations, and such rotations may be fulfilled on either campus.

Coursework may be selected from offerings at either UCSD or SDSU.
Qualifying Examinations

Qualifying Committee

The qualifying committee consists of five faculty members, at least two from UCSD (one of whom must be in the Biology Department). The dissertation adviser may be a member of the qualifying committee. The members of the qualifying committee will be selected by the advising committee in consultation with the student. In order to provide continuity between examinations, at least one member of the qualifying committee shall be a member of the student’s thesis committee. The appointment of qualifying committee members will be made jointly by the Graduate Deans of SDSU and UCSD.

The qualifying committee will be responsible for carrying out the qualifying examination, and the chair of this committee will report the outcome of the examination and any related academic recommendations to the Executive Committee. The chair will also provide a written evaluation of the student’s performance. The chair of the qualifying committee is responsible for notifying the members of the time and place of the examination, and the student is responsible for obtaining all required documents necessary for the examination four weeks before the scheduled examination time.

Qualifying Examination

The examination will be administered in one session and consists of two parts.

First Part: Oral presentation of thesis research results and proposed thesis plan (duration is 40-50 minutes, similar to a formal seminar presentation, slides, etc.). The student should come prepared to defend the overall experimental design, including possible outcomes and interpretations, and be thoroughly familiar with the literature in his or her chosen field. A major portion of this examination will be devoted to background information so that a student can demonstrate the context in which the proposed research project lies. A succinctly written version of the proposed thesis plan (maximum 14 double spaced pages) should be provided to committee members at least two weeks before the presentation. Prior written approval by all SDSU Qualifying Committee members stating that the written thesis proposal is sufficiently developed must be obtained before the oral presentation takes place.

Second Part: In consultation with the members of the Qualifying Committee, the student will select two subject areas broadly related to the thesis research. Two members of the Qualifying Committee with expertise in these areas will serve as primary mentors. The student will carry out literature research in each of the topics and select three to four research papers in each area to be discussed during the examination. Each of the papers to be discussed must meet the approval of the two primary mentors. The student will be expected to answer questions on the selected papers, relevant background, and potentially related topics. A major goal of this portion of the examination is to test the student’s ability to extract information from the literature, to critically and objectively analyze this information, and to formulate a thorough knowledge base of the subject area.

The qualifying committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination the student must make application to the office of Graduate Studies at UCSD for advancement to candidacy. Upon payment of the candidacy fee to UCSD, and after approval by the graduate deans on both campuses, the office of Graduate Studies at UCSD will notify the student of advancement to candidacy.

Joint Dissertation Committee

After a student is admitted to candidacy, a dissertation committee consisting of at least five faculty members is nominated by the graduate advisers and appointed jointly by the Graduate Deans at SDSU and UCSD. The student’s dissertation research adviser will be the chair of this committee. At least one member of this committee must be from SDSU and one member from UCSD.

Dissertation

Following successful completion of the qualifying examination, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of a faculty member. Requirements currently in force at UCSD and SDSU must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree in biology will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.

Financial Support

The Department of Biology at SDSU endeavors to provide adequate support for all students so that full time can be devoted to research, training, and study. During 1997-98, support package included tuition, a stipend (approximately $16,000), health coverage, and funds for research supplies. All students are required to obtain teaching experience, which is normally accomplished by appointment as a graduate teaching associate.

Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program being available for direction of research and as members of joint doctoral committees.

San Diego State University:

Graduate Adviser: S. Krisans
Faculty: Bernstein, Bizzoco, Breindl, Burgin, Dahms (Chemistry), Davis, Frey, Glembotski, Harris, Krisans, McGuire, Paolini, Perrault, Rayle, Sabbadini, Segall, Stumph (Chemistry), Tsoukas, Zyskind.

University of California, San Diego:

Graduate Adviser: S. Brody
Faculty: All UCSD Biology Faculty

Ecology

(Major Code: 04201)

The cooperating faculties of the Department of Biology, San Diego State University and the Graduate Group in Ecology, University of California, Davis offer a joint program in ecology leading to the Ph.D. The research interests of the participating faculty members cover a wide range of problems and represent the interdisciplinary nature of modern biology.

At SDSU, the research projects are underway concerning:

Biology

Physiological ecology: Effects of global change (elevated CO₂ and climate change) on the structure and functioning of terrestrial ecosystems, including local chaparral, deserts, Alaska’s North Slope, and vegetation near CO₂-emitting springs. Comparative and ecological physiology of vertebrates.

Restoration and conservation ecology: Application of ecological principles to conserve species, manage fire, restore disturbed habitats, and retain genetic diversity (esp. in marine plants). Development of methods for assessing, restoring and creating coastal wetland ecosystems. Evaluation of efforts to restore or create deserts, coastal sage scrub, vernal pool, and riparian ecosystems. Role of mycorrhizae and soil biology in restoring vegetation.

A complete list of SDSU faculty and their research interests can be obtained from the graduate adviser of the program.

Program

Undergraduate Preparation for Admission

Applicants for admission to the doctoral program must present evidence of adequate preparation and capacity for advanced work in ecology. Preparation should include a strong background in biology, physics, chemistry, and mathematics. Applicants must have a bachelor's degree from an accredited college or university. Acceptance of a student into the joint program by each institution depends on meeting the standards of admission of the respective institutions and by available facilities for research and instruction.

Application

Application for admission must be made simultaneously to San Diego State University and the University of California, Davis. A complete application requires:

The appropriate application form.

Three letters of recommendation (send directly to Graduate Adviser, SDSU).

Transcripts of academic work already completed.

Results of the Graduate Record Examination, including the Advanced Biology Test score.

Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of the University of California, Davis, and San Diego State University.

Advising Committee

Upon admission to the program, the doctoral graduate advisers of the two institutions will establish an advising committee for the student. This committee will consist of three faculty members chosen jointly from the two cooperating institutions. In consultation with the student, the committee will develop the student’s course of study and will establish the student’s joint qualifying committee. At least one member of the advising committee must be from SDSU and one from UCD.

Course Requirements

Upon arrival at SDSU the advising committee works with the student to develop a course of study, which involves coursework at both SDSU and UCD and core requirements at UCD (three quarters of Ecology 296, three Ecology 290 seminars, and Principles and Application of Ecological Theory [Ecology 200A, 200B]). Prior to taking the qualifying examination, students must complete the course of study, including the three quarters at UCD, and develop a firm understanding of ecological principles and research methods.

There is a five-year limit for completion of the Ph.D. in Ecology following advancement to candidacy.

Qualifying Examinations

Qualifying Committee

A five-member committee, composed of appropriate numbers of faculty members from each of the cooperating institutions, will be recommended by the advising committee for each student and approved by the Graduate Deans from each institution. The student’s dissertation adviser cannot be a member of the qualifying committee.

The qualifying committee will conduct an oral comprehensive qualifying examination, which will evaluate the student’s understanding of modern biological principles. The examination will focus on principles of ecology, research methods, and three areas related to the major research interest of the student. The purpose of this examination is to permit the student to demonstrate competence not only in the major research field but also in related areas of ecology.

The joint qualifying committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination, the student must make application to the Graduate Division at UCD for advancement to candidacy. Upon payment of the candidacy fee to UCD, and after approval by the graduate deans on both campuses, the Graduate Division at UCD will notify the student of advancement to candidacy.

Joint Dissertation Committee

After a student is admitted to candidacy, a dissertation committee consisting of at least three faculty members is nominated by the graduate advisers and appointed jointly by the graduate deans at SDSU and UCD. The student’s dissertation research adviser will be the chair of this committee. At least one member of this committee must be from SDSU and one member from UCD.

Dissertation

Following successful completion of the qualifying examination, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of a faculty member. Requirements currently in force at UCD and SDSU must be met for completing and filing the dissertation.

Award of the Degree

The Doctor of Philosophy degree in ecology will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.
Financial Support

The Department of Biology at SDSU endeavors to provide adequate support for all students so that full time can be devoted to research training and study. During 1997-98, the support included tuition, a stipend, and funds for research supplies. All students are required to obtain teaching experience, which is normally accomplished by appointment as a graduate teaching associate.

Faculty

Graduate Advisers:
San Diego State University: W. Oechel
University of California, Davis: H. Lieth

SDSU Faculty: Anderson, Chen, Dexter, Deutschman, Diffendorfer, Hanscom, Hurlbert, Krekorian, McClanaghan, Oechel, Phleger, and K. Williams

Courses Acceptable on Master’s and Doctoral Degree Programs in Biology

UPPER DIVISION COURSES

Writing Requirements: Completion of the English Placement Test and Writing Competency requirements is a prerequisite for all upper division biology courses numbered 350 and above.

507. Topics in Ecology (2-4)
Two or three lectures and 0 to 6 hours of laboratory.
Prerequisite: Biology 354 and as may be indicated in the Class Schedule.

Treatment of particular advanced aspects of ecology not covered in regular courses, including insect ecology, intertidal ecology, and ecology of the Colorado River Delta. See Class Schedule for specific content. Maximum credit six units.

508. Coevolution (3)
Prerequisites: Biology 352 and 354.
Coevolution in interspecific interactions, like herbivory, predation, parasitism, competition, pollination, and mimicry.

512. Evolution and Ecology of Marine Mammals (3)
Two lectures and three hours of laboratory.
Prerequisites: Biology 352 and 354.
Ecology of marine mammals to include pinniped, cetacean and sirenian evolution, diet and foraging strategies, social organization, reproductive strategies, echolocation, diving physiology, and conservation.

513. Marine Microbiology (2)
Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.

Microbiological population of estuary and ocean waters; interrelationships with other organisms and the physical and chemical environment.

515. Marine Invertebrate Biology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Structure and function, ecology, behavior, physiology and phyletic relationships of marine invertebrate animals.

517. Marine Ecology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 354.
Ecological concepts as applied to pelagic and benthic marine organisms and their environment. Field and laboratory experience in oceanographic techniques, particularly the coastal environment.

519. Aquaculture (3)
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Principles and practices of the farming of aquatic organisms.

520. Ichthyology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Identification, systematics, evolution, structure, physiology, behavior and ecology of fishes.

521. Advanced General Microbiology (2)
Prerequisites: Biology 350 or an introductory course in microbiology and consent of instructor.
Taxonomy, comparative physiology and ecology of representative microorganisms found in various natural environments.

521L. Advanced Microbiology Laboratory (3)
Prerequisites: Biology 350, 366, 366L, and credit or concurrent registration in Biology 521 or 584. Strongly recommended: Credit or concurrent registration in an upper division writing course.

Procedures and methods for isolation, characterization and identification of prokaryotes from soil, water and humans; includes both pathogenic and non-pathogenic prokaryotes.

523. Herpetology (4)
Three lectures and three hours of laboratory.
Prerequisite: Biology 201. Recommended: Biology 352.
Evolution, systematics, distribution, and ecology of amphibians and reptiles of the world.

524. Ornithology (4)
Two lectures, six hours of laboratory or field excursions, and a field project.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Study and identification of birds, especially those of the Pacific Coast and the San Diego region.

525. Mammalogy (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201.
Evolution, systematics, distribution and ecology of mammals of the world.

527. Animal Behavior (4)
Three lectures and three hours of laboratory.
Prerequisites: Biology 215; Biology 201 or Psychology 211 and 260 for psychology majors.
Biological bases of animal behavior with emphasis on the ethological approach, including the evolution and adaptive significance of behavior.

529. Molecular Methods in Ecology and Evolution (3)
Prerequisites: Biology 352 and Chemistry 365.
Molecular methods used in ecology and evolutionary biology with emphasis on types of questions addressed using such methods and data analysis.
530. Plant Systematics (4)
Two lectures and six hours of laboratory, field trips.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Plant description, identification, classification, and nomenclature with emphasis on evolutionary patterns, interdisciplinary data acquisition, and phylogenetic analysis.

531. Taxonomy of California Plants (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Fundamentals of plant taxonomy with emphasis on identification of plants native and naturalized to California. Plant collecting techniques. Field trips are required.

533. Plant Structure and Function (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.

535. Plant Ecology (4)
Three lectures and three hours of laboratory.
Prerequisite: Biology 201. Strongly recommended: Completion of three to six upper division units in the major.
Plant adaptation and response to living and non-living environment including aspects of plant evolution, demography, eco-physiology community and ecosystem dynamics and soil-plant relationships. Terrestrial systems emphasized.

538. Environmental Policy and Regulations (3)
Prerequisite: Biology 354.
History of biological conservation and environmental laws; regulations governing biological resources; role of biologists; environmental impact analysis, operation of regulatory and resource agencies; biologists as expert witnesses; wetland protection and mitigation, state heritage programs; role of nongovernmental agencies.

540. Conservation Ecology (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 354.
Human impacts on ecosystems, the resultant endangerment and extinction of plant and animal species, and strategies for the protection and recovery of threatened forms.

549. Microbial Genetics and Physiology (3)
Prerequisite: Biology 350 or 366.
Physiology of microbial growth, bacterial structure and function, genetics of bacteriophages and bacteria.

550. Eukaryotic and Prokaryotic Molecular Biology (4)
Prerequisites: Biology 352, 366, and Chemistry 365.

551. Recombinant DNA (3) I, II
Prerequisites: Biology 350, 366, 366L, Chemistry 365, and credit or concurrent registration in Biology 467 or 549.
Theory and practice of recombinant DNA techniques.

551L. Recombinant DNA Laboratory (2)
Six hours of laboratory.
Prerequisites: Biology 350, 366, 366L, Chemistry 365, and credit or concurrent registration in Biology 467 or 549.
A laboratory course in recombinant DNA techniques.

554. Molecular Virology (2)
Prerequisites: Biology 350 and 467.
Molecular aspects of structure, genetics, and replication of viruses, virus-host interactions, pathogenesis of virus infections, diagnostic virology, and antiviral vaccines and drugs; emphasis on human pathogens.

555. Principles of Electron Microscopy (1)
Prerequisites: Biology 201 and Physics 180B.
Principles of scanning and transmission electron microscopy including theoretical basis of sample preparation. (Formerly numbered Biology 593.)

556. Scanning Electron Microscopy Laboratory (2)
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 555.
Biological sample preparation and operation of scanning electron microscope. (Formerly numbered Biology 593.)

557. Transmission Electron Microscopy Laboratory (3)
One lecture and six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 555.
Biological sample preparation and operation of transmission electron microscope.

560. Animal Physiology (3)
Prerequisites: Biology 201 and 202; Chemistry 365; Physics 180B, 182A, and 182B.
Physiology of vertebrate and invertebrate animals with emphasis on diversity of solutions to physiological problems and on functional integration of organ systems.

561. Radiation Biology (3)
Prerequisites: Biology 100 or 201 and 202; Physics 180B, 182A, and 182B. Recommended: Biology 366.
Principles underlying radiological reactions of ionizing radiations. Effects of ionizing radiations at the biochemical, cell, organ, and organism levels.

561L. Radiation Biology Laboratory (2)
Six hours of laboratory.
Prerequisite: Credit or concurrent registration in Biology 561.
The laboratory determination of the effects of ionizing radiation on biological systems.

563. Plant Physiology (3)
Prerequisites: Biology 201 and Chemistry 365.
Activities of plants, including photosynthesis, ion transport, translocation, water relations, growth and development.

569. Molecular Pharmacology (3)
Prerequisite: Biology 366.
Molecular mechanisms of drug action emphasizing pharmacokinetics, drug-receptor theory, signal transduction, physiological effects of drugs on nervous cardiovascular and endocrine systems. Includes discussion of molecular approaches to rational drug design, development, and testing in the pharmaceutical industry.
570. Neurobiology (3)
Prerequisite: Biology 366 or 590 or Psychology 260.
Structure and function of the nervous system to include cellular and molecular mechanisms underlying neuronal excitability and synaptic function, nervous system development, cellular and systems analysis of sensory, motor and higher brain functions. Emphasis on experimental approaches.

575. Molecular Basis of Heart Disease (3)
Prerequisite: Biology 366 or 590.
Current literature on the molecular basis of disordered physiology leading to heart disease.

577. Embryology (4)
Two lectures and six hours of laboratory.
Prerequisites: Biology 201 and 202. Strongly recommended: Completion of three to six upper division units in the major.
Studies in comparative gametogenesis, morphogenesis, and reproductive physiology.

580. Cell Biology of the Blood (3)
Prerequisites: Biology 366, 366L, Chemistry 365. Recommended: Concurrent registration in Biology 467 and 467L.
Basic processes of cell development, inflammation, acquired immune response, and regulation of these processes by cytokines.

584. Medical Microbiology (2)
Prerequisites: Biology 350 and Biology 356 or 366.
Discussion of major bacterial and viral pathogens; molecular mechanisms of pathogenesis, microbial toxins and antimicrobial agents; immune response to microbial infections; biochemical and molecular diagnostics.

585. Cellular and Molecular Immunology (3)
Prerequisites: Biology 366. Recommended: Credit or concurrent registration in Biology 467 and 467L.
Cellular and molecular aspects of the immune response. Genetics of immunoglobulins, major histocompatibility complex, lymphocyte development and their manifestations on immune responsiveness, lymphokines immunopathologies including AIDS, and contemporary immunological techniques. Not open to students with credit in Biology 485.

588. Parasitology (4)
Two lectures and six hours of laboratory.
Prerequisite: Biology 201.
Study of animal parasites with special reference to those of humans. Laboratory including identification of important human parasites, and collection and preservation of local forms.

590. Physiology of Human Systems (4)
Three lectures and one hour of laboratory.
Prerequisites: Chemistry 365, Physics 180B and 182B. Recommended: Biology 366.
Human physiology presented at both cellular and organ system levels; neurophysiology, muscle physiology, cardiovascular physiology and respiration, kidney function, hormone function and reproduction. For students majoring in a natural science or pre-professional studies.

592. Cell and Molecular Biology Laboratory (2)
Six hours of laboratory.
Prerequisite: Biology 350.
Laboratory course in advanced techniques in microbiology and cell and molecular biology.

595. Computers in Biomedical Research (3)
Prerequisite: Biology 366 or 590. Recommended: Computer Science 107.
Application of micro- and minicomputers to tasks encountered by biomedical scientists in research laboratories (data acquisition and reduction, experiment control) and by physicians in medical care delivery (noninvasive imaging, clinical laboratory automation, patient file processing).

596. Special Topics in Biology (1-3)
Prerequisite: Consent of instructor.
Advanced selected topics in modern biology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 496 applicable to a 30-unit master’s degree. Additional units acceptable with the approval of the graduate adviser.

597A. Univariate Statistical Methods in Biology (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 350 or 352 or 354 or 356 or 366.
Application of univariate statistical techniques in biological sciences.

598. Computational Biology (3)
Prerequisites: Computer Science 205 and consent of instructor.
Methods for analysis of biological systems at all levels of scale from macromolecules to ecosystems. Topics include molecular sequence analysis to determine structure and function and study phylogenetic relationships. Imaging in two to four dimensions. Mathematical modeling in biological sciences.

**GRADUATE COURSES**

600. Seminar (2-3)
Prerequisite: Consent of instructor.
An intensive study in advanced biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

602. Experimental Design (4)
Two lectures and six hours of laboratory.
Prerequisite: One semester of statistics.
Principles, terminology, and practice of experimental design both in biology and natural and social sciences.

630. Signal Transduction (3)
Prerequisites: Biology 366 and Chemistry 365.
Intracellular transduction pathways that regulate growth and death in neuronal, endocrine, muscle, and immune cells.

645. Theory and Principles of Ecology (3)
Prerequisites: Admission to graduate program in biology and approval of ecology graduate adviser.
Major theoretical concepts in ecology, topics of current interest, and historical context of central ideas in ecology, with emphasis on use of primary literature.

688. Seminar in Terrestrial Ecology (2)
Prerequisite: Biology 354.
Ecological concepts as applied to the terrestrial environment. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master’s degree.
694. Advanced Topics in Virology (1-4)
Prerequisite: Biology 554.
May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master’s degree.

696. Advanced Topics in Biology (1-3)
Prerequisite: Consent of instructor.
Intensive study in specific areas of biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

735. Seminar in Biogeography (2)
Prerequisite: Biology 354.
Concepts and principles of distributional history of plant and animal groups, and origins and dispersal of modern faunas and floras.

740. Phylogenetic Systematics (3)
Two lectures and three hours of laboratory.
Prerequisite: Biology 354.
Theory and methodology of phylogenetic systematics. Includes use of computer algorithms, survey of literature and preparation of a project in phylogenetic systematics. Not open to students with credit in Biology 740 (Seminar in Phylogenetic Systematics).

750. Molecular Biophysics (3)
Prerequisite: Chemistry 410A.
Description and analysis of biological processes and systems in terms of properties of molecules and of basic principles.

766. Advanced Topics in Population and Community Ecology (2-4)
Prerequisites: Biology 354 and consent of instructor.
Selected topics in population and community ecology. May be repeated with new content and consent of the graduate adviser in ecology. Maximum credit six units applicable to a master’s degree.

770. Seminar in Systematics and Evolution (2-3)
Prerequisite: Consent of instructor.
Selected topics in systematics and evolution. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units applicable to a master’s degree.

790. Seminar in Ecological Processes (2)
Prerequisite: Biology 354.
Ecological processes at different organizational levels (ecosystem, community, population), in terrestrial and aquatic habitats, including plant and animal-dominated systems. May be repeated with new content. Maximum credit four units applicable to a master’s degree.

797. Research (1-3) Cr/NC/SP
Research in one of the fields of biology. Maximum credit six units of 797 and 798 applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units of 797 and 798 applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (3-15) Cr/NC/SP
Prerequisite: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

General Information
The Molecular Biology Institute (MBI) administers the Master of Arts and Master of Science degrees in biology with an emphasis in molecular biology. The MBI is currently composed of members from the Departments of Biology, Chemistry, and the Graduate School of Public Health, and is designed to serve these departments in the coordination, support, and enhancement of research and training in the molecular biological sciences.

Graduate teaching associateships in biology and chemistry are available to qualified students. Application blanks and additional information may be obtained from the graduate coordinator of biology.

Admission to Graduate Study
Candidates for admission may come from a variety of disciplines in the biological and physical sciences. Ultimately, the research programs of individuals wishing to pursue master’s degree work in molecular biology will be carried out under the supervision of MBI members.

In addition to the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin, a student must satisfy the following admission requirements before being recommended for admission.

1. Possess a bachelor’s degree with a major in a biological or physical science equivalent to that offered at San Diego State University.
2. Have a grade point average of 2.75 or better in work taken for the baccalaureate degree.
4. Have a score in the 60th percentile or better on the GRE Subject test in biology or biochemistry, cell biology, and molecular biology. Subject examinations in other natural science disciplines will be considered.
5. Supply two letters of reference that describe the applicant’s potential for graduate work.

Students who do not meet all of the above requirements for admission may be admitted with conditionally classified graduate standing upon the recommendation of the MBI faculty. Students so admitted will be advised as to the nature of their deficiency and the time allowed to achieve full classified graduate standing.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, including the foreign language requirement for the master of arts degree, as stated in Part Two of this bulletin. Satisfactory progress on the thesis research will be prerequisite to obtaining departmental approval for advancement.

Specific Requirements for the Master of Arts or Master of Science Degree (Major Code: 04161)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units of 500-level and above courses selected, with the approval of the MBI graduate adviser. A list of suggested courses is presented on the following page. All students entering the Master of Science program in molecular biology will be required to take an advanced course in molecular biology.
biology. Students who achieve a sufficiently high score on the molecular biology proficiency examination given to all incoming molecular biology M.S. students may be excused from this requirement. At least 15 units of the courses selected must be in 600- and 700-numbered courses including 799A, Thesis. The student must complete at least three units of Molecular Biology 601 and six units of Molecular Biology 610. With the approval of the graduate adviser of molecular biology, a student may substitute for Molecular Biology 610 another 600 or 700 numbered course. A final oral examination on the thesis will be administered by the thesis committee.

**Courses Acceptable for the Emphasis in Molecular Biology**

### UPPER DIVISION COURSES

**Biology**
- 549. Microbial Genetics and Physiology (3)
- 551. Recombinant DNA (3)
- 551L. Recombinant DNA Laboratory (2)
- 554. Molecular Virology (2)
- 555. Principles of Electron Microscopy (1)
- 556. Scanning Electron Microscopy Laboratory (2)
- 557. Transmission Electron Microscopy Laboratory (3)
- 561. Radiation Biology (3)
- 563. Plant Physiology (3)
- 569. Molecular Pharmacology (3)
- 570. Neurobiology (3)
- 575. Molecular Basis of Heart Disease (3)
- 577. Embryology (4)
- 584. Medical Microbiology (2)
- 585. Cellular and Molecular Immunology (3)
- 590. Physiology of Human Systems (4)
- 592. Cell and Molecular Biology Laboratory (2)
- 595. Computers in Biomedical Research (3)
- 596. Special Topics in Biology (1-3)
- 597A. Univariate Statistical Methods in Biology (3)
- 598. Computational Biology (3)

**Chemistry**
- 510. Advanced Physical Chemistry (3)
- 550. Instrumental Methods of Chemical Analysis (2)
- 560A-560B. General Biochemistry (3-3)
- 567. Biochemistry Laboratory (3)
- 596. Advanced Special Topics in Chemistry (1-3)

### GRADUATE COURSES

**Biology**
- 600. Seminar (2-3)
- 630. Signal Transduction (3)
- 694. Advanced Topics in Virology (1-4)
- 696. Advanced Topics in Biology (1-3)
- 750. Molecular Biophysics (3)
- 797. Research (1-3) Cr/NC/SP
- 798. Special Study (1-3) Cr/NC/SP

**Chemistry**
- 711. Chemical Thermodynamics (3)
- 712. Chemical Kinetics (3)
- 751. Separations Science (3)
- 760. Advanced Topics in Biochemistry (1-3)
- 762. Enzymology (2)
- 763. Cellular Regulation (2)
- 790. Seminar (1-3)
- 791. Research Seminar (1)
- 792. Bibliography (1)
- 797. Research (1-3) Cr/NC/SP
- 798. Special Study (1-3) Cr/NC/SP

**GRADUATE COURSES IN MOLECULAR BIOLOGY**

**600. Seminar in Molecular Biology (1-3)**
Prerequisite: Consent of instructor.

Evaluation of current literature in molecular biology. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

**601. Colloquium in Molecular Biology Research (1) Cr/NC/SP**
Recent research advances in selected areas of modern molecular biology presented by faculty of the Molecular Biology Institute and established outside investigators. May be repeated with new content. Open only to students admitted to the molecular biology program or by permission of the graduate adviser for molecular biology. Maximum credit six units, three of which are applicable to a master’s degree.

**610. Advanced Topics in Molecular and Cell Biology (1-4)**
Prerequisite: Graduate standing in a life or physical science.

Intensive study in specific areas of molecular and cell biology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.
Biostatistics and Biometry

In the College of Sciences and the College of Health and Human Services

Faculty Committee for Biostatistics and Biometry
Stuart H. Hurlbert, Ph.D., Professor of Biology
Kung-Jong Lui, Ph.D., Professor of Mathematical and Computer Sciences
Donald J. Slymen, Ph.D., Professor of Public Health
Colleen Kelly, Ph.D., Associate Professor of Mathematical and Computer Sciences
Duane L. Steffey, Ph.D., Associate Professor of Mathematical and Computer Sciences
John E. Alcaraz, Ph.D., Assistant Professor of Public Health
Douglas H. Deutschman, Ph.D., Assistant Professor of Biology

General Information
San Diego State University provides preparation for biostatistically oriented careers by offering biostatistics related coursework, research opportunities and biostatistical consulting experience within regular degree programs in the Departments of Biology, Mathematical and Computer Sciences, and Graduate School of Public Health. A Master of Science degree in statistics with concentration in biostatistics may be earned in the Department of Mathematical and Computer Sciences; and a Master of Public Health degree with concentration in biometry may be earned in the Graduate School of Public Health. Degrees in general biostatistics or biometry are not offered by the University. However, a Master of Science degree in biostatistics or biometry may be earned in Interdisciplinary Studies (see the appropriate section in this bulletin).

Specific courses in biostatistics and biometry (listed below) are offered with the cooperation of faculty from the participating departments. Biostatistics and biometry courses that specialize in applications to biology are offered in the Department of Biology; similarly, courses that specialize in applications to public health are offered in the Graduate School of Public Health. Courses that cover a variety of areas of application (including biology and public health) are offered by the Department of Mathematical and Computer Sciences. In addition to these applied courses, the Department of Mathematical and Computer Sciences offers some courses in statistics and biostatistics that are more mathematically oriented.

Business Administration
Accredited by AACSB—The International Association for Management Education

Associateships
Graduate teaching associateships and graduate nonteaching associateships in business administration are available to a limited number of qualified students. Application blanks and additional information may be secured from the departmental offices of the College of Business Administration.

General Information
The College of Business Administration offers graduate study leading to the Master of Business Administration degree, Master of Science degree in Business Administration and the Master of Science degree in Accountancy. The College also offers a joint program with the College of Arts and Letters leading to both a Master of Business Administration and a Master of Arts in Latin American Studies. The College of Business Administration M.B.A. and M.S. programs are accredited by AACSB—The International Association for Management Education.

The major goal of the Master of Business Administration degree is to prepare students with diverse academic backgrounds for entry into general management positions in business and not-for-profit enterprises. The primary purpose of the Master of Science degree in Business Administration is to provide a foundation for technical and executive careers in the management of specific functional and professional areas.

The objective of the Master of Science degree in Accountancy is to prepare students for careers as professional accountants in financial institutions, government, industry, nonprofit organizations, and public practice. The basic conceptual knowledge of accounting and business can be obtained through an undergraduate degree or by otherwise meeting the prerequisites for the M.S. degree in Accountancy. The program offers the opportunity for greater depth of education by allowing students to concentrate their education in courses of specialized study in accounting.

Close contacts with large and small firms, both local and national, enhance the business student’s education. The generous cooperation of local business and government organizations provides opportunities for research and field study for graduate students. The continued professionalization of the business executives’ responsibilities has created many opportunities for the student with an advanced degree in business administration.

All students entering the program should have completed courses in college-level mathematics including algebra and in the use of personal computers including spreadsheets and word processing.

Admission to Graduate Study
A student seeking admission to any of the master’s degree curricula offered in the College of Business Administration should make application in the manner set forth in Part Two of this bulletin.

Admission to the Degree Curriculum
Regulations governing admission to the University and to the College of Business Administration are outlined above and in Part Two of this bulletin.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Business Administration Degree
(Major Code: 05011)
The student must complete an approved program of study including 49 units of graduate coursework with a maximum of six units of 500-level courses. Up to 12 units of coursework may be accepted for transfer credit. Transfer credit will be accepted for graduate coursework completed at an accredited AACSB institution or with the approval of the Director of Graduate Programs.

At least 37 of the total units required must be completed in residence at San Diego State University, and at least nine units of program courses must be completed after advancement to candidacy.

Students entering the program should have completed coursework in basic statistics and macro- and micro-economics. They should be proficient in college-level mathematics including algebra and in the use of personal computers including spreadsheets and word processing.
The requirements for the degree are as follows:

1. Complete the following core of eight courses. (19 units)
   - BA 650 Financial Accounting (2)
   - BA 651 Organizational Behavior (2)
   - BA 652 Statistical Analysis (3)
   - BA 653 Managerial Economics (2)
   - BA 655 Marketing (3)
   - BA 660 Managerial Accounting (2)
   - BA 662 Operations Management (2)
   - BA 665 Financial Management I (3)

   A student who has earned 12 or more undergraduate units in a specific field (finance, management, etc.) may substitute an advanced course for a core course in the same field with permission from the Director of Graduate Business Programs.

2. Complete one course from each of the below listed themes (12 units)

   **Interpersonal Skills Theme**
   - IDS 705 Communication Strategies (3)
   - MGT 669 Human Resource Management (3)
   - MGT 720 Seminar in Behavioral Sciences for Management (3)
   - MGT 721 Seminar in Group Processes and Leadership (3)
   - MGT 741 Seminar in Organization Power and Politics (3)
   - MKTG 763 Seminar in Sales Management (3)

   **Legal, Ethical, Political, and Economic Environment Theme**
   - ACCTG 681 Seminar in Regulatory and Management Controls (3)
   - FIN 604 Legal Environment for Executives (3)
   - FIN 655 Seminar in Financial Markets (3)
   - FIN 659 Decision Making in the World Economy (3)
   - MGT 626 Competitive Analysis of Industries (3)
   - MGT 722 Seminar in Business Ethics and Social Institutions (3)
   - MGT 740 Seminar in Business Management and the Natural Environment (3)
   - MGT 742 Seminar in Business and the Good Society (3)
   - MKTG 765 Seminar in Marketing and Public Policy (3)

   **Management of Technology and Information Systems Theme**
   - IDS 609 Management Information Systems (3)
   - IDS 680 Information Systems Hardware and Software (3)
   - IDS 688 Information Systems in Organizations (3)
   - MGT 731 Seminar in Strategic Management of Technology and Innovation (3)
   - MKTG 761 Product Innovation Management (3)

   **Globalization Theme**
   - ACCTG 661 Seminar in International Accounting (3)
   - FIN 654 Seminar in International Business Finance (3)
   - IDS 744 Seminar in Total Quality Management and Productivity (3)
   - IDS 753 Global Manufacturing and Service Operations (3)
   - MGT 671 Seminar in Employee Involvement in Management (3)
   - MGT 710 Seminar in World Business Environment (3)
   - MGT 723 Seminar in International Strategic Management (3)
   - MKTG 769 Seminar in International Marketing (3)

3. Complete 15 units of electives. Not more than 12 units outside the College of Business Administration and not more than a total of six units in courses 780, Field Studies in Business, 797, Research, and 798, Special Study, will be accepted toward the degree. Courses taken outside of the College of Business Administration should be related to the MBA program and must be approved by the Director of Graduate Programs.

4. Among themes and electives listed above, a student must complete at least one course in each of three of the departments in the College of Business Administration.

5. Complete a culminating experience course. (3 units)
   - BA 795 Integrative Business Analysis (3)
   - BA 799A Thesis (3) Cr/NC/SP

A student may choose to specialize by completing 12 units of non-core courses from one of the following specializations:
- Accountancy
- Biomedical Regulatory Affairs Management
- Entrepreneurship
- Finance
- Health Services Administration
- Information Systems
- International Business
- Management
- Marketing
- Operations Management
- Real Estate

Specialization courses may be either theme or elective courses.

**Full and Half-Time Programs**

Students enrolling in the M.B.A. program may be either full- or half-time students. Generally, in their first year, full-time students must take four courses at a time and half-time students must take two courses at a time. Students will be assigned to classes during their first year if they are full-time students and during the first two years if they are half-time students, based on a combination of personal and administrative factors. It is anticipated that half-time students will pursue their coursework in the evening and full-time students will take courses during the day.

**Master of Business Administration for Executives**

(Offered only through the College of Extended Studies)

**Specific Requirements for the M.B.A. Degree for Executives**

(Major Code: 05011)

The Master of Business Administration for Executives is operated by the Executive Management Office in the College of Business Administration, and is an alternative path for the Master of Business Administration degree. The program is one of about 150 in the nation designed especially to meet the needs of mid-career executives, and the only one of its kind in San Diego county. Students in the program have an average of 15 years of full-time professional work experience and eight years of managerial or equivalent experience, and bring a wealth of practical knowledge to the classroom discussion.

Students accepted for the M.B.A. for Executives are fully matriculated in the University and meet all University requirements as established by the Graduate Council. For the convenience of the students, however, courses are scheduled in a modular fashion on alternate Fridays and Saturdays rather than following the traditional semester time frame. The fee structure is also unique to the program and unrelated to the usual San Diego State University fee schedule. Students should contact the program office for a program calendar, class schedules, and fee summary.
In addition to meeting the requirements for classified graduate standing, and the basic requirements for the master’s degree as described in Part Two of this bulletin, students must complete an approved program of studies containing 48 units of 600- and 700-numbered courses. These courses will be offered in a predetermined pattern over 24 consecutive months. No transfer courses and no substitute courses are accepted.

The official programs of all students in any one cycle are identical. Advancement to candidacy requires completion of at least 24 units of coursework listed on the official program of study with a minimum grade point average of 3.0 (B).

**Admission**

In addition to meeting the criteria for admission to the University, as well as those listed under “Admission to the Graduate Program in the College of Business Administration,” applicants must also demonstrate that they have had significant experience in management-level positions in business, government, or not-for-profit organizations.

Those interested in the program should write the Executive Management Office, College of Business Administration, San Diego State University, San Diego, CA 92182-8232 or telephone (619) 594-6010 to receive the specific application and additional information. You may visit our Web site at www.sdsu.edu/emba.

**Master of Science Degree in Business Administration**

**Admission to the Degree Curriculum**

In addition to meeting the requirements for classified graduate standing in the University and admission to the College of Business Administration, as described above, and in Part Two of this bulletin, the student must have satisfactorily completed equivalents of the following courses:

- BA 650 Financial Accounting (2)
- BA 651 Organizational Behavior (2)
- BA 652 Statistical Analysis (3)
- BA 653 Managerial Economics (2)
- BA 655 Marketing (3)
- BA 660 Managerial Accounting (2)
- BA 662 Operations Management (2)
- BA 665 Financial Management I (3)

In addition, the student’s advisor may request satisfactory completion of additional prerequisite courses in the student’s proposed field of specialization.

Notice of admission to a curriculum with classified graduate standing will be sent to the student upon the recommendation of the College of Business Administration and the approval of the Dean of the Graduate Division.

For admission to the taxation concentration (05022) the student must be a certified public accountant (CPA) or have a juris doctor (J D) degree from an accredited law school and have completed Accountancy 201 and 202.

**Advancement to Candidacy**

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Students concurrently enrolled in deficiency coursework may be given permission to take the comprehensive examination in their concentration prior to actual completion of all coursework. However, comprehensive examinations will not be evaluated and results will not be reported to the Graduate Division until all deficiency coursework has been successfully completed. This may delay graduation.

**Specific Requirements for the Master of Science Degree**

In addition to meeting the requirements for classified graduate standing as described above and the general requirements for master’s degrees as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 approved units including at least 21 units in 600- and 700-numbered courses. Up to nine units of coursework may be accepted as transfer credit. This program cannot include Finance 604; Information and Decision Systems 609; and Business Administration courses numbered 650-665, without specific permission of the Director, Graduate Business Programs. At least 24 units must be in business administration and economics. Not more than a total of six units in courses 797, Research, 798, Special Study, and Business Administration 780, Field Studies in Business, may be accepted for credit toward the degree.

Each of the concentrations in the Master of Science in Business Administration requires Plan A, Thesis; or Plan B, Directed Readings in Business Administration or a written comprehensive examination offered by the appropriate department. The program must be approved by the college and departmental adviser.

For regulations concerning grade point averages, final approval for the granting of the degree, award of the degree, and diplomas, see the section entitled “Basic Requirements for the Master’s Degree,” in Part Two of this Bulletin.

**Special Provision for Specific Concentrations**

* **Financial and Tax Planning.** For this concentration an optional Plan B, Comprehensive Examination, is available. Here students may substitute a comprehensive examination and three units of additional coursework for the thesis requirement. This examination will be administered while students are registered in Finance 657.

Additionally, this concentration requires the following prerequisites, rather than the list shown under “Admission to the Degree Curriculum:”

- ACCTG 201 Financial Accounting Fundamentals (3)
- ECON 101 Principles of Economics (3)
- ECON 102 Principles of Economics (3)
- ECON 201 Statistical Methods (3) OR
- STAT 119 Elementary Statistics for Business (3)
- ECON 320 Intermediate Macroeconomics (3) OR
- ECON 422 Business Cycles (3)
- FIN 140 Legal Environment of Business (3)
- FIN 323 Fundamentals of Finance (3)
**Real Estate.** This concentration requires the following prerequisites, rather than the list shown under "Admission to the Degree Curriculum:"

- ACCTG 201 Financial Accounting Fundamentals (3)
- ECON 101 Principles of Economics (3)
- ECON 102 Principles of Economics (3)
- ECON 201 Statistical Methods (3) OR
- STAT 119 Elementary Statistics for Business (3)
- FIN 140 Legal Environment for Business (3)
- FIN 323 Fundamentals of Finance (3)
- MKTG 370 Marketing (3)
- MATH 120 Calculus for Business Analysis (3)

***Total Quality Management.***

This concentration requires the following prerequisites, rather than the list shown under "Admission to the Degree Curriculum:"

- ACCTG 201 Financial Accounting Fundamentals (3)
- ACCTG 202 Managerial Accounting Fundamentals (3)
- ECON 101 Principles of Economics (3)
- ECON 102 Principles of Economics (3)
- FIN 140 Legal Environment of Business (3)
- FIN 323 Fundamentals of Finance (3)
- IDS 301 Statistical Analysis for Business (3)
- IDS 302 Introduction to Production and Operations Management (3)
- IDS 609 Management Information Systems (3)
- MGT 350 Management and Organizational Behavior (3)
- MGT 405 International Business Strategy and Integration (3)
- MKTG 370 Marketing (3)
- MATH 120 Calculus for Business Analysis (3)

**Specific Requirements for the MBA/MA Degree**

(Major Code: 49061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete an officially approved course of study consisting of 70 units as outlined below.

1. The college expects students entering the Master of Business Administration/MA in Latin American Studies program to be proficient in several areas. These include proficiency in statistics, mathematical skills, basic economics, and in the use of personal computers, including spreadsheets and word processing. The students are responsible for insuring that they possess these skills before beginning the program.

2. Complete the following core of eight courses (19 units):
   - BA 650 Financial Accounting (2)
   - BA 651 Organizational Behavior (2)
   - BA 652 Statistical Analysis (3)
   - BA 653 Managerial Economics (2)
   - BA 655 Marketing (3)
   - BA 660 Managerial Accounting (2)
   - BA 662 Operations Management (2)
   - BA 665 Financial Management I (3)

   A student who has earned 12 or more undergraduate units in a specific field (finance, management, etc.) may substitute an advanced course for a core course in the same field with permission from the Director of Graduate Business Programs.

3. Complete six units, one course from each of the themes listed below:

   **Interpersonal Skills Theme**
   - IDS 705 Communication Strategies (3)
   - MGT 669 Human Resource Management (3)
   - MGT 720 Seminar in Behavioral Sciences for Management (3)
   - MGT 721 Seminar in Group Processes and Leadership (3)
   - MGT 741 Seminar in Organization Power and Politics (3)
   - MKTG 763 Seminar in Sales Management (3)

   **Environment Theme**
   - FIN 604 Legal Environment for Executives (3)
   - FIN 655 Seminar in Financial Markets (3)
   - MGT 626 Competitive Analysis of Industries (3)
   - MGT 722 Seminar in Business Ethics and Social Institutions (3)
   - MGT 740 Seminar in Business Management and the Natural Environment (3)
   - MGT 742 Seminar in Business and the Good Society (3)
   - MKTG 765 Seminar in Marketing and Public Policy (3)

4. Complete 15 units in Business Administration to include:
   - FIN 654 Seminar in International Business Finance (3)
   - MGT 710 Seminar in World Business Environment (3)
   - MGT 723 Seminar in International Strategic Management (3)
   - MGT 731 Seminar in Strategic Management of Technology and Innovation (3)
   - MKTG 769 Seminar in International Marketing (3)

5. Complete 24 units in courses of Latin American content, including the following required courses:
   - LATAM 696 Interdisciplinary Seminar (3)
   - LATAM 798 Special Study (3) CR/NC/SP
   - HIST 640 Directed Readings in Latin American History (3)*
   - POL S 661 Seminar in the Political Systems of the Developing Nations (3)*
   - POL S 667 Seminar in Latin American Political Systems (3)*

---

**Master of Business Administration and Master of Arts in Latin American Studies Degrees**

**General Information**

The College of Business Administration and the Center for Latin American Studies offer a three-year concurrent program study leading to a Master of Business Administration and a Master of Arts in Latin American Studies. The primary objective of the concurrent program is to offer preparation in the fields of business administration and Latin American studies for the purpose of providing the knowledge and skills necessary to promote and engage in business relationships within a Latin American historical, cultural, and linguistic milieu, in Latin America or in the United States.

For information, contact the Chair of the Latin American Studies Committee or the Associate Dean in the College of Business Administration.

**Admission to Graduate Study**

Since this program combines disparate disciplines, applicants are required to submit GMAT scores and should have substantial academic backgrounds in the humanities and social sciences. Applicants should also have a background in Spanish or Portuguese language and literature. Students in the concurrent degree program are expected to be full time so that all requirements will be satisfied in an acceptable time.
The remaining nine units will be selected from the following list of courses, with at least one course from the California Western School of Law courses highly recommended:

### Latin American Studies Courses

- 560. Latin America After World War II (3)
- 576. Frédéric Kahlo and Her Circle: Mexican Artists and the Challenge of Modernity (3)
- 798. Special Study (3) Cr/NC/SP

### Economics Course

- 565. North American Economic Relations (3)

### Geography Course

- 720. Seminar in Regional Geography (3)**

### History Courses

- 551A-551B. Mexico (3-3)
- 552. Brazil (3)
- 554. The Andean Republics of South America (3)
- 555. Modernization and Urbanization in Latin America (3)
- 556. Guerrilla Movements in Latin America (3)
- 558. Latin America in World Affairs (3)
- 559. Central America (3)
- 640. Directed Readings in Latin American History (3)
- 795. Area Studies in History (3) Cr/NC**

### Political Science Courses

- 566. Political Change in Latin America (3)
- 567. Political Systems of Latin America (3)
- 568. Mexican Politics (3)
- 655. Seminar in General Comparative Political Systems (3)**
- 675. Seminar in International Relations (3)**
- 795. Problem Analysis (3)**

### California Western School of Law Courses***

- 452. International Protection of Human Rights
- 498. Mexican Law
- 610. Immigration Law
- 625. International Business Transactions
- 636. International Organizations
- 643. Private International Law
- 644. Public International Law
- 703. Latin American Law

---

* Repeatable with new content and approval of advisory committee.
** Acceptable when of relevant content.
*** These courses are not required. Students must apply to enroll under the provisions of the affiliation agreement with the California Western School of Law.

6. In addition, the student must complete MGT 797 (Research) and BA 799A (Thesis). The thesis in Business Administration will treat a Latin American related topic and will be supervised by a business faculty with international business expertise and at least one faculty member from the Latin American studies program.

If a student after entering the concurrent MBA/MA program returns to a single degree program, all the requirements for the single degree program must be met.

### Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, 1) the student will be required to complete Spanish 302 (or its equivalent), or Portuguese 401 (or its equivalent), and pass an oral and written examination administered by the Department of Spanish and Portuguese Languages and Literatures; 2) all core courses in business and Latin American studies must be completed prior to advancement with a minimum grade point average of 3.0 and no grade less than a C in any core course; 3) have been recommended for advancement by the combined advisory committee; 4) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Management 797 (Research) and BA 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the MBA and MA degrees.

### Courses Acceptable on Master’s Degree Programs in Business Administration

#### GRADUATE COURSES

Classified graduate standing is a prerequisite for all 600- and 700-numbered courses.

- **650. Financial Accounting (2)**
  - Prerequisite: Classified graduate standing.
  - Understanding of accounting procedures and judgments underlying corporate financial statements; ability to read and analyze these statements; make inferences from them about financial health, likelihood of success, and other important attributes of various business entities.

- **651. Organizational Behavior (2)**
  - Prerequisite: Classified graduate standing.
  - Human behavior at individual, interpersonal, and group levels including effect on the structure of the organization on behavior.

- **652. Statistical Analysis (3)**
  - Prerequisites: Classified graduate standing and basic statistics.
  - Understanding and applications of statistics for problem solving and managerial decision making.

- **653. Managerial Economics (2)**
  - Prerequisite: Classified graduate standing.
  - Application of microeconomic theory to business decision making; optimal resource allocation, market structure and pricing from a business viewpoint.

- **655. Marketing (3)**
  - Prerequisite: Classified graduate standing.
  - Role and function of marketing in the organization and society. Planning, implementation, and evaluation of marketing strategies and programs. Not open to students with credit in Marketing 370.

- **660. Managerial Accounting (2)**
  - Prerequisite: Classified graduate standing.
  - Design and use of cost systems to establish and enhance an organization’s competitive advantage in a global environment. Decision making, planning, control and business ethics in managerial decision making.

- **662. Operations Management (2)**
  - Prerequisite: Classified graduate standing.
  - Decision making techniques for operations management in service, production, government, and non-profit organizations. Quantitative techniques for establishing the management decision criteria, constraints, and alternatives.

- **665. Financial Management I (3)**
  - Prerequisite: Business Administration 652.
  - Role of finance in firm, financial planning and control, management of working capital, time value of money, valuation, risk analysis, basic capital budgeting, long-term financing, international aspects of financial decisions.
780. Field Studies in Business (1-3) Cr/NC
Prerequisite: Completion of MBA core.
Application of business concepts to real world organizations. Students work under supervision of a faculty member to perform a project utilizing theories and principles from previous business coursework. Maximum credit six units.

795. Integrative Business Analysis (3)
Prerequisite: Advancement to candidacy.
Strategic case analysis of business problems and preparation for comprehensive examination for students in M.B.A. program under Plan B. Problem definition analysis and prioritization of solution mechanisms.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Courses Acceptable on the Master of Business Administration Degree for Executives

Graduate Courses in Business Administration

600. Financial and Managerial Accounting (4)
Concepts and principles of financial accounting; understanding financial statements; measurement of business income. Nature of cost accounting information and how it is used to make managerial decisions that create competitive advantage.

601. Management of Organizations and Human Resources (3)
Role of the manager in designing organizations for effectiveness with emphasis on organization theory, organization behavior, and human resources management.

602. Quantitative Methods for Managers (3)
Statistics and production operations management. Data analysis, central tendency and variability, probability, distributions, sample inference, association analysis. Applications in engineering, manufacturing and service, and an overview of decision theory, queuing, total quality control, and project management.

605. Managerial Marketing (2)
The marketing function in an organization. Managerial activities of marketing including market analysis, target market selection and design of the organization’s marketing program.

608. Managerial Communication (2)
Advanced communication concepts including the collection, analysis, and presentation of data. Written and oral communication strategies. (Formerly numbered Business Administration 609.)

615. Strategic Financial Management (3)
Provides a framework for financial decision making. Covers relevant modern theory and emphasizes role of finance in corporate strategy. Topics include financial analysis and planning, investment, capital structure and dividend decisions and valuation and corporate restructuring. Not open to students with credit in Business Administration 653 or Finance 615.

616. Competitive Analysis (3)
Competition in typical unregulated product or service markets. Competitive forces in such markets, and impact of these forces on economic profits, rates of return, and relative market shares of competing firms. Not open to students with credit in Business Administration 665 or Finance 616.

620. Managing Quality and Productivity (2)
Application of quality control, just-in-time systems, and other operations research techniques to industrial problems. Comprehensive approach formulated by current techniques in field. Cases and examples from Japanese and American companies.

700. Business in the Global Environment (3)
Evolution of multinational corporations, management of organizations in global environment, and marketing and management implications of competition in international arena.

701. Entrepreneurship and New Venture Formation (2)

702. Social Responsibility: Legal and Ethical Environment of Business (3)
Role of the manager in dealing in a socially responsible and ethical manner with internal and external constituencies.

703. Policy Formulation and Implementation (3)
Corporate and business level strategic decision making. Topics include industry and environmental analysis, strategy implementation, strategic planning systems. Case descriptions of actual company situations serve as basis for analysis and recommendations.

704. The Financial Environment (2)
Elements of financial institutions and financial markets which may impinge upon the business enterprise as it contemplates both its short and long term goals.

705. Marketing Strategy (2)
Development, implementation, and evaluation of marketing strategy and plans. Role of marketing planning, analysis and control; contributions and implications of marketing to corporate strategy. Strategies for attaining competitive advantage. Contemporary marketing planning tools and techniques.

708. International Financial Management (2)
International financial environment and multinational corporation. Topics include international trade and balance of payments; international monetary agreements and currency arrangements, international short term borrowing and investment; and international taxation. Reviews of global financial challenges and opportunities facing U.S. firms. (Formerly offered as a part of Business Administration 700.)

710. Leadership and Management of Change (3)
Theoretical and empirical literature pertaining to study and assessment of leadership skills. Process of organizational change and development.

790. Directed Readings in Business Administration (6) Cr/NC
Preparation for the comprehensive examination for students in the M.B.A. for Executives program (Plan B).
Accountancy
In the College of Business Administration

Faculty
Andrew H. Barnett, Ph.D., Professor of Accountancy, Director of School
Allan R. Bailey, Ph.D., Professor of Accountancy
David H. Butler, Ph.D., Professor of Accountancy
Robert J. Capettini, Ph.D., The PricewaterhouseCoopers Alumni Professor of Accountancy
Chee W. Chow, Ph.D., Professor of Accountancy, The Vern E. Odmark Chair in Accountancy
Gary M. Grudnitski, Ph.D., Professor of Accountancy
Kevin M. Lightner, Ph.D., Professor of Accountancy
Nathan A. Oestreich, Ph.D., Professor of Accountancy
Richard A. Samuelson, Ph.D., Professor of Accountancy (Graduate Adviser)
Howard R. Toole, Ph.D., Professor of Accountancy (Graduate Adviser)
Gerald E. Whittenburg, Ph.D., Professor of Accountancy (Graduate Adviser)
James E. Williamson, Ph.D., Professor of Accountancy
Carol O. Houston, Ph.D., Associate Professor of Accountancy
Gun-Ho J oh, Ph.D., Associate Professor of Accountancy
Sharon M. Lightner, Ph.D., Associate Professor of Accountancy
Carol F. Venable, Ph.D., Associate Professor of Accountancy

The Vern E. Odmark Chair in Accountancy
Established in recognition of Dr. Vern E. Odmark for his 25 years of teaching at SDSU, basic support is provided by contributions from friends, alumni, and corporations, including many major national accounting firms. The chair acknowledges the University’s objective of continuing the high standards of teaching excellence and professionalism that characterized Odmark’s career.

Dr. Chee W. Chow has held the position since its creation in 1984. He is widely recognized throughout the country for the breadth of his research and his technical thoroughness.

The PricewaterhouseCoopers Alumni Professor of Accountancy
The PricewaterhouseCoopers Alumni Professor was established in 1993 to recognize innovative excellence in the teaching of accounting. The professorship is designed to enhance the School of Accountancy’s ability to attract and retain top-quality accounting educators and scholars.

The professorship is funded by a combination of contributions from the PricewaterhouseCoopers Foundation, the local San Diego office, and SDSU alumni and friends of the School on staff with PricewaterhouseCoopers both locally and nationwide.

Dr. Robert Capettini holds the position. He was centrally involved in creating the new, broad-based, integrated accounting curriculum that was introduced in the fall of 1993.

Master of Science Degree in Accountancy

General Information
The objective of the Master of Science degree program in Accountancy is to provide students with greater breadth and depth in accounting education than is possible in the baccalaureate degree. The program allows students to focus their accounting studies in an area of specialization within the field of accounting and to gain a greater breadth in their knowledge of business and accounting. In order to provide the opportunity for specializing one’s accounting knowledge, the M.S. program provides three areas of specialization: corporate accounting, professional accounting, and taxation. Each area consists of a series of selected courses which students take upon the recommendation of their adviser. Specialization within the M.S. degree is intended to give students the necessary academic background and research experience to advance their careers in public accounting, private accounting or government.

Admission to the Degree Curriculum
In addition to meeting the requirements for classified graduate standing in the University and admission to the College of Business Administration, as described above, and in Part Two of this bulletin, the student must have satisfactorily completed courses equivalent to the core courses in the MBA curriculum as described above and any other course deficiencies as required by a graduate adviser in the School of Accountancy.

Satisfactory completion means that the student’s grade in each course must be “B” (3.0) or better and that the course must have been completed within seven years prior to the first course completed on the master’s degree program. In addition, the student’s adviser may request satisfactory completion of additional prerequisite courses.

Notice of admission to a curriculum with classified graduate standing will be sent to the student only upon the recommendation of the College of Business Administration and the approval of the Dean of the Graduate Division and Research.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Accountancy
(Major Code: 05021)
In addition to meeting the requirements for classified graduate standing as described above and the general requirements for master’s degrees as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 approved units including at least 21 units in 600- and 700-numbered courses. Of the 30 units, at least 15 units must be in

WEB SITE: www-rohan.sdsu.edu/dept/cbaweb/acct/index.html
Courses Acceptable on Master’s Degree Program in Accountancy

UPPER DIVISION COURSES

501. Advanced Accounting Problems (4) I, II
   Prerequisites: Minimum grade of C in Accountancy 322; credit or concurrent registration in Accountancy 421. Proof of completion of prerequisites required: Copy of transcript.
   Problems involved in partnerships, consignments, consolidations, receiverships, foreign exchange, fund accounting, and other specialized areas.

502. Advanced Managerial Accounting (3)
   Prerequisite: Minimum grade of C in Accountancy 322; credit or concurrent registration in Accountancy 421. Proof of completion of prerequisite required: Copy of transcript.
   Use of accounting information systems for managerial decision making. Introduction to decision-making situations which use accounting information for full or partial resolution. Consideration of uncertainty, decision theory and specific decision contexts.

503. Federal Taxation of Individuals (3) I, II, S
   Prerequisites: Accountancy 201 and 202. Approved upper division business major, business minor, or other approved major. Proof of completion of prerequisites required: Copy of transcript.
   Taxation of individuals, including income, deductions, credits, social security taxes, and property transactions. (Formerly numbered Accountancy 404.)

504. Federal Taxation of Business Enterprises (3) I, II, S
   Prerequisite: Credit or concurrent registration in Accountancy 421 or credit in Accountancy 503.
   Taxation of corporations, partnerships, estates, and trusts. Gift and estate tax.

508. Accounting for Not-For-Profit Organizations (3)
   Prerequisite: Minimum grade of C in Accountancy 322. Proof of completion of prerequisite required: Copy of transcript.
   Principles of fund accounting useful in state and local government units, hospitals, colleges, and universities. Comparisons with commercial accounting emphasized. Includes study of budgetary accounting, appropriations, encumbrances, internal checks and auditing procedures.

596. Contemporary Topics in Accounting (1-3)
   Prerequisites: Minimum grade of C in Accountancy 322, credit or concurrent registration in Accountancy 421. Proof of completion of prerequisites required: Copy of transcript.
   Contemporary topics in modern accounting. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

620. Financial and Managerial Accounting (3)
   Prerequisites: Business Administration 650 and 660.
   Financial statement information related to current assets and current liabilities, long-lived assets, and revenue and expense recognition. Cost-volume-profit analysis, allocation of costs to products and profit-centers, operating and capital budgeting, and relevant cost analysis.

624. Tax for Managers (3)
   Prerequisite: Business Administration 650.
   Application of federal income tax laws on selected management decisions (e.g., buy/lease decisions, sell/trade decisions, current and deferred compensation planning). Recognition of tax hazards and tax savings.

625. Financial Reporting and Analysis (3)
   Prerequisite: Accountancy 620.
   Preparation and use of financial statement information relating to long-term debt, leases, pensions, deferred taxes, stockholders’ equity and cash flow statements. Research of authoritative accounting literature.

626. Audit/Systems (4)
   Prerequisites: Business Administration 650 and 660.
   Design and internal control perspectives of accounting information systems. Systems analysis, decision support systems, and implementation are investigated. Duties, responsibilities, and ethics of the auditor; auditor’s reports and procedures for verification of financial statements.

650. Tax Research and Planning (3)
   Prerequisite: Accountancy 321 or 503.
   Tax research with emphasis on solving tax planning problems. Introduction to statutory, administrative, and judicial sources of tax law.

651. Seminar in Corporate Tax (3)
   Prerequisite: Credit or concurrent registration in Accountancy 650.
   Corporate tax problems involving distributions, liquidations, reorganizations, redemptions, personal holding companies, accumulated earnings tax, and thin capitalization.
653. Seminar in Tax Practice (3)
Prerequisite: Credit or concurrent registration in Accountancy 650.
- Tax practice procedures as they affect the practitioners' dealing with the IRS; statute of limitations, ethical problems, penalties, interest, tax fraud.

654. Seminar in Partnership Taxation (3) I, II
Prerequisite: Credit or concurrent registration in Accountancy 650.
- Partnership tax problems involving partnership formation, operations, distributions and liquidations.

655. Tax Planning for Individuals (3)
Prerequisite: Credit or concurrent registration in Accountancy 650.
- Selected complex tax laws related to individuals and sole proprietorship businesses, sales and exchanges of property, tax deferred transactions in property, accounting periods and methods, and personal deductions.

656. California and Multistate Taxation (3)
Prerequisite: Credit or concurrent registration in Accountancy 650.
- California taxation of individuals, corporations, and other business entities. Treatment of multistate transactions of business organizations and out-of-state transactions of California residents.

659. Seminar in Taxation Topics (3)
Prerequisite: Credit or concurrent registration in Accountancy 650.
- Theoretical treatment of selected topics in taxation. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

660. Seminar in Accounting Theory (3)
Prerequisite: Accountancy 625.
- Application of theories and concepts underlying financial accounting to specific cases. Research of authoritative pronouncements and financial data bases. Social and political environment of financial reporting by business enterprises.

661. Seminar in International Accounting (3)
Prerequisite: Business Administration 650.
- Theories, practices, and concepts which underlie development of standards of financial reporting for enterprises engaged in international trade and business.

663. Financial Statement Analysis (3)
Prerequisite: Business Administration 650.
- Illustrative cases and problems to analyze methods for communicating information about financing and operating activities of corporate firms, and techniques for evaluating the information.

670. Seminar in Auditing (3)
Prerequisite: Accountancy 322 or 626.
- Selected conceptual issues in auditing.

671. Seminar in Compilation and Review Services (3)
Prerequisite: Accountancy 322 or 626.
- Applications cases on engagements to compile or review financial statements of nonpublic entities under accounting and review services standards.

680. Seminar in Managerial Accounting (3)
Prerequisite: Business Administration 660.
- Managerial cost accounting concepts and procedures, including budgetary planning, cost control, advisory functions, measurement of divisional profitability, product pricing, and investment decisions.

681. Seminar in Regulatory and Management Controls (3)
Prerequisites: Business Administration 650 and 660.
- Social and behavioral science theories influencing design and operation of management control systems with emphasis on environmental and regulatory factors that influence, affect, motivate, and control managers and employees.

694. Seminar in Public Accounting Consulting (3)
Prerequisite: Business Administration 660.
- Study through cases of the analytical approach and process applied by public accounting consultants to businesses. Current and proposed form of organization, finances, operations, systems, and controls.

696. Seminar in Selected Topics (3)
Intensive study in specific areas of accountancy. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

790. Directed Readings in Accountancy (3) Cr/NC
Prerequisite: Advancement to candidacy.
- Preparation for the comprehensive examination for the M.S. program.

797. Research (3) Cr/NC/SP
Prerequisite: Advancement to candidacy.
- Research in the area of accountancy. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
- Individual study. Maximum credit six units applicable to a master’s degree.

Courses Acceptable on Master's Degree Programs in Business Administration

UPPER DIVISION COURSES
522. Individual Insurance Management (2) II
Prerequisites: Undergraduate: Completion of lower division requirements for the major. Graduate: Completion of prerequisite core.
Economic, legal, social, and ethical considerations of individual, business and group insurance including life, health, property, and liability insurance. Risk exposure and policy analysis. (Finance 522 and 523 replace Finance 521.)

523. Employee Benefit Planning (2) II
Prerequisites: Undergraduate: Completion of lower division requirements for the major. Graduate: Completion of prerequisite core.
Employee benefit and pension planning, including regulation and taxation issues. (Finance 522 and 523 replace Finance 521.)

589. Personal Financial Planning (3) I
Prerequisite: Finance 323.
Financial planning process including data gathering, cash flow and debt considerations, goal programming (including retirement and education funding), integration, plan formulation, and implementation. Practice management considerations including establishment of ethical and legal, client and professional relationships.

GRADUATE COURSES
604. Legal Environment for Executives (3)
Legal environment of business, government regulation, social and ethical considerations in the administration of justice, substantive law of contracts, property, agency, and business organizations.

617. Financial Management II (3)
Prerequisite: Business Administration 665.
Develops topics to include asset pricing, capital budgeting techniques, dividend policy and financing decisions, applications of options and futures, term structure of interest rates, regulation of financial markets, leasing decisions, corporate control.

641. Financing the Emerging Enterprise (3)
Prerequisite: Business Administration 665.
Financial considerations in emerging and growing enterprises to include internal financial management, external funding sources, and dealing with venture capitalists. Emphasis on integration of theory, computer analysis, and human judgment in financial decision making.

642. Financial Risk Management (3)
Prerequisite: Business Administration 665.

651. Seminar in Investments (3)
Prerequisite: Business Administration 665.
Characteristics of financial markets and instruments. Contemporary as well as traditional approaches to problems of pricing individual securities; portfolio selection and analysis; techniques of analysis; measurement of risk; return, and investment values.

652. Seminar in Security Analysis and Portfolio Management (3)
Prerequisite: An upper division or graduate course in investments.
Security valuation, alternative instruments, portfolio theory, active and passive management techniques, asset allocation, performance measurement, use of derivative instruments in portfolio management, debt portfolio management techniques, ethical standards.
653. Case Studies in Financial Management (3)  
Prerequisite: Business Administration 665.  

654. Seminar in International Business Finance (3)  
Prerequisite: Business Administration 665.  
International financial instruments, markets, and institutions; international trade and capital flows; foreign exchange risks and their management; direct and portfolio investment; implications for conduct of global business.

655. Seminar in Financial Markets (3)  
Prerequisite: Business Administration 665.  
Analysis of money and capital markets. Emphasis on factors of influence and sources and uses of data. Survey of literature in the field.

656. Seminar in Financial Institutions (3)  
Prerequisite: Business Administration 665.  
Change in financial institution management thought. Trends in asset management theory and liability management theory. Current events in financial institutions, changes likely to occur and proposed changes in laws and regulations.

657. Financial Counseling (3) Cr/NC  
Prerequisite: Advancement to candidacy and Finance 651.  
Decision-making process and theory of individual financial needs. Planning and implementation of financial strategies that aid in meeting family goals. Counseling. Ethics. Preparation of financial plans using cases and individuals.

658. Seminar in Options and Futures (3)  
Prerequisite: Business Administration 665.  
Applications of options and futures in corporate finance and investments. Analytical and numerical methods of option pricing. Compound options and options in dividend paying assets. Options with stochastic exercise prices and options to exchange one risky asset for another.

659. Decision Making in the World Economy (3)  
Prerequisite: Classified graduate standing.  
Application of macroeconomic theory to business decision making, study of economic environment and government macroeconomic policy from a business viewpoint.

696. Seminar in Selected Topics (3)  
Prerequisite: Classified graduate standing.  
Intensive study in specific areas of finance. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

705. Seminar in Estate Planning (3)  
Prerequisite: Business Administration 665.  
The scope and nature of estate planning. Identification and analysis of the environmental factors and those aspects of federal and state law affecting estate planning and taxation. Estate taxation and social policy.

780. Seminar in Land Markets and Urban Development Issues (3)  
Prerequisite: Graduate standing.  
Land use and policy issues affecting the spatial environments for enterprise decisions. Legal and institutional framework for basic land market functions and operations. Housing market demand and supply determinants. Development issues and models of urban land use.

783. Seminar in Real Estate Investment and Development (3)  
Prerequisite: Graduate standing.  
Analysis of real estate investment and development decisions by corporations, individuals and financial institutions. Market and feasibility analysis, taxation, financing and risk evaluation, portfolio considerations.

784. Seminar in Real Estate Finance and Valuation (3)  
Prerequisite: Graduate standing.  
Application of valuation theory to real property and related mortgage instruments in a market context. Market definition, data collection and analysis. Value determinants and new valuation technologies. Special valuation and financing issues and cases.

797. Research (3) Cr/NC/SP  
Prerequisite: Advancement to candidacy.  
Research in the area of finance. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP  
Prerequisite: Consent of staff; to be arranged with department chair and instructor. Individual study. Maximum credit six units applicable to a master’s degree.
Information and Decision Systems

Faculty
John M. Penrose, Ph.D., Professor of Information and Decision Systems, Chair of Department
James R. Beatty, Ph.D., Professor of Information and Decision Systems
Milton M. Chen, Ph.D., Professor of Information and Decision Systems (Graduate Adviser)
Marie E. Flatley, Ph.D., Professor of Information and Decision Systems
Richard A. Hatch, Ph.D., Professor of Information and Decision Systems
Alexis Koster, Ph.D., Professor of Information and Decision Systems (Graduate Adviser)
James R. Lackritz, Ph.D., Professor of Information and Decision Systems
Ronald J. Norman, Ph.D., Professor of Information and Decision Systems (Graduate Adviser)
Feraidoon Raafat, Ph.D., Professor of Information and Decision Systems (Graduate Adviser)
William R. Sherrard, Ph.D., Professor of Information and Decision Systems (Graduate Adviser)
Norman E. Sondak, D.Eng., Professor of Information and Decision Systems
Gretchen N. Vik, Ph.D., Professor of Information and Decision Systems
Theophilus Addo, Ph.D., Associate Professor of Information and Decision Systems
Annette C. Easton, Ph.D., Associate Professor of Information and Decision Systems
George K. Easton, Ph.D., Associate Professor of Information and Decision Systems
Carolena L. Lyons-Lawrence, Ph.D., Associate Professor of Information and Decision Systems
Yeong-Ling Yang, Ph.D., Associate Professor of Information and Decision Systems
Bongsik Shin, Ph.D., Assistant Professor of Information and Decision Systems

Courses Acceptable on Master’s Degree Programs in Business Administration

UPPER DIVISION COURSE

515. Advanced Programming for Business (3) I,II
Prerequisite: Information and Decision Systems 315 or knowledge of one computer programming language.
Advanced programming for business applications in widely used programming languages. Advanced concepts of data structures used in business programming, control structures, and program structures. Selection of programming languages for particular purposes. Not open to students with credit in Information and Decision Systems 383 or 384.

520. Java Programming for Business Applications (3)
Prerequisite: A course in C/C++ programming.
Comprehensive coverage of both Java applications and applets with emphasis on business application programs using graphical user interfaces. Business applications include multimedia programs, network processing, and database connectivity.

GRADUATE COURSES

609. Management Information Systems (3)
Role of information in organizational management. Typical management information subsystems. Design and management of management information systems.

680. Information Systems Hardware and Software (3)
Prerequisite: Information and Decision Systems 609. Computer architecture, programming languages, programming systems, and operating systems.

683. Program, Data, and File Structures (3)
Prerequisite: Information and Decision Systems 609. Program structures and data structures commonly used in business processing. File organization and processing strategies. Improving storage and processing efficiencies.

686. Database Management Systems (3)
Prerequisite: Information and Decision Systems 609. Applications of database management systems in business. Design and administration of database processing systems applications.

687. Data Communications and Distributed Data Processing (3)
Prerequisite: Information and Decision Systems 680. Applications of data communications hardware, software, and services in business data processing. Design and implementation of network applications and distributed processing systems.

688. Information Systems in Organizations (3)
Prerequisite: Classified graduate standing. Evolutionary role of information systems: from support function to strategic entity, planning, organizing, and administering the information systems function. Information and its relationships to business decision making. Global and ethical aspects of information technology.

691. Decision Support Systems (3)
Prerequisite: Credit or concurrent registration in Information and Decision Systems 688. Design, implementation, and integration of computerized decision support systems into business management. Problem representation, modeling, and simulation.

695. Information Systems Development I (3)
Prerequisite: Information and Decision Systems 609. System development life cycle. Life cycle methodologies with emphasis on analysis of requirements using structured methodology and automated tools. Feasibility study, developmental strategies, needs management, and prototyping.
696. Seminar in Selected Topics (3)
Intensive study in specific areas of information systems. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

697. Information Systems Development II (3)
Prerequisite: Information and Decision Systems 695.
Business information systems design, installation, and implementation as part of the systems development life cycle. Structured design, prototyping, controls, the make vs. buy decision, selection of hardware and software.

700. Artificial Intelligence Applications for Business (3)
Prerequisite: Information and Decision Systems 609.

705. Communication Strategies (3)
Prerequisite: Classified graduate standing.
Development of advanced written, oral, and interpersonal communication strategies for the business environment.

742. Seminar in Computer Simulation for Business (3)
Prerequisite: Business Administration 662.
Design and analysis of computerized business simulation models.

744. Seminar in Total Quality Management and Productivity (3)
Prerequisite: Business Administration 662.
Philosophy and technology of total quality management as applied in business and industry. Quality and productivity applications of total quality control (TQC), statistical process control (SPC), and just-in-time (JIT) systems in industrial problems. Cases and examples from the United States, Japan, and other industrialized countries.

748. Seminar in Advanced Data Analysis (3)
Prerequisite: Business Administration 652.
Applications of various statistical techniques and design of experiments for business. Advanced ANOVA and Taguchi designs, multiple regression modeling methodologies, and multivariate techniques, such as factor analysis, judgement analysis, multiple discriminant analysis, multivariate analysis of variance, and canonical correlation.

749. Seminar in Applied Behavioral Measurement (3)
Prerequisite: Business Administration 652.
Measurement procedures useful in analyzing such areas as teamwork, leadership, job satisfaction, attitudes, motivation, total quality management, and customer satisfaction. Development and use of technologies including Likert, Thurstone, Guttman, paired-comparison, forced-choice, semantic-differential, C-E diagrams, and review of existing instruments used in business-related settings.

750. Project Management (3)
Prerequisite: Business Administration 662.
Managing projects. Includes network modeling, defining activities and events, cost estimating and reporting, single and multiple resource allocation and leveling. Computerized project management software will be used.

752. Seminar in Materials Requirement Planning (3)
Prerequisite: Business Administration 662.
Product structure, master scheduling and materials requirement planning (MRP).

753. Global Manufacturing and Service Operations (3)
Prerequisite: Classified graduate standing.
Operations management issues related to manufacturing and service delivery in a global context.

754. Seminar in Operations Management (3)
Prerequisite: Business Administration 662.
Integration of manufacturing and operations functions through case studies, plant visits, and class projects. Computerized simulation package used to facilitate student understanding of production scheduling systems.

790. Directed Readings in Information and Decision Systems (3) Cr/NC
Prerequisite: Advancement to candidacy.
Preparation for the comprehensive examination for students.

797. Research (3) Cr/NC/SP
Prerequisite: Advancement to candidacy.
Research in the area of information and decision systems. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.
Faculty
Mark C. Butler, Ph.D., Professor of Management, Chair of Department (Graduate Adviser)
James A. Belasco, Ph.D., Professor of Management
Alex F. De Noble, Ph.D., Professor of Management
Jaisingh V. Ghorpade, Ph.D., Professor of Management (Graduate Adviser)
David R. Hampton, Ph.D., Professor of Management
Michael L. Hergert, Ph.D., Professor of Management, Dean of the College of Business Administration
Kenneth E. Marino, Ph.D., Professor of Management, Associate Dean and Director, Graduate Program, College of Business Administration
Penny L. Wright, Ph.D., Professor of Management (Graduate Adviser)
Craig P. Dunn, Ph.D., Associate Professor of Management
Sanford B. Ehrlich, Ph.D., Associate Professor of Management, Executive Director, Entrepreneurial Management Center
Lawrence C. Rhyne, Ph.D., Associate Professor of Management (Graduate Adviser)
Dong I. Jung, Ph.D., Assistant Professor of Management
Steven R. Lovett, Ph.D., Assistant Professor of Management
Gangaram Singh, Ph.D., Assistant Professor of Management

Courses Acceptable on Master’s Degree Programs in Business Administration

UPPER DIVISION COURSE
596. Advanced Topics in Management (3)
Prerequisite: Six upper division units in management.
Advanced special topics in management. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
626. Competitive Analysis of Industries (3)
Prerequisite: Business Administration 651.
Concepts and tools for studying structure of industries and processes of structural change in industries. Implications of public policy decisions and competitive actions on strategy formulation are explored in several industry settings.

669. Human Resource Management (3)
Prerequisites: Business Administration 651.
Design of organizational systems for accomplishing work through individuals and groups. Strategic, legal, and ethical considerations in staffing, appraising, developing, and rewarding people at work.

670. Strategic Human Resources Planning and Staffing (3)
Prerequisite: Business Administration 651.

671. Seminar in Employee Involvement in Management (3)
Prerequisite: Business Administration 651.
Patterns of employee participation in decision making. Comparative study of representative participation, gainsharing, employee ownership, empowerment, work teams, quality circles, and job enrichment in union and non-union settings in the U.S. and foreign countries.

696. Seminar in Selected Topics (3)
Intensive study in specific areas of management. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

701. Organizational Theory and Design (3)
Prerequisite: Business Administration 651.
Managerial perspectives on organization in domestic and multinational arenas. Emphasis on organizational environments, strategy, goals, control, culture, structure, and technology.

710. Seminar in World Business Environment (3)
Prerequisite: Business Administration 651.

720. Seminar in Behavioral Sciences for Management (3)
Prerequisite: Business Administration 651.
Applications of findings from behavioral sciences to management problems and decisions. Study of organization cultures and subcultures. Impact of human behavior on the enterprise.

721. Seminar in Group Processes and Leadership (3)
Prerequisite: Business Administration 651.
Perceptions and processes in work groups. Experience in interpersonal networks, influence and rewards, stereotypes; managing differences and conflicts.

722. Seminar in Business Ethics and Social Institutions (3)
Prerequisite: Business Administration 651.
Ethical and social aspects of current issues in business and society. Changing role of stakeholders including consumers, shareholders, and employees. Assessment of operation, functioning and regulation of the market system.
723. Seminar in International Strategic Management (3)
Prerequisite: Completion of MBA core or MS prerequisites. Strategic decision making in managing international enterprises. General management problems in directing and controlling transnational companies, including entry, acquisitions and joint ventures. Cases and readings to acquaint students with worldwide business practices.

724. Entrepreneurship (3)
Prerequisite: Business Administration 651. Examination of the entrepreneurial approach; concepts, theory and techniques of managerial innovation and implementation; analysis of entrepreneurial skills.

727. Seminar in Organizational Change and Development (3)
Prerequisite: Business Administration 651. Process of developing human resources and organizations. Theories of organizational development; tools and techniques, analysis of manpower and organizational development programs.

729. Seminar in Organizational Issues (3)
Prerequisite: Business Administration 651. Issues in organizations in modern society; organization design, environmental interface, and political processes. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

731. Seminar in Strategic Management of Technology and Innovation (3)
Prerequisite: Completion of MBA core or MS prerequisites. Assessment of technological competencies and formulation of entry strategies for high-technology markets. Managing project teams and high-technology professionals.

740. Seminar in Business Management and the Natural Environment (3)
Prerequisite: Graduate standing. Environmental issues relating to business management. Topics include social and ethical approaches to the environment, environmental crises, and environmental movement. Cases and projects help students develop a philosophy integrating business and environmental concerns.

741. Seminar in Organization Power and Politics (3)
Prerequisite: Business Administration 651. Management of power and politics in organizations as they relate to resource allocation, decisions, personnel evaluation, and strategy and policy issues.

742. Seminar in Business and the Good Society (3)
Prerequisite: Graduate standing. Role of the firm in creating the “good society” through in-depth study of social and philosophical principles underlying business enterprise. Assumptions underlying capitalist economic thought are surfaced, and relationship between “market failure” and “government regulation” examined.

743. Seminar in Business Plan Development (3)
Prerequisite: Business Administration 651. Principles and techniques for developing a business plan.

744. Seminar in Managing the Growing Firm (3)
Prerequisite: MBA core or admission to degree curriculum for M.S. degree business administration. Problems and issues confronting entrepreneurs beyond start-up of a new venture. Focus on issues from both entrepreneur and investor perspectives.

790. Directed Readings in Management (3) Cr/NC
Prerequisite: Advancement to candidacy. Preparation for the comprehensive examination for those students in the MSBA program under Plan B.

797. Research (3) Cr/NC/SP
Prerequisite: Advancement to candidacy. Research in the area of management. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor. Individual study. Maximum credit six units applicable to a master’s degree.
Faculty
George E. Belch, Ph.D., Professor of Marketing, Chair of Department
Michael A. Belch, Ph.D., Professor of Marketing
Kathleen A. Krentler, D.B.A., Professor of Marketing (Graduate Adviser, International Business)
Massoud M. Saghafi, Ph.D., Professor of Marketing (Graduate Adviser, International Business)
Donald Sciglimpaglia, D.B.A., Professor of Marketing
Ronald W. Stampl, Ph.D., Professor of Marketing
Pradeep K. Tyagi, Ph.D., Professor of Marketing (Graduate Adviser–MBA)
Thomas R. Wotruba, Ph.D., Professor of Marketing

Courses Acceptable on Master’s Degree Programs in Business Administration

GRADUATE COURSES

696. Seminar in Selected Topics (3)
Intensive study in specific areas of marketing. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree. (Formerly numbered Marketing 795.)

701. Seminar in Marketing Planning and Programs (3)
Prerequisite: Business Administration 655.
Analysis and planning of marketing programs. Emphasis on quantitative assessment, market measurement and forecasting, budgeting, organization and development of marketing strategy. Integration of marketing programs concerning product plans, pricing, promotion and distribution.

760. Seminar in Consumer Behavior (3)
Prerequisite: Business Administration 655.
The study of consumer behavior in relation to marketing strategy and the changing environment of business.

761. Product Innovation Management (3)
Prerequisite: Business Administration 655.
New product development and issues related to overall management of product innovation in context of entrepreneurial opportunity, start-up ventures and existing organizations. Focus on planning, design, and implementation of marketing strategy.

762. Seminar in Integrated Marketing Communication (3)
Prerequisite: Business Administration 655.
Theory and application of integrated marketing communication to advertising, promotions, public relations/publicity, personal selling and direct marketing (including Internet).

763. Seminar in Sales Management (3)
Prerequisite: Business Administration 655.
Sales management and personal selling decisions and strategies in business organizations.

765. Seminar in Marketing and Public Policy (3)
Prerequisite: Business Administration 655.
Relationship between marketing activities of business organizations and concerns or problems these activities generate from standpoint of public policy and public interest.

766. Seminar in Marketing Research (3)
Prerequisite: Business Administration 655.
Application of statistical and mathematical methods to market problems, consumer research, and product analysis.

767. Seminar in Business Marketing Management (3)
Prerequisite: Business Administration 655.
Management of marketing decisions particular to organizational customers and prospects. Emphasizes marketing to private, commercial, institutional, and governmental customers in both domestic and global markets.

768. Seminar in Internet Marketing (3)
Prerequisite: Business Administration 655.
Theory and application of marketing utilizing the Internet and associated issues of electronic commerce.

769. Seminar in International Marketing (3)
Prerequisite: Business Administration 655.
The impact of cultural, social, political, economic, and other environmental variables on international marketing systems and the decision-making process of multinational marketing operations.

779. Advanced Marketing Strategy (3)
Prerequisites: Business Administration 655 and advancement to candidacy.
Development, implementation and evaluation of marketing strategy and planning. Role of marketing planning in overall corporate strategic planning process. Use of contemporary techniques and models in strategic planning process.

790. Directed Readings in Marketing (3) Cr/NC
Prerequisite: Advancement to candidacy.
Preparation for the comprehensive examination for those students in the MSBA program under Plan B.

797. Research (3) Cr/NC/SP
Prerequisite: Advancement to candidacy.
Research in the area of marketing. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.
Section I. Master’s Degree Programs

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, classified standing is subject to satisfactory performance on orientation examinations which are administered by the Department of Chemistry. The applicant should have completed most courses which are commonly required for a bachelor’s degree in chemistry.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. In addition, the student must pass orientation examinations in chemistry. These examinations should be taken during the first year in residence.

Specific Requirements for the Master of Arts Degree
(Major Code: 19051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units which includes a major consisting of at least 24 units in chemistry from courses listed below as acceptable on master’s degree programs. At least 15 of these units must be in 600- and 700-numbered courses. Chemistry 711 and 791 are required. This degree is offered under the non-thesis, Plan B option, as described in Part Two of this bulletin. A written comprehensive examination is required.

Specific Requirements for the Master of Science Degree
(Major Code: 19051)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master’s degree as described in Part Two of this bulletin. The student must also complete a graduate program of 30 units which includes a major consisting of at least 24 units in chemistry from courses listed below as acceptable on master’s degree programs. At least 15 of these units must be in 600- and 700-numbered courses. Chemistry 711*, 791, 792 and 799A are required. A student must pass a final oral examination on the thesis.

* Chemistry 762 may be substituted for Chemistry 711, with approval of the graduate adviser, by students whose thesis project is in the area of biochemistry.

Associateships

Graduate teaching associateships and graduate nonteaching associateships in chemistry are available to a limited number of qualified students. Application blanks and additional information may be secured from the graduate adviser in the Department of Chemistry.

General Information

The Department of Chemistry offers graduate study leading to the Master of Arts, the Master of Science and the Doctor of Philosophy degrees in chemistry. The Ph.D. degree is offered jointly with the Department of Chemistry at the University of California, San Diego. Thesis research in all graduate programs is offered in the five traditional areas of chemistry, i.e., analytical chemistry, biochemistry, inorganic chemistry, organic chemistry, and physical chemistry.

The department provides a substantial inventory of modern chemical instrumentation for support of the many active research programs. Included are systems for the performance of nearly all major types of chemical separations; HPLCIC, CE and GC-mass spectrometric systems; 200 and 500 MHz FT nuclear magnetic resonance spectrometers; CW and FT infrared spectrometers; ultraviolet-visible spectrometric instruments for both atomic and molecular emission and absorption studies; electrochemical instrumentation for potentiometric, voltammetric and coulometric measurements; radiochemical instrumentation; laser systems for spectroscopy and a variety of computer workstations and microcomputers.
Section II.  
Doctoral Program

(Major Code: 19051)

The cooperating faculties of the Departments of Chemistry at San Diego State University and at the University of California, San Diego possess complementary specialties that enable the doctoral student to gain familiarity with most areas in chemistry and to find research activity and direction in a great variety of specific problems.

The entering student will be required to have a mastery of the subjects usually presented in the undergraduate curriculum: physical, organic, analytical, and inorganic chemistry. All applicants will be expected to have taken the equivalent of one year of physics and of mathematics at least through integral calculus. Students should be prepared to take placement examinations which will be administered by a joint committee and will cover the fields of inorganic, organic and physical chemistry.

On admission to the program, the student is guided by Requirements for the Doctoral Degree Program given in Part Two of this bulletin. Students will normally spend their first year in the program completing their year of residency at the University of California, San Diego. It is desirable for the student to complete the qualifying examination by the end of the fifth semester and to be advanced to candidacy.

Faculty

The following faculty members of the Departments of Chemistry of the cooperating institutions participate in the joint doctoral program, being available for direction of research and as departmental members of joint doctoral committees.

San Diego State University:  
Graduate Advisers: Karen Peterson and David Pullman  
Graduate Admissions: Douglas Grotjahn  
Committee Members: Bennett, Bergdahl, Burkey, Chatfield, Cobble, Cole, Cooksy, Dahms, Grotjahn, Metzger, Pullman, Roeder, Smith, Stumph, Tong

University of California, San Diego:  
Graduate Adviser: Douglas Magde  
Committee Members: Allison, Continetti, Harvey, Kye, Magde, Oesterreicher, Sawrey, Theodorakis

Courses Acceptable on Master’s and Doctoral Degree Programs in Chemistry

### UPPER DIVISION COURSES

510. Advanced Physical Chemistry (3)  
Prerequisite: Chemistry 410B.  
Problems in chemical thermodynamics, statistical mechanics, chemical kinetics, quantum chemistry and molecular structure and spectroscopy, with applications.

515. Computational Chemistry (3)  
Prerequisites: Chemistry 410A and 410B.  
Overview of modern computational chemistry. Use of computational chemistry tools and their application to problems of chemical interest.

520A-520B. Inorganic Chemistry (3-3) I, II  
Prerequisite: Credit or concurrent registration in Chemistry 410B. Chemistry 520A is prerequisite to 520B.  
Nature of chemical bond and an advanced systematic study of representative and transition elements and their compounds.

530. Theoretical Organic Chemistry (3)  
Prerequisites: Chemistry 410A and 431. Recommended: Credit or concurrent registration in Chemistry 410B.  
Electronic and physical properties of organic molecules; structure-reactivity correlations: Electronic structure of molecules (qualitative molecular orbital theory); stereochemistry; and linear free energy relationships.

537. Organic Qualitative Analysis (4)  
Two lectures and six hours of laboratory.  
Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A. Recommended: Chemistry 417 and 457.  
Chemical, physical, and spectral methods discussed and employed to determine structure of organic compounds. Purification and separation techniques stressed.

550. Instrumental Methods of Chemical Analysis (2) I  
Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410B; concurrent registration in Chemistry 457 for undergraduate students only.  
Theory and application of those instrumental methods of chemical separation and analysis most frequently used in all sub-disciplines of chemistry.

551. Advanced Analytical Chemistry (3) II  
Prerequisite: Chemistry 550.  

552. Chromatographic Separations (1)  
Prerequisite: Chemistry 550.  
Theory of chemical separations and solvent theory and their application to gas and liquid chromatographic media and capillary electrophoresis, emphasizing practiced methods of analysis.

553. Interpretation of Mass Spectra (1)  
Prerequisite: Chemistry 550.  
Methods of ionization used to produce mass spectra from atoms and molecules. Interpretation of electron impact mass spectra. Applications to modern methods of analysis of large organic molecules from gas, liquid, and capillary electrophoresis forms of chromatography.

560A-560B. General Biochemistry (3-3) I, II  
Prerequisites: Chemistry 431 and credit or concurrent registration in Chemistry 410A.  
The structure, function, metabolism, and thermodynamic relationships of chemical entities in living systems. Not open to students with credit in Chemistry 361A-361B.

567. Biochemistry Laboratory (3) I, II  
One lecture and six hours of laboratory.  
Prerequisite: Chemistry 361A or 560A.  
Theory and practice of procedures used in study of life at molecular level. Includes purification and characterization of enzymes, isolation of cell components, and use of radioactive tracer techniques.
571. Environmental Chemistry (3)
Prerequisites: Chemistry 231 and 251; consent of instructor for all other majors.
Fundamentals of chemistry applied to environmental problems. Chemistry of ecosystems; analysis of natural constituents and pollutants; sampling methods; transport of contaminants; regulations and public policy.

596. Advanced Special Topics in Chemistry (1-3)
Prerequisite: Consent of instructor.
Advanced selected topics in modern chemistry. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units applicable to a bachelor’s degree. Maximum combined credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

711. Chemical Thermodynamics (3)
Prerequisite: Chemistry 410B.
Chemical thermodynamics and an introduction to statistical thermodynamics.

712. Chemical Kinetics (3)
Prerequisite: Chemistry 410B.
Theory of rate processes; applications of kinetics to the study of reaction mechanisms.

713. Quantum Chemistry (3)
Prerequisite: Chemistry 410B.
Quantum mechanics of atomic and molecular systems; applications to chemical bonding theory.

721. Mechanisms of Inorganic Reactions (3)
Prerequisite: Chemistry 520A.
Mechanisms in inorganic reactions with an emphasis on coordination chemistry.

730. Advanced Topics in Organic Chemistry (1-3)
Prerequisite: Chemistry 431.
Selected topics in organic chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

731. Mechanisms of Organic Reaction (3)
Prerequisites: Chemistry 410B and 431.
Reactivity and mechanism in organic reactions.

732. Advanced Organic Chemistry (3)
Prerequisite: Chemistry 431.
Applications and limitations of organic reactions from the viewpoint of synthesis.

750. Advanced Topics in Analytical Chemistry (1-3)
Prerequisite: Chemistry 550.
Selected topics from the field of analytical chemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

751. Separations Science (3)
Prerequisites: Chemistry 550 and 711.
Theoretical bases for separation techniques important in analytical chemistry. Chemical and physical interactions between components of different classes of separation systems, including selection and optimization of operational parameters.

752. Mass Spectrometry (3)
Prerequisites: Chemistry 410B and 550.
Theory and practice in analysis of volatile and involatile organic and inorganic compounds, basic design principles, theory of ionization processes, interpretation of mass spectra.

753. Analytical Spectroscopy (3)
Prerequisite: Chemistry 550.

754. Electroanalytical Chemistry (3)
Prerequisite: Chemistry 550.
Principles of electrochemistry. Theory and practice in use of electrochemical techniques to understand electrode reactions and for quantitative analysis. Other important applications of electrochemistry.

760. Advanced Topics in Biochemistry (1-3)
Prerequisite: Chemistry 560B.
Selected topics in biochemistry. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

762. Enzymology (2)
Prerequisite: Credit or concurrent registration in Chemistry 410B.
Theory and techniques used in the study of the mechanism of action of enzymes.

763. Cellular Regulation (2)
Prerequisite: Chemistry 560B.
The biochemistry of cellular regulatory mechanisms in eucaryotic cells. The regulation of gene transcription, in mRNA translation and post-translational processes, including the mechanism and regulation of intracellular protein turnover.

764. Membrane Biochemistry (1-3)
Prerequisite: Chemistry 560B.
Membrane structure and function. Biophysical and biochemical properties of membranes from procaryotic and eucaryotic cells and animal cell viruses; biosynthesis and assembly of membrane components; molecular basis of solute transport, energy coupling, cell surface transformation, and cellular recognition, adhesion and fusion.

790. Seminar (1-3)
An intensive study in advanced chemistry. May not be substituted for Chemistry 791. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

791. Research Seminar (1)
Prerequisite: Consent of department chair.
Discussions on current research by students, faculty, and visiting scientists. Each student will make a presentation based on the current literature.

792. Bibliography (1)
Exercise in the use of basic reference books, journals, and specialized bibliographies, preparatory to the writing of a master’s project or thesis.
797. Research (1-3) Cr/NC/SP
Prerequisite: Consent of instructor.
Research in one of the fields of chemistry. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (3-15) Cr/NC/SP
Prerequisites: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

City Planning
Refer to the section on Public Administration and Urban Studies.
Child and Family Development

In the College of Professional Studies and Fine Arts

Faculty

Thomas W. Roberts, Ph.D., Professor of Child and Family Development, Chair of Department (Graduate Adviser)
*Carolyn K. Balkwell, Ph.D., Professor of Child and Family Development
*Audrey Hokoda, Ph.D., Assistant Professor of Child and Family Development
*Shulamit N. Riblatt, Ph.D., Assistant Professor of Child and Family Development

Faculty Committee for Child and Family Development

Stuart C. Aitken, Ph.D., Professor of Geography
*Patricia T. Cegelka, Ed.D., Professor of Special Education
Shoshana A. Grossbard-Shechtman, Ph.D., Professor of Economics
*Charles F. Hohm, Ph.D., Professor of Sociology
Melbourne F. Hovell, Ph.D., Professor of Public Health
Kenji Ima, Ph.D., Professor of Sociology
*Kathleen B. Jones, Ph.D., Professor of Women’s Studies
Eleanor W. Lynch, Ph.D., Professor of Special Education
*Louis M. Rea, Ph.D., Professor of Public Administration and Urban Studies
Judy S. Reilly, Ph.D., Professor of Psychology
*E. Percil Stanford, Ph.D., Professor of Social Work, Director of the University Center on Aging
*James L. Wood, Ph.D., Professor of Social Work
Maria E. Zuniga, Ph.D., Professor of Social Work
Shelly E. Chandler, Ph.D., Associate Professor of Sociology
Adelaiza R. del Castillo, Ph.D., Associate Professor of Chicana and Chicano Studies
Vanessa L. Malcarne, Ph.D., Associate Professor of Psychology
Joseph M. Price, Ph.D., Associate Professor of Psychology

* Serves on the Faculty Governing Board which makes recommendations on admissions, curriculum, and thesis committee membership.

For information regarding graduate teaching associateships, coursework, and research experience leading to a Master of Science degree in child development, contact the adviser, Dr. Thomas W. Roberts.

General Information

The Department of Child and Family Development offers interdisciplinary graduate study leading to the Master of Science degree in child development. Graduate teaching associateships and graduate assistantships in child development may be available to a limited number of qualified students.

Master of Science Degree in Child Development

The Master of Science degree in child development is one of only two child development programs available in the CSU. With 106 community college child development programs, following the mandate of the Ryan Act in California and 13 undergraduate programs within the CSU system, the M.S. program in child development plays a major role in training professionals for the State and region.1 The Department of Child and Family Development plays a leadership role in integration of curricula for community colleges and the CSU.2

Child development is an interdisciplinary area of study. The Master of Science degree, administered by the Department of Child and Family Development, draws on the expertise of a multidisciplinary faculty who are committed to the study of children within the context of diverse families and communities and who are from the following areas: Chicana and Chicano Studies, Economics, Geography, Gerontology, Psychology, Public Administration and Urban Studies, Public Health, Special Education, Social Work, Sociology, and Women’s Studies. Emphasis in the program is placed on the central issue of “Child and Family Development Interventions” and offered through 13 courses from eight different departments.

Research interests and areas of expertise of the faculty include: abuse prevention, child and family advocacy, AIDS, attachment/bonding, children’s literature, cross-cultural studies, curriculum development and evaluation, demography, economic development, families of divorce, full-inclusion programs for early interventions, intergenerational relationships, marital adjustment, multiethnic families, parent-child relationships, parent training programs, peer relationships, political interventions, public policy, cross-cultural studies, stress management and coping strategies, and train the trainers models for service delivery to children and families.

Opportunities exist to participate in an ongoing multicultural project studying images of grandparents and the elderly in children’s books from different cultures. To date languages include Arabic, French, Hebrew, English, Russian, and Spanish. If you are interested in this project please contact Dr. Shulamit Riblatt.

In addition, the Interdisciplinary Training Program on Early Intervention offers students field practice with transdisciplinary teams in hospitals, schools, and agency settings. Other field experience programs offer students supervised work in community agencies and children’s programs. The Child Study Center focuses on undergraduate and graduate training and research by operating a Campus Children’s Center in collaboration with SDSU’s Associated Students and San Diego City Schools. All

---

1 Legislative linkages include Social Security Title IVA (Title XX) Title 5 and Title 22.
2 In collaboration with the Grossmont-Cuyamaca District strategies for competency-based curricula across all levels of child development programs throughout the State are being designed.
children’s programs are mainstreamed and a wide range of special needs and at-risk populations are served by a full inclusion program.

Graduates qualify for administrator, coordinator, or service provider positions in preschools, day care centers, schools, hospitals, hospice centers, clinics, residential institutions, counseling centers, mental health centers, public welfare agencies, family service agencies, family planning clinics, community programs, business and industry, and government agencies. Graduates also qualify as community college instructors and can continue their education for the doctoral degree in human development or a related field.

Admission to Graduate Study

Students will be admitted to the graduate program in child development only after careful consideration of their qualification by the Child Development Faculty Governing Board. All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in child development must meet the following requirements:

1. A bachelor’s degree in child development or related fields or consent of the Child Development Faculty Governing Board.
2. Satisfy the prerequisites of courses in the program of study. If students’ undergraduate preparation is deemed insufficient, students will be required to complete specified courses in addition to the minimum of 30 units required for the master’s degree in child development.
3. A grade point average of 3.0 in the last 60 semester units attempted.
4. Completion of the GRE General Test with no less than a score of 500 on the verbal section and no less than a score of 500 on the quantitative section.

To be considered for admission to the graduate program in child development, an applicant must submit the following for review by the Child Development Faculty Governing Board which is in addition to the common admissions form:

1. Applicant’s letter of intent which includes reason for seeking the degree and career goals.
2. Three letters of recommendation, one of which must be from an academic reference and another from an occupational reference.
3. A written personal statement by the applicant discussing background, interests, experiences, abilities, and career goals as they apply to the applicant’s desire for a graduate degree in child development.
4. Completion of a telephone or in person interview conducted by one or more members of the Child Development Faculty Governing Board.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin, have identified a thesis research adviser, taken CFD 790 with a grade of B or better, and have had their research topic approved by their thesis advisers.

Specific Requirements for the Master of Science Degree in Child Development

(Major Code: 08231)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, students must complete a graduate program of at least 30 units including at least 18 units of 600- and 700-numbered courses.

All students must complete:

1. A core sequence of four courses to include Child and Family Development 634, 670, 790, and Psychology 670A or Public Health 602.
2. A 15-unit specialization, chosen in conjunction with the program adviser, six units of which must be from a department other than Child and Family Development.

Courses Acceptable on Master’s Degree Program in Child Development

UPPER DIVISION COURSES

536. Divorce and Remarriage (3) II
Prerequisites: Child and Family Development 335 and Sociology 101.
Integration of family theories and research findings. Emphasis on adjustment to divorce and remarriage throughout life cycles, across cultures, social classes, and ethnicities.

537. Child Abuse and Family Violence (3) I, II
Prerequisites: Child and Family Development 270 and 371; consent of instructor for graduate students.
Multidisciplinary approach to child abuse and family violence including maltreatment, mistreatment, neglect, sexual abuse.

570. Infant/Toddler Development (3) I
Prerequisite: Child and Family Development 275 or Psychology 230 with grade of C (2.0) or better. Proof of completion of prerequisite required: Copy of transcript.
Physiological, psychological, cognitive, social, and cultural development of the human organism from conception through three years of age.

575. Public Policy and Professional Ethics in Child and Family Development (3)
Prerequisites: Child and Family Development 375; 376A, 376B, or 376C; and 536 or 537 or 590.
Public policy and professional ethics as applied to child and family development, programs, and research.

577. Advanced Administration of Child Development Programs (3) II
Prerequisite: Child and Family Development 477. Proof of completion of prerequisite required: Copy of transcript.
Problem analysis and development of successful organizational strategies for child development program delivery. Leadership, effective communication, social and ethical issues from a multicultural perspective.
578. Parent-Child Relationships Across the Life Span (3) I
Prerequisites: Child and Family Development 335 and 370.
Multidisciplinary approach to the parent-child relationship as it continues and changes throughout the life of the dyad, including study of normative and nonnormative life events.

590. Developmental Dysfunctions (4) I, II
Three lectures and three hours of laboratory.
Prerequisite: Child and Family Development 270 or Psychology 230, and completion of 12 upper division units in child and family development with a grade of C (2.0) or better for majors; consent of instructor for graduate students. Proof of completion of prerequisites required: Copy of transcript.
Adaptive and maladaptive processes throughout life span with emphasis on emotional, psychological, and physical disorders. Etiology, development, and adjustment. Directed experience with special needs individuals and their families.

596. Advanced Studies in Child and Family Development (1-6)
Prerequisite: Nine upper division units in child and family development.
Advanced study of selected topics. See Class Schedule for specific content. Limit of six units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of nine units of 596. No more than six units of 596 may be applied to either the bachelor's or master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

597. Child and Family Development Field Experiences (1) I, II
Prerequisites: Fifteen upper division units in child and family development with a grade of B (3.0) or better in courses selected from Child and Family Development 335, 370, 371, 375; 376A, 376B, or 376C; 377, 537, 575, or 590. Concurrent registration in Child and Family Development 597L. Proof of completion of prerequisites required: Copy of transcript.
Developmental theories and techniques in child development.

597L. Child and Family Development Field Experiences Laboratory (2) Cr/NC I, II
Prerequisites: Fifteen upper division units in child and family development with a grade of B (3.0) or better in courses selected from Child and Family Development 335, 370, 371, 375; 377, 537, 575, or 590. Concurrent registration in Child and Family Development 597. Proof of completion of prerequisites required: Copy of transcript.
Directed experiences in practical application of developmental theories and techniques in various community agencies.

GRADUATE COURSES

634. Seminar in Family Processes (3)
Prerequisite: Child and Family Development 335.
Analysis of selected research in family structure, development, and crisis.

670. Seminar: Child Development and Guidance (3)
Prerequisite: Six upper division units in child and family development.
Emphasis on personality theories and on research and clinical findings relevant to systematic study of human development and the guidance of children.

671. Seminar in Human Development (3)
Prerequisite: Six upper division units in child and family development.
Analysis of selected research in human development. May be repeated with new content for maximum credit six units.

697. Advanced Field Experiences (3) Cr/NC
Prerequisite: Child and Family Development 670 or 671.
Advanced application of human developmental theories and techniques in various community settings.

790. Research Methods (3)
Prerequisite: Approval of graduate program adviser.
Analysis of research in the area of child and family development; criteria and procedures for conducting research.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with the chair and instructor and approval of graduate program adviser. Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University, also student must be registered in the course when the completed thesis is granted final approval.
Communication
In the College of Professional Studies and Fine Arts

Faculty
Michael R. Real, Ph.D., Professor of Communication, Director of the School of Communication
Janis F. Andersen, Ed.D., Professor of Communication, Associate Vice President for Community Services, Associate Dean for Policy and Curriculum, Graduate and Research Affairs
Peter A. Andersen, Ph.D., Professor of Communication
Hayes L. Anderson, Ph.D., Professor of Communication, Associate Dean, College of Professional Studies and Fine Arts
Wayne A. Beach, Ph.D., Professor of Communication
Carroll Parrott Blue, M.F.A., Professor of Communication
(Graduate Adviser to Television, Film, and New Media Production, Specialization in Telecommunications and Media Management)
Glen M. Broom, Ph.D., Professor of Communication
George N. Dionisopoulos, Ph.D., Professor of Communication
David M. Dozier, Ph.D., Professor of Communication
Gregory C. Durbin, M.F.A., Professor of Communication
Patricia J. Geist, Ph.D., Professor of Communication (Graduate Adviser to Specializations in Critical-Cultural Studies, Interaction Studies, Intercultural and International Studies)
Barbara W. Hartung, Ph.D., Professor of Communication, Executive Assistant to the President
Susan A. Hellweg, Ph.D., Professor of Communication
Martha M. Lauzen, Ph.D., Professor of Communication
Myron W. Lustig, Ph.D., Professor of Communication
Barbara Mueller, Ph.D., Professor of Communication
Jack Ofield, Professor of Communication, Filmmaker in Residence in Communication
Brian H. Spitzberg, Ph.D., Professor of Communication
(Graduate Director, School of Communication
Al R. Weitzel, Ph.D., Professor of Communication
K. Tim Wulfemeyer, Ed.D., Professor of Communication
Diane L. Borden, Ph.D., Associate Professor of Communication
J. Davis, Ph.D., Associate Professor of Communication (Graduate Adviser to Specializations in Advertising and Public Relations, New Media Studies, News and Information Studies)
Donald R. Martin, Ph.D., Associate Professor of Communication
Thomas C. Meador, M.A., Associate Professor of Communication
Joseph E. Spevak, Ph.D., Assistant Professor of Communication
Mei Zhong, Ph.D., Assistant Professor of Communication
John M. Eger, J.D., The Lionel Van Deerlin Professor of Communication and Public Policy

Associateships
Graduate students are employed in the School of Communication in teaching, research, and other areas. Graduate teaching assistantships in communication are available to a limited number of qualified students. A limited number of graduate assistantships also are available in the School of Communication for those with academic or professional experience in various research and creative areas. Contact the Graduate Director or any of the graduate advisers for further information. Call (619) 594-5450 for an application.

General Information
The School of Communication offers graduate study leading to the Master of Arts degree in communication or the Master of Arts degree in television, film, and new media production. The Master of Arts degree in communication prepares students either for additional graduate work leading to a doctoral degree or for various careers in industry. The Master of Arts degree in television, film, and new media production prepares students for careers in creative areas of media design and production.

The School of Communication houses the Production Center for Documentary and Drama, which is integral to the technical and artistic training of senior students in film, video and the interface between these technologies, and in documentary production. In the Center, students participate in full-scale location and studio production and are mentored by the Filmmaker in Residence in the creation of their required course film and video projects.

Master of Arts Degree in Communication
The Master of Arts degree in communication provides advanced studies in seven areas of specialization, including advertising and public relations, critical-cultural studies, interaction studies, intercultural and international studies, new media studies, news and information studies, and telecommunications and media management. Each specialization prepares students for one of three career paths: 1) Rigorous theoretical and methodological studies prepare students for additional graduate work at the doctoral level. 2) Studies in specific content areas prepare students for leadership positions in key communication industries and professional areas. 3) Combining studies in communication with selected courses in the College of Education prepare students for teaching careers at the community college level. Placement of communication graduates in doctoral programs is excellent; speech communication professors recently rated this program as one of the top five master's programs in the nation. Other graduates occupy leadership positions in advertising, human resource development, media and telecommunications management, new media, organizational communication, organizational training, public relations, and telecommunications policy.

Research interests of faculty and students include conversation analysis, interpersonal communication, rhetorical criticism, relational communication, group communication, organizational communication, social influence processes, communication message and program strategies, instructional processes, media organizations and professionals, audience uses of media, media history, media production, media ethics, new media studies and technologies, media criticism, media management, political communication, communication regulation and policy, international communication and intercultural communication.
Graduate students in the School of Communication have access to computer equipment to support research endeavors. Master's degree students are encouraged to work with faculty on research projects and to develop their own research programs. In addition, the School of Communication operates a large color television studio, a film and video production center, and a radio complex as instructional and research facilities. The School collaborates with other departments in the College of Professional Studies and Fine Arts to operate the Multimedia Center and the Production Center for Documentary and Drama.

**Admission to Graduate Study.**

Students will be admitted for the Fall and Spring semester. For Fall admission, applications must be received by March 1. For Spring admission, applications must be received by November 1.

In addition to meeting the general requirements for admission to the University with classified graduate standing as outlined in Part Two of this bulletin, students applying for admission to the Master of Arts degree in communication are evaluated according to the following criteria:

1. Undergraduate major or minor in advertising, communication, film, journalism, radio-television, speech communication, public relations, or a related communication discipline. Those lacking adequate undergraduate preparation may be admitted conditionally to the program and are required to take one or more proficiency courses identified for each specialization, as determined by the graduate adviser for that specialization. Proficiency courses do not count toward the 30 units of a student's graduate program.

2. Minimum grade point average of 3.4 in the last 60 semester units attempted or an overall undergraduate grade point average of 2.8 with a 3.0 in the last 60 semester units attempted.

3. Acceptable Graduate Record Examination (GRE) scores on the verbal and quantitative sections of the test.

4. Three letters of recommendation from academic references that speak to the student's ability to succeed in graduate studies. Students applying to the specializations in advertising and public relations, news and information, and telecommunications and media management may substitute up to two professional references for academic references.

5. A personal Statement of Purpose composed by the applicant that: 1) identifies the degree specialization that provides the best fit with the applicant's objectives, 2) describes the applicant's undergraduate and/or professional preparation for graduate studies in the program and specialization, and 3) articulates the personal and/or career objectives that graduate studies in communication will help the applicant pursue.

All documents required for admission, including letters of recommendation and Statement of Purpose, are submitted directly to Graduate Admissions, San Diego State University, San Diego, CA 92182-7455.

**Advancement to Candidacy**

In addition to meeting the general requirements for advancement to candidacy described in Part Two of this bulletin, students seeking the Master of Arts degree in communication must complete Communication 600A and 600B with a B grade or better prior to advancement.

**Specific Requirements for the Master of Arts Degree**

(Major Code: 06011)

In addition to meeting the requirements for the Master of Arts degree as described in Part Two of this bulletin and the requirements for one of the following seven communication specializations, the student must complete a minimum of 30 units in courses acceptable on master's degree programs. At least 18 units of the total program must be in courses numbered 600-799. In addition to courses in the School of Communication, students may take six units of graduate coursework in other departments and schools of the University, depending on their communication specialization and with prior approval of their graduate adviser.

**Specialization in Advertising and Public Relations**

This specialization offers systematic training for individuals who seek advanced knowledge of advertising and public relations theory for application to careers in advertising, public relations, or allied field or who plan to continue studies of advertising or public relations at the doctoral level.

Proficiency Requirements. Undergraduate degree in journalism, advertising, public relations, or related field. Students lacking an undergraduate background in advertising or public relations are required to select 12 units from Communication 460, 461, 480, 481, Journalism 220.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. With approval of the graduate adviser, Communication 620 and a minimum of six units from Communication 506, 540, 560, 565, 580, 581, 585, 589, 610, 620, 640, 660, 665, 696, 701, 780, 785, 798; and 12 units of electives relevant to advertising and public relations selected with the approval of the graduate adviser. No more than six units may be taken outside the School of Communication. No more than six units may be taken as special study.

**Specialization in Critical-Cultural Studies**

This specialization offers a wide-ranging examination of criticism, culture, and communication, drawing from international developments in critical studies and cultural studies as incisive intellectual activities. Rhetorical criticism, film theory, postmodernism, and related but diverse sources prepare students for scholarly or applied careers in communication.

Proficiency Requirements. At least three undergraduate courses in media history and criticism and/or rhetorical theory and criticism.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. With approval of the graduate adviser, a minimum of six units selected from...
Specialization in Interaction Studies

This specialization recognizes interaction as the original and fundamental communication process, as well as the predominant means through which social life is practically accomplished. Systematic attention is given to the organization of interaction across diverse social relationships, activities, and contexts.

Proficiency Requirements. Students lacking an undergraduate background in communication are required to select 12 units from Communication 371, 406, 415, 445, 530, 583, 584, 592.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. With approval of the graduate adviser, a minimum of nine units selected from Communication 620, 640, 660, 665; a minimum of nine units selected from Communication 620, 640, 660, 665; with approval of the graduate adviser, a minimum of six units selected from Communication 620, 640, 660, 665; and at least nine additional units from Communication 545, 610, 696; with approval of the graduate adviser, 700, 701, 706, 708, 720, 721, 722, 740, 747, 755, 760, 764, 766, 771, 792, 798, or Television, Film, and New Media 562, 610, 615, 660, 702, and up to three units may be substituted with the graduate adviser's approval when relevant to the specialization. With approval of the graduate adviser, six units of electives selected from Communication courses numbered 500-700; Anthropology 580, 582, 603; English 625, 725, 726; Rhetoric and Writing Studies 600, 744, 745; Women’s Studies 590, 601, 603, 604; or other graduate courses inside or outside the School of Communication. No more than six units may be taken outside the School of Communication, at the 500-level, or as special study.

Specialization in Intercultural and International Studies

This specialization recognizes the growing need for international and intercultural understanding in a world made smaller by increased travel and improved communication technologies. The globalization of communication enterprises increases the need for improved international understanding as well as increased professional competence in dealing with enterprises that transcend national borders.

Proficiency Requirements. No additional proficiency requirements.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. With approval of the graduate adviser, a minimum of nine units selected from Communication 620, 640, 660, 665; a minimum of nine units selected from Communication 620, 640, 660, 665; with approval of the graduate adviser, a minimum of six units selected from Communication 620, 640, 660, 665; and at least nine additional units from Communication 545, 610, 696, 701, 705, 708, 725, 771, 792, 798, and up to three units may be substituted with approval of the graduate adviser when relevant to the specialization. With approval of the graduate adviser, six units of electives selected from Communication courses numbered 500-700; Anthropology 580, 582, 583, 600, 621; English 601; Management 727; Rhetoric and Writing Studies 600; Women's Studies 530, 536, 580, 603, 604, 605; or courses in other departments relevant to intercultural and international studies. No more than six units may be taken outside the School of Communication, at the 500-level, or as special study.

Specialization in New Media Studies

This specialization involves advanced studies of emerging communication technologies and their impact on the communication industries and professions, as well as society as a whole. Such studies help students pursue careers involving new media in communication industries and in education.

Proficiency Requirements. No additional proficiency requirements.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. With approval of the graduate adviser, a minimum of nine units selected from Communication 620, 640, 660, 665; a minimum of nine units selected from Communication 620, 640, 660, 665; and at least nine additional units from Communication courses numbered 500-799; Computer Science 520, 524, 530, 532; Educational Technology 540, 541, 544, 572, 640, 653, 685; Information and Decision Systems 609, 688, 705; or Sociology 527, 531, 537, 556, 602, 603, 700, 740, 760, 797. No more than six units may be taken outside the School of Communication.

Specialization in News and Information Studies

This specialization involves advanced studies of journalistic practices in print and electronic media, including ethics, history, law, and the impact of journalistic practices on society as a whole. Such studies serve those pursuing careers in journalism who seek a broader and deeper understanding of the profession and its impact on society and those planning to continue studies at the doctoral level.

Proficiency Requirements. Undergraduate coursework (three courses) in writing for the media, principles of journalism, and information gathering and reporting.

Graduate Courses. Students may select Plan A, thesis, by completing Communication 799A (3 units) or, if Plan B is selected, the student must complete three units of 600-700 level coursework in the School of Communication and pass the Comprehensive Examination in Communication. With approval of the graduate adviser, a minimum of nine units selected from Communication 620, 640, 660, 665; and at least nine additional units from Communication courses numbered 500-799; Sociology 527, 531, 537, 557, 602, 603, 700, 740, 760, 797; or courses in other departments relevant to the specialization. No more than six units may be taken outside the School of Communication or as special study.

Communication 620, 640, 660, 665, and at least nine additional units from Communication 545, 610, 696 (with approval of the graduate adviser), 700, 701, 706, 708, 720, 721, 722, 740, 747, 755, 760, 764, 766, 771, 792, 798, or Television, Film, and New Media 562; Communication 571, 591, 610, 696, 706, 715, 720, 721, 722, 740, 771, 798; with up to three units substituted with approval of graduate adviser when relevant to the specialization. Nine units of electives selected from Communication courses numbered 500-700; Anthropology 580, 582, 583, 600, 621; English 601; Management 727; Rhetoric and Writing Studies 600; Women’s Studies 530, 536, 580, 603, 604, 605; or courses in other departments relevant to intercultural and international studies. No more than six units may be taken outside the School of Communication, at the 500-level, or as special study.
Admission to Graduate Study

Students will be admitted to the graduate program only in the Fall semester and applications must be received by the School of Communication by March 1.

In addition to meeting the general requirements for admission to the University with classified graduate standing, as outlined in Part Two of this bulletin, students applying for admission to the Master of Arts degree in television, film, and new media production are evaluated according to the following criteria:

1. Undergraduate major or minor in radio and television, film, or a related communication discipline. Those lacking adequate undergraduate preparation or equivalent professional experience for the program will be required to complete one or more lower division and upper division courses as determined by the graduate adviser. Such courses do not apply toward the 30 graduate units required for the degree.
2. Minimum overall undergraduate grade point average of 2.8 and 3.0 in the last 60 semester units attempted.
3. Acceptable Graduate Record Examination (GRE) scores on the verbal and quantitative sections of the test.
4. Three letters of recommendation. At least one letter from an academic reference and at least one letter from a professor or professional acquainted with the applicant's creative activities.
5. A personal Statement of Purpose, composed by the applicant that discusses the applicant's background, interests, and abilities as they apply to the desire for an advanced degree in telecommunications at San Diego State University.
6. Applicants must be prepared to submit a portfolio of previous creative activity.

Admission to the program is competitive and satisfying these requirements does not guarantee admission. The decision to admit is based on consideration of the entire application file; promising applicants in unusual circumstances are encouraged to apply.

Students accepted for graduate study in the Master of Arts degree in television, film, and new media production are initially admitted with conditional graduate standing (classified). Full classified standing is awarded only after the student has completed Television, Film, and New Media 600 with a grade of B or better. In addition, all students must meet the requirements for classified standing described in Part Two of this bulletin.

Advancement to Candidacy

In addition to meeting the general requirements for advancement to candidacy described in Part Two of this bulletin, students seeking the Master of Arts in television, film, and new media production must complete Television, Film, and New Media 600 and 702 with a grade of B or better prior to advancement.
Specific Requirements for the Master of Arts Degree
(Major Code: 06031)

Candidates for the Master of Arts degree in television, film, and new media production must complete 30 units of coursework and to include the following:

1. Communication 799A (Plan A, the thesis option, is required of all students in the program), Television, Film, and New Media 600 (required for classified graduate standing), and 702.
2. With approval of the graduate adviser, 21 additional graduate units in Television, Film, and New Media, Communication, and other departments, of which nine units must be at the 600-700 level.
3. No more than nine units of electives outside the School of Communication.

Courses Acceptable on Master's Degree Programs in Communication and Television, Film, and New Media Production

Communication

UPPER DIVISION COURSES

500. Current Problems in Mass Communication (3)
Prerequisites: Communication 440, 460, or 480 or Journalism 300; and at least 12 units of upper division coursework in communication. Problems and topics in mass communication. Ethics, social responsibility, professionalism, multi-cultural issues, international media systems and audiences, global markets, and technology.

501. Management of Telecommunications Systems (3) II
Prerequisite: Communication 375 or 440 or admission to the graduate program. Proof of completion of prerequisite required: Copy of transcript. Organization and administration of telecommunications systems, with emphasis on structure, policy environment, and principal institutions affecting telecommunications industries.

502. Law of Mass Communication (3)
Prerequisites: Communication 100 or 200 or Political Science 102, and upper division standing.

503. Instructional Communication (3)
Prerequisites: Communication 105 and 160. Proof of completion of prerequisites required: Copy of transcript. Communication messages and strategies as they apply to instructional contexts. Communication within traditional instructional contexts and focus on training programs, adult workshops, and other less traditional information dissemination situations.

504. History of Mass Communication (3)
Prerequisites: Communication 100 or 200 or History 110A or 110B, and upper division standing.
American journalism from colonial times to the present, with special attention to twentieth century trends and developments, including the emergent concept of social responsibility.

505. Government and Telecommunications (3) II
Prerequisite: Twelve upper division units in communication. Responsibilities of telecommunication organizations as prescribed by law, government policies and regulations, and significant court decisions.

506. Advertising and Society (3)
Prerequisites: Communication 300 and 350. Theoretical and philosophical analysis of advertising in modern society.

530. Conversational Interaction (3)
Prerequisite: Completion of preparation for the major in communication or admission to the graduate program. Sequential organization of naturally occurring conversational practices. Reliance on recordings and transcriptions for detailed examinations of interactants’ methods for achieving social actions and organizing interactional occasions.

540. Media Management Research (3)
Two lectures and two hours of activity. Prerequisite: Communication 489. Applying research in cable, film, radio, television and telecommunications management. Designs, methodologies, analyses, applications of audience, programming, and advertising research.

541. Advanced Creative Production (3)
One lecture and four hours of activity. Prerequisites: Communication 461 or 481; and consent of instructor. Design and production of print and electronic advertising and public relations messages. Creative strategy and evaluation. Print, film and video techniques. Maximum credit six units.

545. Communication and Rhetorical Movements (3)
Prerequisite: Completion of preparation for the specializations in communication or admission to the graduate program. Historical perspective of role of communication in social change in rhetorical movements and social change.

555. New Media Production (3)
Two lectures and three hours of activity. Prerequisite: Upper division standing or admission to the graduate program. Development of audio visual/communication products in new media formats. Multi-media laboratory use to be arranged.

560. Advertising Research (3) I
Prerequisites: Communication 310W and 460 with grades of C (2.0) or better. Proof of completion of prerequisites required: Copy of transcript. Limited to advertising majors and minors (Major code 06041). Systematic application of quantitative and qualitative research to planning, design, and management of advertising campaigns. Cases, practices, and problems in application of research to consumer, market analysis, positioning, creative selection, media planning, and campaign evaluation.

565. Advertising Campaigns (3) II
Prerequisites: Communication 461 and 560. Planning and creation of advertising campaigns including situation analysis and strategy, advertising and marketing objectives, consumer analysis and target audience selection, creative development, media strategy and tactics, sales promotion, and campaign evaluation.
571. Intercultural Communication Theory (3)
Prerequisite: Completion of preparation for the major in communication and Communication 371, or admission to the graduate program.
Theories of cross-cultural and intercultural communication, including ethnic identity, communication competence, and cultural values.

574. International Advertising (3)
Prerequisites: Communication 300, 350, and six upper division units in School of Communication courses.
Comparative cultural, economic, legal, political, and social conditions relevant to international advertising. Not open to students with credit in Communication 474.

575. Technological Trends in Telecommunication (3)
Prerequisite: Completion of preparation for the majors in communication, or television, film and new media production, or admission to graduate program.
Developments and trends in telecommunication and related technology, with implications for the future. Practical experience with on-line computer activities.

580. Communication and Politics (3)
Prerequisites: Communication 105 and 160. Proof of completion of prerequisites required: Copy of transcript.
Contemporary political communication events and processes, with a focus on speeches, debates, and campaigns.

581. Public Relations Research (3) I
Two lectures and two hours of activity.
Prerequisites: Communication 310W and 480 with grades of C (2.0) or better and 489. Proof of completion of prerequisites required: Copy of transcript. Limited to public relations majors and minors (Major code 05992).
Qualitative and quantitative methods used in evaluation research to plan, track, and evaluate public relations programs. Computerized statistical analysis.

583. Medical Interaction (3)
Prerequisites: Communication 300 and 350.
Theoretical and applied approaches to health communication, including interactional patterns among doctors, nurses, patients, family members, therapists, counselors, and clients. Not open to students with credit in Communication 584.

584. Legal Interaction (3)
Prerequisites: Communication 300 and 350.
Interactional patterns among judges, lawyers, witnesses, juries, and related legal personnel. Implications for understanding constraints on exchange within institutional interaction and social justice as a practical accomplishment.

585. Professional Practices in Public Relations (3) II
Prerequisites: Communication 581 and credit or concurrent registration in Communication 481.
Advanced cases in public relations management. Theory and practice of issues management, integration of the public relations function in strategic management in a variety of corporate, governmental, nonprofit, social, and cultural organizations.

589. Ethical Issues in Communication (3)
Prerequisites: Communication 105 and 160. Proof of completion of prerequisites required: Copy of transcript.
Classical and modern ethical concepts and issues in communication.

591. International Telecommunications (3) I
Prerequisite: Twelve upper division units in School of Communication or admission to the graduate program.
Comparative study of economic, social, political determinants of broadcasting, and telecommunication systems around the world.

592. Persuasion (3)
Prerequisite: Communication 103. Open to majors and non-majors.
Key variables and theories in the persuasion process: persuasive sources, messages, receiver variables, propaganda, brainwashing, cognitive, behavioral, and social theories of persuasion. Not applicable to the M.A. degree in communication.

596. Selected Topics (1-4)
Prerequisite: Senior standing or above.
Specialized study in selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

Communication

GRADUATE COURSES

600A. Seminar: Introduction to Communication Graduate Studies (3)
Prerequisite: Classified or conditionally classified graduate standing in the School of Communication.
Contemporary and emergent communication theory. Extensive writing from exercises in bibliographical techniques, database searches, reference works, scholarly journals, and research proposal. Recommended for first semester of graduate work.

600B. Seminar: Communication Research Methods (3)
Prerequisite: Classified or conditionally classified graduate standing in the School of Communication.
Methods and tools of inquiry in communication research. Survey/experimental methods; naturalistic methods; critical studies. Recommended for first semester of graduate work; prerequisite for advancement to candidacy.

610. Seminar: Advanced Communication Theory (3)
Prerequisite: Communication 600A.
Advanced methods of theory construction, explication, and evaluation in communication, including alternatives to traditional communication science.

620. Seminar: Quantitative Methods in Communication Research (3)
Prerequisites: Communication 540, 560, and 581 or Communication 600A and 600B.
Advanced applications of survey methodology; evaluation of experimental and quasi-experimental procedures; methods of statistical inference and research design; application of computer statistical package.

640. Seminar: Critical and Rhetorical Methods in Communication (3)
Prerequisites: Communication 600A and credit or concurrent registration in Communication 600B.
Methodologies for textual, rhetorical, semiotic, narrative, and reception research. Use of case studies, focus groups, and interpretive methods.
660. Seminar: Ethnographic Methods in Communication Research (3)
Prerequisites: Communication 600A and 600B.
Historical and contemporary assumptions of ethnographic inquiry. Naturalistic study including research design, data collection, and analysis of field materials.

665. Seminar: Conversation Analysis in Communication Research (3)
Prerequisites: Communication 600A and 600B.
Assumptions and practices of conversation analysis. Repeated examinations of diverse recordings and transcriptions as resources for analyzing distinctive, methodological, and ordered nature of communication contexts.

696. Special Topics (1-3)
Prerequisite: Graduate standing.
Intensive study in specific areas of communication. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

700. Seminar: Telecommunication Management (3)
Prerequisites: Communication 600A and 600B.
Planning, organizing, and staffing in communications and media enterprises. Managing creative processes. Examining technologies and competitive environments.

701. Seminar: Mass Communication Problems (3)
Prerequisites: Communication 600A and 600B.
Reading, investigation, and research concerning current topics in problems of mass media. May be repeated with new content. Maximum credit six units.

705. Seminar: Communication Policy and Regulation (3)
Prerequisites: Communication 600A and 600B.
Legal concepts, issues, restrictions, and guarantees as applied to radio, television, motion pictures, advertising, and printed media; relationship of local, state, and federal government to telecommunication media.

706. Seminar: Organizational Communication (3)
Prerequisites: Communication 600A and 600B.
Functions, forms, and consequences of communicating in organizations in a changing work world. Topics such as culture groups, networks, leadership, conflict, and decision making.

708. Seminar: Mass Communication and Society (3)
Prerequisites: Communication 600A and 600B.
Rights, responsibilities, and characteristics of mass media and mass communication practitioners. Characteristics and responsibilities of audiences and society.

715. Seminar: Nonverbal Communication (3)
Prerequisites: Communication 600A and 600B.
Nonverbal human behavior, including body movements, gesture, gaze, touch, and integration of vocal and nonvocal activities in human interaction.

720. Seminar: Interaction and Gender (3)
Prerequisites: Communication 600A and 600B.
Theory and research on communication and gender. Gender as ongoing interaction, achievement; gender displays, and gender myths across diverse relationships; institutions, media, and society.

721. Seminar: Interaction and Health (3)
Prerequisites: Communication 600A and 600B.
Personal, interactional, cultural, and political dimensions of communication about health and illness. Assumptions, practices, and structures of discourse across boundaries of family, social, and institutional contexts. May be repeated with new content. Maximum credit six units.

722. Seminar: Interaction and Law (3)
Prerequisites: Communication 600A and 600B.
Interactions within and across socio-legal institutions. Interrogation and testimony, judicial and jury behavior, and diverse communication activities embodied in legal, social, and family interactions.

725. Major Projects in Mass Communication (1-6)
Prerequisites: Communication 600A and 600B.
Design and execution of an in-depth project in one of these areas: advertising campaign, series of detailed expository articles or news stories, or model public relations campaign. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

735. Seminar: Relational Communication (3)
Prerequisites: Communication 600A and 600B.
Contemporary theory and research addressing interpersonal verbal and nonverbal communication in intimate and non-intimate relationships.

740. Seminar: Rhetorical Theory (3)
Prerequisites: Communication 600A and 600B.
Leading figures in rhetorical theory from Plato to contemporary theorists. Application of theory to public address.

747. Seminar in Argumentation (3)
Prerequisites: Communication 600A and 600B.
Process and theory of argumentation including argument fields, spheres, and evaluation of contexts such as conversation, history, public policy-making.

755. Seminar: Public Address (3)
Prerequisites: Communication 600A and 600B.
Case studies of rhetorical events which illustrate rhetorical theory. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

760. Seminar: Development of Telecommunication Systems (3)
Prerequisites: Communication 600A and 600B.
Development of telecommunications and broadcasting in their social, legislative, and economic settings.

762. Seminar: Public Telecommunication (3)
Prerequisites: Communication 600A and 600B.
Educational uses of electronic media. Use of telecommunications in classrooms and school systems. Relationship of noncommercial radio and television (public broadcasting) to commercial broadcast media and education.

764. Seminar: Telecommunication Technology and Policy (3)
Prerequisites: Communication 600A and 600B.
Contemporary trends in telecommunication and information technology, implications of trends for public policy and affected businesses. Interaction between technology and regulation.
765. Seminar: Conversational Interaction  (3)  
Prerequisites: Communication 600A and 600B. 
Sequential organization of naturally occurring conversational practices. Reliance on recordings and transcriptions for detailed examinations of interactants‘ methods for achieving social actions and organizing interactional occasions. (Formerly numbered Communication 730.)

766. Seminar: Telecommunication Issues and Trends  (3)  
Prerequisites: Communication 600A and 600B. 
Issues and trends important to coming decade, resulting from rapid evolution of telecommunications and related technologies, and their applications in society.

771. Seminar: Intercultural Communication  (3) I, II  
Prerequisites: Communication 571, 600A, and 600B. 
Analysis of cultural influences on human communication acts. Emphasis on cultural values, perception, social organizations, language, and nonverbal codes. (Formerly numbered Communication 775.)

777. Seminar: Theories of Advertising and Public Relations  (3)  
Prerequisites: Communication 460 or 480; 600A and 600B. 
Theories of systems, organizations, and communication effects as applied to professional practices in advertising and public relations.

780. Seminar: Public Relations Research  (3)  
Prerequisites: Communication 581, 600A, and 600B. 
Analysis and critique of contemporary public relations programs and theory. Development of a comprehensive public relations project involving original research.

785. Seminar: Advertising Research  (3)  
Prerequisites: Communication 560, 600A, and 600B. 
Advanced topics in theory, design, and utilization of advertising research.

792. Seminar: Persuasion  (3) I, II  
Prerequisites: Communication 600A and 600B. 
Contemporary theories and models of persuasion, methods of assessing persuasive effect, and analysis of research literature.

798. Special Study  (1-3) Cr/NC/SP  
Contract required. Arranged with graduate coordinator in area of study. Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis or Project  (3) Cr/NC/SP  
Prerequisites: An officially appointed thesis committee and advancement to candidacy. 
Preparation of a project or thesis for the master’s degree.

799B. Thesis or Project Extension  (0) Cr/NC  
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP. 
Registration in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.
560. Advanced Film and Video: Field Production (3)
One lecture and more than six hours of laboratory.
Prerequisites: Television, Film, and New Media 260, 261, and 410 with grade of B (3.0) or better in each and consent of instructor. Proof of completion of prerequisites required: Copy of transcript. Practicum in direction and production of dramatic and non-dramatic film and video. Cameras, lighting, design, sound techniques, experience in University sponsored productions.

561. Advanced Film and Video: Studio Production (3)
One lecture and more than six hours of laboratory.
Prerequisites: Television, Film, and New Media 260, 261, and 410 with grade of B (3.0) or better in each and consent of instructor.
Program development, presentational techniques, and individual projects in producing and directing. Practical experience in University sponsored productions.

562. Documentary and Propaganda Film/Television (3)
Prerequisite: Television, Film, and New Media 160.
Analysis through viewing of persuasive concepts, techniques, and forms in international and documentary film and television programs.

565. Animated Film Techniques (3)
Two lectures and more than three hours of activity.
Screening of representative examples and production of a filmograph or animated motion picture. Practical experience in University sponsored productions.

Television, Film, and New Media

GRADUATE COURSES

600. Seminar: Research and Bibliography in Media Production (3)
Methods of research, telecommunications policy, critical analysis, and writing in relation to creative work.

610. Seminar in Writing for Television and Film (3)
Prerequisite: Admission to creative specialization.
Non-dramatic and dramatic structures as they apply to non-fiction and fiction television programs and films. Writing full length script or scenario. Maximum credit six units applicable to a master's degree.

615. Seminar in Criticism of Electronic Media and Cinema (3)
Prerequisite: The equivalent of an undergraduate major in television, film, and new media production.
Standards for objective appraisal of the ethical and artistic aspects of radio, television and film programs.

660. Seminar in Dramatic and Documentary Forms in Television and Film (3)
Prerequisite: Admission to creative specialization.
Techniques and stylistic contributions of major directors as seen in their television and film productions.

665. Seminar in Documentary Filmmaking (3)
Prerequisites: Television, Film, and New Media 560, 562, and admission to creative specialization.
Documentary production, emphasizing conceptual and technical understanding, intellectual, artistic and emotional aspects of screen authorship, historical, and contemporary uses and practical experience in production of documentaries. Maximum credit six units applicable to a master's degree.

702. Seminar in Media Message Design (3)
Prerequisite: Television, Film, and New Media 600.
Designated for students embarking on creative projects. Addresses selection, organization, and creative techniques of message design elements in the telecommunications and film media. Methods and approaches to planning creative projects. Development of proposals for projects as well as grant applications.

798. Special Study (1-3) Cr/NC/SP
Individual study. Contract required. Arranged with graduate coordinator in area of study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Following assignment of SP in Course 799A, registration in this course is required in any semester in which the student expects to use the facilities and resources of the University; also student must be registered in this course when the completed thesis or project is granted final approval.
Communicative Disorders

In the College of Health and Human Services

Faculty
Steven J. Kramer, Ph.D., Professor of Communicative Disorders, Chair of Department
Elizabeth J. Allen, Ph.D., Professor of Communicative Disorders, Graduate Coordinator
Li-Rong Lilly Cheng, Ph.D., Professor of Communicative Disorders
Kathee M. Christensen, Ph.D., Professor of Communicative Disorders
Donald A. Robin, Ph.D., Professor of Communicative Disorders
Michael R. Seitz, Ph.D., Professor of Communicative Disorders
Donna J. Thal, Ph.D., Associate Professor of Communicative Disorders
Vera F. Gutierrez-Clellen, Ph.D., Associate Professor of Communicative Disorders
Lewis P. Shapiro, Ph.D., Associate Professor of Communicative Disorders
Diane R. Williams, M.A., Associate Professor of Communicative Disorders
Beverly B. Wulfeck, Ph.D., Associate Professor of Communicative Disorders
Jessica A. Barlow, Ph.D., Assistant Professor of Communicative Disorders
Carl L. Mackersie, Ph.D., Assistant Professor of Communicative Disorders

General Information

The master’s degree programs in Speech Pathology and Audiology are accredited by the American-Language-Hearing Association. The master’s degree program in Education of the Deaf is accredited by the Council on Education of the Deaf.

The Department of Communicative Disorders offers graduate study leading to the Master of Arts degree in communicative disorders, and to the credentials described below. The cooperating faculties of San Diego State University and the University of California, San Diego, offer a joint program leading to a Ph.D. in language and communicative disorders. The master’s degree program is accredited by the American Speech-Language-Hearing Association Council on Academic Accreditation in Audiology and Speech-Language Pathology, and the training program for teachers of the hearing impaired is accredited by the Council on Education of the Deaf. The department offers advanced study in communicative sciences, speech-language pathology, audiology, and education of the deaf. The Department of Communicative Disorders is committed to preparing speech-language-hearing professionals to meet the challenges of a culturally and linguistically diverse society.

The programs utilize the facilities of the Communications Clinic, which includes observation rooms, departmental reference collection, and speech and hearing science laboratories. In the laboratories, students use personal computers, microprocessor based diagnostic audiometers, spectral signal analyzer, acoustic immittance equipment, hearing aid analyzer, digital stroboscope, Vissipitch, phonic mirror, state-of-the-art ENG and evoked potential equipment, miniphoneators, audiometric response simulators, laryngoscopic manikin, and audio and video recording equipment with ongoing new acquisitions.

In addition, the department utilizes an off-campus multidisciplinary diagnostic and rehabilitation center. Students and faculty participate in providing direct delivery of clinical services to clients, jointly participate in central intake activities (a multidisciplinary assessment program) and the assistive devices assessment program, which evaluates, selects and trains multihandicapped individuals to help them communicate more effectively. Field experience is offered in the public schools and community agencies. Practicum and observation experiences are possible at various hospitals, schools, community agencies, convalescent homes, and rehabilitation agencies.

Office: Communications Clinic 118

Section I.
Master’s Degree Programs

Admission to Graduate Study

Students will be admitted to the graduate programs only in the Fall Semester. Applications to the university must be submitted by February 1 for the master’s degree programs in speech-language pathology, audiology, education of the deaf, and communicative sciences. For information on obtaining an application packet, call (619) 594-6774 (select menu item #2).

All students must satisfy the general admission and examination requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, the applicant must satisfy the following requirements before being considered for admission to classified graduate standing by the department’s Admissions Review Committee.

1. Have a minimum grade point average of 3.2 (on a 4.0 scale) during the last 60 semester units of undergraduate college/university coursework.
2. Submit scores on the GRE General Test (verbal and quantitative portions only).
3. Have three letters of recommendation sent from persons who are knowledgeable about the candidate’s high potential for graduate study. Specific forms are included in the Application Information packet.
4. Submit an Applicant Essay as described in the Application Information packet.
5. List any employment or volunteer experience relevant to your professional goals.

Once the above requirements have been satisfied, the applicant’s file is considered complete and eligible for review by the department’s Admissions Review Committee. Admission to the graduate programs is guided by careful consideration of all the

108
above materials by a designated Admissions Review Committee. Applicants whose files are incomplete will not be eligible for admission to classified graduate standing. The number of new admissions is restricted and is determined by space availability; therefore, admission is based on consideration of all application materials and the relative merits of individual applicants among all eligible applicants.

In some cases, candidates who have not completed the above requirements may be admitted with a conditionally classified standing, subject to space availability after consideration of those who meet the requirements for classified graduate standing. Students admitted to conditionally classified graduate standing may petition for a change of classification to classified graduate standing after satisfying the conditions specified at the time of admission, and after completion of nine units of 500- or 600-level coursework with a 3.0 grade point average in those courses.

Students who receive special permission to enroll in department courses through the College of Extended Studies or who enter with postbaccalaureate unclassified standing are not admitted to the department and are not assured of consideration for admission to advanced degree curricula, master's degree, credentials, or certificate programs offered by the department. Admission to the university or enrollment in classes does not guarantee acceptance to the department.

**Advancement to Candidacy**

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin.

**Specific Requirements for the Master of Arts Degree**

(Major Code: 12201)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 36 units. A student must complete Communicative Disorders 799A, Thesis for Plan A. If Plan B is elected, the student must pass a written comprehensive examination (which may be repeated only twice). No more than six units of coursework outside the department acceptable on graduation (which may be repeated only twice). No more than six units of coursework outside the department acceptable on graduation (which may be repeated only twice).

The Department of Communicative Disorders offers four concentrations leading to the Master of Arts degree. Each concentration requires completion of a specific pattern of graduate units described below:

**A. Concentration in Speech-Language Pathology.** This concentration has a clinical focus and may be used to satisfy some of the academic preparation for the Certificate of Clinical Competence in Speech-Language Pathology from the American Speech-Language-Hearing Association and for licensure from the State of California. Students are required to complete coursework in all of the following areas:

a. Voice Disorders
b. Fluency Disorders
c. Articulation/Phonology Disorders
d. Adult Language Disorders
e. Child Language Disorders

The coursework may be taken during undergraduate or graduate preparation.

**Undergraduate Preparation.** Communicative Disorders 106, 110, 205, 300, 320, 321, 322, 323, 340, 340L, 512, 513, 517, 539; Linguistics 452; Physics 201; Sociology 201.

**Graduate Program.** The following courses are required: Communicative Disorders 600 or 634, 652, 654, 660, 661, 662, 663, 664, 666, 670, 671, 672, 673, 790, 792, 793 or 794.

In addition, candidates following Plan A must complete Communicative Disorders 799A and nine units from the electives. Candidates following Plan B must complete 12 units from the electives. Electives may be selected from the following courses with the approval of the adviser: Communicative Disorders 501, 505, 511, 570, 580, 603, 604, 606, 608, 670, 672, 675, 797, 798, and any of the required course options that were not selected.

Students pursuing the Early Intervention/Multicultural Certificate from the Department of Communicative Disorders may substitute one of the following courses for one of the Speech-Language component of coursework with the approval of the faculty adviser: Child and Family Development 570; Social Work 781; Special Education 528.

Students electing to pursue the Certificate of Clinical Competence in Speech-Language Pathology (ASHA), California licensure for Speech-Language Pathology, or the Clinical-Rehabilitative Services Credential (Languages, Speech and Hearing or Special Day Class) for California Schools should complete, in addition to the required courses listed above, additional academic courses and clinic hours required by national and state organizations.

**B. Concentration in Audiology.** This concentration has a clinical focus and may be used to satisfy some of the academic preparation for the Certificate of Clinical Competence in Audiology from the American Speech-Language-Hearing Association and for licensure from the State of California.

**Undergraduate Preparation.** Undergraduate preparation to include courses equivalent to the following offered at San Diego State University: Communicative Disorders 100, 101, 110, 205, 300, 320, 321, 322, 323, 340, 340L, 512, 517, 542; Linguistics 452; Physics 201; Sociology 201 (or other behavioral statistics course).

**Graduate Program.** Required courses: 36 units to include Communicative Disorders 600, 610, 611, 620, 640, 643, 644, 647, 648, 653, and Plan A (799A) or Plan B (comprehensive examination and three units of electives selected with the approval of the faculty adviser).

Students electing to pursue the Certificate of Clinical Competence in Audiology (ASHA), California State licensure in Audiology, or the Clinical-Rehabilitative Services Credential (Audiology) for California schools should complete, in addition to the required courses listed above, additional academic courses and clinic hours required by national and state organizations.

**C. Concentration in Education of the Deaf.** This concentration has a bilingual/educational focus and may be used to satisfy some of the academic and clinical preparation for certification by the Council on Education of the Deaf (CED), and for the California Education Specialist Credential for the Deaf and Hard of Hearing.

**Undergraduate Preparation.** Communicative Disorders 106, 110, 159, 205, 300, 320, 321, 340, 340L, 350, 357; Physics 201; Psychology 101; Sociology 201.

Graduate Program. Required courses: 36 units to include Communicative Disorders 550, 600, 655, 657, 658, 659, 668, 675; and Plan A (799A) or Plan B (comprehensive examination); and electives to include six units (Plan A) or nine units (Plan B) selected from Communicative Disorders 562, 613, 797, 798, or Policy Studies in Language and Cross-cultural Education 600, 601, 650 or 651 or Special Education 525, 528, 645. Students pursuing a Specialization in Deaf-Blindness are advised to select from the recommended special education courses.

Competency in communication with deaf persons must be demonstrated, including oral and manual modes.

D. Concentration in Communicative Sciences. This concentration has research and theoretical foci in the area of communicative disorders. Students interested in study with a research environment requiring a strong scientific foundation may avail themselves of this concentration.

Undergraduate Preparation. Communicative Disorders 106, 205, 300, 320, 321, 323, 340, 340L, 512, 539; Physics 201; Sociology 201.

Graduate Program. Required courses: 36 units to include Communicative Disorders 600 or 795; Plan A (799A) or Plan B (comprehensive examination); electives to include 27 units selected from 500, 600, and 700-level courses with consent of the faculty adviser; and up to six units of appropriate 500, 600, and 700-numbered courses from engineering, linguistics, physics, psychology, or other departments may be included in the 27 units of electives with the approval of the department graduate adviser.

Section II. Doctoral Program

(Major Code: 12201)

The cooperating faculties of San Diego State University and the University of California, San Diego, offer a joint doctoral program in language and communicative disorders. The program’s focus is the interdisciplinary study of language and communicative disorders. A major emphasis of the program is to apply techniques developed in cognitive science and neuroscience to the study of language and language disorders. The program involves study and research in normal and abnormal language (including sign languages), and in the neural bases of language use and language loss.

Participating faculty have research interests in a wide range of issues in the processes of language development, language and aging, multilingualism, language disorders, assessment, and intervention. Graduates of the program will be qualified to serve as faculty in university programs in a variety of disciplines, and to provide leadership in research and health services.

The doctoral program faculty at SDSU are members of the Department of Communication Disorders, Department of Linguistics, and the Department of Psychology. The doctoral program faculty at UCSD are also an interdisciplinary group from the Department of Cognitive Science, Department of Communication, Department of Linguistics, Department of Neurosciences, and the Department of Psychology. The program is coordinated by the doctoral program directors at each campus, in conjunction with an executive committee comprised of three faculty from each campus appointed by the graduate deans from each campus.

The program is innovative in that many of the requirements are designed to function as a model of professional preparation specifically incorporating activities in which a successful teacher and researcher must engage after obtaining the Ph.D. Students will be required to participate in interdisciplinary research throughout the program, learn about the nature and ethics of research, prepare grant proposals, write manuscripts, and will gain experience in oral presentations and teaching. Graduates from the program will be well-prepared for the rigors of an academic/research career.

Faculty

The following faculty participate in the doctoral program in language and communicative disorders and are available as advisers, for direction of research, and as members of dissertation committees.

San Diego State University: Barlow (Communicative Disorders), Cheng (Communicative Disorders), Choi (Linguistics), Christensen (Communicative Disorders), Fenson (Psychology), Friend (Psychology), Gutierrez-Cilellan (Communicative Disorders), Reilly (Psychology), Shapiro (Communicative Disorders), Thal (Communicative Disorders), Wulfeck (Communicative Disorders).

University of California, San Diego: Ackerman (Linguistics), Bates (Psychology, Cognitive Science), Bellugi (Salk Institute, Psychology), Elman (Cognitive Science), Ferreira (Psychology), Kritchekovsky (Neurosciences), Kutus (Cognitive Science), Moore (Linguistics), Movellan (Cognitive Science), Padden (Communications), Swinney (Psychology).

Admission to Doctoral Study

The doctoral program in language and communicative disorders draws from a variety of disciplines including communicative disorders, psychology, cognitive science, linguistics, engineering, and other related sciences. Students should have adequate preparation in mathematics, statistics, and biological sciences. Background in neurosciences and/or language sciences, or language disorders is helpful, but not required for admission.

Applicants for admission to the doctoral program must meet the general requirements for admission to both universities, as specified in the current SDSU and UCSD catalogs. Applicants must meet the special requirements of this program which include (a) an acceptable baccalaureate or master’s degree or equivalent from a regionally accredited institution; (b) a GPA of at least 3.25 on a 4.0 scale in the last 60 semester (or 90 quarter) credits of upper division and/or graduate courses (c) good standing in the last institution attended; (d) suitable scores on both the quantitative and verbal sections of the Graduate Record Examination; (e) submission of appropriate application form and supporting materials as outlined below.

Applicant files are reviewed as a group by an admissions committee, composed of doctoral program faculty from each campus. Other doctoral faculty may review applicant files and make recommendations to the admissions committee. Assuming that the above requirements are met, decisions will also be guided by an evaluation of the adequacy of the applicant’s preparation in view of their stated needs and objectives. Given the limited number of spaces available, up to 6 new admissions each year are anticipated, subject to available facilities, the admissions committee will select the best qualified applicants to fill the available spaces. No minimum set of qualifications will guarantee an
applicant admission to the doctoral program. The admissions committee will make recommendations for admission to the graduate deans from each campus.

Application. Students seeking admission to the doctoral program should write directly to the Doctoral Program Coordinators (Mail Code 1518), San Diego State University, 5500 Campanile Drive, San Diego, CA 92182, in order to obtain an information packet explaining the application process and materials. A complete application requires the following:

- Appropriate application form.
- Applicant’s statement of interest.
- Transcripts of academic work completed.
- Results of the Graduate Record Examination
- Three letters of recommendation.
- Students will be admitted to the doctoral program only in the fall semester/quarter. Applications must be received by January 20 to be considered for the doctoral program beginning in the following fall semester/quarter. All other supporting materials must be received by February 1.

Specific Requirements for the Doctor of Philosophy Degree

Faculty Adviser. Upon admission to the program, the executive committee will assign each student a faculty adviser. The faculty adviser will help the student select a program of study during the first year. The faculty adviser, in conjunction with the doctoral program coordinators, will help the student select a first laboratory rotation. Once the student has selected a major area of study (see below) the student will be reassigned an appropriate adviser.

Residency Requirements. Students will be required to complete credits equivalent to one year’s full-time enrollment at each campus. The definition of residence must be in accord with the regulations of SDSU and UCSD. Students may be enrolled in courses at both institutions during any given semester/quarter.

Language Requirement. Students are required to have some experience in the acquisition of a second language. This may be satisfied through informal learning, immersion, or two or more years of formal coursework in a second language. Any recognized natural language will be acceptable to fulfill this requirement (including American Sign Language or other sign languages). Artificial languages, e.g., computer languages, will not satisfy this requirement. For students selecting the multilingualism concentration, proficiency must be demonstrated in English and at least one other language.

Major Area of Concentration. By the end of the first year, all students select a major field of emphasis by choosing one of three concentrations: Adult Language, Child Language, or Multilingualism. All students will be required to take some courses in each of the three concentrations.

- The Adult Language concentration is intended to provide intensive education in communicative disorders in adults. Students in this concentration will also develop expertise in the study of language processing in normal adults.
- The Child Language concentration is intended to provide specialized education in childhood (birth to adolescence) communicative disorders. Students in this concentration will also achieve competence in developmental psycholinguistics emphasizing language acquisition in normally-developing children.
- The Multilingualism concentration is intended to provide education in cross-linguistic, ethnographic, and other comparative studies of communicative disorders in children and/or adults, including those associated with bilingualism and second language acquisition (including acquisition of sign language in deaf individuals).

Course Requirements. The program for each student will consist of a common core of courses designed to provide the basic tools for research and a foundation knowledge in the important issues in language and communicative disorders, together with specific electives appropriate to the student’s chosen concentration.

The Tools requirement consists of two courses in statistics/research design, a course in neuroanatomy and physiology, a course in language structure and theory, and a professional survival skills course. Specific courses which can be used to satisfy this requirement are listed below.

The Foundations requirement consists of three courses on normal language and three courses on disorders of language. Specific courses which can be used to satisfy this requirement are listed below.

The Electives requirement consists of at least five courses, with a minimum of three courses related to the chosen concentration. These electives must be chosen from a broad list of approved options from anthropology, cognitive science, communicative disorders, computer science, linguistics, neurosciences, and psychology. Consult with adviser for approved elective courses. Other electives may be taken to satisfy this requirement with permission of the adviser. The five required electives must be approved by the student’s adviser and the doctoral program coordinators. Students may select additional electives with approval of the adviser.

Laboratory Rotations. In order to obtain experience in different research methodologies, each student will be required to complete three laboratory rotations, each lasting a minimum of one semester or quarter. During each rotation, students will enroll in the associated laboratory course. The laboratory rotations must be approved by the student’s adviser and the doctoral program faculty member who supervised that laboratory.

Projects. All students will be required to complete two research projects during their first two years of the program (first and second year projects). These projects are usually connected with the laboratory rotations and approved by the doctoral program faculty working in the laboratory. These projects will involve experiment design, data collection, analyses, preparation of a potentially publishable manuscript, and an oral presentation of the research findings at one of the laboratory seminars. Students will be encouraged to submit their projects for presentation at professional meetings and to submit them to an appropriate journal.

Methods Minor. All students will be required to develop basic expertise in experimental design and statistics, and all students will become familiar with standard techniques for behavioral assessment, e.g., intelligence testing, standardized tests of language ability, analyses of free speech, design and implementation of experimental measures of language and other related cognitive behaviors. In addition, by the end of the third year, all students will declare a methods minor from one of three options: behavioral dynamics, neural imaging, or neural modeling. It is expected that the student will gain experience in the chosen minor through at least one laboratory rotation and enrollment in applicable courses selected with adviser recommendation.

The Behavioral Dynamics minor is intended for students who want to specialize in computer-controlled methods for the study of language and cognitive processing in real-time.

The Neural Imaging minor is intended for students who want to complement behavioral studies with neuro-anatomical and neuro-physiological techniques, including event-related brain potentials and functional magnetic resonance imaging.
The Neural Modeling minor is intended for students who are interested in the simulation of normal and abnormal language and cognition in artificial neural networks. Students who elect this minor will be required to take Cognitive Science 210F or Computer Science and Engineering 258A as an elective.

**Qualifying Examination.** After successful completion of the first and second year projects, the student is eligible to take the qualifying examination. The qualifying examination consists of a written component which is to be in the form of a scholarly review of one or more issues related to the student’s chosen area of research and an oral component which will be a formal presentation of the paper to be presented at the annual Fall doctoral colloquium or at a separate colloquium. Students will be encouraged to write their integrative paper in a form and quality which may be submitted to an appropriate journal.

**Teaching.** The teaching requirement may be satisfied under one of two options. Model 1 requires that the doctoral student teach a full course and submit the course syllabus to the Executive Committee for review at the end of the semester/quarter. Model 2 requires that the doctoral student serve as a TA (SDSU) and/or TA (UCSD) for two courses. The student will develop a syllabus in an area related to one of these courses and present a master lecture to the Executive Committee and an invited audience on a topic in the syllabus chosen by the Executive Committee.

**Dissertation Committee.** Prior to developing a dissertation proposal, the student must have a dissertation committee. The committee members are recommended by the doctoral program coordinators with consent of the executive committee, and then appointed by the graduate deans of both campuses. The dissertation committee will consist of at least five members, including four from the doctoral program faculty groups (with at least two members from each campus) and one faculty member from outside the doctoral program faculty groups.

**Dissertation Proposal.** The dissertation proposal will take the form of an NIH or NSF grant proposal. For model 1 dissertation (see below), the proposal will be based on completed research which become pilot studies for the grant proposal. The student may be encouraged to submit the grant proposal to support their future research, e.g. post doctoral studies, or a First Investigator Award. For model 2 dissertation, the proposal will become the basis for the dissertation research to be completed. The dissertation proposal must be approved by the student’s dissertation committee.

**Advancement of Candidacy.** A student will be recommended for advancement to candidacy after completing all requirements as described above, including the qualifying examination and the dissertation proposal. Students eligible for advancement to candidacy are recommended to the Graduate Deans of both institutions. When approved by both institutions, students will be notified by the Graduate Studies office at UCSD.

**Dissertation.** After advancement to candidacy, the remaining requirement will be the satisfactory completion of a dissertation. The dissertation may take one of the following two forms:

Model 1 dissertation. Students who have maintained continuity through their second year project, qualifying examination, and dissertation proposal, and who have successfully generated publishable research which has been submitted to respected journals, may use a minimum of three such interconnected manuscripts as their dissertation. The dissertation will contain an introduction and review of the literature which conceptually links the submitted studies, the studies themselves (exactly as they have been prepared for publication), and a conclusion which pulls the results together in a broader theoretical framework.

Model 2 dissertation. Students may choose to carry out a more traditional dissertation involving the appropriate written presentation of original research carried out by the student under the guidance of the student’s dissertation committee chair.

**Dissertation Defense.** The dissertation defense will be the same for both dissertation models and will consist of an oral presentation of the dissertation material to the doctoral committee and a publicly invited audience.

**Award of the Degree.** The Doctor of Philosophy degree in language and communicative disorders will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.

**Financial Support.** Funding for graduate students cannot be guaranteed, although every effort will be made to provide students with some form of support through faculty grants, graduate teaching associ­ateships, research assistantships, or scholarships. The program endeavors to provide financial support that will enable all students to devote full time to study and research training. Financial support will be awarded consistent with the policies of the Graduate Divisions at each campus. Tuition and fees will be determined in accord with extant policies at the campus in which the student is matriculated in a given year.

**Credentials**

The Department of Communicative Disorders offers academic and practica coursework applicable to two credentials required for working in California public schools: The Clinical-Rehabilitative Services (C-RS) Credential (Credential Code: 00900) and the Education Specialist Credential for the Deaf and Hard of Hearing (Credential Code: 00461).

Applicants to a credential program are required to submit scores from the California Basic Education Skills Test (CBEST) as part of the application for admission to a credential program. Note that the CBEST is given only three or four times each year.

Credential candidates are required to have the Certificate of Clearance (finger printing) prior to beginning the school experience. Candidates should apply for the Certificate of Clearance several months prior to submitting an application to the department for school practicum placement in order for the certificate to be processed in time for the placement.

**Education Specialist Credential: Deaf and Hard-of-Hearing**

(Credential Code: 00461)

The Education Specialist Credential for the Deaf and Hard-of-Hearing is required for persons wishing to teach children and youth who are deaf, hard-of-hearing, or deaf with special needs. The coursework in this special sequence meets the standards of the California Commission on Teacher Credentialing and the National Council on Education of the Deaf.

**Admission Requirements:**

1. Formal application to the graduate program in the Department of Communicative Disorders. Applicants must satisfy the admission requirements for classified graduate standing with a concentration in education of learners who are deaf, hard-of-hearing, or deaf with special needs.

2. Interview with a faculty member in the Department of Communicative Disorders.

3. American Sign Language proficiency at the intermediate level or higher as assessed by an SDSU-ASL proficiency interview.

4. Passing scores on the MSAT and RICA.
Program Requirements:

1. Coursework selected from the Departments of Communicative Disorders, Policy Studies in Language and Cross-Cultural Education, and Special Education.
2. A minimum of 200 hours of supervised clinical practica.
3. A minimum of 300 hours of supervised student teaching in special day and residential school settings.

The credential program involves a total of 56 units. The following courses are required:

Core courses: Communicative Disorders 550; Policy Studies in Language and Cross-Cultural Education 600; Special Education 500, 501, 502.

Pedagogy courses: Communicative Disorders 655, 657, 668; Policy Studies in Language and Cross-Cultural Education 601, 650, 651.

Clinical-Rehabilitative Services Credential (Credential Code: 00900)

The Clinical-Rehabilitative Services Credential has three options: Language, Speech and Hearing (LSH); Audiology; and Language, Speech and Hearing including the Special Class Authorization (SCA). Students desiring to work with pupils with speech, language, and hearing impairments on an itinerant or pull-out basis must complete the Clinical-Rehabilitative Services (C-RS) Credential for Language, Speech and Hearing (LSH). Students who wish to be school audiologists must complete the Clinical-Rehabilitative Services Credential for Audiology. Students who plan to teach in the classroom under the Special Day Authorization must complete a program of education courses and experiences in addition to completing the requirements for the LSH option.

A master’s degree in communicative disorders is required of all candidates graduating with a C-RS credential.

Candidates for C-RS credential in Language, Speech and Hearing (LSH) or Audiology (A) must complete the requirements for the Certificate of Clinical Competence (CCC) from the American Speech-Language-Hearing Association and the requirements of California licensure in Language and Speech and/or Audiology. See sections on Credentials and Licensure.

Admission Requirements:

1. Formal application to San Diego State University and to the Department of Communicative Disorders. All applicants for the credential must satisfy the admission requirements of the university and of the department for classified graduate standing and be recommended by the department for admission to the credential program.
2. California Basic Education Skills Test (CBEST) results.
3. Interview with the coordinator of the specific credential option (Language, Speech, and Hearing; Audiology; Special Class Authorization).

Program Requirements:

The program of professional preparation for the C-RS Credential in Language and Speech or Audiology requires a minimum of 75 semester credit hours, including a minimum of 27 semester credit hours in basic sciences and a minimum of 36 semester credit hours in professional coursework. At least 30 of the 36 semester credit hours must be in courses for which graduate credit is received, and at least 21 of the 30 graduate semester credit hours must be in the professional area for which the credential is sought. The candidate must complete a minimum of 25 supervised observation hours and 350 clinical contact hours including 50 clock hours in each of three types of clinical setting. This credential also requires that a minimum of 100 clock hours be completed in the school setting. See the section on Certificates and the Credential Coordinator for additional information.

C-RS Language, Speech and Hearing

The following courses are required: Communicative Disorders 106, 107, 110, 115, 205, 300, 320, 321, 322, 324, 340L, 501, 505, 511, 512, 513, 517, 525, 526, 539, 541, 546, 613 or 614, 618, 521 (child screening) or 619 or 676, 601 or 654, 626 or 627, 630, 671 or 673, 675, 929 and 933A. Courses from other departments include Child and Family Development 270 and 270L, 570, 670, or appropriate experience; Physics 201; Psychology 101 or Sociology 101; Psychology 230, 260; Special Education 500; and Linguistics 452.

C-RS Audiology

The following courses are required: Communicative Disorders 106, 110, 115, 205, 300, 320, 321, 322, 340L, 511, 512, 513, 517, 521, 525, 541, 542, 545, 546, 550, 610, 611, 627, 630, 644, 645, 646, 647 or 658, 648, 668, 671 or 673, 675, 696, 929 and 933 (audiology placement). Courses from other departments include Child and Family Development 270 and 270L or 697 or appropriate experience; Linguistics 452; Public Health 734; Physics 201; Psychology 101 or Sociology 101; Psychology 230, 260; and Special Education 500.

C-RS Language, Speech and Hearing including Special Class Authorization

Program Requirements:

1. A current Clinical Rehabilitative Services Credential in Language and Speech or an earlier California credential that authorizes the provision of itinerant speech-language services in public schools.
2. Verification of subject matter competence prior to advancement to fulltime daily teaching responsibilities.
3. Demonstration of knowledge of alternative methods of developing English language skills.
4. Satisfaction of the Level I core requirements for the Special Education Specialist credentials.
5. Completion of a minimum of 100 hours of teaching in a Communicatively Handicapped course.

The following courses are required: Communicative Disorders 655, 929, 933B, Special Education 501, Teacher Education 526, 610A, 630, 637, 910A, 930.

Certificates and Licensure

Preparation Leading to the Certificate of Clinical Competence from the American Speech-Language Hearing Association

Students may complete the academic and clinical practice requirements leading to the Certificate of Clinical Competence in Speech-Language Pathology (CCC-Sp) or to the Certificate of Clinical Competence in Audiology (CCC-A) given by the American Speech-Language-Hearing Association (ASHA). The certificate requires a master’s degree and 75 semester units (at least 27 of the 75 semester units must be in basic science coursework, and at least 36 of the 75 semester units must be in professional coursework). At least 30 of the 36 professional coursework units
must be in courses for which graduate credit was received. A minimum of 21 of the 30 units must be completed at the graduate level in the professional area for which the certificate is sought. The certificate requires 375 clock hours of supervised clinical observation (250 hours) and clinical practicum (350 hours), and at least 250 or the 350 clock hours must be in the professional area for which the certificate is sought while the applicant is engaged in graduate study. Clock hours must satisfy designated categories for age span, types of disorders, assessment and intervention. The applicant must pass a national examination in the area for which the certificate is sought and complete a Clinical Fellowship (following approval of academic coursework and clinical practice). Consult an adviser in the area in which certificate is desired.

Preparation Leading to the Professional Certificate from the Council on Education of the Deaf

Students may complete the academic and practice requirements leading to the Professional Certificate given by the Council on Education of the Deaf. The Professional Certificate requires a specific pattern of courses and teaching experiences. Consult an adviser in the Program for Education of the Deaf for more information.

Preparation Leading to State Licensure in Speech Pathology or Audiology

Students may complete the academic and clinical practicum requirements leading to California State Licensure in Speech Pathology or in Audiology, a legal requirement for all individuals professionally employed in non-public school settings and some public school settings. The Speech Pathology and Audiology Examining Committee which operates within the California State Board of Medical Quality Assurance requires a master’s degree or equivalent in communicative disorders in the area (Speech Pathology or Audiology) in which the license is to be granted, 300 clock hours of supervised clinical experience, a national examination, and nine months of full-time supervised work experience (Required Professional Experience). Most Licensure and ASHA Certification requirements may be fulfilled concurrently. Consult an adviser in the area in which licensure is desired for specific information.

Liability Insurance

Students enrolled in Communicative Disorders 340L, 357, 525, 526, 541, 545, 546, 556, 626, 627, 645, 646, 656, 676, 933, 953 are required to purchase professional liability insurance.

Early Intervention Certificate

The Early Intervention Certificate is designed to prepare speech-language pathologists to work with infants, toddlers, preschoolers, and their families. The certificate program is appropriate for graduate students in communicative disorders who wish to specialize in early intervention practice. The number of persons admitted to the program each year may be limited.

Candidates for the certificate must be enrolled in or have completed the communicative disorders graduate degree program with a concentration in speech-language pathology. To be admitted into the certificate program and to be eligible for a certificate of completion, the student must obtain an approved plan of study from the department’s Early Intervention Certificate coordinator and apply to the Graduate Division. Upon completion of requirements for the certificate program, the student must submit to the Graduate Division a certificate completion form signed by the department chair.

The certificate program requires completion of 14 units, including 10 units of substantive coursework, one unit of independent study (CDIS 798) to obtain preclinic observation hours (25 hours), and three units of clinic courses (75 hours of patient contact). The practica hours obtained for the Early Intervention Certificate are applicable to the minimum needed for professional licensure and national certification.

CDIS 650 Interdisciplinary Field Education Seminar (1)

CVD 570 Infant/Toddler Development (3)

SPED 528 Early Intervention for Infants and Young Children with Disabilities and Their Families (3)

Elective selected from 600-700 level courses with approval from Certificate Coordinator (3)

CDIS 798 Observations of Speech-Language Pathologists Working with Infants, Toddlers, and Preschoolers (1)

CDIS 521/526/626 or 619/627 (3) Clinic courses providing 75 hours of practica with infants, toddlers, and preschoolers.

The clinic courses require eligibility for clinic and approval by the Clinic Director of Speech-Language Pathology similar to all clinic assignments. The student must meet with the Clinic Director of Speech-Language Pathology to work out clinic assignments appropriate for the Early Intervention Certificate. With approval of the graduate adviser, a student may apply up to three units of communicative disorders coursework from the certificate program toward a master’s degree in communicative disorders.

Professional Services

Bilingual/Multicultural Certificate

The Professional Services Bilingual/Multicultural Certificate in Communicative Disorders is designed primarily for persons who plan to work with bilingual populations with communicative disorders.

To be a candidate for the certificate, the student must be actively seeking or have completed a credential or degree program in communicative disorders since the certificate is coordinated with these endeavors. Candidates seeking admission to the certificate program must present acceptable GRE scores and schedule an interview with the departmental certificate coordinator to ascertain specific requirements and units. They must demonstrate a proficiency in two languages (English and one other) and satisfy admission requirements of the University and the department as listed in the Graduate Bulletin. The certificate is limited to those languages for which there is an available clinical population. Consult the certificate coordinator for approved languages.

The certificate program requires completion of 13 units including nine units of substantive coursework and four units of graduate practicum with the targeted bilingual/multicultural population. The certificate is competency based and up to three units of specific requirements may be waived upon demonstration of competency. Course requirements include Communicative Disorders 671, 672, and 673. Audiology and Deaf Education students may take Communicative Disorders 668 in lieu of any of the required courses. Students interested in a target language other than Spanish or English may select Communicative Disorders 668 or 798 with permission from the certificate coordinator.

With the approval of the department, a student may apply no more than three units of coursework from the certificate program toward a master’s degree.
Courses Acceptable on Master’s and Doctoral Degree Programs in the Department of Communicative Disorders

UPPER DIVISION COURSES

501. Voice Disorders: Children (3)
Two lectures and three hours of laboratory.
Prerequisite: Communicative Disorders 321.
Theory and practice in the remediation of voice disorders. Laboratory involves measurements of vocal dimensions and perceptual training for diagnosis and remediation of voice disorders.

505. Remediation for Fluency Disorders in School-Aged Children (3)
Prerequisite: Communicative Disorders 322.
Theoretical and phenomenological understanding of stuttering as a communicative disorder; explanations for learning of dysfluent behaviors; applied techniques in rehabilitation for school-aged children with dysfluent speech.

511. Pediatric Aural Rehabilitation (3)
Prerequisites: Communicative Disorders 320, 323, and 340.
Recommended: Communicative Disorders 300, 357, and 513.
Theoretical, methodological, and technical issues related to facilitating receptive and expressive communication in individuals who are deaf or hard-of-hearing. Emphasizes multidisciplinary case management of children.

512. Phonological Disorders and Methods (3)
Prerequisite: Communicative Disorders 320.
Theories and research in analysis and remediation of phonologically disordered systems. Emphasis on linguistics, language universals, and developmental norms.

513. Language Disorders and Methods (3)
Prerequisites: Communicative Disorders 300, 320, 321, 340, and Linguistics 452.
Language development, delay, and disorders as they relate to theory and clinical practice. Methods of assessment and intervention of language impairments and differences in hearing and deaf children.

517. Diagnostic Methods in Speech-Language Assessment (3)
Two lectures and two hours of educational activities.
Prerequisites: Credit or concurrent registration in Communicative Disorders 512, 513, and Linguistics 452.
Principles and procedures for culturally relevant assessment of communication disorders in children and adults. Ethnographic interviewing; formal, informal and unbiased testing; clinical reporting. Practice with selected methods and tools. Four to eight hours observation of diagnostic practicum required.

521. Child Screening Evaluations in Speech-Language Pathology (1)
Three hours of laboratory screening per week.
Prerequisites: Communicative Disorders 512, 513, 517, and clinic clearance. Communicative Disorders 513 is not required for audiology students.
Screening evaluations of speech and language of children.

522. Adult Screening Evaluations in Speech-Language Pathology (1) Cr/NC
Three hours of laboratory screenings per week.
Prerequisites: Communicative Disorders 517, 539, and clinic clearance.
Screening evaluations of speech and language of adults.

525. Introductory Clinical Practice (1)
Eight hours of orientation; thereafter two hours of practicum and one hour of staffing per week.
Prerequisites: Grade point average of 2.75 or better in Communicative Disorders 300, 320, 321, 340, 512, 513, 517, and Linguistics 452.
Orientation to clinic, supervised observation, and practicum with representative speech and language problems.

526. Clinical Practice in Speech-Language Pathology (1-2)
Two hours of practicum and one hour of staffing.
Prerequisite: Grade of C or better in Communicative Disorders 525.
Supervised practice with representative speech and language problems. Up to two units may be taken concurrently; maximum credit two units. Qualified transfer students must enroll in at least one unit of 526 prior to 626.

539. Neuropathologies of Speech and Language (3)
Prerequisites: Communicative Disorders 321 and Linguistics 452.
Research and theory concerning nature, etiologies, and principles of treatment of disorders of speech and language resulting from pathologies of the nervous system.

540. Hearing Conservation and Audiometry for School Nurses (3)
Prerequisite: Registered nurse.
Builds on registered nurse’s knowledge of anatomy, physiology, and medical-surgical treatment of disease as it relates to auditory mechanism. Designed to give background in hearing screening (pure tone and impedance) and awareness of ramifications of hearing loss in children necessary for referral and follow-up. Fulfills three-unit requirement for the School Nurse Credential and may be used toward the six-unit State Audiometric Certificate requirement. Not open to students with credit in Communicative Disorders 205, 340, 340L.

541. Hearing Screening of Children (1) Cr/NC
Three hours of laboratory screening per week.
Prerequisites: Communicative Disorders 340 and 340L.
Field experiences in audiometric and impedance screening of children to obtain contact hours in screening required by American Speech-Language-Hearing Association, California License, and Clinical-Rehabilitative Services credential.

542. Diagnostic Audiology I (3)
Two lectures and two hours of activity.
Prerequisite: Communicative Disorders 340L.
Pure tone and speech audiometry; masking; immittance tests, reporting test results, audiometer calibration. Activity immediately following lecture, to obtain experience with audiometric and immittance test equipment.
545. Clinical Practice in Audiologic Assessment (1-3)
Two hours of evaluation and one hour of staffing.
Prerequisite: Grade of C or better in Communicative Disorders 542.
Supervised practicum with pure tone, speech, immittance, and special audiologic testing. One unit represents two hours of clinical contact and one hour of staffing per week. Maximum credit three units.

546. Clinical Practice with Aural Rehabilitation (1)
Two hours of therapy and one hour of staffing.
Prerequisites: Grade of C or better in Communicative Disorders 511 and a minimum of two units in Communicative Disorders 525, 526, and/or 545.
 Supervised practicum in aural rehabilitation. One unit represents two hours of clinical contact and one hour of staffing per week.

550. Education of Deaf Children and Youth (3)
Prerequisite: Communicative Disorders 350.
Educational programs, services and resources for learners who are deaf; historical background, philosophy, sociological and psychological problems.

556. Clinical Practice with the Deaf (1)
Prerequisites: Communicative Disorders 159, 357; credit in two of the following and concurrent registration in the third: Communicative Disorders 511, 513, 562. Admission to clinical practicum includes successful completion of competency examination.
Supervised therapy with representative problems found in the hearing impaired population. Maximum one unit first semester; maximum credit two units.

562. Oral Communication for Deaf and Hard-of-Hearing Children (3)
Prerequisite: Communicative Disorders 550.
Current methods for developing oral/aural communication skills with learners who are deaf or hard-of-hearing and youth. Differential problems of acquisition of communicative competence. Assessment and intervention procedures for classroom and clinical settings.

570. Dysphagia (3)
Prerequisite: Communicative Disorders 539.
Measurement techniques and research in dysphagia. Assessment and treatment of dysphagia and swallowing problems in children and adults. (Formerly numbered Communicative Disorders 609.)

580. Communication Problems of the Aging (3)
Prerequisites: Twelve upper division units in an appropriate major.
Normal communication processes and aging, including memory and cognition for speech and language, and physiological changes; speech and language pathologies; hearing problems and rehabilitation, including hearing aids, psychosocial aspects of communication, including family dynamics; and resources available within the community. Open to majors and nonmajors.

595. Research Practicum (1-3)
Prerequisites: Consent of instructor and approval of department chair.
Participation in a specific research activity under faculty supervision. Maximum combined credit of six units of Communicative Disorders 595 and 795.

596. Selected Topics in Communicative Disorders and Science (1-4)
Prerequisite: Twelve units in communicative disorders and science courses.
Specialized study of selected topics from the area of speech-language pathology, audiology, education of the hearing impaired, and speech and hearing science. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596. Maximum credit of three units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Research and Bibliography (3)
Prerequisites: Undergraduate major or equivalent in communicative disorders or communicative sciences; Psychology 270 or another appropriate statistics course.
Bibliographic techniques. Methods and exposition of research in the fields of speech pathology, audiology, deaf education and speech and hearing sciences. Recommended for the first semester of graduate work.

601. Seminar in Speech and Hearing Science (3)
Prerequisite: Classified graduate standing.
Instrumentation and measurement techniques in communicative disorders and sciences. Techniques applied to the specific clinical and research areas of speech, hearing and language.

602. Adult Language Disorders (3)
Prerequisite: Communicative Disorders 539. Recommended: Communicative Disorders 300 and 513.
Research in diagnosis and therapy for adults with disorders of symbolization and syntax.

603. Seminar in Neurophysiologically Based Communication Disorders (3)
Prerequisites: Communicative Disorders 539 and 50 hours of clinical practicum. Recommended: Second year graduate level standing.
Diagnostic and treatment issues associated with persons with neurological disorders. Application of research to communication disorders across the life span.

604. Seminar in Craniofacial Disorders (3)
Prerequisites: Communicative Disorders 321, 340; and 50 hours of supervised practicum. Recommended: Concurrent registration in Communicative Disorders 626.
Review of research in diagnosis and therapy for persons with cleft palate and other craniofacial disorders.

606. Seminar in Voice Pathology (3)
Prerequisites: Communicative Disorders 321 and 501. Concurrent registration in Communicative Disorders 626.

607. Theoretical Issues in Phonological Disorders (3)
Prerequisites: Communicative Disorders 512, 517, 526. Recommended: Concurrent registration in Communicative Disorders 626.
Applications of theoretical frameworks of phonology and procedures for evaluation and remediation of unintelligible speech patterns in children.
608. Motor Speech Disorders (3)
Prerequisite: Communicative Disorders 539.
Dysarthria and apraxia of speech. Techniques of differential
diagnosis and treatment of these motor speech disorders.

610. Hearing Amplification (3)
Prerequisites: Communicative Disorders 340 and 542.
Hearing aid components, functions, electroacoustic analyses,
selection, verification techniques, orientation, follow-up, and trou­blesooting.

611. Adult Aural Rehabilitation (3)
Prerequisite: Communicative Disorders 542.
Theoretical, methodological, and technological issues related
to aural rehabilitation. Emphasizes adults case management.

613. Child Language Disorders (3)
Prerequisites: Communicative Disorders 517 and 525 or 526.
Major theories of language development with focus on early lan­
guage development, development of evaluation and procedures,
and cross-cultural phenomena in assessment and intervention.

614. School Age Children Language Development
and Disorders (3)
Prerequisite: Communicative Disorders 526.
Contrastive study of normal and disordered language develop­
ment in children five years through adolescence, including syntax,
semantics, pragmatics, figurative language and metalinguistics.
Integration of assessment and intervention for language disorders
and associated speech and language based reading and writing dis­
orders.

618. Diagnostic Practicum in Speech-Language
Pathology (3)
Six hours of supervision.
Prerequisites: Communicative Disorders 517, 525, and con­
sent of instructor.
Supervised clinical practice in diagnostic methods.

619. Diagnostic Practicum in Communicative
Disorders: Multidisciplinary Assessment (1)
Six hours of supervision.
Prerequisites: Grade of C or better in Communicative Disor­
ders 517. Credit or concurrent registration in Communicative Disor­
ders 526.
Participation in central intake process of SDSU Interdiscipli­
inary Center for Health and Human Services, including diagnos­
tic team assessments and staffings.

620. Seminar in Amplification Research and
Technology (3)
Prerequisites: Graduate standing, Communicative Disorders
610, credit or concurrent registration in Communicative Disor­
ders 645.
Critical evaluation of research in amplification, advances in
hearing aid analysis techniques, selection and verification tech­
niques, hearing aid signal processing strategies, and programma­
table technology.

626. Advanced Clinical Practice in Speech-Language
Pathology (1-3)
Three hours of supervision per unit.
Prerequisites: Communicative Disorders 340, 526, and departmen­tal approval.
Supervised work with representative advanced speech and
language disabilities. Twenty-six hours of practicum required per
unit. Up to three units may be taken concurrently.

627. Advanced Field Clinical Practice in Speech-
Language-Pathology and Audiology (1-3) Cr/NC
Three hours of laboratory per unit.
Prerequisite: Communicative Disorders 626.
Supervised practice with speech-language-hearing problems
in off-campus settings. One unit represents 26 hours of direct
clinical practice. Up to three units may be taken concurrently.

630. Family Communication Dynamics (3)
Prerequisites: Communicative Disorders 322 and 526.
Communication environment in the home. Parent-child inter­
action in relation to origin and alleviation of functional and
organic speech disorders.

640. Psychoacoustics (3)
Prerequisite: Communicative Disorders 542.
Psychophysical concepts underlying clinical audiology. Over­
view of psychoacoustic abilities in individuals with normal hear­
ing and sensorineural hearing loss.

643. Auditory Physiology and Otoacoustic
Emissions (3)
Prerequisite: Communicative Disorders 542.
Supervised practicum with pure tone, speech, immittance,
and special audiologic testing. One unit represents two hours of
clinical contact and one hour of staffing per week.

646. Advanced Clinical Practice in Aural
Rehabilitation (1) Cr/NC
Two hours of therapy and one hour of methods.
Prerequisites: Minimum of two units in Communicative Disor­
ders 525, 526, 645. 626 or 643. Recommended: Credit or con­
current registration in Communicative Disorders 610.
Supervised practicum with representative cases requiring
advanced preparation in aural rehabilitation.

647. Auditory Evoked Potentials and
Electronystagmography (3)
Prerequisite: Graduate standing.
Theoretical and practical aspects of auditory evoked poten­
tials, e.g., ABR, MLR, late potentials, and electronystagmogra­
phy (ENG).

648. Pediatric Audiology (3)
Prerequisite: Communicative Disorders 542.
Audiological assessment techniques for infants and young chil­
dren. Embryology of auditory system; development of auditory
behavior.

650. Interdisciplinary Field Education
Seminar (1) Cr/NC
Prerequisites: Admission to the Early Intervention Certificate
program and enrolled in field practica.
Discussion of various problems and skills associated with pro­
vision of services for 0-5 years old. Emphasis on how to work
with a culturally and linguistically diverse caseload.
653. Vestibular Physiology, Assessment, and Rehabilitation (3)
Prerequisite: Graduate standing.
Physiology of peripheral and central pathways associated with balance. Mechanisms underlying normal and clinical populations. Methodology and interpretation of balance system assessment, including ENG, posturography, and rotational chair. Approaches to rehabilitation strategies for persons with balance disorders.

654. Seminar in Physiological Phonetics (3)
Prerequisite: Communicative Disorders 512.
Physiology underlying the production of continuous speech, including transitional movements, based on a syllabic concept.

655. Curriculum for the Communicatively Handicapped (3)
Prerequisites: Communicative Disorders 513 and 556.
Application of cognitive processing theory to development and evaluation of curriculum, materials, and procedures; selection of learning modalities and appropriate modification of curriculum.

656. Advanced Clinical Practice with the Deaf (1) Cr/NC
Three hours of laboratory.
Prerequisite: Communicative Disorders 556.
Supervised clinic practicum at an advanced level with representative deaf cases. Maximum two units per semester; maximum credit four units.

657. Assessment of Learners Who are Deaf or Hard-of-Hearing (3)
Prerequisite: Communicative Disorders 556.
Diagnosis of multiple-handicapped, hearing impaired children; including clinical teaching, critical overview of assessment methods, materials and equipment, prognosis, current philosophies and trends.

658. Seminar in Deafness (3)
Prerequisites: Communicative Disorders 550 and 556.
Problems of deafness, evaluation of research, interdisciplinary approach to aural habilitation. Offered every other year. See Class Schedule for specific content and semester offered.

659. Seminar in Education of Deaf-Blind Children and Youth (3)
Prerequisite: Communicative Disorders 656.
Interdisciplinary approach to education of deaf-blind children and youth. Development of communicative competence. Offered in alternate years. See Class Schedule for specific content and semester offered.

660. Multicultural Issues in Deafness (3)
Prerequisite: Communicative Disorders 350 or equivalent experience.
Review and analysis of research in multicultural lifespan communication processes in deaf individuals. Emphasis on communication needs in health care, education, and informal social settings. (Formerly numbered Communicative Disorders 568.)

670. Seminar in Professional Issues in Communicative Disorders (3)
Prerequisite: Graduate standing.
Ethical and legal issues, practice standards, employment and business consideration (including hearing aid dispensing), supervision, and private practice.

671. Assessing the Bilingual Child with Communicative Disorders (3)
Prerequisite: Communicative Disorders 300.
Assessment procedures applicable for bilingual child with communicative disorders. Consideration of available instruments, appropriateness for target populations and validity of adaptations.

672. Seminar in Remediation of Communicative Disorders in the Bilingual Population (3)
Prerequisite: Communicative Disorders 671.
Intervention strategies and procedures for bilingual individuals with communicative disorders. Selection criteria, factors influencing planning, program models and specific procedures for different ethnic groups and types of communicative disorders.

673. Seminar in Communicative Disorders in Bilingual Spanish-English Children (3)
Prerequisites: Communicative Disorders 300 and demonstrated Spanish language competence.

675. Augmentative Communication (3)
Prerequisites: Communicative Disorders 300 and 526 or 546.
Alternative and augmentative approaches, strategies and technology for individuals with severe communication impairments. Assessment and intervention. Project required.

676. Assistive Device Assessment Program for Communicatively Handicapped (2)
Prerequisite: Communicative Disorders 618.
Assessment of communication skills of disabled individuals, environmental needs and appropriateness of augmentative communication aids. Remediation recommendations. Maximum credit four units.

696. Selected Topics in Communicative Disorders and Sciences (1-3)
Prerequisite: Graduate standing.
Intensive study in specific areas of audiology, education of hearing impaired, speech and hearing science, and speech-language pathology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

790. Seminar in Foundations of Language Science (3)
Prerequisite: Consent of instructor.
Current issues, theory, and research concerning language representation and processing. Emphasis on bringing evidence from linguistics, cognitive psychology, philosophy, psycholinguistics, neuropsychology, and speech-language pathology to bear on theories of human language processing.

791. Seminar in Multilingualism: Communicative Disorders Perspective (3)
Prerequisite: Consent of instructor.
Study of language in linguistically diverse populations from perspective of communicative disorders; second language acquisition, bilingual language processing, signed languages, ethno­graphic methods, cross-cultural research, and neurological bases of communication in diverse populations.
792. Seminar in Disorders of Language and Cognition/Adult (3)
Prerequisite: Consent of instructor.
Current topics in cognitive sciences, psychology, psycholinguistics, communicative disorders, and neuropsychology, as they relate to theories of language and cognitive breakdown in aphasia and other neurological deficits in adults.

793. Seminar in Disorders of Language and Cognition/Children (3)
Prerequisite: Consent of instructor.
Language impairment in children, including primary versus secondary language impairment, modular versus processing explanations, relationships between language and cognition, as well as disassociations of development across different populations.

794. Seminar in Language Disorders in Multilingual Populations (3)
Prerequisite: Consent of instructor.
Language disorders in linguistically diverse populations. Disorders of phonological, morphological, syntactic, and semantic aspects of target languages and their clinical implications.

795. Advanced Research Practicum (3)
Prerequisites: Consent of instructor and approval of department chair.
Participation in a specific research activity under faculty supervision. Maximum combined credit of six units of Communicative Disorders 595 and 795.

797. Research (1-3) Cr/NC/SP
Prerequisites: Communicative Disorders 600 and consent of supervisor, to be arranged with department chair.
Research in speech-language pathology, deaf education or audiology. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisites: Communicative Disorders 600 and consent of staff, to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee, advancement to candidacy, and Communicative Disorders 795 or 798.
Preparation of a project or thesis for the master's degree. Participation in the department's professional development seminar is required unless waived by the coordinator of the graduate program.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval. Participation in the department's professional development seminar is required unless waived by the coordinator of the graduate program.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Individual investigation to the general field of the dissertation.

898. Doctoral Special Study (1-8) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Individual study in the field of specialization. Maximum credit eight units applicable to the doctoral degree.

899. Doctoral Dissertation (1-15) Cr/NC/SP
Prerequisites: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

929. Orientation to Public School Practicum (1)
Prerequisites: Communicative Disorders 517. Minimum of 100 hours of supervised clinical practicum and departmental approval. Concurrent registration in Communicative Disorders 933 or 953.
Goals, materials and procedures for organizing and administering speech, language and hearing programs in the school.

933. Clinical Practice in Public Schools (4 or 5) Cr/NC
Prerequisites: Communicative Disorders 614 (not audiology students). Credit or concurrent registration in Communicative Disorders 929; four units of practica; postbaccalaureate standing; California Basic Education Skills Test; Certificate of Clearance; departmental approval prior to admission.
Clinical practice in elementary or secondary schools or community colleges in speech-language pathology or audiology. Applies only toward the Clinical-Rehabilitative Services Credential (C-RS) or for the Certificate of Clinical Competency in Speech-Language Pathology (ASHA). Enroll in Communicative Disorders 933A for the Language, Speech and Hearing Credential (LSH). Candidates seeking the Special Class Authorization or Severe Language Handicap (SLH) Credential must enroll in both sections Communicative Disorders 933A and 933B, sequentially or concurrently.

A. Clinical Practice in the Public Schools: Language, Speech and Hearing, 4 units (120 clock hours).
B. Clinical Practice in the Public Schools: Severe Language Handicaps, 5 units (150 clock hours).

953. Directed Internship: Communication Handicapped (1-4) Cr/NC
Prerequisites: Communicative Disorders 655, 657, 658, 668, and two units of 656. ASL fluency evaluation required prior to enrollment.
Supervised student teaching in schools and special day classes with learners who are deaf, hard-of-hearing, or deaf with special needs. Practicum meets standards of California Commission on Teacher Credentialing and National Council on Education Council on Education of the Deaf.

Computational Science Committee

José E. Castillo, Ph.D., Associate Professor of Mathematical and Computer Sciences, Program Director
Steven M. Day, Ph.D., Professor of Geological Sciences, The Rollin and Caroline Eckis Chair in Seismology
Terrence G. Frey, Ph.D., Professor of Biology
Fredric J. Harris, M.S.E.E., Professor of Electrical and Computer Engineering
Joseph Katz, D.Sc., Professor of Aerospace Engineering and Engineering Mechanics
Joseph M. Mahaffy, Ph.D., Professor of Mathematical and Computer Sciences
Paul J. Paolini, Jr., Ph.D., Professor of Biology and Associate Dean, College of Sciences
Allen Plotkin, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Robert S. Pozos, Ph.D., Professor of Biology and Assistant Dean, College of Sciences
Peter Salamon, Ph.D., Professor of Mathematical and Computer Sciences
Herbert B. Shore, Ph.D., Professor of Physics
Donald R. Short, Jr., Ph.D., Professor of Mathematical and Computer Sciences

Kris Stewart, Ph.D., Professor of Mathematical and Computer Sciences
Marko I. Vuskovic, Ph.D., Professor of Mathematical and Computer Sciences
Eric G. Frost, Ph.D., Associate Professor of Geological Sciences
Colleen Kelly, Ph.D., Associate Professor of Mathematical and Computer Sciences
Anca Mara Segall, Ph.D., Associate Professor of Biology
Kathryn W. Thorbjornarson, Ph.D., Associate Professor of Geological Sciences
Arlette R.C. Baljon, Ph.D., Assistant Professor of Physics
Massimo Boninsegni, Ph.D., Assistant Professor of Physics
Andrew L. Cooksy, Ph.D., Assistant Professor of Chemistry
Douglas H. Deutschman, Ph.D., Assistant Professor of Biology
Thomas J. Impelluso, Ph.D., Assistant Professor of Mechanical Engineering
Antonio Palacios, Ph.D., Assistant Professor of Mathematical and Computer Sciences
Eric L. Sandquist, Ph.D., Assistant Professor of Astronomy
William A. Root, Staff Scientist in Mathematical and Computer Sciences
Rozanne Steckler, Adjunct Professor of Chemistry

Associateships
Graduate teaching associateships and graduate nonteaching associateships may be available from the individual departments. See the appropriate department of this bulletin for more information.

General Information
The computational science program offers a Master of Science degree. It is offered in collaboration with the Departments of Biology, Chemistry, Geological Science, Mathematical and Computer Sciences, and Physics, in the College of Sciences.

Graduates of this program will have a solid foundation in a field of science and the additional training and experience required of computational science professionals. Fundamental science, in one of the specializations, dominates the program. This is supplemented with additional courses in computational science. Real scientific problem-solving is emphasized, through a thesis that could be done in conjunction with a carefully managed extramural research program. A significant proportion of the students in this program will be employed in positions related to their area of studies, thereby providing opportunities for extramural support. Graduates will be prepared for positions in scientific research, scientific programming, and software engineering.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. If the undergraduate preparation of the students in the desired specialization is deficient, they will be required to take courses for the removal of the deficiency. These courses, taken by students as a classified graduate student, are in addition to the minimum 30 units required for the master’s degree. A complete student program must be approved by the computational science program director. The requirements for entering this program consist of one year of computer programming (e.g., C or Fortran), competence in linear algebra and calculus, and a background equivalent to a bachelor’s degree in the area of interest.

120
In addition to submitting an application to the University, students interested in this program are required to 1) Arrange for a letter of recommendation to be sent to the Computational Science Program Director and 2) Submit to the Computational Science Program Director a personal statement, motivating their interest for the program and briefly describing their research interests and educational goals.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree
(Major Code: 07992)
In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student must also complete a graduate program of 30 units, of which at least 15 units must be in 600- and 700-level courses excluding 797, 798, and 799A to include:

1. Twelve units selected from:
   - Computer Science 503. Scientific Database Techniques (3)
   - Computer Science 689. Scientific Visualization (3)
   - Mathematics 536. Mathematical Modeling (3)
   - Mathematics 693A. Advanced Numerical Analysis (3)
   - Mathematics 693B. Advanced Numerical Analysis (3)
2. Six units of approved 500-, 600-, or 700-level courses in disciplines related to the student's specialization but outside the Department of Mathematical and Computer Sciences.
3. Six units of approved 500-, 600-, or 700-level electives.
4. Six units of research including Thesis, 797 and 799.

A complete student program must be approved by the computational science program director. The requirements for entering this program consists of one year of computer programming in a programming language such as C or Fortran, competence in linear algebra and calculus, with background equivalent to a bachelor's degree in the area of interest.

Courses Acceptable on Master's Degree Program in Computational Science

UPPER DIVISION COURSE

596. Advanced Topics in Computational Science (1-4)
Prerequisite: Consent of instructor.
Advanced special topics in computational science. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

600. Seminar (1-3)
Prerequisite: Consent of instructor.
An intensive study in advanced computational science. May be repeated with new content. Topic to be announced in the Class Schedule. Maximum credit six units applicable to a master's degree.

696. Selected Topics in Computational Science (3)
Prerequisite: Graduate standing.
Intensive study in specific areas of computational science. See Class Schedule for specific content. Maximum combined credit of six units of 595 and 696 applicable to a 30-unit master's degree.

797. Research (1-3) Cr/NC/SP
Prerequisite: Six units of graduate level computational science courses.
Research in computational science. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with program director and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

In the Department of Mathematical and Computer Sciences
In the College of Sciences

Faculty
John D. Elwin, Ph.D., Professor of Mathematical and Computer Sciences, Chair of Department
Kasi Anantha, Ph.D., Professor of Mathematical and Computer Sciences
Sara Baase-Mayers, Ph.D., Professor of Mathematical and Computer Sciences
Leland L. Beck, Ph.D., Professor of Mathematical and Computer Sciences
John L. Carroll, Ph.D., Professor of Mathematical and Computer Sciences
John D. Donald, Ph.D., Professor of Mathematical and Computer Sciences
Nenad Marovac, Ph.D., Professor of Mathematical and Computer Sciences
Kris W. Stewart, Ph.D., Professor of Mathematical and Computer Sciences
Roman W. Swiniarski, Ph.D., Professor of Mathematical and Computer Sciences
Mahmoud Tarokh, Ph.D., Professor of Mathematical and Computer Sciences
Marko I. Vuskovic, Ph.D., Professor of Mathematical and Computer Sciences
Carl F. Eckberg, Ph.D., Associate Professor of Mathematical and Computer Sciences (M.S. Computer Science Graduate Adviser)
Vernor S. Vinge, Ph.D., Associate Professor of Mathematical and Computer Sciences
Roger E. Whitney, Ph.D., Associate Professor of Mathematical and Computer Sciences
William A. Root, M.S., Staff Scientist

Associateships
Graduate teaching associateships in computer science are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the Department of Mathematical and Computer Sciences.

General Information
The Department of Mathematical and Computer Sciences offers graduate study leading to the Master of Science degree in computer science. The areas in which courses are offered include software, systems, architecture, artificial intelligence, and computer science theory.

Master's level research projects are available in the following areas of computer science: distributed systems, multiprocessing, operating systems, graphics, neural networks, formal languages, numerical methods, robotics, signal processing, and computational complexity. Specialized laboratories exist for microprocessor architecture, graphics, and robotics and intelligent machines.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must have passed a qualifying examination in their area of research.

Specific Requirements for the Master of Science Degree in Computer Science
(Major Code: 07011)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following departmental requirements:

1. Complete a minimum of 30 units of 500-, 600-, and 700-level courses selected with the approval of the adviser. One to three units of Computer Science 798 may be added to the 30 minimum units required, when used for an internship or practical training. All programs must include at least 24 units chosen from computer science and mathematics. Programs must also satisfy the following requirements:
   a. At least 15 units of graduate (600-700) courses (excluding 797, 798, 799A).
   b. At least one course from each of the following:
      Operating Systems and Architecture: Computer Science 572, 574, 576, 670, 672, 674.
      Applications and Other Topics: Computer Science 514, 550, 551, 552, 553, 555, 556, 557, 558, 559, 561, 566, 580, 635, 650, 651, 656, 700; Mathematics 542, 693A, 693B.
   2. With departmental approval, students may select Plan A (thesis), and must complete 799A in accordance with departmental and University regulations. An oral examination on the subject of the thesis is required. Students selecting Plan B must pass written comprehensive examinations as determined by the department.
Courses Acceptable on Master's Degree Program in Computer Science

UPPER DIVISION COURSES

501. Language Studies (1-3)
Prerequisites: Computer Science 108 and 310.
Syntax and semantics of a high level programming language. Concepts and issues in effectively applying the language. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. Designed for computational science students. Computer science majors must obtain adviser approval.

503. Scientific Database Techniques (3)
Prerequisites: Computer Science 205, 310, and Mathematics 245.
Fundamental data models for handling scientific data, including flat file, indexed compressed files, relational databases, and object oriented databases, and their associated query technologies; e.g. file formats, input/output libraries, string searching, structured query language, object-oriented structured query language, hypertext markup language/common gateway interface, and other specialized interfaces. Designed for computational science students. Computer science majors must obtain adviser approval. See Computer Science 514.

514. Database Theory and Implementation (3)
Prerequisites: Computer Science 310 and Mathematics 245.
Database systems architecture. Storage structures and access techniques. Relational model, relational algebra and calculus, normalization of relations, hierarchical and network models. Current database systems.

520. Advanced Programming Languages (3)
Prerequisites: Computer Science 237, 310, and 320.
Object oriented programming, concurrent programming, logic programming. Implementation issues.

524. Compiler Construction (3)
Prerequisites: Computer Science 237, 310, and 320.

530. Systems Programming (3) I, II
Prerequisites: Computer Science 237 and 310.
Design and implementation of systems software. Relationship between software design and machine architecture. Topics from assemblers, loaders and linkers, macro processors, compilers, debuggers, editors. Introduction to software engineering. Large project required. Not acceptable for the M.S. degree in computer science.

532. Software Engineering (3)
Prerequisites: Computer Science 310 and 320.
Theory and methodology of programming complex computer software. Analysis, design, and implementation of programs. Team projects required.

535. Object-Oriented Programming and Design (3)
Prerequisites: Computer Science 310 and 320.
Basic concepts of object-oriented programming; classes, objects, messages, data abstraction, inheritance, encapsulation. Object-oriented design methodology.

550. Artificial Intelligence (3)
Prerequisites: Computer Science 108 and either Mathematics 245 or 523.

551. User Interface Environments (3)
Prerequisites: Computer Science 310 and 320.
Design of user-machine interfaces in interactive systems. Problems faced by user of an interactive system; basic issues and principles involved in design and implementation of good and friendly user-machine graphical interfaces.

553. Neural Networks (3)
Prerequisites: Computer Science 320 and Mathematics 254.
Principles of neural networks, their theory and applications.

555. Raster Computer Graphics (3)
Prerequisite: Computer Science 551.
Bit map graphics, algorithms to connect between different formats and enhancement of pictures.

556. Robotics: Mathematics, Programming, and Control (3)
Prerequisites: Computer Science 320, Mathematics 254, knowledge of the C programming language.
Robotic systems including manipulators, actuators, sensors, and controllers. Algebraic methods for spatial description of solid objects, manipulator kinematics and control. Robot programming languages and robot programming systems.

557. Computer Control Systems (3)
Prerequisites: Computer Science 310 and Mathematics 254.
Analysis and programming of real-time computer control systems, implementation of digital controllers including programming, intelligent control systems and fuzzy control.

558. Computer Simulation (3)
Prerequisites: Computer Science 310 and Statistics 550.
Methodology of simulation for discrete and continuous dynamic systems. State-of-the-art programming techniques and languages. Statistical aspects of simulation. Students will design, program, execute, and document a simulation of their choice.

559. Computer Vision (3)
Prerequisites: Computer Science 310 and Mathematics 254.
Algorithms and computer methods for processing of images. Visual perception as a computational problem, image formation, characterization of images, feature extraction, regional and edge detection, computer architectures for machine vision.

560. Algorithms and Their Analysis (3) I, II
Prerequisites: Computer Science 310 and Mathematics 245.
Algorithms for solving frequently occurring problems. Analysis techniques, lower bounds. Sorting, merging, graph problems (shortest paths, depth-first and breadth-first search), and others. NP-complete problems. Not acceptable for the M.S. degree in Computer Science.

561. Multimedia Systems (3)
Prerequisite: Computer Science 551.
System aspects of multimedia authoring, browsing, and database subsystem; digital representation for different media; audio and video; operating system support for continuous media applications; architectures; design and implementation of multimedia support systems; use of multimedia technology in software engineering.
562. Automata Theory (3)  
Prerequisite: Mathematics 245 or 521A.  

564. Introduction to Computability (3)  
Prerequisite: Mathematics 245 or 523.  
Definition of algorithm by abstract (Turing) machines. Universal Turing machines. Primitive recursive and recursive functions. The equivalence of the computational power of Turing machines and recursive functions. Limitations and capabilities of computing machines; the halting problem.

566. Queuing Theory (3)  
Prerequisites: Computer Science 108 and Statistics 550.  
Performance prediction of computer networks and other systems (e.g., inventory control, customer service lines) via queuing theory techniques. Use of simulation. Operational analysis.

570. Operating Systems (3) I, II  
Prerequisites: Computer Science 310, 370, and knowledge of the C programming language.  
File systems, processes, CPU scheduling, concurrent programming, memory management, protection. Relationship between the operating system and underlying architecture.

572. Microprocessor Architecture (3)  
Prerequisites: Computer Science 370 and knowledge of the C programming language.  

574. Computer Security (3)  
Prerequisites: Computer Science 310; Mathematics 245; Statistics 550; and credit or concurrent registration in Computer Science 570.  
Principles of computer security and application of principles to operating systems, database systems, and computer networks. Topics include encryption techniques, access controls, and information flow controls.

575. Supercomputing for the Sciences (3)  
Prerequisite: Extensive programming background in Fortran or C.  
Interdisciplinary course, intended for all science and engineering majors. Advanced computing techniques developed for supercomputers. Overview of architecture, software tools, scientific computing and communications. Hands-on experience with CRAY.

576. Computer Networks and Distributed Systems (3)  
Prerequisite: Credit or concurrent registration in Computer Science 570.  
Local area networks and wide area networks; mechanisms for interprocess communication; rules for distribution of data and program functions.

580. Client-Server Programming (3)  
Prerequisites: Computer Science 570 and knowledge of an object-oriented programming language. Recommended: Computer Science 576.  
Client-server model, networking protocols for client-server programs, algorithmic issues in client-server programs, client-server protocols, implementing client-server applications.

596. Advanced Topics in Computer Science (1-4) I, II  
Prerequisite: Consent of instructor.  
Selected topics in computer science. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 596, 496. 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

For additional courses useful to computer scientists, see:  
Mathematics 541. Introduction to Numerical Analysis and Computing  
Mathematics 542. Introduction to Numerical Solutions of Differential Equations  
Mathematics 561. Applied Graph Theory  
Mathematics 579. Combinatorics

GRADUATE COURSES

620A. Formal Languages and Syntactic Analysis I (3)  
Prerequisites: Computer Science 310, 320 or 520, and 562.  
Regular, context-free, context-sensitive, and general grammars. Corresponding machine model recognizers. Chomsky and Greibach normal forms. Closure, decidability and undecidability properties.

620B. Formal Languages and Syntactic Analysis II (3)  
Prerequisite: Computer Science 620A.  
Properties of deterministic context-free languages. Backtrack and matrix based general parsing techniques. LL(k) and LR(k) based parser generators. Precedence grammars.

632. Advanced Software Engineering (3)  
Prerequisite: Computer Science 532.  
Theoretical and practical concepts associated with the specification, design, testing, and maintenance of large software systems. Use of automated tools in engineering such systems.

635. Advanced Object-Oriented Design and Programming (3)  
Prerequisites: Computer Science 535 and knowledge of an object-oriented programming language.  
Advanced topics in object-oriented programming and design, code reuse, building class libraries, quality of objects, coupling, cohesion, design patterns, distributed objects.

650. Seminar in Artificial Intelligence (3)  
Prerequisite: Computer Science 550.  
General problem-solving programs, expert problem solving, game-playing programs, pattern recognition and natural language processing. Understanding vision, manipulation, computer decision. May be repeated with new content with approval of graduate advisor. Maximum credit six units applicable to a master's degree.

651. Advanced Multimedia Systems (3)  
Prerequisite: Computer Science 561.  
System aspects of multimedia authoring, browsing, and database subsystems. Formal models for hypermedia documents. Conversion of flat text into hypertext. Artificial intelligence in hypermedia systems. Architectures, design, and implementation of multimedia support systems. Use of multimedia technology in software engineering.
656. Advanced Robotics (3)  
Prerequisite: Computer Science 556.  
Computer-based techniques for low-, medium-, and high-level robot control including sequential and parallel schemes for robot dynamics, robot programming and robot task planning.

660. Combinatorial Algorithms and Data Structures (3)  
Prerequisite: Computer Science 560.  
Algorithm design techniques. Network flow and matching, Complexity analysis. NP-completeness, reductions among NP-complete problems. Approximation algorithms for NP-complete problems such as the traveling salesman problem.

662. Theory of Parallel Algorithms (3)  
Prerequisites: Computer Science 560 and Mathematics 254.  

664. Theory of Computability (3)  
Prerequisite: Computer Science 562 or 564.  
Turing machines and other formal models of computation. Recursive function theory. The Ackermann function. Solvable and unsolvable problems.

670. Advanced Operating Systems (3)  
Prerequisite: Computer Science 570.  
Survey of advanced operating systems including distributed systems. Associated design issues. Case studies.

672. Microcomputer Software (3)  
Prerequisite: Computer Science 572.  
Design and implementation of a real time operating system for a state-of-the-art microprocessor. Applications of the operating system.

674. Advanced Computer Architecture (3)  
Prerequisite: Computer Science 572.  
Advanced computer architecture, including parallel and distributed architecture, and accompanying software and algorithmic issues.

683. Emerging Technologies (3)  
Prerequisite: Classified graduate standing in computer science; see Class Schedule for further prerequisites.  
Emerging technologies in computing. Issues and concepts underlying new technology. Hands on experience. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

689. Scientific Visualization (3)  
Prerequisites: Computer Science 555 and Mathematics 254.  
Cognitive principles governing effective design and analysis of data representations, design strategies for enhancing dimensionality and information density of visual portrayals of information; survey of and practice in use of available software tools for visualization.

696. Selected Topics in Computer Science (3)  
Prerequisite: Consent of instructor.  
Intensive study in specific areas of computer science. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

700. Applications of Computer Science (3)  
Prerequisite: Classified graduate standing in mathematics or computer science.  
Topic to be chosen from such applications as theorem proving, simulation, learning theory, graphics definition languages. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

797. Research (1-3) Cr/NC/SP  
Prerequisite: Six units of graduate level computer science courses.  
Research in computer science. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP  
Prerequisite: Consent of staff; to be arranged with department chair and instructor.  
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP  
Prerequisites: An officially appointed thesis committee and advancement to candidacy.  
Preparation of a project or thesis for the master’s degree.

799B. Thesis or Project Extension (0) Cr/NC  
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.  
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.
Criminal Justice and Criminology

In the Department of Sociology and the School of Public Administration and Urban Studies
In the College of Arts and Letters and
In the College of Professional Studies and Fine Arts

Faculty
Natalie R. Pearl, Ph.D., Assistant Professor of Public Administration and Urban Studies, Program Director (Graduate Adviser)
Roger W. Caves, Ph.D., Professor of Public Administration and Urban Studies
Lawrence A. Herzog, Ph.D., Professor of Chicana and Chicano Studies
Charles F. Hohm, Ph.D., Professor of Sociology, Associate Dean, Undergraduate Studies
Richard L. Hough, Ph.D., Professor of Sociology
Bohdan Kolody, Ph.D., Professor of Sociology
David L. Preston, Ph.D., Professor of Sociology
Louis M. Rea, Ph.D., Professor of Public Administration and Urban Studies
James L. Wood, Ph.D., Professor of Sociology
Will C. Kennedy, Ph.D., Associate Professor of Sociology
R. George Kirkpatrick, Ph.D., Associate Professor of Sociology
Ruth Xiaoru Liu, Ph.D., Assistant Professor of Sociology
M. Celeste Murphy, Ph.D., Assistant Professor of Public Administration and Urban Studies
Jana L. Pershing, Ph.D. Assistant Professor of Sociology

Associateships
Graduate teaching associateships and graduate assistantships may be available to a limited number of qualified students. Application blanks and further information may be obtained from the appropriate department.

General Information
The School of Public Administration and Urban Studies in the College of Professional Studies and Fine Arts and the Department of Sociology in the College of Arts and Letters offer graduate study leading to the Master of Science degree in criminal justice and criminology. Research facilities include the Institute of Public and Urban Affairs, the Public Administration Center, and the Social Science Research Laboratory. The San Diego metropolitan community affords significant internship opportunities for the graduate student in federal, state, and local agencies as well as in community-based organizations.

Students pursuing a Master of Science degree in criminal justice and criminology will master criminological theory and methods, with an emphasis on applying the theory and methods to real-world research problems in settings such as law enforcement agencies, courts, correctional institutions, halfway houses, therapeutic communities, or other field situations, and community-based organizations.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. Students must also satisfy the following requirements: (1) a 3.0 grade point average in the undergraduate major and a 3.00 overall grade point average; (2) an acceptable score on the GRE General Test; (3) two letters of reference from individuals who are familiar with the student's academic work and/or employment performance; and (4) a 500 word essay addressing your professional and educational goals. Students whose preparation is deemed insufficient by the graduate adviser may be admitted as conditionally classified and will be required to complete specified courses in addition to the minimum required for this degree.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree (Major Code: 22091)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree in Part Two of this bulletin, students must complete an officially approved course of study as outlined below. Students must earn a minimum grade point average of B (3.0) in the master's program and no less than a B - grade in each core course.

Undergraduate Preparation. An undergraduate degree in criminal justice administration, sociology, or another related social science field that prepares students for the methodological and theoretical requirements of this program.
Graduate Program. Twenty-four units of graduate level courses to include:

- Criminal Justice Administration 601. Seminar in the Administration of Criminal Justice (3)
- Criminal Justice Administration 602. Seminar in the Criminal Justice System as a Social Institution (3)
- Criminal Justice Administration 604. Seminar in Criminal Justice and Urban Administration (3)
- Sociology 602. Advanced Research Methods (3)
- Sociology 743. Seminar in Criminology and Criminal Justice Theory (3)
- Sociology 760. Seminar in Research Methods (3)
- Criminal Justice Administration 797. Research in Criminal Justice Administration (3) Cr/NC/SP
  OR
  Sociology 797. Research (3) Cr/NC/SP
- Criminal Justice Administration 799A. Thesis (3) Cr/NC/SP
  OR
  Sociology 799A. Thesis (3) Cr/NC/SP

A minimum of six additional units of 500-level or graduate courses in criminal justice administration or sociology selected from:

- Criminal Justice Administration 502. Juvenile Deviance and the Administration Process (3)
- Criminal Justice Administration 510. Contemporary Issues in Law Enforcement Administration (3)
- Criminal Justice Administration 520. Prosecutorial Function in Administration of Justice (3)
- Criminal Justice Administration 531. Probation and Parole (3)
- Criminal Justice Administration 540. Applied Planning, Research and Program Evaluation in Criminal Justice Administration (3)
- Criminal Justice Administration 543. Community Resources in Criminal Justice Administration (3)
- Criminal Justice Administration 791. Seminar in Readings in Criminal Justice Administration (3)
- Sociology 517. Life Crises and Coping: Sociological Perspectives (3)
- Sociology 543. Police, Courts, and Corrections: The Sociology of Crime and Punishment (3)
- Sociology 556. Topics in Comparative Societies (3)
- Sociology 601. Advanced Social Theory (3)
- Sociology 700. Seminar in Social Theory (3)

An internship (Criminal Justice Administration 796) of up to 12 units is required beyond the 30 units of coursework for students who have not had equivalent experience. The internship may be served in a criminal justice agency, community-based organization, or in field study approved by the graduate adviser.

Course descriptions for courses in this program can be found in the section of this bulletin under Public Administration and Urban Studies and Sociology.
Faculty
Mark A. Thayer, Ph.D., Professor of Economics, Chair of Department
Renatte K. Adler, Ph.D., Professor of Economics
Raford D. Boddy, Ph.D., Professor of Economics
Norris C. Clement, Ph.D., Professor of Economics
Roger S. Frantz, Ph.D., Professor of Economics
James B. Gerber, Ph.D., Professor of Economics
Louis C. Green, Ph.D., Professor of Economics
Shoshana A. Grossbard-Shechtman, Ph.D., Professor of Economics
Arthur E. Kartman, Ph.D., Professor of Economics
Dean O. Popp, Ph.D., Professor of Economics, Associate Vice President for Faculty Affairs
Douglas B. Stewart, Ph.D., Professor of Economics
John W. Hambleton, Ph.D., Associate Professor of Economics
Catalina Amuedo-Dorantes, Ph.D., Assistant Professor of Economics
Eric J. Brunner, Ph.D., Assistant Professor of Economics (Graduate Adviser)
Camilla Kazimi, Ph.D., Assistant Professor of Economics

Associateships
Graduate associateships in economics are available to a limited number of qualified students. Application forms and additional information may be obtained from the graduate adviser of the Department of Economics.

Scholarships
Each spring the scholarship committee of the Center for Public Economics makes a number of awards based on academic performance.

General Information
The Department of Economics offers graduate study leading to the Master of Arts degree in economics. The program emphasizes applied microeconomics by building on a required core of econometric and microeconomic classes. Courses in the graduate program are designed to provide practical training in economics both for students who plan to terminate their graduate studies at the master’s level and for those who plan additional graduate studies leading to the doctoral degree in economics or related fields. State-of-the-art research facilities for the department are provided by the Social Science Research Laboratory of the College.

Admission to Graduate Study
General requirements for admission to the University with classified graduate standing are described in Part Two of this bulletin. In addition, the graduate committee of the department must judge the applicant capable of graduate work in economics. The committee’s judgment will be based on (1) the applicant’s transcripts of prior academic work; (2) two letters of recommendation from individuals familiar with the applicant’s academic ability; and (3) the applicant’s scores on the GRE General Test (combined verbal and quantitative). The letters of reference should be addressed directly to the graduate adviser of the Department of Economics. Official transcripts must be received by the Admissions Office directly from the institutions attended. All documents should be on file by June 30 for fall admission and by November 30 for spring admission.

Applicants will be expected to have completed undergraduate courses in intermediate micro and macro theory. Applicants whose preparation in economics and mathematics is judged inadequate by the graduate committee may be admitted with conditional graduate standing (classified). Students so admitted will be required to remove the deficiency by satisfactory performance on placement examinations or by additional coursework within an amount of time specified by the graduate adviser.

Advancement to Candidacy
In addition to the general requirements to candidacy described in Part Two of this bulletin, the student must have satisfactorily completed Economics 630, 631, 640, and 641.

Specific Requirements for the Master of Arts Degree
(Major Code: 22041)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree described in Part Two of this bulletin, the student must complete an approved graduate program of at least 30 units. Each program must include Economics 630, 631, 640, 641, 740, and 795. No program may contain more than nine units of approved courses outside economics. In addition, no program may contain more than six units of 500-level courses.

A written comprehensive examination covering the core fields of microeconomics and econometrics is required for Plan B students. Students selecting Plan A must include Economics 799A in their program and complete a master’s thesis. No program may contain more than six units from Economics 797, 798, and 799A. Students selecting Plan B must take Economics 740.

As an alternative to electing a general program, the student may choose to specialize in Latin American Policy Studies or Urban and Regional Policy. The specialization in Latin American Policy Studies with its applied and interdisciplinary focus, is
Economics

designed to provide students with advanced training in Latin American policy issues. The specialization in Urban and Regional Policy, with its applied and interdisciplinary focus, is designed to provide students with advanced training in urban and regional policy issues.

Specialization in Latin American Policy Studies
Economics 720. Seminar in Latin American Economies (3)
Latin American Studies 601. Seminar in Methodology of Latin American Studies (3)

One course selected from the following:
History 555. Modernization and Urbanization in Latin America (3)
History 558. Latin America in World Affairs (3)
Political Science 566. Political Change in Latin America (3)
Political Science 567. Political Systems in Latin America (3)

Specialization in Urban and Regional Policy
Economics 710. Seminar in Urban and Regional Economics (3)

At least one course selected from the following:
City Planning 620. Seminar in Urban Planning Methodologies (3)
City Planning 625. Quantitative Techniques in Urban Planning (6)
Geography 584. Geographic Information Systems Applications (3)
Geography 683. Advanced Geographic Information Systems (3)

One course selected from the following:
City Planning 650. Seminar in Urban Theory (3)
City Planning 665. Seminar in Urban and Regional Planning Analysis (3)
Geography 596. Advanced Topics in Urban and Regional Policy (3)
Geography 685. Advanced Quantitative Methods in Geography (3)
Geography 780. Seminar in Techniques of Spatial Analysis (3)

Courses Acceptable on Master’s Degree Programs in Economics

UPPER DIVISION COURSES

507. Mathematical Economics (3)
Prerequisite: Mathematics 121 or 150. Recommended: Economics 320 or 321.
Mathematical concepts as tools in understanding, developing, and illustrating economic theories. Applications of calculus and linear equations to constrained optimization, macro models, elasticity, general equilibrium, and input-output analysis. Not open to students with credit in Economics 307 or 610.

561. International Trade (3)
Prerequisites: Economics 320 and 321.

565. North American Economic Relations (3)
Prerequisites: Economics 101 and 102. Recommended: Economics 360.
Socioeconomic development of U.S., Mexico, and Canada since World War II. Issues affecting the three countries’ relations, including trade investment, technology, and international organizations and agreements.

592. International Monetary Theory and Policy (3)
Prerequisite: Economics 320 or 490.

596. Experimental Topics (3)
Prerequisite: Consent of instructor.
Intensive study in specific areas of economics. Topics to be announced in the Class Schedule. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

603. Economic Analysis (3)
Prerequisite: Classified graduate standing.
Economic analysis of the firm in a market economy and the economics of national income determination. Not open to students with credit for Economics 320 or 321. Not applicable to a master’s degree in economics.

630. Microeconomic Theory (3)
Prerequisite: Economics 321.
Theories of the consumer, the firm, and the market. Topics in welfare and general equilibrium. Duality and uncertainty.

631. Applied Microeconomic Methods (3)
Prerequisite: Economics 630.
Decision-making techniques in applied microeconomics including cost-benefit analysis, choice under uncertainty and applied game theory techniques.

640. Econometrics (3)
Prerequisites: Economics 321; Mathematics 120 or 121 or 150.
Measurement in economics. Use of economic models involving multiple regression analysis, simultaneous equation systems, and time series analysis.

641. Applied Research in Econometrics (3)
Prerequisite: Economics 640.
Econometric applications and techniques including discrete choice, panel data simultaneous equations and time series. Data analysis and statistical software training in STATA, SAS, and SPSS.

696. Experimental Topics (3)
Prerequisite: Consent of instructor.
Intensive study in specific areas of economics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.
700. Seminar in Microeconomic Applications (3)  
Prerequisites: Economics 630 or classified graduate standing in another department and consent of instructor.  
Microeconomic applications to individual, firm, or government. Maximum credit six units of Economics 700 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:  
Seminar in Industrial Organization and Firm Behavior  
Seminar in Labor Economics  
Seminar in Economic Issues in Demography  
Seminar in Experimental Economics  
710. Seminar in Public Economics (3)  
Prerequisites: Economics 630 or classified graduate standing in another department and consent of instructor.  
Government in a market economy. Impact on individual and firm behavior. Maximum credit six units of Economics 710 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:  
Seminar in Environmental Issues  
Seminar in Public Expenditures  
Seminar in Urban and Regional  
Seminar in Regulation  
Seminar in Tax Policy  
720. Seminar in Development and Planning (3)  
Prerequisite: Consent of instructor.  
Development process and policies. Planning techniques. Relations among developing and developed countries. Maximum credit six units of Economics 720 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:  
Seminar in Development Economics  
Seminar in Development Planning  
Seminar in International Trade and Commercial Policy  
730. Seminar in Macroeconomic Policy (3)  
Prerequisite: Consent of instructor.  
Applications of macroeconomics to open economics. Maximum credit six units of Economics 730 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:  
Seminar in National Monetary Institutions  
Seminar in International Monetary Policy  
Seminar in Business Cycles  
Seminar in Macroeconomic Modeling and Prediction  
740. Seminar in Applied Economic Research (3)  
Prerequisites: Advancement to candidacy and consent of graduate adviser.  
Advanced treatment of research design and methodology. Application of empirical techniques to selected problems. (Formerly numbered Economics 740A.)  
750. Seminar in Economic History and Institutions (3)  
Prerequisite: Consent of instructor.  
Economic development in historical perspective. Maximum credit six units of Economics 750 applicable to a master's degree. See Class Schedule for specific content. Seminar topics include:  
Seminar in U.S. Economic History  
Seminar in Economic Growth in Historical Perspective  
Seminar in Contemporary Economic Systems  
795. Internship in Economics (3) Cr/NC  
Prerequisites: Economics 630, 640, and approval of graduate adviser.  
Students will be assigned to various jobs in which economic theory can be applied to decision making. Supervision will be shared by the graduate adviser and on-the-job supervisor.  
797. Research (3) Cr/NC/SP  
Prerequisites: Classified graduate standing and consent of instructor.  
Independent research project in an area of economics.  
798. Special Study (1-3) Cr/NC/SP  
Prerequisite: Consent of staff; to be arranged with department chair and instructor.  
Individual study. Maximum credit six units applicable to a master's degree.  
799A. Thesis (3) Cr/NC/SP  
Prerequisites: An officially appointed thesis committee and advancement to candidacy.  
Preparation of a project or thesis for the master's degree.  
799B. Thesis Extension (0) Cr/NC  
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.  
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
General Information

The College of Education offers graduate study leading to the Master of Arts degree in education with concentrations in the following: counseling, educational technology, elementary curriculum and instruction, postsecondary educational leadership and instruction, reading education, secondary curriculum and instruction, educational leadership, special education, educational research, and policy studies in language and cross-cultural education. Some of these concentrations are designed to permit concurrent completion of the requirements for the correspondingly named advanced credentials.

Graduate study is also offered leading to the Master of Science degree in counseling and the Master of Science degree in rehabilitation counseling.

The degree of Doctor of Philosophy (Ph.D.) in education with a multicultural emphasis is offered jointly with Claremont Graduate University. Inquiries concerning this program should be addressed to the Director of the SDSU/CGU Doctoral Program, College of Education. Informal inquiries may also be made through the program office at (619) 594-6544.

The degree of Doctor of Education (Ed.D.) is offered jointly with the University of San Diego with disciplines in educational administration and policy, educational technology, and teaching and learning. Inquiries should be addressed to Director, SDSU/USD Doctoral Program, College of Education, San Diego State University, San Diego, CA 92182. The telephone number for the program office is (619) 594-0909.

The degree of Doctor of Philosophy (Ph.D.) in mathematics and science education is offered jointly with the University of California, San Diego. For specific information about this program, refer to the Mathematics and Science Education section of this bulletin.

Section I.
Doctoral Programs

Doctor of Philosophy Degree in Education
(Major Code: 08011)

Admission to Doctoral Study

The doctoral program in Education offered by San Diego State University and Claremont Graduate University invites applications from individuals whose academic focus is on democratic schooling, social justice, equal educational outcomes for all students and the improvement of educational systems serving diverse communities.

To be considered for admission to the SDSU/CGU program, students must meet the general requirements for admission to both institutions with classified (full) graduate standing as outlined in the current respective bulletins. These include a master’s degree in education or a related field from an accredited institution, good academic standing in the last institution attended, and an acceptable score on the Graduate Record Examination. Experience in the field is desirable. Students are admitted only in the fall of each academic year. Applicants must submit copies of all transcripts of previous college work, three letters of recommendation, a 1000-word personal statement, and results of the Graduate Record Examination. Personal interviews are conducted for the most promising applicants.

Specific Degree Requirements for the Ph.D. Degree in Education

A minimum of 48 semester units of residency, 24 at each institution, is required before a student is eligible to take qualifying examinations. In the interest of establishing an effective working relationship with faculty at both Claremont and San Diego State University, 12 of the student’s first 24 units must be undertaken at Claremont Graduate University. In addition to these residency units, additional coursework may be needed before the student is competent to conduct dissertation research. The student must further demonstrate command of two research tools, including essential expertise in quantitative methods. After successful completion of four qualifying examinations and an oral defense of that work, the student is advanced to candidacy and enters the dissertation phase of the program.

Students seeking admission to the joint doctoral program in education should write directly to Alberto M. Ochoa, Director of the program, requesting application materials. Upon admission to the program, the student is guided by the requirements for the doctoral program given in Part Two of this bulletin and those listed under Education in the Claremont Graduate University Bulletin.

Faculty

The faculty bring diverse research and teaching interests to the study of democratic schooling, social justice, and diversity in education. Among the members of the faculty, the student will find rich resources of expertise in such areas as public policy, organizational theory and leadership, curriculum and instruction, higher education, counseling and school psychology, language development, qualitative and quantitative analysis, bilingual and cross-cultural education, educational technology, and special education.

San Diego State University
Director: Alberto M. Ochoa
Faculty: B. S. Allen, Atkins, Berg, Bezuk, Cegelka, Dodge, Espinosa, Flood, Frase, Graves, Ingraham, Jacobs, Kuhlman, Lapp, Lewis, Lynch, Mason, Ochoa, Philipp, Piland, Rossett, Saba, Santa Cruz

Claremont Graduate University
Director: David Drew
Faculty: Arguelles, Darder, Drew, Dreyer, Foster, Hale, Kerchner, Matsui, Poplin, Regan, Schuster, Smith, Thomas, Weeres
Doctor of Education Degree
(Major Code: 08011)

Admission to Doctoral Study

Students are admitted to these degree programs in the fall term only, and applications for admission must be received by February 1. Application materials may be obtained from the program director at SDSU. Not all fields in which the degree is offered are available every year and cohorts of students will be accepted for admission to the fields as one or more of the concentrations become available on a rotating basis. For the specific degree offerings open for admission each year, contact the program director at SDSU.

Applicants must meet the general admission requirements of both San Diego State University and the University of San Diego as listed in their respective graduate bulletins. Candidates will be expected to hold a master’s degree in education or a related field from a regionally accredited institution. Priority for admission will be given to those applicants who have professional educational experience in such areas as teaching, staff development, curriculum development, or other professional activities related to education.

All applicants must file separate applications with the admissions office at both SDSU and USD and submit the required official transcripts and recent Graduate Record Examination scores. Foreign students and applicants who have earned degrees at institutions in which English was not the language of instruction must submit TOEFL scores of 600 or better. In addition, prospective students must file an application with the program admissions committee. This application must include copies of all undergraduate and graduate transcripts, recent Graduate Record Examination scores, three letters of recommendation, documentation showing prior professional experience, and a written essay describing the applicant’s purpose in seeking the doctoral degree. The essay should also explain the applicant’s perception of the congruence of this degree program with professional goals. Applicants should request application materials from the director of the program at San Diego State University.

Upon admission to one of the programs, students will be guided by the general campus requirements for doctoral students as described in Part Two of this bulletin and those listed under Education in the graduate bulletin of the University of San Diego. Students are expected to remain continuously enrolled in the program unless granted an official leave of absence.

Specific Degree Requirements for the Ed.D. Degree in Education

The faculties of the Colleges of Education at San Diego State University and at the University of San Diego jointly offer professional programs leading to the degree. This degree emphasizes the preparation of educational leaders and practitioners who can make significant contributions to solving problems in education and fostering the improvement of schools and other learning environments. The programs draw primarily on the faculty expertise and resources of San Diego State University and the University of San Diego, but these resources may be augmented from time to time by participation of selected faculty members from the University of California, San Diego; California State University, San Marcos; and California State University, San Bernardino.

Each of the programs require a minimum of 60 units of graduate level coursework. At least 24 course credits and six units of dissertation must be completed on each campus. All students will complete 15 units of core courses as well as six units of coursework in advanced research. With the concurrence of the faculty adviser, students will develop an area of study directly related to their educational objective. Each of these programs may include an internship.

Upon completion of 12 units of study, each student will prepare a progress report and meet with an adviser and a joint faculty committee to assess progress in the program, to develop a program of study, to discuss possible internship experience, and to define a research focus. After 48 semester units have been completed, students are eligible to sit for the qualifying examinations. Students who successfully complete these examinations will be recommended for advancement to candidacy and will be eligible to begin the dissertation phase of the program. Once enrolled for dissertation units, students must maintain continuous registration in that course until the doctoral faculty approves the dissertation. Once enrolled for dissertation, students are ineligible to apply for an official leave of absence.

Faculty

The following members of the cooperating institutions participate in the joint Doctor of Education degree and are available for direction of research and as members of doctoral committees:

San Diego State University
Director: Marlowe J. Berg
Faculty: B. S. Allen, Atkins, Bezuk, Cegelka, Dodge, Espinosa, Flood, Frase, Graves, Ingraham, Jacobs, Kuhlman, Lapp, Lewis, Lynch, Mason, Ochoa, Philipp, Piland, Rossett, Saba, Santa Cruz

University of San Diego
Director: Fred Galloway
Faculty: Ammer, Alexandrowicz, Barnes, Bishop-Smith, Collins, DeRoche, Donmoyer, Gelb, Hansen, Infantino, Quezada, Rowell, Williams, Zyglicynski
Section II.
Master’s Degree Programs

Master of Arts Degree in Education

Admission to Graduate Study

Applicants must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, applicants must have completed a minimum of 12 units in professional education courses and must either be admitted to the program of teacher education or hold a valid California credential, other than an emergency or provisional credential, before being recommended for classified graduate standing. (This is not applicable to students in the Departments of Administration, Rehabilitation and Post-secondary Education, Counseling and School Psychology, Educational Technology, and Special Education.)

A student desiring a concentration in educational leadership must, in addition to the above, meet specific requirements for admission to the appropriate advanced credential program. A student desiring a master’s degree concentration in counseling, policy studies, or in special education must also meet specific admission requirements. (For further information, refer to the College of Education, Office of Graduate Programs, Room Education 100K, or to the coordinators of the respective programs. Students in counseling and school psychology should go directly to the department for further information.)

Advancement to Candidacy

A student desiring a Master of Arts degree in education with a concentration in educational leadership and instruction, counseling, educational research, educational technology, elementary curriculum and instruction, reading education or secondary curriculum and instruction may be advanced to candidacy upon completion of the basic requirements as described in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree

In addition to meeting the requirements for admission to the University with classified graduate standing and the credential requirements as applicable, the student must satisfy the basic requirements for the master’s degree described in Part Two of this bulletin. In addition, the student must meet the requirements specified for one of the concentrations in education (described below). Courses common to all concentrations are Education 690 or Teacher Education 634, and Plan A, which requires Education 799A, or Plan B in which two options are available, Education 791A-791B-791C or Education 795A-795B. All candidates for the Master of Arts degree in education who elect Plan B must pass a comprehensive examination.

The Comprehensive Examination

This written examination, designed to evaluate the achievement in the specific area of the student’s concentration, is required of all candidates for the master’s degree in education. A student is eligible to take the comprehensive examination only after advancement to candidacy.

The examination is offered near the midpoint of each semester. A reservation must be made at least one week in advance of the examination. For information on exact dates, and for a reservation, check with the Office of Graduate Programs, College of Education, Room Education 100K, or with the coordinators of the respective programs.

Selection of Plan A or Plan B

In general, applicants will be programmed for Plan B, the seminar plan. After the student is approximately halfway through the program, has secured an adviser, and established a thesis plan, permission to transfer to Plan A may be requested. Plan A is designed for students who have a particular research problem they wish to investigate in some detail. Requests for transfer to Plan A must be prepared as an official change in program for the master’s degree, countersigned by the faculty adviser, and submitted to the Office of Graduate Programs in the College of Education.

Both Plan B options provide students the opportunity (1) to have two experiences which emphasize research or evaluation and writing, (2) to participate actively in the projects of the other members of the seminar, and (3) to subject their own work to critical evaluation by the other seminar members. Both plans require the ability to formulate and define research or evaluation problems, to assemble data pertinent to the problem, to draw conclusions, and to present the study in acceptable written form. It is expected that the two seminars will be at least as demanding as the thesis with respect to the difficulty and quantity of work required. Selection of one of the Plan B options must be made with the approval of the departmental faculty adviser.

Course Requirements

Note: Students are requested to consult with the appropriate master’s degree adviser prior to taking any coursework leading to the master’s degree. Students are urged to take Education 690 (3 units) as early as possible in their first graduate year.

Concentrations

Counseling
(Major Code: 08261)

The Master of Arts degree in education with a concentration in counseling provides a sequential and integrated program of study in the theories, research, and practice of counseling. The program, usually with Plan A, is designed to provide the student with the education and experiences necessary to prepare for doctoral studies in counseling. The program, usually with Plan B, is intended for individuals who seek to increase their understanding of human behavior and improve their interpersonal skills in their current profession or occupation. This program does not lead to credentials or licensure in counseling. Individuals seeking California credentials in school counseling or school psychology or licensure in marriage, family, and child counseling are referred to the description of the Master of Science in counseling program provided in the Counseling and School Psychology section of this bulletin. For further information, see the graduate adviser in the Department of Counseling and School Psychology.

1. Prerequisite: Admission to the Department of Counseling and School Psychology (see Counseling and School Psychology section of this bulletin).
2. Education 690 Procedures of Investigation and Report (3)

Education

3. Core program (minimum of 15 units):
   a. Common Core (3 units):
      CSP 600 Counseling Communication Skills (2)
      CSP 600L Counseling Prepracticum (1) Cr/ NC
   b. Foundations (minimum of 6 units):
      CSP 610A Determinants of Human Behavior: Personality (3)
      CSP 610B Determinants of Human Behavior: Social and Cultural (3)
      CSP 610C Determinants of Human Behavior: Development (3)
      CSP 610D Determinants of Human Behavior: School Learning (3)
      CSP 615 Seminar in Multicultural Dimensions in Counseling (3)
   c. Theory, Research, and Techniques (minimum of 6 units):
      CSP 640 Theory and Process of Appraisal (3)
      CSP 660 Theory and Process of Counseling (3)
      CSP 662 Counseling Interventions with Children and Adolescents (3)
      CSP 670 Theory and Process of Group Counseling (3)
      CSP 680 Theory and Process of Consultation (3)
      CSP 685 Theories of Marriage and Family Therapy (3)
   4. Electives (6-9 units).
   5. Research (3-6 units).
      Ed 799A Thesis (3) or Ed 795A-795B Seminar (3-3) or Ed 791A Evaluation Techniques (3).
      Ed 791B-791C Practicum: Evaluation (1-3)

Educational Leadership
(Major Code: 08271)

The Master of Arts degree in education with a concentration in educational leadership provides increased knowledge and skill for the prospective administrator or supervisor. The concentration is intended for those who wish to pursue administrative or supervisory positions in education, including postsecondary institutions.

To apply for this concentration, a student must complete an application for admission to the University and the education administration program. All applicants should include at least two letters of recommendation. All students will discuss the degree curriculum with the graduate adviser during the first semester in the program.

Students in this concentration may earn a degree without a K-12 administrative credential or in combination with the California Preliminary Administrative Services Credential. The degree without the credential is designed for postsecondary administrators, foreign school administrators, school business managers, administrators of educational programs in private industry, civil services, or the nonprofit sector, administrators of technical and vocation programs, student services professionals, or those who have other administrative objectives in educational fields. Candidates who intend to pursue administrative careers in California public schools, grades K-12, will need to obtain the Preliminary Administrative Services Credential and then the Professional Administrative Services Credential. Credential candidates are advised to satisfy the requirements for the master's degree in conjunction with the credential.

Specific Requirements for the Master of Arts degree in Education with a Concentration in Educational Leadership:

1. Minimum of 30 units to include:
   1. Core program: Six to nine units selected from the following:
      ARP 600 Principles of Educational Administration (3)
      ARP 605 Postsecondary Education (3)
      ARP 610 Educational Leadership (3)
   2. Six to nine units selected, with the approval of the graduate adviser, from the following:
      ARP 611 Curriculum Theory and Development in Postsecondary Education (3)
      ARP 630 Curriculum Design and Management (3)
      ARP 652 Seminar in Instructional Improvement and Evaluation (3)
      ARP 655 Administering Educational Organizations (3)
      ARP 680 Seminar in Administration, Rehabilitation and Postsecondary Education (2-6)
      ARP 730 Seminar in Adult Learning (3)
      ARP 740 Advanced Seminar in Administration, Rehabilitation and Postsecondary Education (3)
   3. Electives selected with the approval of the graduate adviser (6-9 units).
   4. ED 690 Procedures of Investigation and Report (3)
   5. Research: Three to six units selected from the following:
      ED 791A Evaluation Techniques (3)
      ED 791B-791C Practicum: Evaluation (1-3) or ED 795A-795B Seminar (3-3) or ED 799A Thesis (3)

Specific Requirements for the Preliminary Administrative Services Credential (Credential Code: 00501)

(Academic coursework and experience required vary with the career goal of the student - see adviser):

1. Prerequisites:
   a. An application for admission to the educational administration program.
   b. Basic skills examination (CBEST).
   c. Two letters of recommendation from school district or agency where employed.
   d. A counseling interview with a program area faculty.
   e. Valid California credential for teaching, pupil personnel services, school nursing, speech pathology, or librarianship.
   f. Three years of successful, full-time K-12 school experience.
   g. Students must have completed at least 1 unit (or the equivalent) of coursework dealing with computers in education.

2. Possession of a master's degree in Educational Administration or another field related to educational practice.

3. ARP 600 Principles of Educational Administration ...... 3
   ARP 610 Educational Leadership .......................... 3
   ARP 630 Curriculum Design and Management .......... 3
   ARP 652 Seminar in Instructional Improvement and Evaluation ................................. 3
   ARP 655 Administering Educational Organizations ...... 3
   ARP 660 Field Experience in Educational Leadership ........................................ 4-10
   Electives selected with approval of adviser ............ 3

   Total 22-28
4. All students must meet the state mandated requirement for competencies needed to serve individuals with disabilities. Consult with a program adviser in the Department of Special Education for coursework and waiver requirement.

The Master of Arts degree in Education with a concentration in Educational Leadership is also offered at the Imperial Valley Campus. For course requirements consult the Imperial Valley Campus Bulletin.

Specific Requirements for the Professional Administrative Services Credential: (Credential Code: 00502)
Candidates pursuing the Professional Administrative Services Credential must be in a credentialed administrative position. The candidate must complete the credential program within five years of initial appointment to an administrative position. The following are required for admission to the Professional Administrative Services Credential program:
1. An application for admission to the program.
2. Admission to postbaccalaureate status at San Diego State University.
3. Possession of a valid Preliminary Administrative Services Credential or a Clear Administrative Services Credential.
4. Possession of a master’s degree in Educational Leadership or another field related to educational practice.
5. Two letters of recommendation from knowledgeable field references
6. Two recent performance evaluations.
7. A letter of formal commitment of participating school district to support internship requirement.
8. Minimum grade point average of 3.25 in graduate study.
9. A selection interview with program area faculty members.

Issuance of the Professional Administrative Services Credential requires completion of two years of successful, full-time, K-12 administrative experience earned while holding the Preliminary Administrative Services Credential.

Educational Research
(Major Code: 08241)
The Master of Arts degree in education with a concentration in educational research is designed to prepare students having a basic background in education to conduct measurement, research, and evaluation activities at a professional level. Emphasis is upon preparation for research activities at the school district level.

1. Prerequisite: A basic background in education (a minimum of 12 units of professional education) including at least one course in tests and measurement
2. ED 690 Procedures of Investigation and Report (3 units)
3. Core program (9 units): Policy Studies in Language and Cross-Cultural Education 612, Ethnographic Approach to Classroom Interaction (3 units); Teacher Education 646, Seminar in Educational Measurement (3 units); and 3 units of educational research design selected with the approval of the adviser
4. Electives (15 units) selected with adviser’s approval
5. ED 799A, Thesis (3 units)

Educational Technology
(Major Code: 08992)
The Master of Arts degree in education with a concentration in educational technology enables students to prepare for careers as instructional technologists, educational specialists, instructional designers, trainers, and experts in educational computing. State-of-the-art coursework and internships in companies, agencies and schools prepare candidates to analyze performance problems and design, develop and evaluate instructional strategies and products. Students graduate with a portfolio including educational computer software, instructional print materials, video, and interactive video programs. For further information, see the coordinator of educational technology. Course requirements follow:
1. Prerequisite: Varies with the career goal of the student. Students use educational technology skills in settings as diverse as the schools, museums, multimedia companies, and corporate training programs. For most students, Educational Technology 540 and 541 are prerequisites. See adviser.
2. ED 690 Procedures of Investigation and Report (3 units).
3. Core program (15 units): The core is composed of courses in education and related fields, selected with the approval of the adviser on the basis of the student’s interests and goals. A minimum of nine units must be taken in courses at the 600 and 700 level.
4. Electives (6-9 units) selected with the approval of the adviser.
5. Research (3-6 units)
   ED 791A Evaluation Techniques (3)
   ED 791B-791C Practicum: Evaluation (1-3) or
   ED 795A-795B Seminar (3-3 units) or
   ED 799AThesis (3 units)

Specialization in Educational Computing within Educational Technology Concentration: Students specializing in educational computing must include among their 15 core units Educational Technology 540 and 541. Recommended electives to be approved by the program adviser include Educational Technology 561, 596, 644, 670, 671, 684, 775, and Special Education 650. Specialization prerequisites are Educational Technology 540 and 541.

Specialization in Workforce Education and Lifelong Learning: This specialization will allow students to prepare themselves as professionals who will focus on the development of education and training programs for youth and adults who are traditionally undereducated, non-college educated and who work in non-management jobs.
Students specializing in Workforce Education and Lifelong Learning pursue the following program: Prerequisites are Educational Technology 540 and 541. Required courses include in the 15 unit core are Educational Technology 544, and Administration, Rehabilitation and Postsecondary Education 565. Recommended electives to be approved by the program adviser may include: Educational Technology 572, 640, 644, 650, 670, 684, 685; Administration, Rehabilitation and Postsecondary Education 605, 631, 730, 747; Policy Studies in Language and Cross-Cultural Education 601, 602, 612; Teacher Education 631, 639.

**Elementary Curriculum and Instruction** (Major Code: 08021)

The Master of Arts degree in education with a concentration in elementary curriculum and instruction is designed to increase professional competence in the form of more breadth, depth, and technical skill in curriculum and instruction, either generally or in selected areas of specialization.

1. Prerequisite: A basic background in education (minimum of 12 units) to include curriculum and methods, growth and development, educational psychology, and history and philosophy of education.

2. Education 690, Procedures of Investigation and Report (3 units).

3. Core program (15 units): The core is composed of courses in education and related fields, selected with the approval of the adviser on the basis of the student’s interests, professional needs and goals. The core program will include:
   a. Teacher Education 600, Curriculum Development in Education (3 units); or related course with approval of adviser.
   b. Teacher Education 626, Advanced Educational Psychology; or Teacher Education 655, Social Foundations of American Education; or Teacher Education 657, Philosophy of Education (3 units); or related course with approval of adviser.
   c. Teacher Education 610A, Seminar in Mathematics Education - Elementary School; or Teacher Education 610C, Seminar in Science in Elementary Education; or Teacher Education 630, Seminar in Reading Education; or Teacher Education 631, Seminar in Language Arts; or related course with approval of the adviser (3 units).
   d. 500/600/700-numbered courses in teacher education with the approval of the adviser (3-6 units).
   e. 500/600/700-numbered courses in education or related fields selected with the approval of the adviser (up to 6 units).
   f. Electives (6-9 units) selected with the approval of the adviser.

4. Electives (6-9 units) selected with the approval of the adviser.

5. Special Study and Research (3-6 units): Education 791A-791B, Evaluation (3-1-3 units); or Education 795A-795B, Seminar (3-3 units); or Education 799A, Thesis (3 units).

The program of study must include at least 15 units of 600- and 700-level courses.

**Policy Studies in Language and Cross-Cultural Education** (Major Code: 08994)

The Master of Arts degree in education with a concentration in policy studies in language and cross-cultural education is designed to provide special knowledge and training for two diverse audiences with different career goals. Plan 1, curriculum and critical pedagogy, is geared for the classroom teacher or resource specialist who will be working directly with language minority students. Plan 2 has been developed to allow students to specialize in areas outside of the Department of Policy Studies in Language and Cross-Cultural Education. The nine unit specializations may be in other College of Education departments or in departments across campus, with permission of the department adviser and the cooperating department. This allows for career options in a variety of settings with an emphasis in a noneducational discipline, to provide classroom teachers, researchers, and other specialists with a different orientation in examining policy research.

Students in each specialization will take a core of nine units in the Policy Studies in Language and Cross-Cultural Education Department. All students in Plan B will also take a comprehensive examination* covering coursework for the M.A. degree.

* It is recommended that students enroll in PLC 686 in preparation for the comprehensive examination.

**Prerequisites:**

PLC 600 Foundations of Democratic Schooling (3)

PLC 601 Language Policies and Practices (3)

**Research:** 6-9 units total.

ED 690 Procedures of Investigation and Report (3) **AND**

ED 795A-795B Seminar (6) **OR**

ED 799A Thesis (3) **AND**

ED 797 Research (1-3)

**Electives:** 3-6 units selected with approval of adviser.

**Plan I: Curriculum and Critical Pedagogy Specialization**

**Core:**

PLC 612 Educational Ethnography in Multicultural Settings (3)

PLC 613 Organizational Strategies and Professional Development for the Multicultural School Community (3)

PLC 650 Bilingual/Cross-Cultural Curriculum Development and Practice (3)

**Specialization:** Select nine units from the following with consent of adviser.

PLC 553 Language Assessment and Evaluation in Multicultural Settings (3)

PLC 596 Special Topics in Bilingual and Multicultural Education (3)

PLC 602 Cross-Cultural Context of School Communities (3)

PLC 603 Community and Schools in a Diverse Society (3)

PLC 651 Multicultural Methods and Curriculum in Content Areas (1-3)

PLC 652 Multicultural Methods and Curriculum in Language Arts (3)

PLC 686 Seminar in Multicultural Education (1-6)

PLC 798 Special Study (1-6) Cr/NC/SP
Plan II: Outside Specialization

Core:
PLC 612 and six units selected from PLC 553, 602, 613, or 650 with approval of adviser.

Specialization: Nine units taken outside the Department of Policy Studies in Language and Cross-Cultural Education with consent of graduate adviser, and a cooperating department or program.

Reading Education
(Major Code: 08301)

The Master of Arts degree in education with a concentration in reading education is designed to provide increased knowledge and skill for those who are or wish to become reading/language arts specialists in public or private schools and clinics. The program prepares candidates to teach, tutor, develop curriculum, offer in-service instruction and administer reading centers for students ranging from kindergarten through community college, university, and adult levels. This degree is usually earned concurrently with a California Reading/Language Arts Credential, which has a number of common requirements.

1. Prerequisites: A valid California teaching credential, grades K-12, or completion of a minimum of 12 units of professional coursework in education, including a basic course in methods and materials for teaching reading and a course in children’s/adolescent literature prior to or concurrent with enrollment in TE 637 Instructional Strategies for Reading/Language Arts.

2. Core program (21 units)
   - TE 631 Seminar in Language Arts (3)
   - TE 632 Assessment and Evaluation of Reading and Language Arts (3)
   - TE 634 Seminar in Research Investigations in Reading and Language Arts (4)
   - TE 637 Instructional Strategies for Reading and Language Arts (3)
   - TE 638 Topics in Reading Education (minimum of 3)
   - TE 639 Literacy and Language (3)

3. ED 791A Evaluation Techniques (3)
   - ED 791B-791C Practicum: Evaluation (1-3) or ED 795A-795B Seminar (3-3 units) or ED 799A Thesis (3 units)

4. Electives (15 units) selected with the approval of the graduate adviser on the basis of the student’s interests, goals and needs. A minimum of three units must be in 600- or 700-numbered courses. A maximum of six units may be selected from cognate fields outside the College of Education.

5. ED 791A Evaluation Techniques (3) and ED 791B-791C Practicum: Evaluation (1-3) or ED 795A-795B Seminar (3-3 units) or ED 799A Thesis (3 units)

Secondary Curriculum and Instruction
(Major Code: 08031)

The Master of Arts degree in education with a concentration in secondary curriculum and instruction, is designed as the base for applicants to increase professional competence in any of the fields typically taught in secondary schools, and for obtaining those competencies and technical skills in curriculum and instruction either generally, or in selected areas of specialization.

1. Prerequisite: A basic background in education (12 units).

2. ED 690 Procedures of Investigation and Report (3 units)

3. Core program (6 units): to include TE 600, Curriculum Development in Education (3 units); three units from TE 604, Advanced Problems in Instruction; or TE 607, Seminar in Research in Curricular Problems; or related courses with approval of adviser.

4. Electives (15 units) selected with the approval of the graduate adviser on the basis of the student’s interests, goals and needs. A minimum of three units must be in 600- or 700-numbered courses. A maximum of six units may be selected from cognate fields outside the College of Education.

5. ED 791A Evaluation Techniques (3) and ED 791B-791C Practicum: Evaluation (1-3) or ED 795A-795B Seminar (3-3 units) or ED 799A Thesis (3 units)

Special Education
(Major Code: 08081)

The Master of Arts degree in education with a concentration in special education provides the professional educator with advanced knowledge and skills in special education. This degree has many requirements in common with the Level II Education Specialist Credentials in Special Education and may be earned concurrently with those credentials. The M.A. degree can include specializations in the following areas: early childhood, developing gifted potential, mild/moderate disabilities, moderate/severe disabilities, resource specialization, severely emotionally disturbed/behaviorally disordered, teaching low achieving students in the mainstream, and school to adult transition. All programs must be approved by the graduate adviser. Although the M.A. degree is usually linked to a teacher credential, it is open to individuals with undergraduate degrees in a wide range of disciplines in consultation with the graduate adviser.

Specialization in Developing Gifted Potential

Core (15 units): Special Education 508, 644, 649, 658, 771.
Related Fields (6-9 units 500-level or above) by advisement or Advanced Specialization (6 units): Special Education 650 and three units of electives selected with approval of adviser.

Research (6-9 units): Education 690* and Education 791A, 791B-791C; or 795A*-795B*; or 799A*

Specialization in Early Childhood

Prerequisites: Special Education 500, 501, 527, 528.
Core (12 units): Special Education 635, 643A, 643B; Education 690*
Advanced Specialization (12-15 units): Special Education 681 (in section approved by adviser); 9-12 units selected from approved electives at 500-level or above.
Culminating Experience (3-6 units): Education 795A*+795B* or Education 791A, 791B, 791C or Education 799A

Specialization in Mild/Moderate Disabilities

Prerequisites: Special Education 500, 501, 524, 527.
Core (12 units): Special Education 634, 647, 648; Education 690*
Advanced Specialization (12-15 units): Special Education 681 (in section approved by adviser); 9-12 units selected from approved electives at 500-level or above.
Culminating Experience (3-6 units): Education 795A*+795B* or Education 791A, 791B, 791C or Education 799A

Specialization in Moderate/Severe Disabilities

Prerequisites: Special Education 500, 501, 525, 527.
Core (12 units): Special Education 635, 645 or 648, 647; Education 690*
Advanced Specialization (12-15 units): Special Education 681 (in section approved by adviser); 9-12 units selected from approved electives at 500-level or above.
Culminating Experience (3-6 units): Education 795A*+795B* or Education 791A, 791B, 791C or Education 799A.

137
Resource Specialization
Prerequisites: Special Education 500 and 501. Core (9-12 units): Education 690* and 6-9 units selected from the following categories:
3-6 units from Special Education 647, 648;
3-6 units from Special Education 524, 525, 529;
3-6 units from Special Education 645, 664;
3-6 units from Special Education 662, 677;
3 units from Special Education 634, 635.
Advanced Specialization (12-15 units): Special Education 681 (in section approved by adviser); 3-6 units selected from Special Education 651, 652, 653, 6-9 units selected from approved electives at 500-level or above.
Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or 799A.
Specialization in Severely Emotionally Disturbed/Behaviorally Disordered
Prerequisites: Special Education 500 and 501. Core (15 units): Special Education 529, 634, 647, 677; Education 690*.
Advanced Specialization (9-12 units): Special Education 681 (in section approved by adviser); 6-9 units selected from approved electives at 500-level or above.
Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.
Specialization in Teaching Low Achieving Students in the Mainstream
Prerequisites: Special Education 501; Special Education 971 (4-6 units).
Core (15 units): Special Education 553, 647, 648, 650 (3); Education 690*.
Advanced Specialization (9-12 units): Special Education 527, 681 (in section approved by adviser); 771 (1-3), 798, three units of approved electives at 600-level or above or Special Education 527.
Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.
Specialization in Vocational Transition
Prerequisite: Special Education 501 or Administration, Rehabilitation and Postsecondary Education 584.
Core (15-18 units): Special Education 664; Education 690*; 6-9 units selected from (a) Special Education 524 or 525; (b) Special Education 645 or 648; (c) Special Education 771 or Administration, Rehabilitation and Postsecondary Education 744 or Counseling and School Psychology 730; Education 690*.
Advanced Specialization (9-12 units): Special Education 681 (in section approved by adviser); 6-9 units selected from Special Education 645, 650, 662, 798 (1-6), Administration, Rehabilitation and Postsecondary Education 645, 687, 3-6 units of approved electives at the 600 or 700 level.
Culminating Experience (3-6 units): Education 795A*-795B* or Education 791A, 791B, 791C or Education 799A.

* In departmentally approved sections.
Specific Requirements for the Master of Science Degree in Rehabilitation Counseling (Major Code: 12221)

In addition to meeting the requirements for classified graduate standing, and the basic requirements for the master’s degree, as described in Part Two of this bulletin, the student must complete a minimum of 60 graduate units of 500-, 600- and 700-numbered courses, to include:

39 units of required courses:

6-9 units of electives as determined by consent of the faculty adviser.

Comprehensive Examination

A written comprehensive examination is required. The student must demonstrate satisfactory performance on a written comprehensive examination, in lieu of thesis, prepared by the rehabilitation counseling program. Reservations for the examination must be made in advance in the Rehabilitation Counseling Program Office, Hardy Annex, Room 146.

Program Structure

The rehabilitation counseling program offers a 60 semester unit format that leads to the Master of Science in rehabilitation counseling. Students are accepted on a full-time and part-time basis.

Master of Science Degree in Counseling

General Information

The Department of Counseling and School Psychology offers graduate study leading to either the 30-unit Master of Arts degree in education with a concentration in counseling or the 60-unit Master of Science degree in counseling.

The Master of Science degree in counseling provides an integrated sequence of study in the theories, research, and practice of counseling. This program prepares the student for the profession of counseling as applied in the schools, human services agencies, and industry. The program offers a generic core of competencies and experiences with specialized study and experiences provided via defined specializations: Marriage, Family, and Child Counseling; School Counseling; and School Psychology. The first year of study in the School Counseling specialization is completed via the Community-Based Block.

The Department of Counseling and School Psychology offers courses which may be applied to either degree program. Course offerings are organized by professional specialization; the majority are sequenced in year-long blocks. Most students attend full time, although limited part-time study is offered; all students in the Community-Based Block must attend full time.

Courses in the Community-Based Block and School Psychology Program are scheduled primarily in the day. School counseling and MFCC offer most courses in the late afternoons or evenings to accommodate student’s work or fieldwork placement schedules. With careful planning and possible summer session courses, full-time students can complete the Master of Science degree in counseling in any of the specializations in three years. Part-time students who take at least two courses a semester and in summer session may expect to double the time needed to complete the degree. Student planning must be done with the adviser.

The Community-Based Block (CBB) is a special unit within the Department of Counseling and School Psychology. The CBB is community based in two senses of the word “community.” The basic approach to learning is the development of a total, self-contained “learning community” - a group of approximately 30 full-time graduate students and at least three core faculty members committed to working and learning together. The word “community” also refers to the locale of the program (almost all of the program is off-campus) and to its special focus on the inner-city and people of difference. The CBB deliberately recruits an extremely diversified group of students. Although the CBB places special emphasis on working in innercity settings with multiethnic populations, admission to the program is not limited to students committed to working with these populations. The program is designed for students who intend to work in a variety of settings and includes appropriate fieldwork placements.

The following departmental courses are open to students who have not been accepted into a program and are interested in exploring departmental offerings: Counseling and School Psychology 400, 401, 596, 600, 600L, 610A, 610B, 620, and 621. Credit from 500 and 600 level courses may be applied towards graduation if admitted to a program. Students should consult with the coordinator of the particular program in which they are interested about the credit application policy within the program.
Financial Assistance

The department sponsors the Counseling and School Psychology Loan Fund honoring Professors Leonard Strom and John Schmidt which along with other university-wide programs, is administered by the Financial Aid Office. Other forms of financial assistance administered by the University are presented elsewhere in this bulletin.

Accreditation

The National Council for the Accreditation of Teacher Education (NCATE) has accredited the specializations in school counseling and, in conjunction with the National Association of School Psychologists (NASP), in school psychology. These national accreditations, however, do not guarantee certification or credentialing as school counselors or school psychologists outside of California. It is the student’s responsibility to be aware of other states’ requirements, and to arrange adjustment in the program accordingly if credentials are to be sought elsewhere.

Admission to Graduate Study

In seeking admission to graduate study in counseling, the student should write directly to the Department of Counseling and School Psychology, requesting appropriate application materials. Degree, program, and specialization information and detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms. All application materials become the property of the department and will not be returned to the applicant.

NOTE: In addition to application with the Department of Counseling and School Psychology, the student must file an application for admission to San Diego State University with the Office of Admissions and Records. Admission is for the fall semester only. There is no spring admission.

Applications to each program specialization are made separately. MFCC applications must be received by February 1 for consideration for Fall admission. School psychology, school counseling/Community-Based Block applications received by February 1 are given high priority for Fall admission. Review begins on that date. In general, all applications will require the following:

1. Completed application form.
2. At least three letters of recommendation.
3. Transcripts of all collegiate work (official copies to the Graduate Division, photocopies to the department).
4. Applicants whose grade point averages fall below the University standard of 2.75 (when A equals 4) in the last 60 semester (90 quarter) units must supply additional data to support consideration for admissions.
5. The GRE (General Test) is required by the University for full (classified) admission and official score reports must be sent to the Graduate Division (photocopies to the department); however, the department does not use a specified cut-off for admission.
6. California Basic Educational Skills Test (CBEST) must be taken.
7. Portfolio submitted.
8. A personal statement.

For MFCC applicants:

No minimum set of qualifications in any way guarantees admission. From the large number of applications typically received, applicants considered to have demonstrated high potential are interviewed. Interviews assist the faculty in determining pre-professional readiness and “fit” with the specializations.

Recommendations are made by the Admissions Committee to the department faculty and chair who make the final recommendation for admission to the University.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin and be recommended by the faculty. A student may be advanced to candidacy when the official program has been filed and after having earned a minimum grade point average of 3.0 in at least 24 units listed on the official program. A minimum of 18 units listed on the official program must be completed after advancement; coursework in progress at time of advancement can count as part of these 18 units.

Specific Requirements for the Master of Science Degree in Counseling

(Major Code: 08261)

In addition to meeting the requirements for admission to the University with classified graduate standing, the student must satisfy the basic requirements for the master’s degree described in Part Two of this bulletin. In addition, the student must meet the requirements specified below.

Selection of Plan A or Plan B

The selection of Plan A, the thesis or project or Plan B, the comprehensive examination plan, is made in consultation with the adviser at the time the official program of study is filed. Plan A thesis is designed for students who have a particular research problem they wish to investigate in some detail. The Plan A project is expected to be a rigorous application of research and theory in a professional endeavor, e.g., designing an elementary school counseling program. The comprehensive examination option for Plan B requires demonstration of the integration and application of theory, research, and techniques. It is expected that the student will take the comprehensive examination concurrently with or following enrollments in Counseling and School Psychology 710B. The examination is offered near the end of each semester. Information is available from the Counseling and School Psychology office.

Course Requirements

Students are expected to consult with their adviser prior to taking any coursework leading to the master’s degree. Selections of courses have been designated for the specializations and must be reviewed with the adviser. Students are urged to take Education 690 and Counseling and School Psychology 600 and 600L as early as possible in their first graduate year.

The student must complete a minimum of 60 units (62 units for the Specialization in School Psychology) of 500-, 600-, 700-numbered courses, including:

1. Common Core (6 units):
   - ED 690 Procedures of Investigation and Report (3)
   - CSP 600 Counseling Communication Skills (2)
   - CSP 600L Counseling Prepracticum (1) Cr/NC

2. Foundations (a minimum of 9 units):
   - CSP 610A Determinants of Human Behavior: Personality (3)
and 700-numbered courses, including:

3. Theory, Research, and Techniques (a minimum of 12 units):
   - CSP 640 Theory and Process of Appraisal (3)
   - CSP 660 Theory and Process of Counseling (3)
   - CSP 662 Counseling Interventions with Children and Adolescents (3)
   - CSP 670 Theory and Process of Group Counseling (3)
   - CSP 680 Theory and Process of Consultation (3)
   - CSP 685 Theories of Marriage and Family Therapy (3)
   - CSP 686 Seminar: Gender and Ethnicity in Family Therapy (3)

4. Integration and Application of Theory, Research, and Techniques (a minimum of 6 units):
   - CSP 730 Fieldwork in Counseling (2-6) Cr/NC
   - CSP 740 Practicum: Individual Counseling (3) Cr/NC
   - CSP 741 Practicum: Group Counseling (3) Cr/NC
   - CSP 750 Advanced Seminar and Practicum: Individual Counseling (3-6) Cr/NC
   - CSP 780 Internship (2-12) Cr/NC

5. Research (a minimum of 3 units):
   - CSP 710A Professional Seminar (3) or
   - CSP 799A Thesis (3) Cr/NC/SP

6. Electives: 24 units selected with adviser's approval.

Specialization in Marriage, Family, and Child Counseling

The Master of Science in counseling with a specialization in marriage, family, and child counseling, is designed to satisfy the coursework requirements for the California License for Marriage, Family, and Child Counselors. The student must design the sequencing of the degree program in consultation with the adviser, and must complete a minimum of 60 units of 500-, 600-, and 700-numbered courses, including:

1. Program prerequisite:
   - CSP 610A Determinants of Human Behavior: Personality (3)

   Students may fulfill this requirement with completion of an equivalent upper division undergraduate course, with adviser approval.

2. Common Core (6 units):
   - ED 690 Procedures of Investigation and Report (3)
   - CSP 600 Counseling Communication Skills (2)
   - CSP 600L Counseling Prepracticum I (1) Cr/NC

3. Foundations (minimum 6 units):
   - CSP 615 Seminar in Multicultural Dimensions in Counseling (3)

4. Theory, Research, and Techniques (minimum 22 units):
   - CSP 640 Theory and Process of Appraisal (3)
   - CSP 660 Theory and Process of Counseling (3)

5. Integration and Application of Theory, Research, and Techniques (minimum 9 units).

   Six units selected from:
   - CSP 740 Practicum: Individual Counseling MFCC (3) Cr/NC and/or
   - CSP 750 Advanced Seminar and Practicum: Individual Counseling MFCC (3-6) Cr/NC

Minimum of three units selected from:
   - CSP 730 Fieldwork in Counseling: MFCC (2-6) Cr/NC
   - CSP 740 Practicum: Individual Counseling (3) Cr/NC
   - CSP 740 Practicum: Individual Counseling MFCC (3) Cr/NC
   - CSP 750 Advanced Seminar and Practicum: Individual Counseling MFCC (3-6) Cr/NC
   - CSP 780 Internship: MFCC (2-12) Cr/NC

6. Additional requirements for the specialization (11 units):
   - CSP 585A Human Sexuality for Counselors (3)
   - CSP 585B Dynamics of Adjustment Behavior (3)
   - CSP 605 Seminar in Ethical and Legal Issues for Counselors (3)
   - CSP 687 Family Treatment of Substance Abuse (1)
   - CSP 688 Family Systems Assessment of Child Abuse (1)

7. Research (3 units):
   - CSP 710A Professional Seminar (3) or
   - CSP 799A Thesis (3) Cr/NC/SP

   Adherence to the Laws and Regulations Relating to the Practice of Marriage, Family, and Child Counseling issued by the Board of Behavioral Science Examiners, the Code of Ethics of the American Association for Marriage and Family Therapy, and the Code of Ethics of the California Association of Marriage and Family Therapists is mandatory. Students who knowingly or unknowingly violate any part of the laws or ethical code may be dismissed from the program without further qualification regardless of coursework completed or other academic achievement. Copies of the Laws and Regulations and Codes of Ethics accompany the MFCC Program and Clinical Training Manual which is distributed at Student Orientation.

   In addition to the requirement of maintaining a 3.0 GPA, students are reviewed for readiness to begin the clinical training sequence of the program. Students are evaluated regularly for skill development and adherence to legal and ethical standards.

   For additional information related to the marriage, family, and child counselor specialization and licensure, contact the Department of Counseling and School Psychology or the director of the specialization.

Specialization in School Counseling

The Master of Science in counseling with a specialization in school counseling includes coursework and experiences designed to meet the competencies required for the California Pupil Personnel Services Credential (Credential Code: 00800). This credential authorizes the holder to function as a counselor in grades K through 12. Additional information may be obtained from the Department of Counseling and School Psychology or
the director of the school counseling specialization. Students may opt to obtain this credential in either a 30-unit M.A. (with 18 additional units required for the credential) or a 60-unit M.S. sequence. The first year of both is completed in the Community-Based Block Program. The sequence of the degree must be planned in consultation with the program director. For those completing the M.S. and credential, a minimum of 60 units of 500-, 600-, and 700-numbered courses are required, including:

1. Prerequisites:
   - Admission to the University and the Department of Counseling and School Psychology for specialized study in school counseling.

2. Common Core (6 units):
   - ED 690 Procedures of Investigation and Report (3)
   - CSP 600 Counseling Communication Skills (2)
   - CSP 600L Counseling Prepracticum (1) Cr/NC

3. Foundations (minimum 9 units):
   - CSP 610A Determinants of Human Behavior: Physical
   - CSP 610B Determinants of Human Behavior: Social and Cultural (3)
   - CSP 610C Determinants of Human Behavior: Development (3)
   - CSP 610D Determinants of Human Behavior: School Learning (3)
   - CSP 615 Seminar in Multicultural Dimensions in Counseling (3)

4. Theory, Research, and Techniques (15 units):
   - CSP 620 Guidance Services in Public Education (3)
   - CSP 630 Determinants of Human Behavior: Personality (3)
   - CSP 635 Determinants of Human Behavior: Social and Cultural (3)
   - CSP 645 Career Development and Assessment (3)
   - CSP 647 Theory and Process of Counseling (3)
   - CSP 650 Theory and Process of Assessment (3)
   - CSP 660 Theory and Process of Consultation (3)
   - CSP 670 Theory and Process of Group Counseling (3)
   - CSP 680 Theory and Process of Consultation (3)

5. Integration and Application of Theory, Research, and Techniques (minimum 12 units):
   - CSP 730 Fieldwork in Counseling: School Counseling (3-6) Cr/NC
   - CSP 740 Practicum: Individual Counseling (3-9) Cr/NC
   - CSP 745 Fieldwork in Counseling: School Counseling (3-6) Cr/NC
   - CSP 780 Internship: School Counseling (2-12) Cr/NC

6. Additional requirements for specialization (minimum 3 units):
   - CSP 620 Guidance Services in Public Education (3)
   - CSP 640 Theory and Process of Appraisal (3)
   - CSP 650 Theory and Process of Assessment (3)
   - CSP 660 Theory and Process of Consultation (3)
   - CSP 710A Professional Seminar (3) or CSP 799A Thesis (3) Cr/NC
   - CSP 780A Professional Seminar (3)

8. Electives (12 units):
   - Selected with approval of adviser.

Students must receive a grade of C or better (Cr for credit/no credit graded courses) in every course to document attainment of the competencies required for the Pupil Personnel Services Credential. Students not meeting this requirement must immediately consult the department chair or the director of the school counseling specialization.

Adherence to the ethical principles of the American School Counselor Association is mandatory. Students who knowingly or unknowingly violate any part of the ethical code may be dismissed from the program without further qualification regardless of coursework or other academic achievement. A copy of the ethical principles is included in the student handbook distributed at orientation.

In addition to the required courses and experiences, the student must pass all components of the CBEST to be eligible for the credential. Students must have Certificate of Clearance prior to starting fieldwork (CSP 730), practicum (CSP 740), or internship (CSP 780). Students should contact the Credentials Office, ED-151, regarding the CBEST and Certificate of Clearance.

Students already holding a master’s degree in counseling or in a related area may apply for non-degree credential preparation in school counseling. This option is offered by the department when space and funding are available. These students must follow the regular application procedures and requirements. An individualized program of study may be designed on approval of the school counseling program director. To pursue the non-degree credential preparation, contact the school counseling program director.

**Specialization in School Psychology**

The Master of Science in counseling with a specialization in school psychology (Major Code: 08261) includes coursework and experiences for the development of competencies required for the California credential in school psychology (Credential Code: 00950). The credential authorizes the holder to function as a school psychologist from preschool through high school settings. Additional information may be obtained from the office of the Department of Counseling and School Psychology or the director of the school psychology specialization. The student should design the sequencing of the degree program in consultation with the adviser, and must complete a minimum of 62 units of 500-, 600-, and 700-numbered courses, including:

1. Prerequisites:
   a. Admission to the University and the Department of Counseling and School Psychology for specialized study in school psychology.
   b. Related undergraduate coursework in psychology, education, child development, and/or culture studies is strongly recommended.
   c. California Basic Educational Skills Test (CBEST) scores must be reported to the department prior to beginning this sequence of study. A photocopy will suffice.
   d. The student must apply for a Certificate of Clearance prior to beginning the sequence of study. Consult the Credentials Office, ED-151.

2. Common Core (6 units):
   - ED 690 Procedures of Investigation and Report (3)
   - CSP 600 Counseling Communication Skills (2)
   - CSP 600L Counseling Prepracticum (1) Cr/NC

3. Foundations (a minimum of 9 units):
   - Required courses:
     - CSP 610C Determinants of Human Behavior: Social and Cultural (3)
     - CSP 610D Determinants of Human Behavior: School Learning (3)
     - CSP 615 Seminar in Multicultural Dimensions in Counseling (3)

4. Theory, Research, and Techniques (a minimum of 12 units):
   - Required courses:
     - CSP 640 Theory and Process of Appraisal (3)
     - CSP 660 Theory and Process of Consultation (3)
     - CSP 670 Theory and Process of Group Counseling (3)

3. Electives (12 units):
   - Selected with approval of adviser.
CSP 670 Theory and Process of Group Counseling (3)
CSP 685 Theories of Marriage and Family Therapy (3)
or other course(s) in the department or in a related field.
5. Integration and Application of Theory, Research, and Techniques (a minimum of 12 units selected in consultation with the adviser).
   CSP 730 Fieldwork in Counseling: School Psychology (2-6) Cr/NC
   CSP 740 Practicum: Individual Counseling (3) Cr/NC
   CSP 752 Seminar and Practicum: School Psychology (3-6) Cr/NC
6. Additional requirements for specialization (a minimum of 11 units):
   CSP 621 Introduction to School Psychology (3)
   CSP 642A and 642B Individualized Appraisal of Learning Characteristics (4-4)
7. Research (a minimum of 3 units selected in consultation with the adviser).
   CSP 710A or 710B Professional Seminar (3)
   CSP 760 Advanced Seminar in School Psychology (3)
   CSP 770 Advanced Seminar in Counseling (3)
   CSP 799A Thesis (3) Cr/NC/SP
8. Electives (a maximum of 9 units).
   Electives must be chosen in consultation with the adviser to form a coherent cognate that complements the student’s program in school psychology.

In addition to the courses required for the Master of Science in counseling with a specialization in school psychology, the following courses or equivalents are required for the California School Psychology Credential:
   SPED 500 Human Exceptionality (3)
   CSP 745 Program Development and Evaluation in Pupil Services (3)
   CSP 780 Internship (2-12) Cr/NC

Students must maintain the university minimum 3.0 grade point average. Students must earn a grade of B- or better (Cr for credit/no credit graded courses) in every course to document attainment of the competencies required for the school psychology credential. Students not meeting this requirement must immediately consult with the adviser or the director of the school psychology specialization. In addition, three grades of B- or lower (including NC) are grounds for dismissal from the program regardless of a student’s overall GPA.

Adherence to the National Association of School Psychologists Principles for Professional Ethics is a mandatory requirement. Students who knowingly or unknowingly violate any part of the ethical code may be dismissed from the program without further qualification regardless of coursework or other academic achievement. A copy of the ethical principles is included in the program handbook which is distributed to students at orientation.

In addition to the required courses and experiences, the student must (a) receive the recommendation of the school psychology faculty and (b) pass all components of the CBEST for eligibility for the credential.

The school psychology program, including degree and credentials requirements, may be completed on three-, four-, or five-year plans. Students must maintain residency throughout their tenure in the program unless specifically granted a formal leave of absence. The final year, Counseling and School Psychology 780 (Internship) is a full-time experience.

Students already holding a master’s or doctoral degree in counseling, psychology, or a related area may apply for non-degree credential preparation in school psychology. These students must follow the regular application procedures and requirements. After admission to the program, an individualized program of study may be designed on approval of the school psychology faculty.

After receiving the school psychology credential and completing two years of post-internship, full-time service as a school psychologist in the public schools, the school psychologist is eligible to take the standardized examination for licensure as an educational psychologist in California.

### Selecting a Specialization

Students intending to pursue one of the three defined specializations should consult with the director of the specialization regarding application or declaration procedures. Students must declare their intent to specialize prior to filing the official program of study.
The College of Education offers programs which lead to teaching, specialist, and services credentials. Students who desire to seek a credential should consult with departmental advisers in order to determine their status and needed requirements. Information on these credentials is available in the Future Teachers Center, ED 107. The College of Education has obtained approval for programs leading to the following credentials:

### Approved Credential Program

* See School of Teacher Education, ED-100, (619) 594-6131 for more information.
** See Department of Policy Studies in Language and Cross-Cultural Development, ED-152, (619) 594-5155 for more information.

### Service Credentials

- Administrative Services
- Clinical - Rehabilitative Services (Department of Communicative Disorders)
- Health - School Nurse (School of Nursing)
- Pupil Personnel Services:
  - Child Welfare and Attendance (School Social Work)
  - School Counseling (Department of Counseling and School Psychology)
  - School Psychology (Department of Counseling and School Psychology)
- School Social Work (School of Social Work)

### Specialist Certificates

- Cross-Cultural Language and Academic Development (CLAD)
- Developing Gifted Potential
- Early Childhood Special Education
- Resource Specialist of Competence
- Supported Employment and Transition Specialist
- Teaching the Emotionally Disturbed/Behaviorally Disoriented

### Information Applicable to Both CLAD and B/CLAD Multiple Subject and Single Subject Credentials

Departmental admission to either the B/CLAD Multiple Subject or Single Subject credential program does not constitute admission to the university. Candidates who are entering the university for the first time, or who have graduated or who are graduating, and are planning to re-enroll for the credential program must file a separate application for admission to the university during the regular university application period.

### Students Who Seek to Complete a Credential

Teachers with Preliminary B/CLAD Multiple Subject or Single Subject credentials who are working toward Professional Clear certification may have individual programs designed to meet their needs and interest areas. Arrangements for evaluation of college credit and program design can be made through the Credentials Office, ED-151, (619) 594-5964.

A student transferring into San Diego State University to complete requirements for either the Preliminary or Professional Clear B/CLAD Multiple Subject or Single Subject credential must complete a minimum of six units of professional education coursework in residence at SDSU in order to be recommended for certification regardless of the extent of education work completed at other institutions.

### Evaluation of Credits

After an interval of five years, courses in education are reevaluated and subject to reduction in credit, in light of new requirements and changes in educational procedures. All courses taken either at this University or elsewhere must be approved by an official adviser in order to be credited toward meeting credential requirements or pattern requirements for a degree.

---

Specialist Credentials

- Reading/ Language Arts
- Special Education:
  - Education Specialist Credential for the Deaf and Hard of Hearing (Department of Communicative Disorders)
  - Early Childhood Special Education
  - Mild/ Moderate Disabilities
  - Moderate/ Severe Disabilities
  - Physical and Health Impairments
Multiple Subject Credential (Elementary Education)  
(Credential Code: 00200)

Multiple Subject-Professional Clear Credential

Persons interested in teaching in the traditional elementary school will typically pursue the Multiple Subject credential which authorizes teaching service in self-contained classrooms in preschools, grades K-12, and in classes organized primarily for adults (classrooms in which one teacher is responsible for all the subjects commonly taught). Recommendation for this credential requires:

1. A baccalaureate or higher degree.
2. Completion of an approved program of professional education, including student teaching and coursework in reading methods with a grade point average of 3.0 or higher.
3. Basic skills competency as demonstrated through passing scores on the California Basic Educational Skills Test (CBEST).
4. Demonstrated subject matter competency through completion of an approved waiver program (Liberal Studies) or passing scores on the PRAXIS Multiple Subjects Assessment for Teachers (MSAT) (must have scores taken within five years prior to recommendation).
5. Demonstrated knowledge of the principles and provisions of the United States Constitution through successful completion of a three-unit collegiate-level course or examination. (Courses are listed in General Catalog section on “Graduation Requirements,” IV. American Institutions Requirement, B.2. United States Constitution.)
6. Knowledge of health education in California, including substance abuse and nutrition: Community Health Education 101 or 320 and verification of CPR competency.
7. Demonstrated knowledge of PL 94-142: Needs of, and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming). TE 526.
8. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): EDTEC 470.
9. Completion of a fifth year of study (30 units of upper division or graduate-level coursework completed after issuance of the baccalaureate degree; coursework in professional preparation, including student teaching, may apply if completed after the baccalaureate degree).

The Professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

**Multiple Subject (Elementary)-Preliminary Credential**

Candidates may be recommended for Preliminary Multiple Subject teaching credentials when they have satisfied requirements 1, 2, 3, 4, and 5 listed above. Applicants whose academic programs allow them to meet these requirements concurrently with their baccalaureate degrees will be eligible for preliminary certification. The Preliminary credentials have the same teaching authorizations as the Professional Clear credentials and are valid for five-year periods. Holders of the Preliminary credentials must complete items 6, 7, 8, and 9 within that five-year time period in order to be renewed as Professional Clear credentials. Five-year preliminary credentials may not be extended without completion of the additional requirements within the original five years of issuance.

**NOTE:** Undergraduate students in the Multiple Subject credential program may register for concurrent postbaccalaureate credit in their final semester prior to obtaining a baccalaureate degree as explained in the section of this catalog on “General Regulations.”

**Admission Standards and Qualifications for the Multiple Subject Credential Program**

Candidates for the Multiple Subject Credential Program must satisfy the standards and qualifications listed below and submit complete application packets to the School of Teacher Education, ED 100. Contact the School of Teacher Education for application dates.

Completed application packets will include items verifying satisfaction of the following:

1. **CBEST Examination.** Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Multiple Subject credential program. Information may be obtained from the Test Office, SS-2549. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.
2. **Subject Matter Competency.** Students must verify completion of subject matter competency in diversified subjects commonly taught in self-contained classrooms prior to admission to the Multiple Subject Credential Program. This may be done through successful completion of the Liberal Studies major, Emphasis in Education or its equivalent at another California teacher-training institution or passing scores on the PRAXIS Multiple Subject Assessment for Teachers (MSAT). Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination and must be valid at the time of recommendation for the credential. Registration information and materials for the PRAXIS are available in the lobby of the Education building.
3. **Prerequisite Courses.** These courses or approved equivalents must be completed with grades of "C," "CR," or higher no more than five years prior to admission to the Multiple Subject Credential Program. The courses may be in progress at the time of program application.
   a. **Education 451, "Introduction to Multicultural Education."** This course provides an introduction to ethnicity, language, and culture in education, particularly the ways in which those factors differentially affect educational outcomes for children. The course assists in preparing teacher applicants to work with students from diverse backgrounds by examining both societal and personal belief systems and the ways that those beliefs are expressed in public school classrooms.
   b. **Mathematics 210, "Structure and Concepts of Elementary Mathematics I."** This course covers pre-number concepts; development of whole numbers, integers, and their operations; number theory; geometric concepts of two and three-dimensional spaces; problem-solving strategies. With approval of the mathematics adviser, any of the following courses may be substituted for Mathematics 210: Mathematics 121, 150, 312.

Candidates are required to submit unofficial transcripts from SDSU and official transcripts from all other colleges and universities attended including any current coursework-in-progress to verify completion of or enrollment in these courses.

4. **Grade Point Average.** Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates’ majors. GPAs vary according to discipline and graduating institution. GPA requirements are available in the School of Teacher Education, ED-100. Candidates are required to submit official copies of transcripts from all colleges and universities attended and unofficial copies of transcripts for SDSU coursework for GPA calculations.

5. **TB Clearance.** Evidence of a negative tuberculous test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from health agencies. Candidates may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a valid credential, candidates may submit their clearance application packets and fees concurrently with the applications packets.

6. **California Certificate of Clearance.** This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a valid credential, candidates may submit their clearance application packets and fees concurrently with program applications.

7. **Early Field Experience.** All candidates are required to participate in an early field experience in the public schools prior to admission to the program. This requirement can be satisfied through documented experience or completion of Liberal Studies 300 or Teacher Education 290 since August 1996.

8. **Appeals Process.** Candidates who do not meet all the admission requirements may petition the Multiple Subject Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the applications packets.

In addition to the minimum admissions standards identified above, the Multiple Subject Admissions and Retention Committee also may consider qualifications such as previous teaching experience, relevant working experience with children, and second language ability. Due to the number of applicants, applications to the program does not ensure admission.

**NOTE:** Appointments for discussion of individual concerns relative to the credential program may be made with the Multiple Subject Credential Program Adviser during the academic year through the School of Teacher Education, ED-100, (619) 594-6131. All candidates are urged to attend one of the regularly scheduled group advising sessions prior to making an individual appointment.

---

### Multiple Subject Credential with a Cross-Cultural, Language and Academic Development Emphasis (CLAD)

**Credential Code: 00200**

The program of study leading to the Multiple Subject Credential with an emphasis in Cross-Cultural, Language, and Academic Development (CLAD) prepares candidates to teach in classrooms serving the increasing number of children in our schools in situations where bilingual teachers are not available. The CLAD program provides candidates with more training than basic credential candidates in three areas: language acquisition/development, culture, and pedagogical strategies for English language development. This credential will help meet the critical shortage of bilingual teachers in California public schools by preparing entry level teachers to deliver specially-designed academic instruction in English promoting both language development and academic success in all content areas.

Candidates recommended for the Multiple Subject Teaching Credential with a Cross-Cultural, Language and Academic Development Emphasis (CLAD) must meet all the requirements for the Multiple Subject Preliminary Credential and satisfy the admission standards and qualifications for the Multiple Subject Credential program listed above. In addition, they must complete the following requirements:

1. **Experience Learning a Second Language**
   Six semester units of college coursework in a second language or equivalent experience such as three years of high school foreign language, Peace Corps training and service or residence in a non-English speaking country.*

2. **Prerequisite Course**
   Education 451 ........................................... 3 units

3. **Corequisite Courses**
   Education 516 ............................................ 1 unit
   Policy Studies in Language and Cross-Cultural Education 914 ........................................... 3 units
   OR
   Linguistics 550 ........................................... 3 units

*Already required for Liberal Studies major and some Single Subject majors.
Multiple Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Emphasis Credential: Spanish  
(Credential Code: 00200)

The Multiple Subject Bilingual Cross-Cultural Language and Academic Development credential (B/CLAD) emphasis: Spanish emphasis credential is available to students interested in teaching in a bilingual elementary school classroom. This credential authorizes the holder to teach in any self-contained bilingual or regular classroom in which one teacher is responsible for all the subjects commonly taught in the elementary schools.

With the passage of Proposition 227, requiring all students in public schools be taught in English unless a school has received a waiver, the Policy Studies Department and the College of Education remains committed to the training of teachers for the B/CLAD credentials. The B/CLAD credentials meet all of the requirements of the CLAD credential. The B/CLAD credential remains as the most desirable credential in California. Furthermore, the University is committed with developing leaders in cultural, economic, educational, scientific, social, and technical fields, as well as addressing the linguistic diversity of school communities. The University is primarily responsive to the people of California, as well as to the needs of the regional, national, and international communities it serves.

Candidates who will pursue this credential need to specify “Spanish emphasis” in the application for admission to SDSU (Code: 00200). Applications for program admission are available from Aztec Shops Campus Store. Packet includes the following information:

Standards for Admission

1. CBEST. Students must pass the California Basic Educational Skills Test prior to admission to the B/CLAD credential program. This examination is required by the Commission on Teacher Credentialing. Booklets containing registration forms and test information are available from the Test Office in SS-2549, (619) 594-5216. Call the PLC department for additional information on the CBEST.

2. Major. The Liberal Studies major, Emphasis in Education may be selected in preparation for the teaching credential. Students who have academic majors other than liberal studies are required to pass the commission-approved PRAXIS Multiple Subject Assessment for Teachers (MSAT). Candidates are urged to take this examination as early as possible. This is a prerequisite for admission into the B/CLAD Multiple Subject program. These scores must have been received within five years prior to recommendation. Information may be obtained through advisors in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152, and registration materials are available in the lobby of the Education building.

3. Prerequisite Courses.

Policy Studies in Language and  
Cross-Cultural Education 515 .......................... 3 units  
Education 451 .............................. 3 units  
Exercise and Nutritional Sciences 241A, 241B .... 2 units

Linguistics 420* or 520 .......................... 3 units  
Linguistics 452*................................. 3 units  
Linguistics 550 or Policy Studies in Language and  
Cross-Cultural Education 914 ....................... 3 units  
Mathematics 210** or 211 or 313............. 3 units  
Art 100 or 101 or 387; Music 102 or 343;  
Theatre 100 or 120 or 310 or 315........... 3 units

* Linguistics 420 and 452 are requirements for the Liberal Studies major.
** With approval of the mathematics adviser, any of the following mathematics courses may be substituted for Mathematics 210: Mathematics 121, 150, 312.

4. Grade Point Average. Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates’ majors. GPAs vary according to discipline and graduating institution. GPA requirements are available in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculations.

5. Letters of Recommendation. Two professional references and one letter of recommendation must be submitted attesting to the applicants following characteristics: (a) attitude, aptitude and ability to teach children; (b) personality and character; (c) academic ability. At least one letter should be from an elementary school teacher the student has worked with and the others may be from faculty and administrators.

6. Tuberculin Clearance. Evidence of a negative tuberculin test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMOs, or public health agencies.

7. Early Field Experience. Applicants must provide evidence of a minimum of 60 hours of experience with students in typical elementary classroom settings within the last five years. Evidence must be documented.

8. Oral English and Written Statement of Professional Goals and Philosophy. Have an interview with the admissions and retention committee of the PLC Department.

9. California Certificate of Clearance. This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a credential, candidates may submit their clearance application packets and fees to the Credentials Office, ED-151.

10. Credential Advising Appointment. Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Make appointment in ED-152, telephone (619) 594-5155.
11. **Language and Culture Examination.** All candidates must pass the PLC Department Spanish Language Proficiency and Cultural Awareness Examination prior to entering the credential program. Please call (619) 594-3218.

12. **Reading Instruction Competence Assessment (RICA).** California Education Code Section 44283 requires that candidates for the preliminary or clear credential multiple subject pass this RICA requirement. The purpose of this assessment is to ensure that the candidate possesses the knowledge and skills important for the provision of effective reading instruction to students. The RICA requirement applies to candidates who did not complete all credential requirements prior to October 1, 1998. Candidates must have passed the RICA in order to be able to file for the credential.

13. **Appeals Process.** Candidates who do not meet all the admission requirements may petition the PLC Department Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

14. **Application.** Applicants should complete application procedures the semester prior to beginning the credential program. Call the department for Policy Studies application deadline.

In addition to the minimum admissions standards identified above, the PLC Department Admissions and Retention Committee may also consider qualifications such as previous teaching experience and relevant working experience with children. Due to the number of applicants, application to the program does not ensure admission.

* Contact department for details.

**Preliminary Credential Requirements**

1. A bachelor’s degree (or higher) with any major other than education.

2. Completion of an approved program of professional education. (See Department of Policy Studies in Language and Cross-Cultural Education for further information.)

3. Passage of PRAXIS Multiple Subject Assessment for Teachers (MSAT) or approved waiver program (Liberal Studies major, Emphasis in Education).

4. Passage of the Spanish Language Proficiency and Cultural Awareness Examination.

5. Demonstrated knowledge of principles and provisions of United States Constitution through successful completion of three-unit college level course or examination. Courses are listed in General Catalog section on "Graduation Requirements," IV. American Institutions Requirement, B.2. United States Constitution.

6. Passage of California Basic Educational Skills Test (CBEST).

7. Passage of Reading Instruction Competence Assessment (RICA) Test.

**Clear Credential Requirements**

1. Completion of an approved fifth year program (a minimum of 30 upper division or graduate-level postbaccalaureate units).

2. Coursework/fieldwork to satisfy PL 94-142: Needs of and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming). (Teacher Education 526.)

3. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): Educational Technology 470.

4. Knowledge of health education in California, including substance abuse and nutrition: CHE 101, or 320 and verification of CPR competency.

5. Candidates are required to verify cardiopulmonary resuscitation.

The Professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

**Single Subject Credential (Secondary Education)**

(Credential Code: 00100)

**Single Subject–Professional Clear Credential**

Persons interested in teaching in the traditional secondary school will typically pursue the Single Subject credential which authorizes teaching service in departmentalized, subject matter classrooms in preschools, grades K-12, and in classes organized primarily for adults (classes where instruction is provided in only one subject). Candidates must verify subject matter competency in one of the following subject fields:

**ACCEPTABLE SINGLE SUBJECT CREDENTIAL AREAS AND APPLICABLE MAJORS**

- **Art:** Art
- **Business:** Accounting, Finance, Information Systems, Management, Marketing
- **English:** Communication, Comparative Literature, English, Journalism, Linguistics, Theatre
Recommendation for this credential requires:

1. A baccalaureate or higher degree.

2. Completion of an approved program of professional education, including student teaching with a grade point average of 3.0 or higher and coursework in reading methods. The required courses at SDSU are Teacher Education 903, 914, 922, 933, 954, 963, 964.

3. Basic skills competency as demonstrated through passing scores on the California Basic Educational Skills Test (CBEST).

4. Demonstrated subject matter competency through completion of an approved waiver program in one of the California Single Subject areas, through a combination of coursework and competency examinations, or through PRAXIS/SSAT examinations. Candidates should check with the School of Teacher Education, ED-100, to clarify the appropriate means for satisfaction of the subject matter competency requirement in their subject matter area(s). Competency must be verified and assessed by a designated departmental adviser regardless of the means of establishing knowledge proficiency.

5. Demonstrated knowledge of the principles and provisions of the United States Constitution through successful completion of a three-unit collegiate-level course or examination. (Courses are listed in the section of this catalog on “Graduation Requirements,” IV. American Institutions Requirement, C.2. United States Constitution.)

6. Knowledge of health education in California, including substance abuse and nutrition, Community Health Education 101 or 320 and verification of CPR competency.

7. Demonstrated knowledge of PL 94-142, needs or methods of providing educational opportunities to individuals with exceptional needs (mainstreaming): TE 526.

8. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): EDTEC 470.

9. Completion of a fifth year of study (30 units of upper division or graduate-level coursework completed after issuance of the baccalaureate degree; coursework in professional preparation, including student teaching, may apply if completed after the baccalaureate degree).

The Professional Clear Single Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

Single Subject–Preliminary Credential

Candidates may be recommended for Preliminary Single Subject teaching credentials when they have satisfied requirements 1, 2, 3, 4, and 5 listed above. Applicants whose academic programs allow them to meet these requirements concurrently with their baccalaureate degrees will be eligible for preliminary certification. The Preliminary credentials have the same teaching authorizations as the Professional Clear credentials and are valid for five-year periods. Holders of the Preliminary credentials must complete items 6, 7, 8, and 9 within that five-year time period in order to be renewed as Professional Clear credentials. Five-year Preliminary credentials may not be extended without completion of the additional requirements within the original five years of issuance.

Admission Standards and Qualifications for the Single Subject Credential Program

Candidates for the Single Subject Credential Program must satisfy the standards and qualifications listed below and submit complete application packets to the School of Teacher Education, ED 100. Contact the School of Teacher Education for application dates.

Completed application packets will include items verifying satisfaction of the following:

1. CBEST Examination. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Single Subject Credential Program. Information may be obtained from the Test Office, SS-2549. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.

2. Subject Matter Competency. Students must verify competency in a specified single subject area through a university assessment process which consists of reviewing coursework for completion of an approved teaching major or its equivalent at San Diego State University or another approved California teacher-training institution, passing scores on the appropriate PRAXIS/SSAT examinations, or a combination of coursework and examination scores. Competency will be assessed and verified by subject matter departments at SDSU. Requirements for the various single subject majors are listed with the academic majors in the General Catalog. Students who have completed approved waiver programs at other universities must still be assessed and verified by subject matter departments prior to admission to this university’s credential program. Early submission of completed application packets is encouraged to facilitate enrollment and preference in block placement. Applicants submitting materials late in the term may be considered on a “space available basis” only. Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination. Information and registration materials for all current examinations are available at the School of Teacher Education, ED-100. Students who have completed approved waiver programs at other universities must still be assessed by SDSU subject matter departments prior to admission to this university’s credential program.

3. Prerequisite Course. This course or approved equivalent must be completed with grades of “C,” “Cr,” or higher no more than five years prior to admission to the Single Subject Credential Program. This course may be in progress at the time of program application.

Education 451, “Introduction to Multicultural Education.” This course provides an introduction to multicultural education, particularly the ways in which those factors differentially affect educational outcomes for children. The course assists in preparing teacher applicants to work with students from diverse backgrounds by examining both societal and personal belief systems and the ways that those beliefs are expressed in public school classrooms.
4. **Grade Point Average.** Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates’ majors. GPAs vary according to discipline and graduating institution. GPA requirements are available in the School of Teacher Education, ED-100. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial copies of transcripts for SDSU coursework for GPA calculations.

5. **TB Clearance.** Evidence of a negative tuberculosis test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMO’s, or public health agencies.

6. **California Certificate of Clearance.** This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a valid credential, candidates may submit their clearance application packets and fees concurrently with program applications.

7. **Early Field Experience.** All candidates are required to participate in an early field experience in the public schools prior to admission to the program.

8. **Appeals Process.** Candidates who do not meet all the admission requirements may petition the Single Subject Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

In addition to the minimum admissions standards identified above, the Single Subject Admissions and Retention Committee may also consider qualifications such as previous teaching experience, relevant working experience with children, and second language ability. A personal interview may also be necessary. Due to the number of applicants, application to the program does not ensure admission.

**NOTE:** Appointments for discussion of individual concerns relative to the credential program may be made with the Single Subject Credential Program Adviser during the academic year through the School of Teacher Education, ED-100, (619) 594-6131. All candidates are urged to attend one of the regularly scheduled group advising sessions prior to making an individual appointment.

**Single Subject Teaching Credential with a Cross-Cultural Language and Academic Development Emphasis (CLAD)**

(Credential Code: 00100)

The program of study leading to the Single Subject Credential with an emphasis in Cross-Cultural, Language, and Academic Development (CLAD) prepares candidates to teach in classrooms serving the increasing number of children in our schools with limited English proficiency in situations where bilingual teachers are not available. The CLAD program provides candidates with training in three areas: language acquisition/development, culture, and pedagogical strategies for English language development. This credential will help meet the critical shortage of bilingual teachers in California public schools by preparing entry level teachers to deliver specially-designed academic instruction in English promoting both language development and academic success in all content areas.

Candidates recommended for the Single Subject Teaching Credential with a Cross-Cultural, Language, and Academic Development Emphasis (CLAD) must meet all the requirements for Single Subject Preliminary Credential and satisfy the admission standards and qualifications for the Single Subject Credential Program. In addition, they must complete the following prerequisites:

**1. Experience Learning a Second Language.** Six semester units of college coursework in a second language or equivalent experience such as three years of high school foreign language, Peace Corps training and service or residence in a non-English speaking country.

**2. Prerequisite Courses:**
- ED 451 Introduction to Multicultural Education ............ 3

**3. Single Subject CLAD Coursework:**
- ED 516 Models of Bilingual Education ......................... 1
- TE 903 Secondary School Student Teaching Seminar (Cr/NC) .................................................. 2
- TE 914 Teaching and Learning in the Content Area: Major ............................................................... 3
- PLC 914 Teaching and Learning in the Content Area: English Language Development/Spec. Des. Instr. in English ........................................ 3
- TE 922 Behavioral and Psychological Aspects of Teaching ................................................................ 3-4
- TE 933 Teaching of Reading in the Secondary School ................................................................. 3-4
- TE 954 Humanistic and Social Aspects of Teaching ........................................................................ 3-4
- TE 963 Secondary School Student Teaching I (Cr/NC/SP) .................................................. 3
- TE 964 Secondary School Student Teaching II (Cr/NC/SP) ................................................. 9-12

**Total Units** 30-35

**Single Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Emphasis Credential: Spanish**

(Credential Code: 00100)

The Single Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) Spanish Emphasis is available for students interested in teaching in a bilingual secondary classroom. This credential authorizes the holder to teach in any self-contained bilingual or regular classroom in which one teacher is responsible for teaching the given subject area.

Candidates who pursue this credential need to specify “Single Subject with (B/CLAD) Spanish Emphasis” in the application for admission to SDSU (Code: 00100). Applications for program admission are available from Aztec Shops Campus Store. Packet includes the following information:
Standards for Admission

1. CBEST. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to the Single Subject Bilingual Emphasis credential program. This examination is required by the Commission on Teacher Credentialing. Booklets containing registration forms and test information are available from the Test Office in SS-2549, (619) 594-5216. Call the PLC department for additional information on CBEST.

2. Subject Matter Competency. Students must verify competency in a specified single subject area through a university assessment process which consists of reviewing coursework for completion of an approved teaching major or its equivalent at San Diego State University or another approved California teacher-training institution, passing scores on the appropriate PRAXIS examinations, or a combination of coursework and examination scores. Competency will be assessed and verified by subject matter departments at SDSU. Requirements for the various single subject majors are listed with the academic majors in the General Catalog. Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination. Information and registration materials for the current PRAXIS/SSAT examinations are available in the lobby of the Education building.

3. Prerequisite Courses:
   - ED 451 Introduction to Multicultural Education 3 units
   - LING 420 Linguistics and English 3 units
   - PLC 400 The Secondary School and Bilingual Education 3 units
   - PLC 515 Bilingual Teaching Strategies 3 units

4. Grade Point Average. Candidates must have cumulative grade point averages (GPAs) within the upper one-half of undergraduate students in the candidates’ majors. GPA requirements are available in the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculations.

5. Letter of Recommendation. Two professional references and one letter of recommendation must be submitted attesting to the applicant’s following characteristics: (a) attitude, aptitude and ability to teach children; (b) personality and character; (c) academic ability. Letter of recommendation should be from a school teacher with whom the student has worked and the others may be from faculty and administrators.

6. Tuberculin Clearance. Evidence of a negative tuberculin test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMO’s, or public health agencies.

7. Early Field Experience. Applicants must provide evidence of a minimum of 45 hours of experience with students in typical classroom settings within the last five years. Evidence must be documented.

8. Oral English and Written Statement of Professional Goals and Philosophy. Have an interview with the admissions and retention committee of the PLC Department.

9. California Certificate of Clearance. This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. Submit clearance application packet and fees to the Credentials Office, ED-151.

10. Credential Advising Appointment. Each applicant must meet with a faculty adviser to plan an appropriate program, which includes a minimum of 31 units as defined by the Commission on Teacher Credentialing. Appointments can be made in ED-152, (619) 594-5155.

11. Language and Culture Examination. All candidates must pass the PLC Department Spanish Language Proficiency and Cultural Awareness Examination prior to entering the credential program. Please call (619) 594-3218.

12. Appeals Process. Candidates who do not meet all the admission requirements may petition the PLC Department Admissions and Retention Committee for individual consideration; petition forms must be submitted concurrently with the application packets.

13. Application. Applicants should complete application procedures the semester prior to beginning the credential program. Call the department for PLC application deadline.

In addition to the minimum admissions standards identified above, the PLC Department Admissions and Retention Committee may also consider qualifications such as previous teaching experience and relevant working experience with children. Due to the number of applicants, application to the program does not ensure admission.

Preliminary Credential Requirements

1. A bachelor’s degree with one of the approved single subject majors listed in the School of Teacher Education single subject teaching credential catalog section. Credentials can be granted only in the designated single subject credential areas.

2. Completion of an approved program of professional education. (See Department of Policy Studies in Language and Cross-Cultural Education for further information about the approved programs.)

3. Major Adviser’s Recommendation. Passage of subject matter examination(s) or waiver thereof through completion of one of the approved single subject credential majors listed below with a written recommendation from the Ryan major adviser.

   Art: Art
   Business: Accounting, Finance, Information Systems, Management, Marketing
   English: Communication, Comparative Literature, English, Journalism, Linguistics, Theatre
   Foreign Languages: Classics (Latin), French, German, Russian, Spanish
   Science: Biology, Physical Science
   Mathematics: Mathematics
   Music: Music
   Physical Education: Kinesiology (Specialization in Physical Education)
   Social Science: Social Science
   Communication, Comparative Literature, English, geoscience#, mathematics, physics#, and social science. Candidates for the science authorizations (noted with #) must also take and pass a general science examination. Candidates should check with the Policy Studies in Language and Cross-Cultural Education Department (PLC), ED-152, to clarify the appropriate means for satisfaction of the subject matter competency requirement.

4. Passage of the Spanish Language Proficiency and Cultural Awareness Examination.

5. Demonstrated knowledge of principles and provisions of United States Constitution through successful completion of three-unit college level course or examination. Courses are listed in General Catalog section on “Graduation Requirements,” IV. American Institutions Requirement, B.2. United States Constitution.

6. Passage of California Basic Educational Skills Test (CBEST).

NOTE: Undergraduate students in their final semester prior to obtaining a baccalaureate degree may sign up for concurrent postbaccalaureate credit as explained in the bulletin.

Clear Credential Requirements

1. Completion of an approved fifth year program (a minimum of 30 upper division or graduate-level postbaccalaureate units).

2. Coursework/fieldwork to satisfy PL 94-142: Needs of, and methods of providing educational opportunities to individuals with exceptional needs (mainstreaming) (TE 526).

3. Demonstrated knowledge of computer hardware, software, and applications to educational/classroom use (computer literacy): Educational Technology 470.

4. Knowledge of health education in California, including substance abuse and nutrition, Community Health Education 320, and verification of current CPR competency.

5. Candidates are required to verify cardiopulmonary resuscitation.

The professional Clear Multiple Subject credential is valid for five years and requires completion of a minimum of 150 hours of approved professional growth activities and 90 days of teaching-related activities in order to be renewed.

Reading/Language Arts Specialist Credential

(Credential Code: 00410)

San Diego State University offers a program leading to a Reading/Language Arts Specialist Credential. This credential authorizes the holder to function as a reading specialist in grades K through 12.

Requirements for Admission

1. A valid California basic teaching credential applicable within the range of grades kindergarten to 12.

2. Admission and planning interviews with a program adviser.

3. An approved basic course in methods and materials for teaching reading.

Program

Curricular/Instructional Strand                                      Units

Curriculum/Plan: Reading/Language Arts

Assessment

TE 632 Assessment and Evaluation of Reading and Language Arts................. 5

Research

TE 634 Seminar in Research Investigations in Reading and Language Arts ............................................. 4

Leadership

TE 638 Topics in Reading Education .................................. 1

TE 736 Field Experience as a Reading Specialist ................................ 2

Additional Requirements

1. A minimum of one year of full-time teaching experience (or the equivalent) within the range of grades kindergarten to 12.

2. Satisfactory completion of a comprehensive examination covering the program coursework.

3. Satisfactory completion of the GRE General Test.
Education Specialist Credentials in Special Education

San Diego State University offers programs leading to the following Education Specialist Credentials in Special Education authorized by the California Commission on Teacher Credentialing: Mild/Moderate Disabilities, Moderate/Severe Disabilities, Physical and Health Impairments, and Early Childhood Special Education. These credentials authorize the holders to teach students with designated disabilities in a variety of settings. These credentials require completion of Preliminary Level I requirements followed by completion of the Professional Level II requirements within five years of employment in an authorized setting. The Department also offers the Early Childhood Special Education Certificate which authorizes holders of other specialist credentials to work with children and their families from birth through pre-kindergarten. There are some common requirements between the Education Specialist credential programs and the Master of Arts degree. Once admitted, students must maintain a GPA of 3.0 and must successfully complete all practicum experiences. Only grades of C or better will count toward a degree, a credential, or a certificate.

Requirements for Admission

Candidates for any of the Education Specialist Credentials in Special Education must satisfy the following requirements within five years of employment in an authorized setting. The Department also offers the Early Childhood Special Education Certificate which authorizes holders of other specialist credentials to work with children and their families from birth through pre-kindergarten. There are some common requirements between the Education Specialist credential programs and the Master of Arts degree. Once admitted, students must maintain a GPA of 3.0 and must successfully complete all practicum experiences. Only grades of C or better will count toward a degree, a credential, or a certificate.

1. CBEST Examination. Students must pass the California Basic Educational Skills Test (CBEST) prior to admission to any of the programs that lead to an Education Specialist Credential in Special Education. Information may be obtained from the Test Office, SS-2549. Candidates are urged to take this examination as early as possible. Candidates are required to submit a photocopy of the individual score reports.

2. Subject Matter Competency. Students must verify completion of subject matter competency in diversified subjects commonly taught in self-contained classrooms prior to admission to the Education Specialist credential programs in Mild/Moderate Disabilities, Moderate/Severe disabilities, and Physical and Health Impairments. This may be done through successful completion of the Liberal Studies major or its equivalent at another California teacher-training institution or passing scores on the PRAXIS Multiple Subject Assessment for Teachers (MSAT). Test scores submitted for verification of subject matter competency are valid for five years from the date of the examination and must be valid at the time of recommendation for the credential. Registration information and materials for the PRAXIS are available through the Future Educators Center (ED 107).

For students applying for the Specialist Credential in Early Childhood Special Education, an appropriate major such as Child Development, Developmental Psychology, or Liberal Studies is required.

3. Prerequisite Courses.
   a. Education 451
   b. Mathematics 210
   c. Special Education 500, 501, 502, 527, and courses applicable to the credential area selected from Special Education 524, 525, and 528.

4. Grade Point Average. Students must have a cumulative grade point average (GPA) of 2.75 or above. Candidates are required to submit official transcripts from all colleges and universities attended and unofficial SDSU transcripts for GPA calculation.

5. Tuberculin Clearance. Evidence of a negative tuberculin test (these tests are valid for four years and must be in effect during the time that candidates are enrolled in the credential program). Clearance statements may be secured from Health Services, private physicians or HMOs, or public health agencies.

6. California Certificate of Clearance. This certificate represents a background clearance and check conducted by the State Department of Justice and Federal Bureau of Investigation. Turnaround time for the clearance can take as long as eight months for traditional finger printing. Therefore, applicants are advised to use Livescan. Possessors of K-12 California credentials may satisfy this requirement by submitting copies of those certificates. In lieu of the actual Certificate of Clearance or copy of a credential, candidates may submit their clearance application packets and fees to the Credentials Office, ED-151.

7. Program Application. Applicants must complete the departmental application form indicating the Specialist Credential program to which they are applying.

Level I Specialist Credential Programs

1. Core courses: Special Education 505, 553, 560, 662, 970, 980 (20 units)

2. Specialization courses:
   a. Mild/Moderate Disabilities: Teacher Education 910A (2 units), 930 (3 units); Special Education 534, 570, 647, 648, 970A, 980A, and 979 (for part-time students). (24-29 units)
   b. Moderate/Severe Disabilities: Teacher Education 910A (2 units), 930 (3 units); Special Education 510, 526, 535, 570, 635, 645, 647, 970B, 980B, and 470 and 979 (for part-time students). (30-35 units)
   c. Physical and Health Impairments: Teacher Education 910A (2 units), 930 (3 units); Special Education 510, 526, 534, 570, 647, 648, 970C, 980C, and 470 and 979 (for part-time students). (29-34 units)
   d. Early Childhood Special Education: Special Education 510, 526, 532, 635, 643A, 643B, 970D, and 980D in an adviser-approved specialty, 470 and 979 (for part-time students). (25-30 units)

Level II Specialist Credential Programs

Requirements for Admission

Candidates for any of the Level II Education Specialist Credentials in Special Education must meet the following requirements:
Education

1. University Standards. Students must satisfy University standards and qualifications for admission to postbaccalaureate standing.

2. Level I Credential. Students must hold or be eligible for a Preliminary Level I Education Specialist Credential or hold a valid out-of-state credential in a special education category comparable to a California Commission-approved Preliminary Level I program authorizing special education service. Level I or out-of-state credentials must be in the area of study for which students are seeking a Level II credential.

3. Employment. Students must be employed as a special education teacher in an early childhood or K-12 setting and submit a Verification of Employment form from the district in which they are employed.

4. Other. Students must complete or have completed Educational Technology 470 and any other requirements for the Level II, Professional Credential.

Program

1. Prerequisite: Special Education 975. (1 unit)

2. Core courses: Special Education 605 (1 unit) 650B (1 unit) and 681 in specialization area (3 units). (5 units)

3. Specialization courses:
   a. Mild/Moderate Disabilities: Special Education 634, 651, 653, and special emphasis elective (3 units) in consultation with adviser. (12 units)
   b. Moderate/Severe Disabilities: Special Education 651, 654, and special emphasis electives (3-6 units) in consultation with adviser. (9-12 units)
   c. Physical and Health Impairments: Not currently offered.
   d. Early Childhood Special Education: Special Education 655, and special emphasis electives (3-6 units) in consultation with adviser. (6-9 units)
Developing Gifted Potential Certificate

The purpose of this certificate program is to provide teachers and other education professionals with specialized preparation for supporting talent development and providing effective educational services to gifted and talented individuals in a diverse society. The certificate is designed to provide knowledge and skills to (a) encourage the development and expression of high potential, particularly among students currently underrepresented in formal programs for the gifted and (b) provide effective instruction to individuals formally identified as gifted and talented. Hence the program is designed for professionals working in regular and special classrooms settings.

Successful applicants must have completed a bachelor’s degree from an accredited institution. A minimum grade point average of 3.0 must be maintained in certificate coursework with no less than a grade of “C” in any course.

Required courses (15 units): Special Education 508, 644, 649, 654, 771. All courses completed with a grade of “B” or better are applicable to the Master of Arts degree in Education with a Concentration in Special Education and a Specialization in Gifted. For further information, contact Dr. Margie Kitano in the Department of Special Education.

Early Childhood Special Education Certificate Program

The Early Childhood Special Education Certificate is authorized by the California Commission on Teacher Credentialing. It is designed for individuals who have completed Level II coursework in Mild/Moderate or Moderate/Severe disabilities. Completion of the certificate extends their authorization from birth through 22. Individuals credentialed in other areas such as Deaf and Hard-of-Hearing, Physical and Health Impairments, and Visual Impairments are authorized to serve birth through 22, but may add the certificate for professional growth reasons if desired.

1. Prerequisite: Completion of Level II coursework in one of the Education Specialist credentials and course in early childhood development with focus on infants, toddlers, and preschoolers.

2. Certificate coursework: Special Education 526, 528, 532, 635, 643A, 643B, 970D. (21 units)

Resource Specialist Certificate of Competence

The Department of Special Education offers coursework leading to the California Resource Specialist Certificate. This certificate authorizes the holder to function as a Resource Specialist in special education settings. To be recommended for this certificate by San Diego State University, the candidate must hold a valid Learning Handicapped, Severely Handicapped, or Physically Handicapped credential, have completed three years of teaching in regular and special education settings, and must have satisfied the competencies specified in the four Resource Specialist courses: Special Education 645 or 648, 651, 652, 653.

Rehabilitation Administration Certificate

The purpose of this certificate program is to provide the student with administrative knowledge and skills needed to develop and supervise rehabilitation programs and services, in collaboration with consumers, in a variety of organizational settings. This academic certificate is designed for individuals who currently function or aspire to function as program coordinators and administrators in state rehabilitation agencies, community rehabilitation programs, disability management programs, and other programs and/or organizations involved in serving consumers with disabilities.

This is an advanced academic certificate at the postbaccalaureate level. Admission requirements are a bachelor’s degree in rehabilitation or a related field and relevant work experience in a rehabilitation organization or program. The certificate is intended to focus on diversity among consumer populations and service delivery systems within the student’s area of career interest. A focus on disability management is available. A master’s degree in rehabilitation counseling, as well as leadership experience in rehabilitation is strongly encouraged. Relevant career or academic training experience may be substituted in lieu of the above admission criteria at the discretion of the program director. A bachelor’s degree is required.

This 21-unit certificate includes the following courses:

ARP 710A Seminar in Rehabilitation (3)
ARP 745 Internship in Rehabilitation (3-9)

With the approval of the Program Adviser, 12 units selected from:

ARP 610 Educational Leadership (3)
ARP 680 Seminar in Administration, Rehabilitation and Postsecondary Education (2-6)
ARP 710B Seminar in Rehabilitation (3)
ARP 720 Educational Human Resource Development (3)
ARP 740 Advanced Seminar in Administration, Rehabilitation and Postsecondary Education (3)
ARP 747 Instructional Leadership in a Diverse Society (3)
ARP 755 Governance and Policy Development in Learning Organizations (3)
ARP 798 Special Study (1-6) Cr/NC/SP

Contact the Director of the Rehabilitation program at (619) 594-6406 (V/TTY) for further information.

Students must maintain a minimum grade point average of 3.0 in all certificate coursework with no less than a grade of “C” in any course. Only three units of coursework with a grade of “C” will count toward a certificate. Maximum of three units of coursework repeatable. Courses in the certificate program may be applied to a master’s degree if applicable.

Bilingual (Spanish) Special Education Certificate

This certificate program provides specialized preparation for teachers of learning handicapped children whose primary language is Spanish.

Prerequisites for admission include the following:

1. Completion of, or admission to, the departmental program for the Specialist Credential in Special Education (Learning Handicapped).
2. Special Education 527.
3. Spanish language proficiency at the S-3 (FSI 3) level.
4. Knowledge of the target culture and bilingual teaching strategies. Will satisfy prerequisites for Policy Studies in Language and Cross-Cultural Education 602. Proficiency may be demonstrated by passing the "Test of Culture and Teaching" used by the College of Education bilingual emphasis programs.

Certificate program requirements include the following: Policy Studies in Language and Cross-Cultural Education 553, 602, three units of special education selected with the approval of the department chair, and demonstration of competence in teaching learning handicapped students whose primary language is Spanish.

A grade point average of 3.0 must be obtained in the four courses. Contact the Department of Special Education for further information.

Cross-Cultural Language and Academic Development (CLAD) Certificate

The Cross-Cultural Language and Academic Development (CLAD) Certificate provides an interdisciplinary approach in linguistics and policy studies to prepare credentialed teachers in theory and application of English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE) methodology for linguistically diverse students in grades K-12.

A. Prerequisites: Linguistics 420 or 520.
B. Certificate Requirements:
   2. Six units of foreign language at the college level or equivalent.
   3. Completion of program with a 3.0 grade point average.
C. Candidates who hold valid basic K-12 teaching credentials will also be able to apply directly to the Commission on Teacher Credentialing for the state’s CLAD Certificate for public school service.

Apply in the Policy Studies Department, ED-152 or call (619) 594-5155 for more information.

Instructional Software Design Certificate

The purpose of this certificate is to prepare specialists who can develop or assist in the development of software to meet specific instructional, training or management needs. There are two competency areas incorporated in the certificate: instructional design and educational computing. Students must complete a minimum of 18 units with a 3.0 (B) grade point average and no less than a “C” in any course. For application or further information, see the director of the program in the Department of Educational Technology.

Prerequisites: A bachelor’s degree from an accredited institution with a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A satisfactory score on the verbal and quantitative sections of the GRE General Test.

Required Courses (18 units):
- EDTEC 540 Educational Technology (3)
- EDTEC 541 Multimedia Development (3)
- EDTEC 544 Instructional Design (3)
- EDTEC 561 Advanced Multimedia Development (3)
- EDTEC 671 Instructional Multimedia (3)

Electives (3) To be selected with the approval of the program director.

Instructional Technology Certificate

Refer to General Catalog.

Supported Employment and Transition Specialist Certificate

The purpose of this certificate is to prepare specialists who can develop and implement programs in supported employment and adult community living for youth and young adults with disabilities. A student may elect to emphasize programs for people with either moderately and mildly or severe and multiple disabilities. Students must complete a minimum of 21 units with a 3.0 (B) grade point average. Students are able to develop additional competencies in instructional interventions, living options, community networking, and assistive technologies. For application or further information, see the program adviser, Dr. Ian Pumpian, for the Supported Employment and Transition Certificate program in the Department of Administration, Rehabilitation and Postsecondary Education.

Prerequisites: A bachelor’s degree from an accredited institution with a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units attempted. A satisfactory score on the Graduate Record Examination. Introductory disability coursework and experience.

Required courses (9 units)
- SPED 501 Typical and Atypical Learning Processes (3) or
- ARP 584 Introduction to Rehabilitation Process (3)
- SPED 664 Issues Affecting Employment of Individuals with Severe Handicaps (3) or
- ARP 687 Placement Practices with Individuals with Disabilities (3)
- SPED 771 Directed Internship: Special Education (3) Cr/NC or
- ARP 743 Fieldwork in Rehabilitation (3) Cr/NC or
- CSP 730 Fieldwork in Counseling (3) Cr/NC

Twelve units of adviser approved Special Education; Administration, Rehabilitation or Postsecondary Education; or Counseling and School Psychology coursework.

The program adviser will meet with each certificate student to design an individualized program of study based on the student’s educational background and professional experience. Student may enroll in certificate program and master’s degree program concurrently.

Teaching the Emotionally Disturbed/Behaviorally Disordered Certificate

This certificate provides specialized preparation for teachers of children with severe emotional disturbance who have been labeled as severely emotionally disturbed/behaviorally disordered in the school setting, including those children labeled as seriously emotionally disturbed.

Prerequisites to admission to the certificate program include the following:
1. Completion of the departmental program for the Specialist Credential in Special Education (Learning Handicapped or Severely Handicapped).

2. A graduate grade point average of 3.0.

3. Interview with program faculty.

Program requirements for the Certificate in Teaching the Emotionally Disturbed/Behaviorally Disordered include the following: Special Education 529, 634, 647, 648, 677, 771 (3 units, with approval of adviser), and demonstrated competence in teaching emotionally disturbed/behaviorally disordered students.

A grade point average of 3.0 is required for certificate coursework. Contact the Department of Special Education for further information.

**Workforce Education and Lifelong Learning Certificate**

The Workforce Education and Lifelong Learning Certificate offers advanced study and field-based research opportunities for educators interested in assuming leadership roles in the development of education and training programs for non-college bound youth and adults. Employment opportunities include positions as training specialists, instructional developers, program administrators, and instructors in community colleges, adult education programs, and job training programs.

Improving the knowledge and skills of families and workers is one of the most important challenges facing American education. Economists note that even if school reform could be rapidly accomplished, it would have minimal influence on productivity, literacy, or quality of life in the workplace during the next 20 years because out-of-school youth and adults are not subject to school reform, and they will constitute the vast majority of the American workforce until well into the next century.

Successful applicants must have completed a bachelor’s degree from an accredited institution and demonstrate a record of excellence in working with youth or adults in schools, agencies, or employer-sponsored education and training programs. A minimum grade point average of 3.0 must be maintained in certificate coursework.

Required courses (12 units):
- EDTEC 544 Instructional Design (3)
- ARP 565 Psychological Foundations of Adult and Vocational Education (3)
- ARP 631 Seminar in Instructional Methods and Materials: Postsecondary Education (3)
- ARP 730 Seminar in Adult Learning (3)

Electives: Three units selected with approval of the certificate program director. For further information, please contact Dr. William Piland, the program director in the Department of Administration, Rehabilitation and Postsecondary Education.
Courses Acceptable on Master's and Doctoral Degree Programs in Education

UPPER DIVISION COURSE

516. Foundations of Bilingual Education (1)
Prerequisite: Credit or concurrent registration in Education 451.
Overview of models of bilingual education programs for language minority students.

GRADUATE COURSES

Students without classified graduate standing are not admitted to 600- and 700-numbered courses in Education.
Twelve units of professional education are prerequisite for enrollment in all graduate courses.

GENERAL

690. Procedures of Investigation and Report (3)
Research methods in education. Location, selection and analysis of professional literature. Methods of investigation, data analysis and reporting. Required of all applicants for advanced degrees in education.

696. Selected Topics in Community Influences on Learning and Curriculum Planning (1-3)
Prerequisite: Teaching experience.
Intensive study in specific areas of education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit six units of any 596 or 696 offered by the College of Education applicable to a master's degree.

791A. Evaluation Techniques (3)
Prerequisites: Education 690 and advancement to candidacy for the master's degree.
Theory and practice of instructional program and product evaluation.

791B-791C. Practicum: Evaluation (1-3)
791B: One lecture. 791C: Independent study.
Prerequisites: Education 791A and advancement to candidacy for the Master of Arts degree in education. Concurrent registration in Education 791B and 791C.
Supervised experience in conducting a program or product evaluation, strategy selection, procedures, reporting methods, culminating in a written project.

795A-795B. Seminar (3-3)
Prerequisites: Education 690 and advancement to candidacy for the Master of Arts degree in education.
An intensive study in selected areas of education culminating in a written project. Limited to students following Plan B for the Master of Arts degree in education.

797. Research (1-3) Cr/NC/SP
Prerequisites: Education 690 and advancement to candidacy for the master's degree.
Research in one of the fields of education. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy for the master's degree.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

DOCTORAL COURSES

800. Professional Seminar (1)
Prerequisite: Admission to doctoral program.
Identification of professional goals and research interests. Includes exposure to major research activities in all areas of program and discussion of current problems and trends in these program areas.

801. Seminar on Social and Cultural Foundations of Multicultural Education (3-4)
Prerequisite: Admission to the doctoral program or consent of the graduate coordinator. Students are required to have a background in the social sciences or humanities relevant to such educational issues as social behavior and minority cultures.
Social and cultural parameters that have contributed to the shaping of American society and affected developments in education in the last two decades. Emphasis on the impact on multicultural education and human social behavior in pluralistic societies.

804. Bilingual Education: Models and Current Research Trends (3-4)
Prerequisites: Education 801, a background in sociolinguistics or social anthropology and admission to the doctoral program or consent of graduate coordinator.
Analysis of existing models of bilingual education based on previously identified needs of linguistic minority students. Demonstrated needs from current research in classrooms by ethnographers. Significance of linguistic/cultural competencies for academic performance and validity of existing impact studies.

806. Ethnically Diverse Learners: Public Policy and Classroom Practice (3-4)
Prerequisites: Education 801 and admission to the doctoral program or consent of the graduate coordinator. Background in psychological foundations of education and educational policy is required.
National, state, and school policy directed at providing the minority learner with equal educational opportunity. Discussion of legislation for desegregation, bilingual education, school implementation cases and classroom practices as these relate to equal educational opportunity.

810. Seminar in Curriculum and Technology (3)
Prerequisite: Admission to doctoral program.
Curriculum and learning technologies. Technologies for teaching, learning collaboration, and assessment for diverse population. Legislation, theory, and best practices associated with technology-based instruction and information; critical appraisal of independent learning products and emergent delivery systems.
Prerequisite: Admission to the doctoral program or consent of the graduate coordinator.
Issues relating to handicapped individuals in society. Current and historical practices in education and treatment and impact of public policy on service systems. Maximum credit four units.

812. Planning and Supervising Programs for Persons with Special Needs (3)
Prerequisites: Admission to doctoral program or consent of graduate coordinator; Education 811 or extensive background in special education or related field.
Program planning and development in settings serving special populations. Policy analysis, systems modeling, normalization, change theory, needs assessment, personnel development, supervision, manpower and resources development. Emphasizing services to the handicapped, adjustment to family living.

814. Seminar in Curricular Change Processes (3)
Prerequisite: Education 810.
Description and analysis of curricular change processes in educational organizations. Emphasis on process of planned change and elements necessary for implementing and managing curricular change.

820. Advanced Educational Statistics (3-4)
Prerequisites: Education 690, Teacher Education 646, or equivalent graduate level course and consent of graduate coordinator.
Theory and practice of statistical inference for research in education. Probability and sampling theory, data collection and organization, computer applications in educational research, statistical significance testing and prediction, use of statistical computer program libraries.

822. Seminar in Analysis and Issues in Race and Ethnic Relations (3)
Prerequisite: Education 801.
Analysis of race and ethnic relations in education from a theoretical, research and action based perspective. Conceptual framework of race, ethnicity and prejudice theory needed for policies and strategies of reform in education to address unequal race relations.

823. Seminar in Action Oriented Policy Research in Multicultural Contexts (3)
Prerequisite: Education 801.
Multidimensional ways to resolve social problems. Development of community based issues, analysis, research and implementation.

824. Seminar in Institutional Change in Multicultural Contexts (3)
Prerequisite: Education 801.
Sociocultural dynamics of urban context, approaches for assessing institutional effectiveness, and strategies for developing and implementing educational innovations. Conceptual understanding of educational and social innovations that address multicultural context of school communities.

825. Reading Research (3)
Prerequisites: Master of Arts degree in reading or related language area, and two years of teaching experience.
Analysis of existing literature in reading research and its application to the field. Exploration of areas of research need.

826. Seminar in Major Issues in Education (3)
Prerequisite: Admission to doctoral program.
Current issues and problems in education and development strategies for leadership in diverse educational settings.

827. Seminar in Communication and Cognition in Education (3)
Prerequisite: Admission to doctoral program.
Roots of communication in a diverse society. Relationship between cognition and communication including mass media, as well as cross-cultural, and personal modes.

830. Seminar: Emerging Trends in Educational Systems and Technology (3)
Prerequisite: Admission to doctoral program.
Emerging problems and opportunities related to technology-based learning and human performance in various social, organizational, and cultural settings including schools, corporate training, and international environments.

831. Seminar: Educational Technology Research and Development (3)
Prerequisite: Admission to doctoral program.
Literature in educational technology research and its application. Issues relating to research in design and advances in theoretical foundations. Individuals or collaborative research related to student's job responsibilities and/or career interests.

832. Seminar in Leadership and Educational Technology (3)
Prerequisite: Admission to doctoral program.
Leadership and collaboration in educational technology at interpersonal, team, and organizational levels. Educational systems with emphasis on implementing appropriate organizational and cultural change.

833. Cognition and Interactive Learning (3)
One lecture and four hours of activity.
Prerequisites: Education 810 and 826.
Role of contemporary interactive media technologies in facilitating learning across varied populations. Interactions of mind and media as they enhance knowledge, perception, and action. Tools and environments for representing and transforming knowledge.

834. Design and Development of Technology-Based Learning Systems (3)
One lecture and four hours of activity.
Prerequisites: Education 810 and Educational Technology 644.
Theories, frameworks, and strategies for designing educational products and technology-based learning systems. Development, assessment, and implementation of proposals and specifications for technology-based learning and performance improvement across diverse settings and learners.

836. Technology and Learning Communities (3)
One lecture and four hours of activity.
Prerequisite: Education 810.
Use of distributed communications and computing networks such as the Internet and intranets to support learning communities in promoting global communication, democratic values, and positive systemic change.
837. Mentoring, Coaching, and Teaching Educational Technology (1-3)
Prerequisites: Education 810 and consent of graduate adviser.
Supervised development of curricula, courses, workshops, seminars, forums, coaching systems, or other ways to teach people in diverse settings and cultures to use educational technology and educational products to solve problems and improve learning and human relationships.

850. Seminar in Inquiry and Research in Education (3)
Prerequisite: Completion of 48 units in doctoral program.
Inquiry and empirical research in educational settings within public schools, postsecondary institutions, and public and private sector educational organizations, culminating in a dissertation proposal.

851. Seminar in Qualitative Methods of Inquiry (3)
Prerequisites: A master’s level course in research methods and admission to doctoral program.
Theory and methods of qualitative research and evaluation. Computer applications in qualitative research. Match methodology to research settings in education; design a research or evaluation proposal; collect and analyze data; and present results of qualitative.

870. Seminar in Emerging and Controversial Issues in Teaching and Learning (3)
Prerequisite: Admission to doctoral program.
Identification, review, and analysis of issues that have significant impact on education; emphasis on theoretical and research bases of these issues.

890. Advanced Seminar: Processes of Reading (3)
Prerequisite: Admission to doctoral program or consent of graduate coordinator and Education 825.
Linguistic, cognitive, and affective factors that influence a reader while processing texts. Models of reading process, discourse analysis of written text, and models of reading instruction.

895. Seminar (1-8)
Prerequisite: Admission to the doctoral program or consent of the graduate coordinator.
Investigation of a particular topic or issue, emphasis on empirical research in education. See Class Schedule for specific content. Maximum credit eight units applicable to an advanced degree.

896. Doctoral Internship in Education (2-15) Cr/NC
Prerequisites: Thirty units of doctoral coursework.
Applications of coursework to problems in community-based settings or knowledge-intensive organizations under the supervision of an experienced site-based mentor.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

899. Doctoral Dissertation (3-15) Cr/NC/SP
Prerequisites: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral program. Enrollment is required during the term in which the dissertation is approved.

Courses Acceptable on Master’s Degree Programs in Education

General

UPPER DIVISION COURSES

584. Introduction to Rehabilitation Process (3)
Background and legislation related to vocational rehabilitation, client services, role and function of rehabilitation counselor as a professional. Orientation to community rehabilitation agencies.

585. Applications of Rehabilitation Technology (3)
Prerequisite: Admission to rehabilitation counseling program or consent of instructor.
Provide rehabilitation professionals with knowledge and skills to assess assistive technology needs of individuals with disabilities and match those needs with appropriate adaptations, equipment, and/or resources to expand employment and related quality of life opportunities.

596. Topics in Administration, Rehabilitation and Postsecondary Education (1-3)
Selected problems in administration, rehabilitation and postsecondary education. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

680. Seminar in Administration, Rehabilitation and Postsecondary Education (2-6)
Prerequisite: Consent of instructor.
Study of administration, rehabilitation, or postsecondary education in a specialized field, such as a postsecondary institution, school district, subject field, or designated services. Field experience when appropriate. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

696. Advanced Topics in Administration, Rehabilitation and Postsecondary Education (1-3)
Prerequisite: Twelve units in Administration, Rehabilitation and Postsecondary Education.
Intensive study in specific areas of administration, rehabilitation and postsecondary education. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

740. Advanced Seminar in Administration, Rehabilitation and Postsecondary Education (3)
Prerequisite: Consent of instructor.
Study of a selected area in administration, rehabilitation or postsecondary education, such as educational law, finance, supervision, personnel procedures, etc. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units applicable to a master’s degree.
798. Special Study (1-6) Cr/NC/SP  
Prerequisite: Consent of staff; to be arranged with department chair and instructor. May involve fieldwork.  
Individual study. Maximum credit six units applicable to a master’s degree.

Educational Leadership  
UPPER DIVISION COURSE

565. Psychological Foundations of Adult and Vocational Education (3) I, II, S  
Prerequisite: Administration, Rehabilitation and Postsecondary Education 380 or 381.  
Learning processes of adult and vocational education students in relationship to theories of learning and methods of teaching.

GRADUATE COURSES

600. Principles of Educational Administration (3)  
Educational administration and leadership as a profession. Related organizational concepts and management theories. Principles and competencies for leadership and administrative practice as each relates to the aspiring school administrator.

605. Postsecondary Education (3)  
Philosophy, history, aims, scope, function, outcomes, principles and problems of postsecondary education. Relationship of K-12 education to postsecondary education. Fieldwork required.

610. Educational Leadership (3)  
Concepts and techniques of leadership, analysis of the factors and practice in the procedures of individual and group leadership as applied to educational environments.

611. Curriculum Theory and Development in Postsecondary Education (3)  
Prerequisite: Administration, Rehabilitation and Postsecondary Education 605 or appropriate experience.  
Process of curriculum change and improvement. Development and evaluation of curricula in postsecondary education and selection of appropriate teaching strategies to meet learning needs of students.

630. Curriculum Design and Management (3)  
Prerequisites: Administration, Rehabilitation and Postsecondary Education 610 and classified graduate standing.  
Administrator’s role in curriculum leadership and management in elementary, middle, and secondary school; emphasis on interrelationships within levels; supervision of curricular and supervisory personnel; use of research in curriculum development and implementation.

631. Seminar in Instructional Methods and Materials: Postsecondary Education (3)  
Prerequisite: Administration, Rehabilitation and Postsecondary Education 611 or appropriate experience.  
Teaching process at postsecondary education level addressing lesson planning, individualization of instruction, use of learning centers, interactive instruction, other audiovisual methods and procedures of evaluation.

652. Seminar in Instructional Improvement and Evaluation (3)  
Prerequisites: Administration, Rehabilitation and Postsecondary Education 630 and classified graduate standing.  
Improvement of instruction through application of principles and practices in assessment of teaching competency; development of teaching profiles; leadership skills in working with teachers to improve performance.

655. Administering Educational Organizations (3)  
Prerequisite: Administration, Rehabilitation and Postsecondary Education 610.  
Principles and practices in the administration and leadership of elementary, middle, junior high, and secondary schools and other educational organizations.

660. Field Experience in Educational Leadership (1-6) Cr/NC/SP  
Prerequisites: Nine units of required coursework in Administration, Rehabilitation and Postsecondary Education; classified graduate standing in the educational administration program.  
Supervised field experience in schools or other educational settings. Monthly sessions with university faculty. Application to take this course must be made during preceding semester. Maximum credit 10 units of which 4 units are applicable to a master’s degree.

707. Educational Law and Finance (3)  
Prerequisites: Completion of a graduate degree and approval of department.  
Legal and financial aspects of educational administration including implications for policy formulation in the areas of personnel, instruction, and resource management.

720. Educational Human Resource Development (3)  
Prerequisites: Completion of a graduate degree and approval of department.  
Human resource management in educational administration including selection and evaluation of staff, contract management, and staff development. Personnel managerial styles, staff leadership, and motivation techniques as to morale and productivity. Analysis of educational personnel systems and employee assistance programs.

727. Emerging Issues in Educational Leadership (3)  
Prerequisites: Completion of a graduate degree and approval of department.  
Identification and analysis of emerging local, national, and international issues impacting education.

730. Seminar in Adult Learning (3)  
Prerequisite: Administration, Rehabilitation and Postsecondary Education 611.  
Patterns and implications for adult life-long learning.

747. Educational Leadership in a Diverse Society (3)  
Prerequisites: Completion of a graduate degree and approval of department.  
Current theory and practice in meeting needs of diverse learners. Leadership and administration of educational organizations as political, complex systems requiring consensus-building dynamics in a multicultural society.
755. Governance and Policy Development in Learning Organizations (3)
Prerequisites: Completion of a graduate degree and approval of department.
Development of educational policy and impact of politics in governance and administration; control functions of federal, state, and local agencies; influence of lay citizens and special interest groups; roles of judiciary, employee organizations and students.

760. Internship in Educational Leadership (2-6) Cr/NC/SP
Prerequisite: Consent of instructor.
Internship for prospective educational administrators. Application to take this course must be made in the preceding semester by preregistration with the credential program coordinator. Released time may be required. May be repeated. Maximum credit 12 units applicable to the Professional Administrative Services Credential.

Rehabilitation Counseling

GRADUATE COURSES

645. Assessment and Career Development (6)
Four lectures and six hours of laboratory.
Prerequisite: Admission to graduate program in rehabilitation counseling.
Rehabilitation assessment, labor market information, and career planning implications. Current assessment approaches, counseling, and career theories related to individuals with disabilities.

648. Group Dynamics in Rehabilitation (3)
Prerequisite: Admission to graduate program in rehabilitation counseling.
Theory, dynamics, process and leadership function as applied to group work in rehabilitation. Development and application of group leadership skills/techniques for adjustment, support, skill training, self-directed groups, organizational problem solving and team-building groups in rehabilitation.

685A-685B. Medical and Psychological Aspects of Disability (3-3)
Prerequisite: Open to rehabilitation graduate students and practitioners.
Interchange of the individual and the environment covering disabilities from the perspective of each disability viewed in terms of functional capacities imposed and rehabilitative services needed.

687. Placement Practices with Individuals with Disabilities (3)
Two lectures and three hours of laboratory.
Prerequisite: Admission to rehabilitation counseling program. Determination of employment and community integration needs of individuals with disabilities. Theories and techniques are presented through case study methods. Strategies focus on continuous surveys and readings focus on employment needs and opportunities for individuals with disabilities.

710A-710B. Seminar in Rehabilitation (3-3)
Prerequisite: Completion of at least 24 units leading to Master of Science in rehabilitation counseling or enrollment in Rehabilitation Administration Certificate.
Selected topics with emphasis in research in rehabilitation counseling. See Class Schedule for specific content.

743. Fieldwork in Rehabilitation (3-6) Cr/NC
Prerequisite: Admission to graduate program in rehabilitation counseling.
Orientation to the rehabilitation process including organizational goals, operating strategies, responsibilities and ethics, employee role expectations in partnership with consumers and service providers. Maximum credit six units applicable to a Master of Science degree in rehabilitation counseling.

744. Practicum in Rehabilitation (3-12) Cr/NC
Prerequisite: Admission to graduate program in rehabilitation counseling.
Clinical supervision within rehabilitation systems as it relates to outreach and referral, career development, counseling, and caseload management. Maximum credit 12 units applicable to a Master of Science degree in rehabilitation counseling.

745. Internship in Rehabilitation (3-9) Cr/NC
Prerequisite: Completion of at least 24 units leading to Master of Science in rehabilitation counseling.
Supervised internship in rehabilitation setting which involves application of rehabilitation counseling experiences. Maximum credit of nine units applicable to a Master of Science degree in rehabilitation counseling.

746. Seminar in Rehabilitation with Consumers Who Are Deaf and Hard of Hearing (3)
Prerequisite: Consent of instructor.
Characteristics and needs of deaf and hard of hearing consumers. Procedures for collaborating with consumers to develop effective rehabilitation plans, supported employment, independent living and cross-cultural counseling through American sign language.
Courses Acceptable on Master’s Degree Programs in Counseling

UPPER DIVISION COURSES

585A. Human Sexuality for Counselors (3)
Prerequisite: Upper division course in human sexuality. Dimensions of human sexuality that bear directly on role and function of helping professions. Human sexual development, sexual variations, sexual dysfunctions, intimate lifestyles, treatment modalities and sexual ethics. Fulfills MFCC licensure requirement.

585B. Dynamics of Adjustment Behavior (3)
Prerequisite: Upper division course in abnormal psychology. Philosophies and dynamics of adjustment behavior, patterns and types of abnormal behavior, and treatment modalities. Fulfills MFCC licensure requirement.

596. Selected Studies (1-3)
Prerequisite: Consent of instructor. A series of lecture and discussion sessions centering on current problems in counseling and guidance. Designed to serve the needs of any person desiring to keep informed of developments in this area. May be repeated with new content. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Counseling Communication Skills (2)
Prerequisite: Concurrent registration in Counseling and School Psychology 600L. Introduction to the discipline of counseling, fields utilizing this discipline, and concepts underlying effective counseling practice and interpersonal communication.

600L. Counseling Prepracticum (1) Cr/NC
Three hours of practicum. Prerequisite: Credit or concurrent registration in Counseling and School Psychology 600. Development of self-understanding. Communication skills needed for becoming an effective counselor.

605. Seminar in Ethical and Legal Issues for Counselors (3)
Prerequisite: Credit or concurrent registration in Counseling and School Psychology 600. Ethical and value issues. Code of ethics and professional standards of major professional mental health associations from a case study perspective. Legal obligations, constraints, and privileges of marriage, family, and child counselors, school counselors, and psychologists.

610. Determinants of Human Behavior (3)
Theory and research in behavioral sciences related to biological bases of human behavior, emphasizing childhood and adolescence. Developmental physiology, medically related disabilities, chronic illness, treatment modalities, educational implications.

615. Seminar in Multicultural Dimensions in Counseling (3)
Issues, insights and techniques for improving effectiveness in working with culturally different populations.

620. Guidance Services in Public Education (3)
Historical, philosophical and legal bases of pupil personnel services; staff roles and relationships in a variety of organizational patterns.
621. Introduction to School Psychology (3)
   Introduction to school psychology: roles (assessing, counsel-
   ing, consulting); skills (innovative techniques, consultation); and
   issues (modifying the system, multicultural impact).

640. Theory and Process of Appraisal (3)
   Prerequisite: Education 690.
   Measurement theory and procedures, including interpretation of
   test results. Not open to students with credit in Counseling and
   School Psychology 645.

642A-642B. Individualized Appraisal of Learning
   Characteristics (4-4)
   Three lectures and three hours of laboratory.
   Prerequisite: Counseling and School Psychology 640. Coun-
   seling and School Psychology 642A is prerequisite to 642B.
   Administration and interpretation of instruments and tech-
   niques for assessing learning characteristics of children from mul-
   ticultural settings. 642A: Individualized intellectual assessment of
   school-aged children. 642B: Scholastic status, learning aptitudes,
   social maturity, interpersonal relations and behavioral adjust-
   ment.

645. Career Development and Assessment (3)
   Prerequisites: Counseling and School Psychology 620 and
   admission to school counseling program.
   Theories and methods in providing assessment models and
   career development programs in K-12 school settings. Role of
   counselor as developer and coordinator of activities, resources and
   school-to-work opportunities. Assessment models, methods, implic-
   tions for diverse populations, and test bias.

660. Theory and Process of Counseling (3)
   Prerequisites: Counseling and School Psychology 600 and
   600L.
   Counseling process theories, approaches to and techniques for
   counseling, and research concerning counseling effectiveness.
   Not open to students with credit in Counseling and School Psy-
   chology 667.

662. Counseling Interventions with Children and
   Adolescents (3)
   Prerequisites: Counseling and School Psychology 610C and
   660.
   Counseling theories, processes and approaches appropriate to
   children and adolescents in multicultural school and commu-
   nity settings. Application of theories and research for individual,
   group, and systems interventions.

670. Theory and Process of Group Counseling (3)
   Prerequisites: Counseling and School Psychology 600, 600L,
   and 610B.
   Group process, theories of group interaction, and group leader-
   ship techniques with children, adolescents, adults, couples, and
   families. Not open to students with credit in Counseling and
   School Psychology 667.

680. Theory and Process of Consultation (3)
   Prerequisites: Counseling and School Psychology 600 and
   600L.
   Consultation theory, process, and research for counselors and
   school psychologists. Emphasis on mental health and prob-
   lem-solving consultation in education and mental health settings.

684. Family Life Cycle Development (3)
   Prerequisite: Counseling and School Psychology 610C.
   Family development examined within sociocultural and tem-
   poral contexts. Addresses predictable and crisis transitions and
   implications for family therapy treatment.

685. Theories of Marriage and Family Therapy (3)
   Prerequisite: Counseling and School Psychology 660.
   Counseling modalities, family intervention strategies and tech-
   niques of co-counseling in marriage and family therapy. Sys-
   tems approaches and behavioral contracting. Fulfills MFCC
   licensure requirement.

686. Seminar: Gender and Ethnicity in Family
   Therapy (3)
   Prerequisites: Counseling and School Psychology 685 and
   740.
   Integration of gender and cultural factors into family systems
   therapy theory and practice.

687. Family Treatment of Substance Abuse (1)
   Prerequisite: Counseling and School Psychology 685.
   Systemic models of intervention for families and couples pre-
   senting problems related to substance abuse. Includes treatment
   issues of interdependence, power, intimacy, generational pat-
   terns, addiction, and relapse. Fulfills MFCC licensure requiremen

688. Family Systems Assessment of Child Abuse (1)
   Prerequisite: Counseling and School Psychology 685.
   Examines child abuse assessment within individual, family
   sociocultural, developmental and systemic frameworks. Treat-
   ment goals, issues and strategies derived from family systems
   therapies. Fulfills MFCC licensure requirement.

689. Family Counseling in the Schools (1)
   Prerequisite: Counseling and School Psychology 685.
   Roles and approaches of family counselor in working with
   schools for children’s school-based problems. Family systems
   theory and practice applied to family-school interface, cultural
   interaction, specific symptomology, and professional and ethical
   issues.

691. Violence in Couples’ Relationships (1)
   Prerequisite: Counseling and School Psychology 685.
   Sociocultural, developmental, family and individual contexts
   of violence in couples’ relationships. Assessment with a focus on
   systemic ideas and practices. Legal, ethical, and person-of-the-
   therapist influences on assessment.

692. Seminar in Couples in Therapy (3)
   Prerequisite: Counseling and School Psychology 684 and
   685.
   Explores and applies theory and practice of therapy with cou-
   ples in premarital, marital, non-marital, divorce, recoupling, and
   remarriage situations. Intra and intercultural issues and gender
   factors in coupling. Discussion of specific problems such as infi-
   dility or depression.

696. Selected Topics in Counseling and School
   Psychology (1-3)
   Prerequisite: Consent of instructor.
   Intensive study in specific areas of counseling and school psy-
   chology. May be repeated with new content. See Class Schedule
   for specific content. Maximum credit six units applicable to a
   master’s degree. Maximum combined credit of six units of 596
   and 696 applicable to a 30-unit master’s degree.
710A-710B. Professional Seminar (3-3)
Prerequisites: Education 690. Six units from Counseling and School Psychology 640, 660, and 670. Counseling and School Psychology 710A and 740 are prerequisite to 710B.
Study of selected areas in counseling culminating in a written project with emphasis on counseling as a profession. See Class Schedule for specific content. May be repeated with new content. Maximum credit nine units applicable to a master’s degree.

730. Fieldwork in Counseling (2-6) Cr/NC
Prerequisite: Counseling and School Psychology 660 or 662 or 670.
Application of concepts and procedures of counseling or school psychology services in appropriate school or agency setting. Daily observation and practice. Weekly seminar sessions with university staff. Application to take the course must be made early during the preceding semester. May be repeated with new content. Maximum credit six units applicable to a master’s degree in counseling.

740. Practicum: Individual Counseling (3-9) Cr/NC
Prerequisite: Counseling and School Psychology 660.
Supervised experience in individual counseling and career planning. May be repeated with new content. Maximum credit nine units applicable to a master’s degree in counseling.

741. Practicum: Group Counseling (3) Cr/NC
Prerequisite: Counseling and School Psychology 670.
Supervised experience in group counseling and career planning. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

745. Program Development and Evaluation in Pupil Services (3)
Prerequisites: Counseling and School Psychology 620, 730, and Education 690.
Development, management, and evaluation of pupil services in schools. Analysis of models and practice in planning.

750. Advanced Seminar and Practicum: Individual Counseling (3-6) Cr/NC
Prerequisite: Counseling and School Psychology 740.
Supervised experience in individual counseling and study of problems, issues, and research. May be repeated. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree in counseling.

752. Seminar and Practicum: School Psychology (3-6) Cr/NC
Nine hours of practicum for three units.
Prerequisites: Counseling and School Psychology 730, credit or concurrent registration in Counseling and School Psychology 642A-642B.
School psychology in multicultural school settings; implications for standard and innovative school psychology practices.

760. Advanced Seminar in School Psychology (3)
Prerequisites: Counseling and School Psychology 621, 710A, and 752.
Study of selected areas in school psychology which culminates in a written project with emphases on research, problems and/ or issues. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

770. Advanced Seminar in Counseling (3)
Prerequisite: Advancement to candidacy or counseling experience.
Selected areas in counseling culminating in a written project with emphasis on research, problems, and issues. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

780. Internship (2-12) Cr/NC
Prerequisite: Counseling and School Psychology 730.
Supervised internship experience in counseling or school psychology activities. Application to take the course must be made early during the preceding semester. May be repeated with new content. Maximum credit six units applicable to a master’s degree. Maximum credit 24 units applicable to the specialization in school psychology.

798. Special Study (1-6) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree. May involve fieldwork.

799A. Thesis (3) Cr/NC/SP
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the Master of Science degree in counseling.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Thesis 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

760. Advanced Seminar in School Psychology (3)
Prerequisites: Counseling and School Psychology 621, 710A, and 752.
Study of selected areas in school psychology which culminates in a written project with emphases on research, problems and/ or issues. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

770. Advanced Seminar in Counseling (3)
Prerequisite: Advancement to candidacy or counseling experience.
Selected areas in counseling culminating in a written project with emphasis on research, problems, and issues. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-6) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree. May involve fieldwork.

799A. Thesis (3) Cr/NC/SP
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the Master of Science degree in counseling.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Thesis 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.
Faculty
Donn C. Ritchie, Ph.D., Associate Professor of Educational Technology, Chair of Department
Brockenbrough S. Allen, Ph.D., Professor of Educational Technology
Bernard J. Dodge, Ph.D., Professor of Educational Technology
Allison Rossett, Ed.D., Professor of Educational Technology
Farhad Saba, Ph.D., Professor of Educational Technology
Robert P. Hoffman, Ph.D., Associate Professor of Educational Technology
Marcie J. Bober, Ph.D., Assistant Professor of Educational Technology

Courses Acceptable on Master’s Degree Program in Education

UPPER DIVISION COURSES

532. Production of Instructional Materials (3) I, II
Six hours of activity.
Instructional media production for professionals in organizational settings such as hospitals, law offices, accounting firms, publishing companies. Use of videotape, laser disc, multi-image and digital telecommunications for training. Not open to students in educational technology degree and certificate programs or to students with credit in Educational Technology 541.

540. Educational Technology (3) I, II, S
Six hours of activity.
Rationale, foundations, theories, careers, trends, and issues in educational technology. Implications of educational technology for instruction and information in schools, government, and corporations.

541. Multimedia Development (3) I, II, S
One lecture and six hours of laboratory.
Prerequisite: Basic computer literacy and elementary knowledge of an authoring system.
Systems, aesthetic, and learning theories applied to design of educational multimedia. Use of authoring systems to plan and prototype. Not open to students with credit in Educational Technology 532.

544. Instructional Design (3) I, II
One lecture and six hours of laboratory.
Prerequisites: Educational Technology 540 and 541. Pass GRE Writing Assessment Test or complete Rhetoric and Writing Studies 503W with a grade of B+ or better.

561. Advanced Multimedia Development (3)
Six hours of activity.
Prerequisites: Educational Technology 540 and 541.
Research-based guidelines, design languages and object-oriented thinking applied to development of media-based learning systems. Two- and three-dimensional graphics, animation, video, sound, and virtual reality techniques.

570. Advanced Teaching with Technologies (3)
Prerequisite: Educational Technology 470.
Design of constructivist lessons and units using Internet resources. Use of visual organizing tools and databases for instruction and assessment. Tools for professional knowledge base organization and electronic portfolios.

572. Technology for Course Delivery (3) I, II
One lecture and six hours of laboratory.
Prerequisite: Educational Technology 541.
Use of technology to support planning, presenting and managing instructor-led courses.

596. Topics in Educational Technology (1-3)
Selected problems in educational technology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

640. Psychology of Technology-Based Learning (3)
Six hours of activity.
Prerequisite: Educational Technology 544.
Principles of human learning and cognition applied to design and use of technology-based learning systems. Development of research-based design guidelines. Media as channels for educational communications and as environments for learning by doing.

644. Advanced Instructional Design (3)
Two lectures and three hours of laboratory.
Prerequisites recommended: Educational Technology 540 and 544.

650. Distance Education (3)
Two lectures and three hours of laboratory.
Prerequisite: Educational Technology 541. Recommended: Educational Technology 572.
Theories and models of tele-education at home, place of work and school. Design, development, and evaluation of instructor-led and learner-directed tele-lessons for integrated electronic dissemination systems. Social, economic and organizational context of learning at a distance.
653. Multimedia and Hypermedia (3)
One lecture and six hours of laboratory.
Prerequisite: Educational Technology 561.
Design and analysis of educational multimedia as dynamic systems. Synthesis of art, drama, and music within framework of learning theory.

670. Exploratory Learning Through Simulation and Games (3)
One lecture and six hours of laboratory.
Prerequisites: Educational Technology 540 and 541.
Design, evaluation and use of simulations and games for education and training. Instructional applications of computer-based simulations, interactive fiction, board games and role play.

671. Instructional Multimedia (3)
One lecture and six hours of laboratory.
Prerequisites: Educational Technology 544 and 561.
Advanced design of multimedia learning environments using frame-based and object-oriented approaches. Usability testing. Integration of multimedia products with instructional programs and systems.

684. Management of Educational Technology (3)
Six hours of activity.
Prerequisite recommended: Educational Technology 544.
Management of instructional design and training projects and programs. Role of educational technology and training in organizations. Recent trends evaluated.

685. Informational and Instructional Technologies for Organizations (3)
Six hours of workshop and activities.
Prerequisites: Educational Technology 540 and 541.
Organizational and informational technologies to support instructional products and services. Individual, team, and organizational analyses. Incentives, feedback, coaching, job-aid, selection and other strategies in relation to instructional technologies.

700. Seminar in Educational Technology (1-3)
Prerequisite: Educational Technology 540.
Selected areas, topics in educational technology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

775. Directed Internship in Educational Technology (2-6) Cr/NC
Prerequisite recommended: Educational Technology 644.
Supervised internship in an educational setting. Application to take course must be made during preceding semester.

798. Special Study (1-6) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. May involve fieldwork. Maximum credit six units applicable to a master’s degree.
Policy Studies in Language and Cross-Cultural Education

In the College of Education

Faculty
Alberto M. Ochoa, Ed.D., Professor of Policy Studies in Language and Cross-Cultural Education, Chair of Department
Ruben W. Espinosa, Ph.D., Professor of Policy Studies in Language and Cross-Cultural Education
Natalie A. Kuhlman, Ph.D., Professor of Policy Studies in Language and Cross-Cultural Education
Richard Pacheco, Ph.D., Professor of Policy Studies in Language and Cross-Cultural Education
Russell L. Young, Ph.D., Associate Professor of Policy Studies in Language and Cross-Cultural Education
Adelina V. Alegria, Ph.D., Assistant Professor of Policy Studies in Language and Cross-Cultural Education
M. Cristina Gomez, Ed.D., Assistant Professor of Policy Studies in Language and Cross-Cultural Education
Evangelina B. Jones, Ph.D., Assistant Professor of Policy Studies in Languages and Cross-Cultural Education

Courses Acceptable on Master's Degree Programs in Education

UPPER DIVISION COURSES

515. Bilingual Teaching Strategies (3)
Legal and historical context for bilingual education; bilingual program models and teaching strategies; language and academic assessment methods for grouping and evaluating bilingual students. Fieldwork required.

553. Language Assessment and Evaluation in Multicultural Settings (3)
Theories and methods of assessment and evaluation of diverse student populations including authentic and traditional models. Procedures for identification, placement, and monitoring of linguistically diverse students. Theories, models, and methods for program evaluation, achievement, and decision making.

596. Special Topics in Bilingual and Multicultural Education (1-3)
Prerequisite: Consent of instructor.
Selected topics in bilingual, cross-cultural education and policy studies. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Foundations of Democratic Schooling (3)
Prerequisite: Consent of instructor.
Analysis of relationships among ideology, culture, and power in educational context; key concepts in critical pedagogy applied to programs, curricula, and school restructuring.

601. Language Policies and Practices (3)
Prerequisite: Consent of instructor.
Formal and informal policies related to education of linguistically diverse students at micro/ macro level and in school contexts; analysis of bilingual and cross-cultural issues in cognition and literacy. (Formerly numbered Policy Studies in Language and Cross-Cultural Education 653.)

602. Cross-Cultural Context of School Communities (3)
Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.
Cultural competence values and behaviors; status equalization; and sociolinguistic repertoire within learning situations. How organizational policies and practices and diversity impact individuals and institutions.

603. Community and Schools in a Diverse Society (3)
Prerequisite: Policy Studies in Language and Cross-Cultural Education 602.
Linguistic and cultural diversity of school and community. Development of community sociocultural scan; home and school collaboration; effects of home and school collaboration on achievement; responsibility of parent caretaker, stakeholder for student success.

612. Educational Ethnography in Multicultural Settings (3)
Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.
Theories and methods of ethnographic research as applied to classroom and community in multicultural settings, focusing on linguistic, paralinguistic, sociolinguistic and proxemic behaviors of teachers and students.

613. Organizational Strategies and Professional Development for the Multicultural School Community (3)
Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.
Leadership and change strategies for designing and implementing instructional programs, professional development approaches, effective organizational school climate that promotes a democratic society and schooling.
650. **Bilingual/Cross-Cultural Curriculum Development and Practice (3)**  
Prerequisites: Policy Studies in Language and Cross-Cultural Education 600 and 601.  
Theories of teaching models and curricula for multicultural contexts. Role of teachers as mediators of culture, language use and codes of power to promote biliteracy. Advanced concepts in critical pedagogy.

651. **Multicultural Methods and Curriculum in Content Areas (1-3)**  
Prerequisite: Policy Studies in Language and Cross-Cultural Education 601.  
Theories, methods, and curricular strategies for teaching content and cognition in and through English and other languages in multicultural settings. Meets CLAD certificate requirement.

652. **Multicultural Methods and Curriculum in Language Arts (3)**  
Prerequisite: Policy Studies in Language and Cross-Cultural Education 650.  
Theories, methods, and curricular strategies for teaching language arts and cognition in and through English and other languages in multicultural settings.

686. **Seminar in Multicultural Education (1-6)**  
Prerequisite: Consent of instructor.  
Topics dealing with current issues in multicultural education. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

798. **Special Study (1-6) Cr/NC/SP**  
Prerequisite: Consent of instructor; to be arranged with department chair and instructor.  
Individual study. May involve fieldwork. Maximum credit six units applicable to a master’s degree.

901. **Professional Portfolio I (1) Cr/NC**  
Prerequisite: Admission to B/CLAD multiple subject credential.  
Development of classroom portfolios. Skills to capture “real life” experiences of students in school community to contextualize learning.

902. **Professional Portfolio II (1) Cr/NC**  
Prerequisites: Policy Studies in Language and Cross-Cultural Education 901 and admission to B/CLAD multiple or single subject credential.  
Continuation of portfolio development, including resume and cover letter, components on reflective teaching; and models for teaching approaches, strategies, and methodologies in all subject areas.

903. **Bilingual Secondary Student Teacher Seminar (1-3) Cr/NC**  
Prerequisites: Policy Studies in Language and Cross-Cultural Education 924, 954, and concurrent registration in Policy Studies in Language and Cross-Cultural Education 964.  
Planning and organizing instruction for Spanish/English bilingual and nonbilingual student teaching assignments. Focus on role of the bilingual teacher and discipline specific methods in English, ESL, mathematics, science, social science, and foreign language. Course taught in Spanish and/or English.

910. **Teaching Mathematics to Bilingual Elementary Students (3)**  
Prerequisite: Admission to B/CLAD multiple subject credential program.  
Underlying learning theories for teaching mathematical concepts, computation, and problem-solving skills to bilingual students. Taught in Spanish.

911. **Teaching Social Studies to Bilingual Elementary Students (2)**  
Prerequisite: Admission to B/CLAD multiple subject credential program.  
Conceptual approaches for teaching bilingual social studies curriculum, incorporating sociocultural characteristics of multicultural community, social concepts, and community social issues. Taught in Spanish.

912. **Teaching Science to Bilingual Elementary Students (2)**  
Prerequisite: Natural Science 412A or 412B or 412C or 412D.  
Strategies for development of process skills and concept acquisition. Methodology for teaching activity-oriented science class in English and Spanish. Taught in Spanish.

914. **Teaching and Learning in the Content Area: Major (3)**  
Prerequisites: Education 451, Policy Studies in Language and Cross-Cultural Education 515, and admission to B/CLAD or CLAD single subject credential program.  
Teaching strategies in content specific fields from second language acquisition perspective taken concurrently with student teaching. See Class Schedule for specific content. May be repeated with new content.

923. **Psychological Foundations of Education and Bilingual Students (3)**  
Prerequisite: Admission to B/CLAD multiple subject credential program.  
Major theories of learning and cognition as applied to bilingual students and their relation to child development, first and second language acquisition, and approaches to teaching in bilingual classroom. Taught in Spanish and English.

924. **Behavioral and Psychological Aspects of Teaching in the Bilingual Classroom (1-4)**  
Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 954 and 963; admission to the single subject bilingual emphasis program.  
Bilingual learning theory as it affects adolescent growth, individualized instruction, classroom management and discipline, and methods of measuring and evaluating achievement. Taught in Spanish and English. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

931. **Skills in Teaching Reading to Bilingual Elementary Students (3)**  
Prerequisite: Admission to B/CLAD multiple subject credential program.  
Teaching reading in English, including methods, strategies, assessment, materials, and techniques of transition for implementing reading programs in the bilingual classroom.
932. Teaching Spanish Language Arts to Bilingual Elementary Students (3)
Prerequisite: Admission to B/CLAD multiple subject credential program.
Assessing language proficiency; selecting, designing, and evaluating learning experiences to develop Spanish and English language arts. Taught in Spanish.

933. Skills in Teaching Reading to Bilingual Secondary Students (3)
Prerequisites: Upper division standing. Admission to single subject bilingual emphasis program.
Methods of teaching and diagnosing reading skills in Spanish and English, including ESL methods and individualized instruction. Transition skills. Taught in Spanish.

954. Humanistic and Social Aspects of Teaching in the Bilingual Classroom (1-4)
Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 924 and 963; admission to the single subject bilingual emphasis program.
Interaction between school and society, including equity issues, values, sociocultural variables, achievement of Spanish/English bilingual students; models for appropriate curricula. Taught in Spanish and English. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

960. Student Teaching Seminar for Bilingual Elementary Students (1-4) Cr/NC
Prerequisites: Policy Studies in Language and Cross-Cultural Education 923 and admission to B/CLAD multiple subject credential program.
Bilingual instructional practices, classroom management, curricula discipline, micro-teaching in Spanish and English, legal liability, and daily problems encountered in the bilingual classroom. Taught in English and Spanish. Maximum credit four units.

961. Student Teaching for Bilingual Elementary Students (1-12) Cr/NC
Prerequisite: Admission to B/CLAD multiple subject credential program. Student must provide own transportation to student teaching site.
Field experience at two grade levels in a multicultural setting and a bilingual elementary classroom; student teacher assumes responsibility for planning and instruction for specified time to comply with State requirements. Maximum credit 12 units.

962. Student Teaching for Elementary Bilingual Students II (1-12) Cr/NC
Prerequisite: Policy Studies in Language and Cross-Cultural Education 961.
Field experience in a multicultural setting or a bilingual elementary classroom. Maximum credit 12 units.

963. Student Teaching for Bilingual Secondary Students I (3-4) Cr/NC
Prerequisites: Policy Studies in Language and Cross-Cultural Education 400; concurrent registration in Policy Studies in Language and Cross-Cultural Education 924 and 954; admission to the single subject bilingual emphasis program. Students must provide own transportation to student teaching site.
On-site, part-time experience to implement bilingual teacher competencies introduced in Policy Studies in Language and Cross-Cultural Education 515, 924, and 954.

964. Student Teaching for Bilingual Secondary Students II (9-12) Cr/NC
Prerequisites: Policy Studies in Language and Cross-Cultural Education 924 and 963; concurrent registration in Policy Studies in Language and Cross-Cultural Education 903. Students must provide own transportation to student teaching site.
On-site, full-day experience in State approved bilingual and nonbilingual classes to implement teacher competencies as developed in the total professional sequence. Maximum credit 12 units.

Courses Acceptable on Master’s Degree Programs in Education

UPPER DIVISION COURSES

500. Human Exceptionality (3) I, II, S
Historical, philosophical, and legal aspects of special education that affect identification and programming for diverse learners with exceptionalities. Characteristics of individuals with special needs and implications for adapting living and learning environments.

501. Typical and Atypical Learning Processes (3)
Prerequisites: Credit or concurrent registration in Special Education 500; concurrent registration in Special Education 502.
Theory, research, and processes in learning in relation to individuals with disabilities. Foundations of learning, development, and intervention.

502. Field Experiences in General and Special Education (1)
Three hours of observation/participation per week. Prerequisites: Concurrent registration in Special Education 501.
Observation and participation in general and special education classrooms and related school activities for students with disabilities.

505. Educational Services for Students with Serious Emotional Disturbance (1)
Prerequisites: Admission to credential program.
Educational needs and services for students with serious emotional disturbance. Classroom interventions and procedures.

508. Characteristics and Identification of Students Who are Gifted and Talented (3)
Historical and theoretical foundations, alternative and critical perspectives, characteristics and needs, identification models for a diverse society.

510. Adapting Communication Systems for Students with Severe Disabilities (1)
Prerequisites: Admission to credential program.
Adaptations of communications and communication systems for students with disabilities. Educational strategies that special education teachers can use to augment classroom communications. Alternative approaches to communication for students with moderate/severe disabilities.

524. Characteristics and Education of Students with Mild/Moderate Disabilities (3) I
Prerequisite: Special Education 500.
Historical and philosophical perspectives of programs related to students with mild/moderate disabilities. Research on educational programs, curricular approaches, and characteristics.

525. Characteristics and Education of Students with Moderate/Severe Disabilities (3) I
Prerequisite: Special Education 500.
Historical and philosophical perspectives of programs related to students with moderate/severe disabilities. Research on educational programs, curricular approaches, and characteristics with emphasis on services in context of school reform.

526. Characteristics and Education of Students with Physical, Health, and Sensory Impairments (3)
Prerequisite: Special Education 500.
Historical and philosophical perspectives, characteristics, needs, and supports for individuals with physical, health, and sensory impairments in educational, home, and community settings. Implications of health concerns for programming.

527. Special Education in a Pluralistic Society (3)
Prerequisites: Education 451; credit or concurrent registration in Special Education 500.
Historical and philosophical perspectives of cultural pluralism in special education and programs related to diverse students with disabilities. Research on curricular approaches and instructional needs. Sociocultural aspects related to disability, race, ethnicity, gender, and language.

528. Young Children with Disabilities and Their Families (3)
Prerequisite: Special Education 500.
Characteristics, needs, and educational programs and services for infants, toddlers, and preschoolers with disabilities and their families. Legislative requirements, models of service delivery, recommended practices, and family diversity.
529. Characteristics and Education of Students with Serious Emotional Disturbances (3) I
Prerequisites: Special Education 500 and 501.
Historical and philosophical perspectives of programs for students with emotional disturbances and behavior disorders, including review of research on student characteristics, educational programs, and curricular approaches.

532. Service Coordination for Infants and Toddlers with Disabilities (2)
Prerequisite: Special Education 528.
Skills and strategies for educators who coordinate services for young children with disabilities and their families. Children with low incidence disabilities and coordination with their primary service providers.

534. Classroom Assessment of Students with Mild/Moderate Disabilities (2)
Prerequisite: Admission to credential program.
Classroom assessment in general and special education for students with mild/moderate disabilities. Curriculum-based data collection strategies. Influences of cultural and linguistic diversity, and implications for curricular and instructional adaptations.

535. Social Networks and Supports for Individuals with Moderate/Severe Disabilities (1)
Prerequisite: Special Education 525 and a minimum of nine units in a credential program.
Developing and maintaining social support networks in the classroom and community for individuals with moderate/severe disabilities. Theoretical, conceptual, and empirical bases for implementation models.

553. Behavioral Strategies and Supports for Students with Disabilities (3)
Prerequisites: Special Education 500 and 501.
Positive behavioral supports for students with disabilities in general and special education settings. Current theories and programs in functional assessment and behavioral change. Applications in educational and community environments with diverse students.

560. Applications of Technology for Individuals with Disabilities (3) I, II
Prerequisite: Special Education 500.
Educational applications of current technologies for learners with disabilities. Selection, modification, and classroom use of technologies to improve or bypass physical, sensory, communicative, learning, and social limitations.

570. Individualized Special Education Program Plans (1)
Prerequisite: Concurrent registration in Special Education 980.
Components of individualized education program plans, individualized family service plans, and individualized transition plans. Goals, objectives, and outcomes for program planning. Legal and ethical considerations.

596. Selected Topics in Special Education (1-4) I, II, S
Specialized study of selected topics in special education. May be offered as either a workshop or lecture/discussion. See Class Schedule for specific content. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

605. Advanced Behavioral and Health Supports (1)
Prerequisite: Admission to Level II credential or M.A. program in special education or related area.
Advanced approaches to dealing with behavioral crises and health issues in classroom, to include working with mental health specialists and school nurses.

634. Assessment: Students with Mild/Moderate Disabilities (3)
Prerequisites: Special Education 524 and 534.
Assessment for instructional decision making including alternative data collection strategies, models for analysis and synthesis of assessment information, influences of cultural and linguistic diversity, and implications for instruction.

635. Assessment: Early Childhood Special Education and Moderate/Severe Disabilities (3)
Prerequisite: Admission to credential program.
Models of assessment emphasizing observation and interviewing, performance-based approaches, transdisciplinary teaming, family-professional collaboration, and adaptations for specific disabilities, cultural, and linguistic diversity. Communicating and using assessment data for individualized program planning.

643. Educational Programs and Services for Young Children with Disabilities (3)
Prerequisite: Admission to credential program and concurrent registration in approved fieldwork.
Developing, implementing, and evaluating educational programs and services for young children with disabilities. Selecting and adapting curriculum and instructional approaches, collaborating with families from diverse cultural/linguistic backgrounds, and monitoring program effectiveness. Both Special Education 643A and 643B required. Maximum credit six units.
A. Preschoolers
B. Infants/Toddlers

644. Working with Gifted and Talented Students and Their Families (3)
Prerequisite: Admission to Level II credential program.
Research-based instructional strategies to promote higher level and creative thinking; counseling approaches; services to families; issues in differentiating learning experiences.

645. Issues in Curriculum and Instruction for Students with Severe Handicaps (3)
Prerequisite: Special Education 525.
Design and implementation issues of instructional programs for students with severe handicaps; approaches which foster school and community integration and active family involvement will be analyzed.

646. Educational Adaptation for Ethnolinguistically Diverse Students with Learning Handicaps (3)
Prerequisites: Special Education 527 and 634.
Data-based approaches to developing and selecting programs and establishing procedures for monitoring and evaluating progress of students with learning handicaps from diverse backgrounds.
### 647. Special Education Adaptations of Basic Skills Instruction (3)
- **Prerequisites:** Admission to credential program and concurrent registration in Special Education 970. Adaptations in curriculum and instruction in language development, reading, language arts, and mathematics for students with disabilities. Current research and practices related to linguistic, cultural, and ability differences.

### 648. Advanced Special Education Adaptations (3)
- **Prerequisites:** Special Education 647 and concurrent registration in Special Education 980.
- Advanced adaptations in curriculum and instruction in content areas, study skills, organizational strategies, and social and transition skills. English-as-a-second language approaches for students with disabilities. Research and practices related to linguistic, cultural, and ability differences.

### 649. Curriculum Models for Students Who Are Gifted and Talented (3)
- **Prerequisite:** Credit or concurrent registration in Special Education 644.
- Theory, research, and practice in curriculum design and program implementation for developing high potential.

### 650. Special Topics in Special Education (1-4)
- **Prerequisites:** Special Education 500, 501.
- Instructional sequences (mini-courses) focusing on a single topic or competency dealing with special education. Topics differ each semester to adjust to current literature in the field, training needs, and resource availability. Maximum combined credit of nine units for Special Education 650A, 650B, 650C, 650D applicable to a master's degree. Offered in four categories:
  - A. Consultant Skills/Multidisciplinary Teams
  - B. Affective and Social Development
  - C. Specialized Assessment Techniques
  - D. Instructional Programming

### 651. Legislation, Leadership, and Management for Special Education Services (3)
- **Prerequisite:** Admission to Level II credential or M.A. program in special education or related area.
- Implementation of laws, regulations, and compliance requirements in special education. Leadership approaches for managing school-related services within a multidisciplinary context.

### 652. Parent Education and Staff Development in Special Education (3)
- **Prerequisites:** Special Education 500 and 501, and 15 additional units of coursework in special education.
- Issues relating to and development of skills for working with parents and school staff to develop skills and competencies needed to optimize the educational progress of students with handicaps. Meets competencies for Resource Specialist Certificate.

### 653. Advanced Instruction, Collaboration, and Consultation in Special Education (3)
- **Prerequisites:** Admission to Level II credential or M.A. program in special education or related area.
- Advanced instruction, collaboration, consultation skills, and strategies for working with students, teachers, paraprofessionals, school personnel, other service providers, parents, and representatives from the community.

### 654. Adapting Curriculum for Community Involvement and Skill Generalization (3)
- **Prerequisite:** Admission to Level II credential or M.A. program. Designing and adapting curriculum to promote generalization of skills of individuals with moderate/severe disabilities for involvement across settings with a focus on community activities and organizations.

### 655. Leadership and Management in Early Childhood Special Education (3)
- **Prerequisite:** Admission to Level II credential or M.A. program.
- Program development and leadership in early childhood education with emphasis on recommended practices, legal and legislative issues, staff and parent development, funding, policy, and program evaluation.

### 658. Gifted Students from Diverse Backgrounds (3)
- Designing programs that consider culture, ethnicity, economic background, language, gender, disability, sexual orientation, and underachievement.

### 662. Communication and Collaboration in Special Education (3)
- **Prerequisite:** Admission to credential program and credit or concurrent registration in Special Education 980.
- Communication and collaboration skills for working with teachers and other professionals, paraprofessionals, parents, and representatives from the community. Listening and questioning techniques, interpersonal processes, family systems and needs, conflict resolution, decision-making models, and team functions.

### 664. Issues Affecting Employment of Individuals with Severe Handicaps (3)
- **Prerequisite:** Special Education 525.
- Transition from school special education programs into supported employment and community living: research issues, applied practices, and innovative strategies for enhancing integrated adult options.

### 677. Educational Management of Severe Behavior Disorders (3)
- **Prerequisite:** Special Education 553.
- Nature and educational treatment of severe behavioral problems in handicapped students. Review of research on effectiveness of various interventions and development of skills needed to implement appropriate strategies to evaluate, manage, and treat these behaviors.

### 681. Advanced Studies in Special Education (3)
- **Prerequisite:** Special Education 524 or 525 or 528.
- Educational theories, philosophies, research findings, issues and trends in area of exceptionality. Application of research to solution of educational problems. May be taken in each area of exceptionality:
  - A. Mild/Moderate Disabilities
  - B. Moderate/Severe Disabilities and Early Childhood
  - C. Developing Gifted Potential

### 696. Advanced Topics in Special Education (3)
- **Prerequisite:** Twelve units in special education.
- Intensive study in specific areas of special education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.
771. Directed Internship: Special Education (1-4) Cr/NC
Prerequisite: Permission of graduate adviser. Application to be made during previous semester.
Extensive daily participation or teaching in public schools and preparation for teaching of exceptional individuals. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-6) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. May involve fieldwork. Maximum credit six units applicable to a master’s degree.

970. Practicum: Students with Disabilities in General and Special Education (4) Cr/NC
Fifteen hours of observation/participation per week.
Prerequisites: Special Education 502 and consent of credential adviser.
Participation in general and special education programs for students with disabilities; supervised by a special educator. Integration and application of skills and knowledge gained in credential coursework. May be repeated in other specialties. Maximum credit four units applicable to each credential program.
A. Mild/Moderate Disabilities
B. Moderate/Severe Disabilities
C. Physical/Health Impairments
D. ECSE: Infant/Preschool

971. Fieldwork in Special Education (2-3) Cr/NC
Supervised observation and participation in classroom and related school activities of handicapped students (e.g., mentally retarded, gifted, learning disabled, and others). Maximum credit 12 units, of which no more than three units are applicable to a bachelor’s degree.

975. Professional Development Planning in Special Education (1)
Prerequisite: Completion of Level I credential in special education.
Planning for professional development including demonstration of implementation of policies and practices appropriate for providing services to students with disabilities.

979. Fieldwork Seminar (1) Cr/NC
Prerequisites: Admission to credential program and concurrent registration in Special Education 980.
Analysis and critique teaching performances using such protocols as videotapes, case studies, and observational data. Not applicable to the M.A. degree.

980. Advanced Practicum in Special Education (6) Cr/NC
Prerequisite: Consent of credential adviser.
Integration and application of specialization skills and knowledge. Participation supervised by a special educator. May be repeated in other specialties. Maximum credit six units applicable to each credential.
A. Mild/Moderate Disabilities
B. Moderate/Severe Disabilities
C. Physical/Health Impairments
D. ECSE: Infant/Preschool

Courses Acceptable on Master's Degree Programs in Education

UPPER DIVISION COURSES

511. Diagnosis and Remediation of Difficulties in Mathematics (3)
The assessment and remediation of underachievers in mathematics. Techniques in determining difficulties in mathematics and prescribing remedial work; for use by elementary and secondary classroom teachers and mathematics education specialists.

525. Discipline and Classroom Management (3) I, II
Prerequisite: Six upper division units in education, psychology or sociology.
Analysis of research and theories of classroom discipline, management, and teaching effectiveness, with practical application to the elementary and secondary classroom setting.

526. Teaching the Special Child in the Regular Classroom (2)
Prerequisite: Teaching credential or admission to multiple or single subject credential programs.

Knowledge, skills, and instructional programs for teaching handicapped students in the regular classroom. Meets the mainstreaming requirements for the California Multiple Subject credential (clear). Not open to students with credit in Special Education 550, Teaching the Special Child in the Regular Classroom.

530. Children's/Adolescents’ Literature (3) I, II
Survey of children’s/adolescents’ literature and its incorporation into the classroom curriculum.

596. Topics in Teacher Education (1-3 or 6) SP* I, II
Designed to meet the needs of individuals or groups of teachers who wish to develop or continue the study of some problem. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum six units of 596 and 696 applicable to a 30-unit master’s degree.

* Specified sections.
GRADUATE COURSES

600. Curriculum Development in Education (3)
Prerequisite: Consent of instructor.
Advanced study of the research in curriculum development, construction and evaluation.

604. Advanced Problems in Instruction (3)
Prerequisites: Teaching experience and consent of instructor.
Scientific research and philosophical principles which underlie school instruction.

605. Innovations in Instruction (1-3)
Prerequisite: Teaching experience.
Exploration of innovative instructional practice in the public and private schools, with emphasis on innovative teaching strategies. An evaluation of the motivational effect and structural validity of promising instructional practices. See Class Schedule for specific content. Maximum credit three units applicable to a master’s degree.

607. Seminar in Research in Curricular Problems (1-3)
Prerequisites: Consent of the Director of the School of Teacher Education and instructor.
Individual study by graduate students who have demonstrated exceptional ability. Maximum credit three units applicable to a master’s degree.

610A. Seminar in Mathematics Education - Elementary School (3)
Prerequisite: Consent of instructor.
Factors affecting the elementary school mathematics curriculum; recent trends and current research in the teaching of elementary school mathematics.

610C. Seminar in Science in Elementary Education (3)
Prerequisite: Education 609.
Advanced study of the problems of teaching science in the elementary school with emphasis on the literature of science education.

626. Advanced Educational Psychology (3)
Prerequisite: Teacher Education 923 or valid teaching credential.
Advanced study of the research in educational psychology and its application to learning and human growth.

630. Seminar in Reading Education (3)
Prerequisite: Education 690.
Advanced study of trends in reading instruction. Topics include developmental sequences in reading skills and abilities, reading in the content fields, individual differences and interests. Students will develop individual projects or problems.

631. Seminar in Language Arts (3)
Advanced study of problems in teaching language arts. The study of the scientific research and application in the field.

632. Assessment and Evaluation of Reading and Language Arts (5)
Four lectures and two hours of activity.
Prerequisite: Valid teaching credential; consent of instructor; and a course in methods and materials for teaching reading.
Theoretical knowledge and practical skill in assessing reading and language abilities using both formal and informal measures, with emphasis on informal inventories. Supervised experience using assessment materials. (Formerly numbered Teacher Education 536 and 636.)

634. Seminar in Research Investigations in Reading and Language Arts (4)
Prerequisite: Consent of instructor.
Emphasis on interpreting, evaluating, conducting, and implementing findings of research and evaluation in reading and language arts.

637. Instructional Strategies for Reading and Language Arts (3-4)
Two lectures and two hours of activity for three units.
Three lectures and two hours of activity for four units.
Prerequisite: Credit or concurrent registration in Teacher Education 530.
Supervised experience utilizing instructional strategies in individual and small group settings.

638. Topics in Reading Education (1-6)
Prerequisite: California Teaching Credential.
A variety of instructional sequences (mini-courses), each focusing on a single topic or competency dealing with reading instruction. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

639. Literacy and Language (3)
Prerequisite: Teacher Education 930 or 933.
Theories of literacy and methods for developing literacy in language, reading and writing. Instructional methods and assessment techniques for children and adults.

646. Seminar in Educational Measurement (3)
Prerequisite: Valid teaching credential.
Problems in educational testing. Emphasis on construction, administration and validation of teacher-made tests.

652. Change in Education (3)
Prerequisite: Valid teaching credential.
Examination of the process of change in education, analysis of recent major changes and study of techniques for effecting change.

655. Sociocultural Foundations of American Education (2 or 3)
Prerequisite: Admission to teacher education.
Historical and philosophical nature of American schools as it relates to equity, pedagogy, and curriculum. Issues of equity, race, culture, gender, ethnicity, sexual preference, and social issues as they impact the classroom.

657. Philosophy of Education (3)
Advanced study of philosophical backgrounds of educational thought; a study of comparative philosophies, and an analysis of selected current trends and problems.

696. Selected Topics in Teacher Education (1-3)
Prerequisite: Valid teaching credential.
Intensive study in specific areas of teacher education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.
Maximum combined credit six units of any 596 or 696 offered by the College of Education on a master’s degree.

736. Field Experience as a Reading Specialist (2)
Prerequisite: Eighteen units of core courses.
Individually designed practicum for the reading specialist.
790. Seminar in Teacher Education (3)  
Prerequisite: Admission to candidacy.  
Intensive consideration of selected topics of current importance in teacher education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-6) Cr/NC/SP  
Prerequisite: Consent of staff; to be arranged with department chair and instructor.  
Individual study. May involve fieldwork. Maximum credit six units applicable to a master’s degree.

902. Classroom Management Skills (1)  
Two hours of activity.  
Prerequisite: Provisional or complete admission to multiple subject credential program.  
Skills in interpreting the legal aspects of education, identifying various kinds of school and classroom organization, and using instructional media and verbal stimuli to facilitate learning.

903. Secondary School Student Teaching Seminar (1-3) Cr/NC  
Prerequisites: Teacher Education 922, 933, 954, 963. To be taken concurrently with Teacher Education 964.  
To plan and organize instruction in relation to all competencies acquired and to be implemented in an on-site, full-time student teaching assignment. May be repeated with new content. See Class Schedule for specific content. Maximum credit three units.

910A. Teaching Mathematics in the Elementary School (1-3)  
Prerequisite: Admission to multiple subject credential program or possession of a teaching credential.  
Instructional methods for development of children’s conceptual understanding, computational, and problem-solving skills in mathematics, including use and development of materials and programs.

910B. Teaching Social Studies in the Elementary School (1-3)  
Prerequisite: Admission to multiple subject credential program or possession of a teaching credential.  
Developing curriculum, principles and materials of instruction, including instructional media and participation in elementary social studies education.

910C. Teaching Science in the Elementary School (1-3)  
Prerequisite: Admission to multiple subject credential program or possession of a teaching credential.  
Developing research-based science curriculum, principles and materials of instruction, including instructional media and participation in elementary science education.

914. Teaching and Learning in the Content Area: Major (3)  
Prerequisite: Admission to teacher education credential program.  
Teaching strategies in content specific fields of study taken concurrently with student teaching. May be repeated with new content. See Class Schedule for specific content.

922. Behavioral and Psychological Aspects of Teaching (1-4)  
Prerequisite: Admission to single subject credential program.  
To be taken concurrently with Teacher Education 954 and 963.  
Teacher competencies as they relate to learning theories, adolescent growth, self-assessment, measurement and evaluation. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

923. Psychological Foundations of Education (1-3)  
Prerequisites: Psychology 101 and admission to multiple subject credential program.  
Implementing learning process through interactive skills, using instructional principles to facilitate learning and changes in behavior and techniques used in assessing instruction and pupil growth.

930. Teaching Reading and Language Arts in the Elementary School (1-6)  
Prerequisite: Admission to multiple subject credential program or possession of a teaching credential.  
Selecting, designing, and evaluating appropriate learning experiences to assure children’s growth in reading and language arts. Includes nature of reading and language arts as a human behavior, various approaches, materials, and techniques used in teaching reading and language arts. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. (Formerly numbered Teacher Education 930A-930B.)

933. Teaching of Reading in the Secondary School (3)  
Teacher competencies as they relate to the teaching of reading/writing and diagnosing needs in the content areas. For students completing a credential at SDSU, this course must be taken concurrently with enrollment in first or second semester single subject credential program.

950. Community Study Skills (1-2)  
Two to four hours of activity.  
Prerequisite: Provisional or complete admission to multiple subject credential program.  
Skills in observing and interpreting professional values and the diversity of social, cultural, economic and educational values within elementary school communities.

954. Humanistic and Social Aspects of Teaching (1-4)  
Prerequisite: Admission to single subject credential program and concurrent registration in Teacher Education 922 and 963.  
Teacher competencies as they relate to values, awareness, self-concept, rights and responsibilities. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

960. Basic Student Teaching Seminar (1-2) Cr/NC  
Prerequisites: Admission to multiple subject credential program and concurrent registration in Teacher Education 965.  
Discussion of immediate problems in student teaching with emphasis on children’s growth and development.

961. Advanced Student Teaching Seminar (1-2) Cr/NC  
Prerequisites: Satisfactory completion of Teacher Education 960, 965; and concurrent registration in Teacher Education 966.  
Discussion of immediate problems in student teaching with emphasis on the influence of philosophical, social and cultural factors on learning.

962. Fieldwork in Community Service in Education (1-2)  
Two to four hours of activity.  
Working on a tutorial basis with children and youth. Maximum credit four units.
963. Secondary School Student Teaching I (1-6) Cr/NC/SP
   Prerequisite: Admission to single subject credential program. To be taken concurrently with Teacher Education 922 and 954. Teacher Education 933 is highly recommended to be taken at this time. Student must provide own transportation to student teaching site.
   On-site, part-time experience to implement teacher competencies developed in Teacher Education 922 and 954. Maximum credit six units.

964. Secondary School Student Teaching II (1-12) Cr/NC/SP
   Prerequisites: Teacher Education 922, 933, 954, 963. To be taken concurrently with Teacher Education 903. Student must provide own transportation to student teaching site.
   On-site, full-day experience to implement teacher competencies as developed from the total professional sequence. Maximum credit twelve units.

965. Basic Student Teaching in Elementary Schools (1-12) Cr/NC
   Prerequisites: Admission to multiple subject credential program and concurrent registration in Teacher Education 960. Day-to-day teaching experiences including selected instructional activities for which a teacher in a classroom is normally responsible.

966. Advanced Student Teaching in Elementary Schools (1-12) Cr/NC
   Prerequisites: Satisfactory completion of Teacher Education 960, 965, and concurrent registration in Teacher Education 961. Teaching experiences including all the instructional activities for which a teacher in a classroom is normally responsible.

967. Elementary School Student Teaching (15) Cr/NC (Offered at IVC only)
   Prerequisites: Admission to multiple subject credential program and concurrent registration in Teacher Education 960 and 961. On-site, full-day teaching experiences. Two consecutive eight week assignments at two different broad levels of schooling. Each eight week assignment will provide typical responsibilities of teachers through a graduated series of experiences, such as class preparation, instruction of students, maintaining accurate student records, attending faculty meetings and parent conferences.

968. Secondary School Student Teaching (15) Cr/NC (Offered at IVC only)
   Prerequisites: Admission to single subject credential program and concurrent registration in Teacher Education 903. On-site, full-day teaching experiences. Two consecutive eight week assignments in single subject content area; one in junior high school and one in senior high school. Each eight week assignment will provide typical responsibilities of teachers through a graduated series of experiences, such as class preparation, instruction of students, maintaining accurate student records, attending faculty meetings and parent conferences.
Associateships

Graduate teaching associateships and graduate assistantships in engineering are available to a limited number of qualified students. Application forms and additional information may be secured from the chair of the appropriate department.

General Information

The College of Engineering offers graduate study leading to the Ph.D. degree in engineering science/applied mechanics and Master of Science degrees in aerospace, civil, electrical, and mechanical engineering. The Ph.D. degree program is offered jointly with the University of California, San Diego. These curricula are designed to augment the student’s undergraduate training by advanced study in one of the various fields of engineering. Recognizing the increasing importance in modern technology of the engineer-scientist team, San Diego State University has developed an academic program which offers to individuals holding a first degree in engineering, an opportunity to pursue advanced study in a specialized area of knowledge.

Section I.
Master’s Degree Programs

Master of Science Degree

Admission to Graduate Study

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing as described in Part Two of this bulletin. Candidates for admission to aerospace engineering, civil engineering, electrical engineering and mechanical engineering programs must have attained a grade point average of at least 2.75 (when A equals 4) in the last 60 semester (90 quarter) units of technical study attempted in the undergraduate degree program. In addition, applicants must have a bachelor’s degree in a field of engineering appropriate to the field in which they desire to earn an advanced degree or in a field closely related thereto from an institution acceptable to the College of Engineering and the Graduate Division. If undergraduate preparation is deemed insufficient, the student will be required to take specified courses for the removal of the deficiency. Such courses may be in addition to the minimum of 30 units for the master’s degree in engineering.

Students should contact their specific engineering department for GRE test requirements. Letters of recommendation for graduate study are helpful but optional. Such letters should accompany the completed application form.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degrees

In addition to meeting the requirements for classified graduate standing as stated above, the student must satisfy the basic requirements for the master’s degree as described in Part Two of this bulletin. With the approval of the appropriate department the student working toward the master of science degree may elect either Plan A, requiring a thesis and an oral defense, or Plan B, requiring a comprehensive written examination.

Students shall arrange their coursework, in conference with their graduate adviser, according to the following requirements for the specific degree.

Aerospace Engineering
(Major Code: 09021)

General information: The Department of Aerospace Engineering and Engineering Mechanics offers graduate study leading to the Master of Science degree in aerospace engineering. Students are encouraged to engage in thesis research or special study projects. Available areas of research include experimental, theoretical and computational aerodynamics and fluid mechanics, structural mechanics, fracture mechanics, composite structures, random vibrations, fluid-structure interactions, acoustics, and aircraft and spacecraft stability and control.

Specific requirements for the degree: The student’s program prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Twenty-one units of 600- and 700-numbered courses in aerospace engineering and/ or engineering mechanics. At least one course must be outside the student’s area of specialization.

2. Nine additional units of 500-, 600-, and 700-numbered courses approved by the graduate adviser.

Areas of Specialization in Aerospace Engineering and Engineering Mechanics

1. Aerodynamics/Astronautics
   AE 601. Computational Fluid Mechanics (3)
   AE 612. Compressible Fluid Flow (3)
   AE 620. Incompressible Aerodynamics (3)
   AE 643. Laminar Flow (3)
   AE 644. Turbulent Flow (3)
2. **Structural Mechanics**  
EM 600. Seminar (1-3)  
EM 603. Theory of Vibrations (3)  
EM 611. Vibration of Elastic Solids (3)  
EM 621. Theory of Elasticity (3)  
EM 711. Structural Acoustics (3)  
EM 724. Theory of Plates and Shells (3)  
EM 727. Theory of Elastic Stability (3)

**Civil Engineering**

**General information:** The Department of Civil and Environmental Engineering offers graduate study leading to the Master of Science degree in civil engineering. Available areas of study include a concentration in environmental engineering and specializations in geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. Programs of study may also include combinations of the above areas and related courses from other disciplines subject to the approval of the graduate adviser.

Applicants with a bachelor's degree in an approved non-engineering curriculum must make up the deficiencies in biology, calculus, chemistry, computer skills, differential equations, fluid mechanics and hydraulics, physics, statics and dynamics, statistics, and thermodynamics, as determined by the graduate adviser.

**Concentration in Environmental Engineering**  
(Major Code: 09221)

**Specific requirements for the concentration:** The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. A minimum of 21 units of coursework, and up to nine combined units of Research (CEE 797), Thesis (CEE 799A), and Special Topics (CEE 798).

2. Eighteen units of 600- and 700-numbered courses in civil and environmental engineering. A total of no more than three units from courses numbered 797, 798, and 799A may be used to satisfy this requirement.

**Required courses:**
- CEE 554. Process Fundamentals of Environmental Systems (3)
- CEE 645. Aquatic Chemistry for Environmental Engineers (3)
- CEE 646. Microbiological Principles for Environmental Engineering (3)
- CEE 647. Physical and Chemical Processes of Water Pollution Control (3)
- CEE 648. Biological Processes and Bioremediation Engineering (3)

**Electives:**
- CEE 553. Environmental Engineering Laboratory (3)
- CEE 556. Air Quality Management (3)
- CEE 558. Solid Waste Management (3)
- CEE 560. Environmental Engineering Design (3)
- CEE 632. Computational Hydraulics and Hydrology (3)
- CEE 633. Environmental Hydrology (3)
- CEE 634. Surface Water Hydrology (3)
- CEE 637. Process Design for Industrial Waste Treatment (3)
- CEE 638. Sedimentation and River Engineering (3)
- CEE 797. Independent Research (1-3)
- CEE 798. Special Study (1-3)

**Specializations in Civil Engineering**  
(Major Code: 09081)

**Specific requirements for the specializations:** The student's program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Eighteen units of 600- and 700-numbered courses in civil engineering. A total of no more than three units from courses numbered 797, 798, and 799A may be used to satisfy this requirement.

2. A minimum of four courses should be selected from one of the specialty areas listed below; in exceptional cases, this requirement may be waived at the discretion of the graduate committee, provided the substitute course is in the College of Engineering and enhances a coherent program in a specific professional area.

3. At least twelve additional units of 500-, 600- or 700-numbered courses, approved by the graduate adviser.

**Areas of Specialization in Civil Engineering**

1. **Geotechnical Engineering**
   - CEE 640. Advanced Soil Mechanics (3)
   - CEE 641. Advanced Foundation Engineering (3)
   - CEE 642. Groundwater Seepage and Earth Dams (3)
   - CEE 644. Soil Dynamics (3)

2. **Structural Engineering**
   - CEE 605. Prestressed Concrete Structures (3)
   - CEE 607. Dynamics of Structures (3)
   - CEE 608. Earthquake Engineering (3)
   - CEE 610. Finite Element Analysis of Structures (3)
   - CEE 612. Advanced Concrete Materials (3)

3. **Transportation Engineering**
   - CEE 620. Traffic Flow and Control (3)
   - CEE 621. Transportation Demand Analysis (3)
   - CEE 622. Mass Transit Engineering (3)
   - CEE 781. Seminar in Transportation Engineering (2 or 3)

4. **Water Resources Engineering**
   - CEE 632. Computational Hydraulics and Hydrology (3)
   - CEE 633. Environmental Hydrology (3)
   - CEE 634. Surface Water Hydrology (3)
   - CEE 638. Sedimentation and River Engineering (3)

**Electrical Engineering**  
(Major Code: 09091)

**General information:** The Department of Electrical and Computer Engineering offers graduate study leading to a Master of Science degree in Electrical Engineering. The program provides balanced opportunities to study practical engineering design and do research. Research assistantships are available in the research areas of computer engineering, digital system design, VLSI design, digital signal processing and communications systems, electro-optic system design and instrumentation,
applied electron and molecular spectroscopy, power systems, and biomedical/rehabilitation engineering.

**Specific requirements for the degree:** The student’s program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Eighteen units of 600- and 700-numbered courses in electrical engineering.
2. At least six additional units of 500-, 600- or 700-numbered courses in the College of Engineering, or, with the prior approval of the graduate adviser, in the College of Sciences.
3. Six elective units of 500-, 600- or 700-numbered courses approved by the graduate adviser.
4. Prerequisites for all courses taken for the degree must be completed with a grade of C or better.
5. As a breadth requirement, each classified graduate student is required to complete, with approval of the graduate adviser, at least one course from four of the following disciplines: Communications, Computers, Electrical/Electronic Networks, Physical Electronics, Power/Control Systems. If the course content is appropriate, the graduate adviser may approve certain Electrical Engineering 596 and 600-numbered courses to satisfy part of the breadth requirement.

Disciplines and related courses:

- **Communications:** Computer Engineering 560; Electrical Engineering 553, 556, 558, 650, 652, 653, 657, 658.
- **Computers:** Computer Engineering 572, 577, 577L; Electrical Engineering 672, 675, 676, 678, 679.
- **Electronics:** Electrical Engineering 502, 530, 539, 570, 634.
- **Physical Electronics:** Electrical Engineering 534, 540, 541, 546, 642, 644, 645.
- **Power/Control Systems:** Electrical Engineering 520, 580, 581, 582, 583, 622, 680.

6. Students selecting Plan B must pass a written comprehensive examination. The examination tests the students’ understanding and mastery of fundamental principles and their ability to apply them to engineering problems. Members of the ECE faculty will grade the comprehensive examination for technical correctness, completeness, and clarity of expression. After two unsuccessful attempts, the student may not take the examination again without written permission from the department chair. The chair may require the student to successfully complete certain additional courses before taking the comprehensive examination a third and final time.

**Mechanical Engineering (Major Code: 09101)**

**General Information:** The Department of Mechanical Engineering offers graduate study leading to the Master of Science degree in mechanical engineering.

Available opportunities for thesis research and special study projects include heat transfer, thermodynamics, fluid mechanics, mechanical design which includes vibration, controls, CAD/CAM and robotics, materials, optimization and bioengineering.

**Specific requirements for the degree:** The student’s program, prepared in conference with and approved by the graduate adviser, must satisfy the following requirements:

1. Twenty-one units of 600- and 700-numbered courses in mechanical engineering to include 12 units in one area of specialization (designated as Group A and Group B) and Mechanical Engineering 797 or alternative courses subject to approval of graduate adviser.
2. Nine additional units of 500-, 600- and 700-numbered courses approved by the graduate adviser.

**Areas of Specialization in Mechanical Engineering**

**Group A: Thermal Sciences**

- ME 651. Advanced Thermodynamics (3)
- ME 652. Gas Dynamics (3)
- ME 663. Boundary Layers in Internal Flows (3)
- ME 671. Conduction of Heat and Mass Transfer (3)
- ME 675. Radiation Heat Transfer (3)

**Group B: Engineering Design**

- ME 610. Finite Element Methods in Mechanical Engineering (3)
- ME 614. Engineering Design: Analytical Methods (3)
- ME 621. Mechanical Vibrations (3)
- ME 632. Advanced Topics in Automatic Controls (3)
- ME 645. Mechanical Behavior of Engineering Materials (3)

**Master of Engineering Degree**

**General Information**

The Master of Engineering degree in Manufacturing and Design is a practice-oriented, interdisciplinary degree designed to meet the needs of students who are interested in furthering a career in engineering with a business/management emphasis. The student will select their own program in consultation with the Department of Mechanical Engineering graduate adviser subject to the guidelines listed below. In addition to the course requirements, the student will be required to complete a design project and a final written report. This phase of the program will be used to initiate the student to the problems and solutions that a practicing engineer will face. The program is aimed at the industrial employee who is seeking a career enhancement and also to the new baccalaureate graduate who wants to continue to study to be able to enter the work force with well-defined professional skills.

**Admission to Graduate Study**

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing as described in Part Two of this bulletin. Candidates must have attained an undergraduate grade point average of at least 2.75 (4 point scale) in the last 60 semester (90 quarter hours) of technical study. In addition, applicants must have a bachelor’s degree in mechanical engineering or a closely related discipline. If undergraduate preparation is deemed insufficient, the student will be required to take specified undergraduate courses to remove this deficiency. Such courses may be in addition to the 36 units required. Admission to the program will be limited to applicants who will have a background, interest, and expertise consistent with the demands of the design projects.
Specific Requirements for Master of Engineering Degree

The student’s program, prepared with the approval of the graduate adviser, consists of 30 units of coursework, of which no more than six units may be in 500-level courses, and six units of design project. Eighteen units will be in manufacturing and design, 12 units will be from Business Administration: Finance, Information and Decision Systems, Management, and Marketing areas; and six manufacturing and design project units as indicated:

Graduate Courses in Mechanical Engineering (18 units)
- ME 540. Nonmetallic Materials (3)
- ME 542. Manufacturing with Nonmetallic Materials (3)
- ME 544. Advanced Manufacturing Processes (3)
- ME 546. Computer Aided Manufacturing (3)
- ME 570. Thermal Systems Analysis and Design (3)
- ME 610. Finite Element Methods in Mechanical Engineering (3)
- ME 614. Engineering Design: Analytical Methods (3)
- ME 621. Mechanical Vibrations (3)
- ME 632. Advanced Topics in Automatic Controls (3)
- ME 645. Mechanical Behavior of Engineering Materials (3)
- ME 651. Advanced Thermodynamics (3)
- ME 661. Gas Dynamics (3)
- ME 663. Boundary Layers in Internal Flows (3)
- ME 671. Conduction of Heat and Mass Transfer (3)
- ME 675. Radiation Heat Transfer (3)
- ME 696. Advanced Topics in Mechanical Engineering (2 or 3)
- EM 603. Theory of Vibrations (3)
- EM 611. Vibration of Elastic Solids (3)
- EM 621. Theory of Elasticity (3)
- EM 711. Structural Acoustics (3)
- EM 724. Theory of Plates and Shells (3)
- EM 727. Theory of Elastic Stability (3)

Graduate Courses in the College of Business Administration (12 units)
- BA 651. Organizational Behavior (2)
- BA 653. Managerial Economics (2)
- BA 655. Marketing (3)
- BA 662. Operations Management (2)
- BA 665. Financial Management I (3)
- FIN 617. Financial Management II (3)
- IDS 609. Management Information Systems (3)
- IDS 686. Database Management Systems (3)
- IDS 744. Seminar in Total Quality Management and Productivity (3)
- IDS 750. Project Management (3)
- IDS 753. Global Manufacturing and Service Operations (3)
- MGT 721. Seminar in Group Processes and Leadership (3)
- MGT 724. Entrepreneurship (3)
- MKT 761. Product Innovation Management (3)

Project – Six units of a design project (ME 797 or 799) to be selected in cooperation with the graduate adviser in the area of interest. The project will be specifically designed to address both the technical and economic aspects in the solution of an engineering problem. A formal written report of project findings will be submitted to and approved by a committee of two engineering faculty members and one faculty member from business administration prior to graduation.

Section II. Doctoral Program

Engineering Sciences/Applied Mechanics
(Major Code: 09012)

The cooperating faculties of the College of Engineering at San Diego State University and the Department of Mechanical and Aerospace Engineering at the University of California, San Diego offer a joint doctoral program in engineering sciences/applied mechanics. The Doctor of Philosophy degree is awarded jointly by the Trustees of The California State University and the Regents of the University of California in the names of both cooperating institutions.

The Ph.D. degree is a research degree and represents both attainment of advanced knowledge and demonstration of research skills. It is not awarded solely for the fulfillment of technical requirements such as academic residence and coursework. A typical student with an appropriate bachelor of science degree in engineering may complete the joint program in four to five years of full-time study and research. A student with advanced standing may complete the program in a shorter period of time.

The research interests of the participating faculty members cover a wide range of subjects including acoustics, biomechanics, boundary layer separation, boundary layer stability, computational fluid mechanics, combustion, experimental fluid mechanics, finite element methods in structural analysis, flow field acoustic interaction, gas physics, hydrology, hypersonic flow field, low speed aerodynamics, material science, material processing, soil mechanics, structural fluid interaction, and two phase flows, and all aspects of environmental engineering, including development and application of air, water, and soil pollution control methods.

At SDSU, the major areas of research at the graduate level and the participating faculty members that constitute the Graduate Group in Applied Mechanics include:

**Acoustics:** M. Pierucci

**Aerodynamics:** J. Katz, A. Plotkin

**Bioengineering:** K. May-Newman, A. Szeto

**Combustion:** S. Bhattacharjee

**Computational Field Mechanics:** J. Castillo

**Computational Mechanics:** T. Impelluso, J. Katz, R. Kline, E. Olevsky, V. Ponce, N. Sharabi, K.C. Wang

**Environmental Engineering:** M. Gurol

**Experimental Mechanics:** Z. Bayasi, K. Kline

**Fluid Mechanics:** J. Katz, N. Nosseir, A. Plotkin, K.C. Wang

**Hydrology:** H. Chang, V. Ponce

**Material Engineering:** Z. Bayasi, J. Burns, L. Thompson, B. Westermo

**Robotics:** M. Tarokh

**Soil Mechanics:** B. Westermo

**Structure and Fluid Interactions:** M. Pierucci, B. Westermo

**Structural Mechanics:** Z. Bayasi, M. Pierucci, N. Sharabi, B. Westermo

**Thermal Sciences:** S. Bhattacharjee
Financial Support
Students admitted to the program will be eligible for teaching associateships and graduate assistantships. It is the policy of SDSU College of Engineering to support doctoral students during their entire tenure as long as they are in good standing and are making satisfactory progress toward their degree and are in residence at one of the two institutions.

For further information, the student should write to the Director of the Engineering Sciences/Applied Mechanics Joint Doctoral Program at the College of Engineering, San Diego State University, San Diego, CA 92182-1326.

Program
Preparation for Admission
Applicants must have an acceptable bachelor’s degree or master’s degree and must meet the requirements for admission to both SDSU and UCSD. Students are expected to have engineering degrees in the classical mechanics areas (i.e., aerospace, chemical, civil, environmental, mechanical, engineering science). Students with degrees in one of the allied fields (i.e., physics, mathematics, electrical engineering, and engineering physics) will be required to remove any academic deficiencies by completing a series of courses normally required of the students who have academic degrees in the applied mechanics areas.

APPLICATIONS FOR THE PH.D. PROGRAM IN ENGINEERING SCIENCES/APPLIED MECHANICS MUST BE RECEIVED NO LATER THAN FEBRUARY 15.

Application
Students seeking admission to the joint doctoral program in engineering sciences/applied mechanics should write directly to the Doctoral Program Director requesting application materials. A complete application requires the following:

The appropriate application forms completed.
Three letters of recommendation.
An official transcript of academic work completed at all institutions attended. A minimum grade point average of 3.0 in the major field for students with the B.S. degree or 3.4 for students with the M.S. degree.
Acceptable scores on both the qualitative and the quantitative sections of the Graduate Record Examination General Test (GRE).

The faculty of the joint doctoral program on each campus will recommend admission of acceptable applicants to the graduate deans at SDSU and UCSD. Entry occurs when the student is formally accepted by both graduate deans and the student is officially notified of the acceptance.

Residency Requirements
The student must spend at least one academic year in full-time residence at each of the two institutions. The definition of such residence must be in accord with the regulations of the Graduate Divisions of SDSU and UCSD.

Advising Committee
When a student is admitted to the joint doctoral program, the chair of the Department of Mechanical and Aerospace Engineering at UCSD and director of the doctoral program in engineering sciences/applied mechanics at SDSU will appoint a three-member advising committee consisting of at least one member from each institution. It is the responsibility of this committee to develop in consultation with the student a course of study and a plan of preparation for the doctoral qualifying examination, which should be taken as soon as possible after the two years of study at the two institutions. Students with advanced standing may be capable of taking the examination earlier. Upon the student’s successful completion of the examination, the advising committee will recommend to the chair of the Department of Mechanical and Aerospace Engineering at UCSD and director of the joint doctoral program at SDSU, the membership of the student’s doctoral committee. Upon appointment, this committee will supersede the advising committee and be responsible for the student’s program of study and dissertation research.

Course Requirements
The Doctor of Philosophy degree in engineering sciences/applied mechanics is a research degree and represents both attainment of advanced knowledge and demonstration of research skills. Therefore, no specific course requirements for the joint doctoral program exist; however, the doctoral qualifying examination is based on a certain level of competence in the general areas of: (1) fluid mechanics, (2) solid mechanics, and (3) applied mathematics. Preparation for the examination is normally done through coursework in these areas.

Qualifying Examinations
Joint Qualifying Committee
The doctoral program qualifying examination is administered by the student’s advising committee supplemented, if appropriate, by faculty appointed by the chair of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program at SDSU. The examination will be oral, will cover at least four areas selected to ensure appropriate competence in the general area of applied mechanics, and will be at the level and content of the SDSU and UCSD graduate courses. The specific areas will be approved in advance by the chair of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program at SDSU. One of the areas may be satisfied by completing a series of courses in the area with at least a B grade in each course.

Joint Doctoral Committee
Upon successful completion of the doctoral qualifying examination, a doctoral committee shall be appointed by the graduate deans of SDSU and UCSD upon the recommendation of the chairs of the Department of Mechanical and Aerospace Engineering at UCSD and the director of the joint doctoral program at SDSU. The doctoral committee shall supervise the continued study and research programs of the student. The chair of the committee is the primary adviser of the student’s dissertation research. The dissertation committee will consist of three members from each institution, one of the three will be from outside of the Department of Mechanical and Aerospace Engineering and one from outside the student’s major area.

Senate Qualifying Examination
The major requirement for the doctorate is the completion of a dissertation based on original research, which contributes new knowledge to the fields. The Senate Qualifying Examination consists of a presentation of initial dissertation results and plans for
future research. The chair of the doctoral committee will determine in consultation with the student when the Senate Qualifying Examination will be held. Approval of a student’s dissertation topic by the doctoral committee implies that the committee believes that the work will contain the potential for one or more articles publishable in refereed journals.

Dissertation

The doctoral committee will administer the final examination, which will consist of the student’s presentation and defense of the dissertation, with particular emphasis on the principal findings and areas of future research. The first part of this examination is open to the public; a concluding portion involves appropriate questioning of the student by the committee.

The detailed requirements concerning the preparation of the dissertation, the number of copies, the editorial style, etc., are set forth in the UCSD document entitled “Instructions for the Preparation and Submission of Doctoral Dissertations and Masters’ Theses.” Acceptance of the dissertation by the University Librarian at UCSD and the Graduate Division at SDSU represents the final step in completion of the student’s degree requirements.

Satisfactory Progress

The students admitted to this program are expected to make continuous, satisfactory progress and to remain in good standing at both institutions.

Award of the Degree

The Doctor of Philosophy degree in engineering sciences/applied mechanics will be awarded jointly by the Trustees of The California State University and the Regents of the University of California in the names of both cooperating institutions.

Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program in engineering sciences/applied mechanics and are available for direction of research and as members of joint doctoral committees.

San Diego State University:
Program Director: Mirat D. Gurol
Committee Members:
Associate Members:

University of California, San Diego:
Program Director: Paul Linden
Committee Members:

Rehabilitation Technology Certificate

The purpose of this certificate is to train interested engineers and non-engineers in the field of rehabilitation technology using formal classroom instruction, project design and fabrication, and internship. Enrollment in this certificate program will provide interested engineering students exposure to rehabilitation technology. For non-engineering rehabilitation professionals (e.g., vocational rehabilitation counselors, special education teachers, transition and supported employment specialists), the certificate program will provide specialty training in the application of rehabilitation technology. Specifically, the certificate program will do the following:

1. Expose graduate engineering students to the problems and promises of rehabilitation engineering as a field of specialization.

2. Provide a number of interrelated training activities that will improve the professional competence of employed rehabilitation workers.

3. Provide opportunities for extensive training, in the form of extended internships with knowledgeable rehabilitation professionals whose backgrounds are in such specializations as communicative disorders, rehabilitation engineering, physical and occupational therapy, rehabilitation electronics, prosthetics and orthotics, rehabilitation counseling, special education, biomechanics, etc.

4. Offer both formal classroom instruction and guided problem solving opportunities in designing, building, customizing, and delivering rehabilitation technology for enhancing the integration of individuals with disabilities into school, residential, community, and employment settings.

This is an advanced trans-disciplinary academic certificate at the postbaccalaureate level. Admission requirements include a bachelor’s degree in engineering, rehabilitation, or special education, or a related allied health field. Students admitted into the program must maintain a minimum grade point average of 3.0 in all certificate coursework with no less than a grade of “C” in all courses. Depending on the background and work experience, students may be required to remove deficiencies through additional coursework as part of the certificate requirements.

Students in the certificate program will complete 12 units of formal coursework and one semester of internship as described below unless alternative courses are approved by the program advisers.

Electrical Engineering 502 (Electronic Devices for Rehabilitation—3 units) will acquaint students with the design and application of electronic devices used in rehabilitation; explain the problems of the disabled; and present possible solutions for some of their needs. This is a non-traditional and practical electrical engineering course that requires student involvement in the collaborative assessment (with students in Communicative Disorders 676) of disabled persons for their cognitive, communicative, and physical abilities at the SDSU Communications Clinic.
Engineering

Administration, Rehabilitation and Postsecondary Education 585 (Applications of Rehabilitation Technology—3 units) will provide an overview of assistive technology in the areas of assessment, accessibility, mobility, communication, employment, and more. Students will collaborate on transdisciplinary teams to design and construct an adaptation or modification which will enable a person with disabilities to participate more fully in school, work and/or community environments.

Administration, Rehabilitation and Postsecondary Education 685A (Medical and Psychological Aspects of Disability—3 units) will cover the impact of different disabilities (e.g. visual and sensory impairments, orthopedic impairments, burns, amputation, chronic pain, cancer, developmental and learning disabilities, traumatic brain injuries, and spinal cord injuries) in terms of functional limitations, rehabilitative services needed, and environmental adjustments required.

Electrical Engineering 798 (Special Study in Rehabilitation Technology Design—3 units) will provide students hands-on opportunities to work with rehabilitation professionals, occupational and physical therapists, and other non-engineers on technology teams in the design and fabrication of customized adaptations for persons with disabilities.

Internships (one semester) will provide guided field experience through placement with knowledgeable practicing rehabilitation professionals in such settings as the Sharp Rehabilitation Center, Assistive Device Assessment Program within SDSU’s Communications Clinic, Access Center of San Diego, and San Diego schools.

For application and additional information, contact the program adviser Dr. Andrew Szeto in the Department of Electrical and Computer Engineering or Dr. Ian Pumpian in the Department of Administration, Rehabilitation, and Postsecondary Education.

Courses Acceptable on Master’s Degree Programs in Engineering

UPPER DIVISION COURSE

510. Methods of Analysis (3) I, II
Prerequisite: Engineering 280 with minimum grade of C.
Selected topics from vector calculus, partial differential equations, and complex analysis, with engineering applications.

Courses Acceptable on Doctoral Degree Program in Engineering

In addition to the courses listed below, a number of other graduate level courses are acceptable for the doctoral degree. For a description of these courses, see individual department listings (e.g., aerospace, civil and environmental, or mechanical), and contact the director of the doctoral program.

GRADUATE COURSES

800. Seminar (1) Cr/NC
Prerequisite: Admission to the doctoral program.
Doctoral students are expected to attend a weekly seminar dealing with current topics in different areas of applied mechanics. Course is to be taken every semester.

810. Colloquium in Engineering Sciences (1) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Discussions on advances in research in engineering science/applied mechanics conducted by SDSU and UCSD faculty.

896. Doctoral Laboratory and Computer Research (1-3) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent research in laboratory and computer settings in the areas of applied mechanics. Content to be determined after consultation with adviser.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent research in general areas of applied mechanics. Content to be determined after consultation with adviser.

898. Doctoral Special Study (1-3) Cr/NC/SP
Prerequisite: Advancement to candidacy.
Individual study leading to study and research required for doctoral dissertation.

899. Doctoral Dissertation (3-15) Cr/NC/SP
Prerequisites: An officially constituted joint doctoral committee and successful completion of Senate Qualifying Examination. Final research and preparation of dissertation for doctoral degree. Enrollment required during term in which dissertation is approved.
Faculty
Joseph Katz, D.Sc., Professor of Aerospace Engineering and Engineering Mechanics, Chair of Department
John F. Conly, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Balbir S. Narang, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Nagy Nosseir, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Mauro Pierucci, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics
Allen Plotkin, Ph.D., Professor of Aerospace Engineering and Engineering Mechanics (Graduate Adviser)

Courses Acceptable on Master’s Degree Programs in Aerospace Engineering and Engineering Mechanics

UPPER DIVISION COURSES IN AEROSPACE ENGINEERING

520. Intermediate Aerospace Flight Mechanics (3)
Prerequisite: Aerospace Engineering 320.
A continuation of Aerospace Engineering 320 to include orbit determination techniques, general and special perturbations, artificial satellites, rocket dynamics and transfer orbits, earth-moon trajectories, and interplanetary trajectories.

530. Rocket and Space Propulsion (3)
Prerequisite: Aerospace Engineering 430.
equilibrium combustion thermodynamics. Performance of rocket propelled vehicles. Rocket propulsion fundamentals. Topics in chemical (solid and liquid) and electrical propulsion systems.

540. Aircraft Stability and Control II (3)
Prerequisite: Aerospace Engineering 440.
Dynamic stability and control of rigid aircraft; general equations of unsteady motion, stability derivatives, perturbed state thrust forces and moment, special problems in dynamic stability and response.

550. Viscous Flow (3)
Prerequisites: Credit or concurrent registration in Engineering Mechanics 340, and Engineering 510.

596. Advanced Aerospace Engineering Topics (3)
Prerequisite: Consent of instructor.
Modern developments in aerospace engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Aerospace Engineering or Engineering Mechanics 496, 499, and 596 applicable to a bachelor’s degree. Maximum combined credit of six units of Aerospace Engineering or Engineering Mechanics 596 and 696 applicable to a 30-unit master’s degree.

UPPER DIVISION COURSES IN ENGINEERING MECHANICS

510. Finite Element Methods in Aerospace Structures (3)
Prerequisite: Aerospace Engineering 410.
Static and dynamic analysis of aerospace structures utilizing finite element methods.

530. Composite Structural Analysis (3)
Prerequisites: Engineering 280 and Civil and Environmental Engineering 301.
Strength of composite materials; lamination theory; strength analysis of laminates; bending, buckling, and vibration of composite plates.

596. Advanced Engineering Mechanics Topics (1-3)
Prerequisite: Consent of instructor.
Modern developments in engineering mechanics. See Class Schedule for specific content. Maximum credit of six units for any combination of Engineering Mechanics 496, 499, and 596 applicable to a bachelor’s degree. Maximum combined credit of six units of Engineering Mechanics 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES IN AEROSPACE ENGINEERING

601. Computational Fluid Mechanics (3)
Prerequisites: Credit or concurrent registration in Aerospace Engineering 302 and Engineering 510.
Finite difference method of solving general fluid mechanics problems. Study of stability, convergence, compatibility, dissipation, and dispersion. A project is required.
612. Compressible Fluid Flow (3)
Prerequisites: Aerospace Engineering 302 and credit or concurrent registration in Engineering 510.
Theory of flow at supersonic speeds. Linearized theory, three-dimensional wings in steady flight, slender-body theory, methods of characteristics.

620. Incompressible Aerodynamics (3)
Prerequisites: Aerospace Engineering 301 and Engineering 510.
Theory of incompressible aerodynamics; airfoil and wing theory; computational methods.

643. Laminar Flow (3)
Prerequisites: Aerospace Engineering 302 and Engineering 510.
Fluid kinematics and dynamics. Governing equations in general coordinate systems. Navier-Stokes equations; exact solutions, approximations including boundary layer. Three-dimensional flows. Numerical methods. Vector and tensor notation will be used.

644. Turbulent Flow (3)
Nature of turbulence based on simple flow observations and a theoretical basis for interpreting and predicting the behaviors of specialized turbulent flow problems.

696. Advanced Topics in Aerospace Engineering (2 or 3)
Intensive study in specific areas of aerospace engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP
Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

600. Seminar (1-3)
Prerequisite: Consent of the graduate adviser and instructor.
Intensive study of one of the following topics: Nonlinear vibrations, random vibrations, continuum mechanics, anisotropic elasticity, energy methods, plasticity, and other areas of engineering mechanics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

603. Theory of Vibrations (3)
Prerequisites: Aerospace Engineering 410 and Engineering 510.
Linear and nonlinear periodic phenomena as applied to discrete systems and continuous media with application to physical problems.

611. Vibration of Elastic Solids (3)
Prerequisites: Engineering 510 and Aerospace Engineering 410 or Mechanical Engineering 520.
Vibrational characteristics of elastic media. Vibration of plates. Longitudinal and transverse wave motion in infinite, semi-infinite and finite thickness media.

621. Theory of Elasticity (3)
Prerequisites: Civil and Environmental Engineering 301 and credit or concurrent registration in Engineering 510.
Analysis of stress and strain: stress-strain relations; the equations of elasticity; uniqueness theorem; compatibility conditions; flexure and torsion.

711. Structural Acoustics (3)
Prerequisites: Engineering 510 and Engineering Mechanics 611.
Acoustic radiation from different sources. Vibration of and acoustic radiation from beams, plates, and other solids. Effect of fluid loading.

724. Theory of Plates and Shells (3)
Prerequisite: Engineering Mechanics 621.

727. Theory of Elastic Stability (3)
Prerequisite: Engineering Mechanics 621.

797. Research (1-3) Cr/NC/SP
Prerequisite: Consent of graduate adviser.
Research in engineering. Maximum credit six units applicable to a master's degree.
Faculty
Janusz C. Supernak, Ph.D., Professor of Civil and Environmental Engineering, Chair of Department
James H. Banks, Ph.D., Professor of Civil and Environmental Engineering
Howard H. Chang, Ph.D., P.E., Professor of Civil and Environmental Engineering
Fang-Hui Chou, Ph.D., P.E., Professor of Civil and Environmental Engineering (Graduate Adviser)
Mirat D. Gurol, Ph.D., Professor of Civil and Environmental Engineering, The Blasker Chair in Environmental Engineering
Govindarajalu Krishnamoorthy, Ph.D., Professor of Civil and Environmental Engineering
Victor M. Ponce, Ph.D., Professor of Civil and Environmental Engineering
Bruce D. Westermo, Ph.D., Professor of Civil and Environmental Engineering
M. Ziad Bayasi, Ph.D., P.E., Associate Professor of Civil and Environmental Engineering
M. Nazmi Sharabi, Ph.D., Associate Professor of Civil and Environmental Engineering
Melody J. Hunt, Ph.D., Assistant Professor of Civil and Environmental Engineering

Courses Acceptable on Master’s Degree Programs in Civil and Environmental Engineering

UPPER DIVISION COURSES
(All Civil Engineering courses are now listed as Civil and Environmental Engineering courses.)

521. Structural Analysis II (3) I
Prerequisite: Civil and Environmental Engineering 321 with minimum grade of C.

525. Design of Steel Structures (3) I, II
Prerequisite: Civil and Environmental Engineering 321 with minimum grade of C.
Mechanical behavior of structural steel. Design of steel beams, girders, columns and members subjected to combined stresses. Design of various types of connections of steel structures; plate girders, continuous beams and rigid frames.

530. Open Channel Hydraulics (3) I, II
Prerequisite: Civil and Environmental Engineering 444 with minimum grade of C. Proof of completion of prerequisite required: Copy of transcript.
Principles of open channel flow; analysis and problems of critical, uniform, gradually-varied, and rapidly-varied flows; design and environmental problems; computer simulations and applications; and culvert hydraulics.

553. Environmental Engineering Laboratory (3)
Two lectures and three hours of laboratory.
Prerequisites: Chemistry 200; Civil and Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required for Civil and Environmental Engineering 355: Copy of transcript.
Analysis of natural waters and wastewaters. Sampling and analysis of hazardous environmental pollutants. Techniques to analyze solid waste.

554. Process Fundamentals of Environmental Systems (3)
Prerequisite: Civil and Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required: Copy of transcript.
Equilibrium and kinetics of chemical and biological reactions of environmental systems. Considerations of mass-transfer and fluid dynamics in water quality management and air pollution control.

555. Water and Wastewater Engineering (3) II
Prerequisite: Civil and Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required: Copy of transcript.

556. Air Quality Management (3)
Prerequisite: Civil and Environmental Engineering 355 with minimum grade of C. Proof of completion of prerequisite required: Copy of transcript.

558. Solid Waste Management (3) II
Prerequisite: Civil and Environmental Engineering 355 with a grade of C or better. Proof of completion of prerequisite required: Copy of transcript.
Management of municipal solid waste from a civil engineering perspective, including waste minimization and recycling. Engineered volume reduction through composting, incineration, mechanical compaction, and other methods. Ultimate disposal, landfill design and legislative regulations.
560. Environmental Engineering Design (3)
Prerequisites: Civil and Environmental Engineering 555, 558 and Engineering 430.
Application of engineering principles and design techniques to design of environmental engineering projects.

580. Traffic Engineering Design (3)
Prerequisite: Civil and Environmental Engineering 481.
Sizing and configuration of highway facilities based on capacity analysis. Traffic signal design, impact and mitigation studies, parking, safety design.

596. Advanced Civil Engineering Topics (1-3) I, II
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.
Modern developments in civil engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Civil and Environmental Engineering 496, 499 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Civil and Environmental Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

605. Prestressed Concrete Structures (3)
Prerequisite: Civil and Environmental Engineering 421 with minimum grade of C.
Fundamental concepts of prestressed concrete theory. Design applications to various types of structures.

607. Dynamics of Structures (3)
Prerequisite: Civil and Environmental Engineering 521 with minimum grade of C.
Dynamic disturbances, structures with variable degelastic beams; continuous beams, rigid frames, floor systems. Energy methods in structural dynamics.

608. Earthquake Engineering (3)
Prerequisite: Civil and Environmental Engineering 607.
Elements of seismology. Methods of analysis for earthquake loads. Procedures and code provisions for the design of earthquake-resistant structures.

610. Finite Element Analysis of Structures (3)
Prerequisites: Engineering 120 and Civil and Environmental Engineering 321 with minimum grade of C.
General procedure, various types of finite elements; analysis and design of isotropic and orthotropic plates and shells, deep beams, and shear walls using finite element technique; use of digital computers for solutions. Application to civil engineering structures.

612. Advanced Concrete Materials (3)
Two lectures and three hours of laboratory.
Prerequisite: Civil and Environmental Engineering 421.

620. Traffic Flow and Control (3)
Prerequisites: Civil and Environmental Engineering 481 or City Planning 625 or Geography 559.
Advanced treatment of traffic flow and control issues. Highway capacity and traffic flow characteristics, traffic flow modeling, intersection control, freeway control systems, intelligent transportation systems.

621. Transportation Demand Analysis (3)
Prerequisite: Civil and Environmental Engineering 481 or Geography 559 or City Planning 625.
Travel demand modeling with emphasis on application to growing metropolitan areas; four-step travel demand forecasting; disaggregate, behavioral, and activity-based approaches; recent methodological developments; transportation-land use interactions.

622. Mass Transit Engineering (3)
Prerequisites: Civil and Environmental Engineering 481 or City Planning 625 or Geography 559.
Transit system characteristics, analysis of demand for transit services, transit system planning, scheduling, analysis and design.

632. Computational Hydraulics and Hydrology (3)
Prerequisites: Civil and Environmental Engineering 445 and 530.

633. Environmental Hydrology (3)
Prerequisites: Civil and Environmental Engineering 355 and 445.
Hydrosphere function, hydroclimatology, hydrographic characteristics, desertification, hydroecology, salinity modeling and management, stream and lake restoration, and case studies.

634. Surface Water Hydrology (3)
Prerequisites: Civil and Environmental Engineering 445.

637. Process Design for Industrial Waste Treatment (3)
Prerequisite: Civil and Environmental Engineering 555 or 647 and 648.
Process design of physical, chemical, and biological treatment methods for in-plant treatment of industrial waste streams.

638. Sedimentation and River Engineering (3)
Prerequisite: Civil and Environmental Engineering 444 with minimum grade of C.
Hydraulics of sediment transport; erosion and sedimentation problems; river mechanics and morphology; mathematical modeling of river hydraulics; sediment transport and river channel changes. Design and environmental problems; erosion control and river training.

640. Advanced Soil Mechanics (3)
Prerequisites: Civil and Environmental Engineering 462 and 463 with minimum grades of C.
Advanced theories of soil mechanics applied to geotechnical and environmental engineering. Classification of terrestrial and marine soils, compaction, consolidation, expansion, stress distribution, strength, permeability and seepage, site improvement, and remediation.

641. Advanced Foundation Engineering (3)
Prerequisites: Civil and Environmental Engineering 462 and 463 with minimum grades of C.
Advanced theories of soil bearing capacity, settlement, and stress distribution applied to design of shallow and deep foundations and earth retaining structures. Subsurface exploration and dewatering methods.
642. Groundwater Seepage and Earth Dams (3)
Prerequisites: Civil and Environmental Engineering 462 and 463 with minimum grades of C.

644. Soil Dynamics (3)
Prerequisite: Civil and Environmental Engineering 462 and 463 with a minimum grade of C.
Behavior of soil and soil-structure systems under dynamic loading. Applications include dynamic earth bearing capacity and pressure, soil spring constants for machine foundation design, liquefaction analysis, site response spectra, and seismic stability of slopes. Case histories discussed.

645. Aquatic Chemistry for Environmental Engineers (3)
Prerequisite: Civil and Environmental Engineering 554.

646. Microbiological Principles of Environmental Engineering (3)
Prerequisite: Civil and Environmental Engineering 554.
Relationships and significance of microorganisms to organic matter decomposition, mineral transformations, and environmental quality. Applied study in natural (water, sediments, wetlands) and disturbed ecosystems (landfills, contaminated sediments, and groundwater).

647. Physical and Chemical Processes of Water Pollution Control (3)
Prerequisite: Civil and Environmental Engineering 645.
Engineering principles and design of physical and chemical processes used in water and wastewater treatment.

648. Biological Processes and Bioremediation Engineering (3)
Prerequisite: Civil and Environmental Engineering 646.
Engineering principles and design of biological processes used in wastewater and bioremediation treatment technologies.

696. Advanced Topics in Civil Engineering (2 or 3)
Intensive study in specific areas of civil engineering. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units applicable to a master’s degree.

781. Seminar in Transportation Engineering (2 or 3)
Prerequisites: Minimum grade point average of 3.0 and consent of instructor.
An intensive study in transportation engineering. Maximum credit six units applicable to a master’s degree.

797. Independent Research (1-3) Cr/NC/SP
Prerequisite: Consent of graduate adviser.
Independent research in civil and environmental engineering. Maximum credit three units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit three units applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy. Preparation of a project or thesis for the master’s degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.
Electrical and Computer Engineering

In the College of Engineering

Faculty
Andrew Y.J. Szeto, Ph.D., P.E., Professor of Electrical and Computer Engineering, Chair of Department
Hüseyin Abut, Ph.D., Professor of Electrical and Computer Engineering
Ching-Ten Chang, Ph.D., Professor of Electrical and Computer Engineering
Pieter A. Frick, Ph.D., Professor of Electrical and Computer Engineering, Dean of Engineering
Fredric J. Harris, M.S.E.E., P.E., Professor of Electrical and Computer Engineering
Jay H. Harris, Ph.D., Professor of Electrical and Computer Engineering
Alexander Iosupovici, Ph.D., Professor of Electrical and Computer Engineering
Long C. Lee, Ph.D., Professor of Electrical and Computer Engineering
Mao-Shiu Lin, Ph.D., Professor of Electrical and Computer Engineering (Graduate Adviser)
Leonard R. Marino, Ph.D., Professor of Electrical and Computer Engineering
Nicholas Panos, M.S.E.E., P.E., Professor of Electrical and Computer Engineering, Assistant Dean for Student Affairs, College of Engineering
Greg W. Bailey, Ed.D., Associate Professor of Electrical and Computer Engineering
Ramon Betancourt, Ph.D., Associate Professor of Electrical and Computer Engineering
Paul T. Kolen, Ph.D., Associate Professor of Electrical and Computer Engineering
Yusuf Ozturk, Ph.D., Associate Professor of Electrical and Computer Engineering
Jong-Min Park, Ph.D., Assistant Professor of Electrical and Computer Engineering
Rahul Singh, Ph.D., Assistant Professor of Electrical and Computer Engineering

Courses Acceptable on Master's Degree Program in Electrical and Computer Engineering

UPPER DIVISION COURSES IN ELECTRICAL ENGINEERING

NOTE: Prerequisites will be enforced in all 500-level courses. A copy of an official transcript will be accepted as proof. For corequisites, an enrollment confirmation form will be accepted.

All listed prerequisite courses for electrical engineering courses must be satisfied with a grade of C– or better.

502. Electronic Devices for Rehabilitation (3)
Two lectures and three hours of laboratory.
Prerequisite: Electrical Engineering 303 or 330.
Recent developments in electronic assistive devices and microcomputers for persons with various disabilities; assessment of disabled persons for suitable technological assistive devices.

503. Biomedical Instrumentation (3)
Prerequisites: Engineering 280; Electrical Engineering 410 and 430 (or for Mechanical Engineering majors, Electrical Engineering 303 and Mechanical Engineering 512).
Instrumentation systems to monitor, image, control, and record physiological functions. (Formerly numbered Electrical Engineering 403.)

520. Feedback Control Systems (3) I
Prerequisite: Electrical Engineering 410.
Analysis of regulatory systems including servomechanisms by the Laplace transform method. System performance and stability; Nyquist, Bode, and root-locus diagrams; elementary synthesis techniques. Practical components and examples of typical designs.

530. Analog Integrated Circuit Design (3)
Prerequisite: Electrical Engineering 430 with minimum grade of C–.
Advanced treatment of transistor pairs, device mismatches, differential amplifiers, current mirrors, active loads, level shifting, and output stages. Parasitic and distributed device parameters. Economics of IC fabrication and impact on design.

534. Solid-State Devices (3)
Prerequisite: Electrical Engineering 434.
Conduction theory of solids. Characteristics of tunnel, backward, breakdown, multilayer and varactor diodes; silicon controlled rectifiers and switches, unijunction transistors, hot electron devices. Lasers and laser applications.

539. Instrumentation Circuits I (3)
Prerequisite: Electrical Engineering 430.
540. Microwave Devices and Systems (3)
Applications of Maxwell’s equations to wave propagation. Microwave network parameters; guided wave transmission and reflection. Design of filters, couplers, power dividers and amplifiers. Applications in radar and telecommunications systems.

540L. Microwave Measurements Laboratory (1)
Three hours of laboratory.
Prerequisites: Credit or concurrent registration in Electrical Engineering 430L and 540.
Experimental study of microwave generation including klystrons, Gunn and IMPATT oscillators. TWT and microwave transistor amplifiers. Microwave modulation and detection. Microwave transmission and antennas.

541. Electro-Optics (3) II
Prerequisite: Electrical Engineering 340.
Optical/electronic devices and systems; wave beams; light-matter quantum interactions; incoherent and laser light sources; modulators and detectors. Applications in data transmission, measurement, and materials processing.

546. Optical Fiber Communications Systems (3)
Prerequisite: Electrical Engineering 434.
Optical fiber attenuation and dispersion, light-emitting diodes and laser diodes, PIN diodes and avalanche photodiodes, receiver designs, optical power budgets and rise time budgets, applications in digital and analog communication systems.

553. Stochastic Signals (3) I
Prerequisite: Electrical Engineering 410.
Random signals, correlation functions, power spectral densities, the Gaussian process, narrow band processes. Applications to communication systems.

556. Digital Signal Processing (3)
Prerequisite: Electrical Engineering 410 or Physics 516.
Digital signal processing. Discrete-time signals, transform techniques, and digital filters. Design of FIR and IIR filters, FFTs, and finite length effects on digital systems.

558. Communication Systems II (3) II
Prerequisite: Electrical Engineering 458.
Performance of analog and digital communication systems. Effects of noise and spectral characteristics.

558L. Communications and Digital Signal Processing Laboratory (1)
Prerequisite: Electrical Engineering 558.
Experiments in modulation techniques, effects of noise on system performance, digital filters, and signal processing.

570. Advanced Digital Circuits (3)
Prerequisite: Computer Engineering 470.
Digital applications of linear devices, the digital/analog interface, and ultra high speed logic devices.

580. Modern Power Systems I (3) I
Prerequisites: Engineering 280, Electrical Engineering 310 and 380.
Modern power system elements; calculation of load flow, fault currents, and system stability.

581. Modern Power Systems II (3) II
Prerequisite: Electrical Engineering 580.
Transient response of modern power system elements; positive, negative and zero sequence impedance; subharmonic effects.

582. Power Relay Systems (3) I
Prerequisite: Electrical Engineering 380.
Power relays including metering and control as used in modern power systems. Characteristics of operations and applications of equipment. Demonstrations on individual component relays. Basic relay calculations.

583. Power Electronics (3)
Prerequisites: Electrical Engineering 380 and 430.

596. Advanced Electrical Engineering Topics (1-3) I, II
Prerequisite: Consent of instructor.
Modern developments in electrical engineering. See Class Schedule for specific content. Maximum credit of nine units for any combination of Electrical Engineering 496 and 596 applicable to a bachelor’s degree. Maximum credit of six units of Electrical Engineering 596 applicable to a 30-unit master’s degree.

UPPER DIVISION COURSES IN COMPUTER ENGINEERING

NOTE: Prerequisites will be enforced in all 500-level courses. A copy of an official transcript will be accepted as proof. For corequisites, an enrollment confirmation form will be accepted.

All listed prerequisite courses for computer engineering and electrical engineering courses must be satisfied with a grade of C– or better.

560. Computer and Data Networks (3)
Two lectures and three hours of laboratory.
Prerequisites: Computer Engineering 271 and Electrical Engineering 410.
Wide area and local area networks. Multi-layered protocol models, telephone systems, modems, and network applications. (Formerly numbered Electrical Engineering 560.)

572. VLSI Circuit Design (3) I
Prerequisites: Computer Engineering 271 and Electrical Engineering 330.
Design of digital integrated circuits based on CMOS technology; characterization of field effect transistors, transistor level design and simulation of logic gates and subsystems; chip layout, design rules, introduction to processing; ALU architecture. (Formerly numbered Electrical Engineering 572.)

577. Multimedia Systems Programming (2)
Prerequisites: Computer Engineering 361 and concurrent registration in Computer Engineering 577L.
577L. Multimedia Systems Programming Laboratory (1)
Prerequisites: Computer Engineering 271 and concurrent registration in Computer Engineering 577.
Laboratory to accompany Computer Engineering 577; see course description for Computer Engineering 577. (Formerly numbered Electrical Engineering 577L.)

596. Advanced Computer Engineering Topics (1-3) I, II
Prerequisite: Consent of instructor.
Modern developments in computer engineering. See Class Schedule for specific content. Maximum credit six units for any combination of Computer Engineering 496 and 596 applicable to a bachelor's degree. Maximum combined credit of six units of Computer Engineering 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES IN ELECTRICAL ENGINEERING

600. Seminar (1-3)
Prerequisite: Consent of instructor.
An intensive study in advanced electrical engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

622. Sampled-Data Systems (3)
Prerequisite: Electrical Engineering 520.
Analysis and synthesis of sampled-data and digital control systems; techniques for the design of time optimal sampled-data control systems; z-transform calculus and difference equation synthesis techniques for determining stability and system response.

634. Semiconductor RF Circuit Design (3)
Prerequisite: Electrical Engineering 540.
Wide band amplifiers, low level RF amplifiers and mixers, IF amplifiers, AGC, tuning and stability problems, unilateralization and mismatching techniques, harmonic oscillators, VHF power amplifiers including varactor multipliers.

642. Optical Communications (3)
Prerequisite: Electrical Engineering 541 or 546.
Advanced topics of interest in electro-optical communications, including lasers, background light sources, modulators, receivers, optical fiber and atmospheric channels, and adaptive techniques.

644. Optical Data Processing (3)
Prerequisites: Electrical Engineering 340 and 410.
Electro-optical systems for processing electronic data or images. Spatial frequency analysis, filtering, convolution, and correlation based on light diffraction. Film as a recording medium. Acousto-optic and electro-optic processing devices and their applications.

645. Antennas and Propagation (3)
Prerequisite: Electrical Engineering 540.
Impedance characteristics and radiation patterns of thin linear antenna elements; field intensity calculations. Tropospheric and ionospheric propagation; propagation anomalies.

650. Modern Communication Theory I (3)
Prerequisite: Electrical Engineering 553 or 558.
Probability theory, random variables, random processes, Gaussian process, random signals through linear systems, noise considerations, optimum receiver design, applications to digital and wave-form communication.

652. Principles and Applications of Information Theory (3)
Prerequisite: Electrical Engineering 650.
Measure of information; digital communication systems, Shannon theorems, channel coding for applications in interference, noise combating and jamming; source encoding for data compression. Multichannel and multi-user information theory with applications to diversity, multipath and other environments.

653. Coding Theory (3)
Prerequisite: Electrical Engineering 650.
The theory of coding to combat noise over communication channels. Redundancy added to messages to assure arbitrarily small error rates at a given information rate. Discussion of channels and capacity. Block codes, cyclic codes, BCH codes, convolutional code.

657. Digital Image Processing (3)
Prerequisite: Electrical Engineering 556.
Theory of two-dimensional signals and systems, image transforms, image enhancement, restoration and compression, image analysis and computer vision.

658. Advanced Applications of Digital Signal Processing (3)
Prerequisite: Electrical Engineering 556 or 657.
Concepts of spectral analysis. Applications of DSP to speech encoding, image coding, fast algorithms applied to speech, image, radar, sonar and geophysical signal processing.

672. VLSI System Design (3)
Prerequisite: Computer Engineering 572.
Design of microprocessor data paths and controllers, memory management, pipelines, multipliers, RISC and multiprocessor systems and applications.

675. Advanced Microprocessors (3)
Prerequisite: Computer Engineering 475.
Program development, circuit design, direct-memory access, multiprocessing, co-processing, and standardized bus design for a 32-bit microprocessor.

676. Fault Tolerant Computing (3)
Prerequisite: Computer Engineering 470.

678. Advanced Computer Design (3)
Prerequisite: Computer Engineering 475.
Design principles for high performance computers. State-of-the-art in parallel computer systems, including pipelined computers, array processors and multiprocessor systems.

679. Real-Time Software Engineering (3)
Prerequisite: Electrical Engineering 675.

Prerequisite: Electrical Engineering 580.
Computer Modeling and analysis techniques applied to large power systems.
705. Seminar in Communications Systems (1-3)
Prerequisite: Electrical Engineering 650.
An intensive study in communication theory and systems. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

706. Seminar in Computer Engineering (1-3)
Prerequisite: Consent of instructor.
Intensive study in computer engineering topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

707. Research (1-3) Cr/NC/SP
Prerequisite: Consent of department chair.
Research in engineering. Maximum credit six units applicable to a master's degree.

797. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of department chair.
Individual study. Maximum credit three units applicable to a master's degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.
Faculty
Ronald A. Kline, Ph.D., Professor of Mechanical Engineering,
Chair of Department (Graduate Adviser)
George T. Craig, Ph.D., Professor of Mechanical Engineering
Subrata Bhattacharjee, Ph.D., Associate Professor of
Mechanical Engineering
Larry D. Thompson, Ph.D., Associate Professor of Mechanical
Engineering
James S. Burns, Ph.D., Assistant Professor of Mechanical
Engineering
Thomas J. Impelluso, Ph.D., Assistant Professor of Mechanical
Engineering
Karen D. May-Newman, Ph.D., Assistant Professor of Mechanical
Engineering
Eugene A. Olevsky, Ph.D., Assistant Professor of Mechanical
Engineering

Courses Acceptable on Master's Degree Programs in Mechanical Engineering

UPPER DIVISION COURSES

NOTE: Proof of completion of prerequisites required for all Mechanical Engineering 300-, 400-, and 500-level courses: Copy of transcript. In addition, Mechanical Engineering 390, 450, 490A, and 530 require evidence of concurrent registration in appropriate courses.

510. Advanced Machine Design (3) I, II
Prerequisites: Mechanical Engineering 314 and 340.
Application of advanced mechanics of materials to the design and analysis of mechanical elements. Introduction to probabilistic design and to finite element methods and applications. Design projects involve extensive use of finite element programs.

512. Simulation of Engineering Systems (3) I, II
Two lectures and three hours of laboratory.
Prerequisites: Mechanical Engineering 314 and 395.
Modeling, simulation, analysis, and design of mechanical engineering dynamics, vibration, electromechanical systems, heat transfer, thermodynamics and control systems. Introduction to virtual instrumenting using software such as LABVIEW.

520. Introduction to Mechanical Vibrations (3)
Prerequisites: Mechanical Engineering 512 and Civil and Environmental Engineering 301.
Analysis of mechanical vibration; single- and multi-degree of freedom systems; free and forced vibrations; vibration isolation; vibration absorbers. Theory of vibration measuring instruments.

530. Automatic Control Systems (3)
Prerequisites: Engineering 280 with a grade of C or better, and credit or concurrent registration in Mechanical Engineering 512.
Analysis of the dynamic characteristics of control components and systems. Stability and response of closed loop systems. Design of control systems.

540. Nonmetallic Materials (3)
Prerequisites: Mechanical Engineering 314 and 340.

542. Manufacturing with Nonmetallic Materials (3)
Prerequisites: Mechanical Engineering 340 and Engineering 280 with a grade of C or better.
Engineering polymers and composites, processes, and manufacturing techniques. Polymer flow in extrusion, compression molding, RTM, and calendaring. Hands-on fabrication and test exercises included along with a capstone manufacturing project.

544. Advanced Manufacturing Processes (3)
Prerequisites: Mechanical Engineering 195, 314, 340, 350; and Engineering 280 with a grade of C or better.

546. Computer Aided Manufacturing (3)
Prerequisites: Mechanical Engineering 195, 314, 340; Engineering 120 and 280, both with a grade of C or better.
Computer controlled manufacturing and assembly techniques and devices. Databases and special languages. Agile manufacturing software programs and technologies.

570. Thermal Systems Analysis and Design (3)
Prerequisite: Mechanical Engineering 470.
Analysis, design, and optimization of thermal systems using microcomputers. Modeling of thermal systems and components. Thermal system component characteristics and their effect on overall system performance. Relationship among thermal sciences in design process. Introduction to thermoeconomic optimization.

580. Elements of Energy Conversion (3)
Prerequisite: Mechanical Engineering 350.
Principles of physics and chemistry applied to design and performance analysis of a broad spectrum of direct and alternative energy systems. Solar photovoltaics, passive and active solar energy conversion, thermoelectrics, thermonics, magnetohydrodynamics, nuclear fusion, wind and wave energy, and fuel cells.
582. Heating, Ventilating, and Air-Conditioning (3)
Prerequisite: Mechanical Engineering 470.

586. Solar Energy Conversion (3)
Prerequisites: Engineering Mechanics 340, Mechanical Engineering 450 and 470.
Application of thermodynamics, fluid mechanics and heat transfer to the thermal design of solar energy conversion systems. Computer simulations utilized.

590. Biomechanics (3)
Prerequisites: Civil and Environmental Engineering 301 and Engineering Mechanics 340.

596. Advanced Mechanical Engineering Topics (1-3) I, II
Prerequisite: Consent of instructor. Proof of completion of prerequisite required: Copy of transcript.
Modern developments in mechanical engineering. See Class Schedule for specific content. Maximum credit of six units for any combination of Mechanical Engineering 496, 499 and 596 applicable to a bachelor’s degree. Maximum combined credit of six units of Mechanical Engineering 596 applicable to a 30-unit master’s degree.

GRADUATE COURSES

610. Finite Element Methods in Mechanical Engineering (3)
Prerequisites: Engineering 280 with a grade of C or better and Mechanical Engineering 510.
Development of finite elements and an introduction to solution methods. Problems from various fields of study in mechanical engineering such as stress analysis, vibrations and heat transfer. Introduction to finite element programs such as NASTRAN.

614. Engineering Design: Analytical Methods (3)
Prerequisites: Mechanical Engineering 512 and Engineering 510.
Classical optimization techniques, digital computer methods of optimization, design decision theory, reliability in design.

621. Mechanical Vibrations (3)
Prerequisites: Mechanical Engineering 512, 520 and Engineering 510.
Topics in vibration relating to mechanical design such as nonlinear vibrations, distributed mass systems, random vibrations, mobility analysis, isolator design.

632. Advanced Topics in Automatic Controls (3)
Prerequisite: Mechanical Engineering 530.
Analysis and synthesis of sample data systems. State space analysis of multivariable systems, optimal control systems.

645. Mechanical Behavior of Engineering Materials (3)
Prerequisites: Mechanical Engineering 314, 340, and 350.

651. Advanced Thermodynamics (3)
Prerequisites: Engineering 280 with a grade of C or better and Mechanical Engineering 450.
Advanced concepts of macroscopic thermodynamics are developed including entropy generation, irreversibility, effectiveness, availability, and chemical availability of fuels. Concepts applied to power and refrigeration cycles using computer software.

661. Gas Dynamics (3)
Prerequisites: Mechanical Engineering 450 and Engineering 510.
Thermodynamics of high velocity compressible fluid flow. Adiabatic and diabatic flow; shock phenomena; imperfect gases; multidimensional flow. Applications to the propulsion duct and turbomachinery.

663. Boundary Layers in Internal Flows (3)
Prerequisites: Mechanical Engineering 470 and Engineering 510.
Conservation laws applied to boundary layers in viscous, heat conducting fluids; analysis of the boundary layer equations; applications to internal flows.

671. Conduction of Heat and Mass Transfer (3)
Prerequisites: Mechanical Engineering 470 and Engineering 510.
Conduction heat transfer analysis of multi-dimensional and transient processes using both classical analysis and numerical methods. Analogous transport problems involving mass transfer by diffusion.

673. Convection Heat Transfer (3)
Prerequisites: Mechanical Engineering 470 and Engineering 510. Recommended: Concurrent registration in Mechanical Engineering 663.
Convection heat transfer processes under laminar and turbulent conditions. Mass transfer. Scaling arguments, analytical and numerical modeling.

675. Radiation Heat Transfer (3)
Prerequisites: Mechanical Engineering 470 and Engineering 510.

696. Advanced Topics in Mechanical Engineering (2 or 3)
Intensive study in specific areas of mechanical engineering. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of Mechanical Engineering 596 and 696 applicable to a 30-unit master’s degree.

797. Research (1-3) Cr/NC/SP
Prerequisites: Consent of graduate adviser and advancement to candidacy.
Research in engineering. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit three units applicable to a master’s degree.
799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.
English and Comparative Literature

Faculty

Carey G. Wall, Ph.D., Professor of English, Chair of Department
Sandra B. Alcosser, M.F.A., Professor of English
Robert F. Borkat, Ph.D., Professor of English
Gerald Butler, Ph.D., Professor of English, Director of Graduate Studies, M.A. Program
Marilyn Chin, M.F.A., Professor of English and Comparative Literature
Glover T. Davis, II, M.F.A., Professor of English, Graduate Adviser, M.F.A., Program
Laurie D. Edson, Ph.D., Professor of English and Comparative Literature
Gerald H. Farber, Ph.D., Professor of English and Comparative Literature
Ronald J. Gervais, Ph.D., Professor of English
Sinda J. Gregory, Ph.D., Professor of English
Jermoe J. Griswold, Ph.D., Professor of English
Harold Jaffe, Ph.D., Professor of English
Dorothy A. Kehler, Ph.D., Professor of English
Sherry B. Little, Ph.D., Professor of English
Lawrence F. McCaffery, Ph.D., Professor of English and Comparative Literature
Fred S. Moramarco, Ph.D., Professor of English
Thomas A. Nelson, Ph.D., Professor of English
Harry Polkinhorn, Ph.D., Professor of English
William N. Rogers, II, Ph.D., Professor of English and Comparative Literature
James Rother, Ph.D., Professor of English and Comparative Literature
Minas Savvas, Ph.D., Professor of English and Comparative Literature
Ita G. Sheres, Ph.D., Professor of English and Comparative Literature
Donald A. Shojai, Ph.D., Professor of English and Comparative Literature
Alida L. Allison, Ph.D., Associate Professor of English and Comparative Literature
Alfred F. Boe, Ph.D., Associate Professor of English and Comparative Literature
Clare Colquitt, Ph.D., Associate Professor of English
Peter C. Herman, Ph.D., Associate Professor of English
Lynda L. Koolish, Ph.D., Associate Professor of English
David Matlin, Ph.D., Associate Professor of English
William A. Nelson, Ph.D., Associate Professor of English
Jeanette Shumaker, Ph.D., Associate Professor of English
Barry G. Stampfl, Ph.D., Associate Professor of English
Laurie Amtower, Ph.D., Assistant Professor of English
June Cummins-Lewis, Ph.D., Assistant Professor of English
Maria C. Sanchez, Ph.D., Assistant Professor of English
P. Ryan Schneider, Ph.D., Assistant Professor of English

 Associateships and Scholarships

Graduate teaching associateships in English are available to a limited number of qualified students. Application blanks and additional information may be secured from the graduate director.

General Information

The Department of English and Comparative Literature offers graduate study leading to a Master of Arts in English and the Master of Fine Arts in creative writing. The M.A. student can choose one of four areas of specialization: American literature, British literature, comparative literature, or rhetoric and writing. The M.A. is a 30-unit degree program particularly well-suited for students who anticipate further graduate work in a literature or rhetoric Ph.D. program or who intend to teach English in a community college or, after obtaining a credential, in a secondary school. The M.F.A. in creative writing is a 54-unit program which offers study in poetry or fiction with a balance between studio and academic, traditional and experimental, commercial and aesthetic approaches. The program has two stages - graduate seminars followed by intensive study with one or more professors in tutorials and thesis preparation. The program has two stages - graduate seminars followed by intensive study with one or more professors in tutorials and thesis preparation. The program has two stages - graduate seminars followed by intensive study with one or more professors in tutorials and thesis preparation.

The department offers a wide range of courses and approaches to the study of literature and writing, many of which are outlined in English 600, Introduction to Graduate Study, required of all entering M.A. students. Faculty publications in literature and rhetoric are similarly diverse. They include major literary biographies, historical studies, critical analysis from various current perspectives, reviews of and interviews with contemporary writers, as well as a broad spectrum of original poetry and fiction. The department also sponsors the literary periodicals Fiction International, Poetry International, and The Pacific Review.

Master of Arts Degree in English

Admission to Graduate Study

Students will be admitted in both the fall and spring semesters. Submit applications by October 1 for the spring and by April 1 for the fall.

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. Students may be admitted to the master’s program in English in one of two categories:

1. Classified Graduate Standing

To be considered for admission, students must meet the following minimal requirements:

1. Classified Graduate Standing

To be considered for admission, students must meet the following minimal requirements:
Specific Requirements for the Master of Arts Degree

(Major Code: 15011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program, approved by the department’s director of graduate studies, which includes a major consisting of 30 units, with at least 21 units of 600- and 700-numbered courses. The major includes a specialization in one of four program areas: American literature, British literature, comparative literature, or rhetoric and writing. Students specializing in literature may choose Plan A (thesis) or Plan B (written examination). Students specializing in rhetoric and writing may only select the thesis option (Plan A).

Specialization in American Literature

Core Courses (9 units):
- English 600 Introduction to Graduate Study (3)
- English 601 Literary Study in a Multicultural World (3)
- English 602 Literary Theory and Critical Practice (3)

American Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:
- English 604A American Literary Period or Movement (3)
- English 606A American Literary Type (3)
- English 625 American Literature (3)
- English 700 Seminar: A Major Author or Authors (3)
- English 725 Seminar: Issues in American Literature (3)

(With the consent of the graduate adviser, English 798, with appropriate content, may be substituted for one of the above courses.)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and comparative literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:
- Plan A: (Thesis or Project) - 799A (3 units)
- Plan B: (Comprehensive Examination) - Additional 3 units of 700-level coursework in English.

Specialization in British Literature

Core Courses (9 units):
- English 600 Introduction to Graduate Study (3)
- English 601 Literary Study in a Multicultural World (3)
- English 602 Literary Theory and Critical Practice (3)

British Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:
- English 604B British Literary Period or Movement (3)
- English 606B British Literary Type (3)
- English 624 British Literature (3)
- English 700 Seminar: A Major Author or Authors (3)
- English 724 Seminar: Issues in British Literature (3)

(With the consent of the graduate adviser, English 798, with appropriate content, may be substituted for one of the above courses.)
Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and comparative literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:
- Plan A: (Thesis or Project) - 799A (3 units)
- Plan B: (Comprehensive Examination) - Additional 3 units of 700-level coursework in English.

Specialization in Comparative Literature
Core Courses (9 units):
- English 600 Introduction to Graduate Study (3)
- English 601 Literary Study in a Multicultural World (3)
- English 602 Literary Theory and Critical Practice (3)

Comparative Literature Research Focus. With prior approval by the graduate adviser, a student will select nine units from the following:
- Three units acceptable for graduate credit, in a foreign language literature read in the original language.
- Six units from the following:
  - English 604C Comparative Literature Literacy Period or Movement (3)
  - English 606C Comparative Literature Literary Type (3)
  - English 626 Comparative Literature (3)
  - English 700 Seminar: A Major Author or Authors (3)
  - English 726 Seminar: Issues in Comparative Literature (3)
  (With the consent of the graduate adviser, English 798, with appropriate content, may be substituted for one of the above courses.)

Electives: Diversification in Literary and Writing Research. With the approval of the graduate adviser, nine units selected from other English and comparative literature departmental graduate offerings. A maximum of six units of courses acceptable for graduate credit in other departments (when appropriate) may be used toward satisfying this requirement.

Culminating Experience:
- Plan A: (Thesis or Project) - 799A (3 units)

Master of Fine Arts Degree in Creative Writing

Admission to Graduate Study

STUDENTS WILL BE ADMITTED TO THE M.F.A. IN CREATIVE WRITING ONLY IN THE FALL SEMESTER AND COMPLETE APPLICATIONS MUST BE RECEIVED NO LATER THAN FEBRUARY 1.

In addition to meeting the general requirements for admission to San Diego State University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for classified graduate standing:

1. The applicant must submit a sample of creative work (15 poems or 30 pages of prose) and three letters of recommendation, to enable the creative writing faculty to assess the candidate’s suitability to pursue an M.F.A. in creative writing. The sample of creative writing and the letters of recommendation are to be sent directly to the director of the creative writing program, Department of English and Comparative Literature, San Diego State University.

2. The applicant must possess a baccalaureate degree in creative writing, or in English with a focus in creative writing, or an approved affiliated field, with a grade point average of not less than 3.0 overall in the last 60 units of study attempted, with a 3.25 undergraduate grade point average in the major, and a 3.5 average in those courses considered prerequisite for the M.F.A. focus the student elects. The applicant should send all transcript information directly to the Office of Admissions and Records, San Diego State University.

3. If deficient, the applicant must complete undergraduate requirements commensurate with the proposed focus in the M.F.A. program.

4. The applicant normally must achieve a minimum score of 1050 on the Graduate Record Examination, with a minimum of 550 on the verbal section. The results of the GRE should be sent directly to the Office of Admissions and Records, San Diego State University.

Students submit especially compelling samples of creative work, but who have not met certain criteria or who demonstrate deficiencies in undergraduate preparation or basic skill development may be granted conditional classified admission to the program. The graduate coordinator shall specify the conditions for such admission with the proviso that any prerequisite coursework assigned must be completed with a minimum grade point average of 3.0 and no grade less than a B-.

A student holding an M.A. degree in English with a specialization in creative writing from San Diego State University, or any other acceptable accredited institution of higher learning, may formally apply for admission to the M.F.A. program. Applicants holding an M.A. or pursuing an M.F.A. at an acceptable accredited institution may transfer up to 18 units upon review and recommendation by the creative writing faculty in the area of focus and the approval of the Dean of the Graduate Division. Students unable to satisfy the requirements for the M.F.A. degree will not automatically be considered for an M.A. degree.

Students already accepted into the M.F.A. program at San Diego State University who request a change of focus (poetry or fiction) at a later date will be required to reapply to the creative writing committee.
Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Candidates for the M.F.A. degree must have completed 30 units within their official program of study, including transfer credit, with a minimum grade point average of 3.25 and have no grade less than B-. Students will be permitted to repeat only one course to achieve these levels.

In addition, the M.F.A. graduate committee must have recommended appointment of a thesis adviser from the student’s area of focus (poetry, fiction) and the creative writing committee must have approved a thesis topic. Applicants for advancement should submit a portfolio of their creative work to the creative writing committee for a recommendation for advancement. Aspects to be reviewed include artistic achievement, ability to function in situations that writers and teachers usually encounter, and demonstration of skills in the focus area.

After advancement to candidacy, a student must enroll in and complete a minimum of 24 units from the official program to include English 789, 797, and 799A.

Specific Requirements for the Master of Fine Arts Degree in Creative Writing

(Major Code: 15071)

In addition to meeting the requirements for classified graduate standing, candidates for the M.F.A. in creative writing must complete a 54-unit graduate program, 39 of which must be in courses numbered 600 and above as follows:

1. Core Requirements.
   English 689 Advanced Tutorial in Creative Writing (3)
   This course must be taken prior to advancement to candidacy.
   English 789 Directed Writing for M.F.A. Students (3)
   This core course must be taken after advancement to candidacy.

2. Creative Writing Research Focus. Student to select one 18-unit research focus as follows:
   A. Poetry
      English 680 Seminar: Poetry Writing (6)
      English 780 M.F.A. Seminar: Poetry (6)
      Six units of electives in another creative writing research focus with the approval of the M.F.A. adviser.
   B. Fiction
      English 681 Seminar: Fiction Writing (6) and six units to be selected from
      English 781 M.F.A. Seminar: Fiction (3-6)
      English 783 M.F.A. Seminar: Novel (3-6)
      Six units of electives in another creative writing research focus with the approval of the M.F.A. adviser.

3. Literature Research. An 18-unit literature research component divided as follows:
   A. Three units selected from the following:
      English 630 Form and Theory of Poetry (3)
      English 631 Form and Theory of Fiction (3)
   B. Nine units in American, British, or comparative literature, or an appropriate modern language literature selected with the approval of the M.F.A. adviser.
   C. Six units selected from the following:
      English 700 Seminar: A Major Author or Authors (3)
      English 724 Seminar: Issues in British Literature (3)
      English 725 Seminar: Issues in American Literature (3)
      English 726 Seminar: Issues in Comparative Literature (3)
      English 730 Seminar: Perspectives in Critical Analysis (3)
      English 796 or 798 in literature with consent of adviser (3)
      RWS 601 History of Rhetoric (3)
      RWS 602 Modern Rhetoric and Composition Studies (3)
      RWS 744 Seminar: Issues in Rhetorical Theory and Practice (3)
      RWS 745 Advanced Seminar: Research Methods in Rhetoric and Writing (3)

4. Six units of electives selected with consent of adviser.

   English 797 Thesis Research (3)
   English 799A Thesis (3)

Courses Acceptable on the Master's Degree Programs in Creative Writing and English

UPPER DIVISION COURSES IN ENGLISH

Prerequisite for all 500-level courses: Six lower division units in courses in literature and/or creative writing.

501. Literature for Children (3) I, II

502. Adolescence in Literature (3)
   Prerequisite: Six units in literature.
   Works centrally concerned with an adolescent protagonist. Includes both traditional novels of development (Bildungsroman) and contemporary young adult novels.

508W. The Writing of Criticism (3) I, II
   Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
   Theory and practice of literary criticism. Emphasis on the work of important critics and on development of student’s own critical writing.

510. Teaching Literature (3)
   Prerequisite: Six units in 500-level literature courses.
   Theory and practice of teaching literature in high schools, colleges, and universities; various critical approaches (such as feminist, new historical, deconstruction, reader response) to literature and their implications for teaching and developing teaching styles.

519. American Ethnic Literatures (3) I, II
   Prerequisite: Six units in literature.
   Works from American ethnic literatures, with emphasis on formerly excluded traditions as African-American, Hispanic and Chicano, Asian-American, and American Indian.
1. **African-American Literary Tradition (3)**
   Prerequisite: Six units in literature.
   African-American literature from its eighteenth-century beginnings to the present. Early political and social concerns and concomitant utilitarian forms; aesthetic concerns and forms in nineteenth and twentieth centuries.

2. **American Literature, 1800-1860 (3) I, II**
   Representative works by American writers from 1800 to 1860; likely to include works by Emerson, Hawthorne, Melville, Poe, Stowe, Thoreau, Whitman, and others.

3. **American Literature, 1860-1920 (3) I, II**
   Representative works by American writers from 1860 to 1920; likely to include works by Charles Chesnutt, Kate Chopin, Stephen Crane, Emily Dickinson, Henry James, Mark Twain, Edith Wharton, and others.

4. **American Literature, 1920-1950 (3) I, II**
   Representative works by American writers from 1920 to 1950; likely to include works by Willa Cather, T. S. Eliot, William Faulkner, F. Scott Fitzgerald, Ernest Hemingway, Zora Neale Hurston, Eugene O’Neill, Katherine Anne Porter, Ezra Pound, John Steinbeck, and others.

5. **American Literature, 1950 to Present (3) I, II**
   American writers from 1950 to the present; likely to include works by Charles Bukowski, Saul Bellow, Allen Ginsberg, Joseph Heller, Maxine Hong Kingston, Norman Mailer, Toni Morrison, Sylvia Plath, Adrienne Rich, Kurt Vonnegut, Eudora Welty, and others.

6. **Topics in American Literature (3)**
   Topics in American literature to include the literature of the South, Black writers in America, the frontier and American literature, the outcast in American literature, the immigrant experience in American literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

7. **Genre Studies in American Literature (3)**
   Study of a specific literary genre: overview of the genre’s development in American literature (the American novel, the American short story, American poetry) or focus on a narrower period (the modern American novel, the contemporary American novel, American autobiographies, others). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

8. **Individual American Authors (3)**
   Works of a major American author or, if useful comparisons and juxtapositions warrant it, the works of two or three authors: Melville, Twain, James, Faulkner, Steinbeck, Cather, Morrison; or Pound and Eliot, Emerson and Thoreau, Vonnegut and Barth, Rich and Levertov, and others. See Class Schedule for specific content. May be repeated with new title and content. Maximum credit six units.

9. **Medieval Literature (3)**
   English literature from its birth through high middle ages.

10. **Chaucer (3)**
    Chaucer’s works, with emphasis on The Canterbury Tales and Troilus and Criseyde.

11. **Renaissance Literature (3)**
    English poetry and prose from 1485 to 1603.

12. **Shakespeare (3) I, II**
    An introduction to the writings of Shakespeare. This course cannot be used in place of English 302 to satisfy General Education requirements.

13. **Study of Shakespeare (3)**
    Prerequisite: English 533.
    Advanced study of Shakespeare’s achievement as poet and playwright. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

14. **Seventeenth Century Literature (3)**
    English poetry and prose from 1603 to 1660.

15. **Milton (3)**
    Milton’s writings, with emphasis on Paradise Lost.

16. **Restoration and Eighteenth Century Literature (3-3)**
    English literature in the neoclassical era. Semester I: Dryden, Swift, Pope, and their contemporaries. Semester II: Writers of the middle and late eighteenth century.

17. **English Fiction (3-3)**
    English drama from the 1790s to the 1830s by such writers as Wollstonecraft, Blake, Wordsworth, Coleridge, Byron, Shelley, Keats, Austen, and Scott.

18. **Victorian Literature (3)**
    Representative British works from 1837 to 1890 by such writers as Carlyle, Tennyson, Ruskin, Browning, Dickens, Arnold, Eliot, and Pater.

19. **British Literature, 1890-1918 (3)**
    Representative British works from 1890 to 1918 by such writers as Hardy, Gissing, Shaw, Conrad, Yeats, Wells, Forster, Mansfield, and the World War I poets.

20. **British Literature, 1918-1950 (3)**
    Representative British works from 1918 to 1950 by such writers as Joyce, Woolf, Lawrence, T. S. Eliot, Mansfield, Huxley, Bowen, Greene, Auden, Orwell, and Thomas.

21. **British Literature, 1950 to Present (3)**
    Representative British works from 1950 to the present by such writers as Golding, Amis, Murdoch, Lessing, Pinter, Hughes, Fowles, Stoppard, Drabble, and Ishiguro.

22. **Topics in English Literature (3)**
    The works of Spenser, the metaphysical school of poetry, the English satirists, major movements in contemporary English fiction, and the like. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

23. **English and Comparative Literature (3-3)**
    Survey of major British writers, with emphasis on reading of complete works. From the beginnings to the neoclassical period. Especially appropriate for those who will teach British literature, and for those proceeding on to graduate study.
560B. British Literature, Romanticism to the Present (3) I, II
Survey of major British writers, with emphasis on reading of complete works. Begins with the Romantic writers. Especially appropriate for those who will teach British literature, and for those proceeding on to graduate study.

570. Techniques of Poetry (3)
Prerequisite: English 280.
Techniques of poetry from the creative writer’s point of view. Introduction to critical and theoretical literature on poetry. Includes a creative writing workshop.

571. Techniques of the Short Story (3)
Prerequisite: English 280.
Techniques of the short story from the writer’s point of view. Introduction to critical and theoretical literature on the short story. Includes a creative writing workshop.

573. Techniques of the Novel (3)
Prerequisite: English 280.
Techniques of the novel from the writer’s point of view. Introduction to critical and theoretical literature on the novel. Includes a creative writing workshop.

576. Literary Editing and Publishing (3)
Prerequisite: English 280.
Principles and practices of editing and literary publishing. Workshop on small press publishing. Includes editing and publishing workshop.

577. Techniques of Screenwriting (3)
Prerequisite: English 280 or Television, Film, and New Media 110 or 410 for television, film, and new media majors.
Techniques of screenwriting. Introduction to critical and theoretical literature on screenwriting. Includes a creative writing workshop.

579. Topics in Creative Writing (3)
Prerequisite: English 280.
Techniques of creative writing focusing on a specialized genre such as comedy, science fiction, and biography. Study of the critical and theoretical literature on the genre. Includes a creative writing workshop. See Class Schedule for specific content. Maximum credit six units.

580. Writing of Poetry (3) I, II
Prerequisite: English 570.
A creative writing workshop in poetry. Continuation of English 570. Maximum credit six units.

581W. Writing of Fiction (3) I, II
Prerequisites: English 280. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
A creative writing workshop in fiction. Continuation of English 571. Maximum credit six units.

583. Writing Long Narrative (3)
Prerequisite: English 573.
A creative writing workshop in long narrative, especially the novella or novel. Continuation of English 573. Maximum credit six units.

584W. Writing Informal Essays (3) I, II
Prerequisites: English 280. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript.
A creative writing workshop in nonfiction, especially the essay as an art form. Maximum credit six units.

587. Writing the Screenplay (3)
Prerequisite: English 577 or Television, Film, and New Media 110 or 410 for television, film, and new media majors.
A creative writing workshop in screenwriting with emphasis on the feature film. Continuation of English 577. Includes playwriting and revising a television script or short film. Maximum credit six units.

596. Selected Topics in English (1-3)
Selected topics in English. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

UPPER DIVISION COURSES IN COMPARATIVE LITERATURE
Prerequisite for all 500-level courses: Six units in literature or three units in literature and three units in a related area appropriate to the course in question.

511. Continental Renaissance (3)
Representative selections from authors of the Renaissance period in continental Europe.

512. Seventeenth and Eighteenth Century European Literature (3)
Selected works by European writers between 1800 and 1900.

513. Nineteenth Century European Literature (3)
Selected works by European writers of the twentieth century.

514. Modern European Literature (3)
Selected works by European writers of the twentieth century.

530. Topics in Asian Literature (3)
Specialized study of a selected topic in Asian literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

561. Fiction (3)
A comparative approach to themes and forms in fiction (novel and short story). Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

562. Drama (3)
Forms and themes in drama. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

563. Poetry (3)
A comparative approach to themes and forms in poetry. Focus of course to be set by instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.
571. Literary Use of Legend (3)
    Literary treatment of such legendary figures as Don Juan, Faust, and Ulysses, in a wide range of literature and genres. See Class Schedule for specific content.

577. Major Individual Authors (3)
    In-depth study of the works of a major author, such as Dante, Murasaki, or Dostoyevsky. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

580. Concepts in Comparative Studies (3)
    Basic concepts in comparative studies in literature (e.g., influence, movement, figure, genre, etc.); their validity, usefulness, and limitations. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

584. Topics in Literature and the Arts (3)
    Prerequisite: Six upper division units in literature or any of the other arts.
    Comparative study of literature and other arts such as painting, sculpture, architecture, music, dance, and film. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a bachelor’s degree. Maximum credit six units applicable to the M.F.A. degree in creative writing.

595. Literature and Aesthetics (3)
    Prerequisite: Six upper division units in literature or any of the other arts.
    Theoretical and experiential investigation of relationships between literature and the other arts; literary works in context of an inquiry into aesthetics.

596. Topics in Comparative Literature (3)
    An intensive study of a topic to be selected by the instructor. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

600. Introduction to Graduate Study (3)
    Prerequisite: Twelve upper division units in English. Introduction to research methods and critical approaches common in the graduate study of literature and expository writing, with attention to basic reference works, bibliographical techniques, analytical strategies, scholarly frames of reference, and pedagogy. Recommended for first-semester graduate students.

601. Literary Study in a Multicultural World (3)
    Prerequisite: Credit or concurrent registration in English 600. Relationship of literature to gender, race, class, and nationality. Changing conceptions of literary canons. Exploration, through literary texts, of values in literature and the constituents of literary value.

602. Literary Theory and Critical Practice (3)
    Prerequisite: Credit or concurrent registration in English 600. Major issues in the history of literary criticism as well as contemporary approaches. Study of criticism and theory accompanied by writing practicum. Students will write in several critical modes and build graduate level proficiency in analyzing literary issues. Prerequisite to 700-level seminars.

604. A Literary Period or Movement (3)
    Prerequisites: An appropriate upper division or graduate level background course; credit or concurrent registration in English 600. Advanced study, through its literature, of a literary period such as the Renaissance, or a movement such as American modernism. May be repeated with new content. Maximum credit six units.
    A. American Literature
    B. British Literature
    C. Comparative Literature

606. A Literary Type (3)
    Prerequisite: Credit or concurrent registration in English 600. Advanced study of a specific literary genre, such as the novel, tragic drama, lyric poetry, the personal essay, autobiography. May be repeated with new content. Maximum credit six units.
    A. American Literature
    B. British Literature
    C. Comparative Literature

624. British Literature (3)
    Prerequisite: Twelve upper division units in English. Selected works of an author, period, or subject in English literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

625. American Literature (3)
    Prerequisite: Twelve upper division units in English, with courses in American literature strongly recommended. Selected works of an author, period, or subject in American literature. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

626. Comparative Literature (3)
    Prerequisite: Twelve upper division units in English, comparative literature, or a foreign language literature. Comparative approaches to literature: study of a theme, geographical region, external relationship, or of selected authors. May be repeated with new content. Maximum credit six units.

630. Form and Theory of Poetry (3)
    Prerequisite: Twelve upper division units in English. Poetry as a literary form. May be repeated with new content. Maximum credit six units applicable to an M.F.A. degree in creative writing.

631. Form and Theory of Fiction (3)
    Prerequisite: Twelve upper division units in English. Fiction as a literary form. May be repeated with new content. Maximum credit six units applicable to an M.F.A. degree in creative writing.

680. Seminar: Poetry Writing (3)
    Prerequisites: English 580 and at least 12 units in upper division and graduate English courses. Strongly recommended: English 570 and/ or 630.
    Writing original poetry; guided practice in various forms and techniques. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

681. Seminar: Fiction Writing (3)
    Prerequisites: English 581W and at least 12 units in upper division and graduate English courses. Strongly recommended: English 571, 631.
    Writing original fiction. Students may emphasize short story, novel, or a combination. Guided practice in narrative techniques. May be repeated with new content. Maximum credit six units applicable to a master’s degree.
689. Advanced Tutorial in Creative Writing (3)  
Prerequisite: English 680 or 681.  
Class sessions and individual consultations in creative writing. May be repeated with new content. Maximum credit six units applicable to a master's degree.

696. Special Topics (3)  
Prerequisite: Twelve upper division units in English. Intensive study in specific areas of English. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 526, 549, or 696 applicable to a 30-unit master’s degree.

700. Seminar: A Major Author or Authors (3)  
Prerequisites: English 600 and 602. Critical study of a major author or authors such as Shakespeare, Charles Dickens, Edith Wharton, Marcel Proust, Gabriel Garcia Marquez, and others. May be repeated with new content. Maximum credit six units.

724. Seminar: Issues in British Literature (3)  
Prerequisites: English 600 and 602. Advanced study of issues within the development of the novel in Great Britain, colonial literatures in English, the British lyrical tradition and others. May be repeated with new content. Maximum credit six units.

725. Seminar: Issues in American Literature (3)  
Prerequisites: English 600 and 602. Advanced study of such issues as regionalism, ethnicity, the urban experience, gender, the political novel in American literature. May be repeated with new content. Maximum credit six units.

726. Seminar: Issues in Comparative Literature (3)  
Prerequisites: At least two courses selected from English 600, 601, and 602. Advanced study of an issue such as translation, negritude, poetic language, or literature and censorship. May be repeated with new content. Maximum credit six units.

730. Seminar: Perspectives in Critical Analysis (3)  
Prerequisites: English 600 and 602. Advanced study of analytical perspectives such as contemporary literary theory, feminist poetics, canon and exclusion, literature and other arts, literature and other disciplines.

780. M.F.A. Seminar: Poetry (3)  
Prerequisite: English 680; open only to students admitted to M.F.A. in creative writing. Advanced poetry writing for M.F.A. candidates. Students will be expected to do considerable work on a collection of poems in progress, as well as to participate in critiques of others’ work. May be repeated with new content. Maximum credit six units applicable to the M.F.A. degree in creative writing.

781. M.F.A. Seminar: Fiction (3)  
Prerequisite: English 681; open only to students admitted to M.F.A. in creative writing. Fiction writing for M.F.A. candidates. Emphasis on forms of short fiction. May be repeated with new content. Maximum credit six units applicable to the M.F.A. degree in creative writing.

783. M.F.A. Seminar: Novel (3)  
Prerequisites: English 583 and 681; open only to students admitted to the M.F.A. in creative writing. Novel writing for M.F.A. candidates. Students will be expected to do considerable work on a novel in progress, as well as participate in critiques of others’ work. May be repeated with new content. Maximum credit six units applicable to the M.F.A. in creative writing.

784. Seminar in Creative Literary Criticism (3)  
Prerequisite: Six units of graduate level creative writing courses. Advanced approach to writing book reviews and short critical essays. Professional focuses necessary for these forms. Emphasis on writing, reading, research, and direct function of these processes.

789. Directed Writing for M.F.A. Students (3)  
Prerequisite: English 780, or 781, or 783 and advancement to candidacy for the M.F.A. in creative writing. Directed, individual practice in a particular genre or problem in writing with emphasis on critical evaluations and revision within problem areas of the student’s work.

790. M.A. Examination Preparation (3) Cr/NC  
Prerequisites: Twenty-four units of graduate coursework that counts toward the M.A. in English. Student must be in final semester of study for the master’s degree. Survey of selected poetry, fiction, and drama in American, British, and comparative literature included in M.A. examination. Emphasis on texts (close readings) and contexts (critical, literary, historical, cultural). Strongly recommended for students taking M.A. examination.

796. Internship (3) Cr/NC  
Prerequisite: Advancement to candidacy for the Master of Arts degree in English and comparative literature or admission to the Master of Fine Arts program and consent of the graduate adviser and supervising professor. Work experience with a practicing professional or company in the community, such as working as editorial assistant or teacher intern.

797. Thesis Research (3)  
Prerequisite: Advancement to candidacy in the M.F.A. degree in creative writing. Independent work in general field of candidate’s thesis project.

798. Special Study (1-3) Cr/NC/SP  
Prerequisite: Consent of staff; to be arranged with department chair and instructor. Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP  
Prerequisites: An officially appointed thesis committee and advancement to candidacy. Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC  
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP. Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
Faculty

B. Robert Carlson, Ph.D., Professor of Exercise and Nutritional Sciences, Chair of Department
Michael J. Buono, Ph.D., Professor of Exercise and Nutritional Sciences
Jeanne F. Nichols-Bernhard, Ph.D., Professor of Exercise and Nutritional Sciences
Patricia Patterson, Ph.D., Professor of Exercise and Nutritional Sciences (Graduate Adviser)
Anthony A. Sucec, Ed.D., Professor of Exercise and Nutritional Sciences
Larry S. Verity, Ph.D., Professor of Exercise and Nutritional Sciences
Fred W. Kolkhorst, Ph.D., Associate Professor of Exercise and Nutritional Sciences

Associateships

Graduate teaching associateships in exercise and nutritional sciences are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department or the graduate adviser.

General Information

The Department of Exercise and Nutritional Sciences offers graduate study leading to the Master of Science degree in exercise physiology and a concurrent graduate program leading to a Master of Science degree in nutritional science and M.S. degree in exercise physiology. The major objective of the concurrent graduate program is to offer preparation in the interrelated fields of nutritional science and exercise physiology.

The Master of Science degree in exercise physiology has strong theoretical and practical components that provide a basis for students who anticipate employment in the field of rehabilitative and/or preventive exercise, as well as for those who intend to pursue a doctoral degree in exercise science. The faculty includes researchers who are professionally active in areas of study such as thermoregulation, nutrition and metabolism, exercise and aging, cardiac and metabolic pathophysiology, and environmental physiology. The department also has an adult fitness program which provides the students an opportunity to gain exercise-related experience with apparently healthy adults of all ages. Moreover, under the close supervision of faculty, graduate students learn pragmatic skills, such as comprehensive physiological testing, exercise training, and participant education in the field of preventive and clinical exercise programming.

Master of Science Degree in Exercise Physiology

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in exercise physiology must meet the following requirements.

1. A bachelor's degree in kinesiology. Applicants who do not have an undergraduate major in kinesiology may be admitted to conditionally classified graduate standing on the recommendation of the departmental graduate adviser. Students will be required to complete or have equivalent preparation in Biology 212, 336, Exercise and Nutritional Sciences 303, 304, 314, and an undergraduate statistics course in addition to the minimum 36 units required for the Master of Science degree.

2. A grade point average (GPA) of at least 3.0 in the last 60 units of coursework.

3. A minimum score of 475 on each of the verbal and quantitative sections of the GRE General Test.

Students will be admitted ONLY in the fall semester. Submit applications no later than April 1.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin. Nine units of coursework in the official program must remain after advancement to candidacy.

Specific Requirements for the Master of Science Degree

(Major Code: 08355)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree, described in Part Two of this bulletin. The 36-unit program includes a minimum of 30 units in Exercise and Nutritional Sciences. The remaining units must be selected from courses listed in this bulletin as acceptable on master's degree programs. At least 27 units of the 36-unit program must be in 600- and 700-numbered courses. A final oral examination on the field of the thesis and on the implications of the thesis research for the broader field of exercise physiology is also required.
Exercise Physiology

Students must develop and sign a formal plan of study which must be approved by both a faculty adviser and the graduate adviser. This official program of study is developed when the student has completed between 12 and 21 units of study, and must be filed with the Graduate Division as a prerequisite for advancement to candidacy.

The department expects a student to complete the degree within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Required courses (36 units):
- ENS 601 Experimental Methods in Exercise and Nutritional Science (3)
- ENS 602 Research Evaluation in Exercise and Nutritional Science (3)
- ENS 632 Physiological Chemistry of Exercise (3)
- ENS 659 Exercise Cardiology and Pathology (3)
- ENS 661 Seminar in Advanced Physiology of Exercise (3)
- ENS 662 Advanced Exercise Physiology Laboratory (3)
- ENS 666 Adult Fitness: Exercise Prescription (3)
- ENS 668 Adult Fitness: Exercise Leadership and Administration (3)
- ENS 796 Exercise Specialist Internship (3) Cr/NC
- ENS 799A Thesis (3) Cr/NC/SP

Electives (6 units): Electives to be selected with approval of graduate adviser.

Master of Science Degree in Nutritional Science and Master of Science in Exercise Physiology

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the concurrent program in nutritional science and exercise physiology must meet the following requirements.

1. A grade point average (GPA) of at least 3.0 in the last 60 units of coursework.
2. A bachelor's degree in foods and nutrition, exercise science, kinesiology, physical education, or related fields. Students will be required to complete or have equivalent preparation in Biology 212, 336, Chemistry 100, 130, 160, Nutrition 302, 302L, and either Nutrition 204 or 311, and Exercise and Nutritional Sciences 303, 304, 314, and an undergraduate statistics course.
3. A minimum score of 475 on each of the verbal and quantitative sections of the GRE General Test.

Students will be admitted ONLY in the fall semester. Submit applications no later than April 1.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science in Nutritional Science and Master of Science in Exercise Physiology

(Major Code: 08356)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 48 units as outlined below.

- ENS 601 Experimental Methods in Exercise and Nutritional Science (3)
- ENS 602 Research Evaluation in Exercise and Nutritional Science (3)
- ENS 632 Physiological Chemistry of Exercise (3)
- ENS 659 Exercise Cardiology and Pathology (3)
- ENS 661 Seminar in Advanced Physiology of Exercise (3)
- ENS 662 Advanced Exercise Physiology Laboratory (3)
- ENS 666 Adult Fitness: Exercise Prescription (3)
- ENS 668 Adult Fitness: Exercise Leadership and Administration (3)
- ENS 796 Exercise Specialist Internship (3) Cr/NC
- ENS 799 Special Study (2) Cr/NC/SP
- NUTR 600 Seminar: Foods and Nutrition (3)
- NUTR 607 Child Nutrition (3)
- NUTR 610 Nutrition and Energy (3)
- NUTR 700 Seminar in Nutrition (3)
- NUTR 798 Special Study (1) Cr/NC/SP
- ENS 799A Thesis (3) Cr/NC/SP

OR
- NUTR 799A

If a student, after entering the concurrent program leading to a Master of Science degree in nutritional science and a Master of Science degree in exercise physiology returns to a single degree program, all the requirements for the single degree program must then be met. A final oral examination in the field of the thesis and its implications to the broader fields of nutritional science and exercise physiology is also required.

The department expects the student to complete the degree requirements within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Courses Acceptable on Master's Degree Programs

UPPER DIVISION COURSE
Exercise and Nutritional Sciences Course
596. Selected Topics in Exercise and Nutritional Sciences (1-3) I, II
Selected topics in exercise and nutritional sciences. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.
GRADUATE COURSES

Exercise and Nutritional Sciences Courses

601. Experimental Methods in Exercise and Nutritional Sciences (3)
Prerequisite: Undergraduate statistics course.
Experimental methods in exercise and nutritional science.
(Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

602. Research Evaluation in Exercise and Nutritional Sciences (3)
Prerequisite: Exercise and Nutritional Sciences 601.
Techniques in designing, conducting, and reporting research in exercise and nutritional science. Qualitative and quantitative paradigms examined. Ethical consideration of human research.
(Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

632. Physiological Chemistry of Exercise (3)
Prerequisite: Exercise and Nutritional Sciences 661.
Biochemical and metabolic responses of the human body to acute and chronic exercise. Neuroendocrine control of fuel regulation during exercise.
(Formerly numbered Physical Education 632.)

659. Exercise Cardiology and Pathology (3)
Prerequisites: Exercise and Nutritional Sciences 304 and 314.
Interpretation of resting and exercise electrocardiograms with cardiopulmonary pathologies that skew interpretations.
(Formerly numbered Physical Education 659.)

661. Seminar in Advanced Physiology of Exercise (3)
Prerequisites: Exercise and Nutritional Sciences 303 and 304.
(Formerly numbered Physical Education 661.)

662. Advanced Exercise Physiology Laboratory (3)
Nine hours of laboratory.
Prerequisites: Exercise and Nutritional Sciences 304, 314, and admission to program in Exercise Physiology.
Laboratory course designed to develop competency in respiratory metabolism pulmonary function, gas analysis, blood chemistry and ergometry. Experience in the application of exercise procedures with human subjects and analysis and interpretation of results.
(Formerly numbered Physical Education 662.)

666. Adult Fitness: Exercise Prescription (3)
Prerequisites: Exercise and Nutritional Sciences 304 and 314.
Physical conditioning programs for the prevention, rehabilitation, and control of diseases associated with aging adults. Topics include disease etiology, health/disease evaluation, and exercise prescription for apparently healthy and diseased adults.
(Formerly numbered Physical Education 666.)

668. Adult Fitness: Exercise Leadership and Administration (3)
One lecture and six hours of laboratory.
Prerequisite: Exercise and Nutritional Sciences 666.
Administration of and role of exercise programs in preventive medicine, corporate fitness, and Phase I, II, and III of cardiac rehabilitation, and other disease rehabilitation. Development of skills in exercise leadership in traditional and experimental exercise programs for the apparently healthy and diseased adult.
(Formerly numbered Physical Education 668.)

796. Exercise Specialist Internship (1-3) Cr/NC
Three hours of laboratory per unit.
Prerequisites: Exercise and Nutritional Sciences 659, 662, 668.
Supervised application of exercise laboratory testing, test interpretation, exercise prescription and exercise leadership in adult fitness, corporate fitness, preventive medicine and/or hospital disease rehabilitation setting. (Formerly numbered Physical Education 796.)

For additional courses applicable to the Master of Science degree in exercise physiology see:
Exercise and Nutritional Sciences 696: Advanced Topics in Exercise and Nutritional Sciences
Exercise and Nutritional Sciences 798: Special Study
Exercise and Nutritional Sciences 799A: Thesis or Project
Exercise and Nutritional Sciences 799B: Thesis Extension
French
In the Department of European Studies
In the College of Arts and Letters

Faculty
Edith J. Benkov, Ph.D., Professor of French, Chair of Department
Thomas J. Cox, Ph.D., Professor of French
Laurie D. Edson, Ph.D., Professor of French
Steven J. Loughrin-Sacco, Ph.D., Professor of French
Mary Ann Lyman-Hager, Ph.D., Professor of French
J. James L. Schorr, Ph.D., Professor of French (Graduate Adviser)
JoAnne Cornwell, Ph.D., Associate Professor of French

Associateships
Graduate teaching associateships in French are available to a limited number of qualified students. Application forms and additional information may be secured from the Department of European Studies.

General Information
The Department of European Studies offers graduate study leading to the Master of Arts degree in French.

Research areas of the graduate faculty cover all periods of French literature as well as French linguistics. The library collection provides up-to-date research resources – books, periodicals, microfilms and video materials in all of these areas. A foreign language multimedia center is available to both undergraduate and graduate students.

The graduate program in French offers opportunities for well-qualified M.A. candidates to complete up to 12 units of their 30 unit official program at French speaking universities. In addition to the MICEFA program at the Universities of Paris, graduate students may participate in the CSU International Programs in both Paris and Aix-en-Provence as well as several French speaking institutions in Quebec. The Office of the Executive Director for International Programs also has international student exchange agreements with a number of French-speaking universities.

Admission to Graduate Study
The student must satisfy the general requirements for admission to the University with classified standing, as described in Part Two of this bulletin. In addition, the student must satisfy the following requirements: (1) an undergraduate major in French, or its equivalent, including 30 upper division units, at least six units of which must be in a survey course in French literature; (2) a GPA of 3.0 (on a 4-point scale) in all upper division French courses; (3) three letters of recommendation from professors, at least two of which should be from professors of French at the institution where the degree was granted; (4) a minimum score of 500 on the verbal section and 450 on the quantitative section of the Graduate Record Examination (GRE) General Test.

Advancement to Candidacy
All students will be required to pass a qualifying examination in French given by the Department of European Studies. This examination will also satisfy the foreign language requirement as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree
(Major Code: 11021)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units which includes a major consisting of at least 24 units in French, of which at least 18 units must be in 600- and 700-numbered courses in French, including French 799A, Thesis, for those following Plan A.

Students, with the consent of the graduate adviser, may elect Plan A, which includes French 799A, Thesis (minimum GPA 3.6), or Plan B, which includes written and oral examinations in lieu of the thesis.

Courses Acceptable on Master's Degree Program in French
Related courses (500 and graduate level) in other departments may be taken for a total of six units credit with prior approval of the graduate adviser.

UPPER DIVISION COURSES

501. Translation (3)
Prerequisite: French 302.
Stylistic comparison of French and English through translation of a variety of prose styles from English to French and from French to English.

520. French and Francophone Literary Studies (3)
Prerequisites: French 302 and 305A or 305B.
Specialized study of a century, genre, movement or theme in French and Francophone literature. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

530. French and Francophone Cultural Studies (3)
Prerequisites: French 302 and 421 or 422.
Specialized study of artistic and intellectual trends, customs, and politics in French and Francophone culture. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.
561. Linguistics and the Teaching of French (4)
Three lectures and two hours of laboratory.
Prerequisite: French 302.
Applied linguistics, methodology, and technology for teachers of French. Not open to students with credit or concurrent registration in Spanish 561.

596. Topics in French Studies (1-4)
Prerequisite: French 302.
Topics in French literature, culture, and linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of nine units of 596. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

621. Critical Methods (3)
Prerequisite: Eighteen upper division units in French.
Methods and theories of critical analysis and their application to the works of a major French author or literary genre.

696. Topics in French Studies (3)
Prerequisite: Eighteen upper division units in French.
Intensive study in specific areas of French. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

700. Seminar: A Major French or Francophone Author (3)
Prerequisites: Eighteen upper division units in French.
In-depth study of works of a major French or Francophone author. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

710. Seminar in a Literary Genre (3)
Prerequisite: Eighteen upper division units in French.
Study of a specific literary genre, e.g., poetry, novel, theater. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

720. Seminar in French and Francophone Culture and Civilization (3)
Prerequisite: Eighteen upper division units in French.
Study of a specific topic in French and Francophone culture and civilization. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisites: Advancement to candidacy and approval of graduate adviser.
Individual study. Maximum credit three units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Mary A. McAlister, Ph.D., Assistant Professor of Geography
Philip R. Pryde, Ph.D., Professor of Geography
Molly M. Pohl, Ph.D., Assistant Professor of Geography
Doreen J. Mattingly, Ph.D., Assistant Professor of Geography
Stuart C. Aitken, Ph.D., Assistant Professor of Geography
John R. Weeks, Ph.D., Professor of Geography
Arthur Getis, Ph.D., Professor of Geography, The Stephen and Mary Birch Foundation Chair in Geographical Studies

The Stephen and Mary Birch Foundation Chair in Geographical Studies

The Stephen and Mary Birch Foundation Chair in Geographical Studies was created through the Birch Foundation’s grant to the Geography Department to endow a chair and create a Center for Earth Systems Analysis Research. Dr. Arthur Getis, internationally recognized for his expertise in spatial pattern analysis, spatial statistics, urban structure, and spatial modeling, is the occupant of the Chair.

Associateships

Approximately 45 graduate teaching associateships and graduate research associateships in geography are available to highly qualified students. Applications and additional information may be secured from the department. The deadline for submitting applications for teaching associateships or research associateships is March 1 for the Master of Arts degree and February 1 for the Doctor of Philosophy degree. Applications for associateships must include transcripts, three letters of recommendation, and Graduate Record Examination (GRE) scores, and a statement of interests and goals.

General Information

The Department of Geography offers graduate study leading to the Master of Arts and Doctor of Philosophy degrees in geography. In addition to the general M.A. program, it is possible to pursue a concentration in either natural resources and environmental policy or transportation.

Admission to Graduate Study

All persons interested in admission to the master’s program in geography should write directly to the M.A. Program Adviser, Department of Geography, for complete information on the program and its requirements.

Students will be considered for admission to the master’s program in geography for the fall semester if they have submitted directly to the Department of Geography by May 1 the following materials:

1. Copies of transcripts from all colleges and universities attended.
2. Copies of GRE scores.
3. Three letters of recommendation from persons familiar with the academic performance or potential of the applicant.
4. A statement of the applicant’s areas of interest and professional goals.

Concurrent with application to the department, the applicant must file a completed application for admission to San Diego State University with the Office of Admissions and Records (see Application Procedures section of the San Diego State University Graduate Bulletin). All application materials, including official transcripts from all previously attended colleges and universities, must be received by the Office of Admissions and Records by May 1 in order for the applicant to be considered for the fall semester.

The Geography Department does not encourage students to apply for admission for spring semester. Completed applications for spring admission must be submitted to the department and the Office of Admissions and Records by September 15. Satisfaction of the minimum requirements of San Diego State University or the Department of Geography does not guarantee admission to the master’s program for either the fall or spring semester. Department requirements are normally a minimum grade point average of 3.0 in the last 60 units taken as an undergraduate and a satisfactory score on the verbal and quantitative sections of the GRE.
Candidates whose preparation is deemed insufficient by the master’s program committee will be required to complete specified courses in addition to the minimum 30 units required for the degree.

Advancement to Candidacy
All students must satisfy the general requirements for candidacy, as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree
(Major Code: 22061)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses selected with the approval of the graduate advising committee. The student may choose from the General Program, the Concentration in Natural Resources and Environmental Policy, or the Concentration in Transportation.

General Program
The requirements for students electing the general program are as follows:
1. A minimum of 30 units of courses numbered 500 or above as approved by the geography department M.A. advising committee. At least 24 of these units must be from the geography department.
2. A minimum of 18 of the 30 units of coursework must be 600- or 700-level courses.
3. Geography 700 and 701, normally taken during the first two semesters.
4. Completion of Geography 799A (Thesis) under Plan A.

Concentration in Natural Resources and Environmental Policy
The requirements for students electing a concentration in natural resources and environmental policy are as follows:
1. A minimum of 30 units of which not more than six may be in disciplines other than geography.
2. A minimum of 18 units of 600- and 700-numbered courses, to include Geography 670, 700, 701, 770, 799A, and three units from courses numbered Geography 570-577.
3. A thesis in the area of natural resources or environmental quality management and policies.
4. Additional 500-, 600-, and 700-level coursework, as determined in consultation with the student’s thesis committee, appropriate to successfully preparing the thesis.
5. Additionally, students in this concentration should take, or have already completed, three units from courses numbered Geography 581-588 or 682-688L.

Concentration in Transportation
The requirements for students electing a concentration in transportation are as follows:
1. A minimum of 30 units including 15 units of 600- and 700-numbered courses.
2. Geography 700, 701, and at least nine additional units to be taken from 500- and 600-level geography courses, as approved by the graduate advising committee.
3. At least six units selected from:
   - Civil and Environmental Engineering 620 Traffic Flow and Control (3)
   - Civil and Environmental Engineering 622 Mass Transit Engineering (3)
   - Civil and Environmental Engineering 781 Seminar in Transportation Engineering (2 or 3)
   - City Planning 730 Seminar in Urban Transportation Planning (3)
   - Geography 798 Special Study (3) Cr/NC/SP
   - Graduate or 500-level courses in other departments that are not listed above may be taken if approved by the graduate advising committee.
4. Geography 595 Geographic Internship (3) (Must be in approved transportation activity.)
5. Geography 799A Thesis (3) Cr/NC/SP
6. A student should have completed a quantitative methods course prior to initiating the program, or take Geography 585, Quantitative Methods in Geographic Research (3), concurrently.

Section II.
Doctoral Program
(Major Code: 22061)
The cooperating faculties of the Department of Geography at San Diego State University and the University of California, Santa Barbara offer a joint doctoral program in geography. The research interests of the participating faculty members cover a range of geographic problems. The joint doctoral program offers work leading to the Ph.D. in the following systematic areas (Group A) with supporting development of skills in spatial techniques (Group B) as follows:

Systematic Areas - Group A
Human Geography
- Urban and regional modeling
- Comparative urbanization
- Urban structure
- Social theory

Environmental Geography
- Natural resources management and policy

Physical Geography
- Biogeography
- Geomorphology
- Physical climatology and hydroclimatology

Spatial Techniques - Group B
- Remote sensing and image processing
- Geographic information systems and computer cartography
- Spatial quantitative or qualitative techniques

Each student’s program is designed around one of the areas selected from Group A and at least one of the technique emphases selected from Group B. The main regional foci are problems of Latin America, Western Europe, the former USSR, the Pacific Rim, Mexico-U.S.borderlands, arctic, and arid lands. Students must attain the requisite skills in programming, statistics, mathematics, and foreign language necessary to successfully pursue their research goals.
Admission to Doctoral Study

Applicants for admission to the doctoral program in geography offered jointly by SDSU and UCSB must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. There are no inflexible requirements for entrance to graduate study in this program, but a strong background in geography or a closely related field is essential. Admission to the program requires acceptance by the graduate deans and by the participating departments at UCSB and SDSU. Applications from outstanding students in other majors are encouraged, but such students should expect to take additional courses during their first year to improve their background. All students entering the program should have completed a lower and upper division statistics course and the appropriate mathematics and computer science courses for the specialty chosen.

Applications must be received by the Department of Geography not later than February 1 for the Ph.D. program.

Application. Students seeking admission to the joint doctoral program in geography should communicate directly with the Doctoral Program Coordinator, Department of Geography, SDSU, requesting application materials. A complete application requires that the following information be provided:

The appropriate application form.
Transcripts of academic work already completed.
Graduate Record Examination scores.
Three letters of recommendation.
An essay describing the applicant’s purpose in seeking the Ph.D.
A high undergraduate grade point average, normally 3.25 or higher for the last 60 units taken (90 quarter units), and/or a graduate grade point average of 3.50 or higher required for admission. A minimum combined score of 1100 on the GRE is expected. Scores on both the verbal and quantitative sections of the GRE should exceed the 50th percentile.

Satisfaction of the minimum requirements at San Diego State University or the Department of Geography does not guarantee admission to the doctoral program.

Specific Requirements

Residency Requirements. After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of UCSB and SDSU. Usually, the first year is spent at SDSU, the second at UCSB, and subsequent years at SDSU.

Advising Committee. Upon admission to the program, the joint doctoral graduate advisers of the two institutions will establish an advising committee for each student. The committee will consist of four faculty members, normally two from each campus, but at least one from UCSB. In consultation with the student, the committee will develop a course of study, including identifying academic deficiencies and recommending remedies for them. The advising committee will be the official advising group for the student until a joint doctoral committee has been chosen and recommended to the Graduate Division by the advising committee.

Language Requirement. There is no specific foreign language requirement for this program, but knowledge of a foreign language may be deemed necessary by the advising committee to successfully pursue the student’s research goal.

Course Requirements. Students admitted into the joint doctoral program are expected to take common core courses which include: Geography 700 (Seminar in Geographic Research Design) and Geography 701 (Seminar in Development of Geographic Thought). No specified number of courses beyond core courses is required for the doctoral degree. However, students are expected to have a broad understanding of modern geographic principles in addition to a specialist’s competence in their own sub-field. In addition, all doctoral students must have computation skills and knowledge of spatial analysis.

Qualifying Examinations

Joint Doctoral Committee. When a doctoral student makes a definitive selection of the systematic area and technique emphasis as well as the general topic of their dissertation research, she or he will select a dissertation supervisor (major professor), who can be from either department but who normally will be a member of the SDSU faculty, and the members of his or her joint doctoral committee. The joint doctoral committee shall be composed of at least four members (with the rank of Assistant Professor or above), two from the SDSU department and two from the UCSB department. The committee may be augmented as needed by an additional member from outside geography at UCSB or a member of the faculty at SDSU from outside of geography or, when authorized, another university. Chaired by the student’s major professor, the joint doctoral committee shall be responsible for evaluating the dissertation proposal, administering and evaluating the qualifying examination, judging the dissertation, and administering and evaluating the dissertation defense.

Qualifying Examinations. The process of qualifying to write a Ph.D. dissertation has three steps. First, the student must take a written qualifying examination that normally consists of three portions devoted to: 1) the student’s substantive area, 2) her or his technical field(s) of interest, and 3) general geographic thought and inquiry. Second, the student prepares a dissertation proposal that describes the dissertation topic, summarizes the relevant background literature, and presents a comprehensive research plan for the dissertation. Third, the student’s doctoral committee will conduct an oral qualifying examination to ensure that the student possesses the full knowledge and competence required to carry out her or his dissertation research. The doctoral committee will assign a pass or fail grade for each examination. Passing the written examination allows the student to proceed to the preparation of the dissertation proposal. The doctoral committee must conditionally approve the dissertation proposal before the student takes the oral qualifying examination. Passing the oral examination signifies that the doctoral dissertation proposal is approved. A student may repeat each examination once.

Upon satisfactory completion of the oral examination and prescribed coursework, the student must apply to the Graduate Dean at UCSB for advancement to candidacy. Upon payment of the candidacy fee to UCSB, and after approval by the graduate deans of both campuses, students will be notified of their advancement to candidacy by the UCSB Graduate Dean.

Dissertation. Following the successful completion of all prescribed coursework and qualifying examinations, the major remaining requirement for the Ph.D. degree will be the satisfactory completion of a dissertation consisting of original research.
of publishable quality carried out under the guidance of the major professor. Approval of the completed dissertation by the joint doctoral committee implies that an organized investigation yielding substantial conclusions of interest which expand the frontiers of knowledge and understanding in the discipline has been carried out. Results must be reported in a manner demonstrating the ability of the candidate to effectively prosecute and report independent investigation.

The requirement for completing and filing the dissertation, including the number of copies required, will be decided jointly by the graduate deans and in accordance with regulations of the Graduate Divisions.

**Final Examination.** The final examination, organized and administered by the joint doctoral committee, shall consist of a dissertation defense, before the joint doctoral committee. A public lecture will be presented in addition to this defense with the committee.

**Award of the Degree.** The Doctor of Philosophy degree in geography will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both institutions.

**Financial Support.** The Department of Geography at SDSU has a number of research and teaching associateships available to support students admitted to the joint doctoral program. All students applying to admission to the joint doctoral program will be considered for financial support.

### Courses Acceptable on Master’s and Doctoral Degree Programs in Geography

#### UPPER DIVISION COURSES

504. Coastal and Submarine Physiography (3)

- Prerequisites: Geography 101 and Mathematics 121 or 150.
- Analysis of marine waves, of their modification in shallow waters, of coastal currents and tides. Interpretation of coastal and submarine relief in relation to environmental processes and their modification by humans. Field trips may be arranged.

507. Geography of Natural Vegetation (3) I, II

- Prerequisite: Geography 101.
- The natural vegetation associations of the world, their distribution, classification and development, including relationship to human activities. Field trips may be arranged.

508. Environmental Climatology (3) I

- Prerequisites: Geography 103; Mathematics 121 or 150.
- Interaction between the atmosphere and earth surface. Solar and thermal radiation, turbulent heat transfer, soil heat transfer. Change in the atmosphere due to natural variations and human activity. Impacts on the environment.

509. Regional Climatology (3) II

- Prerequisite: Geography 103.
- The causes of climatic types as they occur throughout the world. Principles of several climatic classifications.

511. Hydroclimatology (3)

- Prerequisites: Geography 101 or 103 and Mathematics 121 or 150.
- Hydrologic cycle, energy and mass fluxes from the earth to the atmosphere and land-atmosphere interactions. Agricultural and hydrologic significance of spatial variability of energy and mass fluxes.

545. Arid Lands (3)

- Prerequisites: Geography 101 and 370; Biology 100 or 201.
- Physical geography and human use of arid lands. Traditional and modern land use systems in context of technological and economic development. Environmental and social impacts of development including desertification.

554. World Cities: Comparative Approaches to Urbanization (3) II

- Prerequisite: Geography 354.
- Worldwide trends in urbanization. Case studies of selected cities from various culture areas with focus on international variations in city structure and urban problems.

556. Location and Spatial Structure of Cities (3)

- Prerequisite: Geography 354 or three units of upper division coursework in a related field.
- Principles and characteristics of urban growth and settlement; the internal structure and functioning of urban centers; spatial models of urban land use; growth management, transportation problems, and sociopolitical urban problems. Field trips may be arranged.

559. Urban Transportation Geography (3)

- Prerequisite: Three units of upper division urban or transportation coursework in geography or related field.
- Urban transportation networks and their effects, past, present and future, on the economy and physical structure of the urban region. Field trips may be arranged.

570. Environmental Resource Conservation (3)

- Prerequisite: Geography 370.
- Management of environmental and natural resources. Effective programs and the institutional frameworks in which they occur.

572. Land Use Analysis (3) II

- Prerequisite: Geography 370.
- Problems of maintaining environmental quality in the process of land conversion from rural to urban uses with emphasis on land capability and suitability studies. Field trips may be arranged.

573. Population and the Environment (3)

- Prerequisite: Geography 102.
- Population distribution, growth, and characteristics as they relate to environmental degradation, both as causes and consequences. Roles of women, sustainable development, carrying capacity, optimum population, and policy initiatives in relationships between population and environment.

574. Water Resources (3) I

- Prerequisite: Geography 370.
- Occurrence and utilization of water resources and the problems of water resource development. Field trips may be arranged.

575. Geography of Recreational Land Use (3) I, II

- Prerequisite: Geography 101 or 102.
- Importance of location and environment in the use, management, and quality of recreation areas. Field trips may be arranged.

577. Geography of the National Parks (3)

- Prerequisite: Geography 370.
- Human and land relationships in the national parks of the United States. Emphasis on problems arising from the preservation and use mandate under which parks are managed.

581. Cartographic Design (3)

- Two lectures and three hours of laboratory.
- Prerequisite: Geography 381.
- Computer-assisted map production techniques with emphasis on map design and color use.
582. **Automated Cartography (3)**
Two lectures and three hours of laboratory.
Prerequisite: Geography 380, 381, or 484.
Computerized methods of graphically presenting and analyzing spatial data; examination of existing mapping software and digital data sources.

584. **Geographic Information Systems (GIS)**
Applications (3) II
Two lectures and three hours of laboratory.
Prerequisite: Geography 484, 582, or 588.
Conceptualization, completion, and implementation of geographic information systems (GIS) at local, regional, national, and global levels. Spatial analysis and modeling with GIS. GIS in planning, management, and research.

585. **Quantitative Methods in Geographic Research (3)**
Prerequisite: Geography 385.
Application of statistical techniques to geographic research including simple regression and correlation, multiple regression, classification, factor analysis, and computer applications.

586. **Qualitative Methods in Geographic Research (3)** II
Prerequisite: Geography 102.
Application of qualitative techniques to geographic research including reflexive survey design and in-depth interviews, non-obtrusive methods, landscape interpretation, textual methods and discourse analysis, feminist criticism, and humanistic and historical materialist perspectives on measurement.

588. **Intermediate Remote Sensing of Environment (4)** II
Three lectures and three hours of laboratory.
Prerequisites: Geography 385 and 488.
Multispectral remote sensor systems and interpretation of imagery from nonphotographic systems. Computer-assisted image processing. Geographic analysis of selected terrestrial, oceanographic, and atmospheric processes.

595. **Geographic Internship (3) I, II**
Prerequisites: Six upper division units in geography and consent of instructor.
Students will be assigned to various government agencies and industry and will work under the joint supervision of agency heads and the course instructor. Maximum credit three units.

596. **Advanced Topics in Geography (1-3)**
Prerequisite: Six upper division units in geography.
Advanced special topics in geography. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

**GRADUATE COURSES**

655. **Urban Design and Preservation (3)**
Prerequisite: Geography 354.
Major theories of urban form and aesthetics with emphasis on preservation and rehabilitation.

670. **Environmental and Resource Conservation Theory (3)**
Prerequisite: Graduate standing.
Theories and principles involved in natural and environmental resources management.

682. **Advanced Automated Cartography (3)**
Prerequisite: Geography 581, 582, or 584.
Computer use for map production and geographic problem solving. Current cartographic research issues and methods.

682L. **Advanced Automated Cartography Laboratory (1 or 2)**
Three to six hours of laboratory.
Prerequisite: Concurrent registration in Geography 682.
Use of mapping software and digital cartographic data. Research on improving map displays for geographic analysis and communication.

683. **Advanced Geographic Information Systems (GIS) Laboratory (1 or 2)** II
Three to six hours of laboratory.
Prerequisite: Concurrent registration in Geography 683.
Data processing and analysis in geographic information systems. Applications of overlay functions in spatial analysis.

685. **Advanced Quantitative Methods in Geography (3)** I
Prerequisite: Geography 585.
Statistical techniques and quantitative models applied to spatial problems. Multiple regression, discriminant analysis, factor analysis and spatial modeling.

688. **Advanced Remote Sensing (3)**
Prerequisite: Geography 588.
Sensor systems, image interpretation and geographic applications in thermal infrared and microwave remote sensing. Principles of digital image processing.

688L. **Advanced Remote Sensing Laboratory (1 or 2)** II
Two or four hours of laboratory.
Prerequisite: Concurrent registration in Geography 688.
Processing and analysis of remotely sensed data. Laboratory training in sensor systems and digital image-processing methods including thermal infrared and microwave data analysis.

696. **Advanced Special Topics in Geography (3)**
Prerequisite: Consent of instructor.
Advanced special topics in geography. See Class Schedule for specific content. May be repeated with new content. Maximum credit of six units of 596 and 696 applicable to a graduate degree.

700. **Seminar in Geographic Research Design (3)**
Prerequisite: Graduate standing.
Definition of spatial problems, hypothesis formulation and testing, selection of appropriate methodology. Development of research proposals, conduct of research, written and oral presentations.

701. **Seminar in Development of Geographic Thought (3)**
Prerequisite: Graduate standing.
Evolution of concepts concerning the nature, scope, theories, and methodologies of geography.

710. **Seminar in Physical Geography (3)**
Prerequisite: Six units of upper division or graduate level courses in physical geography.
Intensive study of an aspect of physical geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.
720. Seminar in Regional Geography (3)
Prerequisite: Six units of upper division or graduate level courses in the topical area under consideration.
Intensive study of a spatial system using the regional content or regionalization methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

740. Seminar in Human Geography (3)
Prerequisite: Six units of upper division or graduate level courses in human geography.
Intensive study of a spatial aspect of human geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

760. Seminar in Behavioral and Social Geography (3)
Prerequisite: Six units of upper division or graduate level courses in behavioral or social geography.
Intensive study of a spatial aspect of behavioral or social geography. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

770. Seminar in Environmental and Resource Conservation (3)
Prerequisites: Geography 670 and six units of upper division or graduate level courses in environmental or resource conservation.
Natural and environmental resource conservation. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

780. Seminar in Techniques of Spatial Analysis (3)
Prerequisite: Six units of upper division or graduate level courses in spatial analytic techniques.
Spatial analytic techniques from image processing, remote sensing, geographic information systems, cartography or quantitative methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP
Research in one of the fields of geography. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

890. Independent Study for Doctoral Examination (1-9)
Prerequisite: Consent of instructor or graduate adviser.
Tutorial with student's major professor in preparation for qualifying examinations. No unit credit allowed toward advanced degree. Maximum credit nine units.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation. A written proposal must be approved by the joint doctoral advising committee. Maximum credit six units applicable to a doctoral degree.

899. Doctoral Dissertation (1-15) Cr/NC/SP
Prerequisites: Advancement to candidacy and an officially constituted dissertation committee.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved. No unit credit allowed toward advanced degree.

Kathe K. Bertine, Ph.D., Professor of Geological Sciences
Steven M. Day, Ph.D., Professor of Geological Sciences

The Rollin and Caroline Eckis Chair in Seismology
Clive E. Dorman, Ph.D., Professor of Geological Sciences
David Huntley, Ph.D., Professor of Geological Sciences
George R. Jiracek, Ph.D., Professor of Geological Sciences
Eric G. Frost, Ph.D., Associate Professor of Geological Sciences
Kathryn W. Thorbjarnarson, Ph.D., Associate Professor of Geological Sciences

Adjunct Faculty
Ronald Blom, Ph.D., Geological Sciences
Robert Crippen, Ph.D., Geological Sciences

Admission to Graduate Study
All students must satisfy the general requirements for admission to classified graduate standing as described in Part Two of this bulletin. In addition, all students should satisfy the following requirements in order to achieve classified standing and enroll in graduate courses.

1. Have preparation in geological sciences, mathematics, chemistry, and physics at least equivalent to the minimum required for the bachelor’s degree in geological sciences at San Diego State University. Undergraduate grade point average should be at least 2.5, with a 2.75 in the last 60 units. Students with degrees in majors other than geological sciences may be admitted with postbaccalaureate units. Students with degrees in majors other than geological sciences may be admitted with postbaccalaureate standing while deficiencies are being remedied.

2. Have successfully completed all courses listed as deficiencies.

3. Have a minimum GRE General Test combined verbal and quantitative score of 1000, with no less than 450 in the verbal section and 520 in the quantitative section.

Associateships
Graduate teaching associateships in geological sciences are available to a limited number of qualified students. Application forms and additional information may be secured from the graduate adviser of the department.

General Information
The Department of Geological Sciences offers graduate study leading to the Master of Science degree in geological sciences. The program emphasizes research and an advanced set of courses. Faculty research activities comprise a broad spectrum of expertise, including both theoretical and applied interests. Opportunities exist for integrated field and laboratory research. The department is equipped to support research in geophysics, groundwater hydrology, oceanography and geochemistry as well as the classic areas of mineralogy, petrology, structural geology, stratigraphy and paleontology. Laboratories devoted to geochronology, isotopes, clay mineral analysis, soils, paleomagnetism, and whole rock analysis, as well as the Allison Center (paleontology), support the graduate research program.

A cooperative integrated program in earth sciences with the Centro de Investigación Científica y de Educación Superior de Ensenada (CICESE) leading to a master’s degree from SDSU and a Doctor of Science from CICESE provides advanced training in research and study at the highest academic level.

The San Diego area enjoys a mild climate which permits year round field activity. An interesting and diverse geological environment provides many opportunities for research in the local area. Many graduate students are supported in their work by grants and contracts from government and industry.

Section I.
Master’s Degree Program

Admission to Graduate Study
All students must satisfy the general requirements for admission to classified graduate standing as described in Part Two of this bulletin. In addition, all students should satisfy the following requirements in order to achieve classified standing and enroll in graduate courses.

1. Have preparation in geological sciences, mathematics, chemistry, and physics at least equivalent to the minimum required for the bachelor’s degree in geological sciences at San Diego State University. Undergraduate grade point average should be at least 2.5, with a 2.75 in the last 60 units. Students with degrees in majors other than geological sciences may be admitted with postbaccalaureate standing while deficiencies are being remedied.

2. Have successfully completed all courses listed as deficiencies.

3. Have a minimum GRE General Test combined verbal and quantitative score of 1000, with no less than 450 in the verbal section and 520 in the quantitative section.
4. Have a minimum grade point average of 3.0 in any courses taken as a postbaccalaureate student at San Diego State University.

5. Applicants transferring to San Diego State University must have two letters of reference submitted by individuals familiar with their professional background. Letters should be sent to the graduate adviser, Department of Geological Sciences.

All student applications are evaluated competitively and no fixed numerical standards automatically qualify or disqualify a student for graduate study in the Department of Geological Sciences. Students will be admitted on the basis of merit in relation to space and faculty availability.

NOTE: Some students with bachelor’s degrees in geological sciences may be admitted with postbaccalaureate standing for one semester only during which time they must take senior-level classes and earn at least a 3.0 grade point average and complete any missing qualifications for graduate study (e.g. GRE scores).

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree

(Major Code: 19141)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master’s degree as described in Part Two of this bulletin. The student’s graduate program must include 24 units of approved 600- and 700-numbered courses to include Geological Sciences 797 (3 units Cr/NC/SP), and 799A, Thesis (3 units Cr/NC/SP), and six units of upper division or graduate electives approved by the departmental adviser. With approval of the graduate adviser, students specializing in geophysics or hydrogeology may include 18 units of approved 600-700 numbered courses and 12 units of upper division graduate electives, with no more than 6 units of upper division electives taken from courses in the Department of Geological Sciences. Geological Sciences 306 and 508 or their equivalent as approved by the graduate adviser, are required as prerequisite to the program if they were not a part of the student’s undergraduate work. The student is required to pass a final oral examination on the thesis.

Section II.

Cooperative Master/Doctoral Program

The cooperating faculties of the Department of Geological Sciences at San Diego State University and the Centro de Investigación Científica y de Educación Superior de Ensenada (CICESE) offer a program leading to the degrees of Master of Science in Geological Sciences (SDSU) and the Doctor of Science in Earth Sciences (CICESE). SDSU has one of the ten largest master’s programs in geological sciences in the United States and CICESE is an international research and teaching institution federally chartered by Mexico and located in Ensenada, Baja California, Mexico.

Graduates of the program will be uniquely qualified to seek industrial, education, or research positions in a binational setting, such as the petroleum industry, geotechnical industries, environmental companies, and faculty appointments at colleges and universities. All students admitted to the cooperative program must achieve proficiency in English and Spanish before taking courses at the respective institutions.

Admission to Cooperative Program

Applicants for admission to the cooperative program in earth sciences offered by SDSU and CICESE must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current bulletins. There are no inflexible course requirements for entrance to graduate study in this program, but a strong background in geological sciences or a related field is essential. It is expected that all students will have a broad knowledge of the geological sciences and must demonstrate proficiency in computers, statistics, mathematics, chemistry, physics, and biological sciences, appropriate to their area of specialization. A dmission to the program requires acceptance by the graduate deans as recommended by the participating departments at SDSU and CICESE. Applications from outstanding students in majors other than earth sciences are encouraged, but such students should expect to take additional courses to remove deficiencies in their backgrounds. Applications received prior to March 1 will be considered on a competitive basis. Applications received after March 1 will be evaluated as space permits.

Application. Students seeking admission to the cooperative graduate program in earth sciences may write directly to the Department of Geological Sciences, San Diego State University, San Diego, CA 92182-1020 requesting applications materials.

A complete application must include the following:

- The appropriate application form.
- Transcripts of all academic work.
- Quantitative, verbal, and analytical graduate record examination (GRE) scores, or comparable information from the student’s country of origin.

- Three letters of recommendation.
- A short essay describing the applicant’s purpose in seeking the doctoral degree (written in English).

An undergraduate grade point average of 3.25 or higher for the last 60 units taken or a graduate grade point average of 3.50.

For non-native English speakers, a TOEFL score of 550 or higher is required.

An interview is recommended.

Specific Requirements

Residency Requirements. After formal admission to the cooperative graduate program in earth sciences, the student may take courses or work under the supervision of faculty at each of the two schools utilizing on-site residency, van shuttles, and distance learning technology. Typically the first year will be at SDSU and the second at CICESE. All students must spend at least one academic year in residence at each of the two campuses. The definition of residence must be in accord with the regulations of the Graduate Divisions of SDSU and CICESE.

Advisory Committee. Upon admission to the program, the cooperative graduate program coordinators of the two institutions will establish an advisory committee for each student. The committee will consist of four faculty members, normally two but not less than one, from each university. In consultation with the
student, the committee will develop a course of study, including identifying academic deficiencies and the remedies for them.

**Language Requirements.** All students must achieve proficiency in English and Spanish before taking courses at the respective institutions.

**Course Requirements.** All students must satisfy the specific requirements for the Master of Science degree at SDSU as listed in the current graduate bulletin.

**First Year Evaluation.** The student’s ability to master advanced courses and research will be evaluated by the student’s advisory committee after completion of one year of coursework. If unsatisfactory, a specific program of remediation may be required or dismissal from the program will be recommended. The evaluation will be based on the student’s performance in coursework and on indicated research ability.

**Research Committees.** Sometime during the second year, students will select a specialization for their research and a research adviser/chair. The adviser will assist the student in selecting a Master’s Thesis Committee (except for those who have a master’s degree) and a doctoral dissertation committee. The dissertation committee will consist of at least five faculty, at least two from each university. SDSU faculty who serve on this committee will also serve as adjunct faculty at CICESE. The five-person dissertation committee shall be responsible for administering and evaluating the qualifying examinations, evaluating the dissertation proposal, judging the dissertation, and conducting student’s defense of the dissertation.

**Qualifying Examinations.** After completion of coursework, written and oral qualifying examinations are administered by the student’s dissertation committee. Such examinations will be conducted in the student’s choice of either Spanish or English. They cover general geological science thought and inquiry and issues pertinent to the student’s area of specialization.

**Dissertation Proposal.** After successful completion of the qualifying examinations, the student will make an oral dissertation proposal to the dissertation committee accompanied by a written proposal for the doctoral dissertation. The student will be questioned on both the topic of the investigation and on the proposed research methodology. Upon successful completion of this presentation, the student will be advanced to candidacy for the doctoral degree in earth sciences by CICESE.

**Dissertation.** Approval of the completed dissertation by the doctoral dissertation committee implies that the investigation yielded substantial conclusions which expand the frontiers of knowledge in the discipline.

**Publications Requirement.** Letters of acceptance for at least two scientific papers submitted to refereed journals or books must be obtained prior to scheduling the dissertation defense.

**Dissertation Defense.** This examination shall consist of a public defense of the dissertation before the dissertation committee.

**Award of the Degree.** Upon completion of all of the above requirements, the candidate will be recommended to receive the M.S. degree in geological sciences from SDSU and the Doctor en Ciencias (Doctor in Science) in earth sciences from CICESE.

**Financial Support.** The faculty at CICESE and the Department of Geological Sciences at SDSU have a number of research and teaching assistantships available to support well qualified students admitted into the cooperative graduate program in earth sciences. All students applying to the program will be considered for financial support.

**Faculty.** The following faculty participate in the program and are available as advisers, for direction of research, and as members of dissertation committees.

**San Diego State University:** Professors Abbott, Berry, Bertine, Day, Dorman, Frost, Girly, Hanan, Huntley, Jiracek, Kimbrough, Marshall, Miller, Peterson, Rockwell, Thorbjarnarson, Walawender

**CICESE:** Professors Canon, Castro, Fabrial, Fletcher, Flores, Forseythe, Garcia, Glowaca, Gomez, Helens, Herrera, J. Javier, Johnson, Lopez, Martin, Martinez, Munguia, Nava, Pratap, Rebollar, Reyes

**Courses Acceptable on Master’s Degree Program in Geological Sciences**

**UPPER DIVISION COURSES**

**501. Geochronology (3)**
Two lectures and three hours of laboratory. Prerequisite: Geological Sciences 224.
Survey of radiometric, chemical, stratigraphic, and paleomagnetic methods used to establish time in relationship to the history of the earth. Basis for correlation of geologic events and estimation of rates and periodicity of geologic processes.

**502. Geology of North America (3) I**
Prerequisite: Geological Sciences 105.
A regional analysis of North American geology, its structural, stratigraphic, and tectonic patterns, and hypotheses concerning their origin and evolution.

**505. Photogeology and Remote Sensing (3) II**
Two lectures and three hours of laboratory. Prerequisite: Geological Sciences 514.
Geologic interpretation of aerial and satellite photographs, elementary stereoscopy and stereometry applied to structural and stratigraphic problems, and compilation of geologic maps from annotated aerial and satellite photographs.

**508. Advanced Field Geology (4 or 6) S**
One lecture and three hours of laboratory plus 24 days in the field. For the option with six units: two additional weeks of field or laboratory work. Summer session can be enrolled in during the Spring semester. Prerequisite: Geological Sciences 306.
Investigation of individually assigned areas, preparation of geologic maps, geologic sections, and gathering other types of data, e.g., petrologic, geophysical, or paleontologic, as appropriate. Students are responsible for cost of food and transportation.

**514. Process Geomorphology (3)**
Two lectures and three hours of laboratory. Prerequisite: Geological Sciences 306.
Processes shaping and affecting the earth’s surface, and application of resultant land forms in interpretation of geologic structure, stratigraphy, and neotectonics.

**516. Micropaleontology (3)**
Two lectures and three hours of laboratory. Prerequisite: Geological Sciences 537.
The morphology, classification, and geologic significance of various microfossil groups.
520. Ore Deposits (3) I
Prerequisite: Geological Sciences 306.
Geologic relations, origin, distribution, and economics of metallic and nonmetallic mineral deposits.

521. Petroleum Geology (3) II
Prerequisite: Geological Sciences 306.
History of petroleum exploration; statistics of energy use; principles of well logging; theories of petroleum generation, migration, and accumulation; exploration and production techniques; case studies of important oil fields.

525. Petrography (3) I
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 224.
A study of rocks with the polarizing microscope; identification of mineral constituents; interpretation of textures; classification of rocks; problems of genesis.

530. Geochemistry (2) I
Prerequisites: Geological Sciences 224; Chemistry 201; Mathematics 121 and 122, or 150.
Relationship of basic chemical principles and isotopic methods to geologic phenomena and environments. Applications to geologic exploration problems, contaminant transport, chemical weathering, and evolution of atmosphere and ocean chemistry.

530L. Geochemistry Laboratory (1) I
Three hours of laboratory.
Prerequisite: Credit or concurrent registration in Geological Sciences 530.
Laboratory methods for determination of chemical concentrations in waters, sediments, and rocks, as well as x-ray diffraction methods for mineralogy.

532. Environmental Geophysics (3) I
Two lectures and three hours of laboratory.
Prerequisites: Mathematics 150 and Statistics 250; two semesters of physics. Recommended: Geological Sciences 307 and 551.
Applications of geophysical methods to hydrologic investigations including d.c. resistivity, electromagnetics, radar, seismology, and magnetics.

533. Geophysical Analysis (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 307, Mathematics 252, Physics 197. Recommended: Physics 195L, 196L, 197L.
Analog and digital data collection, processing, modeling and error estimation. Computer-aided examples and field tests from seismics, gravity, magnetics, and electromagnetics including magnetotellurics.

536. Sedimentology and Lithostratigraphy (3) I
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 105 (not required but recommended for Emphases in Geochemistry and Geophysics) and 224.
Sedimentologic description and interpretation of the textures and structures of sediments and sedimentary rocks. Stratigraphic analysis of stratal succession, age relationships, and correlation on local and global scales. (Formerly numbered Geological Sciences 507 and 526.)

537. Paleontology and Biostratigraphy (3) II
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 105 and either Biology 100-100L or 101-101L, and Geological Sciences 536.
Concepts and methods of paleontology and biostratigraphy. Introduction to fossil record of invertebrate taxa and applications to stratigraphic record. (Formerly numbered Geological Sciences 506 and 507.)

540. Marine Geology (3)
Prerequisites: Geological Sciences 105, and either Geological Sciences 224, 502, 514, or 537.
Plate tectonic origin and history of the ocean basins. Formation and distribution of sediments in response to biologic, chemical, and geologic processes.

545. Descriptive Physical Oceanography (3)
Prerequisites: Mathematics 121 and 122, or 150; Physics 180A or 195.
Physical environment of oceans including heat, water, and salt budgets, physical properties of sea water, sea ice, air-sea relationships, effects of light and sound, distribution of temperature, salinity, density, surface current, deep circulation, water mass formation, instruments and methods of study.

550. Engineering Geology (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 306.
Relationships between geologic processes and works of humans. Topics include rock and soil mechanics, ground water flow, slope stability, seismicity, land subsidence, and evaluation of geologic materials with respect to dam sites, tunnel alignments, and building foundations.

551. Hydrogeology (3) I
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306 and Mathematics 150.
Theory of ground water flow. Exploration for and development of the ground water resource. Aquifer tests, water quality, and water resource management. Occurrence of water in alluvial, sedimentary, volcanic, plutonic, and metamorphic terrains.

552. Field and Laboratory Techniques in Hydrogeology (4) II
One lecture and nine hours of laboratory.
Prerequisites: Geological Sciences 551 and credit or concurrent registration in Geological Sciences 530.
Use and application of common field and laboratory techniques in hydrogeology. Exercises include drilling, coring, and sediment sampling, aquifer testing, unsaturated zone monitoring, fluid level measurement, tracer testing, laboratory measurement of permeability, capillarity, and analysis of inorganic and organic constituents in groundwater.

560. Earthquake Seismology (3)
Two lectures and three hours of laboratory.
Prerequisites: Mathematics 252, Physics 197. Recommended: Mathematics 342A.
Theory of seismic wave excitation, propagation, and recording. Methods of seismogram interpretation and analysis. Applications to tectonics and earthquake hazard analysis.
596. Advanced Topics in Geology (1-4)
Prerequisite: Consent of instructor.
Advanced special topics in the geological sciences. See Class Schedule for specific content. Limit of nine units of any combination of 596, 496. 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Seminar (1-3)
Refer to Class Schedule for lecture/laboratory format.
Prerequisite: Consent of instructor.
An intensive study in advanced geology. May be repeated with new content. Topic to be announced in the Class Schedule. Maximum credit six units applicable to a master’s degree.

601. Investigations in Earth Science (3)
Prerequisites: Postbaccalaureate standing with B.S. or B.A. in geology or equivalent.
Review of major geologic concepts and processes. Relationships of research to advances in the understanding of modern earth processes and the geologic history of the earth.

605. Optical Mineralogy (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 224.

609. Igneous Petrology (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 525.
Investigation of problems in igneous petrology, using petrography, geochemistry, and experimental methods.

615. Geology of Clays (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 530 or 536.
Systematic mineralogy of clays and routine methods of identification. Geologic interpretation of clay minerals with respect to environmental conditions of origin, deposition and diagenesis.

625. Paleoeocology (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 537 and Biology 354.
Problems and methods in the study of relationships between fossil organisms and their environment: interpretation of paleoenvironment, paleoclimate, and biologic relationships among fossil organisms.

629. Seminar: Advanced Studies in Stratigraphy (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 537.
Regional stratigraphic patterns in North America and their historical implications.

630. Selected Topics in Geophysics (3)
Prerequisite: Consent of instructor.
Research topics in seismic, gravity, magnetic, electrical, and electromagnetic methods. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

633. Quaternary Geology (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 514.
Quaternary climate, geochronometric dating and soil stratigraphy.

640. Geotectonics (3)
Prerequisites: Geological Sciences 306; Physics 180B or 196.
Combination of plate tectonics, structural geology, and geophysics. Topics in continental genesis and evolution, orogeny, plate tectonics theory, and a survey of classic plate boundaries.

642. Neotectonics (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306 and 514.
Observation, interpretation and significance of late Quaternary crustal deformation.

643. Extensional Tectonics (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306 and senior or graduate standing.
Geometrics, kinematics, and dynamics of extensional deformation worldwide with emphasis on role in basin formation and resource localization. Focus on crustal scale view. Seismic reflection profiles interpreted and processed on workstations.

644. Compressional Tectonics (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306 and senior or graduate standing.
Geometrics, kinematics, and dynamics of compressional tectonics with emphasis on role in basin formation and resource localization. Focus on crustal scale view. Seismic reflection profiles interpreted and processed on workstations.

645. Advanced Structural Geology (3)
Prerequisite: Geological Sciences 306.
Topics in advanced structural geology in the light of petrographic, geophysical, and experimental data, combined with classic field observations.

646. Sequence Stratigraphy (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 306, 536, and senior or graduate standing.
Linkage between rock sequences and basin formation using seismic reflection profiles and outcrops. Profiles interpreted to determine sequences, boundaries, rock properties, and role in hydrocarbon localization.

647. Seismic Interpretation and 3-D Visualization (3)
Two lectures and three hours of laboratory.
Skills in modern workstation-aided seismic reflection interpretation with emphasis on modern petroleum geology.

648. Plate-Tectonic Development of California (3)
Prerequisite: Geological Sciences 306.
Analysis of sequential genesis of major tectonic terranes of California and adjacent states. Problem-oriented literature study will integrate structural, stratigraphic, and geochronologic development.
651. Numerical Modeling of Ground-Water Flow (3)
Prerequisites: Geological Sciences 551 and experience in computer programming.
Finite difference approximations of ground water and mass transport equations. Direct and iterative solutions to simultaneous equations. Calibration, verification and application of numerical models to analyze ground water hydrologic problems.

652. Multiphase Flow (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 551.
Movement of water through the unsaturated zone and non-aqueous phase liquids (NAPL) through subsurface. Topics include vadose zone characterization, monitoring, and modeling; light and dense NAPL movement, monitoring, and remediation.

653. Ground Water Aquifer Testing (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 551.
Theory and practice of conducting and analyzing constant-rate aquifer tests, step-drawdown tests, and slug injection tests. Analysis of results for confined, unconfined, leaky-confined, and fractured aquifers.

655. Paleomagnetism and Plate Tectonics (3)
Prerequisites: Geological Sciences 100 and Physics 180B or 196.
Contribution of paleomagnetism to origin and current models of plate tectonics, magnetostratigraphy, estimating paleolatitude, and structural deformation. Review of rock magnetism, magnetic mineralogy, and the geomagnetic field.

660. Isotope Geology (3)
Two lectures and three hours of laboratory.
A survey of isotopic and geochronologic topics with individual projects in isotopic analysis.

676. Solute Transport in Groundwater (3)
Prerequisite: Geological Sciences 551.
Theory of dissolved solute transport in groundwater. Applications to contaminant delineation, modeling and characterization of aquifer heterogeneities. Case studies of tracer tests and contaminant plumes.

677. Environmental Fate of Organic Contaminants (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 551 and 530, 530L, or chemistry background.
Physical and chemical properties and processes affecting distribution of organic contaminants in the environment. Focus on subsurface environments with applications to surface waters.

680. Sedimentary Geochemistry (3)
Two lectures and three hours of laboratory.
Prerequisite: Geological Sciences 550.
Topics in low temperature geochemistry.

685. Genesis of Ore Deposits (3)
Two lectures and three hours of laboratory.
Prerequisites: Geological Sciences 525; and Geological Sciences 530 or four units of physical chemistry.
Application of mineralogy, petrography, and chemistry to an understanding of the origin of ore deposits.

687. Volcanology (3)
Prerequisite: Geological Sciences 224.
Chemical and physical properties of magma; generation, rise, and storage of magma. Eruptive mechanisms, volcano types, and a variety of volcanic phenomena associated with Hawaiian, Strombolian, Plinian, volcanic, and hydrovolcanic eruptions.

797. Research (1-3) Cr/NC/SP
Prerequisite: Consent of the department.
Supervised research in an area of geology. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
German
In the Department of European Studies
In the College of Arts and Letters

Chair of Department: Edith J. Benkov

Faculty
Erich W. Skwara, Ph.D., Professor of German
Mary M. Wauchope, Ph.D., Associate Professor of German
Simone Yeomans, Ph.D., Assistant Professor of German

General Information
The Department of European Studies offers advanced coursework in German. Graduate courses in German may be used to fulfill requirements for advanced degrees in other departments with the approval of the student’s graduate adviser.

UPPER DIVISION COURSES
(Also Acceptable for Advanced Degrees)

501. Translation (3)
Prerequisite: German 301.
Translation of a variety of texts from German to English and English to German.

505. Applied German Linguistics (3)
Prerequisite: German 301.
Linguistic study of modern German; integration of modern linguistic theory with the language classroom.

520. Modern German Literature (3)
Prerequisite: German 310.
Major authors and genres since Enlightenment.

530. Topics in German Literature (3)
Prerequisite: German 310.
Study of a movement, theme or genre of German literature, such as Romanticism, literature and film, literature of the Holocaust, women’s literature, literature of the German Democratic Republic in retrospect. May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

596. Topics in German Studies (1-3)
Prerequisite: German 310 (for literary topics) or 505 (for linguistics topics).
Proof of completion of prerequisite required: Copy of transcript.
Topics in German language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

696. Topics in German Studies (1-3)
Prerequisite: Eighteen upper division units in German.
Intensive study in specific areas of German. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisites: Eighteen upper division units in German and consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

Cristina Rivera-Garza, Ph.D., Assistant Professor of History

The Dwight E. Stanford Chair in American Foreign Relations

A gift from alumnus Dwight E. Stanford, who earned a bachelor’s degree in American history in 1936 from San Diego State College (now SDSU), established The Dwight E. Stanford Chair in American Foreign Relations. The holder of the Chair is Elizabeth Cobbs Hoffman, a distinguished scholar-teacher who is an expert on economic and political relations between the United States and the Third World, and on the history of the Cold War.

Master of Arts Degree in History

Scholarships

The Kenneth and Dorothy Stott Scholarship is awarded each June to a student who has attended San Diego State University for at least two years and who is being graduated or who has been graduated by San Diego State University with a major in history. The recipient must continue work at San Diego State University, or at any other accredited college or university, toward a higher degree or credential. The selection is made by the Department of History with approval of the committee on scholarships.

General Information

The Department of History offers graduate study leading to the Master of Arts degree in history. The Master of Arts degree is designed to provide advanced training for (1) students who plan to terminate their graduate studies at the master’s level, and (2) those who anticipate further study leading to a doctoral degree in history or related fields.

Research facilities include a substantial library of well over one million titles and an impressive periodical collection. The library is the depository for the documents of the United States and the state of California, and receives all publications of the United Nations and the Organization of American States. The library also houses 1,500 linear feet of manuscript materials as well as audiotapes, films, oral histories, and photographs of the greater San Diego area. The College of Arts and Letters houses the Social Science Research Laboratory which includes a well-equipped data processing center. The San Diego Historical Society and the San Diego Public Library contain many manuscript collections pertinent to local history. Located north of San Diego is the National Archives and Records Administration at Laguna Niguel.
Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. As an additional requirement, the student must have completed a bachelor's degree with an undergraduate major in history or have taken enough units in history and related fields that would demonstrate sufficient preparation for the program. The grade point average required for admission to the M.A. program in history is 2.75 for the last 60 units of the student's undergraduate work and 3.0 in the major (not necessarily history), plus a satisfactory score on the GRE General Test (minimum 500 verbal score). Candidates must also submit with their applications a statement of purpose of approximately 400 words. A candidate who is deficient in any of the requirements above may be considered for conditional admission. A candidate whose course preparation is deemed deficient will be required to complete specified courses in addition to the minimum 30 units required for the degree. Deficiencies must be corrected within a time period specified by the departmental graduate committee. Conditional admission is possible pending the taking of the GRE General Test during the first semester of enrollment and the attainment of a satisfactory score.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin, as well as the specific requirements of the department. All students should consult the graduate adviser. Students may not be advanced to candidacy until they have met the foreign language requirement or an approved substitute.

Specific Requirements for the Master of Arts Degree in History

(Major Code: 22051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units which includes a major consisting of at least 24 units in history from courses listed below as acceptable on the master's degree programs, at least 18 units of which must be in 600- and 700-numbered courses. Students may elect either Plan A, the normal option, requiring a thesis, or, in special circumstances and with the prior approval of the graduate adviser and the student's major professor, Plan B, requiring a comprehensive written and oral examination in both a major and minor field of history chosen in consultation with the graduate adviser. Required courses are History 601; six units selected from History 620, 630, 640, 650, or 680; three units selected from History 655 and 665; History 797; and History 799A for those students electing Plan A. Students approved for Plan B shall meet the same course requirements as those enrolling in Plan A, except that they must enroll in History 795 (three units) and one additional three-unit history course numbered from 620 to 680 in lieu of History 797 and 799A.

Candidates for this degree must demonstrate knowledge of either a relevant foreign language or an approved substitute in computer language or statistical methods. Other substitutes may be approved where the skills involved are directly related to the student's research interests. Course selection and programs must be approved by the graduate adviser prior to the student's registration.

Courses Acceptable on Master's Degree Program in History

Field (a). Ancient, Medieval, and Early Modern Europe

UPPER DIVISION COURSES

500A-500B. Ancient History (3-3)
Semester I: Greece to the Roman Conquest. Semester II: Rome to the fifth century A.D.

501. History of Ancient Near Eastern Civilizations (3)
Major civilizations of Near East from the origin of civilization to Roman Conquest, including Egyptians, Babylonians, Hebrews and Persians. Social, political, and religious problems.

503A-503B. Europe in the Middle Ages (3-3)
European social, cultural, and political developments from the fall of Rome to the Renaissance.

506. The Renaissance (3)
The intellectual, artistic, and social transformation of Europe from the fourteenth through the early sixteenth century.

507. The Reformation (3)
Continental Europe in the sixteenth century; split of Christendom, the religious wars, national rivalries, the expansion of Europe and the beginnings of the scientific revolution.

513A. Early Scandinavia (3)
The formation and development of the Scandinavian kingdoms from the Viking Age to the end of the Napoleonic Wars.

Field (b). Modern Europe

UPPER DIVISION COURSES

510. Europe's Age of Enlightenment (3)
Prerequisite: Upper division standing. Selected problems in the social, cultural, and intellectual history of the eighteenth-century Enlightenment.

511A. The Age of European Revolution (3)
Major economic, social, intellectual, and political changes in Europe from 1789 to 1848. Effects of French Revolution, Industrial Revolution, and Romanticism on European history.

511B. The Age of Nationalism in Europe (3)
Economic, social, and intellectual developments in Europe from 1848 to 1890 that contributed to the age of nation building.

512A. The Great War: A Turning Point in European History (3)
Forces and events that shaped Europe in period prior to and during World War I, 1890-1919.

512B. The Age of Dictators and Contemporary Europe (3)
Europe in the age of dictatorship, world war, decline, and recovery.

513B. Modern Scandinavia (3)
Major political, social and economic developments in Scandinavia from 1814 to the present, with emphasis on contemporary society.
513. The French Revolution and Napoleonic Era (3)  
   Prerequisites: History 105 and 106.  
   France on the eve of the Revolution; the Great Revolution,  
   1789-1799, the Napoleonic Era. (Formerly numbered History  
   514A.)

517A-517B. Modern Germany (3-3)  
   Political, social, and economic history of Germany. Semester  
   I: From the Reformation to the outbreak of World War I. Semester  
   II: 1914 to the present.

518A-518B. Russia and the Soviet Union (3-3)  
   Semester I: Political, social and economic development of  
   Russia in Europe and Asia from the earliest times to the close of  
   the nineteenth century. Semester II: Emphasis on the twentieth  
   century.

519. Modern Italy (3)  
   The development of Italy from 1815 to the present.

522A-522B. Tudor and Stuart England (3-3)  
   Semester I: The Age of the Tudors. Semester II: England during  
   the Stuart Dynasty, 1603-1714.

526. Ideas and Attitudes of Modern Europe (3)  
   Selected problems in European intellectual history beginning  
   with the seventeenth century, with attention to social and politi-  
   cal thought. May be repeated with new content. See Class  
   Schedule for specific content. Maximum credit six units.

528. Social History of Modern Europe (3)  
   Historical survey of European society emphasizing changes in  
   the family, health, diet, the standard of living, urbanism, crime,  
   migration, and literacy, from 1350 to the beginning of the Indus-  
   trial Revolution.

Field (c). United States

UPPER DIVISION COURSES

530. Colonial America (3)  
   Settlement and development of the English colonies in North  
   America through the mid-eighteenth century. Contact of cul-  
   tures, social structure, labor systems, religion, popular values,  
   problems of imperial control, and political culture.

532. Topics in Early American History (3)  
   Prerequisites: Upper division standing and three units in his-  
   tory at the college level.  
   Variable topics in history of colonial America and the early  
   republic. Possible topics include: Women and the Family; Race,  
   Class and Labor; American Revolution; Religion and Politics;  
   Immigrants' Experiences. See Class Schedule for topic. May be  
   repeated with new content. Maximum credit six units.

533A. The Jacksonian Era (3)  
   Territorial expansion, democratic politics, revivalism, and the  
   slavery controversy.

533B. Civil War and Reconstruction (3)  
   The Civil War and Reconstruction, emphasizing political  
   affairs and the role of Lincoln.

535. The Age of Roosevelt (3)  
   The United States in Depression, War, and Cold War. (For-  
   merly numbered History 535B.)

536. The United States Since World War II (3 I, II,  
   Major foreign and domestic issues confronting the United  
   States, and the government policies and popular movements  
   generated in response.

539. Topics in the History of the American West (3)  
   Prerequisites: Upper division standing and three units of his-  
   tory at the college level.  
   Selected topics in history of American West such as Westward  
   movement, Southwest borderlands, gender and the frontier; new  
   western history. May be repeated with new content. Maximum  
   credit six units.

540. Environmental History of the United States (3)  
   The relationship of Americans to their environment from  
   colonial times to the present with emphasis on how attitudes and  
   values have affected personal behavior and public policy toward  
   the land.

541A-541B. California (3-3)  
   Political institutions; social, cultural, economic and intellectual  
   development; international background. Semester I: To 1850:  
   Spanish and Mexican heritage. Semester II: 1850 to the present.  
   History 541B satisfies the graduation requirement in California  
   State and Local Government.

543. American Involvement in Vietnam 1941-75 (3)  
   Prerequisites: Upper division standing and six units in history.  
   Causes and costs of America's longest war: the war's begin-  
   ning, United States involvement, role of media and antiwar  
   movement, American withdrawal, impact of war on Southeast  
   Asia and the United States.

544A. Early American Foreign Relations (3)  
   Development of American foreign relations from Colonial  
   Period to the Spanish-American-Filipino War.

544B. Modern American Foreign Relations (3)  
   Development of American foreign relations since 1900.

545A-545B. Constitutional History of the United  
   States (3-3)  
   Development of American constitutional ideals and institu-  
   tions. History 545A: Seventeenth century to 1861. History  
   545B: Since 1861.

547A-547B. Intellectual History of the American  
   People (3-3)  
   American thought since colonial times, focusing on the ideas  
   of individuals, groups and movements in religion, politics, soci-  
   ety, the arts and reform. Emphasis on liberal and conservative  
   impulses and their role in the making of the modern American  
   mind. History 547A: To 1865. History 547B: Since 1865. This  
   year course satisfies the graduation requirement in American  
   Institutions.

548A-548B. Social History of the United States (3-3)  
   Historical survey of American society emphasizing demo-  
   graphic trends, the changing role of the family, social structure,  
   immigration patterns, religious movements, developments in  
   education, the economy, and entertainment.

549. History of San Diego (3)  
   Prerequisites: Upper division standing and six units in history.  
   Development of San Diego from European contact to the present.
Field (d). Latin America  
UPPER DIVISION COURSES

551A-551B. Mexico (3-3)  
Prerequisite: History 115A-115B or 415A-415B.  
Semester I: Colonial and modern Mexico. Semester II:  
Emphasis on the twentieth century.

552. Brazil (3)  
Survey of history of Brazil from Portuguese backgrounds to  
present. Brazil as a tropical society. Recommended for students  
minoring in Portuguese.

554. The Andean Republics of South America (3)  
The historical development of Chile, Bolivia, Peru and Ecuador  
with emphasis on race relations and social revolutions in the  
twentieth century.

555. Modernization and Urbanization in Latin America (3)  
Historical treatment of the phenomena of urbanization and  
modernization in Latin America with attention to pre-Colombian  
and Iberian traditions and influence of education, church, mili­ 
tary, and foreign investment.

556. Guerrilla Movements in Latin America (3)  
History of sociopolitical conditions which culminated in guer­ 
rolla movements in twentieth century Latin America. Use of guer­ 
rilla writings and accounts as well as recent Latin American films  
and U.S. Defense Department counterinsurgency training films.

557. Latin America in World Affairs (3)  
History of Latin America's political and economic relations  
with Europe, the Soviet Union, the United States, and the Third  
World.

559. Central America (3)  
Prerequisites: Upper division standing and six units in history.  
Historical development of the republics of Central America  
with emphasis on twentieth century. Contemporary revolution­ 
ary and role of United States in Central American affairs.

561. Asia and the West (3)  
History of twentieth century Asian-Western relations with  
emphasis on China and Japan. (Formerly numbered History  
561B.)

564A-564B. Southeast Asia (3-3)  
Semester I: Cultural traditions of Southeast Asian peoples.  
Indigenous institutions and the influence of China, India, and  
Islam. Semester II: Southeast Asia in the modern world. Patterns  
of foreign stimulus and local response among the peoples of the  
area.

565. Revolution and Social Change in Asia (3)  
Comparative study of contemporary problems in Asia  
emphasizing how indigenous peoples responded to the chal­ 
lenges of nationalism, reform, revolution, modernization, and  
neo-colonialism. Topics include social structure, education, peasant  
movements, urbanization, search for cultural identity, and  
national integration.

566. Chinese Civilization: The Great Traditions (3)  
China's institutional and cultural development from ancient to  
premodern times. Emphasis on traditional philosophy, religions,  
literature, and the arts.

567. China's Century of Modernization (3)  
China's modernization process from the early nineteenth­  
century Opium War through the People's Republic of China.

569. Japanese Civilization (3)  
Japanese internal history and institutions during the period of  
indigenous development and Chinese influence including reli­ 
gions, philosophy, literature, and the arts.

570. Modern Japan (3)  
Japan's development as a modern state, particularly in the  
nineteenth and twentieth centuries.

Field (f). Africa and Middle East  
UPPER DIVISION COURSE

574. The Arab-Israeli Question, Past and Present (3)  
Arab-Israeli conflict over Palestine in perspective of Zionism,  
Arab nationalism, and Great Power relations from nineteenth  
century to present.

Field (g). Topical Subjects  
UPPER DIVISION COURSE

596. Selected Studies in History (1-4)  
Topics in the various fields of history, such as biography, war,  
science, technology, urbanization, minority groups, immigration,  
and capitalism. See Class Schedule for specific content. Limit of  
nine units of any combination of 296, 496, 596 courses applicable  
to a bachelor's degree. Maximum credit of six units of 596  
applicable to a bachelor's degree. Maximum combined credit of  
six units of 596 and 696 applicable to a 30-unit master's degree

GRADUATE COURSES

All graduate courses in the Department of History  
have a prerequisite of 12 units of upper division courses  
in history, or consent of the instructor.

601. Seminar in Historical Methods (3)  
Historical methodologies, historiography, and critical analysis.

620. Directed Readings in European History (3)  
Prerequisite: Consent of instructor.  
Selected readings in historical literature and primary sources  
in a designated area of European history. May be repeated with  
new content. See Class Schedule for specific content. Maximum  
credit six units applicable to a master's degree.

630. Directed Readings in United States History (3)  
Prerequisite: Consent of instructor.  
Selected readings in historical literature and primary sources  
in a designated area of United States history. May be repeated  
with new content. See Class Schedule for specific content. Max­
imum credit six units applicable to a master’s degree.
640. Directed Readings in Latin American History (3)
Prerequisite: Consent of instructor.
Selected readings in historical literature and primary sources in a designated area of Latin American history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

650. Directed Readings in Asian History (3)
Prerequisite: Consent of instructor.
Selected readings in historical literature and primary sources in a designated area of Asian history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

655. Seminar in Asian History (3)
Prerequisites: Six upper division units in Asian history; History 601; six units selected from History 620, 630, 640, 650, and 680, three units of which may be taken concurrently.
Directed research on topics selected from a designated area of Asian history. Maximum credit six units applicable to a master's degree.

665. Seminar in History (3)
Prerequisites: History 601; six units selected from History 620, 630, 640, or 680, three units of which may be taken concurrently; six additional units in history appropriate to student's program.
Directed research on topics selected from a designated area of history. Maximum credit six units applicable to a master's degree.

680. Directed Reading in Selected Topics (3)
Prerequisite: Consent of instructor.
Selected readings in comparative, interdisciplinary, and topical history. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

795. Area Studies in History (1-3) Cr/NC
Prerequisite: Advancement to candidacy.
Preparation for the comprehensive examinations in the major and minor fields of history for those students taking the M.A. under Plan B. Maximum credit three units applicable to a master's degree.

797. Research (3) Cr/NC/SP
Prerequisite: Advancement to candidacy and written approval of the History Department graduate adviser.
Independent research in a specialized subject in history.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
Interdisciplinary Studies
Administered by the Graduate Division

General Information

When the existing advanced degree programs of the University do not adequately meet certain special needs and interests, a student may propose a Master of Arts or Master of Science degree in Interdisciplinary Studies. This degree program provides the unusually well-qualified student an opportunity for individualized graduate study composed of coursework in at least two but not more than three departments or schools at SDSU. The Graduate Division administers this program following procedures established by the Graduate Council.

The proposed program must not be substantially available in a current graduate program offered at the University, and it must have adequate focus and coherence in cognate disciplines. Prerequisite courses will be required to support the courses in the student’s program of study.

A graduate supervisory committee and a field of study shall be chosen, subject to the approval of the Dean of the Graduate Division, in consultation with the Student Affairs Committee of the Graduate Council. The supervisory committee shall consist of not less than three full-time faculty representative of the areas in which the student intends to pursue the degree. The graduate dean or designee shall serve as an ex officio member of the committee.

Since the inception of this program in 1977, individual students have undertaken graduate programs in such subjects as paleobiology, folklore and mythology, molecular biology, museum studies, infant development, animal behavior, sports psychology, environmental resource management, environmental economics, primitive Christianity, gerontology, and learning interface design.

Admission to Graduate Study

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must (1) possess an academic background appropriate to the proposed program and have achieved an undergraduate grade point average of 3.0; and (2) complete the GRE General Test with a satisfactory score on the verbal and quantitative sections. Since an approved course of study is required for classified admission of this major, applicants may be admitted to the University in conditionally classified status pending formal approval of a program of study. Students admitted conditionally must meet with the Associate Dean of the Graduate Division as soon as possible after admission to the program. If the proposed curriculum is not approved, the student will have the option of applying for admission to an alternative advanced degree program.

Advancement to Candidacy

In addition to satisfying the general requirements of the University for advancement to candidacy, as stated in Part Two of this bulletin, the student must satisfy the special requirements for advancement defined by the supervisory committee in the official program of study.

Specific Requirements for the Master’s Degree

(Major Code: 49993)

1. In addition to satisfying the requirements for classified graduate standing and the basic requirements for the master’s degree, as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of courses acceptable for advanced degree credit.
2. The official program of study must reflect careful and deliberate planning. The selection and level of courses will be based on the best standards and practices of the disciplines involved. Normally no more than six units taken prior to approval of the official program of study may apply to the degree.
3. In consultation with the supervisory committee, the student will determine the subject of the research for a thesis that will be completed as the culminating experience in partial fulfillment of the requirements for the degree.

General Procedures for the Program

1. A student interested in being considered for the Interdisciplinary Studies program should complete and follow the instructions on the form, “Request for Permission to Pursue an Interdisciplinary Studies Master’s Degree,” which is available in the Graduate Division. The applicant must initially seek out a potential faculty adviser and two additional faculty members who have the expertise and interest in advising and supporting the applicant in the proposed program of study.
2. When the student’s portion of the form has been completed, the major adviser selected, and other potential supervisory committee members contacted, an appointment with the Associate Dean of the Graduate Division should be arranged. Both the applicant and the proposed major adviser should be present at this meeting. Other proposed committee members are welcome to participate in these discussions.
3. Following this meeting and after making any modifications to the proposed program eventuating from it, the student must present for approval the “Request for Permission to Pursue an Interdisciplinary Studies Master’s Degree” to the chairs of departments in which courses are being proposed and to the deans of colleges responsible for these academic units.
4. The student will then present the “Request,” endorsed with appropriate departmental and college recommendations, to the Graduate Division, where it will be reviewed by the Student Affairs Committee of the Graduate Council. Upon the recommendation of that committee, the “Request” will be forwarded to the Graduate Dean, whose
final endorsement will certify that the “Request” has been approved as an official program of study, that the supervisory committee has been formally appointed, and that the student has been granted classified graduate standing for the purpose of pursuing the interdisciplinary major.

5. Virtually all other requirements for this major are the same as those for other master’s degree programs, as specified in this bulletin. Special questions should be directed to the chair of the supervisory committee or to the Graduate Division.

GRADUATE COURSES

797. Research (1-3) Cr/NC/SP
Prerequisite: Advancement to candidacy.
Independent research in a specialized subject. Maximum six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of instructor.
Independent study. Maximum credit six units applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis or Project Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also the student must be registered in the course when the completed thesis or project is granted final approval.
Latin American Studies
In the College of Arts and Letters

Faculty Committee for Latin American Studies

Thomas M. Davies, Jr., Ph.D., Professor of History, Chair of Committee, Graduate Coordinator
Joseph W. Ball, Ph.D., Professor of Anthropology
C. Ben Christensen, Ph.D., Professor of Spanish
Kathee M. Christensen, Ph.D., Professor of Communicative Disorders
Norris C. Clement, Ph.D., Professor of Economics
Oliva M. Espín, Ph.D., Professor of Women's Studies
Barbara E. Fredrich, Ph.D., Professor of Geography
James B. Gerber, Ph.D., Professor of Economics
Ernst C. Griffin, Ph.D., Professor of Geography
Ricardo Griswold del Castillo, Ph.D., Professor of Chicana and Chicano Studies
Barbara W. Hartung, Ph.D., Professor of Communication, Executive Assistant to the President
Lawrence A. Herzog, Ph.D., Professor of Chicana and Chicano Studies
Margarita G. Hidalgo, Ph.D., Professor of Spanish
Kathleen B. Jones, Ph.D., Professor of Women's Studies
Lois K. Lippold, Ph.D., Professor of Anthropology
Brian E. Loveman, Ph.D., Professor of Political Science
Gail L. Robinson, Ph.D., Professor of Spanish
José D. Rodríguez, Ph.D., Professor of Chicana and Chicano Studies
Malcolm N. Silverman, Ph.D., Professor of Spanish and Portuguese
José R. Villarino, Ph.D., Professor of Chicana and Chicano Studies
Maria-Barbara Watson, Ph.D., Professor of Women's Studies
John R. Weeks, Ph.D., Professor of Geography
Carlos G. Wilson, Ph.D., Professor of Spanish
Adelaida R. Del Castillo, Ph.D., Associate Professor of Chicana and Chicano Studies
D. Emily Hicks, Ph.D., Associate Professor of English and Comparative Literature
William A. Nericcio, Ph.D., Associate Professor of English and Comparative Literature
Ronald R. Young, Ph.D., Associate Professor of Spanish
David V. Carruthers, Ph.D., Assistant Professor of Political Science
Maria De la Luz Ibarra, M.A., Assistant Professor of Chicana and Chicano Studies
Doreen J. Mattingly, Ph.D., Assistant Professor of Geography and Women's Studies
Cristina Rivera-Garza, Ph.D., Assistant Professor of History
Paul Ganster, Ph.D., Director, Institute for Regional Studies of the Californias
Wayne Stromberg, Ph.D., Operations Director, Language Acquisition Resource Center

General Information

Since 1976 the Center for Latin American Studies has been designated a National Resource Center for Latin American Studies (one of only eleven in the nation) by the United States Department of Education and funded through a Title VI grant. The Master of Arts degree administered by the center is an interdisciplinary program drawing on the expertise of an outstanding Latin Americanist faculty from the following departments: Anthropology, Art, Comparative Literature, Economics, Geography, History, Political Science, Public Administration and Urban Studies, Sociology, Spanish and Portuguese Languages and Literatures, Women's Studies, and the College of Business Administration.

Emphasis in the program is placed on the central issue of "Modernization and Urbanization" in Latin America and offered through nine courses from nine different departments. Research interests and areas of expertise of the faculty include: demography, economic development, folk art, Indians and peasants, land tenure systems, the Latin American press, mental health and aging in Mexico, militarism and guerrilla warfare, Spanish American prose, poetry and criticism, theatre, U.S.-Latin American relations, and the U.S.-Mexico border.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must present the Bachelor of Arts degree with not less than 18 units of courses of Latin American content in three areas. A student whose preparation is deemed insufficient by his graduate adviser or by the Latin American Studies committee will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy described in Part Two of this bulletin. Moreover, students must demonstrate an oral and reading proficiency in Spanish through either the satisfactory completion of an oral and a written examination, or: (1) satisfactory completion of Spanish 103 and 202, and a reading examination administered by the Department of Spanish and Portuguese Languages and Literatures, or (2) satisfactory completion of three units of 500-level or graduate coursework in Spanish. In addition, students
must complete satisfactorily (with a grade of B or better) Portu­
guese 101. Coursework at or above the 500 level may be
included as a part of the official program with the approval of the
graduate coordinator.

Specific Requirements for the Master of
Arts Degree
(Major Code: 03081)

In addition to meeting the requirements for classified graduate
standing and the basic requirements for the Master of Arts
degree, as described in Part Two of this bulletin, the student must
complete at least 30 units of upper division and graduate course­
work, including Latin American Studies 601, with not less than
24 units in courses of Latin American content selected from
those listed below and distributed as follows:

<table>
<thead>
<tr>
<th>Department A</th>
<th>600- and 700-numbered Courses</th>
<th>500-, 600- and 700-numbered Courses</th>

</tr>
<tr>
<td></td>
<td>3 units</td>
<td>3 units</td>
</tr>
<tr>
<td></td>
<td>12 units</td>
<td>12 units</td>
</tr>
</tbody>
</table>

The total program shall include a minimum of 18 units in 600­ and 700-numbered courses. Students may select either
Plan A or Plan B in consultation with the graduate adviser. In
addition to meeting the distribution requirements given above,
students electing Plan A must complete the 799A (Thesis)
course. Students electing Plan B must pass a comprehensive
written and oral examination in lieu of the thesis.

All programs will be approved by the Latin American Studies
committee.

Master of Business Administration
and Master of Arts in
Latin American Studies Degrees

General Information

The College of Business Administration and the Center for
Latin American Studies offer a three-year concurrent graduate
program leading to a Master of Business Administration and a
Master of Arts in Latin American Studies. The primary objective
of the concurrent program is to offer preparation in the fields of
business administration and Latin American studies for the pur­
purpose of providing the knowledge and skills necessary to promote
and engage in business relationships within a Latin American his­
torical, cultural, and linguistic milieu, in Latin America or in the
United States.

For information, contact the Chair of the Latin American
Studies Committee or the Associate Dean in the College of Busi­
ness Administration.

Admission to Graduate Study

Since this program combines disparate disciplines, applicants
are required to submit GMAT scores and should have substantial
academic backgrounds in the humanities and social sciences.
Applicants should also have a background in Spanish or Portu­
guese language and literature. It is expected that all students in
the concurrent degree program will be full time, so that all
requirements will be satisfied in an acceptable time period.

Specific Requirements for the
MBA/MA Degree
(Major Code: 49061)

In addition to meeting the requirements for classified graduate
standing and the basic requirements for the master’s degree as
described in Part Two of this bulletin, the student must complete
an officially approved course of study consisting of 70 units as
outlined below.

1. The college expects students entering the Master of Busi­
ness Administration/MA in Latin American Studies pro­
gram to be proficient in several areas. These include
proficiency in statistics, mathematical skills, basic econom­
ics and in the use of personal computers, including spread­
sheets and word processing. The students are responsible
for insuring that they possess these skills before beginning
the program.

2. Complete the following core of eight courses (19 units):
   BA 650 Financial Accounting (2)
   BA 651 Organizational Behavior (2)
   BA 652 Statistical Analysis (3)
   BA 653 Managerial Economics (2)
   BA 655 Marketing (3)
   BA 660 Managerial Accounting (2)
   BA 662 Operations Management (2)
   BA 665 Financial Management I (3)

   A student who has earned 12 or more undergraduate
   units in a specific field (finance, management, etc.) may
   substitute an advanced course for a core course in the
   same field with permission from the Director of Graduate
   Business Programs.

3. Complete six units, one course from each of the themes
   listed below:
   Interpersonal Skills Theme
   IDS 705 Communication Strategies (3)
   MGT 669 Human Resource Management (3)
   MGT 720 Seminar in Behavioral Sciences for
   Management (3)
   MGT 721 Seminar in Group Processes and Leadership (3)
   MGT 741 Seminar in Organization Power and Politics (3)
   MKTG 763 Seminar in Sales Management (3)
   Environment Theme
   FIN 604 Legal Environment for Executives (3)
   FIN 655 Seminar in Financial Markets (3)
   MGT 626 Competitive Analysis of Industries (3)
   MGT 722 Seminar in Business Ethics and Social
   Institutions (3)
   MGT 740 Seminar in Business Management and the Natural
   Environment (3)
   MGT 742 Seminar in Business and the Good Society (3)

4. Complete 15 units in Business Administration to include:
   FIN 654 Seminar in International Business Finance (3)
   MGT 710 Seminar in World Business Environment (3)
   MGT 723 Seminar in International Strategic Management (3)
   MGT 731 Seminar in Strategic Management of Technology
   and Innovation (3)
   MKTG 769 Seminar in International Marketing (3)

5. Complete 24 units in courses of Latin American content,
   including the following required courses:
**Latin American Studies**

LATAM 696 Interdisciplinary Seminar (3)
LATAM 798 Special Study (3) Cr/NC/SP
HIST 640 Directed Readings in Latin American History (3)*
POL S 661 Seminar in the Political Systems of the Developing Nations (3)*
POL S 667 Seminar in Latin American Political Systems (3)*

The remaining nine units will be selected from the following list of courses, with at least one course from the California Western School of Law courses highly recommended:

**Latin American Studies Courses**

560. Latin America After World War II (3)
576. Frida Kahlo and Her Circle: Mexican Artists and the Challenge of Modernity (3)
798. Special Study (3) Cr/NC/SP

**Economics Course**

565. North American Economic Relations (3)

**Geography Course**

720. Seminar in Regional Geography (3)**

**History Courses**

551A-551B. Mexico (3-3)
552. Brazil (3)
554. The Andean Republics of South America (3)
555. Modernization and Urbanization in Latin America (3)
556. Guerrilla Movements in Latin America (3)
558. Latin America in World Affairs (3)
559. Central America (3)
640. Directed Reading in Latin American History (3)
795. Area Studies in History (3) Cr/NC**

**Political Science Courses**

566. Political Change in Latin America (3)
567. Political Systems of Latin America (3)
568. Mexican Politics (3)
655. Seminar in General Comparative Political Systems (3)**
675. Seminar in International Relations (3)**
795. Problem Analysis (3)**

**California Western School of Law Courses***

452. International Protection of Human Rights
498. Mexican Law
610. Immigration Law
625. International Business Transactions
636. International Organizations
643. Private International Law
644. Public International Law
703. Latin American Law

6. In addition, the student must complete MGT 797 (Research) and BA 799A (Thesis). The thesis in Business Administration will treat a Latin American related topic and will be supervised by a business faculty with international business expertise and at least one faculty member from the Latin American studies program.

If a student after entering the concurrent MBA/MA program returns to a single degree program, all the requirements for the single degree program must be met.

*Repeatable with new content and approval of advisory committee.
**Acceptable when of relevant content.
***These courses are not required. Students must apply to enroll under the provisions of the affiliation agreement with the California Western School of Law.

**Advancement to Candidacy**

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, 1) the student will be required to complete Spanish 302 (or its equivalent), or Portuguese 401 (or its equivalent), and pass an oral and written examination administered by the Department of Spanish and Portuguese Languages and Literatures; 2) all core courses in business and Latin American studies must be completed prior to advancement with a minimum grade point average of 3.0 and no grade less than a B– in any core course; 3) have been recommended for advancement by the combined advisory committee; 4) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Management 797 (Research) and BA 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the MBA and MA degrees.

**Courses Acceptable on Master’s Degree Programs in Latin American Studies**

**UPPER DIVISION COURSES**

**Latin American Studies Courses**

530. Civilization and Culture of Pre-Columbian America (3)
Prerequisite: Upper division standing.
Indigenous cultures of U.S./Mexico border region, Mexico, Central America from a multidisciplinary perspective. Geographical, religious, political, economic, and social realities. Not open to students with credit in Art 561.

531. Visual Representation of Latin American Culture (3)
Prerequisite: Upper division standing.
Latin American civilization and culture from the Encounter to present. Visual expressions of culture including rituals, ceremonies and festivals, examined from a multi-disciplinary perspective. Not open to students with credit in Art 562.

560. Latin America After World War II (3)
Prerequisites: Latin American Studies 101; History 115A, 115B; and either Political Science 566 or consent of instructor.
Major socioeconomic and political changes in Latin America since World War II and Inter-American relations during the same period. Includes guest lecturers.

575. Art and Culture in the U.S./Mexico Border Region (3)
Prerequisite: Upper division standing.
Settlement and culture along the U.S./Mexican border seen through a multi-disciplinary study of art, architecture, artists, and patronage.

576. Frida Kahlo and Her Circle: Mexican Artists and the Challenge of Modernity (3)
Prerequisite: Upper division standing.
Work and life of Frida Kahlo, her influence on artists and thinkers who shared her world, and influence she continues to have on art of Mexico and the U.S.
580. Special Topics (1-4)
Prerequisite: Six upper division units in Latin American content courses.
Interdisciplinary study of selected Latin American topics. Credit will vary depending on the scope and nature of the topic. Whenever appropriate, the course will be taught by a team of instructors representing two or more disciplines. May be repeated with different content. See Class Schedule for specific content. Maximum credit eight units

Anthropology Courses
508. Medical Anthropology (3)
509. Culture and Biological Aging (3)
582. Regional Anthropology (3)*
583. Topical Anthropology (3)*

Art Courses
557. Art of the Nineteenth Century (3)
577. History of Architecture (3)
596. Advanced Studies in Art and Art History (1-4)*

Communication Courses
591. International Telecommunications (3)
596. Selected Topics (1-4)*

Comparative Literature Courses
561. Fiction (3)
562. Drama (3)
563. Poetry (3)
571. Literary Use of Legend (3)
594. Topics in Literature and the Arts (3)
596. Topics in Comparative Literature (3)*

Economics Courses
561. International Trade (3)
565. North American Economic Relations (3)
592. International Monetary Theory and Policy (3)
596. Experimental Topics (3)*

English Courses
501. Literature for Children (3)
502. Adolescence in Literature (3)

Geography Courses
507. Geography of Natural Vegetation (3)
509. Regional Climatology (3)
545. Arid Lands (3)
554. World Cities: Comparative Approaches to Urbanization (3)
596. Advanced Topics in Geography (1-3)*

History Courses
541A. California (3)
551A-551B. Mexico (3-3)
552. Brazil (3)
554. The Andean Republics of South America (3)
555. Modernization and Urbanization in Latin America (3)
556. Guerrilla Movements in Latin America (3)
558. Latin America in World Affairs (3)
559. Central America (3)
596. Selected Studies in History (1-4)*

Law
With the permission of the graduate adviser and the approval of the Graduate Division, classified graduate students may take a maximum of nine units of law at California Western School of Law through an affiliation agreement between the two institutions. San Diego State students must be enrolled for graduate courses at San Diego State University in the semester they are taking courses at California Western School of Law.

Please consult with the graduate adviser for a listing of the specific law courses offered.

Political Science Courses
531. Interest Groups and Political Movements (3)
555. Comparative Political Systems (3)
560. Comparative Public Policy (3)
566. Political Change in Latin America (3)
567. Political Systems of Latin America (3)
568. The Mexican Political System (3)
577. Principles of International Law (3)

Portuguese Course
535. Brazilian Literature (3)

Public Administration Course
580. Comparative Public Administration (3)

Sociology Courses
517. Life Crises and Coping: Sociological Perspectives (3)
522. The Family in Comparative and Historical Perspectives (3)
527. Aging and Society (3)
596. Current Topics in Sociology (1-3)*

Spanish Courses
515. Mexican Literature (3)
520. Caribbean Area Countries Literature (3)
596. Selected Studies in Spanish (3)*

Television, Film, and New Media Course
562. Documentary and Propaganda Film/Television (3)

Women’s Studies Courses
515. Women: Mythology and Ritual (3)
521. Life Cycles of Women (3)
553. Women Writers (3)*
565. Women, Health, and Medicine (3)
580. Women and International Development (3)
596. Topics in Women’s Studies (3)*

*Acceptable when of relevant content.

GRADUATE COURSES
Latin American Studies Courses

601. Seminar on Methodology of Latin American Studies (3)
Prerequisite: Graduate standing. Theories and methodologies of Latin American Studies.

696. Experimental Topics (3)
Prerequisite: Graduate standing. Intensive study in specific areas of Latin American studies. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units of 696 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

700. Current Issues in Latin American Politics (3)
Prerequisites: Graduate standing, Latin American Studies 601, and six upper division units in either history or political science. Directed research on topics selected from a designated area of Latin American politics and history. May be repeated with new content. Maximum credit six units applicable to a master’s degree.
Latin American Studies

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff, to be arranged with the director and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Anthropology Courses
600. Seminar (3)*
603. Seminar in Ethnology (3)
621. Seminar in Topical Anthropology (3)
797. Research (3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Art Courses
760. Seminar in Twentieth Century Art (3)
798. Special Study (1-3) Cr/NC/SP
799A. Thesis or Project (3) Cr/NC/SP
799B. Thesis or Project Extension (0) Cr/NC

Communication Course
798. Special Study (1-3) Cr/NC/SP

Economics Courses
696. Experimental Topics (3)*
700. Seminar in Microeconomic Applications (3)*
720. Seminar in Development and Planning (3)
730. Seminar in Macroeconomic Policy (3)
740. Seminar in Applied Economic Research (3)*
750. Seminar in Economic History and Institutions (3)*
797. Research (3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

English Courses
601. Literary Study in a Multicultural World (3)*
604. A Literary Period or Movement (3)*
606. A Literary Type (3)*
626. Comparative Literature (3)*
696. Special Topics (3)*
700. Seminar: A Major Author or Authors (3)*
726. Seminar: Issues in Comparative Literature (3)*
798. Special Study (1-3) Cr/NC/SP

Geography Courses
696. Advanced Special Topics in Geography (3)*
720. Seminar in Regional Geography (3)*
740. Seminar in Human Geography (3)*
760. Seminar in Behavioral and Social Geography (3)*
797. Research (1-3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

History Courses
640. Directed Reading in Latin American History (3)
795. Area Studies in History (1-3) Cr/NC*
797. Research (3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Political Science Courses
655. Seminar in General Comparative Political Systems (3)*
658. Seminar in Post-Communist Political Systems (3)
661. Seminar in the Political Systems of the Developing Nations (3)*
667. Seminar in Latin American Political Systems (3)
675. Seminar in International Relations (3)*
676. Seminar in International Political Economy (3)
795. Problem Analysis (3)*
797. Research in Political Science (3) Cr/NC/SP
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Public Administration and Urban Studies Course
798. Special Study (1-3) Cr/NC/SP

Sociology Courses
696. Experimental Topics (3)*
730. Seminar in Social Institutions (3)
798. Special Study (1-3) Cr/NC/SP

Spanish Courses
601. Seminar in Hispanic Literary Theory (3)
650. The Gaucho Epic (3)
660. Modernism (3)
695. Contemporary Spanish American Prose Fiction (3)
696. Selected Topics (3)*
750. Seminar in Spanish American Literature (3)
755. Seminar in Spanish American Culture and Thought (3)
798. Special Study (1-3) Cr/NC/SP
799A. Thesis (3) Cr/NC/SP
799B. Thesis Extension (0) Cr/NC

Television, Film, and New Media Course
798. Special Study (1-3) Cr/NC/SP

Women’s Studies Courses
601. Foundations of Feminist Scholarship (3)
602. Seminar: Methods of Inquiry in Women’s Studies (3)
603. Seminar: Advanced Feminist Theory (3)
604. Seminar: Gender, Culture, and Representation (3)
605. Seminar: Women, Relationships, and Social Policy (3)
696. Selected Topics in Women’s Studies (3-6)*
701. Seminar in Women’s Studies (3)*
798. Special Study (1-3) Cr/NC/SP

* Acceptable when of relevant content.

Committee on Graduate Liberal Arts and Sciences

The Master of Arts degree in Liberal Arts and Sciences is administered through the Graduate Liberal Arts and Sciences Committee. Faculty assigned to teach courses in the program are drawn from departments throughout the University.

General Information

The College of Arts and Letters offers a Graduate Liberal Arts and Sciences program that is one of two in the western United States. The Master of Arts degree in Liberal Arts and Sciences is an interdisciplinary program administered by the Graduate Liberal Arts and Sciences Committee. Even though this approach to graduate education is over thirty years old in the United States, its interdisciplinary nature has kept it vital and flexible. Students are encouraged to customize their degree by selecting coursework relevant to their interests.

The Master of Liberal Arts and Sciences degree is an interdisciplinary program intended to provide an alternative approach to continued adult learning by offering a program that crosses disciplinary boundaries and aims for breadth and scope. It provides the unique combination of a highly individualized program of study centered around personal interests combined with a strong grounding in interdisciplinary methods for problem solving. The student body is drawn from diverse backgrounds, thus adding to the unique character of the program.

Admission to Graduate Study

Applicants seeking admission to the program leading to the Master of Arts degree in Liberal Arts and Sciences should contact the director of the Graduate Liberal Arts and Sciences Committee requesting appropriate application materials. Detailed information concerning application procedures will be sent to the applicant along with the appropriate application forms.

In addition to satisfying the requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin, the student seeking admission must: (1) have a grade point average of 3.0 or better on work completed during the last 60 units for the baccalaureate degree, (2) have a score of 1000 or better on the GRE General Test (combined verbal and quantitative), and (3) complete a statement of purpose essay. A personal interview with a member of the Graduate Liberal Arts and Sciences Committee is recommended.

Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with
conditional classified graduate standing upon the recommendation of the MALAS director and Graduate Liberal Arts and Sciences Committee. Students so admitted will be advised as to the nature of their deficiency and the time to be allowed to achieve full classified graduate standing.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the students must (1) satisfactorily complete 12 units, with a minimum grade point average of 3.0, including 9 units of core seminars as stipulated (MALAS 600A, 600B, 600C, 600D) and (2) if selecting Plan A, have a thesis or project proposal which has received the approval of the Graduate Liberal Arts and Sciences Committee and its director.

Specific Requirements for the Master of Arts Degree in Liberal Arts and Sciences

(Major Code: 49017)

In addition to meeting the basic requirements for the Master of Arts degree in Liberal Arts and Sciences as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units in residence at San Diego State University in the MALAS program, of which at least 15 must be in 600- and 700-numbered courses. The total program must include:

1. Three units each of MALAS 600A, 600B, 600C, or 600D for a total of nine units.
2. Three units of MALAS 601.
3. A theme of study composed of 15 units of graduate coursework, selected with the approval of the MALAS director which normally must be in at least two of the following areas: social sciences, humanities, natural sciences, and fine arts, with no more than six units in any given discipline. Some 500 level courses may be used in partial fulfillment of this requirement, if approved by the MALAS director. MALAS 798, where applicable, may be included as satisfying 3 of the 15 units for the thematic component. Under special circumstances, and with permission of the MALAS director, a student may compose a theme that deviates in structure from the criteria stipulated above. This theme may include up to a maximum of 12 units of 600A, 600B, 600C, and 600D, in any combination.

Students may select either Plan A or Plan B in consultation with the MALAS director. In addition to meeting the distribution requirements given above, students electing Plan A must complete MALAS 799A (Thesis or Project). Students electing Plan B must complete MALAS 795 (Studies in the Liberal Arts and Sciences) and pass a written comprehensive examination in lieu of the thesis.

All programs must be approved by the MALAS director in consultation with the Graduate Liberal Arts and Sciences Committee.

GRADUATE COURSES

600A-600B-600C-600D. Interdisciplinary Study in Liberal Arts and Sciences (3-3-3-3)

Prerequisites: Admission to Master of Arts degree in Liberal Arts and Sciences program and consent of MALAS director.

Interdisciplinary seminars to explore issues that require integration of the perspective of various areas of the liberal arts and sciences. Each course may be repeated with new content. See Class Schedule for specific content.

A. Social Sciences and Humanities
B. Social Sciences and Natural Sciences
C. Humanities and Natural Sciences
D. Fine Arts and Social Sciences, Humanities, or Natural Sciences

601. Seminar in Interdisciplinary Thinking (3)

Prerequisite: Admission to Master of Arts degree in Liberal Arts and Sciences program and approval of director.

Introduction to MALAS curriculum and interdisciplinary commitment, especially to connection between fine arts, humanities, sciences, and social sciences. See Class Schedule for specific content.

696. Advanced Topics in Liberal Arts and Sciences (1-3)

Prerequisite: Admission to Master of Arts degree in Liberal Arts and Sciences program or graduate standing.

Intensive study in specific areas of liberal arts and sciences. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

795. Studies in Liberal Arts and Sciences (1-3) Cr/NC

Prerequisite: An officially appointed examining committee and advancement to candidacy.

Individual preparation for comprehensive examination for students taking the Master of Liberal Arts and Sciences under Plan B. Maximum credit three units.

798. Special Study (1-3) Cr/NC/SP

Prerequisite: Approval of director.

Individual study on a given topic through interdisciplinary perspectives. Maximum credit three units.

799A. Thesis or Project (3) Cr/NC/SP

Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in MALAS 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis or project is granted final approval.
Linguistics and Oriental Languages

Faculty

Charlotte Webb, Ph.D., Associate Professor of Linguistics, Chair of Department
Zev Bar-Lev, Ph.D., Professor of Linguistics
Soonja Choi, Ph.D., Professor of Linguistics (Graduate Adviser)
Thomas S. Donahue, Ph.D., Professor of Linguistics
Ann M. Johns, Ph.D., Professor of Linguistics
Jeffrey P. Kaplan, Ph.D., Professor of Linguistics
Gail L. Robinson, Ph.D., Professor of Linguistics
Robert Underhill, Ph.D., Professor of Linguistics
Deborah Poole, Ph.D., Associate Professor of Linguistics
Betty T. R. Samraj, Ph.D., Assistant Professor of Linguistics

Associateships

Graduate teaching associateships in linguistics are offered each semester to a limited number of qualified students to teach the composition courses for international students. Those interested should send a letter of application to the graduate adviser.

General Information

The Department of Linguistics and Oriental Languages offers graduate study leading to the Master of Arts degree in linguistics. The interdisciplinary program provides broad educational opportunities through two specializations: 1) General Linguistics, for those planning to pursue a doctorate in theoretical areas (e.g., syntax or phonology) or for those who plan to work in a language-related field in industry or education (e.g., computer programming); and 2) ESL/Applied, for students planning to pursue a doctorate in applied linguistics, or intending to teach or design curriculum for ESL/EFL classrooms. In addition to completing coursework for one of the specializations and demonstrating proficiency in a foreign language, students are required to submit a thesis (Plan A) or pass a comprehensive examination (Plan B).

All students who complete the required program will receive a Master of Arts degree in linguistics. If requested, the department will provide a letter designating a student’s specialization for purposes of employment or application for further study. The specializations and language research interests of faculty members in this program are:

Zev Bar-Lev – ESL, discourse analysis, linguistics and computers; Hebrew, Arabic, and Russian.
Soonja Choi – Psycholinguistics, first and second language acquisition, cognition and language, ESL, materials development; Korean, French.
Thomas S. Donahue – American dialectology, sociolinguistics, historical linguistics; old English, middle English.

Ann M. Johns – ESL methodology, materials development, teaching second language reading and writing, discourse and genre analysis; Arabic and Chinese.
Jeffrey P. Kaplan – Syntax, semantics, pragmatics, discourse, language and law; Swahili.
Deborah Poole – Classroom interaction, discourse analysis, cross-cultural interaction, ESL methods and materials.
Gail L. Robinson – Second language methodology, second language and culture acquisition, psycholinguistics; Spanish.
Robert Underhill – Descriptive linguistics, phonology, syntax, discourse; Turkish, Native American languages, Southeast Asian languages.
Charlotte Webb – Phonology, second Language acquisition, sociolinguistics; Spanish, Chinese, Lapp.

Admission to Graduate Study

In addition to meeting the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student must have a Bachelor of Arts degree in linguistics or a related field that would demonstrate adequate preparation for the program. The grade point average required for admission to the M.A. program in linguistics is 3.0 in the last 60 semester units attempted. Students who have obtained their B.A. from an institution where English is the medium of instruction are required to have adequate GRE scores on the combined verbal/quantitative portions of the test. Students who have obtained a B.A. from a university where English is not the primary medium of instruction are required to have TOEFL scores of 560 or better. Candidates must also submit with their applications a statement of purpose (250-500 words) demonstrating an understanding of the SDSU program and indicating an area of research that is within the department’s scope of expertise. A student who is deficient in any of the above requirements may be considered for conditional admission: a candidate may be required to complete specified courses within a specified time period in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy

All candidates must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition to the requirements listed, students must demonstrate reading or speaking knowledge of at least one foreign language prior to advancement to candidacy.
Specific Requirements for the Master of Arts Degree

(Major Code: 15051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the Master of Arts degree, as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of 500-, 600-, and 700-level courses including Linguistics 622 and 795. A minimum of 15 of the units taken must be from 600- or 700-level courses.

Students selecting the Specialization in General Linguistics must complete Linguistics 621 and six units from the following: Linguistics 610, 640, 651, 654, and 660.

Students selecting the ESL/Applied Specialization must complete either Linguistics 521 or 621, Linguistics 652, and at least six units from the following: Linguistics 623, 650, 653, and 655. An internship, Linguistics 740, is required of all students selecting this specialization who have not taught ESL previously.

Students selecting one specialization may enroll in courses from the other specialization as electives.

With the approval of the graduate adviser, a maximum of six units selected from the following courses will be accepted for graduate credit in linguistics: Anthropology 604; Communication 530, 584, 765; Communicative Disorders 790, 792, 793; Rhetoric and Writing Studies 602; Russian 580; Spanish 561, 770.

Plan A or Plan B

With approval of the graduate adviser, a student may choose either Plan A, the normal option which requires a thesis, or in special circumstances and with the prior approval of the graduate adviser, Plan B, which requires a written comprehensive examination. Plan A students must select a committee of three faculty, two of whom are from the department, to supervise the thesis. In consultation with the graduate adviser, students select one of two options upon approval of an official program and advancement to candidacy.

Advanced Certificate in Applied Linguistics and English as a Second Language (ESL)

The Department of Linguistics and Oriental Languages offers a Basic and an Advanced Certificate in Applied Linguistics and English as a Second Language (ESL). The Advanced Certificate requires Linguistics 652; two courses from Linguistics 650, 653, 655, and 795 (when offered with applied linguistics content); and one course from Linguistics 530, 622, 623, 651, 654, and 795. The prerequisite to the Advanced Certificate is the Basic Certificate or its equivalent. A student's entire program comprising Basic and Advanced Certificates must include at least one course from Linguistics 530, 622, and 623. Under certain circumstances comparable courses taken at other institutions may count toward the Certificate. Such courses must be evaluated and approved by the certificate adviser. For information on the Basic Certificate, please see the General Catalog.

Courses Acceptable on Master’s Degree Programs in Linguistics

UPPER DIVISION COURSES

520. Fundamentals of Linguistics (3)
Prerequisite: Upper division standing.
Principles of modern linguistics, with attention to English grammar (syntax, morphology, phonology). Language change, dialects, sociolinguistics, psycholinguistics, language acquisition.

521. Phonology (3)
Prerequisite: Linguistics 420 or 520.
Introduction to the theoretical principles of transformational-generative phonology.

522. Syntax (3)
Prerequisite: Linguistics 420 or 520.
Introduction to the theoretical principles of transformational-generative syntax.

524. American Dialectology (3)
Prerequisite: Upper division standing.

525. Semantics and Pragmatics (3)
Prerequisite: Linguistics 420 or 520.
Advanced semantic theory; systematic analysis of the interaction of sequences of language with real world context in which they are used.

530. English Grammar (3)
Prerequisite: Six upper division units in linguistics.
English morphology, syntax, and discourse structure, including simple and complex sentence structure; lexical categories and subcategories; discourse functions of selected constructions. Problems and solutions in teaching English grammar.

550. Theory and Practice of English as a Second Language (3)
Prerequisite: Linguistics 420 or 520.
The nature of language learning; evaluation of techniques and materials for the teaching of English as a second language.

551. Sociolinguistics (3)
Prerequisite: A course in introductory linguistics. Investigation of the correlation of social structure and linguistic behavior.

552. Psycholinguistics (3)
Prerequisite: Linguistics 420 or 520.
Psychological and mental processes related to comprehension, production, perception, and acquisition of language in adults and children.

553. Bilingualism (3)
Prerequisite: Linguistics 420 or 520 or Communicative Disorders 500.
Bilingual societies; language choice by bilinguals; bilingual language acquisition; effects of bilingualism on language structure and use.

555. Practical Issues in Teaching English as a Second Language (3)
Prerequisite: Linguistics 452 or 552; and credit or concurrent registration in Linguistics 550.
Practical approaches to applications of the theory of English as a Second Language (ESL) and methodology for speaking, reading, listening, writing; techniques for facilitating growth of communicative competence.
596. Selected Topics in Linguistics (1-3)
Prerequisite: Upper division standing.
Advanced study of selected topics. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

610. Topics in Historical Linguistics (3)
Prerequisite: Three upper division units in linguistics, preferably Linguistics 410, 520, or 521.
Methods and principles used in historical study of language; processes of language change in phonology, syntax, and semantics; linguistics reconstruction; origin of language; language families; development of writing. Analysis of Indo-European, Old English, or Middle English. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

621. Advanced English Phonology (3)
Prerequisite: Linguistics 521.

622. Advanced Syntax (3)
Prerequisite: Linguistics 522.
Advanced study of linguistic theory and its application to the analysis of English.

623. Immigrant Languages (3)
Prerequisite: Linguistics 420 or 520.
Contrastive structure of selected languages representing significant immigrant populations in San Diego; emphasis on phonological, orthographic, morphological, lexical and syntactic features.

640. Field Methods in Linguistics (3)
Prerequisites: Linguistics 521 and credit or concurrent registration in Linguistics 622.
Principles and techniques of linguistic analysis working directly with native informants, including phonemic, grammatical, and syntactic analysis and text collection and interpretation.

650. Materials Development in Applied Linguistics (3)
Prerequisite: Linguistics 550.
Materials development and adaptation for teaching English as a second language and foreign language.

651. Sociology of Language (3)
Prerequisite: Linguistics 551.
Public and private reasons for planned language behavior. Creoles, personal speech interaction patterns, bilingualism, cultural diversity in language use, social-theoretical background, language planning, and social uses of sexism in language.

652. Second Language Acquisition (3)
Prerequisites: Linguistics 452 or 552; and 550.
Analyses of theories of second language acquisition; theoretical and empirical bases of current second language teaching methodologies.

653. ESL Reading and Writing (3)
Prerequisite: Linguistics 550.
Application of discourse and reading theory to the teaching and testing of ESL reading and writing. Issues of coherence, process-product, genre studies.

654. Language and Cognition (3)
Prerequisite: Linguistics 552.
Language production, comprehension, and acquisition, as these relate to human cognition.

655. English for Specific Purposes and Content-Based Instruction (3)
Prerequisites: Linguistics 420 or 520, and 550.
Theory, practice, and history of these two related approaches to ESL/EFL.

660. History of Linguistics (3)
Prerequisite: Two courses in linguistics or equivalent background.
Background and development of modern linguistic theory.

740. Internship in English as a Second Language and Foreign Language Teaching (3) Cr/NC
Prerequisite: Linguistics 550.
Internship in teaching English as a second language and English as a foreign language, offering work experience with practicing professionals.

750. Directed Language Study (3)
Prerequisite: Consent of instructor.
Directed independent study of a foreign language not offered at San Diego State University with aim of acquiring a developing competency in the language. May include speaking, listening, reading, writing, and grammar. May be repeated with approval of graduate adviser.

795. Seminar in Linguistics (3)
Prerequisite: Completion of three units of 600- and 700-numbered courses in the master's program for linguistics.
Research in linguistics, course content varying according to instructor. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair or instructor.
Individual study. Maximum credit six units applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

Larry K. Sowder, Ph.D., Professor of Mathematical and Computer Sciences (Coordinator and M.A.T.S. Graduate Adviser)
Janet Sue Bowers, Ph.D., Assistant Professor of Mathematical and Computer Sciences
Joanne Lobato, Ph.D., Assistant Professor of Mathematical and Computer Sciences

Associateships

Graduate teaching associateships in mathematics are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information

The Department of Mathematical and Computer Sciences offers graduate study leading to the Master of Arts degree in mathematics, the Master of Arts degree for teaching service with a concentration in mathematics, the Master of Science degree in applied mathematics, the Master of Science degree in statistics (see the Statistics section of this bulletin for a description of the statistics program and courses), and the Master of Science degree in computer science. (See the Computer Science section of this bulletin for a description of the computer science program.)

Faculty active in research direct theses and research projects in most general areas of the mathematical sciences: in complex analysis, differential equations, graph theory, group theory, matrix theory, number theory, numerical analysis, operator theory; in cognitive science, computer education and problem solving within mathematics education; in control theory, mathematical physics, modeling and optimization, financial mathematics, mathematics of communication, and computational mathematics within applied mathematics; in biostatistics, data analysis, inference, stochastic processes, survival analysis and time series within statistics; in algorithms, computability, formal language, numerical analysis, and system software (artificial intelligence, database management, distributed processing, graphics and operating systems) within computer science.
Opportunities for research in mathematics education are available through research facilities in the Center for Research in Mathematics and Science Education. Research facilities of the department include the Robotics and Intelligent Machines Laboratory which provides opportunities for research in computer science (see Computer Science section).

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must have passed a qualifying examination in some programs.

Specific Requirements for the Master of Arts Degree in Mathematics

(Major Code: 17011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must meet the following requirements:

1. Complete 30 units of approved 500, 600, and 700 level courses, of which at least 24 units must be in mathematics (including computer science). At least 21 units must be at the 600 level or above. Mathematics 600, 601, and 602 may not be part of this degree. No more than six units of Mathematics 797 and 798 will be accepted toward the degree.

2. Among the 30 units of coursework, students must include at least two courses in the area of algebra chosen from courses 630A, 630B, 631A, 631B.

3. Before entering the program, students should have completed the following courses or their equivalents: Mathematics 521B, 524, 532, 534B. If a student has not had these courses before entering the program, they must be taken during the first year. (A maximum of two of these courses may be applicable toward the degree course requirements.)

4. With departmental approval, students may select Plan A and complete Mathematics 799A or Plan B requiring a written comprehensive examination based on materials to be selected by the department from among Mathematics 623, 627A, 627B, 630A, 630B, 631A, 631B, 541; Statistics 551A; and programming proficiency in a computer language. Admission to the program as conditionally classified may be granted without some of the coursework above, contingent on the student removing any deficiencies by the end of the first year in the program. (These courses will not count toward the degree course requirements.)

2. Complete a minimum of 30 units of approved 500-, 600- and 700-numbered courses. All programs must include at least 21 units in mathematical sciences (with the possible exception of a student who shows an interest in mathematical modeling) and at least 18 units selected from 600- and 700-numbered courses. No more than six units in Mathematics 797 and 798 will be accepted for credit toward the degree. A program of study must be approved by the graduate adviser.

3. With departmental approval, the student may select Plan A, and complete Mathematics 799A, Thesis. The student must have an oral defense of their thesis or research, open to the public. If Plan B is elected, the student must complete three units of Mathematics 797, Research, and pass the written Comprehensive Examination in Applied Mathematics.

Concentration in Mathematical Theory of Communication Systems

This concentration focuses on the areas of mathematics relevant to the processing of information by digital or analog methods through electromagnetic or opto-acoustic channels. In addition to meeting the requirements for classified standing in the Master of Science program in applied mathematics, students pursuing this concentration will complete the following 18 units of core courses: Mathematics 522, 525, 623, 626, 667, 668. Nine units of electives must be chosen with the approval of the graduate adviser. Recommended electives are Mathematics 534B, 543, 627A-627B, 630A-630B, 631A-631B, 693A, 693B. Depending on the student's academic background, the graduate adviser may approve elective courses in computer science, statistics, or electrical engineering. Courses outside mathematics that pertain to this concentration include Computer Science 574, Statistics 553, Electrical Engineering 558, 652, 653, and 658. Either Mathematics 797, Research, or 799A, Thesis, is required of all students in this degree program.

Specific Requirements for the Master of Science Degree in Applied Mathematics

(Major Code: 17031)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree described in Part Two of this bulletin, the student must meet the following requirements:

1. Have completed before entering the program, the following courses or their equivalents: Mathematics 524, 534A, 534B, 541; Statistics 551A; and programming proficiency in a computer language. Admission to the program as conditionally classified may be granted without some of the coursework above, contingent on the student removing any deficiencies by the end of the first year in the program. (These courses will not count toward the degree course requirements.)

2. Complete a minimum of 30 units of approved 500-, 600- and 700-numbered courses. All programs must include at least 21 units in mathematical sciences (with the possible exception of a student who shows an interest in mathematical modeling) and at least 18 units selected from 600- and 700-numbered courses. No more than six units in Mathematics 797 and 798 will be accepted for credit toward the degree. A program of study must be approved by the graduate adviser.

3. With departmental approval, the student may select Plan A, and complete Mathematics 799A, Thesis. The student must have an oral defense of their thesis or research, open to the public. If Plan B is elected, the student must complete three units of Mathematics 797, Research, and pass the written Comprehensive Examination in Applied Mathematics.

Courses Acceptable on Master's Degree Programs in Applied Mathematics, Computer Science, Mathematics, and Statistics

NOTE: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.

509. Computers in Teaching Mathematics (3)

Two lectures and three hours of laboratory.

Prerequisite: Mathematics 252.

Solving mathematical tasks using an appropriate computer interface, and problem-based curricula. Intended for those interested in mathematics teaching.
510. Introduction to the Foundations of Geometry (3) I, II
Prerequisite: Mathematics 122 or 151.
The foundations of Euclidean and hyperbolic geometries. Highly recommended for all prospective teachers of high school geometry.

511. Projective Geometry (3)
Prerequisite: Mathematics 254.
Geometry emphasizing relationships between points, lines, and conics. Euclidean geometry and some non-Euclidean geometries as special cases of projective geometry.

512. Non-Euclidean Geometry (3)
Prerequisite: Mathematics 122 or 151.
History of attempts to prove the fifth postulate; emphasis on plane synthetic hyperbolic geometry; brief treatment of other types of non-Euclidean geometry.

521A. Abstract Algebra (3) I, II
Prerequisites: Mathematics 245 and 252.
Abstract algebra, including elementary number theory, groups, and rings.

521B. Abstract Algebra (3) II
Prerequisite: Mathematics 521A.
Continuation of Mathematics 521A. Rings, ideals, quotient rings, unique factorization, noncommutative rings, fields, quotient fields, and algebraic extensions.

522. Number Theory (3) I
Prerequisites: Mathematics 245 and 252.
Theory of numbers to include congruences, Diophantine equations, and a study of prime numbers; cryptography.

523. Mathematical Logic (3)
Prerequisite: Mathematics 245.
Propositional logic and predicate calculus. Rules of proof and models. Completeness and the undecidability of arithmetic. Not open to students with credit in Philosophy 521.

524. Linear Algebra (3) I, II
Prerequisites: Mathematics 245 and 254; or 342A.
Vector spaces, linear transformations, orthogonality, eigenvalues and eigenvectors, normal forms for complex matrices, positive definite matrices and congruence.

525. Algebraic Coding Theory (3) II
Prerequisite: Mathematics 254.
Linear codes, perfect and related codes, cyclic linear codes, BCH codes, burst error-correcting codes.

531. Partial Differential Equations (3) I
Prerequisites: Mathematics 252 and 337.
Boundary value problems for heat and wave equations: eigenfunction expansions, Sturm-Liouville theory and Fourier series. D’Alembert’s solution to wave equation; characteristics. Laplace’s equation, maximum principles, Bessel functions.

532. Functions of a Complex Variable (3)
Prerequisite: Mathematics 252.
Analytic functions, Cauchy-Riemann equations, theorem of Cauchy, Laurent series, calculus of residues, and applications.

533. Vector Calculus (3)
Prerequisite: Mathematics 254 or 342A.
Scalar and vector fields; gradient, divergence, curl, line and surface integrals. Green’s, Stokes’ and divergence theorems. Green’s identities. Applications to potential theory or fluid mechanics or electromagnetism.

534A. Advanced Calculus I (3) I, II, S
Prerequisites: Mathematics 245 and 254; or 342A.
Completeness of the real numbers and its consequences, sequences of real numbers, continuity, differentiability and integrability of functions of one real variable.

534B. Advanced Calculus II (3) II
Prerequisite: Mathematics 534A.
Series and sequences of functions and their applications, functions of several variables and their continuity, differentiability and integrability properties.

535. Introduction to Topology (3) I
Prerequisite: Mathematics 534A.

536. Mathematical Modeling (3) I
Prerequisites: Mathematics 254 and 337 or Mathematics 342A and 342B or Engineering 280.
Advanced models from the physical, natural, and social sciences. Emphasis on classes of models and corresponding mathematical structures.

537. Ordinary Differential Equations (3)
Prerequisite: Mathematics 337.
Theory of ordinary differential equations: existence and uniqueness, dependence on initial conditions and parameters, linear systems, stability and asymptotic behavior, plane autonomous systems, series solutions at regular singular points.

541. Introduction to Numerical Analysis and Computing (3) I, II, S
Prerequisites: Mathematics 254 or 342A; and Computer Science 106 or 107 or 205 or Engineering 120.
Solution of equations of one variable, direct methods in numerical linear algebra, least squares approximation, interpolation and uniform approximation, quadrature.

542. Introduction to Numerical Solutions of Differential Equations (3) II
Prerequisites: Mathematics 337 and 541.

543. Numerical Matrix Analysis (3)
Prerequisite: Mathematics 541.

544. Computational Finance (3)
Prerequisites: Mathematics 531 and Statistics 550.
561. **Applied Graph Theory** (3)
Prerequisite: Mathematics 245 or 254.
Undirected and directed graphs, trees, Hamiltonian circuits, classical problems of graph theory including applications to linear systems.

562. **Mathematical Methods of Operations Research (3) II**
Prerequisites: Mathematics 252 and 254.
Theory and applications concerned with optimization of linear and non-linear functions of several variables subject to constraints, including simplex algorithms, duality, applications to game theory, and descent algorithms.

579. **Combinatorics** (3)
Prerequisite: Mathematics 245.
Permutations, combinations, generating functions, recurrence relations, inclusion-exclusion counting. Polya’s theory of counting, other topics and applications.

580. **Pricing and Risk Management of Derivative Securities A** (3)
Prerequisite: Mathematics 544.
Theory of derivative securities with focus on stock-index and FX-options.

581. **Pricing and Risk Management of Derivative Securities B** (3)
Prerequisite: Mathematics 580.
Theory of derivative securities with focus on fixed income instruments.

596. **Advanced Topics in Mathematics** (1-4) I, II
Prerequisite: Consent of instructor.
Selected topics in classical and modern mathematical sciences. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

General

**GRADUATE COURSES**

623. **Linear Algebra and Matrix Theory** (3)
Prerequisite: Mathematics 524.
Characteristic and minimal polynomials, Cayley-Hamilton theorem, canonical forms, hermitian matrices, Sylvester’s law, norms, singular values, stability, non-negative matrices.

626. **Cryptography** (3)
Prerequisite: Mathematics 521A or 522.

627A. **Modern Algebra I** (3)
Prerequisite: Mathematics 521B.
Group theory, including isomorphism theorems, permutation groups, and simplicity of An, finite abelian groups, and Sylow theorems. Rings, ideals, principal ideal domains, and unique factorization. (Formerly numbered Mathematics 621, 624.)

627B. **Modern Algebra II** (3)
Prerequisite: Mathematics 627A.
Modules and the Wedderburn-Artin theorem, field extensions, splitting fields, Galois theory, finite fields, the fundamental theorem of algebra. (Formerly numbered Mathematics 622, 624.)

630A-630B. **Functions of a Real Variable** (3-3)
Prerequisites: Mathematics 524 and 534B. Mathematics 630A is prerequisite to Mathematics 630B.
Lebesgue measure and integration, metric spaces, Banach spaces, Hilbert spaces, spectral theory.

631A-631B. **Functions of a Complex Variable** (3-3)
Prerequisites: Mathematics 532 and 534B. Mathematics 631A is prerequisite to 631B.

637. **Theory of Ordinary Differential Equations** (3)
Prerequisites: Mathematics 531 or 537.
Existence, uniqueness, and continuation of solutions from an advanced standpoint. Linear systems and their stability and asymptotic behavior, regular and irregular singularities, and regular boundary value problems.

662. **Advanced Optimization Theory** (3)
Prerequisites: Mathematics 524 and 562.
Formulating the optimization problem and constructing proper models. Sequential optimization: linear programming, integer programming, dynamic programming, nonlinear programming. Duality theory and sensitivity analysis. Sample applications and numerical implementation.

663. **Methods of Applied Analysis** (3)
Prerequisite: Mathematics 534B.
Functional analysis with applications to applied mathematics. Metric and normed linear spaces, bounded and compact operators, inner product and Hilbert spaces, self-adjoint operators and orthogonal expansions.

667. **Mathematical Aspects of Systems Theory** (3)
Prerequisites: Mathematics 524 and 537.
Linear and nonlinear systems, nonlinear differential equations, equilibrium equations. Linearization, state transition matrix, stability theory, feedback control systems.

668. **Applied Fourier Analysis** (3)
Prerequisites: Mathematics 524, 534A; 532 or 534B.
Discrete and continuous Fourier transform methods with applications to statistics and communication systems.

693A. **Advanced Numerical Analysis** (3)
Prerequisites: Mathematics 524 and 542 or 543.

693B. **Advanced Numerical Analysis** (3)
Prerequisites: Mathematics 531, 537, and 693A.
**Mathematical and Computer Sciences**

**696. Selected Topics in Mathematical Sciences (3)**
Prerequisite: Graduate standing.
Intensive study in specific areas of mathematical sciences. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

**720. Seminar (1-3)**
Prerequisite: Consent of instructor.
An intensive study in advanced mathematics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

**797. Research (1-3) Cr/NC/SP**
Prerequisite: Six units of graduate level mathematics.
Research in one of the fields of mathematics. Maximum credit six units applicable to a master's degree.

**798. Special Study (1-3) Cr/NC/SP**
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.

**799A. Thesis or Project (3) Cr/NC/SP**
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree.

**799B. Thesis or Project Extension (0) Cr/NC**
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

---

**Mathematics Education Program**

**GRADUATE COURSES**

**600. Geometrical Systems (3)**
Prerequisites: Mathematics 521A and an upper division course in geometry.
Ordered and affine geometries, decompositions, dilations. Projectivities and projective space. Absolute geometry, isometries, groups generated by inversions.

**601. Topics in Algebra (3)**
Prerequisites: Mathematics 521A and 534A.
Unique factorization domains, rings and ideals, groups, algebraic field extensions. A course designed for secondary school teachers.

**602. Topics in Analysis (3)**
Prerequisites: Mathematics 521A and 534A.
Topics in analysis, including the real number system, convergence, continuity, differentiation, the Riemann-Stieltjes integral, complex analysis, designed to give the secondary teacher a broad understanding of the fundamental concepts.

Lisa L. Clement, Ph.D., Assistant Professor of Teacher Education
Victoria R. J acobs, Ph.D., Assistant Professor of Teacher Education
Joanne Lobato, Ph.D., Assistant Professor of Mathematical and Computer Sciences

General Information

The Department of Mathematical and Computer Sciences offers two specializations in its program of graduate study leading to a Master of Arts degree for teaching service. The specialization for community college teaching offers candidates a program designed to provide them with the mathematical breadth necessary to teach a wide variety of lower-division collegiate mathematics courses, while also providing them with a better understanding of the issues involved in teaching and learning mathematics. The specialization for secondary teaching offers coursework designed to strengthen the mathematical background of secondary teachers, to provide teachers with a deeper understanding of learning and teaching mathematics in grades 7-12, and to allow teachers the opportunity to analyze curriculum and evaluation efforts in a manner that can lead them to make reasoned judgments about curricular, testing, and instructional issues in grades 7-12 mathematics.
Courses described in this section may also be of interest to students seeking the Master of Arts degree in education with concentrations in elementary curriculum and instruction or secondary curriculum and instruction, offered by the School of Teacher Education.

**Associateships**
Graduate teaching associateships in mathematical sciences are available to qualified students. Support for qualified candidates may also be available through the School of Teacher Education, through the Center for Research in Mathematics and Science Education or through employment on faculty research grants. Applications are available from the appropriate campus offices.

**Admission to Graduate Study**
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

**Advancement to Candidacy**
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree for teaching service in the Department of Mathematical and Computer Sciences must have passed a qualifying examination in mathematics education.

**Specific Requirements for the Master of Arts Degree for Teaching Service in the Department of Mathematical and Computer Sciences**

(Major Code: 17011)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the students must complete a graduate program of at least 30 units, 24 of which must be from the Department of Mathematical and Computer Sciences. At least 15 of the 24 must be 600- and 700-numbered courses. A student’s program must be prepared in conference with and approved by the graduate adviser.

The two specializations leading to the Master of Arts for teaching service require completion of a specific pattern of graduate units described below.

**Specialization in Mathematics for Community College Teaching.** This specialization is designed to satisfy the requirements for teaching service at the community college level. Students must have completed a bachelor’s degree in mathematics (or equivalent) before entering the program and must have completed six units selected from Mathematics 521A, 524, and 534A. The third course can be taken prior to entrance to the program or as part of the 30-unit degree requirements.

**Plan A** requires Mathematics 600, 601, 602, and Mathematics Education 603; six units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; nine units of electives selected with the approval of the adviser; and Mathematics 799A, Thesis.

**Plan B** requires Mathematics 600, 601, 602, and Mathematics Education 603; nine units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; and nine units of electives selected with the approval of the adviser. In addition, students must pass a comprehensive examination in mathematics education.

**Specialization in Mathematics for Secondary Teaching.** This specialization is designed to strengthen the mathematical background of secondary teachers, while providing coursework to better understand the learning and teaching of mathematics in grades 7-12. Students should have the equivalent of a bachelor’s degree in mathematics before entering the program.

**Plan A** requires Mathematics 524; Mathematics Education 603; three units selected from Mathematics 510, 511, 512, or 600; three units selected from Mathematics 521A or 601; three units selected from Mathematics 534A or 602; six units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; six units of electives selected with the approval of the adviser; and Mathematics 799A, Thesis.

**Plan B** requires Mathematics 524; Mathematics Education 603; three units selected from Mathematics 510, 511, 512, or 600; three units selected from Mathematics 521A or 601; three units selected from Mathematics 534A or 602; nine units selected from Mathematics 509, 720, Mathematics Education 604, 605, 606; and six units of electives selected with the approval of the adviser. In addition, students must pass a comprehensive examination in mathematics education.
Doctoral Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program, being available for direction of research and as departmental members of joint doctoral committees.

San Diego State University:
Coordinator: Stephen K. Reed
Committee Members: Bezuk, Bowers, Branca, Fisher, Goldberg, Jacobs, Lobato, Marshall, Mason, McLeod, Philipp, J. Sourder, L. Sourder

University of California, San Diego:
Coordinator: Barbara Sawrey
Committee Members: Appelbaum, Batali, Case, Cole, Churchland, Harel, Jones, Magde, Manaster, Mehan, Rabin, Shenk, Smith, Wienshausen

Admission to Doctoral Study

Applicants for admission to the doctoral program in mathematics and science education must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. Applicants must also meet the special requirements of this program. These include: (a) either a strong baccalaureate degree in mathematics or science (or a related discipline) and a master’s degree, or its equivalent, in biology, chemistry, physics, or mathematics; or a strong baccalaureate degree in biology, chemistry, physics, or mathematics and professional experience in that field as a K-12 teacher; (b) a GPA of at least 3.25 in the last 30 semester (or 45 quarter) units of upper division work and at least a 3.5 in the graduate work attempted; (c) good standing in the last institution attended; (d) suitable scores in both the quantitative and verbal sections of the Graduate Record Examinations.

Application. Students seeking admission to the doctoral program should write directly to the Doctoral Program in Mathematics and Science Education, CRMSE, San Diego State University. A complete application requires that the following information be provided:

The appropriate application form, including a statement of purpose.
Transcripts of academic work already completed.
Results of the Graduate Record Examinations.
Three letters of recommendation (sent directly to the Doctoral Program Coordinator, Center for Research in Mathematics and Science Education (CRMSE), San Diego State University).

Specific Requirements for the Doctor of Philosophy Degree

Residency Requirements. After formal admission to the doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of San Diego State University and the University of California, San Diego.

Language Requirements. There is no formal language requirement for the program. If a student intends to pursue a course of study in which knowledge of another language is necessary, the Advisory Committees will impose the appropriate language requirement.

Course Requirements. All students admitted into the doctoral program will fulfill the following requirements. Any alternative method of fulfilling these requirements requires advanced written permission from program directors after consulting with faculty advisers.

A. Two core courses on research orientation at SDSU:
MSE 801
MSE 802

B. Core courses in Mathematics or Science Education:
UCSD: MSED 296A, 296B, 296C
SDSU: MTHED 603 or NSCI 600. Mathematics Education student must select two of the following additional courses:
SDSU: MTHED 604, 605, 606.

C. Three courses in statistics and research design. Select one of the following sequences:
UCSD: PSY 201A, 201B, 201C or
SDSU: PSY 570A, 570B or 770A, 770B, and one of the following courses:
SDSU: MSE 810 or UCSD: SOC/A 108A.

D. Two courses in cognitive psychology:
SDSU: PSY 587 or UCSD: PSYCH 218A.
One upper division or graduate UCSD cognitive science course.

E. Three research courses:
SDSU: MSE 820 or UCSD: MSED 298
SDSU: MSE 830
SDSU: MSE 899 or UCSD: MSED 299

F. At least one of the following courses at UCSD:
PHIL 124, 145, 146, 147, 209A; SOC/G 168J, 270

G. Two of the following practicum courses:
SDSU: MSE 805, 806, 807
UCSD: TEP 129A; Discipline 500

Beyond these requirements, no specified number of courses is required for the doctoral degree. It is expected, however, that all the doctoral students will supplement the requirements with electives that contribute to individual career objectives.

Examinations. Students in the doctoral program will be evaluated at the following levels:

1) First Year Evaluation. The student’s ability to master graduate level course material will be assessed after completion of a minimum of no more than 24 semester units of coursework. This evaluation will take place no later than the third semester of the student’s enrollment in the program. The evaluation will be based on the student’s performance in coursework and an indicated research competence, and it will be undertaken by the student’s advisory committee together with instructors from the student’s first year courses.

2) Comprehensive Examinations. At the end of the second year, the student will take a written comprehensive examination in general cognition and an oral examination on issues of learning pertinent to the student’s area of specialization.

3) Oral Examination. During the third year in the program, the student will make an oral presentation to the dissertation committee to accompany a written proposal for the doctoral
thesis. The student will be questioned on both the topic of the investigation and on the proposed research methodology. Upon successful completion of this presentation, the student will be recommended for advancement to candidacy for the doctoral degree.

(4) Dissertation Defense. After completion of the dissertation, the candidate will present a public defense of the doctoral dissertation. A copy of the dissertation must be made available to the doctoral faculty at both institutions four weeks prior to the defense. Copies of the abstract of the dissertation, along with the announcement of the defense, must be publicly available at least one week before the defense. The student’s dissertation committee will make a recommendation to the graduate deans to pass or fail the student.

Faculty Advisers. Upon admission to the doctoral program, the program directors will assign each student a faculty adviser at both universities. The faculty advisers will serve as advisers until the student’s dissertation committee is appointed.

Advisory Committee. Following the first-year evaluation, a doctoral adviser will be selected who will serve as primary adviser for the student’s program of study and for the dissertation study. The student and the doctoral adviser, in consultation with the program directors, will select one additional member from the cooperating faculty at each campus to serve on the advisory committee. In consultation with the student, the advisory committee will develop a course of study for the student. The advisory committee will be the official advising group for the student until a dissertation committee has been chosen and recommended to the Graduate Divisions of the two institutions by the advisory committee.

Dissertation Committee. The dissertation committee will be composed of five members with at least two faculty members from each campus. The student and the advisory committee will select members of the dissertation committee in consultation with program faculty and the program directors. Members of the student’s advisory committee may serve on the dissertation committee or new members may be selected by the student or the program directors.

Dissertation. Following the successful completion of all prescribed coursework and qualifying examinations, the major remaining requirement for the Ph.D. degree will be the satisfactory completion of a dissertation consisting of original research carried out under the guidance of the major professor. Approval of the completed dissertation attests that an organized investigation that expands the frontiers of knowledge and understanding in mathematics and science education has been carried out.

Award of the Degree. The Doctor of Philosophy degree in Mathematics and Science Education will be awarded jointly by the Regents of the University of California and the Trustees of The California State University in the names of both cooperating institutions.

Financial Support
San Diego State University and the University of California, San Diego have a number of research and teaching associate-ships available to support students admitted to the Joint Doctoral Program. All students applying to the program will be considered for financial support.

Courses Acceptable on the Master’s Degree Program in Mathematics Education

GRADUATE COURSES
IN MATHEMATICS EDUCATION

600. Teaching and Learning Mathematics in the Early Grades (Pre-K to 4) (3)
Prerequisites: Mathematics Education 603 or 604 or Teacher Education 610A and K-12 teaching experience.

601. Teaching and Learning Mathematics in the Middle Grades (3)
Prerequisites: Mathematics Education 604 or Teacher Education 610A and K-12 teaching experience.
Research on teaching and learning mathematics in grades five through eight. Innovative middle grades mathematics curricula, promising instructional practices. Assessment techniques to guide instructions.

602. Technology in Teaching and Learning Mathematics: Grades K-8 (3)
Prerequisites: Teacher Education 610A, Educational Technology 470, and K-12 teaching experience.
Research in use of technology in learning and teaching mathematics in grades K-8. Major focus devoted to use of applications. Other uses for technology addressed include simulations, communication, and calculational speed.

Courses Acceptable on the Master’s and Doctoral Degree Programs in Mathematics and Science Education

603. Seminar on Research in Mathematics Learning and Instruction (3)
Prerequisite: Consent of instructor or graduate adviser.
The learning and teaching of mathematics, with emphasis on applications of current psychological theories to mathematics learning, and research on mathematics teaching.

604. Seminar on Curriculum and Evaluation Issues in Mathematics (3)
Prerequisite: Consent of instructor or graduate adviser.
Curriculum projects in mathematics, and evaluation as it pertains to mathematics curricula, to programs, and to mathematics students and teachers.

605. Algebra in the 7-14 Curriculum (3)
Prerequisite: Consent of instructor or graduate adviser.
Curricular change in algebra, with attention to experimental curricula, to research on learning of algebra, and to influences of technology. Implications for instruction.

606. Geometry in 7-14 Curriculum (3)
Prerequisite: Consent of instructor or graduate adviser.
Curricular change in geometry, with attention to experimental curricula, to research on learning and teaching of geometry, and to influences of technology. Implications for instruction.
GRADUATE COURSES
IN MATHEMATICS AND SCIENCE EDUCATION

801. Faculty Research (1) Cr/NC
Prerequisite: Admission to doctoral program in Mathematics and Science Education.
Issues of learning with reference to how they are addressed by doctoral faculty. Students will interview and write a one-page statement of research interests for each of eight doctoral faculty members.

802. Orientation Practicum (1-3) Cr/NC
Prerequisite: Admission to doctoral program in Mathematics and Science Education.
Experience with research programs will introduce students to a variety of research questions and approaches. One research program per unit; minimum three units required in program.

805. Supervised Teaching of Teacher Preparation Courses (3) Cr/NC/SP
Prerequisite: Admission to doctoral program in Mathematics and Science Education.
Students will plan and teach, under supervision, a course that prepares prospective teachers to teach mathematics or science at either the elementary or secondary level.

806. Supervised School Practicum (3) Cr/NC/SP
Prerequisite: Admission to doctoral program in Mathematics and Science Education.
School-based project focusing on inservice of teachers or on curriculum development, or work with a school district administrator or mathematics or science.

807. Specially Designed Practicum (3) Cr/NC/SP
Prerequisite: Admission to doctoral program in Mathematics and Science Education.
Practical experience to assist students in gaining experience in career they have selected.

810. Seminar in Research Design (3)
Prerequisite: Admission to doctoral program in Mathematics and Science Education; Psychology 670A, and consent of instructor.
Issues such as analysis of protocols, problems of measurement in evaluation of learning, development, and assessment of cognitive models in learning in mathematics and science.

820. Research Project (3-6) Cr/NC/SP
Prerequisite: Admission to doctoral program in Mathematics and Science Education. Participation in an ongoing research project and development of a related study.

830. Research Seminar (3)
Prerequisite: Successful completion of qualifying examination. Students and faculty present ongoing research for discussion and critique.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Mathematics and Science Education 820. Independent investigation in general field of the dissertation.

898. Doctoral Special Study (1-8) Cr/NC/SP
Prerequisite: An officially constituted doctoral committee and advancement to candidacy.
Individual study in the field of specialization.

899. Doctoral Dissertation (3-15) Cr/NC/SP
Prerequisite: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.

For additional courses applicable to the Master of Arts degree for Teaching Service see:
Mathematics 600: Geometrical Systems
Mathematics 601: Topics in Algebra
Mathematics 602: Topics in Analysis

For additional courses related to mathematics education see:
Teacher Education 511: Diagnosis and Remediation of Difficulties in Mathematics
Teacher Education 610A: Seminar in Mathematics Education—Elementary School
Music
In the College of Professional Studies and Fine Arts

Faculty
Martin J. Chambers, M.M., Professor of Music, Director of School of Music and Dance
Frank W. Almond, Ph.D., Professor of Music
Brenton P. Dutton, M.M., Professor of Music
Karen J. Follingstad, D.M.A., Professor of Music
J. M. Kolar, Ph.D., Professor of Music
Marian Liebowitz, D.M.A., Professor of Music
Jack D. Logan, Ph.D., Professor of Music
Eddie S. Meadows, Ph.D., Professor of Music (Graduate Adviser)
Terry L. O’Donnell, D.M.A., Professor of Music
Lewis E. Peterman, Jr., Ph.D., Professor of Music
Thomas D. Stauffer, M.A., M.M., Professor of Music
David Ward-Steinman, D.M.A., Professor of Music
Bill Yeager, M.M., Professor of Music

Applied Music Instruction
Piano: Darby, Follingstad, Kolar
Harpsichord: Paul
Organ: Plimpton
Voice: Chambers, MacKenzie, Tweed, Westbrook
Flute: Payne
Oboe: Reed
Clarinet: Liebowitz
Saxophone: Hart-Jenkins, Rekevics
Early Instruments: Peterman
Bassoon: Simmons
French Horn: Cable, Lorge
Trumpet: Price
Trombone: Fellinger, Reusch, Yeager
Clarinet: Liebowitz
Flute: Payne
Organ: Plimpton
Voice: Chambers, MacKenzie, Tweed, Westbrook

Contrabass: G. Biggs
Harp: Hays
Classical Guitar: Benedetti, Kilmer, Romero
Composition: Dutton, Stauffer, Ward-Steinman
Non-Western Instruments: Specialists from specific cultures as available each semester
Jazz Studies: Helzer, Yeager
Opera: Evans-O’Connor

Scholarships
Information on music scholarships may be obtained by writing to the Chair, Music Scholarship Committee, School of Music and Dance, San Diego State University.

General Information
The School of Music and Dance offers graduate study leading to the Master of Arts degree in music and the Master of Music degree.

With approval of the school, students electing to pursue the Master of Arts degree may specialize in one of the following fields: composition; ethnomusicology; music history and literature; musicology; piano pedagogy and theory. Master of Music students may specialize in performance, composition, jazz and choral or instrumental conducting.

Specializations of the music faculty include:

Composition and theory: Aesthetics; comprehensive musicianship; contemporary music; relationships among the arts.

Conducting: Literature and score analysis, hand techniques, rehearsal techniques, general preparation and performance in both the choral and instrumental areas.

Ethnomusicology: African, African-American, American folk, East Asian, European, South Asian, and Southeast Asian musics. Students may elect research in other areas with approval of the faculty adviser.

Music history/literature, and musicology: With the approval of the faculty, students may select a topic in medieval, renaissance, baroque, classical, romantic, twentieth century music, or American music.

Performance: Performance studies are offered on all instruments.

Piano pedagogy: Techniques in training the piano teacher for the child, adolescent and adult.

The 78,000 square-foot music building, completed 1970, includes a 200-seat recital hall, rehearsal rooms for instrumental and choral organizations, an inter-active audio production studio, three class-piano rooms, a listening library with a collection of over 13,000 titles available for faculty/student study, 71 individual practice rooms, and approximately 160 pianos and 800 other musical instruments. The University library contains an extensive collection of over 75,000 music books and scores.

The School of Music and Dance has established a 24-station student computer laboratory. This lab provides facilities for computer assisted instruction in music theory and ear training, word processing programs for essays and term papers, programs for graphics and composing music, a program for a MIDI sequencer from an electric keyboard, and programs for printing music.

The inter-active audio production studio has been completely renovated and includes the latest electronic music equipment available.

The School of Music and Dance houses numerous ethnic instruments including Balinese and Javanese Gamelans and numerous other musical instruments of the world. The school’s holdings also include an extensive collection of early Western musical instruments.

The School of Music and Dance has the following scholarship funds and endowments: Nadine Bolles Piano, Elsie Hiland Fox Memorial, M. H. Golden Memorial, Lois Greeno Memorial,
Music

Joseph E. Johnson, Kiwanis Club, Lieber-Flower, Jan Lowenbach Musicology, Music Fund, Besse S. Purdy Memorial, Edith Savage Memorial, SDSU Opera Theatre, Sigma Alpha Iota Alumni, SPEBQSA, Christine Springston Memorial, Paul C. Stauffer Memorial, University Band, Marvin Yerkey Memorial.

Admission to Graduate Study in Music

1. As a part of the application for admission to the University, applicants will submit a one-page statement to set forth aims and goals in their graduate studies.
2. Applicants admitted to the program will be accepted with conditional graduate standing. Placement examinations will be administered in Western music history, Western music theory, and performance studies. Normally one semester will be allowed to remove deficiencies indicated by the examinations through no-credit remedial work in the form of undergraduate courses or other projects and instruction.

In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, students must satisfy the following requirements before they will be recommended for classified graduate standing:

1. Complete a bachelor’s degree with a major in music including full preparation in performance, theory, music history and literature, or hold a bachelor’s degree from an accredited institution and present sufficient evidence of study and experience in music to demonstrate the equivalency of a bachelor’s degree with a major in music.
2. Satisfactorily complete placement examinations in Western theory, Western music history and literature, and performance. Details may be obtained from the School of Music and Dance.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin, and must have removed any deficiencies assigned on the basis of the placement examinations.

Admission to Master of Arts Degree in Music

In addition to meeting the admission requirements listed above, students who seek a specialization in music history and literature, piano or vocal pedagogy must pass an audition on an instrument or voice. The Master of Arts degree in music is available with the following specializations: composition, ethnomusicology, music history and literature, musicology, music theory, and piano pedagogy.

Specific Requirements for the Master of Arts Degree

(Major Code: 10051)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a 30-unit graduate program of which at least 18 must be in 600- and 700-numbered courses and which includes the following core: Music 613, 652, and 690.

Plan A is required of those students electing programs in composition, music history and literature, theory, and musicology. Students are required to enroll in Music 799A, Thesis or Project, and to pass a final oral comprehensive examination on the thesis. Students whose field is composition will submit an original composition with analysis.

Students whose field is ethnomusicology or piano pedagogy may choose either Plan A or Plan B. Students in Plan B are required to enroll in Music 766, Graduate Lecture Recital. A final oral comprehensive examination and written document are required of all students electing Plan B.

Master of Arts candidates in ethnomusicology, music history and literature, and musicology must have a reading ability in an approved foreign language.

In addition to the requirements stated above, students must complete requirements in the selected specialization.

Composition

Core: Music 613, 652, 690.
Program: Music 507, 590; three additional units from 613; 651 (6 units), 660, 799A.
Electives: Two units.

Ethnomusicology

Core: Music 613H, 652H, 690.
Program: Music 561 (6 units), 610, 651 (6 units); 766 (Plan B) or 799A (Plan A).
Electives: Three units.

Music History and Literature

Core: Music 613, 652, 690.
Program: Music 554, 651 (4 units); nine units selected from 590, 613H, 652H, 660, 670; 799A.
Electives: Three units.

Musicology

Core: Music 613, 652, 690.
Program: Music 652H; three additional units from Music 652; nine units selected from Music 590, 613H, 660, 670; 799A.
Electives: Two units.

Music Theory

Core: Music 613, 652, 690.
Program: Six additional units selected from Music 613; nine units selected from Music 569-589 (1-4 units), 590, 592, 613H, 652H; 799A.
Electives: Three units.

Piano Pedagogy

Core: Music 613, 652, 690.
Program: Music 541A, 542A, 554G, 554H, 641 or 642, 651 (4 units); 766 (Plan B) or 799A (Plan A).
Electives: Two units.

Vocal Pedagogy

No new students are being admitted into this program.

Core: Music 613, 652, 690.
Program: Music 541C, 542C, 554, 651 (4 units); 766 (Plan B) or 799A (Plan A).
Electives: Seven units.

Refer to Music Graduate Student Handbook for further details.
Admission to Master of Music

In addition to meeting the admission requirements listed above, students who seek a performance specialization must pass an audition. Students seeking a composition specialization must submit musical scores of their original work. Those seeking a conducting specialization must submit evidence (programs, videotape) of their conducting expertise. The Master of Music is available with the following specializations: composition, instrumental conducting, instrumental and vocal performance and jazz studies. Please consult the School of Music and Dance for further information concerning admission.

Specific Requirements for the Master of Music Degree

(Major Code: 10041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a 30-unit graduate program, of which at least 18 must be in 600- and 700-numbered courses.

In order to be advanced to candidacy, students in Vocal Performance must satisfy either a music foreign language examination or attain a satisfactory grade in an introductory college level course in French, German and Italian. A final oral comprehensive examination is required for all Master of Music candidates.

In addition to the requirements stated above, students must complete requirements in the specific program selected:

Composition

Core: Music 613, 652, 690.
Program: Music 507; three additional units from Music 613; three additional units from Music 613, 652 or 660; 651 (9 units); 767.
Electives: Two units.

Conducting (Choral)

No new students are being admitted into this program.

Core: Music 613, 652, 690.
Program: Music 554E, 586 (2 units), 651 (9 units); 767.
Electives: Five units.

Conducting (Instrumental)

Core: Music 613, 652, 690.
Program: Music 554, 569-589 (2 units), 651 (9 units); 767.
Electives: Five units.

Jazz Studies

Core: Music 613, 652, 690.
Program: Music 651 (9 units), 767, six units selected from Music 507, 566A-566B, 570-589 (1-3 units), 590.
Electives: Three units.

Performance (Instrumental)

Core: Music 613, 652, 690.
Program: Music 554, 569-589 (3 units), 651 (9 units); 767.
Electives: Four units.

Performance (Vocal)

Core: Music 613, 652, 690.

Program: Music 554, 569-589 (3 units), 651 (9 units); 767.
Electives: Four units.

Refer to Music Graduate Student Handbook for further details.

Courses Acceptable on Master's Degree Programs in Music

UPPER DIVISION COURSES

507. Composition Laboratory (1)
Three hours of laboratory.
Prerequisites: Music 207 with a grade of C (2.0) or better and consent of instructor.
Continuation of Music 207. Maximum credit two units.

515. Professional Orientation for Music Performers (2)
One lecture and two hours of activity.
Prerequisites: Twelve units of upper division or graduate standing in B.M. or M.M. degree. Others by consent of instructor.
Conditions met in professional music world as well as opportunities available. Auditions, contracts, legal and tax responsibilities, media and press promotion, grants, professional management, apprenticeships.

541. Performance Studies Pedagogy (3)
Two lectures and three hours of laboratory.
Prerequisite: Consent of instructor.
Teaching beginning and intermediate applied music. Survey and evaluation of teaching materials. Observation of individual or group lessons.
A. Piano  C. Voice

542. Performance Studies Laboratory (2)
One lecture and three hours of laboratory.
Prerequisites: For 542A: Music 541A with a grade of C (2.0) or better. For 542C: Music 541C with a grade of C (2.0) or better.
Practical experience in the teaching of individual or group lessons.
A. Piano  C. Voice

543. Diction (1)
Principles of pronunciation and enunciation. Application to song and opera in English, Italian, German, and French.

554. Music Literature (2) I, II
Prerequisite: Music 205B with a grade of C (2.0) or better.
Study of literature in areas listed. Analysis of scores and recordings. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.
A. Chamber Music Literature
B. Orchestral Literature
C. Band Literature
D. Song Literature
E. Choral Literature
G. Keyboard Literature (Seventeenth Century through Beethoven)
H. Keyboard Literature (Schubert to the Present)
561. Area Studies: Ethnomusicology (3)
Prerequisite: Music 305B with a grade of C (2.0) or better. 
Music of a specific culture. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

566A-566B. Jazz Arranging and Composition (2-2)
Prerequisite: Music 305B with a grade of C (2.0) or better. 
Analysis of jazz compositions and arrangements; arranging and composing for large and small jazz ensembles.

569. Advanced Collegium Musicum (1) I, II
Prerequisite: Music 369.
Preparation and performance of representative works by a specific medieval or renaissance composer on historical instruments. May be repeated with new content. See Class Schedule for specific content. Maximum credit four units.

570. Advanced Chamber Music (1) I, II
Three hours.
Prerequisite: Consent of instructor.
Study and public performance of established repertory as well as new compositions. Sections for string, woodwind, brass, piano and mixed ensemble groups. May be repeated with new course content. See Class Schedule for specific content. Maximum credit four units.

576. Wind Symphony (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

580. Symphony Orchestra (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

584. Opera Theatre (2)
Six or more hours per week.
Prerequisite: By audition.
Interpretation and characterization of light and grand opera. Specific work in coordination of opera ensemble. Maximum credit eight units of which six units are applicable to a master's degree.

585. Concert Choir (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

586. Chamber Singers (1) I, II
Five hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal technique. Maximum credit four units.

589. Jazz Ensemble (1) I, II
Three hours.
Prerequisite: Consent of instructor.
Study and public performance of representative literature for the ensemble. Practical experience in rehearsal techniques. Maximum credit four units.

590. Advanced Practicum in Music (3)
Prerequisite: Consent of instructor in area of practicum.
Students will be assigned to appropriate class sections within selected undergraduate area as instructional assistants under staff supervision.

592. Analogs in Music, Art, and Literature (3)
Prerequisite: At least one survey course in music history or appreciation, art history, or comparative literature.
Cross-influences and correspondences in the arts from the standpoints of style, texture, rhythm, and form.

596. Special Topics in Music (1-3)
A specialized study of selected topics from the several areas of music. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

610. Seminar in Ethnomusicology (3)
Prerequisite: Completion of undergraduate comprehensive musicianship core.
Ethnomusicology with emphasis on its relationship to research, field work, transportation and analysis, classification of instruments and musical styles, and cultural context.

613. Seminar in Music Theory (3)
Prerequisite: Music 405B is prerequisite to 613H.
Current advanced analytic techniques in various areas of music.
A. History and Development of Music Theory
B. Problems in Analysis
C. Functional Harmony and Schenkerian Analysis
G. Conceptual Analysis of the Jazz Idiom
H. Ancient and Modern Notational Systems of the World

641. Piano Pedagogy: The Adolescent (3)
Two lectures and three hours of laboratory.
Prerequisite: Music 542A.
Study of music through the piano for the adolescent with analysis and application of appropriate teaching procedures and learning theories. Analysis of literature with corresponding techniques, musical skills and creativity. Supervised teaching.

642. Piano Pedagogy: The Adult (3)
Two lectures and three hours of laboratory.
Prerequisites: Music 541A and 542A.
Study of music for teaching the advanced teenager, college student or adult student. Analysis of solo and ensemble literature. Problem solving and practice. Supervised fieldwork.
651. Advanced Performance Studies (1-3)  
Fifteen one-half hour private lessons (1 unit); fifteen one-hour private lessons (2 units); twenty-two hours private lessons (3 units).  
Prerequisite: Audition before music faculty. Music 651B for one unit includes M.F.A. in drama studies.  
Advanced studies in technical, stylistic, and aesthetic elements of artistic performance culminating in a graduate recital. Maximum credit nine units, four to six of which are applicable to a master of arts degree. Music 651M will include regular ensemble conducting experience.

A. Keyboard  
B. Voice  
C. Woodwind  
D. Brass  
E. Percussion  
F. Strings  
G. Classic Guitar  
H. Harp  
I. Jazz Instrument  
J. Medieval/Renaissance  
K. Non-Western Instrument  
L. Composition  
M. Conducting

652. Seminar in Music History (3)  
Prerequisites: Music 408A and consent of instructor. Music 364A-364B are prerequisite to 652G. Music 405B is prerequisite to 652H.  
Seminars in music history are offered for intensive study in each of the historical eras as listed below.

A. Music of the Middle Ages and Renaissance  
B. Music of the Baroque Era  
C. Music of the Eighteenth and Nineteenth Centuries  
D. Twentieth Century Music  
E. American Music  
F. History of Jazz  
G. Interrelationships in World Music History

660. Seminar: A Major Composer (3)  
Prerequisite: Music 408A. Completion of a seminar in Music 652 is recommended.  
The life, milieu, and works of a major composer, such as Bach, Mozart or Schubert will be studied. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

670. Seminar: Interpretation of Early Music (3)  
Prerequisites: Completion of Music 652A and 652B is recommended.  
Performance practice in Medieval, Renaissance and Baroque music; projects in music editing; reports; performance on historical instruments. Participation in the Collegium Musicum required.

690. Seminar in Research Procedures in Music (3)  
Reference materials, bibliography, investigation of current research in music, processes of thesis topic selection and techniques of scholarly writing.

696. Special Topics in Music (1-3)  
Prerequisite: Graduate standing.  
Intensive study in specific areas of music. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

766. Graduate Lecture Recital (3) Cr/NC  
Prerequisites: Advancement to candidacy. Consent of school director.  
For students in M.A. in Music, Plan B. Lecture and recital program for at least one hour in length based upon a written document dealing with a musical problem in history, theory, pedagogy or ethnomusicology showing evidence of original research. Public presentation and an examination before a graduate committee of music faculty.

767. Graduate Recital (3) Cr/NC  
Prerequisites: Advancement to candidacy. Consent of school director.  
Selection of literature for recital program of at least one hour in length; theoretical analysis and historical study of scores chosen; preparation and public performance; and examination before a graduate committee of music department faculty. Conductors must conduct a public performance.

798. Special Study (1-3) Cr/NC/SP  
Prerequisite: Consent of staff; to be arranged with school director and instructor.  
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP  
Prerequisites: An officially appointed thesis committee and advancement to candidacy.  
Preparation of a project or thesis for a master’s degree.

799B. Thesis or Project Extension (0) Cr/NC  
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.  
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis or project is granted final approval.
Program Coordinator: Phoebe E. Roeder, Ph.D.

Faculty
Kathleen M. Fisher, Ph.D., Professor of Biology
Fred M. Goldberg, Ph.D., Professor of Physics

General Information
The Natural Science program offers advanced coursework in natural science and science education. Graduate courses in natural science and science education may be used to fulfill requirements for advanced degrees in other departments with the approval of the student’s graduate adviser. For information on master’s and doctoral programs see Mathematics and Science Education.

UPPER DIVISION COURSE

596. Special Topics in Natural Science (1-4) I, II, S
Prerequisite: Minimum ten units of natural science.
Selected topics in natural science for preservice and inservice elementary and secondary teachers and candidates for the M.A. in education. May be repeated with consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Seminar in Science Education (3)
An intensive study in advanced science education. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with coordinator and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.
Nursing
In the College of Health and Human Services

Kay R. Gilbert, Ph.D., Assistant Professor of Nursing
Jane A. Rapps, D.N.Sc., Assistant Professor of Nursing

General Information
The School of Nursing offers a two-year graduate curriculum leading to the Master of Science degree in nursing. Graduates of the program will be prepared to function as middle or executive-level nursing administrators, school nurses, nurse midwives and/or nurse practitioners. There are three concentrations: Community Health Nursing, Advanced Practice Nursing of Adults and the Elderly, and Nursing Systems Administration. Students in the Community Health Nursing Concentration may specialize in Midwifery and OB/GYN Nurse Practitioner, Family Nurse Practitioner, or School Nursing. Students in Advanced Practice Nursing of Adults and the Elderly are prepared as adult/geriatric nurse practitioners and clinical nurse specialists and may specialize in Acute Care/Critical Care. The graduate program requires a minimum of 39 units. The program is designed for either full- or part-time study. All graduates of the program are prepared for beginning roles as nurse researchers and for further educational opportunities in doctoral studies.

A multitude of research opportunities are available to students in the program. The School of Nursing has clinical contracts with all of the leading research and clinical teaching health care agencies within the county. Furthermore, all graduate faculty are doctoral prepared, and students may have the opportunity to be involved in ongoing faculty research projects.

Application for Admission
Application materials to obtain tentative admission to the program leading to the Master of Science degree in nursing can be obtained by writing directly to the School of Nursing. Detailed instructions including information concerning application procedures will accompany the application form. Students for the Family Nurse Practitioner and the Midwife and OB/GYN Nurse Practitioner, and Advanced Practice Nursing of Adults and Elderly programs are admitted for fall semester only and applications must be received by January 15 for fall admission. Students for all other programs are admitted in the fall and spring semesters of each year. All applicants must file an Application for Admission to the San Diego State University Office of Admissions and Records and to the School of Nursing.

Admission to Graduate Study
In addition to the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for admission to a program with classified standing:

1. Have a baccalaureate degree with a major in nursing from a program accredited by the National League for Nursing. Graduates from baccalaureate programs not having an upper division major in nursing or who have deficiencies will be considered on an individual basis and may be required to enroll in designated undergraduate courses and graduate courses beyond the minimum units necessary for advanced degrees.
2. Have a minimum cumulative grade point average of 3.0 on a 4.0 scale in undergraduate upper division courses.
3. Must have satisfactory score on GRE General Test.
4. Have a California license to practice registered nursing.
5. Have a minimum of one year full-time nursing experience in a hospital, ambulatory care facility, or public health agency. For Midwife and OB/GYN Nurse Practitioner applicants, the experience must be in labor and delivery. For the Advanced Practice Nursing of Adults and Elderly, three years of related experience is highly recommended.
Science Degree

Specific Requirements for the Master of Science Degree (Major Code: 12031)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree, as described in Part Two of this bulletin, the student must complete an officially approved 39-54.06 unit course of study. The program includes:

1. Twelve units of core courses to include Nursing 602, 604, 608, and 684 with a minimum grade point average of 3.0, and no less than a B– grade in each of the four core courses, and be recommended by the graduate faculty.

6. Have satisfactorily completed Nursing 500, Advanced Health Assessment and Health Promotion, or equivalent physical assessment in undergraduate program with a grade of C or better. (N.S.A. students are exempt from this requirement). Students in the School Nursing Specialization must also have satisfactorily completed Communicable Disorders 540, Hearing Conservation and Audiometry for School Nurses.

7. Have satisfactorily completed a course in statistics. (Statistics 250 or equivalent with a grade of C or better.)

8. Submit three letters of recommendation attesting to capability to do graduate work in nursing.

Conditional Admission

Students who do not satisfy all admission requirements to the School of Nursing may, with special consideration, be admitted in a conditionally classified graduate standing. At the deadline date specified on the conditional form (at time of acceptance), the faculty of the School of Nursing shall recommend to the graduate dean that the student:

1. Be disqualified from further study in the program, or
2. Be continued in conditionally classified status, or
3. Be granted full graduate classified standing.

Special Instructions

Students enrolled in the graduate program in nursing are required to provide their own professional liability insurance (minimum $1,000,000) and transportation to off-campus health care agencies.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students must satisfactorily complete all four core courses (Nursing 602, 604, 608, and 684) with a minimum grade point average of 3.0, and no less than a B– grade in each of the four core courses, and be recommended by the graduate faculty.

School Nurse Credential

(Credential Code: 00600)

San Diego State University offers curricula leading to the School Nurse Credential. This authorizes the holder to serve as a school nurse. For information concerning the credential, the student is referred to the School of Nursing office, HT-58.

The School Nurse Credential has been approved by the Commission on Teacher Credentialing.

All applicants seeking admission to the School Nurse Credential program must be admitted to the University and accepted as a classified postbaccalaureate student. Satisfactory completion of the program requires an overall GPA of 3.0 with individual course grades above 2.0.

Standards for Admission

1. Baccalaureate degree in nursing or related field (including community health nursing).
2. Current California Registered Nurse License.
3. Required admission and planning interview with program adviser.
4. Have a minimum cumulative grade point average of 3.0 on a 4.0 scale in undergraduate upper division courses.
5. One year experience as a registered nurse within five years of application.

Program

The following program elements are required of all health services credential candidates: (31 units).

NURS 500 Advanced Health Assessment and Health Promotion .................................................4
NURS 670 School Nursing Management Practices ..............................................................3
NURS 672 Primary Health Care of the School-Aged Child ..................................................3
NURS 674 Health Education for School Nurses .................................................................3
NURS 900 Current Concepts in Community Health Nursing ....................................................3
NURS 901 Family Health Theory and Nursing Practice ..................................................3
NURS 902 Primary Health Care School-Aged Child Practicum .................................................3
C DIS 540 Hearing Conservation and Audiometry for School Nurses ........................................3
SPED 500 Human Exceptionality ..................................................3
Electives: Three units to be selected with approval of adviser.

Courses Acceptable on Master’s Degree Programs in Nursing

UPPER DIVISION COURSES

500. Advanced Health Assessment and Health Promotion (4)

Three lectures and three hours of laboratory.
Prerequisite: Consent of graduate adviser.
Physical and psychosocial assessment techniques, health promotion strategies for select populations.

590. Pathophysiology in Adults and the Elderly (3)

Prerequisite: Consent of graduate adviser.
Physiologic alterations associated with acute and chronic illness in adults and the elderly as a basis for primary prevention and medical and nursing interventions.
596. Special Topics in Nursing (1-3)
Prerequisites: Completion of 30 upper division units in nursing or graduate status; 3.0 grade point average.
Selected topics in the practice of nursing. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

602. Issues, Ethics, and Politics in Health Care (3)
Current and evolving health care issues and policies. Ethical, political, and social forces underlying delivery of health care. Focus on professional nursing.

604. Theoretical and Research Bases of Nursing (3)
Integration of theory and research in nursing. Focus on theory, development, testing, and evaluation. Research process in nursing, including design, analysis, and utilization.

608. Nursing in the Health Care System (3)
Nursing in a changing health care delivery system. Organizational, economic, political, and professional concepts relevant to design and delivery of nursing care.

620. Foundations of Nursing Administration Practice (3)
Analysis of communication concepts appropriate to a variety of complex nursing and health care delivery systems.

622. Quality Improvement and Program Evaluation in Nursing Systems Organizations (3)
Evaluation theories and concepts within a nursing care delivery system and health care organization. Concepts of quality management, consistent with accreditation criteria and professional standards of practice.

624. Nursing Care Systems and Personnel Management (3)
Prerequisites: Credit or concurrent registration in Nursing 604 and 608. Issues related to personnel resources, staff development, staff utilization and collective bargaining in health care agencies and nursing care systems.

630. Community Health Nursing Theory (3)
Prerequisite: Nursing 604. Family and systems theory, group dynamics, change process, application of ethnoscience to nursing process in the community setting.

631. Community Health Nursing Practicum (3)
Nine hours per week. Prerequisite: Concurrent registration in Nursing 630. Experience working with individuals and families of a selected community group applying theoretical knowledge within framework of nursing process.

634. Physiology of Pregnancy and Fetal Development (3)
Prerequisites: Nursing 602 and 604. Analysis of physiologic alterations during pregnancy and fetal development as a basis for advanced health assessment and interventions in the childbearing population.

654. Advanced Practice Nursing: Primary Care I (3)
Prerequisites: Nursing 500, 590, 604, 608. Credit or concurrent registration in Nursing 602, 658, 684. Concurrent registration in Nursing 655.
Primary care management of adults and elderly with acute and chronic health problems. Role of advanced practice nursing in health promotion and treatment of illness in primary care and specialized settings.

655. Advanced Practice Nursing: Primary Care Practicum I (6)
Eighteen hours of laboratory per week. Prerequisite: Concurrent registration in Nursing 654. Supervised clinical experiences providing primary care to adults and elderly in diverse clinical settings.

656. Advanced Practice Nursing: Primary Care II (3)
Prerequisites: Nursing 654 and 655. Concurrent registration in Nursing 657. Primary care management of adults and elderly with acute and chronic health problems. Contemporary role and psychosocial issues in advanced practice nursing of adults and elderly.

657. Advanced Practice Nursing: Primary Care Practicum II (6)
Eighteen hours of laboratory per week. Prerequisites: Nursing 654 and 655. Concurrent registration in Nursing 656. Supervised clinical experiences providing primary care to adults and elderly in diverse clinical settings.

658. Clinical Pharmacology for Advanced Practice Nursing (2)
Prerequisites: Credit or concurrent registration in Nursing 500 and 590. Pharmacologic knowledge and skills needed to manage drug therapy in various clinical settings. Emphasis on factors affecting drug selection; parameters to be monitored to determine drug effectiveness; rationale for continuing, modifying or discontinuing drug therapy.

670. School Nursing Management Practices (3)
Prerequisite: Admission to master’s degree program in nursing or health services credential. Management of school health services program; designed for school nurse with emphasis on professional and organizational systems.

672. Primary Health Care of the School Aged Child (3)
Prerequisite: Nursing 500. Primary health care of the child and adolescent with emphasis on common health problems, chronic illness, drugs, behavioral problems, and the battered child.

674. Health Education for School Nurses (3)
Prerequisite: Nursing 672. Prepares school nurse to be an active participant in school health education with emphasis on planning and presentation of health instructional material focused on disease prevention and health promotion.
684. Information Systems for Nursing (3)
   Two lectures and three hours of laboratory.
   Information systems and information management in all aspects of nursing practice including client care, administration, research and education. Ethics of computer use and influence of information technology on client care. User skills.

696. Seminar in Selected Topics in Nursing (1-3)
   Intensive study in specific areas of nursing. May be repeated with new content. See Class Schedule for specific content. Maximum credit three units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

724. Nursing Systems Administration Practicum (3)
   Nine hours of laboratory.
   Prerequisites: Nursing 622 and concurrent registration in Nursing 624.
   Provides observation and guided administrative experience specific to the role and function of the first level nurse manager in a selected health care system. Needs and individual objectives of the student are integrated into the experience.

726. Advanced Nursing Systems Administration Practicum (3)
   Nine hours of laboratory.
   Prerequisite: Nursing 724.
   Provides observation and guided administrative experience specific to the role and function of the executive level manager in a selected health care system. Individual needs and objectives of the student are integrated into the experience.

730. Advanced Community Health Nursing (3)
   Prerequisite: Nursing 630.
   Nursing assessment and analysis of community characteristics, including social, cultural and economic factors. Design of programs which meet the needs of particular ethnic groups and health aggregates for health promotion and disease prevention.

732. Advanced Community Health Nursing Practicum (3)
   Prerequisite: Concurrent registration in Nursing 730.
   Leadership role and planning function of a community health nurse specialist in a selected community setting.

736. Seminar in Community Health Problems (3)
   Prerequisite: Advancement to candidacy in health related disciplines.
   Interdisciplinary analysis of community based health practice problems.

751. Advanced Practice Nursing: Acute/Critical Care Theory and Technology (3)
   Prerequisites: Nursing 656 and 657. Concurrent registration in Nursing 753.
   Role of advanced practice nurse in acute/critical care settings. Problems and interventions with acutely and critically ill adults and elderly. Emphasis on research-based interventions, psychosocial responses, standards of practice, expanding technologies, and continuation of care to the home.

753. Advanced Practice Nursing: Acute and Critical Care Practicum (3)
   Nine hours of laboratory.
   Prerequisite: Concurrent registration in Nursing 751. Care management activities of acute and critical care advanced practice nurse: research-based care of select adult and elderly clients and families; consultation in coordination of client care; interdisciplinary collaboration; evaluation of care based on standards of practice.

797. Research (1-3) Cr/NC/SP
   Prerequisite: Advancement to candidacy.
   Independent research in a specialized subject. Maximum six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
   Prerequisite: Consent of instructor.
   Independent study. Maximum credit six units applicable to a master’s degree. For students using Plan B, Comprehensive Examination is limited to three units.

799A. Thesis (3) Cr/NC/SP
   Prerequisite: An officially appointed thesis committee and advancement to candidacy.
   Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
   Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
   Registration required in any semester or term following assignment of SP in Course 799A, in which the student expects to use the facilities and resources of the University. Also student must be registered in the course when the completed thesis is granted final approval.

900. Current Concepts in Community Health Nursing (3)
   Prerequisite: Consent of instructor.
   Contemporary roles of community health nurse. Appropriate use of community resources for program development, strategies for interagency communication, networking, ethnic issues, family and systems theory, and major stressors affecting school community and families of the school-aged child and adolescent.

901. Family Health Theory and Nursing Practice (3)
   Prerequisite: Admission to health services credential program and Nursing 900.
   Nursing interventions within the school setting for complex families with school-aged children and adolescents.

902. Primary Health Care of School-Aged Child Practicum (3)
   Twelve hours of practicum.
   Prerequisites: Nursing 500 and 672.
   Application of theory to a select population of school-aged children and adolescents. Provides direct experience in clinical nursing management of common health problems and developmental disabilities.
Preprofessional Practice Program in Dietetics (AP4) is approved by the American Dietetic Association.

Faculty
B. Robert Carlson, Ph.D., Professor of Exercise and Nutritional Sciences, Chair of Department
Ronald V. Josephson, Ph.D., Professor of Exercise and Nutritional Sciences
Patricia Patterson, Ph.D., Professor of Exercise and Nutritional Sciences (Graduate Adviser)
Audrey A. Spindler, Ph.D., R.D., Professor of Exercise and Nutritional Sciences
Donna L. Beshgetoor, Ph.D., Assistant Professor of Exercise and Nutritional Sciences
Mark J. Kern, Ph.D., Assistant Professor of Exercise and Nutritional Sciences

Associateships and Assistantships
Graduate teaching associateships and graduate assistantships in nutritional sciences are available to a limited number of qualified students by the Department of Exercise and Nutritional Sciences. The graduate assistants primarily aid instruction of the upper division, undergraduate laboratory courses, and facilitate faculty research efforts. Application forms and additional information may be obtained from the Department of Exercise and Nutritional Sciences.

General Information
The Department of Exercise and Nutritional Sciences offers graduate study leading to the Master of Science degree in nutritional sciences and a concurrent graduate program leading to a Master of Science degree in nutritional science and M.S. degree in exercise physiology.

Master of Science Degree in Nutritional Sciences
General Information
For information regarding graduate coursework and research experience leading to a Master of Science degree in nutritional sciences, contact the adviser in the Department of Exercise and Nutritional Sciences. The general program of study may include coursework in nutrition or food science. Thesis research in nutrition may be conducted using human subjects or experimental animals. Research activity of the faculty currently includes: nutritional status of children, elders, and ethnic groups; metabolic studies on cholesterol and energy balance; and factors affecting human lactation, body composition and obesity, athletic performance and fitness, composition of human milk and composition and stability of foods. Laboratories, including animal facilities and equipment, at SDSU support research conducted under the direct supervision of the nutritional sciences graduate faculty. In addition, students may conduct research at other facilities in the community in conjunction with collaborative studies pursued by nutritional sciences faculty and researchers at other institutions in San Diego.

Graduates with the M.S. degree in nutritional sciences are employed as clinical and administrative dietitians, administrators or service providers of community nutrition programs, food service supervisors, and community college educators, as well as, in administrative, research, or quality control positions within industry and government.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the university with classified graduate standing as described in Part Two of this bulletin. In addition, students must have bachelor’s degrees in foods and nutrition or related fields and satisfy the prerequisites of the courses selected. A course in computer and data processing (e.g., NUTR 207 or equivalent) taken as a part of the student’s undergraduate work or demonstrated proof of competency in computers and data processing, as approved by the graduate adviser, is required as a prerequisite to taking program coursework. If students’ undergraduate preparation is deemed insufficient, students will be required to complete specified courses in addition to the minimum requirement of 30 units for the master’s degree in nutritional sciences. Students must have a grade point average of 3.0 in the last 60 semester units attempted, and a minimum score of 950 and not less than 450 on either verbal or quantitative sections of the GRE General Test. Applicants must submit letters stating reasons for choosing graduate work at San Diego State University, professional goals, special interests in the discipline, and background preparation. Students must be recommended for admission by faculty of the Department of Exercise and Nutritional Sciences and approved by the Dean of the Graduate Division and Research.

Students will be admitted ONLY in the fall semester. Submit applications no later than April 1.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin, have identified a thesis or project research adviser, taken Exercise and Nutritional Sciences 601 and 602, with a grade of B or better, and have had their research proposals approved by their committees.
Specific Requirements for the Master of Science Degree

(Major Code: 13061)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units including at least 21 units from courses listed as acceptable to the master's degree program in nutritional sciences. At least 18 units must be in 600- and 700-numbered courses. A final oral examination on the field of the thesis and on the implications of the thesis research for the broader field of nutritional science is also required.

Required courses include six units selected from Nutrition 606, 607, 608, 610; either Nutrition 600 or 700; and Exercise and Nutritional Sciences 601 and 602. All course selections for the graduate program must be approved by the graduate adviser.

In Plan A, all students will include Nutrition 799A, Thesis.

The dietetic internship, a post-baccalaureate certificate program, administered by SDSU’s College of Extended Studies in collaboration with the Department of Exercise and Nutritional Sciences, is accredited by the American Dietetic Association (ADA) and provides the supervised practice hours required to meet the performance criteria of entry-level dietitians. Those who successfully complete this program will be eligible to sit for the ADA Registration Examination – the third and final step towards becoming a Registered Dietitian, and an active member of ADA.

Students in the dietetic internship program may concurrently pursue the M.S. degree program in Nutritional Sciences at SDSU, but they must apply separately for admission to that degree program.

The department expects a student to complete the degree within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Master of Science Degree in Nutritional Science and Master of Science Degree in Exercise Physiology

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the concurrent program in nutritional science and exercise physiology must meet the following requirements.

1. A grade point average (GPA) of at least 3.0 in the last 60 units of coursework.
2. A bachelor's degree in foods and nutrition, exercise science, kinesiology, physical education, or related fields. Students will be required to complete or have equivalent preparation in Biology 212, 336, Chemistry 100, 130, 160, Nutrition 302, 302L, and either Nutrition 204 or 311, and Exercise and Nutritional Sciences 303, 304, 314, and an undergraduate statistics course.

3. A minimum score of 475 on each of the verbal and quantitative sections of the GRE General Test.

Students will be admitted ONLY in the fall semester. Submit applications no later than April 1.

Advancement to Candidacy

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science in Nutritional Science and Master of Science in Exercise Physiology

(Major Code: 08356)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 48 units as outlined below.

ENS 601 Experimental Methods in Exercise and Nutritional Science (3)
ENS 602 Research Evaluation in Exercise and Nutritional Science (3)
ENS 632 Physiological Chemistry of Exercise (3)
ENS 659 Exercise Cardiology and Pathology (3)
ENS 661 Seminar in Advanced Physiology of Exercise (3)
ENS 662 Advanced Exercise Physiology Laboratory (3)
ENS 666 Adult Fitness: Exercise Prescription (3)
ENS 668 Adult Fitness: Exercise Leadership and Administration (3)
ENS 796 Exercise Specialist Internship (3) Cr/NC
ENS 798 Special Study (2) Cr/NC/SP
NUTR 600 Seminar: Foods and Nutrition (3)
NUTR 607 Child Nutrition (3)
NUTR 608 Geriatric Nutrition (3)
NUTR 610 Nutrition and Energy (3)
NUTR 700 Seminar in Nutrition (3)
NUTR 798 Special Study (1) Cr/NC/SP
ENS 799A Thesis (3) Cr/NC/SP
OR
NUTR 799A

If a student, after entering the concurrent program leading to a Master of Science degree in nutritional science and a Master of Science degree in exercise physiology returns to a single degree program, all the requirements for the single degree program must then be met. A final oral examination in the field of the thesis and its implications to the broader fields of nutritional science and exercise physiology is also required.

The department expects the student to complete the degree requirements within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.
Courses Acceptable on Master’s Degree Programs

**UPPER DIVISION COURSES**

**Nutrition Courses**

510. Nutrition and Community Health (3) I, II
Two lectures and three hours of activity.
Prerequisites: Nutrition 302 and 302L.
Nutritional problems in the community with consideration of their resolution. Field placement experience required.

596. Advanced Studies in Nutrition (1-6)
Prerequisite: Nine upper division units in nutrition.
Advanced study of selected topics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of nine units of 596. No more than six units of 596 may be applied to either the bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

**GRADUATE COURSES**

**Nutrition Courses**

600. Seminar: Foods and Nutrition (3)
Prerequisites: Nutrition 301 and 302.
Introductory seminar of research and research publications in foods and nutrition.

606. Physiological Bases of Diet Therapy (3)
Prerequisite: Nutrition 406. Recommended: Chemistry 361B or 560B.
Dietary modifications, adjunct to medical treatment, used to prevent and alleviate the biochemical and physiological symptoms of disease.

607. Child Nutrition (3)
Prerequisite: Nutrition 302.
Nutrition, health, and biochemical growth in children. Conditions leading to malnutrition, prevention, and correction.

608. Geriatric Nutrition (3)
Prerequisite: Nutrition 302.
Biomedical and psychosocial aspects of aging that affect food habits, nutritional status, and nutrient needs of elders.

610. Nutrition and Energy (3)
Prerequisites: Nutrition 302 and 309.
Methods for measurement of energy intake and expenditure assessment, factors which control food intake and energy expenditure, and examination of normal and specialized needs of energy requirements.

700. Seminar in Nutrition (3)
Prerequisite: Nutrition 302.
Reading and analyses of basic and applied research in nutrition.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with the instructor and approval of graduate program adviser.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University, also student must be registered in the course when the completed thesis is granted final approval.

**Exercise and Nutritional Sciences Courses**

601. Experimental Methods in Exercise and Nutritional Sciences (3)

602. Research Evaluation in Exercise and Nutritional Sciences (3)
Faculty Committee for Marine Studies
Clive E. Dorman, Ph.D., Professor of Geological Sciences, Director of Coastal and Marine Institute
Richard M. Gersberg, Ph.D., Professor of Public Health

General Information
San Diego State University provides preparation for ocean-oriented careers by offering marine-related coursework, research opportunities and oceanographic experience within regular degree programs in the Departments of Biology, Chemistry, Economics, Civil and Environmental Engineering, Mechanical Engineering, Geography, Geological Sciences, and the Graduate School of Public Health. Degrees in general oceanography or marine studies are not offered by the University. However, a Master of Arts or Master of Science degree may be earned as an Interdisciplinary Studies major (see the appropriate section in this bulletin).

Specific courses in oceanography (listed below) are offered with the cooperation of faculty from the participating departments. Advanced coursework and research in geological and physical oceanography are conducted in the Geological Sciences Department. Advanced courses and research in biological oceanography, marine biology, marine botany, and marine zoology are in the Department of Biology. The major areas of research under the joint doctoral program in ecology include coastal marine ecology, estuarine ecology and aquaculture. The Graduate School of Public Health also offers a Master of Science degree with a concentration in Environmental Health Science and a concentration in Toxicology with focus on water and soil contamination and management of hazardous wastes. Marine-related coursework and research are offered in the Departments of Economics, Geography and in the College of Engineering. Students who require advising in these areas should inquire at the Coastal and Marine Institute or the appropriate department.

The Coastal and Marine Institute coordinates work in the area of marine studies and provides special supporting services to the faculty, staff, and students which includes student advising, assistance in research and publication, and a boat operations and research diving program. The Director of the Coastal and Marine Institute reports to the Dean of the College of Sciences. The University also operates the Pacific Estuarine Research Laboratory for the study of estuarine and wetland ecology. (See the General Information section of this bulletin.)

UPPER DIVISION COURSES
Oceanography Courses

541. Oceanography (3)
Prerequisites: Biology 201, 202; Mathematics 121 and 122 or 150; Physics 180A or 195.
Multidisciplinary examination of physical, chemical, biological and geological aspects of marine environment and relationship of humans with the sea. Intended for science majors only.

561. Deep Sea Oceanography (3)
Prerequisites: Biology 515 and Chemistry 365.
Concepts of deep sea oceanography including abyssal biology, physics and chemistry, instruments and methods of deep sea research, biogeochemistry of oceanic ridges, and high-pressure biochemistry.

Biology Courses (Adviser: S. Williams)
513. Marine Microbiology (2)
515. Marine Invertebrate Biology (4)
517. Marine Ecology (4)
519. Aquaculture (3)
520. Ichthyology (4)

Economics Course (Adviser: Adler)
696. Experimental Topics (3)*

Civil and Environmental Engineering Courses (Adviser: Noorany)
632. Computational Hydraulics and Hydrology (3)
641. Advanced Foundation Engineering (3)

Geography Courses (Adviser: Stow)
504. Coastal and Submarine Physiography (3)
508. Environmental Climatology (3)
588. Intermediate Remote Sensing of Environment (4)
670. Environmental and Resource Conservation Theory (3)
770. Seminar in Environmental and Resource Conservation (3)

Geological Sciences Courses (Adviser: Dorman)
540. Marine Geology (3)
545. Descriptive Physical Oceanography (3)
615. Geology of Clays (3)
625. Paleocology (3)
640. Geotectonics (3)
680. Sedimentary Geochemistry (3)

Public Health Courses (Adviser: Gersberg)
634. Environmental Protection (3)
637. Biological Mechanisms of Environmental Toxicants (3)
639. Water Quality Investigation (3)

* Acceptable when of relevant content.
Faculty
Leon Rosenstein, Ph.D., Professor of Philosophy, Chair of Department
Andrew L. Feenberg, Ph.D., Professor of Philosophy
Stephen L. Weber, Ph.D., Professor of Philosophy, University President
Thomas S. Weston, Ph.D., Professor of Philosophy
Deborah G. Chaffin, Ph.D., Associate Professor of Philosophy
J. Angelo Corlett, Ph.D., Assistant Professor of Philosophy
Steven L. Barbone, Ph.D., Assistant Professor of Philosophy, (Graduate Adviser)
Eugene A. Troxell, Ph.D., Associate Professor of Philosophy
Robert M. Francescotti, Ph.D., Assistant Professor of Philosophy
Mark R. Wheeler, Ph.D., Assistant Professor of Philosophy

General Information
The Department of Philosophy offers a program of graduate studies leading to the Master of Arts degree in philosophy. This curriculum is designed to provide advanced study in the field of philosophy as a basis for further graduate work and to meet the needs of students who plan to teach in colleges or hold other positions of leadership.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. Students may be considered for admission to the graduate program in philosophy in one of two ways.
1. Admission with classified graduate standing requires:
   a. An undergraduate major in philosophy or a minimum of 24 units of upper division work in philosophy.
   b. A minimum grade point average of 3.0 in upper division work in philosophy.
2. Admission with conditional classified graduate standing requires:
   a. Twelve units of upper division work in philosophy.
   b. A minimum grade point average of 3.0 in upper division work in philosophy.

Students admitted with a grade point average below 2.0 acquire classified graduate standing by completing sufficient units of upper division work in philosophy to yield a total, with previous work, of at least 24 such units. Units earned to complete this undergraduate requirement do not fulfill unit requirements for the master’s degree. A minimum grade point average of 3.0 is required for all units attempted after admission.

Students admitted to satisfy requirements for a major do not fulfill unit requirements for the master’s degree. Other units may fulfill such requirements if earned in courses acceptable on master’s degree programs in philosophy.

Advancement to Candidacy
All students must meet the general requirements for advancement to candidacy as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree
(Major Code: 15091)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a program of at least 30 units of upper division and graduate courses selected with the approval of the graduate adviser.

Students must complete a minimum of 24 units from courses in philosophy listed below as acceptable on master’s degree programs. The 24 units shall include (1) either 796 or 799A and (2) a minimum of 12 units in 600-numbered courses which must include Philosophy 600 and 610 or 620.

Students in the program may elect one of two plans, A or B, to complete the requirements for the degree. Plan A requires the writing of a thesis under Philosophy 799A as part of the outlined course program. If Plan B is elected, the student must pass a comprehensive examination, consisting of two written and one oral, and complete three units in Philosophy 796.

The master’s examination shall be conducted by a committee of at least three members selected by the graduate adviser after consultation with the student. Each of the written parts of the examination will be based on a bibliography drawn up by the committee administering the examination after consultation with the student. The oral part of the examination will be in a specific problem area or on a major philosopher. At least three weeks prior to the end of the semester preceding the semester of the examination, the student will consult with his or her committee to determine the bibliographies for the written exams and the subject matter for the oral exam. This consultation must be completed no later than three days after the official close of the semester. A student will not be permitted to enroll in Philosophy 796 if this consultation has not been completed. The master’s examination may be repeated only once.

Courses Acceptable on Master’s Degree Program in Philosophy

UPPER DIVISION COURSES

506. Twentieth Century Continental Philosophy (3)
Prerequisite: Six upper division units in philosophy.
Major figures and movements in European philosophy from Husserl to the present.

507. Twentieth Century Anglo-American Philosophy (3)
Prerequisite: Six upper division units in philosophy.
Major movements, issues, or figures of twentieth century Anglo-American philosophy. Course may be repeated with new content. Maximum credit six units.
508. Existentialism (3)
Prerequisite: Six units in philosophy.

The philosophical aspects of existentialism. Major emphasis is on the diversity of thought within a common approach as this is shown in individual thinkers.

510. Philosophy of Law (3)
Prerequisites: Three units from Philosophy 101, 102, or 103; and three units from philosophy or political science.
Nature of law and logic of legal reasoning. Review of certain key legal concepts such as causation, responsibility, personality, and property.

512. Political Philosophy (3)
Prerequisite: Philosophy 101, 102 or 103.
Selected aspects of the political structures within which we live, such as law, power, sovereignty, justice, liberty, welfare.

521. Deductive Logic (3)
Prerequisite: Philosophy 120.
Principles of inference for symbolic deductive systems; connectives, quantifiers, relations and sets. Interpretations of deductive systems in mathematics, science and ordinary language. Not open to students with credit in Mathematics 523.

523. Theory of Knowledge (3)
Prerequisite: Six units in philosophy.

The major theories of human knowledge: mysticism, rationalism, empiricism, pragmatism.

525. Metaphysics (3)
Prerequisite: Six units in philosophy.

Prominent theories of reality, e.g., realism and nominalism, materialism and idealism, teleology and determinism.

528. Theory of Ethics (3)
Prerequisite: Six units in philosophy.

Significant and typical value theories and systems and the concrete problems such theories seek to explain. Emphasis will be on moral values.

531. Philosophy of Language (3)
Prerequisite: Six units in philosophy.

An introduction to theories of meaning for natural languages and formal systems; concepts of truth, synonymy and analyticity; related epistemological and ontological problems.

532. Philosophy of History (3)
Prerequisite: Six units of philosophy.

The nature of history and historical inquiry. As metaphysics: a study of theories of historical development. As methodology: history as science, truth and fact in history, historical objectivity, the purpose of history.

536. Philosophy of Mind (3)
Prerequisite: Three upper division units in philosophy.

Analysis of the concept of mind, intention, behavior, etc. Developments generated by works of such philosophers as Wittgenstein, Wisdom, and Ryle.

537. Philosophy of Science (3)
Prerequisite: Six units in philosophy.

The basic concepts and methods underlying contemporary scientific thought. Contributions of the special sciences to a view of the universe as a whole.

541. History of Aesthetics (3)
Prerequisite: Philosophy 101, 102 or 103.

Major documents in the history of aesthetics.

542. Philosophy of Art (3)
Prerequisite: Six units in philosophy.

The nature of aesthetic experience. Principal contemporary theories of art in relation to actual artistic production and to the function of art in society.

543. Philosophy and Literary Theory (3)
Prerequisites: Three upper division units in philosophy and three upper division units in literature.

Relations between philosophy and literary discourse. Strategies of interpretation offered by major contemporary thinkers.

555. Philosophy of Technology (3)
Prerequisite: Six units in philosophy.

Philosophy of technology in leading thinkers such as Marx, Heidegger and Marcuse.

575. A Major Philosopher (3)
Prerequisite: Six upper division units in philosophy.

The writings of one major philosopher. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to the major. Maximum credit six units applicable to a master’s degree.

596. Selected Topics (3)
Prerequisite: Six upper division units in philosophy.

A critical analysis of a major problem or movement in philosophy. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to the major. Maximum credit six units applicable to a 30-unit master’s degree.

599. Special Study (1-3)
Prerequisite: Upper division or graduate standing and consent of instructor.

Directed individual study in philosophy on a theme or topic chosen in consultation with the instructor. Maximum credit six units. Maximum combined credit six units of 596 and 696 applicable to the M.A. degree in Philosophy.

GRADUATE COURSES

600. Seminar in the History of Philosophy (3)
Prerequisite: Twelve upper division units in philosophy.

A major philosopher, school, or problem. Their historical roots and subsequent historical significance. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

610. Seminar in Philosophical Problems: Values (3)
Prerequisite: Twelve upper division units in philosophy.

Problems in such fields as ethics, politics, aesthetics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.
620. Seminar in Philosophical Problems: Knowledge and Reality (3)
Prerequisite: Twelve upper division units in philosophy.
A problem or group of problems in metaphysics, epistemology and logic. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

630. Seminar in Current Philosophical Issues (3)
Prerequisite: Twelve upper division units in philosophy.
Problems in current philosophical publications. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

696. Seminar in Selected Topics (3)
Prerequisite: Twelve upper division units in philosophy.
Intensive study in specific areas of philosophy. See Class Schedule for specific content. Maximum credit three units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

796. Studies in Philosophy (1-3) Cr/NC
Prerequisites: An officially appointed examining committee and advancement to candidacy.
Preparation for the comprehensive examination for students taking the M.A. under Plan B. Maximum credit three units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisites: Twelve upper division units in philosophy and consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
Physical Education
In the Department of Exercise and Nutritional Sciences
In the College of Professional Studies and Fine Arts

Faculty
B. Robert Carlson, Ph.D., Professor of Exercise and Nutritional Sciences, Chair of Department
Peter M. Aufsesser, Ph.D., Professor of Exercise and Nutritional Sciences

Thomas L. McKenzie, Ph.D., Professor of Exercise and Nutritional Sciences
Robert A. Mechikoff, Ph.D., Professor of Exercise and Nutritional Sciences
Robert Moore, Ph.D., Professor of Exercise and Nutritional Sciences
Patricia Patterson, Ph.D., Professor of Exercise and Nutritional Sciences (Graduate Adviser)
Brent S. Rushall, Ph.D., Professor of Exercise and Nutritional Sciences
Dennis J. Selder, Ph.D., Professor of Exercise and Nutritional Sciences
Roger Simmons, Ph.D., Professor of Exercise and Nutritional Sciences
Denise A. Wiksten, Ph.D., Associate Professor of Exercise and Nutritional Sciences
Kathryn J. LaMaster, Ph.D., Assistant Professor of Exercise and Nutritional Sciences

Associateships
Graduate teaching associateships in exercise and nutritional sciences are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department or the graduate adviser.

General Information
The Department of Exercise and Nutritional Sciences offers graduate study leading to the Master of Arts degree in physical education.

The Master of Arts degree permits the selection, under advisement, of a program of study which may be oriented either towards a generalist approach or with a specialization in one of three areas. The generalist approach encompasses theoretical foundations provided by various relevant disciplines and their application to professional aspects of contemporary physical education. This program is appropriate for individuals who require a broad theoretical foundation that might be applied to teaching, coaching, and administration in fields that involve the acquisition of gross motor skills and the enhancement of physical fitness. The three areas of specialization offered by the department are Biomechanics and Athletic Training, Instructional Effectiveness, and Sports Psychology. Each specialization has a strong theoretical component that provides a basis for students who anticipate employment in the academic, public, or private sectors, or who intend to pursue a doctoral degree within the area of specialization.

The faculty includes researchers who are professionally active in each of the areas of specialization. The department also has several clinical facilities that provide the opportunity for students and faculty to work with students, patients, and subjects. In addition, newly renovated facilities for biomechanics, motor control, teaching and coaching, and kinesiotherapy are available for teaching and for student and faculty research. A variety of other health and education-related projects are routinely conducted in conjunction with local educational and medical institutions.

Master of Arts Degree in Physical Education

Admission to Graduate Study
Students will be admitted to the graduate program in physical education only after careful consideration of their qualifications by the physical education graduate adviser.

Students will be admitted in BOTH fall and spring semesters. Submit applications no later than April 1 for the fall and no later than October 1 for spring.

All students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, a student applying for admission to the graduate program in physical education must meet the following requirements:
1. A bachelor’s degree in kinesiology. Applicants who do not have an undergraduate major in kinesiology may be admitted to conditionally classified graduate standing on the recommendation of the departmental graduate adviser. They will be required to complete the minimum requirements for an undergraduate major in physical education (i.e. up to 18 units of upper division exercise and nutritional sciences coursework) in addition to the minimum of 30 units required for the master’s degree.
2. A grade point average of not less than 3.0 in the last 60 units attempted.
3. A minimum score of 475 on each of the verbal and quantitative sections of the Graduate Record Examination (General Aptitude Test).

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.
Specific Requirements for the Master of Arts Degree
(Major Code: 08351)

In addition to meeting the requirements for classified graduate standing the student must satisfy the basic requirements for the master’s degree, described in Part Two of this bulletin. The 30-unit program includes a minimum of 21 units in exercise and nutritional sciences selected from courses listed in this bulletin as acceptable on master’s degree programs, of which at least 18 units must be in 600- and 700-numbered courses. Exercise and Nutritional Sciences 601, 602, 684, and 799 are required. A final oral examination on the field of the thesis/project and on the implications of the thesis research for the broader field of physical education is also required.

Students seeking a Master of Arts degree in Physical Education are required to develop and sign a formal plan of study which must be approved by the graduate adviser before being forwarded to the Graduate Division. The approved plan of study should be developed in consultation with a faculty member who teaches graduate coursework of interest to the student.

The generalist program allows students to combine courses that best fit their interests. The department’s graduate coordinator counsels students in the general degree program before suggesting a program adviser. Students are required to take mandated core courses as well as being able to select a number of electives. The offerings in a specialization allow a student to identify certain curricula and competencies that have been achieved once the degree has been completed.

The department expects a student to complete the degree within seven years. Failure to complete the degree requirements within seven years will result in dismissal from the program.

Specialization in Biomechanics and Athletic Training

Anatomy, mechanics, and neuromotor control of normal and abnormal movements, as well as injury and rehabilitation, are studied with an emphasis on scientific bases of body structure and function. Attention is given to health related concerns and prevention of injuries in sport and exercise.

Required courses (12 units):
- ENS 630 Advanced Biomechanics: Human Motion Analysis (3)
- ENS 644 Scientific Basis of Therapeutic Exercise (3)
- ENS 660 Advanced Kinesiology (3)
- ENS 673 Advanced Principles of Motor Control (3)

Electives: Six units to be chosen in consultation with a specialization adviser.

Specialization in Instructional Effectiveness

This specialization is designed to increase a practitioner’s pedagogical knowledge and effectiveness for teaching in diverse physical activity settings. Students who have experience in pedagogy will find the program particularly relevant.

Required courses (9 units):
- ENS 667 Seminar in Advanced Sport Psychology (3)
- ENS 685 Seminar in Evaluating Teaching and Coaching Effectiveness (3)
- ENS 691 Application of Movement Instruction for Children (3)

Electives: Nine units to be chosen in consultation with a specialization adviser.

Specialization in Sport Psychology

Students may take coursework that will develop competence as a sports psychology consultant in sport and exercise settings. Students with previous experience in coaching will find the program of particular interest.

Required courses (12 units):
- ENS 671 Seminar in Advanced Sport Psychology (3)
- ENS 688 Applied Psychology of Effective Coaching (3)
- ENS 689 Applied Psychology for Superior Performance (3)
- ENS 793 Sport Psychology and Pedagogy
  Internship (1-3) Cr/NC

Electives: Six units to be chosen in consultation with a specialization adviser.

Adapted Physical Education Credential
(Credential Code: 00980)

Admission Categories

Level I: Kinesiology major with an interest in adapted physical education, completion of a minimum of 45 units with a grade point average of 2.5 or better, and official application to the coordinator of Adapted Physical Education.

Level II: Kinesiology major with a minimum of 2.75 after 90 units including the completion of Exercise and Nutritional Sciences 301, 303, 304, 348, 363, and at least one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings, and official application to the coordinator of Adapted Physical Education.

Level III: Certified. Completion of all courses required for physical education major in the single subject teaching credential major, all classes for the certification including completion of the entire student teaching experience. (Preliminary credential.) The student must have a 3.0 average and no grade lower than C in all the academic classes required to be certified. A required course in which a grade lower than C is earned may be repeated only with prior approval of the coordinator.

Pre-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialist coursework.

1. Adapted Program: Minimum 16 units.
   Exercise and Nutritional Sciences 398* (1 unit), 348, 363, 667, 672, and Special Education 501.

2. Practical Experience and Student Teaching:
   The candidate must complete one unit of Exercise and Nutritional Sciences 388, 135 hours of practicum in school and community settings, and a full-time student teaching experience in adapted physical education.

In-Service Program

Candidates for this program in adapted physical education must complete the requirements for the single subject teaching credential in physical education, apply for the program, be accepted, and complete the following specialist coursework.
Courses Acceptable on Master’s Degree
Programs in Physical Education

UPPER DIVISION COURSE
Exercise and Nutritional Sciences Course

596. Selected Topics in Exercise and Nutritional Sciences (1-3) I, II
Selected topics in exercise and nutritional sciences. May be repeated with new content and approval of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES
Exercise and Nutritional Sciences Courses

601. Experimental Methods in Exercise and Nutritional Sciences (3)
Prerequisite: Undergraduate statistics course. Experimental methods in exercise and nutritional science. (Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

602. Research Evaluation in Exercise and Nutritional Sciences (3)
Prerequisite: Exercise and Nutritional Sciences 601. Techniques in designing, conducting, and reporting research in exercise and nutritional science. Qualitative and quantitative paradigms examined. Ethical consideration of human research. (Formerly numbered Exercise and Nutritional Sciences 585, 586, 792.)

630. Advanced Biomechanics: Human Motion Analysis (3)
Prerequisites: Exercise and Nutritional Sciences 303 and 306. Kinematic analysis of human movement using photo-optical systems including high speed cinematography and videography, together with automated data reduction procedures. (Formerly numbered Physical Education 630.)

644. Scientific Basis of Therapeutic Exercise (3)
Prerequisite: Exercise and Nutritional Sciences 463. Mechanical and neurophysiological principles related to application of therapeutic exercise techniques. (Formerly numbered Physical Education 644.)

660. Advanced Kinesiology (3)
Prerequisites: Exercise and Nutritional Sciences 303 and 306. Tissue structure, neuromuscular function and performance. Electromyography and movement analysis. (Formerly numbered Physical Education 660.)

664. Seminar in Anthropometry and Motor Performance (3)
Prerequisites: Exercise and Nutritional Sciences 301 and 303. Relationships between body structure and motor performance as compared through the techniques of anthropometry, somatotyping and body composition. (Formerly numbered Physical Education 664.)

665. Advanced Sports Medicine (3)
Prerequisite: Exercise and Nutritional Sciences 365 or a physical therapy major. Clinical sports medicine. Relationship of biomechanics, nutrition, environment and conditioning to medical problems of athletes. (Formerly numbered Physical Education 665.)

667. Seminar in Adapted Physical Education (3)
Prerequisites: Exercise and Nutritional Sciences 348 and 363. Trends, programs and crucial problem areas in adapted physical education as they relate to the organization, planning and implementation of these programs. (Formerly numbered Physical Education 667.)

671. Seminar in Advanced Sport Psychology (3)
Prerequisite: Exercise and Nutritional Sciences 461. Research and theory of psychological behavior in sport and physical activity. Theoretical models, research issues, and applications. (Formerly numbered Physical Education 671.)

672. Perceptual Motor Learning (3)
Prerequisite: Exercise and Nutritional Sciences 307. Basic psychological parameters underlying perceptual motor impairment. Emphasis on utilizing these concepts to evaluate and remediate perceptual motor problems in the young child. (Formerly numbered Physical Education 672.)

673. Advanced Principles of Motor Control (3)
Prerequisite: Exercise and Nutritional Sciences 307. Investigation of the control of human movement using electromyography, biomechanics, and neurophysiology. (Formerly numbered Physical Education 673.)

684. Behavior Change in Sport and Physical Education (3)
Prerequisite: Exercise and Nutritional Sciences 307. Principles and applications of operant psychology to the development and maintenance of behavior in physical education and sport environments. Behavioral techniques to manage and motivate learners in diverse physical activity settings. (Formerly numbered Physical Education 684.)

685. Seminar in Evaluating Teaching and Coaching Effectiveness (3)
Prerequisites: Exercise and Nutritional Sciences 347A and 347B. Coaching and teaching in physical activity settings. Research and systematic observation techniques for analyzing leader effectiveness. Teaching and coaching behavior. (Formerly numbered Physical Education 685.)
688. Applied Psychology of Effective Coaching (3)
Controlling physical performance in training and competi­tions. Psychological procedures which improve sporting per­formances. (Formerly numbered Physical Education 688.)

689. Applied Psychology for Superior Performance (3)
Prerequisite: Exercise and Nutritional Sciences 688.
Psychological factors for preparing superior athletes to com­pete, with particular emphasis on the day of competition. (For­merly numbered Physical Education 689.)

691. Application of Movement Instruction for Children (3)
Two lectures and three hours of laboratory.
Prerequisite: Exercise and Nutritional Sciences 684.
Application of the movement education approach to teaching children’s physical education. (Formerly numbered Physical Edu­cation 691.)

696. Advanced Topics in Exercise and Nutritional Sciences (3)
Intensive study in specific areas of exercise and nutritional sci­ences. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. (Formerly numbered Physical Education 696.)

793. Sport Psychology and Pedagogy Internship (1-3)
Cr/NC
Three hours of supervision per unit.
Prerequisites: Exercise and Nutritional Sciences 671, 684, 689, and consent of instructor.
Supervised field work involving assessment and evaluation of psychological and pedagogical variables in sport, physical educa­tion, fitness, and health settings. Maximum credit six units, three units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of department chair.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis or Project 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis or project is granted final approval.

Associateships
Graduate teaching associateships in physics are available to a limited number of qualified students. Application blanks and additional information may be secured from the chair of the department.

General Information
The Department of Physics offers graduate study leading to the Master of Arts degree in physics, the Master of Science degree in physics, and the Master of Science degree in radiological health physics.

The Master of Arts degree emphasizes broad training and intensive coursework. This is a non-thesis program designed to lead the student to a comprehensive final examination. Specific courses, in both pure and applied physics, are chosen to complement the background of the individual student and achieve the desired educational goals.

The Master of Science degree emphasizes research experience in a chosen specialty. It is designed to augment the student's undergraduate training with a core curriculum of advanced courses, then followed by a period of research and preparation of a thesis. Thesis topics are encouraged in both pure and applied areas of physics.

Modern experimental laboratories are available for student and faculty research in the areas of acoustics, modern optics, holography, optical properties of solids, laser physics, solid-state physics, nuclear magnetic resonance, electron paramagnetic resonance, atomic physics, solar energy, nuclear, medical and health physics, microprocessor instrumentation, and image processing. Theoretical programs are available in condensed matter physics, electricity and magnetism, laser physics, gravitation, relativity, and mathematical physics.

The Master of Science degree in radiological health physics is designed to train health physicists in the use of radioactive materials and radiation-producing devices such as those used in hospitals and related medical facilities, colleges and universities, industry, public health services, nuclear power installations, the military, the Department of Energy, the Environmental Protection Agency, and the Nuclear Regulatory Commission. The program emphasizes techniques of radiation dosimetry, and instrumentation in addition to the fundamental physics of radiation production and protection.

Master of Arts and Master of Science Degrees in Physics

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, the undergraduate preparation in physics must have substantially satisfied the undergraduate requirements for the bachelor's degree in physics. (Refer to the General Catalog for a description of these majors.) If the student's undergraduate preparation is deficient, he/she will be required to take courses for the removal of the deficiency. These courses are in addition to the minimum of 30 units for the master's degree.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree in Physics
(Major Code: 19021)
In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master's degree as described in Part Two of this bulletin. The student's graduate program must include Physics 604A, 606, 608, and 610A-610B. Fifteen additional units of 500-, 600- or 700-numbered electives must be selected with the approval of the Physics Department graduate adviser. The Master of Arts degree in physics requires the completion of Plan B, a comprehensive written examination.
Specific Requirements for the Master of Science Degree in Physics  
(Major Code: 19021)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master’s degree as described in Part Two of this bulletin. The student must complete a graduate program to include Physics 604A, 606, 608, 610A, 797 (3 units) and 799A. Twelve additional units of 500-, 600-, or 700-numbered electives must be selected with the approval of the Physics Department graduate adviser. The student is required to pass a final oral examination on the thesis.

**Master of Science Degree in Radiological Health Physics**

**Admission to Graduate Study**

All students must satisfy the general requirements for admission to the Graduate Division with classified graduate standing, as described in Part Two of this bulletin under Admission to the Graduate Division. In addition, the undergraduate preparation in biology, chemistry, mathematics, and physics must have substantially satisfied the undergraduate requirements for a baccalaureate degree in the life sciences or the physical sciences so that satisfactory progress can be made toward the master’s degree. If the student’s undergraduate preparation is deficient, he will be required to take courses for the removal of the deficiency. These courses are in addition to the minimum of 30 units for the master’s degree.

**Advancement to Candidacy**

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Radiological Health Physics  
(Major Code: 12251)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must meet the following requirements:

1. Have completed an approved program of 30 units of which at least 15 units must be in the 600- and 700-numbered courses and which includes the following:

<table>
<thead>
<tr>
<th>Units</th>
<th>Subject and Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>3</td>
<td>Biology 561 Radiation Biology</td>
</tr>
<tr>
<td>3</td>
<td>Physics 560 Radiological Physics and Dosimetry</td>
</tr>
<tr>
<td>3</td>
<td>Physics 561 Nuclear Instrumentation</td>
</tr>
<tr>
<td>3</td>
<td>Physics 564 Nuclear Physics</td>
</tr>
<tr>
<td>3</td>
<td>Physics 660 Radiological Health Physics</td>
</tr>
<tr>
<td>3</td>
<td>Physics 661 Advanced Nuclear Instrumentation</td>
</tr>
<tr>
<td>3</td>
<td>Physics 662 Colloquium in Radiological Sciences</td>
</tr>
</tbody>
</table>

**Total units 19**

The remaining eleven units must be selected from 500-, 600- or 700-numbered courses with the approval of the graduate adviser.

2. The thesis option (Plan A) requires the approval of the graduate adviser. Students in Plan A must include Physics 797 and Physics 799A in the 30-unit program, and are required to pass a final oral examination on the thesis. Students in Plan B (non-thesis option) are required to pass a comprehensive written examination.

**Courses Acceptable on Master's Degree Programs in Physics**

**UPPER DIVISION COURSES**

513. **Electronic Instrumentation** (3)

One lecture and six hours of laboratory.  
Prerequisites: Physics 311. Recommended: Credit or concurrent registration in Physics 516.  
Computer data acquisition and control, modern signal detection and enhancement techniques; transducer principles and applications; noise and the enhancement of the signal-to-noise ratio.

516. **Theory of Scientific Instrumentation** (3)

Prerequisites: Physics 311 and Mathematics 342B.  
Fourier analysis with applications to scientific instrumentation, spectroscopy, and image processing; Z transforms and digital filtering; detection systems and their optimization of the signal-to-noise ratio.

532. **Condensed Matter Physics** (3)

Prerequisites: Physics 410 and Mathematics 342B.  
Elastic, thermal, electric, magnetic and optical properties of solids. Introduction to the energy band theory of solids, with applications to semiconductors and metals.

533. **Experimental Techniques in Condensed Matter Physics** (3)

One lecture and six hours of laboratory.  
Prerequisites: Physics 357 and credit or concurrent registration in Physics 532.  
Experiments in various fields of condensed matter such as x-ray diffraction, Hall effect, superconductivity, and electron paramagnetic resonance.

534. **Colloquium in Condensed Matter Physics** (1) Cr/NC  
Prerequisite: Credit or concurrent registration in Physics 532.  
Student and faculty research project presentations. Maximum credit three units.

542. **Acoustics** (3)

Prerequisites: Physics 350 and Mathematics 342B.  
Wave motion, production, reception, transmission and analysis of sound. Special applications such as environmental noise, underwater and seismic waves.

552. **Modern Optics and Lasers** (3)

Prerequisites: Physics 406 with minimum grade of C; credit or concurrent registration in Physics 4008; Mathematics 342B.  
Electromagnetic theory, matrix methods of optics, propagation of Gaussian beams, optical resonators, interaction of radiation and atomic systems, theory of laser oscillation, nonlinear optics, specific laser systems, optical detectors, applications of lasers in physics.
553. Modern Optics Laboratory (3)
One lecture and six hours of laboratory.
Prerequisites: Physics 357 with minimum grade of C; Physics 406 with minimum grade of C; credit or concurrent registration in Physics 552.
Experiments in various fields of modern optics such as holography, physics of lasers, Fourier transform spectroscopy, Raman spectroscopy, light modulation techniques, fiber optics, spatial filtering, diffraction grating spectroscopy, radiometry, and nonlinear optics.

554. Colloquium in Optics Research (1) Cr/NC
Prerequisites: Concurrent registration in Physics 498A or 498B or 797 and consent of instructor.
Student and faculty research project presentations. Maximum credit three units.

556. Radiological Physics and Dosimetry (3)
Prerequisites: Credit or concurrent registration in Physics 354. Ionizing radiation fields, interactions of radiation with matter, cavity theory, external radiation dosimetry.

561. Nuclear Instrumentation (3)
Two lectures and three hours of laboratory.
Prerequisites: Credit or concurrent registration in Physics 311 and 560.
Electronics of nuclear instrumentation. Radiation detection and measurement using ionization chambers, GM and proportional counters, and scintillation dosimetry.

564. Nuclear Physics (3)
Prerequisites: Physics 354 and Mathematics 342A.
Nuclear and elementary particle phenomena including nuclear structure, decay, and radioactivity. Nuclear reactions and devices. Experimental methods and applications.

570. Relativity (3)
Prerequisites: Physics 354, 400B, and Mathematics 342B.
Relative coordinates, Lorentz transformation, covariant formation of the laws of physics, applications of special relativity, introduction to curved space time, cosmology.

580. Computational Physics (3)
Prerequisites: Physics 354, Mathematics 342B; Computer Science 106 or Computer Engineering 160; and credit or concurrent registration in Physics 400A.
Computer programming for numerical solution of problems in classical mechanics, electromagnetism, optics, and quantum mechanics. Use of Fortran and C programming languages and the UNIX operating system. Incorporation of standard subroutines for linear algebra and differential equations into student written programs.

585. Computer Simulation in the Natural Sciences (3)
Prerequisites: Senior or graduate standing in a physical or life science department. Physics 180B or 196. Mathematics 342A.
Study of complex physical systems such as solids, liquids, and macromolecules, by means of computer simulation. Prediction of experimentally measurable physical quantities. Mathematical models. Molecular dynamics and Monte Carlo methods. Interpretation of numerical results. Statistical errors.

596. Special Topics in Physics (1-4)
Prerequisite: Consent of instructor.
Selected topics in classical and modern physics. May be repeated with the consent of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600. Seminar (1-3)
Prerequisite: Consent of instructor.
An intensive study in advanced physics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

602A-602B. Mathematics of Physics (3-3)
Prerequisite: Mathematics 342B. Physics 602A is prerequisite to 602B.
Topics from matrix theory, vector and tensor analysis, orthogonal function theory, calculus of variations and probability theory with particular emphasis on applications to physical theory.

604A-604B. Electromagnetic Theory (3-3)
Prerequisite: 604A: Physics 400B. Physics 604A is prerequisite to 604B.
604A: Electrostatics, magnetic induction, and magnetostatics. Maxwell’s equations, electromagnetic waves and radiation, fields in macroscopic media, special relativity.
604B: Wave guides, optical phenomena and diffraction, multipole expansions, radiation by moving charges, plasma physics, electromagnetism and quantum mechanics.

606. Statistical Mechanics (3)
Prerequisites: Physics 460 and Mathematics 342B.
Classical and quantum statistics, kinetic theory, low-pressure phenomena, Boltzmann transport equation, irreversible processes.

608. Classical Mechanics (3)
Prerequisites: Physics 350 and Mathematics 342B.
Vector and tensor methods, motion of rigid bodies, vibration, coupled circuits, Lagrange’s and Hamilton’s equations, principle of least action.

610A-610B. Quantum Mechanics (3-3)
Prerequisite: 610A: Physics 410 and Mathematics 342B. Physics 610A is prerequisite to Physics 610B.
Physical and mathematical basis of quantum mechanics. Wave mechanics and the Schroedinger Equation, matricies and Hilbert space, angular momentum and spin, atomic structure, bound-state perturbation theory, many particle systems, transition rates and time-dependent perturbation theory, scattering, and relativistic quantum mechanics.
632. Condensed Matter Theory (3)
Prerequisite: Physics 532.
Electron gas, energy bands, semiconductors, device physics, optical properties of solids, magnetism, superconductivity.

654. Gravitation (3)
Prerequisite: Physics 570.
Differential geometry, metric geodesies. Equivalence principle, collapsed objects, black holes, gravitational waves, evolution of the universe.

660. Radiological Health Physics (3)
Prerequisite: Physics 560.
Radiation protection guides, internal, and external radiation protection and dosimetry. Radiological risk assessment.

661. Advanced Nuclear Instrumentation (3)
One lecture and six hours of laboratory.
Prerequisite: Physics 561.
Continuation of Physics 561. Radiation detection and measurement using scintillation and thermoluminescence dosimetry, semiconductor detectors, and neutron dosimetry.

662. Colloquium in Radiological Sciences (1) Cr/NC
Prerequisite: Consent of instructor.
Joint critical study by students and faculty of the fields of knowledge pertaining to radiological sciences. Periodic contributions are made by visiting scientists. Research in progress is discussed. May be repeated with new content. Maximum credit two units applicable to a master’s degree.

670A-670B. Medical Physics (3-3)
Prerequisites: Physics 560 and 561.
Radiological physics, dosimetry, imaging, and radiation protection in medical environments including diagnostic radiology, nuclear medicine, and radiation oncology. (Formerly numbered Physics 670.)

797. Research (1-3) Cr/NC/SP
Prerequisite: Consent of graduate adviser.
Research in one of the fields of physics. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis in physics for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Carole Kennedy, Ph.D., Assistant Professor of Political Science (Graduate Adviser)

**General Information**

The Master of Arts degree in political science is designed to meet several objectives: (1) The general master’s degree provides the fundamental theoretical and analytical skills for those students seeking a doctoral degree in political science or placement in an academic setting. (2) The specialization in public policy prepares students for further graduate work toward a doctoral degree, as well as trains students with skills for placement in non-academic careers in both the public and private sectors. It covers such areas of American public policy as border immigration policy, urban policy, environmental policy, civil rights, and foreign policy. (3) The international relations/comparative politics specialization supplies expertise to graduate students planning to obtain a Ph.D. degree in this field or intending to work in jobs with an overseas focus. Research facilities available to the Political Science Department include the Social Science Research Laboratory. The Department is an associate member of the Inter-University Consortium for Political and Social Research.

**Admission to Graduate Study**

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in political science must attain a score of 500 or above on the verbal and 500 or above on the quantitative portions of the GRE General Test. Students must have completed 30 units of social science, including at least 12 upper division units in political science, as approved by the department, and must have earned a grade point average of 3.0 for the last 60 semester units of undergraduate work, a 3.0 grade point average for upper division courses in political science, and a 3.0 grade point average for all work taken in political science. Application deadline is May 15 for the Fall semester and December 1 for the Spring semester.

**Advancement to Candidacy**

All students must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. In addition, students must complete Political Science 515A.

**Specific Requirements for the Master of Arts Degree**

(Major Code: 22071)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units of upper division and graduate courses approved by the graduate adviser. Students must complete a minimum of 24 units in political science from courses listed below as acceptable on master’s degree programs. Students must take Political Science 515A and at least 21 units in 600- and 700-numbered courses, including Political Science 601.

The Master of Arts degree in political science includes three foci: general political science, a public policy specialization, and an international relations/comparative specialization.

To fulfill the requirements for the general political science focus, students may choose either Plan A or Plan B. Plan A requires Political Science 515A, 601, five additional graduate seminars in political science, and the writing of a thesis under Political Science 799A. Plan B requires Political Science 515A, 601, six additional graduate seminars in political science, and the completion of a comprehensive written examination. The examination committee shall consist of a chairperson and two other faculty members selected by the graduate adviser. The committee shall prepare and grade the examination, which tests the students’ general knowledge in their program of study in the department.

Specific requirements for students selecting the specialization in public policy are:

1. Political Science 560. Comparative Public Policy (3) OR Political Science 676. Seminar in International Political Economy (3)

2. Political Science 601. Seminar in the Scope and Method of Political Science (3)
4. Political Science 635. Seminar in Politics of Public Policy (3)
5. Two graduate seminars chosen from among the following:
   Political Science 605. Seminar in Political Theory (3)
   Political Science 620. Seminar in American National Government (3)
   Political Science 625. Seminar in Political Behavior (3)
   Political Science 630. Seminar in Politics (3)
   Political Science 655. Seminar in General Comparative Political Systems (3)
   Political Science 675. Seminar in International Relations (3)
6. A three unit course in political science research methods, preferably Political Science 515A, Research Methods in Political Science (3).
7. Political Science 796. Internship in Public Policy (6)

Specific requirements for students selecting the international relations/comparative politics specialization are:
1. Political Science 515A. Research Methods in Political Science (3)
2. Political Science 601. Seminar in the Scope and Method of Political Science (3)
3. Political Science 655. Seminar in General Comparative Political Systems (3)
4. Political Science 675. Seminar in International Relations (3)
5. Political Science 676. Seminar in International Political Economy (3)
6. Six additional units selected from Political Science 658, 661, and 667.
7. Six units in international relations or comparative politics chosen from (a) 500- or 600-numbered political science courses, (b) Political Science 795, 797, and 798, (c) courses outside the political science department, e.g., history, economics, language, and area studies.
8. Political Science 799A, Thesis, which must be in the international relations or comparative politics area.

Courses Acceptable on Master’s Degree Program in Political Science

UPPER DIVISION COURSES

515A-515B. Research Methods in Political Science (3-3)
   Prerequisite: Political Science 201. Political Science 515A is prerequisite to 515B.
   The research process, from research design through data processing, analysis and interpretation. Problems of application to election statistics, census data, roll call records, sample survey data and biographical information.

531. Interest Groups and Political Movements (3)
   Prerequisite: Political Science 101 or 102.
   Pressure group activity, lobbies, mass movements; factors which explain origins and motivations of group behavior; votes, money, information, protest as political resources; theories of pluralism, power elite and mass society; class and ethnic politics. May include a substantial amount of material about foreign political systems.

555. Comparative Political Systems (3)
   Prerequisite: Political Science 103.
   An examination of selected political and governmental systems for purposes of comparative study and analysis to determine similarities, differences and general patterns and universals among political systems.

560. Comparative Public Policy (3)
   Prerequisite: Political Science 103 or 335.
   Ways that political and social factors shape policy choices, implementation strategies, and policy outcomes in selected countries, emphasis on industrialized nations. Policy areas chosen from: education, health, nutrition, crime, transportation, housing, energy, population control, poverty, unemployment, inflation.

566. Political Change in Latin America (3)
   Prerequisite: Political Science 101 or 103.
   General pattern of politics and political development in Latin America with an emphasis on those features which condition domestic and foreign policy making.

567. Political Systems of Latin America (3)
   Prerequisite: Political Science 566.
   Domestic and international politics of selected Latin American states.

568. Mexican Politics (3)
   Prerequisite: Political Science 101 or 103.
   Principal factors in Mexican governmental decision making, ideology, political groups, tactics of leaders and governmental structure.

575. International Relations of the Pacific Rim (3)
   Prerequisite: Political Science 362 or 375 or 481.
   Dynamics of conflict and cooperation among nations of the Pacific Rim. Stress on political and economics factors that shape interstate relations.

577. Principles of International Law (3)
   The function of law in the international community. The historical development of the ideas and rules of international law and their place in the modern diplomatic and legal structure.

596. Topics in Political Science (3)
   Prerequisite: Upper division or graduate standing.
   Selected topics in political science. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596. Maximum credit of three units of 596 applicable to a master’s degree. Maximum credit of six units of 596 applicable to a 30-unit master’s degree.
GRADUATE COURSES

601. Seminar in the Scope and Method of Political Science (3)
   The discipline of political science and systematic training in its methodology. Required of all applicants for advanced degrees in political science.

603. Seminar in Theory and Method of Public Policy Analysis (3)
   Prerequisites: Political Science 601 and admission to the specialization in public policy.
   Theoretical approaches used to explain and evaluate public policy performance. Focus on quantitative and qualitative methods of appraising the validity of theories.

605. Seminar in Political Theory (3)
   Maximum credit six units applicable to a master’s degree.

620. Seminar in American National Government (3)
   Maximum credit six units applicable to a master’s degree.

625. Seminar in Political Behavior (3)
   Prerequisite: Political Science 601.
   Political science literature focusing on major areas of political behavior including study of political attitudes, voting, and political communication.

630. Seminar in Politics (3)
   Prerequisite: Six upper division units in political science, three units of which must come from political science courses 320 through 335; 422 through 436; 531.
   Process by which individuals and groups make demands upon political decision makers; emphasis on the styles, structures, channels and consequences of interest articulation. Maximum credit six units applicable to a master’s degree.

635. Seminar in Politics of Public Policy (3)
   Prerequisite: Political Science 601.
   Examination of public policies, e.g., energy, environment, protection, taxation, income maintenance, population, health care, education, housing. Use of research findings to analyze policy process, to estimate probable consequences of alternative decisions, and to appraise governmental programs.

655. Seminar in General Comparative Political Systems (3)
   Prerequisites: Political Science 555, and three additional upper division units in political science.
   The field of comparative politics, including historical developments, major theoretical approaches, substantive concerns, uses and limitations of the comparative method, methodological innovations in study of foreign political systems.

658. Seminar in Post-Communist Political Systems (3)
   Prerequisite: Graduate standing.
   Nature of Communist political systems and processes of transition to post-communist forms of government. Possibilities for development of democratic institutions examined theoretically and empirically.

661. Seminar in the Political Systems of the Developing Nations (3)
   Prerequisite: Six upper division units in political science.
   Theoretical analysis of political development, modernization and industrialization in the emerging nations. Search for valid generalizations about the non-Western political process. Political trends and developments in the developing nations.

667. Seminar in Latin American Political Systems (3)
   Prerequisite: Political Science 555 or 566.
   Political developments in selected Latin American nations. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

675. Seminar in International Relations (3)
   Maximum credit six units applicable to a master’s degree.

676. Seminar in International Political Economy (3)
   Prerequisite: Six upper division political science units in international relations.
   Major theoretical approaches applied to various interstate issues of the world economy.

790. Practicum in the Teaching of Political Science (3)
   Prerequisites: Political Science 601, six additional units of political science graduate seminars, and consent of instructor.
   Instruction in the teaching of political science, including conduct of discussion sections, presentation of lectures, preparation of syllabi, evaluation of students’ performance, and use of computers and audiovisual materials. Not applicable to the master’s degree.

795. Problem Analysis (3)

796. Internship in Public Policy (6)
   Prerequisites: Political Science 601, 603, and eighteen units on official program for M.A. degree in political science with a specialization in public policy.
   A 320-hour internship approved by instructor in public or private agency. Grade based on instructor’s evaluation of supervisor’s report, student consultation with instructor reviewing experience and required readings, and extensive paper relating internship experience to theories of public policy.

797. Research in Political Science (3) Cr/NC/SP
   Prerequisite: Consent of the department chair.
   Research in political theory, political parties, comparative government, international relations, public law or American government.

798. Special Study (1-3) Cr/NC/SP
   Prerequisite: Consent of staff; to be arranged with department chair and instructor.
   Individual study. Maximum credit six units applicable to a master’s degree.
Political Science

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy. Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.

Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
Faculty
Frederick W. Hornbeck, Ph.D., Professor of Psychology, Chair of Department
Catherine J. Atkins-Kaplan, Ph.D., Professor of Psychology, Assistant Dean for Student Affairs of the College of Sciences
Marilyn A. Borjes, Ph.D., Professor of Psychology
Jeff B. Bryson, Ph.D., Professor of Psychology
Thereasa A. Cronan, Ph.D., Professor of Psychology
Roger M. Dunn, Ph.D., Professor of Psychology
Larry Fenson, Ph.D., Professor of Psychology
Louis R. Franzini, Ph.D., Professor of Psychology

Stephan K. Reed, Ph.D., Professor of Psychology
Judy S. Reilly, Ph.D., Professor of Psychology
Edward P. Riley, Ph.D., Professor of Psychology
Dennis P. Saccuzzo, Ph.D., Professor of Psychology
James F. Sallis, Jr., Ph.D., Professor of Psychology
Richard H. Schulte, Ph.D., Professor of Psychology, Director, Psychology Clinic
John J. Spinetta, Ph.D., Professor of Psychology
Donna Castañeda, Ph.D., Associate Professor of Psychology
Richard H. Defran, Ph.D., Associate Professor of Psychology
Keith Hattrup, Ph.D., Associate Professor of Psychology
Vanessa L. Malcarne, Ph.D., Associate Professor of Psychology
Sharon M. McCordick, Ph.D., Associate Professor of Psychology
Joseph M. Price, Ph.D., Associate Professor of Psychology
Judy M. Price, Ph.D., Associate Professor of Psychology
Patricia A. Scollay, Ph.D., Associate Professor of Psychology
Roberto J. Velasquez, Ph.D., Associate Professor of Psychology
Denise E. Willsey, Ph.D., Associate Professor of Psychology
Leola A. Alfonso-Reese, Ph.D., Assistant Professor of Psychology
P. Niels Christensen, Ph.D., Assistant Professor of Psychology
Jeffrey M. Conté, Ph.D., Assistant Professor of Psychology
Margaret Friend, Ph.D., Assistant Professor of Psychology
S. Douglas Pugh, Ph.D., Assistant Professor of Psychology

Associateships and Assistantships
Graduate teaching associateships and graduate assistantships in psychology are available to a limited number of qualified students. Application forms and further information may be obtained from the master’s program adviser, Department of Psychology.

General Information
A Master of Science degree in applied psychology with a focus on industrial/organizational psychology or program evaluation is offered. A Master of Arts program with a concentration in preclinical, developmental or general experimental psychology is available for persons who expect subsequently to pursue a Ph.D. degree. For students currently enrolled in the Ph.D. program, an M.S. in clinical psychology is offered. In addition, the Department of Psychology, jointly with the Department of Psychiatry, University of California, San Diego, School of Medicine, offers an APA-accredited program of graduate study leading to the Doctor of Philosophy degree in clinical psychology with specialization in behavioral medicine, neuropsychology, or experimental psychopathology. A scientist-practitioner training model serves as a guide for the experiences provided for doctoral students. It is expected that graduates of this program will be prepared to serve as scientists, innovators, and leaders in the field of clinical psychology.

The doctoral program requires that students spend a minimum of five calendar years in study and research. In the first four years, doctoral students must complete their prescribed coursework satisfactorily as well as engage in research and a series of clinical practica. In the last year of the program all students must complete a 12-month APA-accredited clinical internship.

The department has a strong scientific research orientation, and emphasizes the master’s degree as preparation for doctoral work. Students in all programs must take an advanced statistics/experimental design course sequence and produce an empirical research thesis.

The department awards approximately 30 master’s degrees annually. A substantial proportion of the graduates who apply go on to enroll in doctoral work at well-known universities.

The clinical psychology faculty staff a Psychology Clinic for graduate clinical training and service to the metropolitan San Diego community.

Both master’s and doctoral students play a large role in faculty research. The department has about $4,000,000 per year in extramural grant support. Current research includes studies of

WEB SITE: www.psychology.sdsu.edu

OFFICE: Life Sciences 110
TELEPHONE: (619) 594-5358
FAX: (619) 594-1332
fetal alcohol syndrome, facial expressions and affect in normal, deaf, and brain-damaged infants, animal and human models of memory disorders (e.g., Korsakoff’s), child health promotion, intervention strategies in diabetes and arthritis, interdisciplinary approaches to child abuse treatment, biochemical substrates of anxiety, ethological studies of cetacean behavior, therapeutic interventions in postpartum depression, giftedness, cultural differences, and learning disabilities.

Research space, equipment, and supplies are available in the department for student experiments. The College of Sciences maintains two completely equipped electronics shops and a wood and metal shop, all staffed with full-time technicians. In addition to the University’s large modern computer facilities and excellent support services, there are a large number and variety of microcomputer and minicomputer systems in the Department of Psychology and throughout the College of Sciences.

**Section I. Master’s Degree Programs**

**Admission to Graduate Study**

In seeking admission to the M.A. or M.S. applied program in psychology, the student should write directly to the master’s program adviser, Department of Psychology, requesting application materials. Applicants to the joint UCSD-SDSU doctoral program should write to UCSD-SDSU Joint Doctoral Program, P.A.R.T., 6363 Alvarado Court, Suite 103, San Diego, CA 92120-4913. Detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms.

Students will be admitted to graduate programs in psychology only in the fall semester and applications must be received by the Department of Psychology not later than February 1 for master’s degree programs.

Concurrent with application to the department, the student must file an application for admission to San Diego State University with the Office of Graduate Admissions. Acceptance by the University does not guarantee acceptance to the psychology program.

To be considered for admission to the graduate programs in psychology, all students must satisfy the general requirements for admission to the University with classified graduate standing as described in Part Two of this bulletin. In addition, applicants must submit a copy of all transcripts of previous college work, three letters of recommendation from persons familiar with their academic performance, and score reports for the GRE General Test and the GRE Subject (Advanced) Test in Psychology. These materials must be submitted to the Department of Psychology by February 1 and are in addition to any materials requested by the Graduate Division or the Admissions Office.

Students are advised to take the necessary examinations by October of the year prior to the year in which they are seeking enrollment.

To qualify for admission to the master’s programs in psychology, the student must have:

1. An undergraduate major in psychology (or coursework equivalent to the SDSU bachelor’s degree) consisting of at least 24 upper division units with a grade point average of at least 3.0. The major must include work in general psychology, physiological psychology, statistical methods, psychological testing, abnormal psychology, and at least two laboratory courses or their equivalent in psychology.

2. A grade point average of not less than 3.0 in the last 60 semester units of the undergraduate program.

3. A minimum score of 475 on the verbal section and 475 on the quantitative section of the GRE General Test.

4. A score above the 50th percentile rank on the GRE Subject (Advanced) Test in Psychology. The student should take this test as well as the GRE General Test in sufficient time so that the results will be available prior to the application deadline. It should be requested by the student that the score reports for these tests be forwarded directly to the SDSU Office of Admissions and Records and the Department of Psychology.

Meeting all of the indicated criteria does not guarantee admission to the program, since admission is also dependent on the facilities and resources available in the department.

**Advancement to Candidacy**

The student must satisfy the general requirements for advancement to candidacy as stated in Part Two of this bulletin. Having obtained three grades of C or lower in graduate courses automatically precludes advancement to candidacy.

In addition, students must have an approved thesis proposal prior to advancement to candidacy.

**General Requirements for all Master’s Degree Programs**

In addition to meeting the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of at least 30 units (36-38 units for the Master of Science degree) approved by the departmental graduate coordinator. Only classified graduate students are permitted to enroll in any 600-numbered (or higher) courses in psychology.

Psychology 670A-670B or 770A-770B, in addition to 600 (Research Orientation), and 799A (Thesis), and an oral examination on the thesis, are required in all master’s degree programs in the Department of Psychology. A maximum of two units credit in Psychology 600 can apply toward completion of the program.

**Specific Requirements for the Master of Arts Degree**

(Major Code: 20011)

The Master of Arts degree requires the completion of a minimum of 30 units in psychology to include Psychology 670A-670B or 770A-770B, two units of 600, one unit of 797, and 799A. Students must also select at least four courses from the following set of core courses: Psychology 501, 551, 587, 605, 632, 675, 745, 760. In special cases, and by petition to the graduate committee, students may take up to six units of the required 30 units in 500-level and above courses in other departments.

All new Master of Arts degree students are required to take one unit of Psychology 600 during their first semester and another unit during their second semester.
Specific Requirements for the Master of Science Degree

(Major Code: 20011)

The Master of Science degree may be obtained with the following concentrations:

1. The Applied Psychology program has two specializations: Program Evaluation and Industrial and Organizational Psychology.

Specific requirements for students selecting the Program Evaluation specialization are: A minimum of 38 units, 32 of which must be completed in psychology, to include Psychology 670A-670B or 770A-770B, 600 (Research Orientation, 2 units), 621 or 622, 630, 675, 730, 791 (Internship in Applied Psychology, 6 units), 799A (Thesis). Nine units of graduate electives may be selected from psychology, or from other departments with prior approval of the master's program adviser.

Specific requirements for students selecting the Industrial and Organizational specialization are: A minimum of 38 units, 32 of which must be completed in psychology, to include Psychology 670A-670B or 770A-770B, 600 (Research Orientation, 2 units), 621, 622, 630, 675, 721 or 722, 792 (Internship in Industrial and Organizational Psychology, 6 units), 799A (Thesis). Six units of graduate electives may be selected from psychology or from other departments with prior approval of the master's program adviser.

2. Clinical Psychology (included within the Ph.D. program; not available separately).

A minimum of 36 units in psychology, including Psychology 770A-770B, 849, 850, 855, 856, 896 (Clinical Practicum, 5 units), 799A (Thesis), one additional three unit course such as Psychology 801, 840 or 860. Also required are two courses to be taken at the University of California, San Diego, Clinical Psychology 295 and SOMC 202E. Registration for five units of Psychology 896 (Clinical Practicum) is contingent upon prior cooperative arrangement by the student and the Department of Psychology Practicum Committee, and is exempt from the University’s requirement that courses graded Cr/NC be limited to 30 percent of units for the master’s degree.

Section II.

Doctoral Program

(Major Code: 20031)

Admission to Doctoral Study

To be considered for admission to the joint UCSD-SDSU doctoral program in clinical psychology, students must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. These include (a) an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or equivalent academic preparation, as determined by the graduate deans of the two institutions; (b) a minimum overall grade point average of 3.0; (c) a grade point average of at least 3.25 in the last 60 semester (90 quarter) units attempted; (d) good standing at the last institution attended; and (e) a minimum score of 550 verbal and 550 quantitative on the GRE Aptitude Test and a score above the 85th percentile on the GRE Advanced Test in Psychology. However, given the large number of applicants in the field of clinical psychology, the selection process is designed to identify the best from among many highly qualified applicants. Thus no minimum set of qualifications in any way guarantees admission. Personal interviews will be conducted with the most promising applicants. Admission of any candidate who deviates from the minimum standards can only be granted with special permission of both graduate deans. No faculty member has authority to make an offer of a position in the program to any applicant, implied or otherwise, without final recommendation of the program directors and approval of the graduate deans.

Applicants must submit a copy of all transcripts of previous college work, three letters of recommendation, and score reports for the Graduate Record Examination General Test and Graduate Record Examination Advanced Test in Psychology. Although an undergraduate psychology major is not mandatory for admission, applicants should have completed a minimum of 18 semester units (27 quarter units) in psychology including courses in physiological psychology, statistical methods, psychological testing, abnormal psychology, personality, social psychology, and an experimental laboratory in psychology. Advanced courses in perception and learning are desirable as are courses in biology, mathematics, linguistics, and other related areas (e.g., medical physics, computer sciences). The joint doctoral program is a year around program.

An option for Ph.D. students in clinical psychology is to concurrently pursue the Master of Public Health (MPH) degree in the Graduate School of Public Health. Students jointly enrolled will first be accepted into the psychology program and then apply for admission into public health. For the MPH degree, students must complete all required core classes as well as requirements for a particular specialization (health promotion, epidemiology, and health services administration and/or occupational/environmental health). Subsequent to coursework, MPH candidates generally conduct a research thesis as well. (For more information, see the section of this bulletin under “Public Health.”)

Students will be admitted to graduate programs in psychology only in the fall semester. All application material must be received by the doctoral program office and the SDSU Graduate Admissions office not later than December 15 for the Ph.D. program.

Specific Degree Requirements for the Doctor of Philosophy Degree in Clinical Psychology

The student is guided by requirements for the doctoral degree program given in Part Two of this Bulletin. The core curriculum will normally be completed during the first two years. Completion of this core insures that students have a general background in empirical psychology (e.g., physiological, social, cognitive-affective, and individual bases of behavior); knowledge of conceptualizations of personality and psychopathology; an awareness and appreciation of professional ethics and conduct; awareness and appreciation of multicultural issues in an increasingly multicultural society; knowledge of the theory and techniques of psychological assessment; knowledge of therapeutic interventions, acquisition of therapeutic skills, and a minimum of 1,000 hours of supervised clinical experience; and competence in research methods. Specific courses providing this background at SDSU include Psychology 757, 770A-770B, 801, 840, 849,
Faculty

The following faculty members of the cooperating institutions participate in the joint doctoral program in clinical psychology and are available for direction of research and as members of joint doctoral committees.

San Diego State University:

Program Director: Klonoff
Program Members: Cronan, Franzini, Hornbeck, Ingram, Langlais, Litrownik, Malcarne, Marshall, Martin, Matt, Murphy, Joseph Price, Reilly, Riley, Saccuzzo, Sallis, Schulte, Spinetta, Velasquez, Wilfley

University of California, San Diego:

Program Director: Heaton
Program Members: Ancoli-Israel, Appelbaum, Atkinson, Bel-lugi, Birchler, Bondi, Braff, Britton, G. Brown, S.A. Brown, S.J. Brown, Caligiuri, Clementz, Cougheshe, Delis, Dimsdale, Filoteo, Garland, Geyer, Gillin, Granholm, Grant, Groves, Irwin, Jernigan, Jeste, L. Judd, P. Judd, Kaplan, Kelsoe, Kripke, Kulik, Kutas, Lang, Levine, Matt-loff, Max, McQuaid, Mills, Myers, Nichols, Ostergaard, Palinkas, Parry, Patterson, Penn, Perry, Rapaport, Salmon, Schreibman, Schuckit, Segal, Sparta, Squire, Stahl, Stein, Stiles, Swerdlow, Trauner, Varni, Wall, Zisook

Courses Acceptable on Master’s and Doctoral Degree Programs in Psychology

UPPER DIVISION COURSES

501. History of Psychology (3)
Limited to graduate students or psychology majors with senior standing.
The historical background of modern psychology.

502. Philosophical Issues in Psychology (3)
Prerequisite: Six units of psychology.
Mind-brain relationship and other topics at the interface of psychology and philosophy. (Formerly numbered Psychology 401.)

551. Clinical Psychology: Theory and Practice (3)
Prerequisite: Psychology 350. Proof of completion of prerequisite required: Copy of transcript.
Clinical assessment, theory and practice of behavior change, and professional ethics.

552. Psychology of Obesity and Weight Management (3)
Prerequisite: Senior or graduate standing in psychology or related fields.
Theory and current research issues on psychology of obesity, weight control, and eating disorders. Social, personality, cognitive, and physiological influences. Use of cognitive behavior modification for weight control.

587. Advanced Principles of Learning and Cognition (3)
Prerequisites: Psychology 211, 270, and 380.
Empirical data, basic principles and theoretical positions of major theorists in learning and cognitive psychology.

596. Selected Topics in Psychology (1-3)
Prerequisites: Psychology 101 and consent of instructor.
Intensive study in specific areas of psychology. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.
GRADUATE COURSES

Graduate courses in psychology are not open to postbaccalaureate unclassified students.

For priority enrollment in graduate courses in psychology is given to psychology students who have the courses as requirements in their respective programs.

600. Research Orientation (1) Cr/NC
Prerequisite: Admission to the master's degree program.
Research in psychology. All master's degree students are required to enroll in this course. Maximum credit two units.

605. Seminar in Theoretical Psychology (3)
Prerequisite: Consent of graduate adviser.
Basic nature of theories, their relationships to data, and the characteristics of various types of constructs used in psychological theories.
Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

621. Seminar in Personnel Psychology (3)
Prerequisites: Psychology 320 and consent of graduate adviser.
Problems and procedures in selection, classification, and performance appraisal, focusing on testing in industry, the interview, and other selection and assessment devices. Criterion development and measurement methods.

622. Seminar in Organizational Psychology (3)
Prerequisites: Psychology 321 and consent of graduate adviser.
Applications of psychological principles and methods of investigation to problems of industrial relations and motivation of employees; factors influencing morale and employee productivity; criteria of job proficiency; psychological aspects of worker-management relationships and leadership.

630. Seminar in Program Evaluation (3)
Prerequisite: Graduate standing in psychology.
Theory and practice of program evaluation. Surveys concepts, issues, and methods relevant to evaluating programs, services, and interventions in the public and private sectors.

632. Theories and Methods in Developmental Psychology (3)
Prerequisites: Psychology 230 and 331 or 332.
Philosophical and biological origins of developmental psychology. Examination of processes that shape perception, language acquisition, socialization, and cognition. (Formerly numbered Psychology 532.)

651. Seminar in Behavior Disorders of Childhood and Adolescence (3)
Prerequisites: Psychology 350 and consent of graduate adviser.
Contemporary approaches to emotional and behavioral problems of childhood and youth. Considers developmental, cognitive and social variables as well as theory and treatment.

652. Seminar in Behavior Disorders of Adults (3)
Prerequisites: Psychology 350 and consent of graduate adviser.
Contemporary approaches to emotional and behavioral problems of adulthood. Considers developmental, cognitive and social variables as well as theory and treatment.

670A-670B. Advanced Statistics in Psychology (3-3)
Two lectures and two hours of activity.
Prerequisites: Psychology 370, 410, a passing score on the departmental statistics placement test, and consent of graduate adviser.

675. Seminar in Psychological Measurement (3)
Prerequisites: Psychology 370 and consent of graduate adviser.
General principles, theory and methods underlying measurement in studies of group and individual differences in controlled experiments.

700. Seminar (3)
Prerequisite: Consent of graduate adviser.
An intensive study in advanced psychology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

721. Advanced Seminar in Personnel Psychology (3)
Prerequisites: Psychology 621 and consent of master's programs adviser.
Selected areas within personnel psychology including selection, classification, performance appraisal, test development, criterion development, measurement and scaling techniques. Course may be repeated with new content with permission of instructor and master's programs adviser. Maximum credit six units applicable to a master's degree.

722. Advanced Seminar in Organizational Psychology (3)
Prerequisites: Psychology 622 and consent of master's programs adviser.
Selected areas within organizational psychology including leadership, motivation, organizational development, and organizational effectiveness. Course may be repeated with new content with permission of instructor and master's program adviser. Maximum credit six units applicable to a master's degree.

730. Advanced Seminar in Program Evaluation (3)
Prerequisite: Psychology 630.
Examines intellectual foundations, current debates, and innovative methods in program evaluation and their impact on planning, conducting, and using evaluations.

732. Seminar in Developmental Psychology (3)
Prerequisite: Psychology 632.
In-depth examination of a selected aspect of development, such as cognition, social, perceptual or language development or the neural substrates of development.

745. Seminar in Social Psychology (3)
Prerequisite: Consent of graduate adviser. Recommended: Psychology 340 or 412.
Issues of contemporary importance in the field. See Class Schedule for specific content.
Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.
757. Seminar in Selected Topics in Clinical Psychology (1-3)
Prerequisite: Consent of graduate adviser.
An advanced study of such clinical topics as cognitive behavior therapy, forensic psychology, multiculturalism, ethics, and stress. Topics will vary on a semester basis.
Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

760. Seminar in Physiological Correlates of Behavior (3)
Prerequisites: Psychology 260 or six units of biology; and consent of graduate adviser.
An exploration of current research and theory in physiological psychology with emphasis on behavioral correlates and psychophysiology.
Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. To enroll in the seminar for the second time, the student must submit a petition to be approved by the professor of the course and the graduate adviser. Maximum credit six units applicable to a master's degree.

761. Seminar in Ethology and Comparative Psychology (3)
Prerequisites: Psychology 417 or Biology 354, or Biology 527, and consent of graduate adviser.
Current problems in ethology and comparative animal behavior. Course may be repeated provided it is offered by a different instructor and the subject matter is substantially different. Maximum credit six units applicable to a master's degree.

764. Seminar in Psychopharmacology and Behavioral Disorders (3)
Prerequisites: Psychology 260 and consent of graduate adviser.
Drugs as cause and cure of behavioral problems. A review of drugs commonly used to change behavior in primary schools, psychiatric centers, in-home programs and mental hospitals.

770A-770B. Experimental Design and Data Analysis in Behavioral Research (3-3)
Two lectures and two hours of activity.
Prerequisites: Psychology 370, 410, a passing score on the departmental statistics placement test, and consent of graduate adviser.
Principles and methods of behavioral research stressing interdependence of experimental design and statistical evaluation of results. General linear model in its regression and ANOVA formulations. Advanced multiple regression and multiple correlation techniques using computer-based statistical packages.

778. Special Topics in Research Design and Data Analysis in Psychology (1-3)
Prerequisites: Psychology 670A-670B or 770A-770B and consent of instructor.
Advanced, specialized statistical topics for psychological researchers. Examples include clustering (cluster analysis, multidimensional scaling), causal modeling (using LISREL or EQS), analysis of categorical data (emphasizing loglinear and logit models), nonparametric statistics, or analysis of quasi-experimental designs.

790. Practicum in the Teaching of Psychology (1) Cr/NC
Prerequisite: Awar of a graduate teaching assistantship in psychology.
Supervision in the teaching of psychology, covering lecture writing, style of lecture presentation, in-class demonstration and exercise, test and syllabi construction, and grading system. Not applicable to an advanced degree.

791. Internship in Program Evaluation (1-6) Cr/NC/SP
Up to 20 hours of supervised work per week in a program approved internship setting.
Prerequisites: Psychology 630, and consent of instructor.
Supervised training in program evaluation in a program approved internship setting. Maximum credit six units.

792. Internship in Industrial and Organizational Psychology (1-6) Cr/NC/SP
Up to 20 hours of supervised work per week in a program approved internship setting.
Prerequisite: Consent of instructor. Credit or concurrent registration in Psychology 621 and 622.
Supervised training in industrial and organizational psychology in a program approved internship setting. Maximum credit six units.

797. Research (1-3) Cr/NC/SP
Prerequisite: Consent of graduate adviser.
Research in one of the fields of psychology. Maximum credit six units of 797 and 798 combined applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of graduate adviser.
Individual projects involving library or laboratory research in any area of psychological investigation or interest. Maximum credit of six units of 797 and 798 applicable to a master's degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master's degree. Credit is contingent upon acceptance of the completed thesis by the Department of Psychology.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

801. Seminar in History and Ethics in Psychology (3)
Prerequisite: Admission to doctoral program in clinical psychology.
Historical background of modern psychology; in-depth examination of the American Psychological Association code of ethics and its application to the conduct of clinical psychologists.

840. Seminar in Personality and Social Psychology (3)
Prerequisite: Admission to doctoral program in clinical psychology.
Research and theory in personality and social psychology. Theories of personality and individual differences, group processes, sex roles, social perception, and cross-cultural issues.
841. **Seminar in Biobehavioral Foundations in Behavioral Medicine (3)**
Prerequisite: Admission to doctoral program in clinical psychology or approval by instructor and program director.
Basic physiological and learning processes in health and disease to develop understanding related to clinical and research practice in field. Preparation for Psychology 842.

842. **Behavioral Medicine Seminar: Assessment (3)**
Prerequisites: Admission to the doctoral program, or approval by instructor and program director, and Psychology 841.

843. **Behavioral Medicine Seminar: Intervention (3)**
Prerequisites: Admission to the doctoral program and Psychology 842.
Design and implement interventions by stressing empirically supported approaches to improve health and change health behaviors. Strengths and weaknesses of clinical community interventions.

849. **Seminar and Laboratory in Counseling and Psychotherapy (4)**
Two lectures and six hours of laboratory.
Prerequisite: Consent of graduate adviser.
Supervised practice in application of psychotherapeutic and counseling techniques from selected cognitive, dynamic, interpersonal, and behavioral approaches. Open only to students accepted in the doctoral program. (Formerly numbered Psychology 650.)

850. **Seminar in Theory and Practice in Clinical Interventions (3)**
Prerequisite: Admission to doctoral program in clinical psychology.
Theory and application of clinical interventions, advanced study of interviewing techniques, behavioral interventions, cognitive/behavioral interventions, and family/child interventions.

852. **Seminar in Experimental Psychopathology Research (4)**
Prerequisites: Admission to the doctoral program in clinical psychology.
Analysis of experimental and theoretical literature as it pertains to research methodology for the study of disordered behavior.

853. **Advanced Seminar in Experimental Psychopathology (4)**
Prerequisite: Admission to the doctoral program in clinical psychology.
Research design paradigms and methodological considerations used in conducting research in psychologically disordered groups. Strategies in the assessment of disordered groups.

855. **Seminar in Psychological Assessment I (4)**
Two lectures and six hours of laboratory.
Prerequisites: Psychology 350, 370, and consent of graduate adviser.
Theory and practice in assessment of intelligence and special abilities. Open only to students accepted in the doctoral program. (Formerly numbered Psychology 654.)

856. **Seminar in Psychological Assessment II (4)**
Two lectures and six hours of laboratory.
Prerequisites: Psychology 855 and consent of graduate adviser.
Theory and practice in assessment of special abilities, personality and behavior disorders. Open only to students accepted in the doctoral program. (Formerly numbered Psychology 655.)

860. **Seminar in Physiological Foundations of Behavior (3)**
Prerequisite: Admission to the doctoral program in clinical psychology.
Research and theory in physiological psychology. Advanced study of biological rhythms, sleep and waking, stress responses, the neurophysiology of learning and memory, and research methods in physiological psychology.

894. **Clinical Internship (3-15)**
Prerequisites: Completion of coursework, second year project, and advancement to candidacy.
Clinical training in an APA-approved internship setting.

895. **Practicum in the Teaching of Psychology (1-6) Cr/NC**
Prerequisite: Admission to doctoral program in clinical psychology.
Supervision in the teaching of psychology, covering lecture writing, style of lecture presentation, in-class demonstration and exercises, test and syllabi construction, and grading systems.

896. **Clinical Practicum (1-15)**
Prerequisite: Admission to the doctoral program.
Supervision of advanced intervention strategies applied to clinical populations.

897. **Doctoral Research (1-15) Cr/NC/SP**
Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

898. **Doctoral Special Study (1-8) Cr/NC/SP**
Prerequisite: Admission to the doctoral program.
Individual study in the field of specialization. Maximum credit eight units applicable to the doctoral degree.

899. **Doctoral Dissertation (3-15) Cr/NC/SP**
Prerequisites: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.
Public Administration and Urban Studies

In the College of Professional Studies and Fine Arts

Faculty
Louis M. Rea, Ph.D., Professor of Public Administration and Urban Studies, Director of School
Nico Calavita, Ph.D., Professor of Public Administration and Urban Studies
Roger W. Caves, Ph.D., Professor of Public Administration and Urban Studies (M.C.P. Graduate Adviser)
James A. Clapp, Ph.D., Professor of Public Administration and Urban Studies
James A. Gazell, Ph.D., Professor of Public Administration and Urban Studies
Stuart H. Gilbreath, Ph.D., Professor of Public Administration and Urban Studies
G. Thomas Gitchoff, D. Crim., Professor of Public Administration and Urban Studies
Dipak K. Gupta, Ph.D., Professor of Public Administration and Urban Studies
Lawrence A. Herzog, Ph.D., Professor of Chicana and Chicano Studies
Darrell L. Pugh, Ph.D., Professor of Public Administration and Urban Studies (M.P.A. Graduate Adviser)
Glen W. Sparrow, Ph.D., Professor of Public Administration and Urban Studies
L. Paul Sutton, Ph.D., Professor of Public Administration and Urban Studies
Dalton S. Lee, D.P.A., Associate Professor of Public Administration and Urban Studies
Robert L. Stock, Ph.D., Associate Professor of Public Administration and Urban Studies
Patricia A. Wilson, D.P.A., Associate Professor of Public Administration and Urban Studies
M. Celeste Murphy, Ph.D., Assistant Professor of Public Administration and Urban Studies
Natalie Pearl, Ph.D., Assistant Professor of Public Administration and Urban Studies

General Information
Public Administration and Urban Studies offers graduate study leading to the Master of Public Administration degree, and the Master of City Planning degree. Research facilities provided include the Institute of Public and Urban Affairs and the Public Administration Center. The San Diego metropolitan community affords significant internship opportunities for the graduate student in federal, state, and local government agencies.

The Public Administration and Urban Studies' M.P.A. degree is accredited by the National Association of Schools of Public Affairs and Administration (NASPAA) and listed on its annual roster of accredited programs found to be in conformity with standards established for professional master’s degrees in public affairs and administration.

Master of Public Administration Degree
This degree permits the selection, under advisement, of a program of course and seminar work which may be oriented toward a generalist approach or with a research focus on organizational behavior and development, public policy, fiscal policy and administration, recreation administration, or urban administration. Also offered are concentrations in criminal justice administration, public telecommunications administration and city planning, each consisting of 15 units within the required program for the Master of Public Administration. Since management responsibilities are shared by administrators in a number of professional areas in the public service, the student is encouraged to supplement the study of government and administration with graduate courses in economics, sociology, psychology, business administration, and other related areas.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. The student must also satisfy the following requirements: (1) a 3.0 grade point average in the undergraduate major and a 2.75 overall average; (2) an acceptable score on the GRE General Test; (3) two letters of reference from individuals who have known the student’s academic work and/ or employment performance; and (4) satisfactory completion of Public Administration 450 or equivalent course, and at the discretion of the graduate adviser students should have suitable background in social science statistics.
Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin and be recommended by the faculty. In order to be recommended for advancement, a student must have achieved a grade point average of 3.5 in Public Administration 600 and three additional courses from among Public Administration 604, 605 or 606, 630, 642, 650, 660, with no grade below B–.

Specific Requirements for the Master of Public Administration Degree

(Major Code: 21021)

In addition to meeting the requirements for classified graduate standing, the student must satisfy the basic requirements for the master’s degree as described in Part Two of this bulletin. Students must also complete as a part of their programs: (1) at least 27 units of 600- and 700-numbered courses including Public Administration 600, 604, 605 or 606, 630, 642, 650 and 660; (2) a minimum of nine additional units of 500 level or graduate courses in public administration or related fields selected under advisement. An internship of 12 units (one semester) beyond the 36 units of coursework is required of students who have not had equivalent experience. The internship normally will be served in a governmental agency where the intern will perform duties of an administrative nature. Placements typically will be made in the office of a city manager, a budget office, a personnel office or in the office of the head of a major operating department. Public Administration 799A, Thesis, must be included in the program unless Plan B with a comprehensive written examination in lieu of the thesis is selected by the student with the approval of a graduate adviser; and (3) Students who specialize in Public Personnel and Labor Relations must take Public Administration 530, 531, 632, 633, and 643.

Concentration in Criminal Justice Administration

(Major Code: 21051)

Students must complete 15 units from the following courses as part of the M.P.A. degree:
- CJA 601 Seminar in the Administration of Criminal Justice (3)
- CJA 602 Seminar in the Criminal Justice System as a Social Institution (3)
- CJA 604 Seminar in Criminal Justice and Urban Administration (3)
- CJA 791 Seminar in Readings in Criminal Justice Administration (3)
- CJA 797 Research in Criminal Justice Administration (3) Cr/ NC/ SP

Concentration in Public Telecommunications Administration

(Major Code: 21021)

Students must complete 12 units from the following courses as part of the M.P.A. degree: Six units from:
- COMM 575 Technological Trends in Telecommunication (3)
- COMM 762 Seminar: Public Telecommunications (3)
- COMM 766 Seminar: Telecommunication Issues and Trends (3)

and six units from:
- COMM 503 Government and Telecommunications (3)
- COMM 575 Technological Trends in Telecommunication (3)
- COMM 591 International Telecommunications (3)
- COMM 700 Seminar: Telecommunications Management (3)
- COMM 705 Seminar: Communication Policy and Regulation (3)
- COMM 762 Seminar: Public Telecommunication (3)
- COMM 766 Seminar: Telecommunication Issues and Trends (3)
- TFM 562 Documentary and Propaganda Film/Television (3)

Concentration in City Planning

(Major Code: 02061)

Students must complete the following courses as part of the M.P.A. degree:
- PA 525 The U.S. City Planning Process (3)
- CP 630 Seminar in Urban Planning Implementation (3)
- CP 640 Seminar in Urban Planning Theory (3)
- CP 670 History of Urban Planning (3)
- CP 690 Seminar in Land Use Planning Principles and Techniques (3)

Master of City Planning Degree

Admission to Graduate Study

All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. The student must possess a bachelor’s or higher degree in sociology, geography, political science, economics, architecture, or landscape architecture, or any fields related to planning (students with degrees other than those listed may be allowed to enter the program under appropriate conditions). In the event that deficiencies occur in a student’s background and training, the graduate committee will examine the student’s past record and recommend a program to make up the deficiencies.

Students seeking admission to the graduate program in urban planning which leads to the Master of City Planning degree should address their inquiries to the director of the program. Detailed instructions concerning application procedures will be sent to the applicant along with all necessary forms. As there are specific requirements for the program it is not sufficient merely to file the general university admission forms. Students are admitted to the program in the fall and spring semesters of each year.

Up on admission to the program, the student must meet with the graduate adviser to determine the number of units of internship needed to satisfy the degree requirements.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin and be recommended by faculty. In order to be recommended for advancement, a student must have (1) achieved a grade point average of 3.0 in 15 units of city planning courses, or (2) passed satisfactorily a written examination in areas of deficiency. The examination will be offered at the end of the spring semester for all students who have completed 12 or more units of study toward the master’s degree.
Specific Requirements for the Master of City Planning Degree
(Major Code: 02061)

In addition to meeting the requirements for classified graduate standing for the purpose of pursuing the Master of City Planning degree, the student must complete an approved program of studies consisting of at least 48 units of approved 500-, 600-, and 700-numbered courses, with no more than nine units of 500-level courses, to include:

1. Public Administration 525, the U.S. City Planning Process (3)
   City Planning 625, Quantitative Techniques in Urban Planning (6)
   City Planning 630, Seminar in Urban Planning Implementation (3)
   City Planning 640, Seminar in Urban Planning Theory (3)
   City Planning 670, History of Urban Planning (3)
   City Planning 690, Seminar in Land Use Planning Principles and Techniques (3)
   City Planning 700, Urban Design and Land Use Planning Studio (6)
2. Nine units of 600- and 700-numbered courses in planning elective courses, readings and research.
3. City Planning 796, Internship in Urban Planning (3-6) Cr/NC
4. Public Administration 604, Methods of Analysis in Public and Urban Affairs (3)
5. Other electives to complete program selected with the approval of adviser.
6. Students in Plan B are required to pass comprehensive written examinations in general city planning and in three areas of study. Students who have approval of the graduate adviser to pursue Plan A must include on their programs City Planning 799A, Thesis.

At least 39 units must be completed in residence at San Diego State University, and at least 24 units of program courses shall be enrolled in and completed after advancement to candidacy. Not more than a total of nine units in courses 797 and 798 will be accepted for credit toward the degree.

Courses Acceptable on Master's Degree Programs in Public Administration and Urban Studies

**Criminal Justice Administration**

**UPPER DIVISION COURSES**

502. Juvenile Deviance and the Administration Process (3)
Prerequisite: Criminal Justice Administration 321.
Problems of implementing and evaluating policies and programs for prevention of juvenile delinquency and treatment of juvenile offenders; an assessment of the proposed standards and goals for juvenile justice administration.

510. Contemporary Issues in Law Enforcement Administration (3)
Prerequisite: Criminal Justice Administration 310.
Assessment of problems confronting administrators of law enforcement agencies and of recent efforts to enhance the capability of agencies to control criminal activity while guarding individual liberties.

520. Prosecutorial Function in Administration of Justice (3)
Prerequisite: Criminal Justice Administration 301.
Analysis of prosecutor’s function at local, state and federal levels and in selected foreign nations, including appraisal of proposed national standards and goals for prosecutors.

531. Probation and Parole (3)
Prerequisite: Criminal Justice Administration 330.
Basic concepts, history, legislation, and practices used in work with juveniles and adults who have been placed on probation or parole; criteria of selection, methods of supervision, and elements of case reporting.

540. Applied Planning, Research and Program Evaluation in Criminal Justice Administration (3) I, II
Prerequisite: Criminal Justice Administration 301.
Application of planning, research and program development and evaluation principles to the field of criminal justice.

543. Community Resources in Criminal Justice Administration (3)
Prerequisite: Criminal Justice Administration 301.
Exploration of present and probable roles of public and private agencies and volunteers in criminal justice administration.

**Public Administration**

**UPPER DIVISION COURSES**

510. Intergovernmental Relations in the United States (3) I
Prerequisite: Public Administration 310 or 312 or 315.
Constitution, political and administrative characteristics of American federalism, including regionalism, interstate compacts, and grants-in-aid.

512. The Metropolitan Area (3)
Prerequisite: Public Administration 310 or 312.
Problems of government and administration arising from population patterns and physical and social structures of metropolitan areas.

520. Decision Making in the Urban Community (3)
Prerequisite: Public Administration 310.
Processes of decision making in the management of urban communities.

525. The U.S. City Planning Process (3) I
Prerequisite: Public Administration 302 or graduate standing.
Description and critique of traditional city planning process; styles and roles of city planner; city planning values and ethics.

530. Negotiation and Bargaining in the Public Service (3)
Prerequisite: Public Administration 301.
Specific issues such as strategies, the effects of threat, the physical setting, use of a third-party observer and theories of advocacy. Emphasis on analyzing simulations of the bargaining process and developing effective negotiation skills.
531. Governmental Employer-Employee Relations (3)
Prerequisite: Public Administration 330.
Historical development, legal basis, and organizational implications of governmental employer-employee relations; emphasis on California local government.

540. Public Administrative Systems Analysis (3)
Prerequisites: Public Administration 301 and a statistics course.
Systems and organization analysis; work standards and units; procedures analysis; administrative planning.

550. Budgetary and Financial Administration in the Public Sector (3)
Prerequisites: Public Administration 301 and 450.
Management trends in public sector financial administration; budgetary procedures and techniques; control and monitoring systems. Cash management, capital projects management, debt administration, disbursement, funds management, and auditing.

570. Administrative Law (3)
Prerequisite: Public Administration 301.
The law of public office and public officers, powers of administrative authorities, scope and limits of administrative powers, remedies against administrative action.

580. Comparative Public Administration (3)
Prerequisite: Public Administration 301.
Administrative organization and process of selected foreign and American governments. Analysis of the cultural basis of administrative systems.

Public Administration

GRADUATE COURSES

600. Scope of Public Administration (3)
Prerequisite: Six upper division units in public administration.
The development of public administration as an academic discipline; a systematic evaluation of the rise and operations of large-scale public bureaucracies.

604. Methods of Analysis in Public and Urban Affairs (3)
Prerequisite: Credit or concurrent registration in Public Administration 600.
Research design for problems in public affairs; summarizing and organizing data; methods of projection; sampling theory and application; using census and other secondary data sources.

605. Seminar in Research Methods in Public Administration (3)
Prerequisites: Public Administration 600 and 604.
Examination of basic research approaches, i.e., legal, historical, and small-group, etc.

606. Seminar in Quantitative Approaches to Public Administration (3)
Prerequisites: Public Administration 600 and 604.
Advanced techniques for analyzing problems in public and urban affairs; emphasis on computer applications.

620. Seminar in Management of Urban Governments (3)
Selected problems in the management of urban governments. Maximum credit six units applicable to a master’s degree.

621. Seminar in the Metropolitan Area (3)
Prerequisite: Public Administration 310, 512 or 520.
Selected problems in the government and administration of the world’s major metropolitan areas.

630. Seminar in Public Personnel Administration (3)
Prerequisite: Public Administration 600.
Analysis of selected problems in personnel administration; special emphasis on organizational development and consultation skills as emerging personnel functions. Maximum credit six units applicable to a master’s degree.

632. Seminar of Organization Development in the Public Sector (3)
Prerequisite: Public Administration 600.
Organization development theory and practice. Emphasis on organizational diagnosis, intervention theory, team building and process consultation skills as they apply to public sector organizations.

633. Collective Bargaining in the Public Sector (3)
Prerequisite: Public Administration 530 or 531.
Simulation of public sector collective bargaining. Students will participate in all facets of the bargaining process including data collection, proposal preparation, formal and informal negotiation, fact-finding and mediation. Videotape feedback will be used extensively.

640. Seminar in Public Administration (3)
Selected topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

642. Seminar in Administrative Theory (3)
Prerequisite: Public Administration 600.
Organization and management; the executive role, decision making; bureaucracy; authority and power; communication and control and organizational system; tactics and strategies in effective management.

643. Seminar in Administrative Behavior (3)
Prerequisite: Public Administration 340.
Intrapersonal, interpersonal and group development knowledge which enhances the administrator’s effectiveness. Simulations and structured experiential designs examine behaviors encountered in public bureaucracies.

650. Seminar in Public Financial Management (3)
Prerequisite: Public Administration 450.

660. Administration and Public Policy Development (3)
Prerequisite: Public Administration 600.
Social, political and administrative problems involved in governmental program development and change.

791. Readings in Public Administration (3) Cr/NC
Prerequisites: Public Administration 600 and advancement to candidacy.
Selected readings in the literature of public administration.
792. Problem Analysis  (3)

796. Internship in Public Administration  (3-12) Cr/NC
Prerequisite: Consent of instructor.
Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Admission by consent of instructor. Maximum credit twelve units.
The 12 units of 796 will be exempt from the University’s requirement that courses graded Cr/NC be limited to 30 percent of units for the master’s degree.

797. Research in Public Administration  (3) Cr/NC/SP
Prerequisite: Consent of director of public administration and urban studies.
Research in one of the areas of public administration. Maximum credit six units applicable to a master’s degree.

798. Special Study  (1-3) Cr/NC/SP
Prerequisite: Consent of staff, to be arranged with the director and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis  (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension  (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

City Planning

GRADUATE COURSES

620. Seminar in Urban Planning Methodologies  (3)
Procedures and analytical techniques for advanced urban planning analysis.

625. Quantitative Techniques in Urban Planning  (6)
Three lectures and nine hours of laboratory.
Prerequisite: Public Administration 604.
Contemporary techniques and methodologies of planning analysis; a practicum emphasizing survey research, environmental impact techniques; case studies in demographic and economic analysis.

630. Seminar in Urban Planning Implementation  (3)
Prerequisite recommended: City Planning 620.
Analysis of the content and function of zoning, subdivision regulation, codes, capital budgeting, urban renewal, model cities, and other implementation methods and programs.

635. Seminar in Housing and Housing Policy  (3)
Study, definition and analysis of housing needs and problems. Public policies and programs addressed to housing issues. Alternative solutions and the role of the private and public sectors.

640. Seminar in Urban Planning Theory  (3)
Prerequisite recommended: City Planning 630.
Alternative theories of planning and organization of the planning function. Emphasis on conceptual foundations, relationship to governmental structure, decision making, and ideological and ethical orientations.

650. Seminar in Urban Theory  (3)
Study of the various empirically and normatively based theories of the city and urbanization process, with emphasis on communication and transaction and institutional approaches.

665. Seminar in Urban and Regional Planning Analysis  (3)
Theories and techniques of urban and regional planning analysis.

670. History of Urban Planning  (3)
History of urban development and of the field of urban planning.

680. Seminar in Readings in Urban Planning  (3)
Selected topics in urban planning. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

685. Seminar in International Environmental Planning  (3)
Prerequisite: Public Administration 525.
Relationship between economic development and environmental protection policies in developing nations. Role of environmental issues in development and planning decisions. Emphasis on Mexican experience and its relevance to San Diego region.

690. Seminar in Land Use Planning Principles and Techniques  (3)
Two lectures and three hours of laboratory.
Prerequisite: City Planning 630.
Land-use and physical planning principles and techniques at the regional, community, specific and subdivision planning levels.

700. Urban Design and Land Use Planning Studio  (6)
One lecture and ten hours of laboratory.
Prerequisite: City Planning 690.
Preparation of land-use plans and planning reports at the regional, community and subdivision planning levels.

710. Seminar in Theories of Urban Design  (3)
Perspectives and methodologies of contemporary urban design and its contribution toward improving the quality of the physical, social, and economic environment.

720. Seminar in Land Use and Environmental Law  (3)
Cases and studies in zoning, coastal planning, growth management, and environmental assessment.

730. Seminar in Urban Transportation Planning  (3)
Issues, techniques, and practices in urban transportation planning with general emphasis on interrelations between transportation and land use planning.

796. Internship in Urban Planning  (3-12) Cr/NC
Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Maximum credit twelve units.
Public Administration and Urban Studies

797. Research in Urban Planning (3) Cr/NC/SP
Prerequisite recommended: Consent of director of city planning program.
Research in one of the areas of urban planning. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite recommended: Consent of staff.
To be arranged with director of city planning and instructor. Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

Criminal Justice Administration

GRADUATE COURSES

601. Seminar in the Administration of Criminal Justice (3)
Prerequisite: Criminal Justice Administration 301. Administrative problems of criminal justice systems.

602. Seminar in the Criminal Justice System as a Social Institution (3)
Prerequisite: Criminal Justice Administration 301. Examination of criminal justice system as both cause and consequence of social change; nature of institutional change with application to criminal justice system components.

604. Seminar in Criminal Justice and Urban Administration (3)
Prerequisite: Criminal Justice Administration 540. Critical analysis of influences on crime control and the criminal justice process of actions by urban administrators, legislators and the private sector in areas such as housing, education, public health and transportation, and urban development policies.

696. Selected Topics in Criminal Justice Administration (3)
Prerequisite: Criminal Justice Administration 601 or 602. Analysis of contemporary issues of major import to the administration of criminal justice. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

791. Seminar in Readings in Criminal Justice Administration (3)
Prerequisite: Six graduate units in criminal justice administration. Selected readings in the literature of criminal justice administration.

796. Internship in Criminal Justice Administration (3-12) Cr/NC
Prerequisite: Consent of instructor.
Students will be assigned to various government agencies and will work under joint supervision of agency heads and the course instructor. Participation in staff and internship conferences. Maximum credit twelve units.

797. Research in Criminal Justice Administration (3) Cr/NC/SP
Prerequisite: Consent of coordinator of criminal justice administration. Research in one of the areas of criminal justice administration. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with coordinator and instructor. Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
Public Health

In the College of Health and Human Services

Faculty

Office of the Director
Kenneth J. Bart, M.D., M.P.H., M.S.H.P.M., Professor of Public Health, Director
John B. Conway, Ph.D., Professor of Public Health, Associate Director
Albert Chang, M.D., M.P.H., Professor of Public Health
Winnie O. Willis, R.N., Sc.D., Professor of Public Health
Ophelia V. Dirige, Dr.P.H., Adjunct Professor of Public Health

Epidemiology and Biostatistics
Stephanie K. Brodine, M.D., Professor of Public Health, Division Head
Stephen J. Bender, H.S.D., M.P.H., Professor of Public Health
Elena S. H. Yu, Ph.D., M.P.H., Professor of Public Health
Louise K. Hofherr, Ph.D., M.P.H., Associate Professor of Public Health
Richard A. Shaffer, Ph.D., M.P.H., Associate Professor of Public Health
John E. Alcaraz, Ph.D., Assistant Professor of Public Health
Louise S. Gresham, Ph.D., M.P.H., Research Associate Professor of Public Health
Hoda Anton-Culver, Ph.D., Adjunct Professor of Public Health
Gail F. Cooper, Adjunct Professor of Public Health
James Dobins, M.D., Adjunct Professor of Public Health
Miguel Fragoso, M.D., Adjunct Associate Professor of Public Health
Ned S. Stoughton, M.D., Adjunct Associate Professor of Public Health
Robert E. Vryheid, Ph.D., Adjunct Associate Professor of Public Health
Leslie U. Ray, M.A., Adjunct Assistant Professor of Public Health
Elizabeth R. Ledbetter, M.D., Lecturer in Public Health

Biostatistics and Biometry
Donald L. Slymen, Ph.D., Professor of Public Health
John E. Alcaraz, Ph.D., Assistant Professor of Public Health

Health Promotion
John P. Elder, Ph.D., M.P.H., Professor of Public Health, Division Head
Melbourne F. Hovell, Ph.D., M.P.H., Professor of Public Health
Joni A. Mayer, Ph.D., Professor of Public Health
Gregory A. Talavera, M.D., M.P.H., Assistant Professor of Public Health

Terry L. Conway, Ph.D., Research Professor of Public Health
Mary M. Mulvihill, Ph.D., Research Associate Professor of Public Health
Bradley Collins, Ph.D., Research Assistant Professor of Public Health
Joachim O. Reimann, Ph.D., Research Assistant Professor of Public Health

Health Services Administration
Stephen J. Williams, S.M., Sc.D., Professor of Public Health, Division Head
Alma L. Koch, Ph.D., M.P.H., Professor of Public Health
K. Michael Peddecor, Dr.P.H., Professor of Public Health
Dennis D. Pointer, Ph.D., Professor of Public Health, The John J. Hanlon Chair in Health Services Research and Policy
Robert L. Seidman, Ph.D., Associate Professor of Public Health
David V. Kraus, M.S.P.H., J.D., Lecturer in Public Health
James W. Ledwith, M.B.A., Lecturer in Public Health

Occupational and Environmental Health
Richard M. Gersberg, Ph.D., Professor of Public Health, Division Head

Environmental Health
Richard M. Gersberg, Ph.D., Professor of Public Health
P.J.E. (Jenny) Quintana, Ph.D., M.P.H., Assistant Professor of Public Health

Occupational Health
Behzad S. Samimi, M.S.P.H., Ph.D., C.I.H., Professor of Public Health
William G. Hughson, Ph.D., M.D., Adjunct Professor of Public Health
Hamid Fonooni-Fard, Ph.D., C.I.H., Lecturer in Public Health
David A. Ingrum, M.D., Lecturer in Public Health

Toxicology
Ann de Peyster, Ph.D., Professor of Public Health
Stephen B. Harris, Ph.D., Research Associate Professor of Public Health
Anthony S. Managuerra, Jr., Pharm.D., Adjunct Professor of Public Health
David K. Monteith, Ph.D., Adjunct Professor of Public Health
Greg Stephen, Ph.D., Adjunct Professor of Public Health
Michael Templin, Ph.D., Adjunct Professor of Public Health
Steven W. Durham, M.P.H., Lecturer in Public Health
The John J. Hanlon Chair in Health
Services Research and Policy

Alvarado Hospital Medical Center has joined with SDSU’s faculty and staff to create The John J. Hanlon Chair in Health Services Research and Policy in the Graduate School of Public Health. The chair is named in honor of the late Dr. John J. Hanlon, former assistant surgeon general for the U.S. Public Health Service. Dr. Hanlon coordinated the planning and development of SDSU’s Graduate School of Public Health.

The first appointee to the Chair, Dr. Dennis Pointer, is a national authority on health care organization, governance, strategy, and management.

General Information

APPLICATION DEADLINES: For students applying for the MPH, MS, and MD/MPH, both the GSPH and SDSU applications must be postmarked by July 1 for fall semester admission, or December 1 for spring semester admission (transcripts, letters of recommendation, and GRE scores can arrive after these dates). Students applying for the Ph.D. must submit all application materials (applications, transcripts, letters of recommendation, and GRE scores) by February 1, for fall admission only.

Students interested in the MSW/MPH should contact the School of Social Work. The completed application is due March 1.

The Graduate School of Public Health offers advanced study leading to the degrees of Doctor of Philosophy, Master of Public Health, Master of Science, and a program that allows students to earn the Master of Public Health and the Master of Social Work, and a Doctor of Medicine and Master of Public Health, concurrently. The Ph.D. is offered with a concentration in epidemiology; the M.P.H. with concentrations in the areas of biometry, environmental health, epidemiology, health promotion, and health services administration. The concentrations in the M.S. degree are in the areas of environmental health science, industrial hygiene, and toxicology.

In addition to these advanced degree programs, the school offers a preventive medicine residency program that prepares qualified physicians to sit for the American Board of Preventive Medicine certification examination. Residents may receive the M.P.H. degree along with completion of this residency program. Finally, the public health faculty directs academic study leading to a Bachelor of Science degree in health science for the undergraduate students interested in community health education. For more information concerning this undergraduate program, see the General Catalog.

The Graduate School of Public Health is nationally accredited by the Council on Education for Public Health (CEPH). The graduate program in health services administration is accredited by the Accrediting Commission on Education for Health Services Administration (ACEHSA), and the preventive medicine residency program is accredited by the Accrediting Commission for Graduate Medical Education (ACGME).

The curriculum in the Graduate School of Public Health has been designed to prepare students as practitioners of public health as well as for careers in teaching and research and as leaders in both public and private sector agencies and organizations. To accomplish this mission effectively, the faculty of the Graduate School of Public Health is augmented by expert practitioners in specialized fields related to public health who contribute to both the academic and practical experiences of students pursuing public health degrees. These professionals, who hold research or adjunct professorships in the school, come from a variety of settings such as departments of health, the military services, hospitals, HMOs, managed care agencies, industry, and other academic institutions.

The Graduate School of Public Health has established close cooperation between the GSPH at San Diego State University and the Department of Family and Preventive Medicine in the School of Medicine at the University of California, San Diego. The UCSD medical school faculty has joined the public health faculty at SDSU in offering the Ph.D. in public health as well as the preventive medicine residency program. Under a special affiliation agreement between the two institutions, medical students at UCSD may take public health courses at SDSU while pursuing their medical studies and, if they choose, earn the M.D. and M.P.H. degrees concurrently. Likewise, SDSU students pursuing advanced study in the GSPH may enroll for specialized courses in the medical school.

This broad network of individual practitioners and the institutions they serve provides a variety of health facilities and breadth and depth of opportunity in which students at the GSPH may meet field studies and practicum requirements. Many of these opportunities are available not only in the San Diego region, but also in Mexico. The school’s proximity to the Mexican border has led to the development of strong professional ties between the faculty and students of the GSPH and their counterparts in Baja California. Special arrangements with Universidad Autonoma de Baja California enables students to take courses for credit at the Tijuana campus. This connection has produced a continuing series of jointly sponsored binational research and service projects designed to improve public health conditions and health services on both sides of the border.
Research
Faculty and student research in the broad interdisciplinary field of public health is conducted within the various specialized areas that are generally defined by the degree concentrations. The following descriptions illustrate the focus of research within each of these areas.

Biometry and Biostatistics: Development and application of statistical methods and models in the fields of public health, medicine and biology. A concentration in biometry and the scope of the academic and research opportunities in the University may be seen in the listing for the program in biostatistics and biometry presented earlier in this bulletin.

Environmental and Occupational Health Science: Isolation and identification of chemical and microbiological disease agents in air, water, soil, hazardous and other solid wastes. The M.S. program in environmental health science offers greater technical laboratory focus than the environmental health concentration for the M.P.H. degree.

Epidemiology and Biostatistics: Identification of biological, environmental, social and behavioral risk factors for human disease; determination of the distribution and etiology of disease in human populations, particularly infectious and chronic diseases.

Health Promotion: Behavioral science applied to health-related behavior for the identification of risk factors for physical and mental health "illnesses" and the experimental evaluation of interventions aimed at changing risk practices or promoting health enhancing behavior; emphasis is placed on high risk populations, such as low income, minority, women and children.

Health Services Administration: Management of health care facilities, services, and organizations; planning and evaluation of public and private sector programs; administration and operations in specialty services, hospitals, ambulatory care, insurance companies, HMOs and other health related organizations.

Industrial Hygiene: Recognition, evaluation and control of chemical, physical, and biological hazards in the workplace; current emphasis on studies of airborne contaminants and respiratory protection.

Toxicology: Study of toxicity, biologic mechanisms of action, and the health risk of exposure to chemicals in the environment.

Affiliated Research Centers
In an effort to serve better the community at large, the Graduate School of Public Health sponsors the Institute of Public Health. The Institute serves as the school’s bridge with the community, facilitating field practice opportunities, community-based research and program evaluations, and a venue for continuing education.

In addition, a number of research centers have been established to integrate the specialized research of its faculty and students. These are the California Center for Childhood Injury Prevention, the Center for Behavioral and Community Health Studies, the Center for Behavioral Epidemiology and Community Health, and the Center for Injury Prevention and Research. For more information on these centers, see Part Four of this bulletin.

Section I.
Master’s Degree Programs

Master of Public Health Degree
Admission to Graduate Study

Applicants seeking admission to public health concentration areas leading to either the Master of Public Health or Master of Science degree should contact the Graduate School of Public Health requesting appropriate application materials. Detailed information concerning application procedures will be sent to the applicant along with appropriate application forms.

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student seeking admission to the Graduate School of Public Health must: (1) submit a narrative statement as described in Instructions for Applicants; (2) submit three letters of recommendation (preferably academic); (3) present additional evidence of promise of success in academic and professional activities; and (4) demonstrate competence or prior academic preparation in the biological sciences, social sciences, and quantitative methods. Applicants for the biometry concentration are required to have successfully completed undergraduate courses in single and multivariable calculus.

Students who do not fully meet the requirements for admission with classified graduate standing may be considered for conditionally classified graduate standing upon recommendation of the admissions committee and the graduate coordinator.

Advancement to Candidacy
All students must: (1) meet the general requirements for advancement to candidacy as described in Part Two of this bulletin; (2) satisfactorily pass a faculty evaluation of the progress that they are making in their graduate course of study; (3) complete the core courses, Public Health 601, 602, 603, 604, 605 (students in health services administration will substitute Public Health 641 and 644A for Public Health 605 and students in health promotion will substitute Public Health 661 and 662 for Public Health 603); have a grade point average of at least 3.0 and no grade less than a B – in each core course completed; and (4) have completed at least 12 semester units of approved public health coursework.

In addition, the student must be recommended for advancement to candidacy by the faculty of the Graduate School of Public Health.

Specific Requirements for the Master of Public Health Degree
(Major Code: 12141)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 48 units
Public Health

(55 units for students in Health Services Administration Concentration) including: (1) twelve units of core courses, Public Health 601, 602, 603*, 604, and 605**; (2) a minimum of 21 units of graduate courses in the area of concentration; (3) a maximum of twelve units of supervised field placement (if the student has not had equivalent field experience); and (4) electives selected with the approval of the graduate adviser. In addition, Public Health 799A, Thesis, must be included in the program except in the biometry, health promotion, health services administration and maternal and child health concentrations where the student may select the Plan B option, with a comprehensive examination in lieu of the thesis or project when approved by the graduate adviser.

In the environmental health and occupational health concentrations, students registering for 799A may complete a major project or thesis. Up to six units of graduate credit may be accepted in transfer, with the approval of the graduate adviser.

*Students in Health Promotion will take Public Health 661 and 662 in lieu of Public Health 603.
**Students in Health Services Administration will take Public Health 641 and Public Health 644A in lieu of Public Health 605.

Concentration in Biometry

Courses required for the concentration:
PH 623 Epidemiological Methods (3)
PH 627 Advanced Statistical Methods in Public Health (3)
PH 628 Applications of Multivariate Statistics in Public Health (3)
STAT 551A Mathematical Statistics (3)
STAT 551B Mathematical Statistics (3)
STAT 552 Sample Surveys (3)

Prescribed Electives: Three units selected from the following Public Health courses:
PH 622 Epidemiology of Chronic Diseases (3)
PH 645 Public Health Surveillance (3)
PH 700A Seminar in Public Health: Epidemiology (3)

Prescribed Electives: Nine units selected with the approval of the adviser from the following Mathematics courses:
STAT 553 Stochastic Processes (3)
STAT 554A Computer Oriented Statistical Analysis (3)
STAT 554B Advanced Computer Oriented Statistical Analysis (3)
STAT 670A-670B Advanced Mathematical Statistics (3-3)
STAT 671 Statistical Computing (3)
STAT 672 Nonparametric Statistics (3)
STAT 674 Multivariate Analysis (3)
STAT 675 Linear Statistical Models (3)
STAT 677 Design of Experiments (3)
STAT 678 Survival Analysis (3)
STAT 679 Analysis of Discrete Data (3)
STAT 680A-680B Advanced Biostatistical Methods (3-3)

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Concentration in Environmental Health

Courses required for the concentration:
PH 632 Air Quality (3)
PH 634 Environmental Protection (3)
PH 639 Water Quality Investigation (3)

Prescribed electives (a minimum of six additional units selected with the approval of the adviser from):
PH 630 Environmental Health Risk Assessment (3)
PH 635 Occupational Medicine (3)
PH 636 Hazardous Waste Management (3)
PH 637 Biological Mechanisms of Environmental Toxicants (3)
PH 638A Principles of Toxicology (3)
PH 700C Seminar in Public Health: Occupational and Environmental Health (3)
PH 721 Environmental Epidemiology (3)
PH 731 Environmental and Occupational Health Policy (3)
PH 732 Principles of Industrial Hygiene (4)
PH 737A Chemical Agents, Recognition, Evaluation, and Assessment (3)
PH 737B Physical and Biological Agents, Recognition, Evaluation and Assessment (4)
PH 738 Topics in Toxicology (3)
PH 798 Special Study (1-3) Cr/ NC/ SP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Electives (6 units): These electives may include any public health course or selected graduate level courses in other departments with the approval of the faculty adviser.

Concentration in Epidemiology

Courses required for the concentration:
PH 621 Epidemiology of Infectious Diseases (3)
PH 622 Epidemiology of Chronic Diseases (3)
PH 623 Epidemiological Methods (3)
PH 627 Advanced Statistical Methods in Public Health (3)

Prescribed electives in Epidemiology (two courses selected from):
PH 625 Control of Infectious Diseases (3)
PH 628 Applications of Multivariate Statistics in Public Health (3)
PH 649 Public Health Surveillance (3)
PH 700A Seminar in Public Health: Epidemiology (3)
PH 720 Critical Readings in Epidemiology and Public Health (3)
PH 721 Environmental Epidemiology (3)
PH 722 Seminar in Clinical Trials (3)
PH 724 Advanced Methods in Epidemiology (3)
PH 726 AIDS Epidemiology and Public Health (3)
PH 729 Ethics for Epidemiology (3)
PH 823 Case-Control Studies (3)
PH 824 Cohort Studies (3)
PH 825 Grantwriting in Epidemiology and Public Health (1-3)

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Electives (3 units selected with the approval of the concentration faculty): These electives may include any public health course or selections from the following:
Biology 585, 588
Nutrition 600, 606, 607, 700
Statistics 550, 551A, 552, 554A, 672, 674, 677
Concentration in Health Promotion

Courses required for the concentration:
- PH 607 Research Methods and Proposal Writing (3)
- PH 661 Theoretical Foundations of Health Promotion (3)
- PH 662 Motivating Health Behavior (3)
- PH 663 Health Promotion Communications Theory and Design (3)
- PH 666 Health Promotion Program Planning and Assessment (3)

Prescribed electives (choose two or more different courses from):
- PH 664 Health, Society and Human Behavior (3)
- PH 667 Prevention and Control of Chronic Diseases (3)
- PH 668 Seminar in Health Promotion Research (3)
- PH 669 Health Risk Appraisal (3)
- PH 700F Seminar in Public Health: Health Promotion (3)
- PH 761 Programming Health Promotion (3)
- PH 762 Behavioral Medicine (3)
- PH 797 Research (3) Cr/NC/SP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Electives (6 units to be chosen with the approval of the faculty from any public health course or Community Health Education 574).

Concentration in Health Services Administration

Courses prerequisite to this concentration are Public Health 640 and Business Administration 650 or their equivalents as determined by the graduate adviser. If these courses or the equivalents have not been completed prior to admission, they should be included in the first semester course requirements.
- BA 650 Financial Accounting (2)
- PH 640 Public Issues in Financing Health Care (3)

Courses required for the concentration:
- PH 641 Introduction to Health Services (3)
- PH 644A Health Services Organization (3)
- PH 644B Health Services Management (3)
- PH 645 Health Economics (3)
- PH 646 Legal and Ethical Aspects of Health Care (3)
- PH 647A Quantitative Methods and Health Data Analysis (3)
- PH 647B Health Quality and Information Management (3)
- PH 742A Health Services Financial Management (3)
- PH 742B Financing Health Services and Systems (3)
- PH 748 Health Services Competitive Strategy and Marketing (3)

Prescribed electives (six units selected with approval of adviser). In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.
- PH 649 Public Health Surveillance (3)
- PH 700E Seminar in Public Health: Health Services Administration (3)
- PH 743 Hospitals and Health Systems (3)
- PH 744 Ambulatory and Group Practice Management (3)
- PH 746 Quality of Care Assessment and Assurance (3)
- PH 798 Special Study (1-3) Cr/NC/SP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

The remaining elective units may be selected with the approval of the adviser.

Master of Science Degree in Public Health

Admission to Graduate Study

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student seeking admission to the Graduate School of Public Health master of science programs must (1) submit a narrative statement as described in Instructions to Applicants; (2) provide three letters of recommendation preferably academic; (3) document competence or prior academic preparation in laboratory sciences.

Normally, to be considered for admission to these programs, a student must have successfully completed an undergraduate degree (BA or BS) in biology, chemistry, engineering, or other basic or applied natural science. A minimum of 63 semester units, or the equivalent, in the above areas with at least 15 units in junior, senior and/or postbaccalaureate/graduate level courses are expected as background science requirements for the industrial hygiene applicants. The Graduate School of Public Health should be consulted for specific course preparation recommended for each of the concentrations. In some cases, if an applicant is deficient in certain basic or applied science areas, some remedial coursework can be completed as an unclassified or conditionally classified graduate student. However, credits earned by remedial courses cannot be applied toward the required number of units for the master’s degree. The student must also have successfully completed PH 601 and PH 602 or their equivalents with a minimum grade of B– in both courses in order to become classified in the programs. PH 601 and PH 602 may not be included in the 36 units required for the degree. Students who do not meet all of the above requirements for admission with classified graduate standing may be admitted with conditionally classified graduate standing upon the recommendation of the admissions committee and the graduate adviser. Students so admitted will be advised as to remedial steps to take to satisfy the requirement to achieve classified graduate standing.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students completing master of science degree concentrations must (1) have satisfactorily completed at least 12 units of coursework of the 36-unit official program including at least two courses chosen from the list of courses required for the student’s concentration, with a minimum grade point average of 3.0 (B) and no grade less than a B–; (2) have a thesis proposal which has received the approval of the Graduate School of Public Health faculty.

General Requirements for the Master of Science Degree

(Major Code: 12141)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 36 units in
Public Health

the area of concentration or related disciplines as listed below. Up to six units may be accepted in transfer, with the approval of the graduate adviser. Requirements vary depending on the area of concentration and are as shown below:

<table>

* A 3-unit field practice is mandatory for industrial hygiene students and may be taken as an elective by students in the environmental health science and toxicology concentrations with approval of the academic adviser.

Specific Requirements for Master of Science Degree Programs

Concentration in Environmental Health Science

Courses required for the concentration (18 units):
- PH 630 Environmental Health Risk Assessment (3)
- PH 632 Air Quality (3)
- PH 634 Environmental Protection (3)
- PH 636 Hazardous Waste Management (3)
- PH 638A Principles of Toxicology (3)
- PH 639 Water Quality Investigation (3)

Prescribed electives (a minimum of 12 units of coursework selected from the following list with the approval of the faculty adviser):
- GEOL 551 Hydrogeology (3)
- PH 623 Epidemiological Methods (3)
- PH 637 Biological Mechanisms of Environmental Toxicants (3)
- PH 650 Field Practice (3) Cr/NC
- PH 700C Seminar in Public Health: Occupational and Environmental Health (3)
- PH 721 Environmental Epidemiology (3)
- PH 731 Environmental and Occupational Health Policy (3)
- PH 738 Topics in Toxicology (3)
- PH 798 Special Study (1-3) Cr/NC/SP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Concentration in Industrial Hygiene

Courses required for the concentration (20 units):
- PH 636 Hazardous Waste Management (3)
- PH 638A Principles of Toxicology (3)
- PH 732 Principles of Industrial Hygiene (4)
- PH 735 Industrial Ventilation (3)
- PH 736 Principles of Ergonomics (2)
- PH 737A Chemical Agents in the Workplace (3)
- PH 737B Physical and Biological Agents in the Workplace (2)

Prescribed electives (a minimum of seven units of coursework selected from the following list with the approval of the faculty adviser):
- PH 604 Environmental Determinants of Human Health (2)
- PH 632 Air Quality (3)
- PH 635 Occupational Medicine (3)
- PH 639 Water Quality Investigation (3)
- PH 700C Seminar in Public Health: Occupational and Environmental Health (3)
- PH 731 Environmental and Occupational Health Policy (3)
- PH 733 Principles of Industrial Safety (3)
- PH 798 Special Study (1-3) Cr/NC/SP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Concentration in Toxicology

Courses required for the concentration (18 units):
- PH 630 Environmental Health Risk Assessment (3)
- PH 636 Hazardous Waste Management (3)
- PH 637 Biological Mechanisms of Environmental Toxicants (3)
- PH 638A Principles of Toxicology (3)
- PH 638B Methods in Toxicity Testing (3)
- PH 738 Topics in Toxicology (3)

Prescribed electives (a minimum of 12 units of coursework selected from the following list with the approval of the faculty adviser):
- BIOL 561 Radiation Biology (3)
- BIOL 561L Radiation Biology Laboratory (2)
- BIOL 569 Molecular Pharmacology (3)
- CHEM 550 Instrumental Methods of Chemical Analysis (2)
- PH 627 Advanced Statistical Methods in Public Health (3)
- PH 632 Air Quality (3)
- PH 635 Occupational Medicine (3)
- PH 639 Water Quality Investigation (3)
- PH 650 Field Practice (3) Cr/NC
- PH 700C Seminar in Public Health: Occupational and Environmental Health (3)
- PH 721 Environmental Epidemiology (3)
- PH 731 Environmental and Occupational Health Policy (3)
- PH 732 Principles of Industrial Hygiene (4)
- PH 798 Special Study (1-3) Cr/NC/SP

In special circumstances, the graduate adviser may approve one course not on the list of prescribed electives. The substitution must be approved prior to enrollment in the course.

Master of Social Work and Master of Public Health Degrees

General Information

The Graduate School of Public Health and the School of Social Work offer a three year concurrent graduate program leading to a Master of Public Health and a Master of Social Work. The major objective of the concurrent program is to offer preparation in the fields of public health and social work for the purpose of providing the knowledge and skills necessary to promote health, prevent disease, and enhance the delivery of social and health services in the community.
Admission to Graduate Study

To request application materials for the concurrent graduate program in Social Work and Public Health, applicants should write to the Director of the MSW/MPH Advisory Committee, Graduate School of Public Health, San Diego State University. All necessary application forms, instructions for filling them, and information about the program will be sent. In order to be considered for the concurrent MSW/MPH program, applicants must:

1. Meet the general requirements for admission to graduate study at the University (see Part Two of this bulletin).
2. Have a minimum 2.75 grade point average in the last 60 semester or 90 quarter units in undergraduate work completed. Undergraduate preparation in at least one of the following areas is preferred: social work, social or behavioral sciences, or health science.
3. A satisfactory score on the GRE General Test. Applicants already holding another master’s degree or higher degree from an acceptable accredited graduate school are exempt from the GRE.
4. Submit a narrative statement as described in Instructions for Applicants.
5. Submit three letters of recommendation.

A committee composed of faculty from Public Health and Social Work will make all admission recommendations to the Dean of the Graduate Division.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. All core courses in public health and social work must be completed prior to advancement. In addition, the student must: (1) have earned at least 24 units of graduate study within the concurrent program with a minimum grade point average of 3.0 and no grade less than a B– in each core course; (2) have been recommended for advancement by the combined faculty advisory committee; received credit (Cr) in field practicum; (3) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Public Health 797 (Research), Social Work 797 (Research), and Social Work 799A (Thesis) or Social Work 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the M.S.W. and M.P.H. degrees.

Specific Requirements for the MSW/MPH Concurrent Program

(Major Code: 12991)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 83 units as outlined below.

Social Work/Public Health - Health Services Administration

Courses prerequisite to the program are Public Health 640 and Business Administration 650 or their equivalents as determined by the graduate adviser. If these courses or the equivalents have not been completed prior to admission, they should be included in the first semester course requirements.

BA 650 Financial Accounting (2)
PH 640 Public Issues in Financing Health Care (3)
SWORK 601 Seminar in Social Welfare Policy and Services (3)
SWORK 619 Human Behavior in the Social Environment (3)
SWORK 620B Seminar in Human Behavior and Social Environment: Administration (3)
SWORK 630 Social Work Practice: A Generalist Perspective (3)
SWORK 631 Social Work Practice: Individuals, Families, and Groups (3)
SWORK 632 Social Work Practice: Organizations and Communities (3)
SWORK 650* Field Practicum (7) Cr/NC
SWORK 690 Seminar in Social Work Research Methods (3)
SWORK 702C Seminar in Social Welfare Policy and Services: Health and Aging (3)
SWORK 740 Advanced Seminar in Social Work Administration (3)
SWORK 745 Advanced Seminar in Selected Topics in Social Work Administration (3)
SWORK 750B* Advanced Field Practicum: Social Work Administration (8) Cr/NC

SWORK 797 Research (3) Cr/NC/SP
PH 601 Epidemiology (3)
PH 602 Biostatistics (3)
PH 604 Environmental Determinants of Human Health (2)
PH 641 Introduction to Health Services (3)
PH 644A Health Services Organizations (3)
PH 644B Health Services Management (3)
PH 645 Health Economics (3)
PH 647A Quantitative Methods and Health Data Analysis (3)
PH 742A Health Services Financial Management (3)
PH 742B Financing Health Systems and Services (3)
PH 797 Research (3) Cr/NC/SP
PH 799A or SWORK 799A Thesis (3) Cr/NC/SP

*Social Work 650 and 750 (field practica) must have the approval of the faculty advisory committee. Responsibility for faculty field supervision will be assigned in social work.

Transfer units will not be accepted toward the concurrent MSW/MPH degree program. Graduate study or degrees obtained previously will not be accepted toward meeting the unit requirements of the concurrent MSW/MPH degree program.

If a student after entering the concurrent MSW/MPH program returns to a single degree program, all the requirements for the single degree program must then be met.
### Section II.
**Doctoral Program**

(Major Code: 12141)

**Ph.D. in Public Health with a Concentration in Epidemiology**

A Ph.D. in public health with a concentration in epidemiology is offered by the joint faculties of the Division of Epidemiology and Biostatistics, Graduate School of Public Health at San Diego State University, and the Department of Family and Preventive Medicine, School of Medicine at the University of California, San Diego. Emphasis is on producing graduates with a mastery of the central concepts and analytic processes of epidemiology for application to a multitude of disciplines. Specializations are offered through both campuses, including infectious and chronic diseases, exercise science, medical geography, and behavioral epidemiology. Graduates of this program are competitive in a variety of research, teaching, and community service positions in areas such as academic institutions, local and state health departments, federal and international agencies, and both privately and publicly sponsored research institutes.

### Admission to Doctoral Study

Applicants for admission to the doctoral program must present evidence of capacity for graduate study in public health. A multidisciplinary field such as public health draws from a wide variety of undergraduate majors, but the student is expected to have a strong grounding in the quantitative and biological sciences. The applicant must have a bachelor’s degree or the equivalent from an acceptable accredited institution of higher learning with training comparable to that provided by The California State University or University of California undergraduate programs. A master degree in epidemiology is preferred.

Admission to the program requires acceptance by both institutions on recommendation of the participating units at SDSU and UCSD. It is understood that acceptance of a student into the joint program by each of the units will be conditioned by their respective standards for graduate admissions and also the available facilities.

Applications must be received by the Graduate School of Public Health not later than December 15 for the Ph.D. program.

### Application

Preliminary application for admission must be made to the joint doctoral steering committee, in care of the Graduate School of Public Health, SDSU. A complete application to the joint doctoral program in public health requires the following information:

The appropriate application form.

Three letters of recommendation (sent directly to the Doctoral Program Coordinator, Graduate School of Public Health, SDSU).

Transcripts of academic work already completed.

Results of the Graduate Record Examination.

To be considered for admission to the joint SDSU-UCSD doctoral program in public health, students must meet the general requirements for admission to both universities with classified graduate standing as outlined in the respective current catalogs. These include (a) an acceptable baccalaureate degree from an institution accredited by a regional accrediting association or equivalent academic preparation, as determined by the deans of the two graduate divisions; (b) a GPA of at least 3.0 in the last 60 semester (90 quarter) units attempted; (c) good standing at the last institution attended; and (d) an acceptable score (verbal and quantitative) on the GRE General Test. Preference will be given to students with an M.P.H. or M.S. degree in epidemiology. Given the large number of applicants in the field of public health, and the limited number of spaces in the program, the selection process is designed to identify the best from among many highly qualified applicants. Thus no minimum set of qualifications in any way guarantees admission.

### Residency Requirements

After formal admission to the joint doctoral program, the student must spend at least one academic year in full-time residence on each of the two campuses. The definition of residence must be in accord with the regulations of San Diego State University and University of California, San Diego.

### Advisory Committee

Upon admission to the program, the steering committee of the two institutions will establish an advisory committee for the student. This committee will consist of three faculty members chosen jointly from the two institutions. In consultation with the student, the committee will develop the student’s course of study, prepare and guide a preliminary examination, and establish the student’s joint qualifying committee. At least one member of the advisory committee must be from SDSU and one from UCSD.

### Course Requirements

Core courses in epidemiology and biostatistics are offered at both SDSU and UCSD. Prior to taking the qualifying examination, every student is expected to have a firm understanding of modern principles of public health as well as knowledge and application of epidemiology and biostatistical methods. Elective coursework may be selected from offerings at both campuses.

**Course Requirements for Students with an Existing M.P.H. or M.S. Degree in Epidemiology**

**Epidemiology:** Public Health 623, 724, 800 (Doctoral Seminar in Epidemiology); six units in advanced study design selected from Public Health 722, 823, 824; and six-unit UCSD course series in applied epidemiology (FPM 259A, 259B, 259C).

**Biostatistics:** Public Health 628 and six units in advanced biostatistics.

**Electives:** 24 units in specialty area.

**Graduate Assistantship in Epidemiology:** 6 units

**Dissertation Research and Proposal:** 3-12 units

Students who do not possess an existing M.P.H. or M.S. degree in epidemiology are required to take the following additional courses: Public Health 601, 602, 621, 622, and 627. Once the student is matriculated at SDSU, the final curriculum will be determined by the doctoral advisory committee.

### Preliminary Examination

The preliminary examination will test knowledge and the application of epidemiology and biostatistical methods.

### Doctoral Committee

A five-member committee, composed of faculty at SDSU and UCSD, will be recommended by the advisory committee for each student and approved by the graduate deans from both campuses.
One member must be nonprogram faculty and at least one of those outside members must be a tenured member of each university. The student’s dissertation adviser will chair the committee. At least two members must be from SDSU and two from UCSD.

The doctoral committee will conduct a written and oral comprehensive qualifying examination, which will evaluate the student’s understanding and knowledge of his or her special area of epidemiologic interest. The purpose of this examination is for the student to demonstrate competence in the major research field.

The doctoral committee may specify a course of study to strengthen any weaknesses identified during the qualifying examination. Upon successful completion of the qualifying examination the student must make application to the Graduate Division at UCSD for advancement to candidacy. Upon payment of the candidacy fee to UCSD, and after approval by the graduate deans on both campuses, the student will be notified of advancement to candidacy by the UCSD Graduate Division.

**Faculty**

Faculty members of the cooperating institutions participate in the joint doctoral program in Public Health Epidemiology and are available for direction of research and as members of joint doctoral committees.

**Doctoral Faculty**

Stephanie K. Brodine, M.D., Professor of Public Health, Director
Deborah L. Wingard, M.D., Professor of Epidemiology, UCSD, Co-Director
Richard A. Shaffer, Ph.D., M.P.H., Associate Professor of Public Health, Coordinator

**San Diego State University:**

Bart, Bender, Chang, dePeyster, Elder, Gersberg, Hofherr, Hovell, Koch, Lindsay, Mayer, Peddecord, Pointer, Quintana, Samimi, Seidman, Slymen, Talavera, Williams, Willis, Yu

**University of California, San Diego:**

**Dissertation**

Following successful completion of the qualifying examination and advancement to candidacy, the major remaining requirement for the Ph.D. degree will be satisfactory completion of a dissertation consisting of original and significant research carried out under the guidance of the dissertation adviser, who may be from either SDSU or UCSD. The doctoral committee becomes the dissertation committee after the student’s advancement to candidacy. Requirements currently in force at SDSU and UCSD must be met for completing and filing the dissertation.

**Award of the Degree**

The Doctor of Philosophy degree will be awarded jointly by the Trustees of The California State University and the Regents of the University of California in the names of both institutions.

**Financial Support**

The Graduate School of Public Health at SDSU and the Department of Community and Family Medicine at UCSD endeavors to provide financial support that will enable all students to devote full time to research training and study.

**Medical Students Interested in Obtaining the Master of Public Health (M.P.H.) Degree**

San Diego State University, Graduate School of Public Health, and University of California, San Diego, School of Medicine, offer a collaborative education effort to enable UCSD medical students to also obtain the M.P.H. degree. The program is designed for those UCSD medical students who anticipate careers in one or more of the following fields: public health, preventive medicine, maternal and child health, epidemiology, occupational and/or environmental health, health promotion, health services administration, or aerospace medicine, and to those with special interest in such areas as nutrition, demography, international health, and behavioral medicine. In addition, it provides public health training for those planning careers in family practice, pediatrics, general internal medicine, and other aspects of primary care who wish to enhance their knowledge and skills in clinical preventive medicine and in the managerial aspects of health care. The M.P.H. degree or an equivalent academic experience is required for certification by the American Board of Preventive Medicine.

With approval, certain UCSD courses can be counted toward fulfilling the M.P.H. degree requirement at the SDSU Graduate School of Public Health.

Further information about these programs can be obtained from the Dean of Students, Maria Savoia, M.D., (858) 534-3703 or Michael Criqui, M.D., (858) 534-3723.

### Preventive Medicine Residency Certificate

The purpose of the Preventive Medicine Residency Certificate is to train physicians to assure that they have adequate knowledge, attitudes, and skills germane to general preventive medicine and occupational medicine. The physician will be eligible to sit for the board certification examination administered by the American Board of Preventive Medicine.

In addition to satisfying the requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, the student seeking admission to the preventive medicine residency must (1) fulfill the admission requirements given above, and (2) have completed a Doctor of Medicine degree from an accredited institution.

The student will be expected to complete a three year course of study which involves the completion of a clinical year provided by the University of California, San Diego, School of Medicine, the completion of an academic year leading to the Master of Public Health degree provided by the Graduate School of Public Health at San Diego State University, and appropriate practicum experiences under the supervision of faculty of one of the two cooperating institutions.

The student is expected to complete the number of units required for the Master of Public Health degree as well as those additional units which may be prescribed in order to complete the practicum year, i.e., Public Health 750.

The student is expected to have maintained a 3.0 average overall in the coursework at the Graduate School of Public Health and at the University of California, San Diego, School of Medicine.
Courses Acceptable on Master's and Doctoral Degree Programs

Community Health Education

UPPER DIVISION COURSES

560. Introduction to Public Health (3) I, II
Prerequisite: Community Health Education 290.
Epidemiological methods, behavioral and biological determinants, modes of transmission, risk factors, prevention of common infectious and chronic disease. Evaluation of health information to develop health education programs.

561. Health and Medical Care (3) II
Prerequisite: Senior or graduate standing with a major or minor in health education or a closely related area.
Health values, concepts, and attitudes; health products and facilities; hospital care and hospitalization plans; governmental health controls; economic and cultural influences on health and medical care; professional contributions, relationships, and careers; national and international health programs.

574. Habit-Forming Substances (3) I
Tobacco, alcohol, and other drugs; their use, misuse and abuse.

596. Workshop in Health Education (1-3)
Selected problems in health science are used as a basis for workshop experiences. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596; maximum credit of three units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

Community Health Education

GRADUATE COURSE

920. Health Education for Teachers (3)
Prerequisite: For professional, multiple, or single subject clear credential teaching applicants.
Covers all topics designated in the health framework for California including nutrition, physiological, and sociological effects of substance abuse, consumer health, injury prevention, and child abuse.

Public Health

GRADUATE COURSES

601. Epidemiology (3)
Prerequisite: Consent of instructor.
Distribution and determinants of diseases; role of epidemiology in public health. Descriptive, analytic and experimental epidemiology.

602. Biostatistics (3)
Prerequisite: Consent of instructor.
Statistical reasoning applied to public health; probability, hypothesis testing, regression and correlation, analysis of variance, measurement theory and modeling.

603. Behavioral and Social Science in Public Health (2)
Prerequisites: Psychology 316, 340, and Sociology 436.
Role of psychological, social and environmental variables in health and illness. Multifactorial psychosocial model of disease susceptibility.
604. Environmental Determinants of Human Health (2)
   Prerequisites: Biology 100, Chemistry 100.
   Environmental determinants and their influence on human
   health. Biological, physical, and chemical factors which affect
   the health of a community.

605. Health Services Administration (2)
   Overview of health services administration and delivery in
   U.S. Characteristics of utilization of health care, financing and
   system structure, types of providers, nonfinancial resources, and
   assessment and regulation.

607. Research Methods and Proposal Writing (3)
   Two lectures and three hours of laboratory.
   Prerequisites: Public Health 601, 661, and consent of
   instructor. Recommended: Public Health 602.
   Direct observation measurement, group and intensive experi­
   mental designs. Laboratory exercises and proposal writing appli­
   cable to public health.

621. Epidemiology of Infectious Diseases (3)
   Prerequisite: Public Health 601.
   Utilizing selected infectious diseases and environmental set­
   tings, provides scientific background on which epidemiological
   investigations and control measures are based.

622. Epidemiology of Chronic Diseases (3)
   Prerequisite: Public Health 601.
   Epidemiology of selected chronic diseases.

623. Epidemiological Methods (3)
   Prerequisites: Public Health 602, 621 or 622.
   Topics include: analysis of descriptive data, design of studies,
   evaluation of data, development of biological models. Examples
   of both acute and chronic diseases.

625. Control of Infectious Diseases (3)
   Prerequisite: Public Health 621.
   Theoretical and practical experience in techniques available
   for control of infectious diseases.

627. Advanced Statistical Methods in Public
   Health (3)
   Prerequisite: Public Health 602.
   Applications of advanced statistical methods for analysis of
   public health and biomedical data. Topics include multiple linear
   regression, analysis of variance, logistic regression, and introduc­
   tion to survival analysis.

628. Applications of Multivariate Statistics in Public
   Health (3)
   Prerequisite: Public Health 627.
   Statistical methods for multivariate problems in public health
   including regression diagnostics, cluster analysis, discriminant
   analysis, principal components, multivariate discrete analysis and
   Poisson regression. Computer applications included.

630. Environmental Health Risk Assessment (3)
   Four major steps of risk assessment to include hazard identifi­
   cation, dose-response assessment, exposure assessment, and
   risk characterization. Will also include risk communication and
   risk management in environmental arena.

632. Air Quality (3)
   Prerequisites: Biology 100, Chemistry 251, Physics 180A.
   Properties of airborne gases, vapors, and particulate matter.
   Effects of air pollution on community. Mobile and stationary
   sources of air pollution. Meteorology and dispersion of air pollut­
   ants. Ambient air quality standards.

634. Environmental Protection (3)
   Rationale and mechanisms for control of water supplies, liq­
   uid and solid waste disposal, lighting, heat, food and housing,
   pesticides and community noise.

635. Occupational Medicine (3)
   Etiology, diagnosis of disease, and stress in the modern indus­
   trial environment.

636. Hazardous Waste Management (3)
   Prerequisite: Chemistry 201.
   Rationale, methods, and regulations governing the proper
   management of hazardous and toxic wastes.

637. Biological Mechanisms of Environmental
   Toxicants (3)
   Two lectures and three hours of laboratory.
   Prerequisites: Biology 261 and Chemistry 160.
   Biologic effects and underlying mechanisms of action of
   harmful environmental agents on mammalism cells and tissues.
   Emphasis on toxic chemicals and applications of basic mecha­
   nisms research to public health situations.

638A. Principles of Toxicology (3)
   Prerequisites: Biology 261 and Chemistry 160.
   Dose-response and other principles for evaluating the effects
   of toxic chemicals on mammalian organ systems.

638B. Methods in Toxicity Testing (3)
   One lecture and six hours of laboratory.
   Prerequisite: Credit or concurrent registration in Public
   Health 638A.
   Laboratory methods used in evaluating chemicals for poten­
   tial human toxicity.

639. Water Quality Investigation (3)
   Two lectures and three hours of laboratory.
   Prerequisite: Public Health 604 or 634.
   Human health problems associated with water usage and with
   various aquatic environments.

640. Public Issues in Financing Health Care (3)
   Prerequisite: Open to Health Services Administration majors
   and students in related fields with consent of instructor.
   Orientation to growing role of public intervention in health
   care sector, including equity versus efficiency aspects of taxation
   and health care financing, social insurance programs, and meth­
   ods of evaluating public health activities.

641. Introduction to Health Services (3)
   Health care systems in the U.S. Underlying needs, insurance
   and uninsurance, public programs, reimbursement, managed
   care, resources, providers, regulation outcome measurement and
   evaluation, and health policy issues.

644A. Health Services Organizations (3)
   Prerequisite: Public Health 641.
   Structure and functioning of organizations that provide and
   finance health services. Systems theory approach to environ­
   ments, visions and goals, strategies, structure, and processes of
   healthcare organization.
644B. Health Services Management (3)
Prerequisite: Public Health 644A.
Functions of manager in healthcare organizations. Behavioral science perspective on interpersonal, informational, decision, ethical, and conflict resolution roles of manager.

645. Health Economics (3)
Prerequisite: Public Health 640.
Economics of health care, including supply and demand factors, efficiency, incentives facing physicians, hospitals, and health plans, economic evaluation of provider performance, workforce issues, and cost-effectiveness analysis.

646. Legal and Ethical Aspects of Health Care (3)
Prerequisite: Public Health 641.
Legal topics in health care include tort law and reform, malpractice, risk management, patient consent, patient rights, contracts, antitrust, managed care, and organizational restructuring. Ethical subjects include patient rights, procreation and abortion, and issues of death and dying.

647A. Quantitative Methods and Health Data Analysis (3)
Prerequisites: Public Health 602 and 641.
Quantitative methods and data analyses in health services administration. Topics include decision analysis, forecasting and regression, project management techniques, data analysis, and data and information management applications. (Formerly numbered Public Health 647.)

647B. Health Quality and Information Management (3)
Prerequisite: Public Health 647A.
Health quality measurement and improvement, focusing on managed care computer applications. Topics include outcomes and performance measurement; health and patient databases; types of databases and their management; hardware, software, and networks; systems analysis and design; and project control methods.

649. Public Health Surveillance (3)
Two lectures and three hours of laboratory.
Prerequisites: Public Health 601 and 602.
Public health data sources, including vital statistics, hospital discharge systems, the census, annual and special federal surveys through use of computer files. Methods of data quality control and analysis, communication of information, survey research, and public health surveillance.

650. Field Practice (3-6) Cr/NC
Field instruction in public health settings. Application of public health principles and skills to practical problems. Maximum credit six units of Public Health 650 applicable to a master’s degree.
A. Epidemiology E. Health Services
B. Occupational Health F. Health Promotion
C. Administration G. Administration
D. Environmental Health

651A. Legislation and Policy Affecting Women and Children’s Health (3)
Prerequisite: Open to graduate students in the College of Health and Human Services.
Health policies and legislation affecting programs and services for women, children, adolescents, and families.

661. Theoretical Foundations of Health Promotion (3)
Prerequisite: Community Health Education 290.
Psychological, sociological, economic, and political theories relevant to the mission and processes of health promotion. (Formerly numbered Community Health Education 621.)

662. Motivating Health Behavior (3)
Prerequisite: Community Health Education 401.
Application of behavioral change techniques and health education methodology to health promotion targeting individuals and whole communities. (Formerly numbered Community Health Education 606.)

663. Health Promotion Communications Theory and Design (3)
Prerequisite: Community Health Education 402.
Theory, design and implementation of health education communications in community contexts. Extensive use of student design, analysis, and projects.

664. Health, Society and Human Behavior (3)
Prerequisites: Psychology 101, Sociology 101.
Historical and contemporary examination of health problems of individuals and communities. Health needs, resources; impact of society on health and health on society.

666. Health Promotion Program Planning and Assessment (3)
Prerequisites: Public Health 661, 662.
Program planning and assessment, theories, systems and procedures relevant to health promotion and education.

667. Prevention and Control of Chronic Diseases (3)
Prerequisites: Public Health 601 and 602.
Health promotion strategies for modification of individual behaviors and social practices to lower risk of chronic disease.

668. Seminar in Health Promotion Research (3)
Prerequisite: Graduate standing in public health.
Philosophical, ethical and methodological issues in current health promotion research and services.

669. Health Risk Appraisal (3)
Prerequisites: Public Health 601, 602, 661, 662.
Techniques available for identifying personal health risk. Use of these methods for inducing change. Evaluation of effectiveness of methodologies.

696. Contemporary Topics in Public Health (1-3)
Intensive study in specific areas of public health and health services administration. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

700. Seminar in Public Health (1-3)
Prerequisites: Public Health 601, 602, and 603.
Investigation of current problems in one of the fields of public health. May be repeated with new content. See Class Schedule for specific content. Maximum credit nine units of Public Health 700 applicable to a master’s degree. These units may be in a single concentration area or any of the public health concentration areas.

A. Epidemiology

C. Occupational and Environmental Health
Seminar: Environmental Health: Risk Assessment
Seminar: Research Design
Seminar: Exposure Assessment and Methods of Sampling and Analysis

E. Health Services Administration
Seminar: Funds Management in Public Health
F. Health Promotion
Seminar: Women’s Health

G. Preventive Medicine
Seminar: Preventive Medicine

720. Critical Readings in Epidemiology and Public Health (3)
Recurrent and emerging public health issues. Weighing evidence in epidemiologic studies by reading and critiquing classical and recent journal articles representing study designs and statistical methods.

721. Environmental Epidemiology (3)
Uses of epidemiological methods in study of environmental hazards affecting community health and health of workers. Case studies.

722. Seminar in Clinical Trials (3)
Prerequisites: Public Health 601 and 602. Recommended: Public Health 627.
Public health perspective on current methodological issues in clinical trials to include study design, concepts of controls, masking, randomization, monitoring, data analysis procedures, and reporting of results.

724. Advanced Methods in Epidemiology (3)
Prerequisites: Public Health 601, 602, 623, and 627.
In-depth methodological issues in performance and interpretation of epidemiologic studies. Study design, cluster analysis, effect modification, accuracy and precision, adjustment of attributable risk, life tables, Kaplan-Meier, Cox proportional hazards modeling, and meta-analysis.

726. HIV/AIDS Epidemiology and Public Health (3)
Prerequisite: Public Health 601. Recommended: Public Health 621.
State-of-the-art review of HIV and AIDS within a public health framework. Biology, transmission, host susceptibility, screening and surveillance, domestic and international epidemiology, study design, intervention, and options for prevention (including community-based trials).

729. Ethics for Epidemiology (3)
Prerequisite: Consent of instructor.
Public health perspective on major ethical concepts and issues confronting researchers, including informed consent, human subjects, environment, justice, beneficence, autonomy, confidentiality, internal investigation, student issues, and mentorship.

731. Environmental and Occupational Health Policy (3)
Prerequisite: Credit or concurrent registration in Public Health 604.
Current issues in environmental and occupational health, including risk assessment, policy development, and program management.

732. Principles of Industrial Hygiene (4)
Three lectures and three hours of laboratory.
Prerequisites: Chemistry 251, 431, and Physics 180A.
Fundamental principles of recognition, evaluation, and control of hazardous chemical, physical, and biological agents in the work place.

733. Principles of Industrial Safety (3)
Prerequisite: Public Health 732.
Introduction to field of industrial safety including accident prevention as a function of training people in safe work behaviors and maintaining and monitoring the machine interface.

735. Industrial Ventilation (3)
Two lectures and three hours of laboratory.
Prerequisite: Public Health 732.
Techniques of general, dilution, and local exhaust ventilation. Ventilation system design. Techniques and strategies of ventilation survey and testing. OSHA ventilation regulations.

736. Principles of Ergonomics (2)
Prerequisite: Public Health 732.
Application of ergonomics and connection of ergonomics to occupational hygiene. Work-related musculoskeletal disorders, occupational risk factors, work method study and evaluation, risk factor assessment techniques, and tool selection.

737A. Chemical Agents, Recognition, Evaluation, and Assessment (3)
Two lectures and three hours of laboratory.
Prerequisite: Public Health 732.
Recognition and exposure assessment of hazardous chemical agents in the workplace. Emphasis on air sampling and analytical procedures. (Formerly numbered Public Health 737.)

737B. Physical and Biological Agents, Recognition, Evaluation, and Assessment (2)
One lecture and three hours of laboratory.
Recognition and exposure assessment of hazardous physical and biological agents in the workplace (Formerly numbered Public Health 737.)

738. Topics in Toxicology (3)
Prerequisite: Public Health 638A.
Topics in toxicology to include food toxicants, pesticides, soil and groundwater pollutants, industrial toxicology and quality assurance, toxicokinetics, genetic toxicology and toxicology in risk assessment.

742A. Health Services Financial Management (3)
Prerequisites: Public Health 641 and Business Administration 650.
Activities in health care financial management. Topics include discounted cash flow analysis, long-term debt financing, equity valuation and financing, risk and return, capital budgeting, financial statements and analyses, financial forecasting, and short-term financing.

742B. Financing Health Systems and Services (3)
Prerequisite: Public Health 742A.
U.S. healthcare financial systems at macro-level. Principles of public programs and private health insurance, types of reimbursement for healthcare organizations and providers, issues of cost containment, effects of unemployment and underinsurance, and financial practices of other advanced nations.

743. Hospitals and Health Systems (3)
Prerequisite: Public Health 644A.
Organization and management of hospitals and integrated healthcare systems. Emphasis on governance, management, operations, and clinical systems. Senior executives of regional healthcare organizations participate as guest faculty.
744. Ambulatory and Group Practice Management (3)
Prerequisite: Public Health 644A.
Organization and management of group practice and other ambulatory or outpatient facilities, services, programs, and plans. Includes managed care aspects of ambulatory health service delivery.

746. Quality of Care Assessment and Assurance (3)
Prerequisite: Public Health 647B.

748. Health Services Competitive Strategy and Marketing (3)
Prerequisite: Public Health 644A.
Ways in which healthcare organizations can gain and sustain competitive advantage. Both organization and service level competition and strategies/tactics examined.

750. Advanced Field Practice (3-6) Cr/NC
Prerequisite: Public Health 650.
Advanced field instruction in public health setting. Intensification and continuation of application of public health principles and skills to public health problems. Maximum credit six units of Public Health 750 applicable to a master’s degree.
A. Epidemiology  E. Health Services
B. Occupational Health  F. Health Promotion
C. Administration
D. Environmental Health

751. Studies in Perinatal and Reproductive Health (3)
Perinatal mortality and morbidity. Review of methods and findings in studies of reproductive exposures and outcomes.

761. Programming Health Promotion (3)
Prerequisites: Public Health 661 and 663.
Current programs, practices, and problems in health promotion activities of hospitals, clinics, public health departments, and government. Issues necessitating health promotion programs. Formulation of effective promotion programming in various settings.

762. Behavioral Medicine (3)
Prerequisites: Public Health 661 and 662.
Behavioral management approaches to health care problems. Diseases and conditions that arise from physical, psychological and environmental causes; behavioral interventions that attenuate disease process and improve compliance.

797. Research (1-3) Cr/NC/SP
Prerequisite: Consent of instructor.
Research in one of the fields of public health. Maximum credit six units applicable to a master’s degree. Maximum combined credit six units of Public Health 797 and 798 applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff, to be arranged with the director and instructor.
Individual study. Maximum credit six units applicable to a master’s degree. Maximum combined credit six units of Public Health 797 and 798 applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.

800. Seminar (1-9)
Prerequisite: Admission to the doctoral program.
Investigation of a particular topic or issue, emphasis on empirical research; topic to be announced in the Class Schedule. Maximum credit nine units applicable to a doctoral degree.

823. Case-Control Studies (3)
Design, conduct, and analysis of case-control studies. Methodologic issues, control of biases and misclassification errors, proper use of interpretation of stratification and logistic regression in study of diseases of multifactorial etiology.

824. Cohort Studies (3)
Design, analysis, and application of cohort studies. Cohort study designs, importance of time-varying exposures and outcomes, external and internal validity, and in-depth treatment of approaches to analysis based on cohort sampling methods.

825. Grantwriting in Epidemiology and Public Health (1-3)
Prerequisites: Public Health 601, 602, 623, 627, and 724.
Trains students to prepare NIH proposal. Students work with community-based organizations, faculty advisers, expert consultants, institutional review board, and SDSU Foundation personnel to complete research proposals and budgets.

897. Doctoral Research (1-15) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Independent investigation in the general field of the dissertation.

898. Doctoral Special Study (1-9) Cr/NC/SP
Prerequisite: Admission to the doctoral program.
Individual study in the field of specialization. Maximum credit nine units applicable to the doctoral degree.

899. Doctoral Dissertation (6-15) Cr/NC/SP
Prerequisites: An officially constituted dissertation committee and advancement to candidacy.
Preparation of the dissertation for the doctoral degree. Enrollment is required during the term in which the dissertation is approved.
Faculty Members of the Center for Bio/Pharmaceutical and Biodevice Development

*Kenneth J. Bart, M.D., M.P.H., Professor of Public Health, Director of the Graduate School of Public Health
* A. Stephen Dahms, Ph.D., Professor of Chemistry, Director, Center for Bio/Pharmaceutical and Biodevice Development
*Kenneth E. Marino, Ph.D., Professor of Management, Associate Dean and Director, Graduate Program, College of Business Administration
*Donald R. Short, Jr., Ph.D., Professor of Mathematical and Computer Sciences
*Dale A. Chatfield, Ph.D., Associate Professor of Chemistry, Chair, Department of Chemistry
*Larry E. Gundersen, Ph.D., Senior Staff Scientist (equivalent rank of Professor), Director, Regulatory Affairs Program
*Robert Wang, Ph.D., Senior Staff Scientist (equivalent rank of Professor), Director, Corporate Affairs, Associate Director, Center for Bio/Pharmaceutical and Biodevice Development

* Serves on the Faculty Governing Board which makes recommendations on admissions and curriculum.

Faculty from the College of Business Administration

Mark C. Butler, Ph.D., Professor of Management, Chair of Department
Milton M. Chen, Ph.D., Professor of Information and Decision Systems
John M. Penrose, Ph.D., Professor of Information and Decision Systems, Chair of Department
Feraidoon Raafat, Ph.D., Professor of Information and Decision Systems
William R. Sherrard, Ph.D., Professor of Information and Decision Systems
Penny L. Wright, Ph.D., Professor of Management

Associateships

Graduate teaching associateships may be available in biology, chemistry, engineering, business administration, and public health. Application forms and additional information may be obtained from the Director of the Regulatory Affairs degree program.

General Information

The Center for Bio/Pharmaceutical and Biodevice Development offers an interdisciplinary advanced degree program that focuses on training students in areas related to development, manufacturing, and marketing of biotechnological, biopharmaceutical, pharmaceutical, in vitro diagnostic and medical device products. As an administrative, instructional, and research entity, the Center integrates faculty and programs from various departments within the Colleges of Sciences, Engineering, Business Administration, Health and Human Services, Professional Studies and Fine Arts, Education, and Arts and Letters. The Center addresses research and workforce needs of companies as they make the transition from research and development to manufacturing and production, including the legal, ethical, and regulatory elements that both guide and restrict the industry.

Master of Science Degree in Regulatory Affairs

(Offered only through the College of Extended Studies)

The coursework in this curriculum is offered only in special sessions that generally are during the semester calendar. Students in special session courses enroll through the College of Extended Studies and follow a fee structure that is different from that for regularly matriculated students. For more information, contact the Director of the Center or call the College of Extended Studies.

This degree program will provide a comprehensive background in regulatory science with the additional training and experience required of regulatory affairs professionals to address federal and state regulatory statutes and laws with emphasis on the Food and Drug Administration. The degree is offered through the collaboration of the College of Sciences and the College of Business Administration.

The degree offering focuses on laws and regulations imposed by the Federal government, especially the Food and Drug Administration, related to drug discovery, development, testing, and manufacture of products for commercial distribution. Also included are requirements for ongoing post-marketing surveillance. The degree program will provide students with detailed knowledge and understanding of current regulations and their practical application to the development and commercialization of drug, biologics, and medical device products. Also incorporated into the degree program are business administration courses that will provide students with communication and management skills essential for the successful regulatory affairs professional in an industry work environment.

Admission to Graduate Study

All students must satisfy the general admission and examination requirements for admission to the University with classified graduate standing, as described in Part Two of the Bulletin of the
Graduate Division. In addition, the applicant must satisfy the following requirements before being considered for admission to classified graduate standing by the admissions review committee of the Center:

1. Submit scores on the GRE General Test (verbal and quantitative portions only).
2. Have three letters of recommendation sent from persons who are knowledgeable about the candidate's potential for success in graduate study.
3. Submit an Applicant Essay that describes the applicant's purpose in pursuing graduate studies in regulatory affairs and relationship to personal and career objectives.
4. List any employment or volunteer experience relevant to the proposed new degree major program.

Candidates for admission will typically come from one of the disciplines offered in the life and physical sciences and engineering. In some cases, candidates who have not fully completed the undergraduate requirements may be admitted with conditionally classified standing, subject to space availability, after consideration of those who meet the requirements for classified graduate standing. Students so admitted will be advised as to the nature of their deficiency and the time allowed to achieve full classified graduate standing. If the student's undergraduate preparation is insufficient, the student will be required to take courses for removal of the deficiency. Courses taken to make up such deficiencies are in addition to the minimum units for the master's degree and may not be included on the student's program of study.

**Advancement to Candidacy**

All students must satisfy the general requirements for advancement to candidacy, as described in Part Two of this bulletin.

**Specific Requirements for the Master of Science Degree**

**(Major Code: 49045)**

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master's degree as described in Part Two of this bulletin, the student must complete a graduate program consisting of a minimum of 40 units as follows:

1. Complete 25 units of required courses.
   - RA 573 Pharmaceutical, Biotechnology and Medical Device Industries (3)
   - RA 575 Food and Drug Law (3)
   - RA 770 Current Good Manufacturing Practices - General Concepts (3)
   - RA 774 Investigational and Marketing Applications for Drugs, Biologics, and Medical Devices (3)
   - RA 799A Thesis or Project (1-3) Cr/NC/SP
   - BA 651 Organizational Behavior (2)
   - BA 662 Operations Management (2)
   - IDS 705 Communication Strategies (3)
   - IDS 750 Project Management (3)
2. Complete 15 units of electives, at least 12 units of which must be chosen from Category A.

**Courses Acceptable on Master’s Degree Program in Regulatory Affairs**

**UPPER DIVISION COURSES**

- **573. Pharmaceutical, Biotechnology, and Medical Device Industries (3)**
  - Prerequisite: Chemistry 361A or 365.
  - Pharmaceutical, biotechnology, and medical device industries. Company organization and product development and commercialization associated activities, e.g., drug discovery, chemical synthesis, quality assurance, regulatory affairs, manufacturing, control and marketing.

- **575. Food and Drug Law (3)**
  - Prerequisite: Regulatory Affairs 573.

**GRADUATE COURSES**

- **696. Advanced Topics in Regulatory Affairs (1-4)**
  - Prerequisite: Regulatory Affairs 575.
  - Selected topics in regulatory affairs. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.
770. Current Good Manufacturing Practices — General Concepts (3)
Prerequisite: Regulatory Affairs 575.
Current Good Manufacturing Practice regulations to assure quality of marketed products. Application to manufacturer’s organization, personnel, facilities, equipment, control systems, production, process controls, laboratory procedures and records.

771. Current Good Manufacturing Practices — Advanced Topics (3)
Prerequisite: Regulatory Affairs 770.

772. Post-Approval Activities, Including Advertising, Promotion, and Labeling (3)
Prerequisite: Regulatory Affairs 575.
FDA and FTC rules and regulations governing advertising, promotion, and labeling for prescription drugs, biologics, medical devices, and over-the-counter drugs.

773. Medical Device Regulations (3)
Prerequisite: Regulatory Affairs 575.
Laws and FDA regulations for medical devices, in vitro diagnostics, radiological devices, FDA jurisdiction, registration, listing labeling requirements, classification, Investigational Device Exemptions (IDE), premarket approval (PMA) and premarket notification (510K).

774. Investigational and Marketing Applications for Drugs, Biologics, and Medical Devices (3)
Prerequisite: Regulatory Affairs 575.
Development and informational content for investigational new drug applications (IND), investigational device exemptions (IDE), new drug applications (NDA), product license applications (PLA), and biologics license applications (BLA) for FDA review.

775. Clinical Trials: Issues in Design, Conduct, and Evaluation (3)
Prerequisite: Regulatory Affairs 575.
Issues and requirements in design, conduct, and evaluation of clinical trials for new drugs, biologics, and medical devices. Introduction to biostatistics.

776. Validation Aspects of Drugs, Biologics, and Device Product Development and Manufacturing, Including Computer Related Systems and Software (3)
Prerequisite: Regulatory Affairs 575.
Verification and validation of computer hardware, software, and peripherals for applications in pharmaceutical, biologic, and medical device industries.

778. Quality Control and Quality Assurance: Pharmaceuticals, Biologics, and Medical Devices (3)
Prerequisite: Regulatory Affairs 575.
Review requirements, procedures, controls, and documentation for quality control and assurance in manufacture and commercial distribution of drugs, biologics, and medical devices.

797. Research (1-3) Cr/NC/SP
Prerequisite: Advancement to candidacy.
Research in the area of regulatory sciences. Maximum credit six units to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis or Project (3) Cr/NC/SP
Prerequisite: An officially appointed thesis committee and advancement to candidacy.
Preparation of thesis or project for the master’s degree.

799B. Thesis or Project Extension (0) Cr/NC/SP
Prerequisite: Prior registration in Thesis 799A with an assigned grade of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also students must be registered in the course when the completed thesis or project is granted final approval.
Religious Studies
In the College of Arts and Letters

Faculty
Linda D. Holler, Ph.D., Associate Professor of Religious Studies, Chair of Department
Willard L. Johnson, Ph.D., Professor of Religious Studies
Risa Levitt Kohn, Ph.D., Assistant Professor of Religious Studies
Rebecca E. Moore, Ph.D., Assistant Professor of Religious Studies

General Information
The Department offers advanced coursework in religious studies which may be used toward fulfilling advanced degree requirements in Interdisciplinary Studies and in other departments with the approval of the student’s graduate adviser.

UPPER DIVISION COURSES

580. A Major Figure (3) I, II
Prerequisite: Three units of religious studies.
Life, works and significance of one major figure in a religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

581. Major Theme (3) I, II
Prerequisites: Three units of religious studies and upper division or graduate standing.
Advanced systematic study of a theme or motif selected from major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

582. Major Text (1-3)
Prerequisites: Three units of religious studies and upper division or graduate standing.
Advanced systematic study of a selected scripture or classic text(s) selected from one of the major religious traditions. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

583. Major Tradition (3)
Prerequisites: Three units of religious studies and upper division or graduate standing.
Advanced systematic study of the doctrines, practices, and development of a major religious tradition. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Advanced Topics in Religious Studies (1-3)
Prerequisite: Consent of instructor.
Advanced selected topics in religious studies. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

696. Seminar in Selected Topics (3)
Prerequisite: Twelve upper division units in religious studies. Directed research in a major problem or movement in religious studies. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30 unit master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisites: Twelve upper division units in religious studies and consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.
Faculty
Glen McClish, Ph.D., Professor of Rhetoric and Writing Studies, Chair of Department
Ann M. Johns, Ph.D., Professor of Rhetoric and Writing Studies
Carol O. Sweedler-Brown, Ph.D., Professor of Rhetoric and Writing Studies, Associate Dean of the College of Arts and Letters
Cezar M. Ornatowski, Ph.D., Associate Professor of Rhetoric and Writing Studies (Graduate Adviser)
Ellen Quandahl, Ph.D., Associate Professor of Rhetoric and Writing Studies, T.A. Program Director
E. Jane Robinett, Ph.D., Associate Professor of Rhetoric and Writing Studies
Linn K. Bekins, Ph.D., Assistant Professor of Rhetoric and Writing Studies, Technical Writing Program Director
Richard B. Boyd, Ph.D., Assistant Professor of Rhetoric and Writing Studies
Jane E. Hindman, Ph.D., Assistant Professor of Rhetoric and Writing Studies

General Information
The Department offers graduate courses in rhetorical theory, history, and practice; composition studies; the teaching of writing; academic and non-academic literacies; and the relationship of written discourse to various aspects of contemporary culture, including science, technology, politics, gender, and others. It also offers a specialization in rhetoric and writing within the master’s degree in English. Refer to English and Comparative Literature in this section of the bulletin.

The department is in the process of securing approval to offer an M.A. degree in Rhetoric and Writing Studies. For further information, contact the Graduate Adviser, Cezar M. Ornatowski.

Associateships
Graduate teaching associateships in rhetoric and writing studies are available to a limited number of qualified students from departments offering graduate degrees. With the guidance of department faculty, teaching associates teach in the lower division writing program. Application forms and additional information may be secured from the Rhetoric and Writing Studies department office.

UPPER DIVISION COURSES
500W. Advanced Composition (3) I, II
Prerequisites: Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. The theory and practice of expository writing, including the contributions of semantics, rhetoric, and logic.

501. Editing (3)
Prerequisites: Rhetoric and Writing Studies 305W or 500W. Fundamentals of professional editing. Functions of an editor. Document development, style, and style guides. Editing tools and technologies. Preparing text for publication and production.

503W. Technical Writing (3) I, II
Prerequisites: Rhetoric and Writing Studies 200. Satisfies University Upper Division Writing requirement for students who have completed 60 units, fulfilled the Writing Competency requirement, and completed the General Education requirement in Communication and Critical Thinking. Proof of completion of prerequisites required: Test scores or verification of exemption; copy of transcript. Principles and practices of writing required in technical and scientific fields or professions, including technical writing style and rhetorical strategies of designing technical documents.

504. Problems in Technical Communication (3) I, II
Prerequisite: Rhetoric and Writing Studies 503W. Recommended: Graphics or drawing course. Problems in technical writing, including graphics, printing, and reproduction of technical documents; types of technical communication, including reports, manuals, and proposals; manuscript editing and proofreading; audience analysis and readability; writing and recognition of clear technical prose.

506. Writing Internship (3) Cr/NC I, II, S
Prerequisites: Consent of instructor and successful completion of a 500-level writing course with a grade of B or better. Intensive experience in writing and editing documents while student is under the joint supervision of an academic instructor and a professional coordinator.

509. Introduction to the Teaching of Composition (3) I, II
Prerequisite: Consent of instructor based on writing sample and/or test. Techniques for teaching and evaluation of written composition. Provides a theoretical base for these techniques.

596. Special Topics in Rhetoric and Writing Studies (1-3)
Prerequisite: Consent of instructor. Selected topics in rhetoric and writing studies. May be repeated with new content and consent of instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.
GRADUATE COURSES

600. Writing, Knowledge, and Culture (3)
Prerequisite: Graduate standing.
Intersection of language, epistemology, and culture. Role of written language in the formation of community knowledge, identity, norms, and values.

601. History of Rhetoric (3)
Selected major works on rhetoric from antiquity through nineteenth century. How these works inform pedagogy and public life. Relationship of historical texts to contemporary rhetorical practices. (Formerly numbered Rhetoric and Writing Studies 741.)

602. Modern Rhetoric and Composition Studies (3)
Twentieth century rhetoric and composition theory, and their relationship to study and teaching of written discourse. (Formerly numbered Rhetoric and Writing Studies 742.)

609. Seminar in Theory and Practice of Teaching Composition (3)
Prerequisite: Admission to an approved SDSU graduate program.
Research and theory in field of teaching composition. Links research to classroom practice. Prepares students to teach composition at SDSU and other post-secondary settings. Prerequisite for teaching associateships in Rhetoric and Writing Studies.

696. Topics in Rhetoric and Writing Studies (3)
Intensive study in specific areas of rhetoric and writing studies. May be repeated with new content and consent of instructor. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

745. Advanced Seminar: Research Methods in Rhetoric and Writing (3)
Prerequisites: Rhetoric and Writing Studies 600, 601, 602.
Research methods and critical approaches common to advanced graduate study of rhetoric and writing, with attention to basic reference works, scholarly journals, bibliographical techniques. Recommended for students planning a thesis within the rhetoric and writing emphasis in English.

796A. Teaching Internship (3) Cr/NC
Prerequisite: Completion of Rhetoric and Writing Studies 609 and consent of graduate adviser.
Teaching experience while student is under joint supervision of college-level teacher and academic instructor. Involves completing a minimum of 150 hours, and conferences with instructor and field supervisor. Maximum credit three units. (Formerly numbered Rhetoric and Writing Studies 796.)

796B. Writing Internship (3)
Prerequisites: Rhetoric and Writing Studies 501, 503W, 504, 600, 601, 602, and consent of graduate director.
Intensive experience in writing and editing documents while student is under joint supervision of an academic instructor and a professional coordinator. Maximum credit three units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.
Chair of Department: Edith J. Benkov

Faculty
Veronica Shapovalov, Ph.D., Associate Professor of Russian

General Information
The Department of European Studies offers coursework in Russian which may be used toward fulfilling advanced degree requirements in Interdisciplinary Studies and other departments with the approval of the student's graduate adviser.

UPPER DIVISION COURSES

501. Translation (3)
Prerequisite: Russian 301.
Comparison of Russian and English through translation of a variety of texts from Russian to English and from English to Russian.

555. Russian Literature of the Nineteenth Century (3)
Prerequisite: Russian 200B.
Development of Russian novel, short story, drama and poetry of the nineteenth century.

563. Russian Literature of the Twentieth Century (3)
Prerequisite: Russian 200B.
Poetry, prose and drama of the twentieth century.

580. Russian Syntax and Stylistics (3)
Prerequisite: Russian 301. Proof of completion of prerequisite required: Copy of transcript.
The structure of contemporary Russian.

596. Topics in Russian Studies (3) I, II
Prerequisite: Russian 305B (for literary topics). Proof of completion of prerequisite required: Copy of transcript.
Topics in Russian language, literature, or linguistics. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

GRADUATE COURSES

696. Topics in Russian Studies (3)
Intensive study in specific areas of Russian. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree. Maximum credit of six units of 596 and 696 applicable to a 30-unit master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisites: Eighteen upper division units in Russian and consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.
The program is organized around student experience in a field of service concentration during their first year (Aging/Health, Mental Health or Children, Youth and Families) and a methods focus (direct practice or administration) in their second year. The school is extensively involved in local, state and national human service issues through individual faculty research and community intervention programs. In addition, the school has made commitments in the area of chemical dependency research and practice through the Center on Substance Abuse and policy research and intervention through the Human Service Institute of Southern California.

Admission to Graduate Study

The School of Social Work admits new students to the MSW program only in the Fall of each academic year. New students are not admitted to the program during the Spring semester. To be guaranteed a space in the two year program, new students must apply between November 1 and February 1 of the year before they desire entry. Applications received after the February 1 deadline but before April 30 will be considered on a space available basis. Students currently enrolled or on leave of absence from CSWE accredited schools of social work are considered transfer students and can apply to the program for either fall or spring admission.

All applicants must file two separate applications: one to the University Office of Admissions and Records and one to the School of Social Work. The School of Social Work will not consider any applicant who has not filed both required applications. Specific University admission requirements and procedures are outlined in Part Two of this bulletin. Specific School of Social Work requirements and procedures are outlined in the admissions packet as well as on the School of Social Work home page at www.sdsu.edu (click on S for social work in the alphabetical listing of departments). Please be advised that the School does not accept life/work experience in lieu of any course requirements. The School does not accept transfer credit based on life/work experience. Students will have to retake any courses for which life/work experience was counted.

In addition to the regular application material, the University requires all applicants to take the Graduate Record Examination for admission. Scores must be reported to both the University and the School of Social Work. Applicants will not be reviewed by the School unless GRE scores are on file. Applicants must have taken and successfully passed one course in statistics and one course in human or general biology at the undergraduate or graduate level.

The School cannot accept any student into the program until the University has accepted them into graduate study. For this reason, we urge interested students to submit both applications as early as possible. Students who are qualified for admission but who submit applications after all students have been accepted are placed on a waiting list and can be admitted up until August 1.
Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, the student must: (1) have earned at least 24 units of postbaccalaureate study with a minimum grade point average of 3.0 (B) and received credit (Cr) in field practicum; (2) have no incomplete grades; (3) be recommended by the faculty of the School of Social Work; (4) be approved for advancement by the Graduate Division; (5) successfully pass a written qualifying examination given during the Spring semester in which the student will complete the 31 units of first year coursework.

Specific Requirements for the Master of Social Work Degree

(Major Code: 21041)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree in Part Two of this bulletin, the student must complete an officially approved 60 unit course of study including: (1) six units in social policy and services (Social Work 601 and Social Work 702B, 702C, or 702D); (2) nine units in human behavior and the social environment (Social Work 619, 620A or 620B and 720); (3) 15 units of social work practice (Social Work 630, 631, 632, 739 or 740, and 744 or 745); (4) six units of research (Social Work 690 and 791A or 791B); (5) 15 units of practicum (Social Work 650 and 750A or 750B); (6) three units of computer applications in social work (Social Work 610); and (7) six units of electives (Plan B students); three units of electives and Social Work 799A (Plan A students). Within the 60-unit official program, students must complete (1) 25 units in generalist/foundation courses (Social Work 601, 619, 630, 631, 632, 650, 690); (2) 12 units in a field of service (Social Work 702B, 702C, or 702D; Social Work 720, and two elective courses); students in the administration focus have the option to take the elective courses within a field of service or with the consent of the graduate adviser to take coursework related to their methods focus; (3) 20 units in a Social Work Methods Focus Area (Direct Practice or Administration).

Direct Practice

SWORK 620A (3)
SWORK 739 (3)
SWORK 744 (3)
SWORK 750A (8)
SWORK 791A (3)

Administration

SWORK 620B (3)
SWORK 740 (3)
SWORK 745 (3)
SWORK 750B (8)
SWORK 791B (3)

The above courses exclude Social Work 610, 799A, 799B.

In addition, students must complete either a Thesis (Plan A) or a comprehensive written examination (Plan B).

At least 30 units of the program must be completed in residence at San Diego State University. A maximum of 30 units is transferable from another accredited graduate program in social work.

Six units of elective credit may be taken from other schools or departments within the University with the permission of the graduate adviser. See Student Handbook for specific elective policies.

To receive the degree, students must earn a 3.0 (B) grade point average in academic courses and demonstrate professional competence for required practicum (Cr for all semesters).

In addition, students must adhere to the NASW Code of Ethics. This document is included in the student handbook and all students must adhere to its principles of professional conduct. Students who knowingly or unknowingly violate any part of the ethical code may be dismissed from the program without further qualification regardless of coursework, research, or other academic achievement.

Student Handbook

The School of Social Work has a student handbook for graduate students. The handbook contains policies and procedures not specified in this bulletin in addition to information to aid students in completing the MSW degree program. Students must purchase a revised handbook at the beginning of fall as long as they are in the program. Handbooks are on sale at the Campus Store under Social Work.

Program of Study

The program is organized in the first year around a generalist/foundations first semester and a mixed generalist, and methods focus area in the second semester. The second year program is organized around a field of service focus area and a methods focus area.

Students will select one methods focus area during their second semester in the program and one field of service focus area in their third semester in the program. The following field of service focus areas and methods focus areas are available in the program.

Methods Focus Areas

Direct Practice Social Work

Focus is on interpersonal conflicts and social functioning with emphasis on appropriate intervention methods used primarily with individuals, families, and groups. Emphasis is placed on a problem-solving framework that utilizes assessment/diagnosis, intervention/treatment and evaluative skills.

Social Work Administration

Focus is on intervention in inter- and intra-organizational functioning of social welfare agencies. Particular emphasis is placed on intervention in problems of organizational administration and development of voluntary and public social agencies. The skills emphasized include service delivery design, budgeting, team building and organizational decision making.

Fields of Service Focus Areas

Social Work in Mental Health

This focus area addresses human and institutional problems related to personal and family dysfunction reflected in acute life crises, and emotional/behavioral/mental disorders. The objective is social work knowledge and skill development in interdisciplinary community mental health planning, practice and research, with emphasis on roles and modalities of intervention which promote mental health, prevent mental disabilities, and treat personal and family dysfunctions.

Social Work in Health and Aging

This focus area addresses a range of emerging and established social work roles, modalities and strategies, applied collaboratively with other disciplines in health promotion, prevention
and treatment of psychosocial components of illness in individuals (with emphasis on children and the aged), families and groups. Humanizing health care through consumer advocacy, policy and program development, planning and administration is emphasized. The focus area addresses the implications of changing demography, characteristics and needs of elderly, functional and dysfunctional elements in service systems, and personal/social significance of life cycle changes.

Social Work with Children, Youth, and Families
This focus area addresses social work professional roles in delivery of service to children, youth, and families in public and voluntary social agencies. The functional and dysfunctional aspects of socialization processes and institutional influences on children and families are reviewed with respect to interventional strategies, social policy issues, and program development.

Master of Social Work and Juris Doctor Degree

General Information
The School of Social Work and the California Western School of Law offer a four-year concurrent graduate program which allows students to earn simultaneously a Master of Social Work and a Juris Doctor (JD) degree in law. The objective of the concurrent degrees program is to prepare students who are competent in the disciplines of social work and law for advanced practice in the field of child abuse and neglect where social work and law converge.

Admission to Graduate Study
To request application materials for the concurrent dual degrees program in social work and law, applicants should contact the Office of Admissions at the School of Social Work, San Diego State University, and the Office of Admissions at California Western School of Law. Two separate application processes must be followed. Please see the Admission to Graduate Study section in this bulletin under the Master of Social Work degree program. (The only difference is that students earning the two degrees simultaneously may substitute the results of the LSAT examination for the GRE examination.) Applicants should indicate on the appropriate section of each application that they are applying for the concurrent dual degrees MSW/JD program. Please contact the MSW/JD program coordinator at California Western School of Law at (619) 525-1463 for more specific information about admissions processes and requirements.

Advancement to Candidacy
All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. In addition, students must also meet all criteria outlined under the Advancement to Candidacy section for the Master of Social Work program.

Specific Requirements for the MSW/JD Dual Degrees Program
(Major Code: 21045)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin and all requirements listed in the California Western School of Law catalog for the JD degree, the student must complete an officially approved course of study as outlined below.

School of Social Work

Master of Social Work and Master of Public Health Degrees

General Information

The School of Social Work and the Graduate School of Public Health offer a three-year concurrent graduate program leading to a Master of Social Work and a Master of Public Health. The objective of the concurrent program is to offer preparation in the fields of public health and social work for the purpose of providing the knowledge and skills necessary to promote health, prevent disease, and enhance the delivery of social and health services in the community.

Admission to Graduate Study

For additional admission information refer to Admission to Graduate Study for the MSW. In order to be considered for the concurrent MSW/MPH program, applicants must:

1. Meet the general requirements for admission to graduate study at the University (see Part Two of this bulletin).
2. Have a minimum 2.75 grade point average in the last 60 semester or 90 quarter units in undergraduate work completed. Undergraduate preparation in at least one of the following areas is preferred: social work, social or behavioral sciences, or health science.
3. A satisfactory score on the GRE General Test. Applicants already holding another master’s degree or higher degree from an acceptable accredited graduate school are exempt from the GRE.
4. Submit a narrative statement as described in Instructions for Applicants.
5. Submit three letters of recommendation.

A committee composed of faculty from Social Work and Public Health will make all admission recommendations to the Dean of the Graduate Division.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. All core courses in social work and public health must be completed prior to advancement. In addition, the student must: (1) have earned at least 24 units of graduate study within the concurrent program with a minimum grade point average of 3.0 and no grade less than a B- in each core course (applies to Public Health courses only); (2) have been recommended for advancement by the combined faculty advisory committee; received credit (Cr) in field practicum; (3) have a thesis proposal approved by the combined faculty advisory committee.

Upon advancement to candidacy, the student will enroll in Social Work 797 (Research), Public Health 797 (Research), and Social Work 799A (Thesis) or Public Health 799A (Thesis). A thesis (Plan A) incorporating theory, method, and analytic techniques from both disciplines is the culminating experience for the concurrent program leading to the MSW and MPH degrees.

Specific Requirements for the MSW/MPH Concurrent Program

(Major Code: 12991)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete an officially approved course of study of not less than 83 units as outlined below.

Social Work/Public Health-Health Services Administration

Courses prerequisite to the program are Public Health 640 and Business Administration 650 or their equivalents as determined by the graduate adviser. If these courses or the equivalents have not been completed prior to admission, they should be included in the first semester course requirements.

*Social Work 650 and 750 (field practica) must have the approval of the faculty advisory committee. Responsibility for faculty field supervision will be assigned in social work.
Pupil Personnel Services Credential

The School of Social Work is accredited by the State of California Department of Education to offer the Pupil Personnel Services Credential in School Social Work and the Pupil Personnel Services Credential in Child Welfare and Attendance. The credentials can be awarded under two conditions:

1. As part of the regular MSW program being completed during the second year coursework. Students would be assigned to a second year SWORK 750A (Direct Practice/Children, Youth and Families) internship in an approved and supervised school placement. In addition, students must take SWORK 758 (School Social Work) as their Fall elective course, and SWORK 758 (Practice in the Educational Arena) as their Spring elective course.

2. As a post MSW student through the College of Extended Studies. Interested professionals must contact the PPS coordinator and apply for the program which consists of 14 units taken over two semesters beginning in the Fall of each year. The program includes SWORK 758 (School Social Work–3 units), SWORK 758 (Practice in the Educational Arena–3 units), and SWORK 750A (4 units) each semester. SWORK 750A is a 20-hour per week internship required to accumulate the necessary time for the credentials.

Admission

Current students interested in the PPS credential need only file the regular SWORK 750A application during the Spring semester prior to enrollment. Unless demand is high, students will generally be admitted to the credential program.

Post MSW students must obtain the information packet for SWORK 750 in February of the year they wish to begin the program. Post MSW students must then file the necessary application to the Coordinator of Field Education by the deadline date established for all students. In entering the program, admission is based upon available internship sites. Preference is given to current students. Official acceptance does not occur until late Spring when all current students have been placed.

For further information contact Dr. Alan Siman, PPS Coordinator, (619) 594-5197, or email: asiman@mail.sdsu.edu.

Courses Acceptable on Master’s Degree Programs in Social Work

UPPER DIVISION COURSE

596. Experimental Topics (1-4)
Selected topics in social work. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

GRADUATE COURSES

601. Seminar in Social Welfare Policy and Services (3)
Social welfare as a social institution; philosophical, historical, and comparative analysis of the welfare functions, issues and problems in both policy and program development, implementation, and evaluation.

610. Computer Application in Social Work Practice (3)
Prerequisites: Social Work 631 and 632.
Computer technology in social work practice with emphasis on clinical and administrative applications, program monitoring, and support of service provision and delivery. (Formerly numbered Social Work 710.)

619. Human Behavior in the Social Environment (3)
Conceptual framework to view and interpret behavior and to understand functioning of individuals, families, groups, organizations, and communities within ecological systems.

620. Seminar in Human Behavior and Social Environment (3)
Prerequisite: Social Work 619.
Human behavior theories and concepts appropriate to a methods concentration.
A. Direct Practice
B. Administration

630. Social Work Practice: A Generalist Perspective (3)
Overview of generalist social work practice as a method and process. Generalist social work presented as a basic helping approach used to assist individuals, groups, families, organizations, and communities to achieve personal and social change.

631. Social Work Practice: Individuals, Families, and Groups (3)
Prerequisite: Social Work 630.
Preparation for direct intervention with individuals, families, and groups. (Formerly numbered Social Work 631A, 631B, 631C, 631D.)

632. Social Work Practice: Organizations and Communities (3)
Prerequisite: Social Work 630.
Theoretical knowledge of elementary organizational and interorganizational decision making in human service programs.

650. Field Practicum (3-8) Cr/NC
Prerequisite: Concurrent registration in Social Work 631 and 632.
Field instruction in public or voluntary social work setting. Seven units required. Maximum credit seven units. Experiences emphasize application of social work objectives, principles, and skills in service to individuals, families, groups, organizations, and communities.

690. Seminar in Social Work Research Methods (3)
Definition and purpose of research in social work. Techniques and methods used in collecting, organizing, and interpreting social welfare and related data; steps involved in planning a research project and selecting a research design.

696. Seminar on Selected Topics (3)
Intensive study in specific areas of social work. May be repeated with new content. See Class Schedule for specific content. Maximum credit of nine units of 696 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.
702B. Seminar in Social Welfare Policy and Services: Mental Health (3)
Prerequisite: Social Work 601.
Policy and programs within the mental health field. (Formerly numbered Social Work 602B.)

702C. Seminar in Social Welfare Policy and Services: Health and Aging (3)
Prerequisite: Social Work 601.
Policies and programs within the field of health and aging. (Formerly numbered Social Work 602C.)

702D. Seminar in Social Welfare Policy and Services: Children, Youth, and Families (3)
Prerequisite: Social Work 601.
Policy and programs within children, youth, and families. (Formerly numbered Social Work 602D.)

720. Seminar in Selected Topics in Human Behavior and Social Environment (3)
Prerequisite: Social Work 620A or 620B.
Selected topics related to current theories of natural and induced change in human behavior which have utility for social work practice within fields of service. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

739. Advanced Seminar in Social Work Practice with Families (3)
Prerequisites: Social Work 631, 632, and concurrent registration in Social Work 750A.
Family dynamics and social work practice related to family change.

740. Advanced Seminar in Social Work Administration (3)
Prerequisite: Social Work 631, 632, and concurrent registration in Social Work 750B.
Problems and roles of administrators in social agencies; administrative and organizational theories; executive functions of planning, budgeting, directing, reporting and staffing; multilevel relationships and communications.

744. Advanced Seminar in Selected Topics in Direct Practice Social Work (3)
Prerequisites: Social Work 739 and concurrent registration in Social Work 750A.
Study of a selected aspect of direct practice social work. Topics include treatment methodology, theoretical approaches, levels of practice, specific client groups, or special problem areas. See Class Schedule for specific content.

745. Advanced Seminar in Selected Topics in Social Work Administration (3)
Prerequisite: Social Work 740 and concurrent registration in Social Work 750B.
Study of a selected aspect of social work management in human services. Topics may cover such foci as program development, program evaluation, grant writing, resource development, financial management or management of nontraditional programs/projects. See Class Schedule for specific content.

750. Advanced Field Practicum (4-8) Cr/NC
Prerequisites: Social Work 650 and concurrent registration in Social Work 739 or 740 and 744 or 745.
Advanced field instruction in public or voluntary social work setting. Eight units required. Continuation and intensification of experiences in application of social work objectives, principles and skills in service to individuals, families, groups and communities related to:
A. Direct Practice Social Work
B. Social Work Administration

758. Seminar in Social Work and Selected Fields of Practice (1-3)
Traditional and emerging fields of practice and related social work responsibilities and roles. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

780. Seminar in Social Work and Selected Populations-at-Risk (3)
Social work practice with selected populations-at-risk such as one-parent families, children in institutions, ethnic minority immigrants, Native-Americans in the urban scene, and foreign-born brides of U.S. servicemen. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

781. Seminar on Selected Populations-at-Risk (3)
Knowledge about and analysis of selected populations-at-risk, social work responsibilities in emerging service demands by diverse and needful, high risk segments of the population in a complex society, and implications for social work practice. Population-at-risk for study to be announced in Class Schedule. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

791. Applied Social Work Practice Research Seminar (3)
Prerequisite: Social Work 690.
Preparation for practitioner-researcher role through application of social work research concepts and procedures in practice situations (in class and field) of interventions with individuals, families and groups or in community practice and management. Maximum credit three units of Social Work 791 applicable to a master’s degree.
A. Direct Practice Social Work
B. Social Work Administration

797. Research (3) Cr/NC/SP
Prerequisite: Consent of Instructor.
Research in one of the areas of social work. Maximum credit three units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with director and instructor.
Individual study. Maximum credit three units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.

R. George Kirkpatrick, Ph.D., Associate Professor of Sociology
Ruth X. Liu, Ph.D., Assistant Professor of Sociology
Norma Ojeda, Ph.D., Assistant Professor of Sociology
Jana L. Pershing, Ph.D., Assistant Professor of Sociology

Associateships and Assistantships
Graduate teaching associateships and graduate assistantships in sociology are available to a limited number of qualified students. Application blanks and further information may be obtained from the department office.

General Information
The Department of Sociology offers graduate work leading to the Master of Arts degree in Sociology. Research facilities provided by the Department of Sociology include a well-equipped Social Science Research Laboratory for use by the faculty and graduate students. Faculty in the Department of Sociology are involved in a wide range of research activities with a focus on applied sociological research. Regular opportunities exist for participation in these projects by graduate students within the department.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. Students whose preparation is deemed insufficient by the graduate advisory committee may be admitted as conditionally classified and will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin. Students must take at least three of the four 600-level core courses (Sociology 601, 602, 603, and 604) and must achieve a minimum “B” (3.0) grade average by the end of the first year in the master’s program and no less than a B- grade in each core course. A student may seek exemption from a maximum of two core courses by passing an examination in the respective areas.

Specific Requirements for the Master of Arts Degree
(Major Code: 22081)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree, as described in Part Two of this bulletin, students must complete an approved graduate program including a total of at least 30 units. While six units of electives may be taken in other departments, these courses must be acceptable for master’s degree credit in the particular departments in which they are offered. Students must include in their graduate program at least 18 units of sociology courses from the list of 600- and 700-numbered courses. Sociology 799A (Thesis) and an oral examination on the thesis are required. The student will be expected to relate the narrower concerns of the thesis to a more comprehensive treatment of theoretical and methodological issues. Before the student proceeds with the thesis, approval must be obtained based upon a detailed thesis proposal, usually undertaken through Sociology 797.

There is no foreign language requirement, but students who wish to pursue a doctorate at another university are advised to acquire a reading knowledge of one or two foreign languages. The Master of Arts degree in sociology may be obtained with a specialization in one of the following areas:

General Sociology. Students master theory and methods with an emphasis on surveying the discipline in preparation for teaching or more advanced graduate study.

Courses required for the general sociology specialization: 30 units to include 12 units of core courses, Sociology 601, 602, 603, and 604; a minimum of six additional units in sociology courses from the list of 700-level seminar courses; Sociology 799A (Thesis); and a minimum of nine additional units, chosen from 500-, 600-, and 700-numbered courses (six units of which may be taken in other departments).

Applied Sociology. Students master theory and methods, but with an emphasis on applying social theory and methods to specific real-world research problems, in preparation for employment as applied researchers in academic and non-academic settings.
Courses required for the applied sociology specialization: 30 units to include Sociology 505; nine units of core courses, Sociology 601, 602, and either 603 or 604; a minimum of nine additional units, selected from Sociology 500-, 600-, and 700-numbered courses (a maximum of six units may be selected from another department, with approval of the graduate adviser); Sociology 760 (Seminar in Research Methods); Sociology 796 (Field Practicum); and 799A (Thesis).

Courses Acceptable on Master's Degree Program in Sociology

UPPER DIVISION COURSES

505. Applied Sociological Research (3)
Prerequisite: Sociology 407 or 408.
Types and methods of applied sociological research; and an overview of their application in substantive areas. Practical research skills.

517. Life Crises and Coping: Sociological Perspectives (3)
Prerequisite: Sociology 101.
Social variation in the occurrence of life crises, personal and social coping strategies, and psychosocial outcomes.

522. The Family in Comparative and Historical Perspectives (3)
Prerequisite: Sociology 101. Recommended: Sociology 421.
Comparative study of selected family systems in the past and present. Family and parafamily forms in intentional communities of the nineteenth century compared with contemporary communal experiments. Ethnic and class differences in family organization.

527. Aging and Society (3)
Prerequisite: Sociology 101.
Status and roles of men and women in the second half of the life cycle. Ethnic, sex and class variables in aging. Cross-cultural comparisons of occupational, educational, familial, recreational and political opportunities for the aging.

528. Death and Dying (3)
Prerequisite: Sociology 101.
Sociological concepts and theories of the process of dying. Comparative study of death and dying with emphasis on social, psychological and social organization approaches. Consideration of contemporary social-ethical issues surrounding dying in our society.

531. Working and Society (3)
Prerequisite: Sociology 101.
Work and occupations in the division of labor. Paid and unpaid labor; work at home and in the marketplace. The social drama of work: identity, role conflict, and change. Power, pay, and status ranking of occupations: the professionalism of work.

532. Workers, Managers, and Bureaucracy (3)
Prerequisite: Sociology 101.
Sociology of work in formal organizations. From classic theories on division of labor, industrial capitalism, and bureaucracy, to transformation of work in the twentieth century. Experiences of workers and managers in the U.S. and other societies.

537. Political Sociology (3)
Prerequisite: Sociology 101.
Social organization of political processes. Power and authority, social class, primary groups, collective behavior, social change, and other sociological factors considered in their relationships to political processes.

539. Sociology of Education (3)
Prerequisite: Sociology 101.
Social organization of education in the United States and other societies. Structure and functions of educational institutions. Formal and informal education. Class, ethnic, and other social factors affecting the educational process. Implications of educational decision making and testing.

543. Police, Courts, and Corrections: The Sociology of Crime and Punishment (3)
Prerequisite: Sociology 101.

556. Topics in Comparative Societies (3)
Prerequisite: Sociology 101.
Social structures, social problems, and social change in selected areas of the world in comparative and historical perspectives. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

596. Current Topics in Sociology (1-3)
Prerequisite: Sociology 101.
Selected specialized, controversial or currently relevant topics in sociology. Maximum opportunity provided for student initiative in determining course content and procedures. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

597. Investigation and Report (3) I, II
Prerequisites: Fifteen units in sociology and consent of instructor.
Analysis of special topics in sociology. Maximum credit six units.

GRADUATE COURSES

601. Advanced Social Theory: Core Course (3)
Prerequisites: Conditional graduate standing, Sociology 401.
Systematic treatment of the original European and American classic sociological writing and an overview of the major developments in contemporary social theory.

602. Advanced Research Methods: Core Course (3)
Prerequisites: Conditional graduate standing; Sociology 406, 407, or 408.
Problems and techniques in social research with stress on philosophy of science, theory building, research design, measurement, and data analysis including fundamental critiques and alternatives.
603. Advanced Social Psychology (Sociological Approaches): Core Course (3)
Prerequisites: Conditional graduate standing, Sociology 410.
Investigation and analysis of original works in classical social psychological theory focusing on implications for research on topics such as socialization, motivation, perception, role, self, interaction and symbolic processes.

604. Advanced Social Organization: Core Course (3)
Prerequisites: Conditional graduate standing, Sociology 430.
Concepts, theories and findings concerning structure and change in society, institutions, formal organizations, the community and small groups. Special attention given key concepts of culture, stratification, division of labor, power, bureaucracy, role relationships and interaction.

695. Topics in Directed Readings (3)
Prerequisite: Credit or concurrent registration in at least one core course or one seminar.
Selected reading providing coverage of social theory, social disorganization, social organization, social institutions, social psychology (sociological approaches), community research methods, population and demography, or special topics. Maximum credit six units applicable to a master’s degree.

696. Experimental Topics (3)
Prerequisite: Graduate standing.
Intensive study in specific areas of sociology. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

700. Seminar in Social Theory (3)
Prerequisites: Sociology 401 and 407.
Classics of sociology, American social theory, theory construction, application of theory to research, theoretical models, sociology of knowledge, special topics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

730. Seminar in Social Institutions (3)
Prerequisites: Sociology 407 and 430.
The family and kinship, political organization, economic organization, religion, education, industry, occupations and professions, social stratification, special topics. See Class Schedule for specific content. May be repeated with new content. Maximum credit six units applicable to a master’s degree.

740. Seminar in Social Psychology: Sociological Approaches (3)
Prerequisites: Sociology 407 and 410.
Socialization, role theory, motivation, perception, self, social context of personality, attitude theory, interaction, language and symbolic processes, social types, collective behavior, small groups, special topics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

743. Seminar in Criminology and Criminal Justice Theory (3)
Prerequisites: Graduate standing, 12 graduate units, Sociology 401.
History of criminological theory and review of leading contemporary theories of crime and criminal justice with focus on interconnection among social context, theory, and policy making.

760. Seminar in Research Methods (3)
Prerequisites: Sociology 401 and 407.
Analysis of methods used in current sociological research, including evaluation of reported findings. Discussion of research designs appropriate to particular types of projects. Evaluation of research in progress by members of the seminar. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree.

796. Field Practicum (3) Cr/NC
Prerequisites: Sociology 601, 602, and either 603 or 604.
Supervised field placement in community agency. Application of sociological theories and methods to policy and research needs of agency. Maximum credit six units applicable to a master’s degree.

797. Research (3) Cr/NC/SP
Prerequisite: Sociology 407.
Independent investigation of special topics. Maximum credit six units applicable to a master’s degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff, to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the University; also student must be registered in the course when the completed thesis is granted final approval.
Spanish

In the College of Arts and Letters

Faculty
Kathleen V. Kish, Ph.D., Professor of Spanish, Chair of Department
Margarita G. Hidalgo, Ph.D., Professor of Spanish
Gail L. Robinson, Ph.D., Professor of Spanish
Malcolm N. Silverman, Ph.D., Professor of Spanish
Carlos G. Wilson, Ph.D., Professor of Spanish
Ronald R. Young, Ph.D., Associate Professor of Spanish
Isabel Borrás, Ph.D., Assistant Professor of Spanish
Juan M. Godoy, Ph.D., Assistant Professor of Spanish
José Mario Martín-Flores, Ph.D., Assistant Professor of Spanish

Associateships
Graduate teaching associateships in Spanish are available to a limited number of qualified students. New teaching associates are required to enroll in Spanish 770 during their first semester as teaching associates. Application blanks and additional information may be secured from the chair of the department.

General Information
The Department of Spanish and Portuguese Languages and Literatures offers graduate study leading to the Master of Arts degree in Spanish.

The staff in charge of the graduate program in Spanish is composed of professors whose native tongue is Spanish, or who have studied and traveled extensively in Spain or in Spanish America, enabling them to represent authoritatively the Spanish language and culture. Library facilities include rich resources in Spanish literature and linguistics, including books, periodicals and newspapers. A Language Acquisition Resource Center with modern equipment is available to both graduate and undergraduate students.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. An undergraduate major in Spanish, including 24 upper division units, must have been completed, at least six units of which must have been in a survey course in Spanish literature.

A language competency examination, both written and oral, will be required of all incoming graduate students. The examination will be held prior to each semester.

An incoming graduate student who does unsatisfactory work on the examination will be required to make up the deficiency before being allowed to enroll in graduate courses.

Adancement to Candidacy
In addition to meeting the requirements for advancement to candidacy as described in Part Two of this bulletin, students may be required to pass a qualifying examination in Spanish given by the Department of Spanish and Portuguese Languages and Literatures.

Specific Requirements for the Master of Arts Degree
(Major Code: 11051)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete an approved graduate program of at least 30 units. Each program must include Spanish 601, 620, 770, and 780.

Candidates for the master’s degree in Spanish may select one of the following areas of specialization:

1. Spanish Linguistics: Spanish 601, 620, 770, 780; six additional units in Spanish linguistics selected from 600- or 700-level courses; three units from any 500-level Spanish linguistics course; six units in Spanish or Spanish American literature selected from 600-, 600-, and 700-level Spanish courses, or Spanish 799A.

2. Spanish American Literature: Spanish 601, 620, 770, 780; 15 units in Spanish with Spanish American literature content selected from 500-, 600-, or 700-level courses; Spanish 799A or three units of electives in Spanish American or Spanish literature content.

3. Spanish Literature: Spanish 601, 620, 770, 780; 12 units in Spanish with Spanish literature content selected from 500-, 600-, or 700-level Spanish courses; three units in Spanish with Spanish American literature content selected from 500-, 600-, or 700-level courses; Spanish 799A or three units of electives in Spanish or Spanish American literature content.

In addition, all candidates must demonstrate a knowledge of Portuguese by passing an examination administered by the department or by completing Portuguese 101 or 201.

Students may elect either Plan A, requiring a thesis, Spanish 799A; or Plan B, requiring a comprehensive written and oral examination in lieu of the thesis in consultation with the graduate adviser.

327
Courses Acceptable on Master’s Degree Programs in Spanish

Spanish

UPPER DIVISION COURSES

501. Genre Studies in Spanish Literature (3)
Prerequisites: Spanish 405A-405B.
A specific literary genre: overview of the genre’s development in Spanish literature (Spanish novel, short story, theater) or focus on a narrower period (contemporary narrative, modern poetry). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

502. Genre Studies in Spanish American Literature (3)
Prerequisites: Spanish 406A-406B.
A specific literary genre: overview of the genre’s development in Spanish American literature (the Spanish American novel, short story, theater) or focus on a narrower period (vanguardista poetry, the “Boom”). May be repeated with new title and content. See Class Schedule for specific content. Maximum credit six units.

515. Mexican Literature (3)
Prerequisites: Spanish 406A-406B.
Mexican literature from the Romantic period to the present. Special emphasis placed on contemporary era.

520. Caribbean Area Countries Literature (3)
Prerequisites: Spanish 406A-406B.
Literature of Caribbean Islands, Central America, Colombia and Venezuela, from colonial period to present. Special emphasis on contemporary era.

556. Translation of Literary Works: A Critical Comparison (3)
Prerequisite: Spanish 493.
Techniques and methods of translating literary texts from English to Spanish and Spanish to English; textual and stylistic problems in different periods, genres, and dialects, with emphasis on contemporary literature.

561. Methods in Teaching Spanish as a Second Language (3)
Prerequisite: Spanish 350 or 448.
Teaching of Spanish as a second language: contemporary theory and methods. Not open to students with credit or concurrent enrollment in French 561.

572. Spanish American Theater (3)
(Offered only at IVC)
Prerequisites: Spanish 406A-406B.
Principal Spanish American dramatists and movements. Special emphasis on contemporary era.

581. Mexican and Chicano Sociolinguistics (3)
Prerequisites: Spanish 340; and Spanish 448 or 449.
Language issues encountered in both Mexico and U.S. Southwest. Bilingualism, diglossia, language attitudes and bilingual education studied in sociohistorical perspective using concepts and methods advanced by sociolinguistics.

596. Selected Studies in Spanish (3)
Prerequisite: Spanish 302 or 381.
Topics in Spanish or Spanish American language, literature, culture and linguistics. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

Portuguese

UPPER DIVISION COURSES

534. Portuguese Literature (3)
Prerequisite: Portuguese 401.
Important movements, authors and works in the literature of Portugal from its beginnings to the present.

535. Brazilian Literature (3)
Prerequisite: Portuguese 401.
Important movements, authors and works of the literature of Brazil from the colonial period to modern times.

GRADUATE COURSES IN SPANISH

All graduate courses in the Department of Spanish and Portuguese Languages and Literatures have a prerequisite of 12 upper division units in Spanish or consent of instructor.

601. Seminar in Hispanic Literary Theory (3)
Prerequisite: Two upper division literature courses in Spanish.
Critical issues in Hispanic literary theory from medieval to modern times. Emphasis on contemporary theory: formalism, hermeneutics, phenomenology, structuralism, and post-structuralism, including semiotics and deconstructionism.

610. Seminar in Medieval Spanish (3)
Prerequisite: Credit or concurrent enrollment in Spanish 448 or 449.
History of Castilian language from Latin to medieval Spanish with readings from medieval Spanish literature, especially El poema de Mío Cid and Berceo.

620. Cervantes (3)
The principal prose works of Cervantes: The Novelas ejemplares and Don Quixote.

630. Golden Age Drama (3)
The works of Lope de Vega and Calderon among others.

650. The Gaucho Epic (3)
The Poesía gauchesca, with particular emphasis on Martín Fierro, Fausto, and Santos Vega.

660. Modernism (3)
The Modernista movement in Spanish America, with special attention to representative poets.

670. The Generation of 1898 (3)
Prerequisite: Two upper division courses in Spanish literature. Major authors and works of the generation of 1898 in Spain: novel, drama, poetry, and essay.
675. Contemporary Spanish Prose Fiction (3)
Prerequisite: Two upper division courses in Spanish literature.
Development of Spanish prose fiction since the Spanish Civil War.

681. Spanish/Spanish American Dialectology (3)
Prerequisite: Spanish 448 or 449 or Linguistics 420 or a
500-level linguistics or Spanish linguistics course.
Dialects of Spain and Latin America; emphasis on differences
in pronunciation, syntax, and lexicon.

695. Contemporary Spanish American Prose
Fiction (3)
The principal writers of prose fiction in Spanish America
from the mid-thirties to today.

696. Selected Topics (3)
Prerequisites: Twelve upper division units in Spanish.
Intensive study in specific areas of Spanish. May be repeated
with new content. See Class Schedule for specific content. Max­
imum credit of six units of 696 applicable to a master’s degree.

750. Seminar in Spanish American Literature (3)
A genre or movement of Spanish America. May be repeated
with new content. See Class Schedule for specific content. Max­
imum credit six units applicable to a master’s degree.

755. Seminar in Spanish American Culture and
Thought (3)
Works of representative authors of Spanish America. May be
repeated with new content. See Class Schedule for specific con­
tent. Maximum credit six units applicable to a master’s degree.

770. Applied Spanish Linguistics for Teachers (3)
Prerequisite: Spanish 448 or 449.
The application of linguistic theory to the teaching of Spanish
at the secondary and college levels.

780. Multimedia Methods for Teaching Spanish (3)
Prerequisite: Spanish 770.
Theory and applications of teaching Spanish through multi­
media and interactive technologies. Research and development
of interactive multimedia programs for use in the classroom and
in the language laboratory.

790. Seminar in Spanish Syntax and Morphology (3)
Prerequisites: Spanish 350 and Linguistics 522.
Advanced study of the grammatical structures of Spanish.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff, to be arranged with depart­
ment chair and instructor.
Individual study. Maximum credit six units applicable to a
master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and
advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an
assigned grade symbol of SP.
Registration required in any semester or term following
assignment of SP in Course 799A in which the student expects
to use the facilities and resources of the university; also student
must be registered in the course when the completed thesis is
granted final approval.
Statistics
In the Department of Mathematical and Computer Sciences
In the College of Sciences

Faculty
John D. Elwin, Ph.D., Professor of Mathematical and Computer Sciences, Chair of Department
Kung-Jong Lui, Ph.D., Professor of Mathematical and Computer Sciences (Graduate Adviser for the M.S. in Statistics and the M.S. in Statistics with Concentration in Biostatistics)
Colleen Kelly, Ph.D., Associate Professor of Mathematical and Computer Sciences
Duane L. Steffey, Ph.D., Associate Professor of Mathematical and Computer Sciences (Statistics Coordinator)
Chii-Dean Lin, Ph.D., Assistant Professor of Mathematical and Computer Sciences

Associateships
Graduate teaching associateships in statistics and biostatistics are available and are awarded on a competitive basis by the Department of Mathematical and Computer Sciences. Application forms and additional information may be secured from the office of the Department of Mathematical and Computer Sciences.

General Information
The Department of Mathematical and Computer Sciences offers graduate study leading to the Master of Science degree in statistics. Students may pursue either the general degree or a concentration in biostatistics that emphasizes statistical methods and applications in the biological, health, and medical sciences.

Statisticians and biostatisticians are engaged in the acquisition and use of knowledge through the collection, analysis, and interpretation of data. Today, almost all disciplines – from economics to engineering, from social science to medicine – employ statistical methods. Such methods are essential in studying relations, predicting results, and making informed decisions in many different contexts. This diversity of application of this field has stimulated the current demand for well-trained statisticians and biostatisticians at all degree levels.

The Master of Science degree provides advanced training, with emphasis on statistical methodology, and prepares students for careers in industry and government as applied statisticians or biostatisticians, or for entry into a doctoral program in statistics or biostatistics.

As part of the degree requirements, graduate students conduct theses or research projects under the guidance of faculty with active research interests in most general areas of probability, statistics, and biostatistics. These research areas include biostatistical methods, survival analysis, mathematical demography, data analysis, inference, stochastic processes, time series, Bayesian statistics, categorical data analysis, statistical computing, nonparametric statistics, sample surveys, multivariate analysis, linear models, experimental design, and clinical trials.

Admission to Graduate Study
All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy as described in Part Two of this bulletin.

Specific Requirements for the Master of Science Degree in Statistics
(Major Code: 17021)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the students must meet the following program requirements:

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the students must meet the following program requirements:

1. Complete Statistics 670A, 670B, and 552 with no grade less than B in each course. These are core statistics courses.
2. Complete nine units of courses in statistics and biostatistics, selected from the following with the approval of the graduate adviser in statistics: Statistics 553, 671, 672, 674, 675, 676, 677, 678, 679, 680A, 680B.
3. Complete three additional units of 600- and 700-numbered courses offered by the Department of Mathematical and Computer Sciences, except that Mathematics 600, 601, 602, and Statistics 799A may not be used to fulfill these units required.
4. Complete three additional units of graduate level or approved 500-level courses offered by the Department of Mathematical and Computer Sciences, not including Statistics 799A.
5. Complete three units of approved electives.
6. The thesis option (Plan A) requires the approval of the graduate adviser and the statistics division faculty member who will chair the committee. Students in Plan A must include Statistics 799A in the 30-unit program and are required to pass a final oral examination on the thesis, open to the public.

7. Students in the non-thesis option (Plan B) are required to complete three units of Statistics 797, prepare a written project report, and pass an examination. Policy and procedures for the Plan B report and examination are documented and available from the office of the Department of Mathematical and Computer Sciences.

### Specific Requirements for the Master of Science Degree in Statistics with Concentration in Biostatistics

(Major Code: 17021)

In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must meet the following program requirements:

The student should have completed before entering the program the following undergraduate coursework: three semesters of calculus and one semester each of linear algebra and probability theory. The student should also have working knowledge of a programming language before entering the program. Students lacking some of the above undergraduate coursework may be admitted conditionally and may make up this coursework during the first year of the program (these courses will not count toward the degree course requirements).

The student must complete a minimum of 30 units of coursework as described below. Upon entry to the program, the student will be assigned to a graduate adviser in biostatistics. Thereafter, the adviser will meet with the student each semester and discuss his or her academic program. A program of study must be approved by the graduate adviser in biostatistics. The student should also have working knowledge of a programming language before entering the program. Students lacking some of the above undergraduate coursework may be admitted conditionally and may make up this coursework during the first year of the program (these courses will not count toward the degree course requirements).

The student must complete a minimum of 30 units of coursework as described below. Upon entry to the program, the student will be assigned to a graduate adviser in biostatistics. Thereafter, the adviser will meet with the student each semester and discuss his or her academic program. A program of study must be approved by the graduate adviser in biostatistics.

1. Complete Statistics 670A, 670B, and 552 with no grade less than B in each course. These are core statistics courses.
2. Complete Statistics 680A and 680B with no grade less than B in each course. These are biostatistics concentration courses.
3. Complete at least six units of courses in biostatistics and statistics, selected from the following with the approval of the graduate adviser in biostatistics: Statistics 553, 554A, 554B, 596, 671, 672, 674, 675, 676, 677, 678, 679, 696, 720, and 798.
4. Complete at least six units of 500-level or graduate courses from a science of application of biostatistics (e.g., bioscience, health science, or medical science), selected with the approval of the graduate adviser in biostatistics. If the student has an undergraduate degree in an area of application of biostatistics, 500-level or graduate mathematical sciences courses may be substituted with the approval of the graduate adviser in biostatistics.
5. With the approval of the graduate adviser and the faculty member who will chair the thesis committee, the student may choose Plan A and complete three units of Statistics 799A. The chair of the thesis committee must be a faculty member from the division of statistics in the Department of Mathematical and Computer Sciences. One of the other two members of the thesis committee must be a faculty member from a science of application of biostatistics (i.e., bioscience, health science, or medical science). The student must pass an oral defense of the thesis, open to the public.
6. In other cases, Plan B will be followed. Students who choose Plan B are required to complete three units of Statistics 797, prepare a written project report, and pass an examination. Policy and procedures for the Plan B report and examination are documented and available from the office of the Department of Mathematical and Computer Sciences.

### Courses Acceptable on Master’s Degree Programs in Statistics

#### UPPER DIVISION COURSES

(Note: Statistics 550, 551A, or 551B are not acceptable on the Master of Science degree in Statistics.)

(Note: Proof of completion of prerequisites required for all upper division courses: Copy of transcript.)

550. Probability I, II
Prerequisite: Mathematics 151.
Computation of probability by enumeration of cases, discrete and continuous random variables, density functions, moments, limit theorems, selected distributions. Markov chains, random walks, selected topics. (Formerly numbered Mathematics 550.)

551A. Mathematical Statistics I
Prerequisite: Mathematics 252.
Point and interval estimation and hypothesis testing in statistical models with applications to problems in various fields. (Formerly numbered Mathematics 551A.)

551B. Mathematical Statistics II
Prerequisite: Statistics 551A.
Point and interval estimation and hypothesis testing in statistical models with applications to problems in various fields. (Formerly numbered Mathematics 551B.)

552. Sample Surveys
Prerequisite: Statistics 550 or 551A.
Methods for design and analysis of sample surveys with applications to social and biological sciences. Simple random sampling, stratification and clustering, ratio and regression estimators, subsampling, selected topics in survey methodology. (Formerly numbered Mathematics 673.)

553. Stochastic Processes
Prerequisite: Statistics 550 or 551A.
Introduction to stochastic processes with selected applications. (Formerly numbered Mathematics 553.)

554A. Computer Oriented Statistical Analysis
Prerequisite: Statistics 350A.
Using statistical computer packages such as BMDP and SAS to analyze problems in univariate ANOVA, multiple regression, contingency tables, nonparametric methods and discriminant analysis. (Formerly numbered Mathematics 554A.)
554B. Advanced Computer Oriented Statistical Analysis (3) II
Prerequisite: Statistics 554A.
Analyze problems in multivariate ANOVA, factor analysis, repeated measures, logistic regression, loglinear models, cluster analysis. Using statistical computer packages. (Formerly numbered Mathematics 554B.)

596. Advanced Topics in Statistics (1-4) I, II
Prerequisite: Consent of instructor.
Selected topics in statistics. May be repeated with the approval of the instructor. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree. Maximum credit of six units of 596 applicable to a bachelor's degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

670A-670B. Advanced Mathematical Statistics (3-3)
Prerequisite: Statistics 550 or 551A. Statistics 670A is prerequisite to 670B.
Distribution of random variables, characteristic functions, limiting distributions, sampling distributions, hypothesis testing and estimation, optimality considerations, applications of the linear hypothesis, invariance and unbiasedness to analysis of variance and regression problems, sequential techniques, decision theory. (Formerly numbered Mathematics 670A-670B.)

671. Statistical Computing (3)
Prerequisite: Statistics 551B or 670B.
Machine computation in the development, application, and evaluation of advanced statistical techniques. Floating point arithmetic and algorithm stability; numerical methods for parameter estimation (including maximum likelihood) and multivariate probability integration; Monte Carlo simulation and other computer-intensive statistical techniques. (Formerly numbered Mathematics 671.)

672. Nonparametric Statistics (3)
Prerequisite: Statistics 551B or 670B.
Theory and application of commonly used distribution-free test statistics, including sign and Wilcoxon tests, and corresponding nonparametric point and interval estimators. Kruskal-Wallis and Friedman tests for analysis of variance, nonparametric regression methods, and other selected topics. (Formerly numbered Mathematics 672.)

674. Multivariate Analysis (3)
Prerequisites: Mathematics 524 and Statistics 551B or 670B.
Multivariate normal distributions, multivariate analysis of variance, factor analysis, canonical correlation. (Formerly numbered Mathematics 674.)

675. Linear Statistical Models (3)
Prerequisites: Statistics 551B or 670B and Mathematics 524.
Multivariate normal distribution; distribution of quadratic forms; linear and curvilinear models; general linear hypothesis of full rank, regression models. (Formerly numbered Mathematics 675.)

676. Bayesian Statistics (3)
Prerequisite: Statistics 551B or 670B.
Bayes' theorem; conjugate priors; likelihood principle; posterior probability intervals; Bayes factors; prior elicitation; reference priors; computational techniques; hierarchical models; empirical and approximate Bayesian inference; posterior sensitivity analysis; decision theory.

677. Design of Experiments (3)
Prerequisite: Statistics 550 or 551A.
Methods for design and analysis of experiments with applications to industry, agriculture, and medicine. Concepts of randomization, blocking, and replication. Incomplete block designs, fractional factorial experiments, response surface methods, selected topics. (Formerly numbered Mathematics 677.)

678. Survival Analysis (3)
Prerequisites: Statistics 551B or 670B.
Survival distributions; inference in parametric survival models; life tables; proportional hazards model; time-dependent covariates; accelerated time model and inference based on ranks; multivariate time data and competing risks. (Formerly numbered Mathematics 678.)

679. Analysis of Discrete Data (3)
Prerequisite: Statistics 551B or 670B.
Discrete sampling models; goodness-of-fit testing; methods for binary data with covariates, including logistic regression and probit analysis; loglinear modeling of multidimensional contingency tables; ordered categories; incomplete tables; Bayesian methods; hierarchical models. (Formerly numbered Mathematics 679.)

680A-680B. Advanced Biostatistical Methods (3-3)
Prerequisites: Statistics 550 or 551A. Statistics 680A is prerequisite to 680B.

696. Selected Topics in Statistics (3)
Prerequisite: Graduate Standing.
Intensive study in specific areas of statistics. May be repeated with new content. See Class Schedule for specific content. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master's degree.

720. Seminar (1-3)
Prerequisite: Consent of instructor.
An intensive study in advanced statistics. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master's degree.

797. Research (1-3) Cr/NC/SP
Prerequisite: Six units of graduate level statistics.
Research in one of the fields of statistics. Maximum credit six units applicable to a master's degree.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor.
Individual study. Maximum credit six units applicable to a master's degree.
799A. Thesis or Project  (3) Cr/NC/SP
Prerequisites: An officially appointed thesis committee and advancement to candidacy.
Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension  (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP.
Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
Theatre Arts
In the College of Professional Studies and Fine Arts

Faculty
Ralph Funicello, B.F.A., The Don W. Powell Chair in Scene Design
Anne-Charlotte Harvey, Ph.D., Professor of Theatre, Graduate Coordinator
Michael L. Harvey, Ph.D., Professor of Theatre
Peter F. Larlham, Ph.D., Professor of Theatre
Margaret McKerrow, Ph.D., Professor of Theatre
Terry L. O’Donnell, D.M.A., Professor of Theatre
Beeb Salzer, M.F.A., Professor of Theatre
R. Craig Wolf, M.F.A., Professor of Theatre
Paula Kalustian, M.F.A., Associate Professor of Theatre
William N. Reid, M.F.A., Associate Professor of Theatre
Loren P. Schreiber, M.F.A., Associate Professor of Theatre
Randy Reinholz, M.F.A., Assistant Professor of Theatre

Associateships and Assistantships
Graduate teaching associateships and graduate assistantships are available to a limited number of qualified students. Application forms and further information may be obtained from the department.

The Don W. Powell Chair in Scene Design
The Don W. Powell Chair in Scene Design was established through a trust provided by the late professor emeritus. Always concerned about students, Powell, who retired after 30 years with the theatre department, created the trust in order to enhance theatre education at S.D.S.U. The first holder of The Don W. Powell Scene Design Chair is the nationally acclaimed designer Ralph Funicello.

General Information
The Department of Theatre offers graduate study leading to the Master of Arts degree and the Master of Fine Arts degree. The Master of Fine Arts degree is offered in the areas of acting, design/technical theatre, and musical theatre. The M.A. is a 30-unit program; the M.F.A. a 60-unit program. Both programs of study limit the number of students accepted in order to offer individual attention and extensive opportunity to participate in theatre production. The Dramatic Arts building contains the proscenium-style Don Powell Theatre seating 500, with state-of-the-art computer lighting and sound control, and the flexible Experimental Theatre seating 200, rehearsal and recording areas, a design studio and CADD laboratory, paint shop, wagon house, scene shop, and fully equipped costume laboratory. The Department of Theatre is a member of the National Association of Schools of Theatre (N.A.S.T.).

Master of Arts Degree in Theatre Arts
Admission to Graduate Study
General requirements for admission to the University with classified graduate standing are described in Part Two of this bulletin. In addition, the student’s area advisor will judge the applicant capable of graduate work in theatre arts. The judgment will be based on (1) the applicant’s transcripts of prior academic work; (2) three current and relevant letters of recommendation from individuals familiar with the applicant’s academic ability; (3) the applicant’s scores on the GRE General Test; (4) the applicant’s scores on the GRE Writing Assessment Test; and (5) an interview, when appropriate, revealing the applicant’s ability to succeed in the chosen area. NOTE: M.A. applications are accepted for Fall admission only. Application deadline is April 15 for the following Fall semester.

Advancement to Candidacy
All students in the Master of Arts program must meet the general requirements for advancement to candidacy, as described in Part Two of this bulletin. In addition, students seeking the Master of Arts degree in Theatre Arts (regardless of area of specialization) are required to have completed Theatre 600A, and to have removed any deficiencies assigned. It is recommended that all graduate students take Theatre 600A during their first semester.

Specific Requirements for the Master of Arts Degree
(Major Code: 10071)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of a minimum of 30 units to include Theatre 600A, 600B, 610, 621, 647A or 647B or 649, and 799A. Eighteen of the 30 units must be in 600- and 700-numbered drama courses and the remaining 12 units may be selected from 500-, 600-, or 700-numbered courses. A maximum of 9 units may be elected outside the Theatre Department. PLEASE NOTE: Theatre 600A, 600B, 610, 621, 647A or 647B or 649, and 799A are required courses for all Master of Arts candidates.

Master of Fine Arts Degree in Theatre Arts

Admission to Graduate Study
In addition to meeting the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin, a student must satisfy the following requirements before being recommended for classified graduate standing:
1. Achieve a score of not less than 1000 on the GRE General Test (combined verbal and quantitative).
2. Possess a baccalaureate degree in theatre or an approved affiliated field with a grade point average of not less than 2.5 overall in the last 60 units of study attempted, with a 3.0 undergraduate average in the major, and a 3.5 average in those theatre classes considered prerequisites for the M.F.A. concentration in design/technical theatre.
3. Complete undergraduate requirements commensurate with the proposed concentration in the M.F.A. program.
4. Complete a minimum of six units of theatre history.
5. Satisfy additional concentration requirements listed below.

Students who have not met certain criteria or demonstrate deficiencies in undergraduate preparation or basic skill development, may be granted conditional admission with the understanding that remedial coursework will be completed prior to advancement to classified standing. Remedial coursework cannot be applied to the 60-unit minimum requirement for the degree. Students who do not satisfy the requirements for an M.F.A. degree will not automatically be considered for an M.A. degree.

A student holding an M.A. degree in theatre arts from San Diego State University or any other institution of higher learning must formally apply for the M.F.A. degree. PLEASE NOTE: Applicants holding an M.A. or M.F.A. degree from an accredited institution may transfer up to 30 units upon review and approval of the graduate dean.

In addition to meeting the admission requirements listed above, a student must demonstrate professional potential in musical theatre by providing:
1. A resume of musical theatre accomplishments.
2. An audition, either in person or via videotape (VHS), which would include two contrasting works: one contemporary piece and one classical piece from Shakespearean drama (total time not to exceed 12 minutes).
3. Three letters of recommendation attesting to the candidate’s academic qualifications and level of competence in musical theatre performance in the areas of acting, singing, and dancing.

For specific audition dates and locations, write to the Director, Musical Theatre Program, Department of Theatre, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182-7601.

Concentration in Musical Theatre

In addition to meeting the admission requirements listed above, a student must demonstrate professional potential in musical theatre by providing:
1. A resume of musical theatre accomplishments.
2. An audition, either in person or via videotape, to include two contrasting vocal selections, two contrasting monologues, and a dance/movement piece.
3. Three letters of recommendation attesting to the candidate’s academic qualifications and level of competence in musical theatre performance in the areas of acting, singing, and dancing.

For specific audition dates and locations, write to the Director, Musical Theatre Program, Department of Theatre, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182-7601.

Concentration in Acting

No students admitted to program at this time.

In addition to meeting the admission requirements listed above, a student must demonstrate professional potential in acting by providing:
1. A resume of acting accomplishments.
2. A portfolio which contains two contrasting works: one contemporary piece and one classical piece from Shakespearean drama (total time not to exceed 12 minutes).
3. Three letters of recommendation attesting to the candidate’s academic qualifications and level of competence in acting.

For specific audition dates and locations, write to the Director, Graduate Acting Program, Department of Theatre, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182-7601.

Concentration in Design and Technical Theatre

In addition to meeting the admission requirements listed above, a student must demonstrate outstanding abilities in a particular area of design/technical theatre by submitting the following items:
1. Those students primarily interested in design must submit a design portfolio which contains sketches, renderings, graphics, floor plans, elevations, plots, color/fabric swatches, and photographs of productions, revealing the applicant’s creative ability in the chosen area or areas of design.
2. Those students primarily interested in technical theatre must submit a portfolio which contains evidence of technical direction and management experiences in scenic, lighting, or costume technology and design.
3. A resume which contains documentation of participation in not less than five full-length theatrical productions.
4. Three letters of recommendation attesting to the candidate’s academic, professional, and personal qualifications from academic or professional theatre sources.

For specific interview dates and locations, write to the Director, Design Program, Department of Theatre, San Diego State University, 5500 Campanile Drive, San Diego, CA 92182-7601.

Advancement to Candidacy

All students must meet the general requirements for advancement to candidacy as described in Part Two of this bulletin. Candidates for the M.F.A. must have completed 30 units within their official program with a minimum grade point average of 3.0. A minimum of 24 units in the official program must be enrolled in and completed concurrently with or after advancement to candidacy. Students in each concentration must have successfully completed Theatre 600A and removed any deficiencies noted by the faculty.

Specific Requirements for the Master of Fine Arts Degree

(Major Code: 10072)

Forty-five of the sixty units required must be completed in courses numbered 600 or above. The remaining units may be selected from 500-, 600-, or 700-numbered courses in theatre or outside departments.

At least 30 units of the student’s program must be completed in residence at San Diego State University, and the student must be in residence not less than two semesters. No more than six units in 798 will be accepted for credit toward the degree.
Candidates for the M.F.A. with a concentration in acting, in addition to meeting the requirements for classified graduate standing, must complete a 60-unit graduate program consisting of the following courses: Theatre 600A, 600B, 607* (must be taken four times for a total credit of 12 units), 610, 621, 624*, 630 (maximum 2 units), 631*, 632*, 633*, 634*, 746, 795, 799A.

Twelve additional units are to be selected from courses acceptable for graduate credit in the following areas: theatre, art, communication, education, English and comparative literature, exercise and nutritional sciences, history, linguistics, music, television, film, and new media. It is recommended that students include at least 3 units from Theatre 532, 533A, 533B, 551 among the 12 units of electives. In special circumstances, additional courses acceptable for graduate credit in other departments may be selected with the approval of the student’s adviser.

Students in the concentration in acting will be reviewed by a faculty panel each semester to determine if their progress warrants continuation in the program. In conjunction with the completion of Theatre 746 and 799A, students must complete an adjudicated performance thesis project established and approved by their thesis committee. This project will be supported by a written thesis project report (analysis/apologia).

Candidates will prepare an adjudicated performance thesis project established and approved by their thesis committee. This project will be supported by a written thesis project report (analysis/apologia).

Courses Acceptable on Master’s Degree Programs in Theatre Arts

**UPPER DIVISION COURSES**

(Unless otherwise noted, all Drama courses are now listed as Theatre courses.)

510. **Creative Drama and Language Arts** (3) I  
Prerequisite: Theatre 310.  
Advanced techniques in using creative drama to teach literature and language. Emphasis on use of drama in teaching of reading and world literature. Practical experience through fieldwork in elementary or middle school classrooms.

520. **History of Musical Theatre** (3) I  
Prerequisite: Upper division standing.  
Musical theatre from early Viennese operettas to musicals of modern times; representative works.

523. **Stage Combat** (2) II  
Four hours of activity.  
Prerequisite: Theatre 355 for undergraduates. Graduate standing for postbaccalaureate students.  
Skills and choreography of armed and unarmed stage combat. Performance application to selected scenes from world drama.

530. **Period Dress and Decor** (3) I  
Prerequisite: Theatre 240B or graduate standing.  
Visual survey of relationships and cultural significance of period dress, architecture, and decorative arts as applied to theatrical productions. Emphasis on significant historic periods in dramatic literature.

532. **Advanced Acting and Directing** (3) I  
Prerequisite: Theatre 231. Acting students admitted by audition only; directing students by interview.  
Problems in characterization in contemporary drama, and in plays of Ibsen, Strindberg, Chekhov, and Shaw.

533A-533B. **Theory and Styles in Acting and Directing I and II** (3-3)  
Prerequisite: Theatre 231. Acting students admitted by audition only; directing students by interview.  
Acting and directing problems in theory and style related to the production of plays from great periods in theatre history, with attention to characterization, dramatic values, creative directing and production approaches.

539. **Theatre Rendering** (2) I  
Four hours of activity.  
Prerequisite: Theatre 240B.  
Rendering for scenic, costume, and lighting designer. Techniques, media, and portfolio preparation. Maximum credit four units.
540. Scene Design II (3) II
Prerequisites: Theatre 440 and 530.
History of scene design and application of contemporary styles to various types of dramatic production.

541. Scene Painting (2) II
Four hours of activity.
Prerequisite: Theatre 530.
Theories and techniques of scene painting, including both historical backgrounds and modern procedures. Full-scale projects executed in scenery studio.

543. Stage Property Design (2) II
One lecture and two hours of activity.
Prerequisite: Theatre 530.
Theories and techniques of property design for the theatre: script analysis, research methods, planning and budgeting procedures, construction techniques and materials. Projects in property design for selected scripts.

545. Mechanical Drawing for the Theatre (2)
Four hours of activity.
Prerequisite: Theatre 240A or admission to MFA in Design.
Theatre drafting standards and techniques. Floor plans, sections, elevations, perspective drawings, and light plots. (Formerly numbered Drama 448A.)

546. Computer Systems for the Theatre (2) II
One hour of discussion and three hours of activity.
Prerequisite: Theatre 545.
Functional study of computer systems and their application to the theatre. CADD, lighting and sound control, and production management.

547. Lighting Design II (3) I
Two lectures and three hours of laboratory.
Prerequisite: Theatre 447.
Advanced design theories and lighting practice for theatre and dance. Laboratory and production related activities.

548. Sound Design for the Theatre (3) I
Two lectures and two hours of activity.
Prerequisites: Theatre 240C and 325.
Theories and techniques of sound design and reinforcement for theatrical performance. Laboratory experience in sound production.

549. Lighting and Sound Technology (2)
One lecture and three hours of laboratory.
Prerequisite: Theatre 447.
Use of electrics for the stage. Lighting, sound, computer. Practical applications emphasized.

551. Costume, Movement, and Manners (3) I
Prerequisite: Upper division standing or admission to the graduate program.
Interrelationship of period costumes and the movement and manners of selected historical periods; application to staging of plays from pre-modern theatre.

552. Costume Design II (3) II
Prerequisites: Theatre 452 and 530.
Advanced studies in costume design. Emphasis on theatrical style, rendering layout, design problems, materials, and budget.

554A. Costume Design Technology I (2) II
Four hours of activity.
Prerequisite: Theatre 240B.
Current materials and practices of costume technology: advanced construction techniques, fabric selection and use, period pattern drafting, draping and cutting.

554B. Costume Design Technology II (2) II
Four hours of activity.
Prerequisite: Theatre 240B.
Advanced costume craft construction techniques and management procedures for costume production: millinery, fabric dyeing and painting, jewelry, and related crafts.

555. Movement for the Theatre II (2) I
Four hours of activity.
Prerequisite: Theatre 130 or admission to the M.F.A. program.
Movement techniques for theatre. Movement patterns, phrase development, and musical theatre movement styles. Maximum credit four units applicable to a bachelor’s degree; maximum credit eight units applicable to the M.F.A. degree in theatre arts.

570A-570B. Practicum in Theatrical Production (1-3) (1-3)
Prerequisite: Theatre 440, 447, or 452; or admission to MFA in Design.
Design projects in areas of scenery, costume, lighting, sound, or makeup. Maximum credit six units. (Formerly numbered Drama 470A-470B.)
A. Independent Study with Don W. Powell Chair in Scene Design
B. Design for Department Public Performances

580. Theatre in the Classroom (3)
Prerequisites: Theatre 310 and 315.
Methods of teaching theatre in elementary, middle, and secondary schools. Emphasis on pedagogy, organization of curriculum, play selection, and principles of producing plays in the classroom. (Formerly numbered Theatre 480.)

596. Selected Topics in Theatre (1-3) I, II
Prerequisite: Twelve units in theatre.
A specialized study of selected topics from the areas of theatre. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a 30-unit master’s degree.

GRADUATE COURSES

600A. Research and Bibliography (2)
Basic reference works, scholarly and critical journals; introduction to bibliographical techniques; exercises and problems in methods and exposition of research as it relates to the various areas of theatre. Recommended for first semester of graduate work, and prerequisite to advancement to candidacy.

600B. Thesis Preparation (1)
Prerequisite: Theatre 600A.
Development and presentation of thesis with focus on writing and formal parameters.
610. Aesthetics for the Stage (3)
Prerequisites: Theatre 600A and admission to M.A. or M.F.A. program in drama.
Selected aesthetic theories (i.e., aesthetic distance, empathy, illusion) and their significance in contemporary theatre. Class presentations in techniques of conceptual thought including stylistic approaches, unity of design, and textual communication.

621. Seminar in Theories of the Theatre (3)
Prerequisites: Minimum three units of upper division theatre history; credit or concurrent registration in Theatre 600A.
Theories of dramatic literature and performance, reflecting major stylistic movements and aesthetic philosophies of the stage from the classical Greeks to today (e.g., Aristotle, Lessing, Appia, Brecht, and Grotowski).

623. Seminar in Musical Theatre Script and Score Analysis (3)
Prerequisite: Admission to M.F.A. musical theatre program.
Representative works from the musical theatre spectrum analyzed in terms of dramatic and musical content, environment, action, character and style.

627. Musical Theatre Studio (4)
Eight hours of activity.
Prerequisite: Admission to M.F.A. musical theatre program.
Acting, singing, and dancing skills in relation to musical theatre performance, direction, choreography, and composition.

630. Individual Vocal Instruction (1)
Prerequisite: Admission to M.F.A., concentration in acting or musical theatre.
Individual vocal instruction/coaching devoted to diagnosis and correction of problems for students in M.F.A. concentration in acting or musical theatre. Maximum two units applicable to acting. Musical theatre students must take one unit each semester for a maximum of four units.

642. Theatre Practicum Skills (2) Cr/NC
Prerequisite: Admission to M.F.A. program.
Assisting on design projects for department productions. To be arranged with area adviser.

643. Collaborative Studies in Design (3)
Two lectures and two hours of activity.
Prerequisite: Admission to M.F.A. program in design/technical theatre. This course must be repeated each semester by the M.F.A. design student for a maximum of 12 units.
Design of theatrical productions with emphasis on artistic collaboration and integration of scenery, costumes and lights. Attention to graphic presentation techniques as well as designs produced.

645. Seminar in Lighting for Stage and Television (3)
Prerequisite: Theatre 447 or 547.
Projects concerned with the aesthetic and technical problems of stage lighting.

646. Seminar in Design for Stage and Television (3)
The principles of design in the theatre with an emphasis on the historical development of theatrical costume or scenic environment. The investigation of recent tendencies in styles and their evolution. Each section may be taken once for credit.
A. Costume Design - Prerequisite: Theatre 452 or 552.
B. Scenery Design - Prerequisite: Theatre 540 or 545.
Women’s Studies
In the College of Arts and Letters

Faculty
Susan E. Cayleff, Ph.D., Professor of Women’s Studies, Chair of Department
Oliva M. Espín, Ph.D., Professor of Women’s Studies
Patricia Huckle, Ph.D., Professor of Women’s Studies
Kathleen B. Jones, Ph.D., Professor of Women’s Studies
Maria-Barbara Watson, Ph.D., Professor of Women’s Studies
Bonnie Zimmerman, Ph.D., Professor of Women’s Studies
(Graduate Adviser)
Janet A. Kohen, Ph.D., Associate Professor of Women’s Studies
Huma Ahmed Ghosh, Ph.D., Assistant Professor of Women’s Studies
Doreen J. Mattingly, Ph.D., Assistant Professor of Women’s Studies
Patricia A. Washington, Ph.D., Assistant Professor of Women’s Studies

Associateships and Assistantships
Graduate teaching associateships and graduate assistantships in women’s studies are available to a limited number of qualified students. Application forms and additional information may be obtained from the graduate adviser in the Department of Women’s Studies.

General Information
The Department of Women’s Studies offers graduate study leading to the Master of Arts degree in women’s studies. The department, recognized as the nation’s first (1970) and among the strongest, has a distinguished faculty in the humanities and social sciences. Discipline-specific expertise as well as feminist theoretical paradigms are available to satisfy students’ multi-faceted interests.

The Master of Arts degree is designed to provide advanced training for (1) students who plan to terminate their graduate studies at the master’s level, and (2) those who anticipate further study leading to a doctoral degree in women’s studies or related fields. It will also provide a foundation for further graduate work in professional degree programs such as counseling, social work, law, and public health. The M.A. will enhance students’ ability to participate professionally in a range of organizations and businesses in the public and private sector, particularly those addressing women’s issues.

Admission to Graduate Study
The application deadline for Fall admission of new students in the Department of Women’s Studies is February 15. All students must satisfy the general requirements for admission to the University with classified graduate standing, as described in Part Two of this bulletin. As an additional requirement, students must demonstrate sufficient preparation for the program. This preparation can include possession of a bachelor’s degree in women’s studies from an accredited institution or completion of sufficient units in women’s studies and related fields. Evaluation of a student’s transcript will be made on an individual basis by the admissions committee to determine whether evidence of sufficient preparation can be demonstrated. A student whose preparation is deemed insufficient by the Graduate Admissions Committee may be admitted as conditionally classified and will be required to complete specified courses in addition to the minimum of 30 units required for the degree.

The grade point average required for admission to the M.A. program in women’s studies is 3.0 for the last 60 units of the student’s undergraduate work, plus satisfactory scores on the verbal and quantitative sections of the GRE. Conditional admission is possible pending the taking of the GRE General Test during the first semester of enrollment and the attainment of a satisfactory score.

Applicants must provide the Graduate Admissions Committee with the following items: (1) transcripts of all previous coursework; (2) a written statement of background, intentions, and goals, including experience in women’s studies and with women’s issues, rationale for pursuing the M.A. degree, and relation of the M.A. degree in women’s studies to prior academic work and to career objectives; (3) two letters of reference from individuals with direct knowledge of the applicant’s scholarly ability.

Advancement to Candidacy
All students must satisfy the general requirements for advancement to candidacy, as stated in Part Two of this bulletin.

Specific Requirements for the Master of Arts Degree in Women’s Studies
(Major Code: 49991)
In addition to meeting the requirements for classified graduate standing and the basic requirements for the master’s degree as described in Part Two of this bulletin, the student must complete a graduate program of 30 units with at least 21 units in women’s studies including Women’s Studies 601; nine units selected from Women’s Studies 602, 603, 604, 605, 606; Women’s Studies 701, 797, and 799A (for Plan A Thesis); and a theme of study composed of nine units of graduate electives, selected with the approval of the student’s adviser. The theme may include courses in departments other than women’s studies. Normally, students will be expected to pursue Plan A, which requires presentation of an acceptable thesis. In certain special circumstances and with the prior approval of the graduate adviser, a student may be permitted to pursue Plan B, comprehensive examination. When Plan B is chosen, three additional graduate units in women’s studies shall be selected in lieu of 799A. Candidates for this degree must demonstrate knowledge of either a relevant foreign language or an approved substitute in computer language or statistical methods. Other substitutes may be approved where the skills involved are directly related to the student’s research interests. Course selection and programs must be approved by the graduate adviser.
Courses Acceptable on Master's Degree Program in Women's Studies

UPPER DIVISION COURSES

512. Women of Latin America (3)
Prerequisite: Three upper division units in women's studies. How social and other factors impact the lives of Latin American women. Theoretical frameworks illuminate their situation. Sociocultural perspectives are offered on Latin American women's life narratives.

515. Women: Mythology and Ritual (3)
Prerequisite: Three upper division units in women's studies. Meanings and functions of myths and rituals in their sacred and secular aspects, emphasizing their impact on women's lives and relationships in differing cultural contexts, past and present.

521. Life Cycles of Women (3)
Prerequisite: Three upper division units in women's studies. Women's developmental processes across the life cycle; their impact on women, men, and the family, including life passages related to adolescence, marriage, motherhood, divorce, widowhood, "second careers," and aging in varying socioeconomic and cultural contexts.

522. Women: Madness and Sanity (3)
Prerequisite: Three upper division units in women's studies. Concepts of mental health and mental illness as applied to women. Theory of psychotherapy, both traditional and feminist. Alternative approaches to mental health.

530. International Women's Movements (3)
Prerequisite: Three upper division units in women's studies. Comparative study of women's movements worldwide in past and present, to include discussion of issues such as female bonding, leadership, and women's goals and strategies to achieve them within local, national, and global contexts.

535. Lesbian Lives and Cultures (3)
Prerequisite: Consent of instructor. Historical, cultural, and social exploration of lesbianism. Topics include myths and stereotypes, history and literature, social and political movements, theoretical explanations, and current conditions.

536. Women, Race, and Class (3)
Prerequisite: Three upper division units in women's studies. Major issues and themes in the history, culture, and contemporary lives of women of color in the U.S. Analysis of theories explaining similarities and differences in opportunities and life choices. Roles within social and political movements.

553. Women Writers (3)
Prerequisite: Three upper division units in women's studies. Literary, historical, and social consideration of women writers; may focus on one author, era, or theme. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units. Limit of three units applicable to the major in women's studies.

565. Women, Health, and Medicine (3)
Prerequisite: Three upper division units in women's studies. Historical and contemporary relationship of women to alternative and traditional healing systems. Illness labeling, folk-healing beliefs, sectarian medicine, reproduction, birth control, life-cycle events, roles as practitioners and patients, ethical controversies, and aging.

572. Women and Violence (3)
Prerequisite: Three upper division units in women's studies. Forms of violence against and by women. Processes which shape women's resistance to, and collusion in, social, economic, political, and sexual violence.

580. Women and International Development (3)
Prerequisite: Three upper division units in women's studies. Women's roles as agents and recipients of change worldwide, focusing on such issues as self-determination, education, family and work, food and hunger, and reproduction.

582. Science and Technology in Women's Lives (3)
Prerequisite: Three upper division units in women's studies. Role of science and technology in women's lives to include historical participation, contemporary opportunities and barriers; public policies; feminist critiques and alternative strategies for thinking about and doing science.

590. Feminist Thought (3) I
Prerequisite: Six upper division units in women's studies. Readings in feminist theory and contemporary theoretical perspectives on core concepts and issues in feminist scholarship. Focus on understanding from a feminist perspective and on the significance of analyzing female experiences.

595. Seminar in Women's Studies (3) II
Prerequisites: Three upper division units in women's studies and consent of instructor. Directed research in women's studies. Field of investigation will vary with instructor. Methods of investigation, development of bibliography, presentation of paper based on original research. See Class Schedule for specific content.

596. Topics in Women's Studies (3)
Prerequisite: Consent of instructor. Advanced topics in women's studies. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor's degree.

597. Research Project (3) I, II
Prerequisites: Six upper division units in women's studies and consent of adviser. Individual research project. May be taken in place of Women's Studies 595, Seminar in Women's Studies.

GRADUATE COURSES

601. Foundations of Feminist Scholarship (3)
Prerequisite: Graduate standing. Theories, issues, and major paradigms underlying feminist scholarship. Development of women's studies as a discipline. Emphasis on multicultural approaches and perspectives.
602. Seminar: Methods of Inquiry in Women's Studies (3)
Prerequisites: Six upper division units in women’s studies. Examination and critique of traditional research methods; methods of critical feminist investigation; designs of research proposals.

603. Seminar: Advanced Feminist Theory (3)
Prerequisite: Six upper division units in women’s studies. Analysis of categories of contemporary feminist theory including concepts of identity and difference; theories of subjectivity; feminist discourses, strategies, and practices.

604. Seminar: Gender, Culture, and Representation (3)
Prerequisite: Six upper division units in women’s studies. Representations of women and femininity in cultural systems. Women as images in and creators of literature, art, music, and other cultural endeavors. Interconnection between representations of gender and of race, ethnicity, class, and sexualities.

605. Seminar: Women, Relationships, and Social Policy (3)
Prerequisites: Six upper division units in women’s studies. Theories of women’s friendships and family relationships; relationship development in historical and cross-cultural context; effects of social policies on women’s relationships.

606. Seminar: Narrating Women’s Lives (3)
Prerequisites: Six upper division units in women’s studies. Exploration of women’s biographies and autobiographies. Theories of narration, identity construction, and oral and written life histories. Interconnection between self-presentation and social, historical, and multicultural institutions and discourses.

696. Selected Topics in Women’s Studies (3-6)
Prerequisite: Classified graduate standing. Intensive study in specific areas of women’s studies, with emphasis on theoretical and methodological issues. May be repeated with new content. Maximum credit of six units of 696 applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

701. Seminar in Women’s Studies (3)
Prerequisite: Six upper division units in women’s studies. Interdisciplinary seminar integrating research in various areas of women’s studies in humanities, social sciences, arts and/or sciences. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units.

797. Research (1-3) Cr/NC
Prerequisite: Advancement to candidacy and written approval of the Women’s Studies department graduate adviser. Independent research in a specialized subject in women’s studies.

798. Special Study (1-3) Cr/NC/SP
Prerequisite: Consent of staff; to be arranged with department chair and instructor. Independent study. Maximum credit six units applicable to a master’s degree.

799A. Thesis (3) Cr/NC/SP
Prerequisite: An officially appointed thesis committee and advancement to candidacy. Preparation of a project or thesis for the master’s degree.

799B. Thesis Extension (0) Cr/NC
Prerequisite: Prior registration in Thesis 799A with an assigned grade symbol of SP. Registration required in any semester or term following assignment of SP in Course 799A in which the student expects to use the facilities and resources of the university; also student must be registered in the course when the completed thesis is granted final approval.
Upper Division and Graduate Topics Courses

(Also Acceptable for Advanced Degrees)

The following courses are acceptable on selected advanced degree programs.

AMERICAN STUDIES COURSE

580. Topics in American Studies (1-3) I, II
Topics dealing with cultural images and myths, social protest, folklore; themes focusing upon fear, alienation and nationalism; problems around racism, minorities and counter-cultures. See Class Schedule for specific content. May be repeated once with new content; and with the approval of the adviser, more than once by American studies majors. Maximum credit six units applicable to a master’s degree in American studies.

CHICANA AND CHICANO STUDIES COURSES

504. Immigration: A Literary Analysis (3)
Prerequisite: Upper division standing.
Literary analysis of themes of immigration, the borderlands, and ethnicity.

596. Topics in Mexican American Studies (1-3)
Prerequisite: Consent of instructor.
Advanced topics in Mexican American studies. See Class Schedule for specific content. May be repeated with new content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree.

696. Selected Topics in Mexican American Studies (3)
Prerequisite: Classified graduate standing.
Intensive study in specific areas of Mexican American studies with emphasis on theoretical and methodological issues. May be repeated with new content. See Class Schedule for specific content. Maximum credit six units applicable to a master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree. (Formerly numbered Mexican American Studies 696.)

GERONTOLOGY COURSES

520. Analysis of Programs for the Aging (3)
Prerequisite: One upper division course in gerontology. Major programs in aging that support daily functioning of elderly. Effectiveness of programs in serving today’s elderly with attention to ethnic and cross-cultural variations.

522. International Issues on Aging (3)
Prerequisite: Three units in gerontology. Socio-economic implications of rapidly growing number and proportion of older people around the world. Comparative study of aging populations in different countries, analysis and evaluation of related policies and programs.

596. Advanced Special Topics in Gerontology (1-4) I, II
Advanced selected topics in gerontology. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit of six units of 596 applicable to a bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

696. Contemporary Topics in Gerontology and Geriatrics Seminar (3)
Prerequisite: A graduate level course in gerontology. Areas of gerontology and geriatrics that make an immediate impact on the quality of life and lifestyles of the elderly. To include diverse life situations of older people.

HUMANITIES COURSES

596. Topics in Humanities (1-3)
Prerequisite: Upper division standing and consent of instructor.
Special topics on selected aspects of civilization from an interdisciplinary humanities perspective. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. No more than six units of 596 may be applied to either the bachelor’s or master’s degree. Maximum combined credit of six units of 596 and 696 applicable to a 30-unit master’s degree.

CLASSICS COURSES

599. Special Study (1-3) I, II
Prerequisites: Consent of major or graduate adviser; to be arranged by department chair and instructor. For 599C: Classics 304L or 304G. For 599G: 304G. For 599L: 304L.
Individual study. Maximum credit six units.
C. Special Study in Classics.
G. Special Study in Greek.
L. Special Study in Latin.
INTERNATIONAL BUSINESS COURSE

596. Topics in International Business (1-3)
Prerequisite: Upper division standing.
Selected topics in international business. May be repeated with new content. See Class Schedule for specific content. Limit of nine units of any combination of 296, 496, 596 courses applicable to a bachelor’s degree. Maximum credit six units.

RECREATION COURSES

560. Legal and Fiscal Aspects of Park and Recreation Management (3)
Prerequisite: Recreation 464.
Legal obligations and basic principles of fiscal management pertinent to delivery of leisure services. Budgeting, record keeping, liability, open space acquisition and preservation, constitutional guarantees, administrative regulations, contracts, criminal law, and legal research.

565. Recreation Systems Administration and Research (3)
Prerequisite: Recreation 464.
Organizational behavior, planning, policy development, and future trends of recreation systems. Methods of investigation, data analysis, and reporting in relation to research needs in recreation, parks, and tourism. Not open to students with credit in Recreation 570.

575. Designing Recreation and Park Areas and Facilities (3) I, II
Prerequisite: Recreation 101.
Design principles and concepts applied to planning and development of park and recreation areas and facilities.

580. Leisure, Recreation Therapy, and the Aging Process (3) II
Concepts of the relationship between leisure and gerontology are examined. Influence of leisure and recreation on work and life satisfaction of older adults in relationship to recreation therapy services.
Research Administration and Technology Services

The Division of Research Administration and Technology Services is responsible for the institutional approval of all funded grant proposals and contracts related to sponsored research, instruction, and service agreements; administration of research regulatory and intellectual property services; administration of faculty grants-in-aid, fellowships and other institutional research support programs; administration of university cost-sharing; administration of computing and information services for the Office of Graduate and Research Affairs; coordination of SDSU Foundation/University liaison.

The Vice President for Research is the chief administrator of the Division of Research Administration and Technology Services which is supervised by the Associate Vice President for Research. The Vice President for Research is responsible for the development, improvement, and administration of research activities at the University. The importance of research in graduate instruction is recognized by the faculty, and all graduate programs provide for research on the part of the graduate student. Graduate students involved in thesis or other research at the University must comply with all applicable university research policies, including those related to the use of human and animal subjects in research.

University Research Facilities and Organizations

Among the facilities for research that students may utilize are those provided in organized bureaus, centers and institutes located on the campus; specialized off-campus research facilities and field stations; inter-institutional, consortia and other cooperative research facilities.

Specialized Research Facilities

Mount Laguna Observatory

San Diego State University operates the Mount Laguna Observatory which is located 45 road miles east of the campus at an elevation of 6100 feet. The research telescopes at the observatory include three reflectors with apertures of 40, 24 and 16 inches. The 40-inch telescope is operated jointly with the University of Illinois. Auxiliary equipment for the telescopes includes photometric instruments, spectrographs, and CCD camera for direct imaging. A dormitory for observers and a shop-laboratory building complete the main research facilities at the observatory. Additionally, each telescope dome has a PC for data collection and on-line reduction. A central, general-purpose, Sun Sparc station computer provides on-line data bases as well as reduction and analysis capabilities. Associated with the observatory is the Awona Harrington Visitor Center which provides facilities for educational programs and for visiting astronomers.

Social Science Research Laboratory

Douglas S. Coe, Director

The Social Science Research Laboratory (SSRL) was founded in 1974 to support academic computing and social research within the College of Arts and Letters (CAL), the University, and the regional community. SSRL is organized into six units: Instructional Services, Research Services, Systems Support Group, CAL Help Desk, Data Resources, and South Coastal Information Center (SCIC). Each unit develops and administers programs, within the overall context of SSRL’s mission, that serve the University and the community. The department employs ten full-time staff and over sixty part-time employees classified as lecturers, teaching assistants, laboratory consultants, research assistants and data collection/reduction specialists.

Instructional Services works closely with faculty to assimilate technological resources into the curriculum and to support academic computing among students and faculty. This is accomplished through four programs: (1) Social Science 201A, 201B, 201C, 201D courses on the use of the statistical package for the social sciences, database, spreadsheet, and Internet resources, (2) non-credit workshops on the use of selected software applications, (3) class presentations at the request of faculty to support computer-related instructional assignments, and (4) on-demand consultation for individual users of open-access computing laboratories.

Research Services offers a complete range of public opinion polling and survey research services, including sample design, data collection, data reduction, and data archiving. The section maintains computer systems to support faculty research. Undergraduate internships and research assistant positions are available.

Data Resources assists faculty and students in the use of archived research, datasets from a variety of on-line information resources, and provides database programming services for specific applications. Principal sources of archived and electronically accessible information include the Inter-University Consortium for Political and Social Research (ICPSR), the Social Science Database Archive (SSDBA), the U.S. Census, Field Institute California Polls, the Roper Center for Public Opinion Research and Lexis/Nexis. Assistance is provided for locating, downloading, installing, and subsetting datasets for instructional or research use.

Systems Support Group provides network administration and technical infrastructure support for College of Arts and Letters computing systems. Services include managing computer classrooms, network design, implementation and administration, installing software applications, electronic mail, Internet related software, interfacing peripherals, virus diagnosis, file recovery, disk management, operating systems, and procurement advice. Faculty and staff requests for assistance are initiated and tracked through an on-line work order system.
ties for interdisciplinary work as well as for nontraditional study. Science is consistent areas of study. There are growing opportunities for molecular techniques for analyzing environmental change. Naturalists are increasingly using sophisticated computer modeling and micro-scales of chaparral ecosystem dynamics, as well as plant, increased carbon dioxide on native vegetation to the meso- and the global scale examining global warming and the impacts of these unique and threatened ecosystems. Research ranges from biologists (faculty, researchers, and students) working to understand the basics of historic preservation laws and regulations, while learning effective cultural resource information management.

The SSRL is located in Professional Studies and Fine Arts 140.

Field Station Programs

Mark D. Reynolds, Director
Sedra S. Shapiro, Associate Director

The Field Station Programs provide opportunities for a broad community of students and faculty to explore the natural ecosystems of southern California. In addition, the field stations serve SDSU by functioning as a liaison to broader public community, highlighting SDSU’s expertise regionally, nationally, and internationally. The field station programs manage over 9,000 acres of San Diego and Riverside counties for university teaching and research.

SDSU currently has four field stations: the Sky Oaks Field Station, 1,600 acres of high elevation redshank chaparral habitat in the Chihuahua Valley east of Temecula Valley; the Santa Margarita Ecological Reserve (SMER), a 4,334 acre reserve located along the upper Santa Margarita River inland from Camp Pendleton in San Diego and Riverside Counties; Fortuna Mountain, 500 acres close to the SDSU campus located within Mission Trails Regional Park; and the Tijuana River National Estuarine Research Reserve, a 2,513-acre reserve which serves as an auxiliary field station for SDSU.

Providing research and education opportunities for the future requires detailed knowledge of how changes in the environment outside the boundaries of a certain area affect ecosystem dynamics within that area. As habitat continues to be lost to development, areas such as the SDSU field stations will increase in importance as sites for studying natural ecosystems.

The proximity of sensitive habitats to a rapidly urbanizing landscape makes this region a recognized biodiversity “hot spot.” San Diego State University has an extremely dynamic group of scientists (faculty, researchers, and students) working to understand these unique and threatened ecosystems. Research ranges from the global scale examining global warming and the impacts of increased carbon dioxide on native vegetation to the meso- and micro-scales of chaparral ecosystems dynamics, as well as plant, vertebrate, insect, and fungal diversity. Researchers at SDSU are also increasingly using sophisticated computer modeling and molecular techniques for analyzing environmental change. Natural sciences are the core users of the SDSU field stations. Biology, geography, geological sciences, hydrogeology, and other field sciences are consistent areas of study. There are growing opportunities for interdisciplinary work as well as for nontraditional study in the fields ranging from public health, civil and environmental engineering, recreation, business, and art, to education.

Persons interested in conducting research, instructional use, or access to the SDSU field stations should contact the academic programs of the SDSU Field Station Programs at (619) 594-0580. Inquiries can also be made through the SDSU Field Station Web site at www.sci.sdsu.edu/BFS/

Facility for Applied Manufacturing Enterprise (FAME)

James S. Burns, Director

The centerpiece of San Diego State University’s manufacturing endeavors is the Facility for Applied Manufacturing Enterprise. FAME was planned as an interdisciplinary center-of-excellence dedicated to science and technology in the area of manufacturing. Its mission is to provide students with a complete and emersive product development environment in which to augment their job experiences with next-century tools and strategies. This facility evolved from the Computer Integrated Manufacturing (CIM) center founded in 1988. Since then, it has grown considerably in physical size and scope. FAME resources include 3000 square feet of dedicated floor space in the Engineering and Engineering Laboratory Buildings and another 2000 square feet for student projects. Manufacturing-related equipment includes plastic injection, compression, extrusion, pultrusion, resin transfer molding and vacuum forming equipment, a composite repair station, ultrasonic scanning equipment, platen presses, mechanical testing machines, ovens, CNC lathe and mill, automated parts bin, and four multi-axis robots. A 3” diameter by 15” long, high-pressure and temperature autoclave facility is currently under construction.

Donald I. Eidemiller Weather Station

Edward Aguado, Director

The Donald I. Eidemiller Weather Station serves as a teaching and research resource. The station also archives monthly and annual data published by the National Climatic Data Center and has been observing and recording local weather information for more than 40 years.

Microchemical Core Facility

Long T. Wen, Director

The Microchemical Core Facility (MCF) is a component of the California State University Program for Education and Research in Biotechnology (SUPERB). The MCF is a full-service, state-of-the-art facility that provides DNA synthesis, sequencing, and purification services for cell and molecular biologists associated with any of the 22 CSU campuses. In addition, the MCF provides for CSU faculty access to the most recent advances in computer-assisted analyses of molecular structure. Located in the Biology Department at SDSU, the MCF provides state-of-the-art molecular analyses and characterization to CSU scientists for the lowest possible cost, as well as fostering the training of university faculty at all levels in the most recent techniques available in the molecular life sciences. Funding for the establishment and maintenance of the SDSU MCF is derived from the National Science Foundation with matching funds provided by the State of California. Call (619) 594-1669 for more information.
Communications Clinic for Speech, Language and Hearing Disorders
Kathee Christensen, Charlotte Lopes, Diane Williams, Directors
Administered by the Department of Communicative Disorders, the Clinic provides assessment and remediation services for SDSU students, staff, faculty, and the community. Comprehensive diagnostic and treatment programs are available for children and adults in the areas of delayed speech/language development, voice, fluency or articulation disorders, aphasia, cleft palate, cerebral palsy, loss of communication function, hearing loss and deafness. Also provided are services for bilingual/multicultural clients and speakers of English as a second language. The Clinic’s Interdisciplinary Assessment Program teaches students the skills of interdisciplinary collaboration as they assess the behavioral, cognitive, communicative, and educational problems experienced by clients ages birth to three years. The Assistive Device Assessment Program provides language, cognitive, and technical assessments related to augmentative/assistive devices and systems for individuals who have communication disabilities. Audiolingual services provided by the Clinic include hearing assessment, hearing aid evaluation and selection, assistive listening device evaluations, earmolds, ear protectors, hearing conservation and speech reading/aural rehabilitation therapy. In addition, the Clinic offers opportunities for research, consultation, supervised field internships, continuing education, and other service activities. The clinic is located at 6330 Alvarado Court, Suite 100, San Diego, CA 92120-4917, (619) 594-6477.

National and Regional Research Resource Centers
Latin American Studies
Thomas M. Davies, Jr., Director
The Center for Latin American Studies seeks to encourage teaching and research related to Latin America. It has primary responsibility for the administration of the Latin American undergraduate and graduate degrees. The U.S. Department of Education has designated the center as one of thirteen “National Resource Centers for Latin America,” in consortium with the Center for Iberian and Latin American Studies at the University of California, San Diego. In conjunction with this award, the Center administers programs that focus on a multidisciplinary approach to teaching and research activities focused on Latin American studies; the development of innovative methods of instruction in Spanish and Portuguese; the provision of informative and in-service training programs for elementary and secondary school teachers; and the provision of services for the general public through the sponsorship of conferences, workshops, lectures and films. The Center also assists in the development of the University library’s Latin American holdings.

Language Acquisition Resource Center
Paul J. Strand, Director
Language Acquisition Resource Center (LARC Operations) provides technological resources for courses offered by the Departments of European Studies, Spanish and Portuguese Languages and Literatures, and Linguistics and Oriental Languages. These resources include technical support staff, two smart classrooms, sixty networked multimedia workstations, and the nation’s largest collection of multimedia courseware.

Center for International Business Education and Research (CIBER)
Michael L. Hergert and Paul J. Strand, Executive Co-Directors
Steven J. Loughrin-Sacco and Kenneth E. Marino, Co-Directors
David P. Earwicker, Managing Director,
Tamara Dunn, Assistant Director
The Center for International Business Education and Research (CIBER), one of 27 such centers of excellence in the United States, was established in 1989 under the auspices of a grant from the U.S. Department of Education and is administered by the Colleges of Arts and Letters and Business Administration.

CIBER promotes (1) interdisciplinary programs which incorporate foreign language and international studies training into business, finance, management, communications systems, and other professional curricula; (2) interdisciplinary programs which provide business, finance, management, communications systems, and other professional training for foreign language and international studies faculty and advanced degree candidates; (3) evening or summer programs, such as intensive language programs, available to members of the business community and other professionals, which are designed to develop or enhance their international skills, awareness, and expertise; (4) collaborative programs, activities, or research involving other institutions of higher education, local educational agencies, professional associations, businesses, firms or combinations thereof, to promote the development of international skills, awareness, and expertise among current and prospective members of the business community and other professionals; (5) research designed to strengthen and improve the international aspects of business and professional education and to promote integrated curricula; and (6) research designed to promote the international competitiveness of American businesses and firms, including those not currently active in international trade.

CIBER is located in Business Administration 428; (619) 594-9075; FAX (619) 594-7738; ciber@mail.sdsu.edu; www.sdsu.edu/ciber.

Consortia and Other Cooperative Research Facilities
The Center for Bio/Pharmaceutical and Biodevice Development
The Center is an interdisciplinary center focusing on the development, manufacturing, production, processing, and marketing of biotechnological, biopharmaceutical, pharmaceutical, in vitro diagnostic and medical device products. As an administrative, instructional, and research entity, it incorporates faculty and programs from the Colleges of Sciences, Engineering, Business Administration, Health and Human Services, Professional Studies and Fine Arts, Education, and Arts and Letters. The Center addresses research and workforce needs of companies in their transition from research and development into manufacturing and production, with an additional focus on the overarching legal, ethical, and regulatory elements that both guide and restrict the industry. The Center has a management structure similar to a bioscience company, with section directors for regulatory affairs, biopharmaceutical marketing, bioprocessing/manufacturing, QA/QC, etc., each with research and capstone professional graduate degrees overlaying a cluster of specific certificate programs, and degree emphases, as well as continuing
education programs for existing corporate employees. Activities under the Center also include the acquisition of new training and research facilities, in some cases, fermentation, cell culture, small molecule synthetic, and pilot plant scale facilities, as well as the establishment of a biotechnology business incubator. The Center employs long-distance telecommunications to corporate, government, and other university sites within California, between its academic partner, and with several international partners. The Center interfaces intensively with the California State University Program for Education and Research in Biotechnology (CSUPERB) providing novel capstone training experiences for CSU biotechnology students.

**CSU Program for Education and Research in Biotechnology (CSUPERB)**  
**A. Stephen Dahms, Director**

The California State University Program for Education and Research in Biotechnology (CSUPERB) exists to provide a coordinated and amplified development of biotechnology research and education within the university system; to foster competitiveness both on the state and national levels; to facilitate training of a sufficient number of biotechnology technicians and scientists; to catalyze technology transfer and enhance intellectual property protection; and to facilitate the acquisition and long-term maintenance of state-of-the-art biotechnology resource facilities across the university, such as the Microchemical Core Facility and the Macromolecular Structural Analysis Resource Center, both localized at SDSU. It facilitates interdisciplinary cooperative activities between the departments of Biology and Chemistry on all campuses and between faculty and from a number of allied academic and research units such as bioengineering, agricultural biotechnology, environmental and natural resources, molecular ecology, and marine biotechnology. It also serves as the official liaison between the CSU and industry, government, the Congressional Biotechnology Caucus, and the public arena in biotechnological matters. CSUPERB operates through a Director and an Associate Director, an Executive Committee of 11, and a Governing Board composed of 50 representatives of academic and research units from the 23 campuses.

**Southwest Center for Environmental Research and Policy (SCERP)**  
**Paul Ganster, Director**

SCERP was established and funded by Congress in 1990 to address environmental issues of the U.S.-Mexico border region. The Center includes five U.S. and four Mexican higher education institutions. The five American universities are Arizona State, New Mexico State, SDSU, University of Texas at El Paso, and University of Utah. The research implemented by SCERP includes environmental areas in air quality, water quality and use, hazardous materials, and waste management.

**Organized Research Centers and Institutes**

**Africana Center for Cultural Literacy and Research**  
**JoAnne Cornwell and Norman E. Chambers, Co-Directors**

The Africana Center for Cultural Literacy and Research provides independent and collaborative projects (across a broad spectrum of academic disciplines) that create professional development opportunities with an Africana cultural focus for students, faculty and staff; research opportunities for students and faculty; and culturally enhanced teaching opportunities for SDSU faculty. The Center’s programs also provide venues for community service which focus on Africana cultural groups.

The Africana Center is housed in the Department of Africana Studies and can be reached by calling the department office at (619) 594-6531.

**University Center on Aging**  
**E. Percil Stanford, Director**

The University Center on Aging offers the B.A. in Gerontology. The Center is involved with such activities as supporting interdisciplinary educational and curriculum efforts; undertaking research, demonstration and evaluation activities; providing technical assistance and agency consultation for the community; coordinating workshops and seminars; and providing opportunities for student involvement in aging activities. The Center is also responsible for the coordination of a certificate program in conjunction with the College of Extended Studies and administers an undergraduate major in gerontology. The Center serves as a central point for the development and dissemination of data related to diversity and aging and long-term care and is administratively responsible for the National Resource Center on Aging and Injury.

**The Edwin C. Allison Center for the Study of Paleontological and Geological Sciences**

The Allison Center has supported research in paleontology, geology, and related sciences since 1972. The Center maintains a research library containing journals, reprints, textbooks, maps, and copies of master’s theses and senior theses completed in the Geological Sciences. The library is open to faculty and students.

**Center for Behavioral and Community Health Studies**  
**John P. Elder, Director**

The Center for Behavioral and Community Health Studies is housed at 9245 Skypark Court, Suite 221, San Diego, CA 92113. The Center, formerly known as The Center for Behavioral Medicine, was established in 1982 for the purpose of promoting research and academic programs relevant to the applications of behavioral science principles to medicine and health care. Administratively, the Center has three co-directors who report to the deans of the College of Sciences and the College of Health and Human Services. The interdisciplinary center encourages participation from all colleges and departments of the University. Currently, active investigators come from the Departments of Exercise and Nutritional Sciences, Psychology, and the Graduate School of Public Health. Current Center projects involve collaboration between scientists and physicians from a variety of specialties as well as a variety of other institutions, including Scripps Clinic and Research Foundation, the University of California, San Diego Medical Center, and the Children’s Hospital and Health Center. Funding for the Center comes from federal and private foundation grants including several National Institutes of Health agencies. Current sponsors...
include the American Heart Association, Department of Defense, National Cancer Institute, National Heart, Lung and Blood Institute, the State of California Department of Health Services, and the University of California Tobacco Related Disease Research Program.

The Center provides important research experience to students who intend to pursue related careers and offers opportunities for project staff and graduate students to participate in community interventions.

**Center for Behavioral Teratology**
Edward P. Riley, Director

Teratology is the study of birth defects. The faculty and students at the Center for Behavioral Teratology (CBT) are interested in how prenatal exposure to various drugs influences both brain and behavioral development. The CBT is truly an interdisciplinary research organization, with a broad range of basic and clinical research interests. While the primary purpose of the CBT is to promote research in teratology, personnel in the Center also act as a resource to the University and the community. The staff provides in-service talks at local hospitals, schools, and drug treatment facilities, as well as lectures to various classes at the University. The CBT staff has active collaborations with faculty from UCSD, the VA Hospital, Children's Hospital, and the Scripps Research Institute. Faculty in the Center have grants from the National Institutes of Health, March of Dimes, Tobacco-Related Disease Research Program, and the State of California.

**Institute for Built Environment and Comparative Urban Research (BECUR)**
Lawrence A. Herzog, Director

The purpose of the Institute for Built Environment and Comparative Urban Research (BECUR) is to: (1) study the impact of culture on the design and shape of the urban built environment; and (2) understand how cities in different cultural settings are being transformed by global processes. BECUR provides a forum for research and dialogue among SDSU faculty and students on the cross-cultural nature of urban space and urban place. The Institute is administered by the College of Arts and Letters and the College of Professional Studies and Fine Arts. Among its activities, the Institute promotes public lectures and conferences, research projects, and networking among urbanists, social science, planning, design and architectural scholars both in the region, as well as in other parts of the world. The Institute is located in Professional Studies and Fine Arts 177, (619) 594-6964.

**The June Burnett Institute for Children, Youth, and Families**

The June Burnett Institute was created in 1985 at the San Diego State University Foundation from a $1.5 million bequest from the estate of June Estelle Burnett. The Institute is dedicated to developing the potential of all children, youth, and parents in a manner that is sensitive and responsive to cultural, social, and economic differences and needs. The Institute fosters cooperation and collaboration through interdisciplinary/interprofessional approaches that promote the well-being of children, youth, and families through prevention, intervention, and volunteer-based services and which incorporate training and evaluation as integral elements. An advisory board composed of SDSU faculty and community members directs the activities of the Institute in cooperation with 10 core staff, 65 project staff, 122 stipended volunteers, eight doctoral level consultants, three graduate interns, and 18 subcontracts with community service organizations.

The Institute's Prevention Services Division coordinates the Families and Schools Together Program (FAST) for parents of elementary students and the Home/School Partnership for parents of Middle School students. Both program projects entail collaborative partnerships with community agencies, ethnically identified organizations and PTA's.

The Institute's Volunteer Services Division administers the California YMCA/CSU PRYDE Americorps Consortium (a collaboration of four urban YMCA's and CSU campus training partners in Los Angeles, Long Beach, and San Francisco), the Safe Zones for Learning-Americorps Evaluation Project (a collaboration of 15 agencies in the Mid-City/ City Heights area of San Diego), and an evaluation project focusing on Mid-City for Youth, a collaboration of over 100 organizations in the Mid-City area. The Institute's new California Parent Center combines the efforts of the Prevention Services Division and the Volunteer Services Division to promote three "best practice" parent training models: F.A.S.T., Home/School Partnership and HIPPY (Home Instruction for Parents of Preschool Youngsters).

The Institute's Intervention Services Division, in cooperation with the San Diego Juvenile Court, the County of San Diego, and the Weingart Foundation, coordinates the San Diego Choice Program which serves approximately 500 court-involved delinquent youth annually who are referred by the County departments of Probation and Social Services, and who reside in the areas of Mid-City/ City Heights, National City, Chula Vista, Escondido, and Vista.

The Burnett Institute Faculty Fellows Program, in conjunction with the Provost and Vice President for Academic Affairs and each fellow's college dean, sponsors between four and six faculty members annually who wish to assist the Institute strengthen service, training or evaluation efforts in the community. The Institute is located at 6310 Alvarado Court, San Diego, CA 92120, (619) 594-4756.

**China Studies Institute**
William G. Tong, Director

The China Studies Institute coordinates and supports on-campus teaching and research related to China. The Institute develops and fosters faculty and student exchange programs with Chinese universities and institutions of higher learning. Various cultural programs on China and activities on campus and in the community promote cultural awareness and understanding. The development of Chinese publications, audio-visual materials, periodicals, newspapers, and other resources on campus fosters relationships between San Diego State University and the Chinese community, as well as nurtures friendship between the Chinese and American peoples.

**Coastal and Marine Institute**
Clive E. Dorman, Director

The Coastal and Marine Institute provides a focus for oceanography and marine studies at SDSU. The Institute assists departments within the University in the development of instructional, research, and public service aspects of coastal and ocean-oriented programs and provides special supporting services including advising students, assistance to faculty and students in research, preparation of manuscripts, operation of the SDSU Marine Laboratories and boats at Mission Bay, and liaison with other institutions and the community. The Institute is operated as a special unit of the College of Sciences and is administered by a director and an advisory council consisting of faculty members elected from participating departments. Additional information
about marine studies is available from the Coastal and Marine Institute office, or from the Office of the Dean of the College of Sciences.

**Communications Systems and Signal Processing Institute**

Fredric J. Harris, Acting Director

This Institute supports educational and research activities in communication systems with an emphasis on radio frequency and digital signal processing aspects. Faculty, students, and industrial partners participate in developing cores of expertise in specific related areas meaningful to the technical community such as R-F circuitry, modems, receivers, transmitters, synthesizers, A-D and D-A converters, digital signal processing algorithms and hardware, antennae, and networks. Specific activities include tutorials, product development, and other research and development activities.

**Center for Community Economic Development**

Harold K. Brown, Associate Dean and Director

Community economic development (CED) is an innovative and practical approach to helping communities and neighborhoods prosper through the use of business, economic, and leadership skills. CED is a systematic and planned intervention that is intended to promote economic self-reliance for communities and their residents.

The Center for Community Economic Development (CCED) was established in 2000 and culminated the offering of a certificate program in community economic development that began in 1995. The CED program is one of a few in the United States that offers a comprehensive and practical curriculum in community economic development.

The Center offers a non-credit certificate program in community economic development which consists of seven business courses: Introduction to CED, Accounting, Financing CED, Legal Structures for CED, Marketing Strategies, Organizational Management, and Small Business Development; a series of class related seminars; and a community project. Classes are held on alternate Saturdays from 10 a.m. to 4 p.m. The Center also offers consulting and technical assistance to educational institutions, businesses, local government, and community and civic organizations, in addition to a variety of seminars and workshops on topics related to community development and to community economic development.

The mission of the certificate program is to produce technically competent and community-minded economic development professionals, and to produce graduates committed to the principle that residents of neighborhoods and communities should play a major role in the development of their areas.

**Center for Computer Simulation**

William A. Root, Director

The Center for Computer Simulation pursues research opportunities involving the creation of complex simulations, particularly those addressing challenges in the public sector. The diversity of fields in which computer simulation now plays a role allows the Center to provide research opportunities for undergraduate and graduate students in a wide variety of academic majors.

The Center supports an extensive collection of simulation software under site license, and maintains cooperative relationships with prominent public and private sector simulation software developers to ensure that the Center’s capabilities keep pace with the state-of-the-art.

Currently the Center includes members from the faculties of Applied Mathematics, Computer Science, Engineering, and Statistics. The Center is administered by a director appointed by the Dean of the College of Sciences, and resides in facilities provided by the Department of Mathematical and Computer Sciences. For information, call the Center for Computer Simulation office at (619) 594-6837.

**Consensus Organizing Center in Health**

Anita S. Harbert, Director

Michael Eichler, Coordinator

The Consensus Organizing Center in the School of Social Work is a community laboratory for the teaching and practice of consensus organizing in San Diego. As an organizing method, consensus organizing, rather than relying on confrontational techniques, draws upon innovative solutions to social problems. This method works community by community and neighborhood by neighborhood to develop and implement comprehensive strategies for bringing people together and providing them with the tools to achieve tangible reforms. Working in partnership with local organizations, the method explores the interests and concerns of people and institutions, and sophisticated networks of relationships, which foster civic engagement and social change.

**Concrete Research Institute**

M. Ziad Bayasi, Director

The Concrete Research Institute supports educational needs in the civil engineering curriculum and concrete research performed for sponsors from industry and governments. The Institute encompasses a wide range of topics. The emphasis is currently on concrete materials and structures. Civil and environmental engineering faculty members are involved with finding optimum design solutions in bridges, seismic resistant structures, residential buildings, and retaining walls.

**Corporate Governance Institute (CGI)**

Mark C. Butler and Craig P. Dunn, Co-Directors

The Corporate Governance Institute (CGI) is an education and research center dedicated to the study and application of corporate governance principles. Founded in 1998 as a joint venture between the College of Business Administration (CBA) and the International Forum for Corporate Directors (IFCD), the mission of the CGI is to enhance the skills of organizational directors and senior executives in the private, public, and not-for-profit sectors through creating and delivering initiatives related to a) Director and executive development, b) research, and c) curriculum innovation. CGI programs focus on identifying “best practices” in all aspects of corporate governance. All CGI initiatives are guided by the principle that corporate leaders hold a primary duty to insure the financial viability of the organizations they manage, while at the same time taking adequate account of the emerging reality that all institutions, including corporations, are imbedded within communities which justify deserved their attention.

The CGI conference room is located in Student Services 3375-A. CGI staff can be reached by telephone at (619) 594-0823, or by e-mail at corporate.governance@sdsu.edu. The CGI website can be accessed at www.sdsu.edu/corporate.governance.
Center for Counseling and School Psychology
Valerie Cook-Morales, Director

The Center for Counseling and School Psychology is a unit within the College of Education designed to provide support for activities such as (1) securing and administering grants and other support for research and development in counseling and school psychology, (2) encouraging cooperation with faculty members from other relevant disciplines such as anthropology, economics, psychology, social work, sociology, and Counseling and Psychological Services, and (3) conducting programs or rendering services designed to promote counseling and school psychology at San Diego State University. The Center is administered by the Department of Counseling and School Psychology; fiscal matters are coordinated through the San Diego State University Foundation.

Center for Economic Education
Kathleen Mikitka, Director

The Center for Economic Education is a unit within the College of Education. The center is affiliated with Economics America, California Council on Economic Education, and the National Council on Economic Education and has the mission to provide the following services and functions: (1) inservice training for teachers at both the elementary and secondary levels; (2) curriculum development and consultation with school district personnel; (3) development and distribution of media and materials on economic education; (4) research in economic education; (5) consultation with other university faculty as requested; and (6) workshops, speakers, and materials on economic education for adult constituencies from business, labor, social, and professional organizations. The service area for the center encompasses both San Diego and Imperial counties.

Energy Engineering Institute
Halil M. Güven, Director

The Energy Engineering Institute has supported educational and research activities in energy-related areas since 1985. Undergraduate and graduate students and faculty from the mechanical engineering and electrical and computer engineering departments are involved in obtaining solutions to problems presented by industrial sponsors. Institute research projects cover a wide range of areas from optimizing energy resources to international energy studies.

Center for Energy Studies
Alan R. Sweedler, Director

The San Diego State University Center for Energy Studies (CES) facilitates, promotes and supports research and academic programs relating to energy, with particular emphasis on energy matters of concern to the San Diego and local southwest region including the international border with Mexico. The Center encourages interdisciplinary research and instructional programs in the broad areas of energy modeling, technology assessment of energy systems, local energy policy planning and data collection relating to energy usage in the San Diego region. SDSU offers through the Center an interdisciplinary minor in energy studies. Completion of the minor will give the student a broad understanding of the technical, economic, social and political aspects of energy issues. For more information call the Center at (619) 594-6240 or (619) 594-6155. The Center works closely with local and state agencies concerned with energy policy and planning, and serves as a community resource in matters concerning local energy issues and the impact of energy use of the environment.

Entrepreneurial Management Center (EMC)
Sanford B. Ehrlich, Executive Director, Richard D. Brooks, Director, Community Relations, Alex F. DeNoble, Director of Academic Programs

The Entrepreneurial Management Center (EMC) serves the emerging growth sector of the regional business community. The growth, development, and success of new business ventures is essential to the future of the San Diego region. The mission of the EMC is to assist this sector of the economy through educational programs focused on the application of the underlying principles and perspectives of entrepreneurship offered to students, organizations, and individuals.

The range of entrepreneurial programs offered includes: (1) support for the M.S. and M.B.A. programs specialization in entrepreneurship; (2) individual knowledge and skill development; and (3) organizational consulting. The entrepreneurial topics presented include the outcomes of the entrepreneurial process: the creation of wealth, new enterprises, innovation, organizational change, increased firm value, and organizational growth. The EMC focuses program development on both the entrepreneur and the entrepreneurial process which results in a variety of outcomes essential to economic development.

The EMC sponsors an annual international student business plan competition that provides students with an opportunity to present their business ideas to a distinguished panel of judges. The competition currently involves students from colleges around the world. The EMC is located in Gateway 1502, (619) 594-2781, FAX (619) 594-8879.

Heart Institute
Christopher C. Glembocksi, Director

The Heart Institute is sponsored by the College of Health and Human Services and the College of Sciences. The goals of the Institute are to enhance basic and clinical research in the cardiovascular sciences, to foster undergraduate and graduate education in cardiovascular physiology and medicine, and to provide a community outreach service focused at heightening the awareness of cardiovascular disease and its prevention in the San Diego region surrounding SDSU. The Institute is comprised of faculty members representing four different colleges at SDSU, as well as physicians and scientists from local hospitals and clinical research centers. Importantly, the Institute also sponsors SDSU undergraduate and graduate student memberships, which strengthens the involvement of students in all aspects of Heart Institute activities. The unusual blend of talent and expertise that comprise the Institute membership results in an interdisciplinary approach to cardiovascular research, education and community outreach that is unique to the Heart Institute. The Institute sponsors special seminars, on- and off campus, which cover a wide range of topics in the field, and provides funding for the support of graduate students who are involved in cardiovascular research at SDSU. Areas of focus for the Institute include studies of the molecular basis of cardiovascular disease, establishment of unique approaches for the early detection and prevention of cardiovascular disease, and the promotion of cardiovascular health in San Diego area K-12 schools. An important feature of these efforts that distinguishes the Heart Institute is the central role that SDSU students play in each of these areas. Funding for Heart Institute activities comes from a variety of sources, including the National Institutes of Health, the American Heart Association, the Muscular Dystrophy Association, the Rees-Stealy Research Foundation, and several San Diego-based biotechnology companies. For more information contact the Heart Institute office at (619) 594-5504.
International Institute for Health and Human Services Development  
Dolores A. Wozniak, Director  
Administered through the Office of the Dean of the College of Health and Human Services, the purpose of this International Institute is to respond to the urgent global need for human resources development, particularly in the fields of health and human services. Specific activities include the development of education and training programs; promoting relevant research and model demonstration programs and projects; encouraging technical cooperation with developing countries; promoting exchange of information and experience at the international level; and engaging in the convening of conferences. The Institute also provides a comprehensive, centralized source of data and information on human resource development, linking it to internationally recognized networks, and serving as a repository and a clearinghouse for information in this field.

Center for Inland Waters  
Stuart H. Hurlbert, Director  
The Center for Inland Waters is an interdisciplinary academic unit consisting of faculty members from four SDSU colleges (Arts and Letters, Engineering, Health and Human Services, Sciences). Its purpose is to foster basic and applied collaborative research among SDSU scientists and scholars on inland water resources and ecosystems, the application of their expertise to the solution of water-related problems in southern California and adjoining regions, and the coordination and development of courses, curricula, and physical facilities for water-related instruction and research. Inland water resources include the water supply for domestic, agricultural and industrial uses, the growing system of aqueducts, reservoirs, and aquifers in which this supply is transported and stored, and the rivers, lakes, and wetlands important as habitat for wildlife, as maintainers of environmental health, and as recreation areas. Of special interest to the Center are social, economic, hydrological, public health, and ecological issues concerning the Colorado River and its delta, the Salton Sea, and the new Tijuana and Santa Margarita Rivers and their watersheds. The Center is operated as a special unit of the College of Sciences and is administered by a Director and an elected Executive Committee. Information on the Center and regional water resources is available at www.sci.sdsu.edu/salten/.

Center for Innovation in Computer Science Education  
William A. Root, Director  
The Center for Innovation in Computer Science Education serves the University by promoting the integration of computer science education at SDSU into the business, social and educational fabric of the San Diego community at large. The Center’s mission focuses on three complementary and interdependent areas: industry partnerships, university curriculum innovation, and community outreach.

Finally, the Center seeks to improve the number and quality of SDSU’s incoming computer science students by actively promoting and administering cooperative programs linking SDSU with private sector technology firms, and San Diego area K-12 schools. The goal of these programs is to ensure that promising students in local schools are exposed early to the excitement of computer science, and are well prepared to make a seamless transition from secondary school to a challenging first-year university computer science curriculum.

The Center is comprised of an interdisciplinary group of faculty who have interest and technical expertise in computer science, and, particularly, in computer science education. Currently, the Center includes members from the faculties of Computer Science, Mathematics, and Physics. For information, call the Center for Innovation in Computer Science Education at (619) 594-6837.

International Center for Communications  
John M. Eger, Director  
The International Center for Communications draws upon the resources of the University, the community, and the communications industry to provide the nation’s international focal point in the Pacific in which academic study, innovative research and practical experience among the private and public sectors are joined to help solve critical issues confronting the Pacific region. The Center serves two major purposes: 1) to initiate dialogues leading to new understanding among the diverse cultural and community interests of the region; and 2) to link communications and community in the new relationships essential to fulfilling the promise of the Pacific world.
The goals of the International Center are to establish an institutional approach to learning, problem-solving and practical work focusing on the critical issues of communication and information; to create a new and dynamic partnership in San Diego between business and industry, government and academia, redefining and building a sense of community; and to develop a forum and agenda for research, discussion and collaboration with other organizations in the Pacific leading toward the establishment of a permanent “Pacific Dialogue on the Media.” In 1995 a Japan-U.S. Telecommunications Research Institute was founded within ICC to facilitate and foster improved understanding of new technologies affecting the Pacific Rim community.

The Institute will provide a forum for U.S. and Japan telecommunications industries – computer, communications, entertainment, broadcasting, cable and other information industries – to share common interest and concerns about trends in technology and public policy; and where possible, cooperate on developing an agenda leading to the creation of new communication infrastructures – particularly in the development of so-called “smart communities” – both in Japan and in the U.S., and importantly throughout the Pacific.

In 1996, the International Center for Communications launched a separately-funded California Institute for SmartCommunities™ to continue the work it initiated in the early ‘90s for Mayor Susan Golding’s “City of the Future” Commission, and other communities throughout the State.

Center for the Study of International Education
Patrick J. Harrison, Director

The Center for the Study of International Education is a unit of the College of Education. It promotes faculty and graduate student research, explores study abroad and exchange possibilities for faculty and students, and disseminates information about international education to interested persons in the San Diego area. It also seeks to complement regular course offerings through sponsorship of lectures, conferences, and the development of bibliographic resources.

The Center seeks to foster not only a network of interested faculty within the College of Education but also encourages faculty involvement from other colleges on campus as well as from other organizations and universities in the San Diego region.

International Population Center
John R. Weeks, Director

The International Population Center (InterPop) promotes applied demographic research and the provision of technical assistance and consultation, especially focusing on population issues and policy within the San Diego/Tijuana region and the Middle East.

Although it is located in the Department of Geography, InterPop is a multidisciplinary facility, linking Center faculty from several departments on campus with Center associates from other organizations and universities in the San Diego region. The telephone number for the center is (619) 594-8040.

Institute for International Security and Conflict Resolution
Alan R. Sweedler and Dipak Gupta, Co-Directors

The SDSU Institute for International Security and Conflict Resolution (ISSCOR) encourages and facilitates teaching and research in the multidisciplinary area of international security and conflict resolution. Topics such as nuclear armaments, international and intranational conflict, sociopolitical violence, and global environmental issues as they relate to security are covered.

The Institute is a joint effort of the Colleges of Arts and Letters, Professional Studies and Fine Arts, and Sciences. ISSCOR is administered by two co-directors, advised by an executive committee consisting of faculty members representing the different disciplines that provide input into the study of international security and conflict resolution.

The Institute promotes teaching and research by organizing public forums, faculty and student seminars, developing appropriate curricula for undergraduate and graduate instruction and facilitating research and scholarly activities. SDSU offers, through ISSCOR, a multidisciplinary Bachelor of Arts degree in International Security and Conflict Resolution. More information is available by calling the ISSCOR office at (619) 594-6240.

Interwork Institute
Fred R. McFarlane and Ian R. Pumpian, Co-Directors

The Institute’s efforts focus on promoting the integration of individuals including those with disabilities into all aspects of school, work, family, and community life through maximum participation. The Institute conducts research, training, and education using a variety of strategies including distance learning technologies. Educational and research efforts involve organizations and individuals in the states, the Pacific Basin, and Europe. Faculty and staff associated with the Institute are uniquely prepared to promote the meaningful participation and productivity of each member of the community. The Institute’s mission is supported through local, state, federal, and international organizations. The Institute’s facilities are located at 5850 Hardy Avenue, Suite 112.

Center for Learning, Instruction, and Performance Technologies
Brokenbrough S. Allen, Director

The Center for Learning, Instruction, and Performance Technologies promotes the application of educational technology and allied disciplines, and evaluates the effectiveness and usability of educational products and services.

The Center consults with corporations, agencies, and SDSU affiliates on the design of products for education and training, arranges for on-site and electronic delivery of professional development courses and seminars by the nationally recognized faculty of SDSU Department of Educational Technology, and coordinates fieldwork and internship opportunities for advanced graduate students.

The Center also offers the services and capabilities of the College of Education’s Educational Design Research Laboratory to clients who are interested in rapid prototyping and formative evaluation of educational products and services. A principle focus of the EDR Lab is the use of high technology video and computer systems to capture and analyze data about the usability and learnability of prototype products.

Institute for Leisure Behavior
Gene G. Lamke, Director

The Institute for Leisure Behavior is the research and community service unit within the Department of Recreation, Parks and Tourism at San Diego State University. It is primarily concerned with conducting leisure related research, promoting professional development, disseminating specialized publications, organizing conferences, seminars, lectures and workshops.

The Institute is governed by a Board of Directors which, in turn, is advised by a group of thirteen individuals from park and...
recreation and related fields. The Advisory Council has been instrumental in providing valuable information to the Board concerning the needs and direction of the leisure services field.

The Institute administers a variety of service programs within San Diego County. Camp Able at Coronado, an aquatic based camp for disabled children and adults, operates ten weeks during the summer at Silver Strand State Beach. The Spring Valley Park and Recreation District within the San Miguel County service area (San Diego County) contracts for recreation services from the Institute for all its residents. Additionally, the Institute conducts research for local tourism, park and recreation entities as well as the California Department of Parks and Recreation and the United States Forest Service.

The Institute publishes monographs focusing on important issues relative to leisure services delivery. These are available to the public as well as park and recreation practitioners. Research projects under the direction of the Institute focus on local, state, national, and international problems related to leisure and park/recreation/tourism services.

**Lipinsky Institute for Judaic Studies**
Lawrence Baron, Director

The Lipinsky Institute for Judaic Studies, located in the College of Arts and Letters, serves to coordinate and support teaching and research in modern Jewish history and contemporary Jewish and Israeli affairs. Established with contributions from the San Diego community, the Lipinsky Institute provides financial support for an annual visiting professor from Israel, the annual Galinson-Glickman symposium on contemporary Israeli issues, the Robert Siegel Memorial Lecture, and the Jewish heritage video collection housed in the library’s Media Center. It also complements regular course offerings by sponsoring lectures, developing library resources, fostering research and conducting other activities that will promote the advancement of Judaic studies in the University and in the San Diego community.

**Center for Research in Mathematics and Science Education**
Judith T. Sowder, Director

The Center for Research in Mathematics and Science Education (CRMSE) is an interdisciplinary consortium of faculty interested in research on substantive questions related to the learning and teaching of science and mathematics. The Center currently has members from the faculties of Biology, Geological Sciences, Mathematical and Computer Sciences, Physics, Psychology, and Teacher Education. It is administered by a director appointed by the dean of the College of Sciences and an associate director appointed by the dean of the College of Education. Through its activities CRMSE initiates, encourages, and supports the scholarly pursuit of important theoretical and applied problems in mathematics and science education. CRMSE supports faculty in their current research projects and in the preparation of manuscripts for publication and grant proposals for continued research. The Center also administers the Doctoral Program in Mathematics and Science Education that is offered jointly by SDSU and the University of California, San Diego. The Center is located at 6475 Alvarado Road, Suite 206, San Diego, CA 92120-5006; (619) 594-5090; campus mail code 1862.

**Molecular Biology Institute**
Greg L. Harris, Director

The Molecular Biology Institute was established to serve interested departments of the biological and physical sciences in the coordination, support and enhancement of research and instruction in the molecular biological sciences. Interests and activities of the MBI encompass all approaches which aim to explain biology at the molecular level. The MBI sponsors a weekly seminar series that facilitates faculty and student interaction with scientists from other institutions. Currently, full members of the Institute are drawn from the departments of Biology and Chemistry, and the Graduate School of Public Health, and participate in the respective Ph.D. programs. Associate members are drawn from a variety of disciplines that are cognate with the molecular biological sciences. The Institute is also constituted as the university unit authorized to administer the master’s program with an emphasis in Molecular Biology. The research programs of the MBI members are supported by a variety of agencies including the National Institutes of Health, the National Science Foundation, NASA, the American Heart Association, the American Diabetes Association, the muscular Dystrophy Association, the Department of Energy, the U.S. Department of Agriculture, and the California Metabolic Research Foundation. Additional information is available from the MBI office; (619) 594-7429.

**Institute for Nursing Research**
Martha J. Shively, Director

Administered through the School of Nursing, the purpose of the Institute is to promote collaboration in the conduct, dissemination, and utilization of nursing research which will contribute to the quality of patient care and service. The Institute provides a forum for research interests and activities, and also fosters collaborative research efforts among Institute nurse clinicians and SDSU nursing faculty. This includes identifying research priorities for individual and multi-site research projects, and providing consultation for design, methods, analysis, interpretation, instrumentation, and manuscript preparation. The Institute also facilitates grant application and administration for funded research, as well as the dissemination of research findings. Website for the Institute is at www-rohan.sdsu.edu/dept/chhs/nursing/inr.html.

**Production Center for Documentary and Drama**
Jack Ofield, Director

The Production Center for Documentary and Drama sponsors and creates professional films and television programs and series and symposia with high artistic and technical standards, documentary accuracy, and creative originality. Within the School of Communication, Production Center projects are integral to the training of senior and graduate students in the telecommunication and film disciplines who work in tandem with industry professionals to gain practical experience in location and studio production. Located in PSFA 325, the Production Center mentors graduate students and alumni in the creation of projects that are an expression of their artistic and technical growth. The Center serves local, national, and international non-profit entities such as museums, libraries, performing and visual arts groups and public service, research, philanthropic and government agencies in the development of audio-visual programs and assists other SDSU departments in documenting important projects and programs. Production Center projects are distributed worldwide, funded from grants and contracts with industry, government, philanthropy, education and business, and administered by the SDSU Foundation.
Institute of Public and Urban Affairs  
Louis M. Rea, Director

The Institute of Public and Urban Affairs is located in the School of Public Administration and Urban Studies. The Institute was established to conduct research in community and governmental affairs and to sponsor conferences, colloquia and symposia related to issues in public administration and affairs including urban planning, management, and criminal justice administration. The Institute also publishes occasional working papers and research monographs. Selected students and faculty of San Diego State University staff the Institute. An integral part of the Institute is the Public Administration Center which contains a specialized and growing collection of research materials emphasizing issues in public affairs particular to San Diego and California.

Institute for Public Health  
Winnie Willis, Director  
Suzanne P. Lindsey and Clara H. Eder, Faculty Investigators

Administered through the Graduate School of Public Health, the mission of the Institute is to serve as a vehicle for the development and support of functional linkages between the SDSU Graduate School of Public Health, local public health agencies, and private organizations in the San Diego community and neighboring areas, including Mexico. These linkages expand the availability of University-based public health expertise, research and information in the areas of biostatistics, environmental health, epidemiology, health services administration, health promotion, industrial hygiene, maternal and child health, occupational health, and toxicology. Specific activities include collaborative research, technical assistance, consultation, continuing education and professional development, student field placement, faculty/practitioner exchange, information dissemination, and various service activities. The Institute serves to bridge public health academics and practice by facilitating meaningful partnerships between faculty, students, and local practitioners. The Institute offices are located at 6505 Alvarado Road, Suite 115, (619)594-2632.

Real Estate and Land Use Institute (RELU)  
Established in 1983, the Real Estate and Land Use Institute (RELU) is the first systemwide research-oriented institute of its kind in the 23-campus California State University system. The San Diego regional office of RELU is located in the College of Business Administration.

RELU's mission is to promote education and research in real estate and land use. In support of this mission, RELU seeks to (1) support, coordinate, and manage systemwide and inter-campus research activities; (2) assist in the development, coordination, and administration of statewide continuing education programs; (3) obtain funding sources for education and research activities; (4) promote the general well-being of undergraduate and graduate study within the CSU system; and (5) maintain liaison with government agencies, private industry, and associated organizations with interest in public policy.

RELU maintains a research and reference center in the College of Business Administration where specialized real estate and land use related materials are available for use by students and faculty.

RELU also sponsors an internship program for placement of qualified students with local firms to provide a combined working and learning experience. Additional benefits accrue to interns in the form of academic credits and stipends. For more information, call (619) 594-2301.

Institute for Regional Studies of the Californias  
Paul Ganster, Director

The Institute for Regional Studies of the Californias (IRSC) provides the University with a neutral forum for the investigation, discussion, and dissemination of information about the United States-Mexico border region. Although the Institute's focus is on the three-state region of California, Baja California, and Baja California Sur, it is also concerned with Mexico and important issues in the United States-Mexico relationship. In addition, IRSC monitors border regions elsewhere in the world. Created in 1983, the Institute has undertaken multidisciplinary research projects on significant regional concerns including transborder environmental issues, policy perspectives on the California-Mexico relationship, and the maquiladora industry. The Institute also maintains a research collection on the border region and takes an active role in Latin America and Mexico-related professional organizations. IRSC publishes the Journal of Borderlands Studies, as well as papers and monographs on border-related issues and topics.

Other Institute activities include conducting binational symposia, improving communication between public and private sector representatives on both sides of the border, serving as a clearinghouse for information on transborder events, issues, and institutions; and encouraging the effective use of educational resources among the region's universities. The Institute serves as a major link between SDSU and Mexican institutions. IRSC has under way a major project on border environmental issues and public policy. IRSC serves as the SDSU link to the Southwest Center for Environmental Research and Policy, a congressionally established consortium of universities for research and policy studies on environmental issues of the border. The Institute is located in Nasatir Hall 103.

Dr. Sanford I. Berman Institute for Effective Communication and General Semantics  
José E. Castillo, Director  
Associate Directors: Massimo Boninsegni, Steven M. Day, William A. Root, Peter Salamon, Donald R. Short

The Dr. Sanford I. Berman Institute for Effective Communication and General Semantics within the School of Communication is dedicated to the study of language and behavior in social context. Contemporary trends no longer seem to answer to the call of the individual's command of language in everyday experience. It is therefore imperative that the connections between communication and the practical realms of polity, family, and society be re-established. To do so requires scholarly attention to and an understanding of the relations among our symbolic activities, society, and the mind. The Dr. Sanford I. Berman Institute serves in this vanguard role. The Institute measures its stature by the success of those it trains to lead a more enriching existence through communication.

Computational Science Research Center  
José E. Castillo, Director

The Computational Science Research Center (CSRC) promotes the development and advancement of the interdisciplinary subject of computational science. This is accomplished by fostering research, developing educational programs, and promoting industrial interaction, outreach, and partnership activities.

The Center provides an environment for scientific research at San Diego State University. It facilitates the interaction between applied mathematics, computer science, and other disciplines by providing the necessary infrastructure for productive research efforts. Real world applications are the focus of faculty and and student projects. These projects provide an educational opportunity for students to hone industry relevant computational skills.

The goals of the Center are to encourage and facilitate research in computation, simulation, visualization, and numerical modeling.
in all disciplines (business and finance, biology and bioinformatics, engineering, physical sciences, and geography); to interact with other centers, laboratories, universities, and local industry; reduce lag time between algorithm development/analysis and applications; to participate in programs with other countries, including international programs sponsored by the National Science Foundation; to arrange visits by professors, including foreign visitors on sabbaticals and professional staff on industrial sabbaticals; to arrange part time and adjunct appointments for consulting activities by professional staff from local research laboratories; to provide employment, experience, and contacts for students; to sponsor conferences, workshops, and courses; to facilitate collaboration with government laboratories with private sector; to provide bridges to regional industry; and to direct the computational science program at San Diego State University.

Interested students and faculty may obtain more information by calling the CSRC office at (619) 594-7205.

**Center for Social Equity Technical Assistance**

Ruben W. Espinosa and Alberto M. Ochoa, Co-Directors

The Center conducts training and research on issues of social equity and bilingual multicultural policy, and provides technical assistance to districts throughout southern California. The Center conducts research in public equity and school finance. The Center houses projects funded by federal, state, and private sources. Current projects include the Parent Institute, and the Social Equity Project. The Center functions within the Department of Policy Studies in Language and Cross-Cultural Education at San Diego State University.

**Social Policy Institute**

Terry Carrillo, Coordinator

Adorned through the School of Social Work, the mission of this Institute is to assist local and state, public and private sector leaders in the development of policies and programs that better meet the needs of the people of San Diego County and the State of California. This is fulfilled by examining health and human service issues and problems through conducting research and evaluations; reviewing existing studies and reports at the local, state, and national levels; and preparing recommendations for dissemination to elected officials, special commissions, task forces, business executives, community leaders, and administrators of major institutions. Results, findings, and information are communicated through published professional monographs and journal articles, professional meetings and conferences, op-ed newspaper essays, testimony to political bodies, such as the County Board of Supervisors and State Legislators, a computer web site, news conferences, and interviews with electronic media representatives. Scholars from several departments within the University individually and in collaboration lend their expertise to the analysis of regional health and human services problems. Issues of focus include children, youth, and family concerns, aging and the elderly, mental health, health care delivery, welfare reform, family violence, immigration, community economic development, diversity and discrimination, and homelessness.

**Strategic Technologies and Research (STAR) Center for Electronic Business**

Annette Easton and George Easton, Co-Directors

The Internet is reshaping business and the future of business is electronic business (e-Business). The Strategic Technologies and Research (STAR) Center for Electronic Business is dedicated to exploring the strategies, technologies, and business models associated with conducting business electronically.

The interdisciplinary STAR Center engages in activities that focus on information technologies, management strategies, markets and operational issues of electronic business. The goals of the Center include creation and implementation of educational programs in electronic business; creation of research and professional development opportunities with an electronic business focus; creation of opportunities for professional and community service that focus on electronic business; creation of effective development strategies to ensure long term viability; and creation of effective development strategies to ensure long term viability. The STAR Center provides the framework for the College of Business Administration to manage the curriculum, grow the research programs, and harvest opportunities provided by this new discipline.

The STAR Center is located in the College of Business Administration’s electronic boardroom (SS-2601). STAR Center staff can be reached at (619) 594-2759, via e-mail at starcenter@sdsu.edu or at starcenter.sdsu.edu.

**Center on Substance Abuse**

Anita S. Harbert, Director and Annette R. Smith, Coordinator

Administered through the School of Social Work, the Center was established in 1985 with a primary mission of facilitating the development of knowledge and skills for the prevention and treatment of alcohol and drug problems. Goals include developing and supporting projects in substance abuse research, curriculum, and community service. The Center serves as an administrative umbrella for several projects, including Student to Student, providing campus-wide substance abuse prevention, the SPAN certificate program in Human Services for persons recovering from chemical dependency and related problems, and the Central District Driving Under the Influence Program, providing education and counseling for court-ordered offenders in the central judicial district of San Diego County. Other projects have included the College Life Alcohol Prevention Project, providing awareness of issues related to family alcoholism, the Child Welfare Substance Abuse Training Project, the Neighborhood House Head Start Substance Abuse Training Project, and the production of a substance abuse training video for child welfare workers. In addition, the Center has been involved in the training of several hundred community professionals in substance abuse intervention, and participates in the San Diego Intercollegiate Consortium for Alcohol and Drug Abuse Prevention and on the professional development committee of the California Addiction Training and Resource Center at UCSD. The Center office is located at 9245 Sky Park Court, Suite 101, (619) 467-6828.

The Student-to-Student office is located on-campus, (619) 594-5803. The DUIP and the SPAN programs are also at Sky Park Court. DUIP (619) 467-6810. SPAN (619) 715-0860.

**California Institute of Transportation Safety**

Sheila Sarkar, Director

The California Institute of Transportation Safety (CITS) was created to conduct research, administer programs, and teach courses in transportation safety. It is the first and only Institute dedicated to transportation safety encompassing several disciplines apart from engineering. Several renowned researchers and practitioners in engineering, public health, and psychology are affiliated with the Institute, uniquely providing the best possible academic and research environment. Hands-on experience is provided for students interested in transportation safety. Current programs include California Network of Employers for Traffic Safety, Southern California Local Traffic Safety Program, and Aggressive Driving and Road Rage behavior modification program.
Center for the Visual and Performing Arts
The Center for the Visual and Performing Arts serves as a focal point for the arts on campus and in the San Diego region. The Center’s primary activities involve enhancing, coordinating, and publicizing the College’s visual and performing arts programs, forming alliances and partnerships with San Diego arts agencies, and initiating new programs to expand the impact of the arts on the campus and in the community.

The Center promotes the integration of the arts on campus through curriculum initiatives by designing collaborative courses that integrate the arts into other discipline areas. The Center enhances art on campus through the “Masters of the Living Arts Program,” which brings internationally known artists to perform and exhibit, to conduct master classes and workshops, and to present lectures for students, faculty, and the San Diego arts community. The Center promotes the arts throughout the community by initiating outreach programs from the campus in the visual and performing arts. The Center also serves the campus and the San Diego artistic community by exploring important issues and themes relative to the arts through educational opportunities, public forums, research, and multidisciplinary and multicultural exhibits and performances.

Research Lecture Series

Distinguished Graduate Research Lecture Series
The Distinguished Graduate Research Lecture Series is sponsored by the Office of the Vice President for Research and Dean of the Graduate Division and the University Research Council and is supported in part through Instructionally Related Activities funds. The Series was established for the purpose of bringing to the campus scholars of national and international preeminence to present a public lecture on a general subject related to research and graduate education. In addition to this public lecture, the distinguished lecturer provides an unusual educational opportunity for graduate students by conducting a graduate research colloquium. Each of the lecturers in the Series is published to assure increased availability to students, faculty, and the university community at large.

Past Distinguished Research Lecturers have included Dr. Owen Gingerich, Professor of Astronomy and History of Science, Harvard University and Senior Astronomer, Smithsonian Astrophysical Observatory; Dr. Noam Chomsky, Institute Professor of Linguistics, Massachusetts Institute of Technology; Dr. Arthur Kornberg, Professor of Biochemistry, Stanford University; Dr. Nathan Glazer, Professor of Education and Sociology, Harvard University; Dr. Jane Goodall, Director, Gombe Stream Research Centre; Dr. Jonathan Miller, well-known author, stage producer and director; Dr. Stephen Jay Gould, Professor of Geology, Harvard University; Dr. Frank Sherwood Rowland, Professor of Chemistry, U.C. Irvine, and theorist on origins of ozone depletion; Ms. Susan Sontag, one of America’s best known writers; and Dr. Michael J. Novacek and Dr. Mark A. Norell, Curator and Associate Curator respectively of Vertebrate Paleontology of the American Museum of Natural History.

Albert W. Johnson University Research Lecture
A project sponsored by the University Research Council and the Office of the Vice President for Research and Dean of the Graduate Division, the Albert W. Johnson University Research Lectureship is awarded to an SDSU faculty member for outstanding achievement in research and scholarship. The purpose of the University Research Lectureship is to recognize such achievement, to foster its continuance, and to enable a distinguished resident faculty scholar to share knowledge more broadly with the academic community and the community-at-large.

One SDSU faculty member may be designated annually as the Albert W. Johnson University Research Lecturer for the academic year. Each of the lectures in the Series will be published to assure its increased availability to the students and faculty of the university and to the community at large.

Past lecturers have included Dr. Joseph Ball, Professor of Anthropology; Dr. Alvin Coox, Professor of History; Drs. James Flood and Diane Lapp, Professors of Education; Dr. Maurice Friedman, Professor of Religious Studies; Dr. Arthur Getis, The Stephen and Mary Birch Foundation Chair in Geographical Study; Dr. Dipak K. Gupta, Professor of Public Administration and Urban Studies; Dr. Robert Kaplan, Professor of Psychology; Dr. E. Percil Stanford, Professor of Social Work; Dr. Donna J. Thal, Professor of Communicative Disorders; Dr. Helen Wallace, Professor of Public Health; Dr. David Ward-Steinman, Professor of Music; and Dr. Catherine Yi-yu Cho Woo, Professor of Chinese.

Research and Technology Services

Office of the Committee on Protection of Human Subjects
The Committee on Protection of Human Subjects (CPHS) reviews research for the protection of the rights and welfare of human subjects who participate in research conducted by or involving the faculty, students or staff of SDSU or SDSU Foundation. The Office of the Committee on Protection of Human Subjects provides administrative support to the committee in compliance with Federal and State regulations and institutional policy related to the conduct of research involving human subjects. Call (619) 594-6622 for more information.

Office of the Institutional Animal Care and Use Committee
The Institutional Animal Care and Use Committee (IACUC) is the institutional animal care and use committee at SDSU and functions in accordance with Federal and State regulations and institutional policy. The Office of the Institutional Animal Care and Use Committee provides administrative support to this committee for implementing University policy for research, testing, or education involving the use of animals. Call (619) 594-3690 for more information.

Technology Transfer Office
The Technology Transfer Office (TTO) provides a central location where faculty, students, and staff may receive advice and assistance in the commercialization of their inventions, copyrights, and other scholarly work. In addition, the TTO assists in setting up new spin-off companies and obtaining venture capital for future development. This office also reports to the SDSU Foundation. Call (619) 594-0516 for more information.
General Information

Accreditation
San Diego State University is accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges, P.O. Box 9990, Mills College, Oakland, CA 94613-0990, (510) 632-5000. It is also approved to train veterans under the G.I. Bill.
San Diego State University’s programmatic accreditation is through membership in the following associations:

Accrediting Commission on Education for Health Services Administration
1911 North Fort Myer Drive, Suite 503
Arlington, VA 22209-1603
(703) 524-0511

Accreditation Council for Graduate Medical Education
(Preventive Medicine Residency Program)
515 N. State Street, Suite 2000
Chicago, IL 60610

Seattle, WA 98195-1240  
(206) 543-9054

In addition, San Diego State University is accredited by the following agencies:  
The College of Business Administration and the School of Accountancy are accredited by the AACSB—International Association for Management Education, 600 Emerson Road, Suite 300, St. Louis, MO 63141-6762, (314) 872-8481, at both the undergraduate and graduate levels. The M.S. in Financial and Tax Planning and the Certificate in Personal Financial Planning are registered with the International Board of Certified Financial Planners, 1700 Broadway, Suite 2100, Denver, CO 80202-2101, (303) 830-7500.  
The College of Engineering undergraduate programs in aerospace, civil, electrical and mechanical engineering are accredited by the Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202, (410) 347-7700.  
The School of Nursing is accredited by the California Board of Registered Nursing, State of California, Department of Consumer Affairs, 400 R Street, Suite 4030, Sacramento, CA 95814, (916) 322-3350.  
Concentrations in Environmental Health and Occupational Health in the Graduate School of Public Health are accredited by the Accreditation Board for Engineering and Technology, Inc., 111 Market Place, Suite 1050, Baltimore, MD 21202, (410) 347-7700.  
The Didactic Program in Dietetics and the Preprofessional Practice Program in Dietetics in the Department of Exercise and Nutritional Sciences are approved by the American Dietetic Association, P.O. Box 97215, Chicago, IL 60678-7215, (312) 899-0040.

Library and Information Access

The Library and Information Access supports the curricular and research needs of the University community through the development of collections and the provision of services designed to facilitate access to information. Service desks are located in these units: Circulation, General Reference, Government Publications and Maps, Media Center, Current Periodicals and Microforms Center, Reserve Book Room, Science, and Special Collections. The Library also has a comprehensive instructional program, which includes course-related instruction, and tours.  
The Library’s Internet Online Network (LION) provides access, within the library and remotely, to the library’s catalog and more than 50 databases. Interlibrary loan services are provided to obtain materials not held in the library. In addition, students and faculty can place unmediated requests for books from San Diego and selected California academic libraries through Circuit and Link+. The Information Systems and Technology group provides computer accounts to all students, as well as hosting WorldWideWeb pages for students, the University, and the Library (http://libweb.sdsu.edu/). It also operates a student computing facility with over 200 PCs, and the student computing help desk which assists students with a variety of computer questions.  
The Library’s holdings include 1,245,714 monographs and bound periodicals; 630,638 government documents; 4,036,579 microforms; 176,534 maps; 9,115 sound recordings; and 5,122.61 linear feet of archival papers. The Library receives 5,024 periodical and serial titles, including government publications. It is a depository for United States and California government publications, and receives selected United Nations publications.

Academic Computing

The SDSU computing environment provides access to scores of software products including World Wide Web browsers, programming languages, word-processing, spreadsheets, presentation packages, relational databases, statistical software, and large databases such as Compustat. The University provides access to a Sun SPARC Server (running SOLARIS) and a CRAY C98/8128 Supercomputer. Both the Sun SPARC Server and the CRAY C98/8128 computers are available to the university community via the campus Internet which also links students to specialty computing centers located at other California State Universities.  
The University has over 1,800 microcomputers as well as a significant number of X-Terminals located in 80 departmental/college computer laboratories. There are also three large computer labs open to all students; all machines in those labs are connected to the Internet. The open computer labs are (1) the Love Library Student Computer Lab located in Love Library 224 which has PCs, Macintoshes, X-Terminals, and laser printing; (2) the Social Science Research Lab located in PSFA 140 has PCs, Macintoshes, and laser printing; and (3) the Terminal Labs in BA-110 and BA-113 have X-Terminals and laser printing.  
Student computing and e-mail accounts are available through a student account system. This system allows enrolled SDSU students to create their own accounts via the Internet from computer or terminal on campus or via a modem from off campus.  
A Web site is available at www.sdsu.edu.

Instructional Technology Services

Instructional Technology Services provides support to faculty in the design, selection, production, and distribution of instructional technology. Service and support are provided in the areas of Instructional Development, Multimedia Production, Instructional Resources, Technology Systems and Baseline Access, Training and Support (BATS).
The Instructional Development program offers professional assistance in instructional design, course design, teaching techniques and assessment. Services include: assistance in development of instructional materials; assessing and selecting instructional methods; facilitating course design; assistance to faculty who wish to analyze their instruction; workshops on teaching skills and techniques; and a facility for faculty to produce their own media and to learn about new technologies.

Multimedia Production assists in the design and production of instructional, research, and other campus related materials. Services include development and production of instructional videotapes; graphic and photographic support of instruction, research and publication; and assistance in development of multimedia materials.

Instructional Resources provides support in the selection, use and distribution of instructional materials and audio-visual equipment. Services include consultation on selection and use of media and equipment for classroom use; check-out of media and equipment for classroom use; acquisition of new videotapes, videodiscs, and CD-ROMs for instructional use; on-line access to our media catalog containing more than 7,000 titles; and maintenance and repair of audiovisual equipment.

Technology Systems provides support in the design, installation, maintenance, and operation of audiovisual systems in classrooms. Services include operation of the closed-circuit television system; installation and maintenance of audiovisual equipment in classrooms; design and installation of “Smart Classroom” systems; operation of videoconferencing systems for instructional and administrative use; and operation of a presentation room for high-quality video and data production.

The Baseline Access, Training and Support (BATS) program provides students, faculty, and staff with training in the uses of hardware and software systems, and ongoing professional and technical support for utilization of computer resources at SDSU. Services include operation of computer training facilities, “hands-on” workshops for faculty, staff and students, and operation of Computer Help Desks for faculty and staff.

San Diego State University Foundation

The San Diego State University Foundation was incorporated in 1943 as an auxiliary organization authorized by the Education Code of the State of California. It is a nonprofit corporation, self-financed, and chartered to augment the educational, research, and community services objectives of the University. San Diego State University Foundation serves the University in the following areas:

- Develops and administers grants and contracts for faculty and staff research and educational projects and community service programs;
- Develops property adjacent to the campus, and manages a real property program whereby SDSU Foundation acquires and provides space for grant and contract activity and leases property to the University and other campus auxiliaries;
- Oversees KPBS TV and FM stations;
- Administers a technology transfer program for San Diego State University;
- Develops and administers several major centers, institutes, and community partnerships, such as the June Burnett Institute for Children, Youth, and Families, and the Fred J. Hansen Institute for World Peace, and the Defense Conversion Center.

San Diego State University Foundation, as a nonprofit corporation, is governed by a board of directors in accordance with its articles of incorporation and bylaws. The principal function of the directors is to provide policy direction to the Foundation in achieving its objectives.

San Diego State University Press

As the scholarly press for San Diego State University, San Diego State University Press publishes works of original research, as well as other meritorious academic and creative works that will further the intellectual mission of the University. Although high-quality manuscripts from any source will be considered, the current focus of the Press is in these areas: Latin America and the United States-Mexico border; regional studies of the Pacific Southwest; and postmodernism. In addition to books, the Press also publishes under its imprint the journals, Fiction International, Poetry International, and the Journal of Borderland Studies.

The San Diego State University Press imprint is controlled by an editorial committee of scholars, appointed by the Provost and Vice President for Academic Affairs and the Senate. Financial accounting and coordination are provided by the San Diego State University Foundation.

The California State University International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of the California State University (CSU). Since its inception in 1963, the CSU International Programs has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 12,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or special study center abroad. The International Programs serves the needs of students in over 100 designated academic majors. Affiliated with more than 70 recognized universities and institutions of higher education in 17 countries, the International Programs also offers a wide selection of study locales and learning environments.

- **Australia** - The University of Western Sydney
- **Canada** - The universities of the Province of Quebec including: Université de Montréal, Concordia University, Université Laval, McGill University, Université du Québec system, Bishop’s University, i.a.
- **Denmark** - Denmark’s International Study Program (the international education affiliate of the University of Copenhagen)
- **Germany** - Universität Tübingen and a number of institutions of higher education in the Federal State of Baden-Württemberg
- **Israel** - Tel Aviv University, The Hebrew University of Jerusalem
- **Italy** - CSU Study Center (Florence), Università degli Studi di Firenze, La Accademia di Belle Arti Firenze
Japan: Waseda University (Tokyo)
Korea: Yonsei University (Seoul)
Mexico: Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Queretaro
New Zealand: Lincoln University (Christchurch), Massey University (Palmerston North)
Spain: Universidad Complutense de Madrid, Universidad de Granada
Sweden: Uppsala Universitet
Taiwan: National Chengchi University (Taipei)
United Kingdom: Bradford University, Bristol University, Hull University, Kingston University, Sheffield University, University of Wales, Swansea
Zimbabwe: University of Zimbabwe (Harare)

International Programs pays all tuition and administrative costs for participating California resident students to the same extent that such funds would be expended to support similar costs in California. Participants are responsible for all personal costs, such as transportation, room and board, living expenses, and home campus fees. Participants remain eligible to receive any form of financial aid (except work-study) for which they can individually qualify.

To qualify for admission to the International Programs, students must have upper division or graduate standing at a CSU campus by the time of departure. Students at the sophomore level may, however, participate in the intensive language acquisition programs in France, Germany, and Mexico. California Community Colleges transfer students are eligible to apply directly from their community college if they can meet these requirements. Students must also possess a current cumulative grade point average of 2.75 or 3.0, depending on the program for which they apply. Some programs also have language study and/or other coursework prerequisites.

Additional information and application materials may be obtained from the Division of Undergraduate Studies (CH-3350) or by writing to The California State University International Programs, 400 Golden Shore, Suite 122, Long Beach, California 90802-4275. Visit the Web site at www.gateway.calstate.edu/csuienet/.

Office of International Programs

In recognition of the rapidly expanding number and importance of international activities on the San Diego State University campus, the Office of International Programs has specific responsibility for coordinating and facilitating the development of the diverse international programs and activities of the University. The Office of International Programs is the primary contact for international programs and represents the University on international matters to external agencies and institutions. In addition to coordinating all international faculty and student exchange programs, the Office of International Programs serves as an information clearinghouse regarding international projects, funding opportunities, and academic programs and services that have an international component.

International Faculty Exchanges

In order to enhance the international character of instruction and research, San Diego State University has developed a continuing program of faculty exchange with partner universities worldwide. Currently, the University has formal arrangements to exchange faculty and administrators periodically with universities across the globe. Over 100 international scholars visit the San Diego State University campus each year to pursue scholarly research, participate in academic or professional programs, and share their international perspectives with the university community.

International Student Exchanges

In addition to the CSU International Programs, San Diego State University has entered into special institutional arrangements with selected universities that provide both undergraduate and graduate students the opportunity for study, research, and internships abroad. Currently San Diego State University has student exchange agreements with dozens of international partners.

For more information about the University’s international programs and international exchanges, contact the Office of International Programs, (619) 594-1354. E-MAIL: intnprog@sdsu.edu or visit our Web site at www-rohan.sdsu.edu/dept/intnprog/index.html.

Alumni Association

The SDSU Alumni Association is a non-profit organization dedicated to connecting SDSU alumni to the University and each other. Membership in the San Diego State University Alumni Association is open to those individuals who have an abiding interest in and commitment to the growth and future of SDSU and the community it serves.

The Alumni Association is a dynamic organization whose purpose is to serve and support the university and its graduates. It offers a number of programs and services designed to meet the variety of needs and interests of its alumni, including library privileges, reduced admission to many cultural activities and sporting events, discounts on purchases at the Aztec Store and More, access to SDSU’s Career Services for a nominal fee, and a subscription to SDSU Magazine, and Aztec update: publications for alumni and friends of the University.

In addition, the Alumni Association sponsors The Montys (annual awards event honoring alumni and faculty of the University), provides scholarships for students, organizes Homecoming, sponsors Career Panels, provides input regarding University programs and policies, and provides excellent networking opportunities through a myriad of events.

For further information, phone the Alumni Office at (619) 594-2586.

Associated Students of San Diego State University

The Associated Students of San Diego State University (A.S.) is a unique, full-service organization. The A.S. provides a variety of programs, services and activities for SDSU students, as well as faculty, staff, alumni, and the public. Managed by elected student executives, the Associated Students programs range from student employment and government, to recreation, entertainment and child care. An independent, not-for-profit corporation, it is funded by the student activities fee and revenues collected from programs and services. Associated Students can be reached by calling (619)594-6555, or on the Web site at as.sdsu.edu.

Student Government. The Associated Students sponsors extensive student leadership programs designed to encourage active student participation in the decision-making policies of the University. The A.S. Council is the voice of the SDSU student body. Composed of one representative per 1500 students and
four executive officers, the Council is responsible for the (A.S.) $10 million annual budget and for formulating policy. Elections held each semester allow for the selection of individuals to fill one-year terms on the Council. Meetings of the A.S. Council are weekly, open sessions.

Other student government activities include monitoring academic policies and managed programs; appointments to educational or campus-related committees; lobbying to provide student input to city, county, state, and federal governments; and representing SDSU’s interests with the California State Student Association. Call (619) 594-6487 for more details about student government programs.

Aztec Center. The hub of student activity at SDSU, Aztec Center is the headquarters of the Associated Students and its staff. Aztec Center features study lounges, meeting and conference rooms, the Campus Information Center, the Ticket Office and businesses that include Pak Mail, Council Travel, Enterprise Rent-A-Car, and USE Credit Union. The Center also houses Monty’s Den, a popular campus eatery and meeting place for students that offers many food selections. For more information, call (619) 594-6551.

Cox Arena at Aztec Bowl. This new facility features seating for over 12,000 people and hosts SDSU basketball and volleyball games in addition to community events, concerts, graduation ceremonies, conferences, sports shows, and more. State-of-the-art staging and sound systems, along with deluxe dressing rooms. VIP lounges and meeting rooms are also available for rental. Full-service box office and TicketMaster location for events throughout California. Adjacent to the Aztec Recreation Center in the heart of the SDSU campus with nearby parking for 2,000 vehicles. Call (619) 594-0234.

A.S. Recreation Programs. Associated Students manages most of SDSU’s recreation and leisure programs. Offered at affordable prices, they are also open to the public, as well as students, faculty, staff, and alumni.

Aztec Recreation Center (ARC). The ARC features four full-size gyms; a 30-foot climbing wall; 21,000 square feet of cardio, aerobic, dance, and weight rooms; outdoor equipment rentals; a 52” TV and lounge area; plus locker rooms with full towel services and saunas. Membership includes unlimited access to recreation facilities, aerobics, cardio and weight rooms, racquetball, wallyball, and intramural sports. A additional programming offered at minimal fees with a wide variety of recreation classes such as the arts, dance and music, food and beverage, health and fitness, martial arts, horseback riding, tennis and rock climbing. Economical membership fees start at only $12.00 per month. Call (619) 594-6424 or 594-PLAY for complete schedules and membership information.

Aztec Center Bowling and Games. One of the most affordable places on campus. This newly renovated facility includes AMF computer-automated scoring, over 40 video games, billiards, table tennis, and leagues. Also available for parties. Call (619) 594-6561.

Mission Bay Aquatic Center. The world’s largest instructional waterfront facility, located at 1001 Santa Clara Point in Mission Bay Park, offers classes and recreational opportunities in surfing, sailing, windsurfing, waterskiing, rowing, wake boarding, and more. Equipment rentals and facilities for group meetings or barbecues are also available. Bus transportation from SDSU available on Transit Route 81. Call (619) 488-1036.

Aztec Adventures. Located in the Aztec Recreation Center complex, this outdoor adventure program offers camping, backpacking, rock climbing, canoeing, sea kayaking, and skiing outings. Also features excursions such as Baja whale watching, surfing safaris, and nature awareness weekends. Trips are always led by experienced guides or instructors. Most outings include transportation, food, group equipment, and all permits or fees. Outdoor rental equipment services are also available. Call (619) 594-6222 for more information and trip schedules.

Recreational Sports. An extension of the Aztec Recreation Center (ARC), Recreational Sports offers intramural sports and the popular Sport Clubs program - and free racquetball, and wallyball to ARC members. The golf driving range, batting cage, and equipment rentals are also available for minimal fees. Non-ARC members can participate in all programs at slightly higher prices. Recreational Sports is located at SDSU in the Aztec Recreation Center. For more information, call (619) 594-6424 or 594-PLAY.

Child Care Programs. Associated Students provides child care and preschool learning programs through two facilities: the Campus Children’s Center and the Faculty/Staff Children’s Center. Programs range from part-time to full-time care for children ages six months to five years, with all programming provided by expertly trained teachers and staff members. For more information, call (619) 594-7941 or 594-6359.

Open Air Theatre and Entertainment. A.S. offers multiple programs that provide fun and versatile entertainment. The 5,100 seat Open Air Theatre features regular performances to sellout crowds including concerts, lectures, and symphony performances. Call Aztec Center Ticket Office, (619) 594-6947 for performance schedules.

Athletics

San Diego State University sponsors a broad array of varsity intercollegiate athletics for women and men. SDSU’s commitment to gender equity in athletics includes twelve sports for women (basketball, crew, cross country, golf, soccer, softball, swimming, tennis, indoor/outdoor track and field, volleyball, and water polo) and seven for men (baseball, basketball, football, golf, soccer, tennis, and volleyball). As a National Collegiate Athletic Association (NCAA) Division I program, Aztec athletic teams contend at the highest level of intercollegiate competition. All of the teams except men’s volleyball and soccer compete in the 8-member Mountain West Conference. Men’s volleyball and soccer are members of the Mountain Pacific Sports Federation.

Athletics serves a number of important roles on campus and within the larger San Diego community. In addition to encouraging student-athletes to expand their competitive capabilities to the fullest, San Diego State teams provide a catalyst which helps generate pride and a shared esprit de corps among students, faculty, staff, and alumni. This also helps link these groups from generation to generation. Similarly, with nearly a hundred-thousand alumni and former students and tens of thousands of supporters in the county with no other direct connection to the University, Aztec teams frequently carry the aspirations of San Diego in the forum of NCAA Division I Athletics. On-campus athletic events attract both students and members of the community to campus and this reinforces many mutually beneficial town-gown relationships.
Aztec Shops, Ltd. (Campus Store, Food Services, Copy Services)

Aztec Shops, Ltd. is a not-for-profit auxiliary that was established to serve the San Diego State University community in 1931. It operates on-campus services such as The Campus Store and all food service operations, and off-campus it operates Aztec Store and More in Fashion Valley Center. It also operates stores at SDSU/IVC, CSU San Marcos, and Imperial Valley College. It is governed by a Board of Directors composed of faculty, students, and staff of SDSU. Aztec Shops is not funded by the State of California or the University.

The Campus Store houses more than 5,000 required textbook titles each semester (which includes the largest selection of used textbooks in the state), as well as assigned class materials, reference works, school supplies, computer supplies, software and hardware (most at educational prices). SDSU items, and a selection of over 35,000 general interest books. The Pulse, located in side The Campus Store, offers a wide selection of copy and other related needs. A large selection of art supplies may be found at Art Etc., which is located in the Art Building on campus.

Aztec Shops Food Services operates over 17 restaurants on the SDSU campus. This includes a newly-renovent East Commons building that houses Aunt Mary’s Corner Bakery, a coffee and pastry bar; SubConnection, offering freshly-made deli sandwiches; House of Tsang, an Asian restaurant; Casa del Sol, a fresh-Mex concept; and a full-service McDonald’s. Also available on campus are DJ’s Deli, KFC, and Taco Bell in West End Plaza, and Betty’s Hotdogger near the Art Building. Aztec Shops leases space to Sbarro, Arbys, Don Diego, and Creative J uices in Aztec Center, as well as Allegro and Nectar J uices in West End Plaza. The residential dining program is housed at West Commons and features an all-you-care-to-eat dinner program. Questions on this program can be directed to the Meal Plan Office on the lower floor of the East Commons building.

In addition to the varied restaurant options, the SDSU campus has four Monty’s Market Convenience stores, including a 3,000-square foot “mega-store” in East Commons. All stores carry a wide variety of grab-n-go sandwiches and salads; Monty’s Market at Chupultepec also features a grill.

Aztec Shops is dedicated to providing quality services to the campus community. Questions or concerns may be directed to the corporate offices on the second floor of the East Commons building.

Children's Centers

The Associated Students’ Campus Children’s Center and Faculty Staff Children’s Center provide child care for children of SDSU students, faculty and staff. The academic year program is a parent participation program and gives priority to children of students. Other factors that determine priority are financial need and application date. The Campus Center serves children six months through six years of age, who are in good health. The year-round program serves children 18 months to six years of age and gives priority to children of faculty and staff. All applications are considered regardless of race, religion, creed, sex, national origin, or handicap.

Tuition for children enrolled during the academic year is determined on a sliding fee scale based on family size and income. The year round program fees are a set fee. The program is designed so that a variety of activities are offered that will foster the child’s social, emotional, intellectual, and physical development and help the child view himself/herself and the environment positively.

The programs are staffed by professional and student employees, volunteers and Child Development majors. Parents of children enrolled in the academic year program make a weekly contribution of time as teachers in the classroom and serve on a fundraising/publicity committee. Parent participation is not required in the Faculty/Staff Children’s Center. Parents have the opportunity to serve on the Children’s Center Board, which is composed of parents and other campus representatives.

The hours of operation are: Campus Preschool 7:30 a.m. to 5:30 p.m., Monday through Thursday, 7:30 a.m. to 4:00 p.m. Friday; Toddler Classroom 8:00 a.m. to 4:00 p.m. The Infant Classroom is open Monday through Friday 8:00 a.m. to 2:00 p.m. The Faculty/Staff Preschool is open 7:00 a.m. to 6:00 p.m. Monday through Friday. Call (619) 594-6359 for more information.

Career Placement

Career Services may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University. Information is available at www.career.sdsu.edu.

Career Services

Student Services, Room 1200,
(619) 594-6851, career.sdsu.edu

Career counselors assist students in the exploration of their skills, interests and values as they choose a major and develop a career plan. A variety of computerized instruments are used in the career counseling and job search process. An extensive Career Resource Library is available to provide information about potential employers as well as current open positions for graduates. A centralized listing of paid part-time jobs, volunteer positions, and internships for on and off campus is available through the Student Employment section of Career Services.

Career fairs are scheduled each semester allowing students to meet employers in an informal setting. A comprehensive career fair is scheduled in September followed by a graduate and professional school day. In the spring a series of specialty fairs are scheduled, including one for summer jobs. Access to a bank of SDSU alumni (through our Career Consultant Network) may also help students explore numerous career possibilities.

The On-Campus Interviewing program brings prospective employers and students together for career employment and internship interviews. Students are assisted in preparing for these interviews and all other aspects of the job quest through workshops and individual career counseling.

Various services are offered to alumni for a nominal fee. Career Services is open 8:00 a.m.-4:30 p.m., Monday through Friday, and the Career Resource Library is open until 6:00 p.m. on Thursdays during fall and spring semesters while classes are in session.

Catalog, Bulletins, and Class Schedule

The General Catalog is published annually in May and can be purchased at The Campus Store. The catalog carries information on admissions, fees and tuition, programs and degrees,
courses, scholarships, residence halls, student services and activities, and a faculty directory. The catalog, bulletins, and class schedule are available on the SDSU Web site, as well as information on mail-orders, www.sdsu.edu.

The Bulletin of the Graduate Division is published annually in May and can be purchased at The Campus Store.

The Summer Sessions Catalog, issued each April, includes an application form, information on admissions and registration, fees, living accommodations, courses, institutes, workshops, and study tours. It may be obtained free upon request to the Summer Sessions Office.

The Class Schedule with instructions for registration is published prior to the opening of each semester and may be purchased at The Campus Store.

Center for Community-Based Service Learning (CCBSL)

The mission of the Center for Community-Based Service Learning is to enhance learning and civic responsibility through community engagement. The Center serves faculty, students, and community organizations by providing a link to integrate community service programs with classwork, giving students unparalleled insight into community needs. The CCBSL is a supportive and collaborative force for the campus and the community to come together for shared endeavors and goals.

Community-based learning, also known as service learning, is a form of experiential education combined with the ethic of giving back to the community. The goals of the CCBSL include assisting and supporting faculty as they make community service part of their classwork, and helping individual students and student organizations identify places where they can directly address community needs.

The CCBSL serves as a central location on campus for students, their clubs, faculty and staff to plan and implement community projects. To aid in those efforts, the CCBSL has developed several resources and services to include:

- Relational databases of faculty and courses involved in community-based learning;
- A listing of community activities meeting student volunteer or service needs;
- A bank of community projects suitable for faculty to include in their courses;
- A listing of grants related to community-based and experiential learning;
- A resource library for research, assessment, grant writing, course design, focusing upon experiential and community-based learning;
- A place for faculty and staff to meet to discuss service-learning curriculum;
- Assessment tools such as campus-wide surveys of faculty interest and learning; outcomes of individual courses.

The CCBSL is located in Scripps Cottage. For more information, contact the CCBSL at (619) 594-0807 or www.sdsu.edu/ccbl.

Counseling & Psychological Services

Student Services, Room 2109, (619) 594-5220

Counseling & Psychological Services (CPS) offers individual and group counseling for the typical college student who wants assistance in coping with, and successfully resolving, the problems they face in everyday life. Issues relating to intimate relationships, self-esteem, personal independence, conflict, anxieties, self-confidence and academic performance are difficult and common obstacles for most college students. Peer counselors are also available to assist students with personal and family problems.

Individual counseling services are designed for students who can benefit from short term, intensive counseling, lasting a maximum of six sessions. If a student’s situation requires longer term therapy, referrals can be made to off-campus resources. CPS has a stress management program and Personal Growth Resource Library equipped with over 200 video and audio tapes and a variety of free brochures on topics to assist students in their academic performance and personal growth.

Enrolled SDSU students who want help from the CPS staff in locating off-campus community services can call (619) 594-5220. Counseling psychologists at CPS offer help in:

- Learning to reduce stress. Stress can interfere with concentration, memory, and mental processing.
- Dealing with relationship loss, feelings of hopelessness or hopelessness, which may lead to a lack of motivation or prolonged depression.
- Developing communication skills and problem solving techniques to improve important relationships.
- Building self-esteem and improving coping skills.
- Clarifying values and career decisions.

Counseling & Psychological Services is open from 9:00 a.m. to 4:00 p.m., Monday through Friday.

Disabled Student Services (DSS)

Student Services, Room 1661, (619) 594-6473; TDD: 594-2929

Disabled Student Services provides support services for students with mobility limitations, learning disabilities, hearing or visual impairments, psychological disabilities, attention deficit disorder, and other disabilities. Counselors are available to help students plan an SDSU experience to meet their individual needs. They assist students in making personal, academic, and vocational choices, and show how best to utilize campus facilities. Prior to receiving assistance, appropriate medical documentation must be submitted to Disabled Student Services.

Services available to all DSS students include a writing center/assisting computer technology lab (the High Tech Center) where students may use standard or assistive computer technology for assignments and may receive tutoring assistance with their writing. Other services available when appropriate include priority registration for students with special needs; close-in parking; transportation on campus and information about off-campus transportation; government benefits counseling; accessibility information, maps, and library study rooms; reader services and assistance with books on tape; sign language interpreters for deaf students; accommodated testing assistance; loan of educational support equipment (tape recorders, amplification equipment, wheelchairs, etc.); tutoring and notetaking services, referral to off-campus agencies for mobility orientation, financial benefits; and other services.

In addition to these services, DSS offers a series of classes aimed at helping students achieve academic success and fulfill university requirements. Rhetoric and Writing Studies 92A and 92B are designed to help students develop their writing skills and meet the lower division writing requirement. General Mathematics Studies 90A and 90B are review classes designed to help students meet university mathematics competency requirements.
Rhetoric and Writing Studies 98A is designed to teach students effective test preparation, notetaking, and other strategies to help them improve their academic performance.

**Faculty Office Hours**

All faculty members are required to hold regularly scheduled office hours during the week to allow for student consultation. A schedule of those hours is posted outside each faculty member’s office door.

**Health Services**

Corner, Campanile Drive and Hardy Avenue, (619) 594-5281

shs.sdsu.edu

All regularly enrolled SDSU students have prepaid a health fee which entitles them to basic medical services. Some services, including annual Pap smear and pharmacy, require a minimal fee. Charges associated with these services are usually dramatically lower than those found elsewhere. This care is provided at Student Health Services, an on-campus center where health care providers offer a wide range of programs and services. Services include:

Medical care by physicians board certified in family practice, internal medicine, orthopedics, psychiatry, dermatology, and preventive medicine, and by primary care nurse practitioners; nursing, x-ray, and laboratory services; a pharmacy which dispenses prescriptions and over-the-counter items at cost; health-related counseling and campuswide health education program offered by the Health Promotion Department.

**REQUIRED: Proof of immunity against measles, rubella, and hepatitis B**

New or readmitted students born on or after January 1, 1957 must present proof of immunity to measles and rubella (German Measles) during their first semester at SDSU. The minimum requirement is proof of at least one immunization for measles and rubella given after the first birthday and after 1968. (All students are encouraged to consider a second measles immunization.)

Students may fulfill the immunization requirement by bringing or sending medical documentation as proof of either previous illness or immunization to Student Health Services. (School records are not acceptable proof unless signed by a physician or a nurse.) Students may also receive free immunization at Student Health Services. For more information, call (619) 594-5281.

**Important:** Students who have not complied with this California State University mandate prior to the registration deadline will not be able to register for their second semester until they:

- Provide proof of full immunity to Hepatitis B,
- OR
- Provide proof of obtaining at least one of the required three doses of Hepatitis B vaccine. (Students who have not completed the series of Hepatitis B vaccine will be required to comply prior to the registration deadline for their third semester or will not be able to register for future classes.)

Immunization documentation should be mailed or brought to SDSU Student Health Services, Immunization Program, 5500 Campanile Drive, San Diego, CA 92182-4701. For those students unable to obtain acceptable proof of measles and rubella immunizations, Student Health Services will provide immunizations at no cost.

In addition to demonstrating immunity to measles and rubella at Student Health Services, some students may be further required to present documentation to other campus officials. Students subject to this additional screening include:

- Students who reside in campus residence halls;
- Students who obtained their primary and secondary schooling outside the United States;
- Students enrolled in dietetics, medical technology, nursing, physical therapy, and any practicum, student teaching, or fieldwork involving preschool-age children and/or school-age children or taking place in a hospital or health care setting.

**Strongly Recommended Health Screening**

Immunization from the following diseases may also protect students against potentially severe infections: tetanus, diphtheria, polio, mumps, and Hepatitis B. Like measles, these too can be particularly harmful in the college-age group. The chicken pox vaccine is available for students who have not had the disease. These immunizations are available at reduced cost in Student Health Services. Flu shots are available annually, as well.

Entering students are also strongly encouraged to have a screening test for tuberculosis (TB). The TB skin test is offered free at Student Health Services.

**Appointments**

Students without acute or urgent problems are encouraged to make an appointment. Those with problems requiring immediate medical attention should walk in. Student Health Services is open twelve months of the year. During the fall and spring semesters, the clinic is open from 8:00 a.m. until 4:30 p.m., Monday through Friday (call for extended hours of operation). During the summer, clinic hours vary. It is best to call for hours of service and to ask about the availability of services, (619) 594-5281. All medical care provided at Student Health Services is strictly confidential. No one, on or off campus, other than Student Health Services staff has access to medical record information without written permission from the student.

**Student Health Advisory Board**

Students can participate in the clinic activities and offer important feedback about services through membership on the Student Health Advisory Board (SHAB) sponsored by SDSU Associated Students. Members not only work with clinic staff on a variety of health education projects, but also act as liaison...
between the SDSU student body and Student Health Services. SHAB keeps Student Health Services staff focused and current on major student health issues. Membership from all academic majors is encouraged.

**Accidents and Student Insurance Coverage**

First aid or urgent medical care is also provided to faculty, staff, and campus guests for accidents and injuries occurring on campus. Accidents requiring treatment and/or transportation to Student Health Services or a local hospital should be reported immediately to the SDSU University Police, (619) 594-1991.

SDSU students are regarded by the University as adults. Accordingly, students are responsible for their own safety and health in connection with participation in campus activities and should exercise good judgment and due care at all times.

Specific questions regarding insurance coverage for campus programs, institutional safety regulations, and potential risks inherent in academic programs and student activities should be directed to the responsible faculty or staff member in charge of the activity.

Students participating in required or elective academic programs such as internships or practica may be covered under the university’s self-insured Worker’s Compensation program provided an internship agreement between the University and the facility has been executed by an authorized representative of the University. If the facility requires interns to provide and maintain professional liability insurance, it is the student’s responsibility to secure professional liability insurance at their own expense. The University does not cover students’ liabilities. This coverage is available through various companies, accreditation agencies, and memberships in professional organizations. Students should confirm the facility’s requirement for this insurance and maintain acceptable limits in full force during the term of placement. The University makes no warranties as to the nature or quality of the coverage or the financial integrity of the insurers. The information on the availability of coverage is provided as a convenience to the students.

The University does not provide liability, accident or health coverage to students. Through the Associated Students, a supplemental health insurance policy is available and recommended to students having no private medical or accident insurance coverage. The insurance includes hospitalization benefits and specified medical and surgical services. The policy may be purchased per semester or yearly basis. An open enrollment period is available the thirty days of each semester, and the policy may be purchased at the Aztec Center Ticket Office. The University makes no warranties as to the nature or quality of the coverage or the financial integrity of the insurers. The information on the availability of coverage is provided as a convenience to the students.

**Housing and Residential Life**

6050 Montezuma Road, (619) 594-5742

There are six residence halls/ complexes at San Diego State University including the Villa Alvarado apartments. Graduate students also have the option of living in the Piedra del Sol apartments, a new 66-unit complex that offers entirely independent apartment living in two-, three-, and four-bedroom unfurnished units. These apartments are leased on a 12-month basis with priority given to upper division and graduate students.

The Villa Alvarado apartments are available for the academic year by license agreement. These furnished two bedroom apartments offer double accommodations for four residents. A full-time professional Residence Hall Coordinator and six part-time Resident Advisors live on-site and offer a residence life program in support of community living. Early application and contracting is highly recommended.

Graduate students may also choose traditional, double residence hall housing in Chapultepec, Tenochca or Zura. Students needing housing over the breaks may select the Templo del Sol complex which remains open over Thanksgiving, Winter and Spring breaks. These undergraduate halls house students for the academic year. Early application and contracting is highly recommended.

Housing applications are accepted beginning each November 1 for the following academic year and beginning September 1 for the following Spring semester. License agreements are available beginning May 15 for the following academic year and beginning November 1 for the following Spring semester.

**Off-Campus Housing**

Since family housing is not available on campus, off-campus housing serves the needs of families and others. The Housing and Residential Life Office maintains an Off-Campus Housing Web site with current listings of off-campus rental units. In addition, listings of available dwellings and also of students seeking roommates are posted next to the Housing and Residential Life Office. Off-campus housing accommodations in the San Diego area include apartments, condominiums, houses, rooms in private homes, etc. To view listings posted on the Web site, visit the Housing main page at www.sa.sdsu.edu/hrlo.

**International Student Center**

International Student Center, (619) 594-1982
www.sa.sdsu.edu/isc

More than 700 international students from 75 countries attend SDSU. Through the support provided by the International Student Center, these students can find assistance in reaching their educational goals. Services include prearrival advising, orientation to campus life, academic and immigration advising, and a housing referral service.

The International Student Center also coordinates a variety of activities designed to foster intercultural goodwill, understanding, and friendship. One such activity is provided by the Intercultural Ambassadors, through which selected international students make home-country presentations in San Diego schools. In addition, the ISC invites faculty, staff, and the community to become American Friends to international students new to the SDSU community and to participate in the many events listed in the ISC Calendar of Intercultural Activities. These include the International Coffee Hour, the Whole Earth Dialogue Series, the International Festival, and the Intercultural Exchange Camps.

**Ombudsmen**

Student Services, Room 3635, (619) 594-6578

Becoming a student at SDSU also means becoming a member of a special community which includes students, faculty, staff, and administrators. As a member of this community, students are responsible for knowing and complying with established rules and regulations.

The Ombudsmen are independent and impartial agents who help individuals and groups seeking the resolution and correction of complaints. The Ombudsmen act as liaisons between students and the University, assisting students through formal grievance procedures and functioning to mediate and reinforce other
means of redress when possible. This office does not supplant existing avenues of redress. It exists to encourage appropriate and timely access to those existing processes which may best resolve the problem.

Examples of student complaints which have been resolved through this process include disputes over grades, faculty or staff conduct, academic disputes, appeals or waivers, administrative policies, and institutional compliance with federal and state non-discrimination laws. Should a complaint not be resolved at the referral level, the Ombudsmen may act as mediators and suggest compromise solutions between parties. If the problem is still unresolved, the student may file a grievance with the student grievance committee. No student grievance can be filed with this committee later than the last day of the semester (excluding summer session) after the semester during which the student was allegedly aggrieved.

Parking and Transportation

Where possible, carpooling or use of alternate modes of transportation is recommended. For carpool registration, contact School Pool (1-800-COMMUTE). For additional carpool information call (619) 594-5224.

San Diego Transit has six bus routes connecting the metropolitan area with service to the University Transit Center. These are routes 11, 13, 55, 81, 115, and 936. Monthly bus passes can be purchased at the Aztec Center Ticket Office. San Diego Transit information at 1-800-COMMUTE will provide further information concerning bus routes, fares, and services, or use the free online transit information service at www.sdcommute.com.

Visitor parking is available on metered lots. On-campus parking for students and employees is by permit only. Parking structures are located on the perimeters of the campus in addition to surface parking lots. A free shuttle bus service to remote parking lots operates daily during the academic year. Major events at Cox Arena may require parking location adjustment. Visitors are directed to the Information Booth at the College Avenue entrance to the campus for directions to appropriate parking areas. For further information on parking at the San Diego campus, contact the Department of Public Safety, (619) 594-6671. For visitor parking at the Imperial Valley Campus, call (760) 357-5500.

Test Office

Student Services, Room 2549, (619) 594-5216, FAX: (619) 594-5036
www.sa.sdsu.edu/testofc/testpage.html

The Test Office is an important resource for the entire University community, serving both students and faculty by administering paper and pencil and computer based tests for the purpose of admission, class placement, competency for graduation, licenses, credentials, and career planning. A library of standardized assessment instruments is maintained for use by faculty and students in testing classes. Test scoring and analysis services are provided for classroom tests.

Test dates for San Diego State University competency and placement tests are listed in the Test Information section of the current Class Schedule. Advance reservations as well as fee payments are required for most tests. The Test Office will provide students with test dates and registration procedures for major national examinations in the form of a bulletin of information or with the address of the testing service. Reservations for computer based tests can be made at the Test Office (619-594-0968). Students who are interested in assessments for counseling or career planning must contact Counseling & Psychological Services or Career Services. Special arrangements for disabled students are made through Disabled Student Services.

Although competency test requirements are monitored by various offices on campus, the Test Office will attempt to assist students in signing up for the required examinations or refer them to the proper agency.

Veterans’ Affairs

Student Services, Room 1510, (619) 594-5813

Students who are eligible for veterans, dependents, or reservists V.A. education benefits should visit SDSU’s Veterans Affairs Office (VAO). Services available through the VAO include assistance in applying for education benefits, coordinating the V.A. work/study program, and processing tutorial assistance paperwork.

Students planning to attend SDSU should contact the Veterans’ Affairs Office two months before the beginning of their first semester; they may be eligible for an advance payment of the first V.A. education check. For additional information, about the VAO or the services provided, please telephone or visit the office.
College of Extended Studies

Section I.
Continuing Education

Functions

The California State University regards the credit-bearing programs offered through Extended Education as integral parts of the institution. These programs are viewed as extensions of the institution’s educational services and are in concert with the institution’s overall mission and purpose. The programs and courses in Extended Education are expected to meet the standards of quality that the institution sets for its other programs and courses with regard to resources, faculty, level of instruction, evaluation, and support services.

The College of Extended Studies at San Diego State University serves as the principal University liaison with the adult community and provides a wide variety of traditional and nontraditional, credit and noncredit educational experiences designed to fit the life-style and expectations of lifelong learners. In addition, it provides a range of academic and special programs for students and groups during the summer months, in the evenings, and between semesters. Under the direction of the Dean of the College, programs are developed and carried out within five divisions: Special Sessions and Extension, Professional Development, American Language Institute, International Training Center, and Administrative Services. The majority of the programs are operated on a self-support basis since state funds are not provided for Continuing Education activities.

Summer Programs

The College of Extended Studies administers a comprehensive summer program for San Diego State University. Approximately 900 courses, workshops, short courses, interdisciplinary and experimental offerings, and special programs are available for matriculated students, students from other institutions, qualified high school students, as well as individuals from the community. Credit earned during the summer is applicable to graduation and residence requirements; however, admission to the University is not required for summer attendance.

Several major sessions are scheduled each summer: two 3-week terms; three 6-week terms; and a variety of other terms. However, not more than 12 units of credit earned in each summer may be included on a program of study for an advanced degree. The summer program is offered from approximately the first of June through the middle of August each year.

A graduate student may earn credit in residence that may be used to satisfy the requirements for an advanced degree or for a credential. If a student plans to offer work taken in a summer session to satisfy the requirements for an advanced degree, the student must make early application for admission to the University with classified graduate standing at Graduate Admissions of the Graduate Division.

Students planning to attend the University during the fall semester must be cleared for admission through the Graduate Division.

The Summer Sessions Catalog, which includes the registration form and all necessary information about the Summer Sessions, is usually available in mid-March.

Winter Session

The College of Extended Studies administers a special academic program during the winter recess period titled “Winter Session.” This special session provides students an opportunity to earn resident academic credit through participation in concentrated coursework. Credit earned during Winter Session is applicable to graduation and residence requirements. Admission to the University is not required for Winter Session attendance.

Open University

Most regular on-campus courses are open to students through enrollment in Open University. Like courses offered in the summer and winter special sessions, Open University courses earn resident credit, and enrollment for students not seeking an advanced degree or advanced certificate does not require formal admission to the University. Enrollment in courses through Open University is on a space available basis with the consent of the instructor and approval of the chair of the department in which the course is offered. Students pay College of Extended Studies fees for these units. The course repeat policy applies to courses repeated through Open University. Consult the College of Extended Studies or the current Class Schedule for complete details on Open University qualifications and registration procedures.

Open University classes may not be taken by the following:
1. Nonmatriculated foreign students (nonresidents from non-English-speaking countries) with a score of less than 550 on the Test of English as a Foreign Language (TOEFL) or its equivalent.
2. Foreign students with I-20 visas from another university.

Limitations on Open University and Special Sessions Credit

Not more than nine units of combined coursework in Open University and special sessions completed prior to admission to an advanced degree or an advanced certificate program will be acceptable on a program of study. Of those nine units, not more than six may be at the 600-, 700-, or 800-numbered level. Admission to an advanced program requires formal admission to the University and enrollment in at least one course offered in the regular semester for which the student was admitted, a recommendation of the graduate adviser of the particular program, and the approval of the Dean of the Graduate Division. Once so matriculated, students may take additional courses in Open University to meet degree or certificate requirements only with the prior permission of the Dean of the Graduate Division.

American Language Institute (ALI)

The American Language Institute offers noncredit intensive (20-25 hours per week) English programs throughout the year to students and professionals interested in improving their English proficiency. By enrolling in the ALI, students may take advantage of a program called conditional acceptance. Conditional acceptance is available to those students who require admission or
College of Extended Studies

Study Programs.

study programs which are designed to give students and commu-
372
ty provide experiences for real language use. Pro-

It is offered to students
who do not have an adequate command of English or the
required TOEFL (Test of English as a Foreign Language) score to
quality for admission to the University. After transcripts of
their academic work have been evaluated by SDSU staff, students may
receive an official letter of conditional admission which states
that the student has met all University requirements except
English language proficiency and may enter the University after
training at the American Language Institute and achieving
appropriate TOEFL scores.

Programs offered by ALI are as follows:

English for Academic Purposes - An 11- to 17-week
course for students planning to enter San Diego State or other
colleges or universities. Classes are offered in reading, writing,
grammer, academic listening/note-taking and academic speak-
ing, as well as in special areas, including TOEFL, GMAT, and
GRE test preparation and business topics. In addition, students
may choose from over 30 elective course offerings, and TOEFL,
GMAT and GRE preparation. Students may also specialize in
Pre-MBA preparation.

Highly advanced students may register for three to twelve
units of SDSU courses in addition to their English classes.

Intensive English Communications - A 3- to 19-week
course emphasizing oral skills and cultural experiences. Classes
include eight hours of oral communication in addition to 12
hours of reading, writing, structure and listening per week. Elec-
tive courses are offered, and directed activities at SDSU and in
the community provide experiences for real language use. Pro-
fessionals in IEC may specialize in Intensive English for Manag-
ers. Regular field trips to places of educational and recreational
interest are an integral part of the program.

Specific Purposes Programs - Programs for students and
professionals with specific needs, including Management and
Business English, Business Seminar for International Executives,
Seminar for International Teachers of English, Certificate in
Business Administration Program, and Pre-MBA Preparation
are offered.

Summer and Winter Special Programs - A number of
special short-term programs are offered by the ALI each summer
(e.g., Management and Business English, Business Seminar for
International Executives, Seminar for International Teachers of
English, English Language Study Tours). These can be arranged
for groups or individuals.

Services - All students at the Institute are offered housing
assistance, counseling for university entrance, health services,
and orientation to university life.

Information about and applications for the ALI can be
obtained from the Director, American Language Institute. The
Web site address is www.americanlanguage.org.

Travel Study Programs

The College offers a variety of domestic and foreign travel
study programs which are designed to give students and commu-
nity members an opportunity to travel and earn units of credit.

For further information contact the Coordinator of Travel
Study Programs.

Certificate Programs

Certificate programs provide educational services to a wide
variety of groups and professional organizations. A listing of grad-
uate certificate programs available is described in Part I of this bul-
letin.

Extension

In order to meet the needs of the adult community, as well as
matriculated students, the College provides a variety of extension
courses, workshops and open university programs. For the conve-
nience of adult students most courses are scheduled in the eve-
nings or on weekends, on campus or at convenient learning
extension centers throughout the service area.

Extension Courses

Extension courses are offered each semester in a number of
areas including education, business administration, public adminis-
tration, and the arts and sciences. Many courses and programs are
developed in cooperation with off-campus organizations and
groups who have identified specific needs. Many one-unit week-
end workshops are also offered throughout the year. These
courses are listed in a special Extended Studies Catalog published
four times a year.

There is no limit on the total number of extension units for
which a student may enroll; however, the maximum extension
credit which may be used toward advanced degree requirements at
San Diego State University is six to nine units. Extension work is
considered the same as transfer credit and is not included in the
student’s San Diego State University scholastic average.

Retired Adults Education Program

Programs for retired adults are sponsored by the College of
Extended Studies at San Diego State University and operate out of
two locations – San Diego (Educational Growth Opportunities –
EGO) and Rancho Bernardo (The Continuing Education Center at
Rancho Bernardo).

Retired adults, who are interested in continued learning, partic-
ipate in these programs.

For further information, contact the Director of Retired Adult
Education Programs.

Professional Development

The Division of Professional Development provides business
and industry with programs that are responsive to the training and
development needs of their employees. Through the Division’s
activities, participants are kept abreast of the latest business and
managerial techniques that ensure they will add to the productivity
and profitability of their organizations.

Custom On-Site Training

SDSU’s Professional Development Division of the College of
Extended Studies specializes in developing and implementing on-
site training programs which meet specific needs of the San Diego
business community.

The programs serve medium as well as large businesses and
organizations with topics ranging from team building and commu-
nication skills to supervision, management development, process
improvement and executive programs.
Program leaders and training consultants are drawn from the academic and business worlds and have extensive practical experience.

The programs offer significant value for the time invested and are designed with quality and adaptability in mind.

Seminars and Workshops

The Division coordinates practical one- to five-day seminars and workshops aimed at increasing the skills of the business professional. These seminars are taught by local and national seminar leaders chosen from the business and academic worlds for their expertise and outstanding teaching ability. Topics addressed cover a wide range of business subjects, such as leadership, finance, marketing, manufacturing, quality and production issues, and customer service issues related to global competitiveness.

Corporate Partnerships: Professional Development

The Management Development Center and the Institute for Quality and Productivity, within Professional Development, offer membership benefits to companies joining at the Presidential, Director, and Associate levels. Representatives from member companies sit on advisory boards and play an active role in designing and selecting training courses and instructors. In addition, the annual membership enables the company to get more training for its training dollars. A third benefit to members is the networking opportunities that develop through association with other companies with similar training needs.

International Training Center

The International Training Center (ITC) addresses the new opportunities in professional development, training, and technology transfer created by the increasing globalization of our economic, social and business activities. The Center is charged institutionally with a wide range of programs dealing with innovation, professionally relevant education and current issues of interest to the international community. Activities include collaborative projects with SDSU’s academic colleges and support units to deliver multilingual seminars, workshops, and courses internationally. The Center also advises and provides guidance to SDSU’s administration on international agreements and special projects of institutional interest.

The International Training Center brings significant University resources to bear on the challenges of international business and responds to global economic change through the following mechanisms:

- International videoconferencing, supporting professional and human resource development through interactive satellite communication. International experts present video-seminars on management, technology transfer, and countless other topics, supporting the training needs of government, industry, and education;
- Technical assistance in the use of modern instructional media;
- Training and professional development on topics related to global competitiveness; and
- Short term training and immersion programs on selected subjects of technological and professional interest.

The International Training Center exists to increase understanding of the new realities of global development, and to serve government and industry through technology training and human resource development.

Section II.
University Degree Programs

From time to time, the University offers highly specialized advanced degree programs through the College of Extended Studies designed to serve discrete groups of students and the special needs of the community. These programs conform to the standards and requirements established by the Graduate Council for all graduate degree curricula. Students enrolling in these programs are fully matriculated and are expected to fulfill all of the academic requirements as described in this Bulletin, including formal admission to the University and to the individual program.

Because of the special nature of these programs, scheduling of courses may not follow the traditional semester schedule. This allows maximum flexibility in the modes, timing, and place of instruction that will best serve the needs of the participating groups. These programs are not supported by the state; correspondingly, the fee structure is different from that listed in this Bulletin. Once accepted into the program, students register for classes and pay fees through the College of Extended Studies. Since these fees cover only the cost of instruction, students who desire access to such services of the associated students as health and placement will be required to pay additional fees on campus.

The following programs described in detail in Part Three of this Bulletin are currently offered through special arrangements with the College of Extended Studies. Persons interested in further information are invited to contact the program coordinator.

Master of Business Administration for Executives (M.B.A.)

A two year program designed for mid-career business executives who have substantial work and managerial experience. Classes meet on alternate Fridays and Saturdays. Approximate cost: $27,600.

Master of Arts in Education with a Concentration in Educational Leadership

A two year program designed for employed teachers, administrators, and supervisory personnel who have substantial experience. Preference is given to international students. Courses are offered at various times during the academic year. There is extensive use of mediated technologies and specialized sessions. Approximate cost, excluding books: $8,500.

Master of Science in Regulatory Affairs

A 40 unit interdisciplinary program offered under the auspices of the Center for Bio/Pharmaceutical and Biodevice Development. The curriculum is designed for regulatory affairs professionals and focuses on the laws and regulations imposed by the Federal government, especially the Food and Drug Administration. Particular concerns are related to drug discovery, development, testing, and manufacture of products for commercial distribution. Approximate cost: $18,000.

Master of Science in Rehabilitation Counseling

A three year, 60 semester hour program, designed for currently employed rehabilitation personnel who are counselors and service providers. Courses are offered throughout the calendar year. There is extensive use of mediated technologies. Approximate cost, excluding books: $13,000.
Imperial Valley Campus

Dean
Khosrow Fatemi

Faculty
Emeritus: Ayala, Baldwin, Ballesteros, Erzen, Franklin, Harmon, Hill, King, Polich, Rodney, Spencer, Varela-Ibarra
Professors: Dunn, Elizondo, Fatemi, Medeiros, Merino, Reyes, Ryan
Associate Professors: Castañeda, Garrison, Neumann, Padmanabhan, Sabath, Shumaker, Stampfl
Assistant Professors: Amaral, Camara, Champion, Hughes, Lovett

General Information
The Imperial Valley Campus is a two-year upper-division campus of San Diego State University serving the desert area of southeastern California. It is accredited as an integral division of SDSU and operates under the same academic calendar. Established in 1959 by an act of the State legislature, the campus is located in the Imperial Valley on the Mexican border in the city of Calexico. Offering the last two years of undergraduate education, graduate programs, and fifth year credential programs for teacher preparation, the campus accepts transfer students from community colleges or other colleges, who have at least 56 units. The Imperial Valley Campus offers students the advantages of SDSU and operates under the same academic calendar.

Curricula Offered

Master of Arts degree in Education
Concentration in Elementary Curriculum and Instruction
Concentration in Secondary Curriculum and Instruction
Master of Public Administration
Master of Science degree in Business Administration
Concentration in International Business

Certificate Programs
Business Administration, Court Interpreting, Public Administration, Translation Studies

Teaching Credentials
Basic: Multiple Subject Cross-Cultural Language and Academic Development (CLAD) emphasis, Multiple Subject Bilingual Cross-Cultural Language and Academic Development (B/CLAD) emphasis: Spanish, Single Subject Specialist: Administrative Services (Both in conjunction with the College of Education)

For further information on any of these degrees, see the SDSU – Imperial Valley Campus Bulletin.

Study Abroad
Graduate students at San Diego State University, Imperial Valley Campus can enhance their education and cultural awareness by taking part in several of the many opportunities available to study abroad. The campus has active exchange agreements with universities in Argentina, Brazil, France, Mexico, Morocco, and Paraguay. Several other agreements are in the process of negotiation with different academic institutions around the world, including England and Spain.

In addition to IVC’s own international programs, students may participate in the California State University International Programs; the SDSU spring semester programs in London, Paris, and Salamanca; or the winter and summer sessions in Costa Rica and Mexico.

Research Center

California Center for Border and Regional Economic Studies (CCBRES)
The California Center for Border and Regional Economic Studies (CCBRES) specializes in research and database development in the two areas of U.S.-Mexican trade relations and the Imperial Valley. The Center collects and compiles statistics on trade between California and Mexico, encourages research in this area, publishes a monthly bulletin of in-house and sponsored analyses of the issues involved in bilateral trade. CCBRES also hosts conferences and workshops on border issues, ranging from trade and economics to sociological and educational issues. The Center’s goal is to become a national resource center for California-Mexican trade relations.

As related to the economic situation in the Imperial Valley, CCBRES is in the process of developing and maintaining a current economic profile of the Imperial Valley. The data will include economic indicators such as demographic information, quality of life, labor and agricultural statistics, and macro economic indicators.
Facilities

The campus is located on an eight-acre city block in the heart of Calexico’s civic center along the Mexican border. The campus facilities create a pleasing architectural harmony of old and new structures surrounding a spacious central lawn area, the Rollie Carrillo Quad. Adjoining the quad, the expanded library, Rodney Auditorium, and John Stepping Art Gallery provide academic and cultural resources for the entire community. Other buildings include classroom buildings, the administration building, faculty offices, a computer lab, a bookstore, and the Student Union.

The library is designed to facilitate research and to provide a pleasant atmosphere for study. The collection is expanding and has more than 110,000 volumes, periodicals, and newspapers which support the curricula offered on the Imperial Valley Campus. Services provided include reference assistance, CD ROM databases, personal computers for word processing, full text database, Internet access, interlibrary loans, and photocopying facilities.

Computer assistance is available in the computer lab. Both Macintosh and IBM compatible systems and Internet access are also available on campus. Tutoring is available from the Learning Center, located in the library.

Admission and Registration

To apply for admission to the Imperial Valley Campus, students must file a complete application and transcripts as outlined in Part Two of this bulletin. Both completed application forms and transcripts should be sent to the Admissions Office, San Diego State University, Imperial Valley Campus, 720 Heber Avenue, Calexico, California 92231. Please telephone (760) 768-5509 for further information. Students can register by the touchtone registration system (RegLine), but only after fees are paid. Late registration is allowed during the first two weeks of the semester. Students wishing to late register must pay registration fees plus a $25.00 late fee.

Commencement

The Imperial Valley Campus holds its own commencement exercises each spring in the Rollie Carrillo Quad area prior to the commencement exercises on the San Diego campus.
The California State University

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972 the system became The California State University and Colleges and in 1982 the system became The California State University. Today the campuses of the CSU include comprehensive and polytechnic universities and, since July 1995, the California Maritime Academic, a specialized campus.

The oldest campus - San José State University - was founded in 1857 and became the first institution of public higher education in California. The most recently opened campus - California State University, Monterey Bay, began admitting students in the fall of 1995. A new site has been conveyed and a 23rd campus - California State University, Channel Islands - is being formally established in Ventura County.

Responsibility for the California State University is vested in the Board of Trustees, whose members are appointed by the Governor. The Trustees appoint the Chancellor, who is the chief executive officer of the system, and the Presidents, who are the chief executive officers of the respective campuses.

The Trustees, the Chancellor, and the Presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the Board of Trustees through the Chancellor.

Academic excellence has been achieved by The California State University through a distinguished faculty, whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for professional and occupational goals as well as broad liberal education. All the campuses require for graduation a basic program of “General Education Requirements,” regardless of the type of bachelor’s degree or major field selected by the student.

The CSU offers more than 1,600 bachelor’s and master’s degree programs in some 240 subject areas. Many of these programs are offered so that students can complete all upper division and graduate requirements by part-time, late afternoon and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

Enrollments in fall 1998 totaled nearly 350,254 students, who were taught by over 19,500 faculty. The system awards more than half of the bachelor’s degrees and 30 percent of the master’s degrees granted in California. Some 1.84 million persons have been graduated from CSU campuses since 1960.

Average Annual Cost of Education and Sources of Funds per Full-time Equivalent Student

The 23 campuses and the Chancellor’s Office of the California State University are financed primarily through funding provided by the taxpayers of California. The total State appropriation to the CSU for 1999/2000 (not including capital outlay funding in the amount of $260,033,000) is $2,252,941,000. However, the total cost of education for CSU is $3,015,710,000, which must provide support for a projected 279,403 full-time equivalent students (FTES). The number of full-time equivalent students is determined by dividing the total academic student load by 15 units per term (the figure used here to define a full-time student’s academic load).

The total cost of education in the CSU is defined as the expenditures for current operations, including payments made to students in the form of financial aid and all fully reimbursed programs contained in state appropriations, but excluding capital outlay appropriations and lottery funds. The average cost of education is determined by dividing the total cost by the total FTES. The average cost is further differentiated into three categories: State Support (the State appropriation, excluding capital outlay), Student Fee Support, and Support from Other Sources (Including Federal Funds).

Thus, excluding costs that relate to capital outlay, the average cost of education per FTE student is $10,793. Of this amount, the average student fee support per FTE is $1,830. (The State University Fee, application fee, and nonresident tuition are included in the average costs paid by the students; individual students may pay less or more than $1,830, depending on whether they are part-time, full-time, resident, or nonresident students.)
